PARLIAMENTARY DEBATES

(HANSARD)

SIXTH SERIES—VOLUME 479 (Part 2)

HOUSE OF COMMONS

OFFICIAL REPORT

THIRD SESSION OF THE FIFTY-FOURTH PARLIAMENT
OF THE UNITED KINGDOM OF GREAT BRITAIN
AND NORTHERN IRELAND
FIFTY-SEVENTH YEAR OF THE REIGN OF
HER MAJESTY QUEEN ELIZABETH II

SESSION 2007–2008

COMPRISING PERIOD
14 July 2008—6 October 2008

HER MAJESTY'S GOVERNMENT

MEMBERS OF THE CABINET

(Formed by the Rt. Hon. Gordon Brown, MP, June 2007)

Prime Minister, First Lord of the Treasury and Minister for the Civil Service—The Rt. Hon. Gordon Brown, MP
Chancellor of the Exchequer—The Rt. Hon. Alistair Darling, MP
Secretary of State for Foreign and Commonwealth Affairs—The Rt. Hon. David Miliband, MP
Secretary of State for Justice and Lord Chancellor—The Rt. Hon. Jack Straw, MP
Secretary of State for the Home Department—The Rt. Hon. Jacqui Smith, MP
Secretary of State for Defence and Secretary of State for Scotland—The Rt. Hon. Des Browne, MP
Secretary of State for Health—The Rt. Hon. Alan Johnson, MP
Secretary of State for Environment, Food and Rural Affairs—The Rt. Hon. Hilary Benn, MP
Secretary of State for International Development—The Rt. Hon. Douglas Alexander, MP
Secretary of State for Business, Enterprise and Regulatory Reform—The Rt. Hon. John Hutton, MP
Leader of the House of Commons, Lord Privy Seal and Minister for Women and Equality—The Rt. Hon. Harriet Harman, QC, MP
Secretary of State for Work and Pensions—The Rt. Hon. James Purnell, MP
Secretary of State for Transport—The Rt. Hon. Ruth Kelly, MP
Secretary of State for Communities and Local Government—The Rt. Hon. Hazel Blears, MP
Parliamentary Secretary to the Treasury—The Rt. Hon. Geoffrey Hoon, MP
Secretary of State for Children, Schools and Families—The Rt. Hon. Ed Balls, MP
Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster—The Rt. Hon. Edward Miliband, MP
Secretary of State for Culture, Media and Sport—The Rt. Hon. Andy Burnham, MP
Secretary of State for Northern Ireland—The Rt. Hon. Shaun Woodward, MP
Secretary of State for Wales— The Rt. Hon. Paul Murphy, MP
Leader of the House of Lords and Lord President of the Council—The Rt. Hon. The Baroness Ashton of Upholland
Chief Secretary to the Treasury—The Rt. Hon. Yvette Cooper, MP
Secretary of State for Innovation, Universities and Skills—The Rt. Hon. John Denham, MP
Captain of the Honourable Corps of Gentlemen-at-Arms—The Rt. Hon. The Baroness Royall of Blaisdon

DEPARTMENTS OF STATE AND MINISTERS

Business, Enterprise and Regulatory Reform—

Secretary of State—The Rt. Hon. John Hutton, MP

Ministers of State—
Minister for Trade Promotion and Investment—The Lord Jones of Birmingham
Minister for Employment Relations and Postal Affairs—Pat McFadden, Esq, MP
Minister for Energy—Malcolm Wicks, MP

Parliamentary Under-Secretaries of State—
Gareth Thomas, Esq, MP
The Baroness Vadera

Cabinet Office—

Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster—The Rt. Hon. Edward Miliband, MP

Minister of State—
Minister for the Olympics and London (Paymaster General)—The Rt. Hon. Tessa Jowell, MP*

Parliamentary Secretaries—
Phil Hope, MP (Minister for the East Midlands)*
Tom Watson, Esq, MP

Children, Schools and Families—

Secretary of State—The Rt. Hon. Ed Balls, MP

Ministers of State—
Minister for Schools and Learners—Jim Knight, MP
Minister for Children, Young People and Families (Minister for the North West)—The Rt. Hon. Beverley Hughes, MP*

Parliamentary Under-Secretaries of State—
Kevin Brennan, MP
The Lord Adonis

Communities and Local Government—

SECRETARY OF STATE—The Rt. Hon. Hazel Blears, MP

MINISTERS OF STATE—
Minister for Local Government—John Healey, MP
Minister for Housing—The Rt. Hon. Caroline Flint, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Baroness Andrews, OBE
Parmjit Dhanda, Esq, MP
Iain Wright, Esq, MP

Culture, Media and Sport—

SECRETARY OF STATE—The Rt. Hon. Andy Burnham, MP

MINISTER OF STATE—
The Rt. Hon. Margaret Hodge, MP, MBE

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Gerry Sutcliffe, Esq, MP

Defence—

SECRETARY OF STATE—The Rt. Hon. Des Browne, MP

MINISTER OF STATE—
Minister for the Armed Forces—The Rt. Hon. Bob Ainsworth, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Rt. Hon. The Baroness Taylor of Bolton
Derek Twigg, MP

Environment, Food and Rural Affairs—

SECRETARY OF STATE—The Rt. Hon. Hilary Benn, MP

MINISTERS OF STATE—
Minister for Sustainable Food and Farming and Animal Health—The Rt. Hon. The Lord Rooker
Minister for the Environment—Phil Woolas, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Joan Ruddock, MP
Jonathan Shaw, MP (Minister for the South East)*

Foreign and Commonwealth Affairs—

SECRETARY OF STATE—The Rt. Hon. David Miliband, MP

MINISTERS OF STATE—
Minister for Europe—Jim Murphy, Esq, MP
Minister for the Middle East—Dr. Kim Howells, MP
The Rt. Hon. The Lord Malloch-Brown, KCMG
The Lord Jones of Birmingham

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Meg Munn, MP

Government Equalities Office—

MINISTER FOR WOMEN AND EQUALITY—The Rt. Hon. Harriet Harman, QC, MP

MINISTER FOR EQUALITY—Barbara Follett, MP*

Health—

SECRETARY OF STATE—The Rt. Hon. Alan Johnson, MP

MINISTERS OF STATE—
The Rt. Hon. Dawn Primarolo, MP
Ben Bradshaw, Esq, MP (Minister for the South West)*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Darzi of Denham, KBE
Ann Keen, MP
Ivan Lewis, Esq, MP

Home Office—

SECRETARY OF STATE—The Rt. Hon. Jacqui Smith, MP

MINISTERS OF STATE—
Minister for Security, Counter-Terrorism, Crime and Policing—The Rt. Hon. Tony McNulty, Esq, MP
Minister for Borders and Immigration—Liam Byrne, Esq, MP (Minister for the West Midlands)*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Vernon Coaker, Esq, MP
Admiral The Lord West of Spithead, GCB DSC
Meg Hillier, MP

Innovation, Universities and Skills—

SECRETARY OF STATE—The Rt. Hon. John Denham, MP

MINISTERS OF STATE—
Minister for Lifelong Learning, Further and Higher Education—Bill Rammell, MP
Minister for Science and Innovation—Ian Pearson, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
David Lammy, Esq, MP
The Baroness Morgan of Drefelin

International Development—

SECRETARY OF STATE—The Rt. Hon. Douglas Alexander, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Gareth Thomas, Esq, MP
Gillian Merron, MP
Shahid Malik, Esq, MP

Justice—

SECRETARY OF STATE—The Rt. Hon. Jack Straw, MP

MINISTERS OF STATE—
The Rt. Hon. David Hanson, Esq, MP
Michael Wills, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Hunt of Kings Heath, OBE
Bridget Prentice, MP
Maria Eagle, MP

Law Officers' Department—

ATTORNEY-GENERAL—The Rt. Hon. The Baroness Scotland of Asthal, QC

SOLICITOR-GENERAL—Vera Baird, QC, MP

ADVOCATE-GENERAL FOR SCOTLAND—The Lord Davidson of Glen Cova, QC

Leader of the House of Commons—

LEADER OF THE HOUSE OF COMMONS, LORD PRIVY SEAL AND MINISTER FOR WOMEN AND EQUALITY—The Rt. Hon. Harriet Harman, QC, MP

DEPUTY LEADER OF THE HOUSE OF COMMONS—Helen Goodman, MP

Northern Ireland—

SECRETARY OF STATE—The Rt. Hon. Shaun Woodward, MP

MINISTER OF STATE—
Paul Goggins, MP

Privy Council Office—

LORD PRESIDENT OF THE COUNCIL AND LEADER OF THE HOUSE OF LORDS—The Rt. Hon. The Baroness Ashton of Upholland

Scotland Office—

SECRETARY OF STATE—The Rt. Hon. Des Browne, MP

MINISTER OF STATE—
David Cairns, MP

Transport—

SECRETARY OF STATE—The Rt. Hon. Ruth Kelly, MP

MINISTER OF STATE—
The Rt. Hon. Rosie Winterton, MP (Minister for Yorkshire and the Humber)*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Jim Fitzpatrick, MP
Tom Harris, Esq, MP

Treasury—

PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Gordon Brown, MP

CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Alistair Darling, MP

CHIEF SECRETARY—The Rt. Hon. Yvette Cooper, MP

FINANCIAL SECRETARY—The Rt. Hon. Jane Kennedy, MP

EXCHEQUER SECRETARY—Angela Eagle, MP

ECONOMIC SECRETARY—Kitty Ussher, MP

PARLIAMENTARY SECRETARY—The Rt. Hon. Geoffrey Hoon, MP

MINISTER OF STATE—Liam Byrne, Esq, MP (Minister for the West Midlands)*

LORDS COMMISSIONERS—
Frank Roy, Esq, MP
Steve McCabe, MP
Alan Campbell, Esq, MP
Dave Watts, Esq, MP
Claire Ward, MP

ASSISTANT WHIPS—
Siobhain McDonagh, MP
Michael Foster, Esq, MP
Tony Cunningham, MP
Alison Seabeck, MP
Ms Diana R. Johnson, MP
Mark Tami, MP
Sadiq Khan, Esq, MP
Bob Blizzard, Esq, MPs
Wayne David, Esq, MP

Wales Office—

SECRETARY OF STATE—The Rt. Hon. Paul Murphy, MP

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Huw Irranca-Davies, MP

Work and Pensions—

SECRETARY OF STATE—The Rt. Hon. James Purnell, MP

MINISTERS OF STATE—
Minister for Pensions Reform—Mike O'Brien, Esq, QC, MP
Minister for Employment and Welfare Reform—The Rt. Hon. Stephen Timms, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Anne McGuire, MP
James Plaskitt, Esq, MP
The Lord McKenzie of Luton
Barbara Follett, MP (Minister for the East of England and Minister for Equality)*

Her Majesty's Household—

LORD CHAMBERLAIN—The Rt. Hon. The Earl Peel, GCVO, DL

LORD STEWARD—The Duke of Abercorn, KG

MASTER OF THE HORSE—The Lord Vestey

TREASURER—The Rt. Hon. Nicholas Brown, MP (Minister for the North East of England)*

COMPTROLLER—The Rt. Hon. Thomas McAvoy, MP

VICE-CHAMBERLAIN—Liz Blackman, MP

CAPTAIN OF THE HONOURABLE CORPS OF GENTLEMEN-AT-ARMS—The Rt. Hon The Baroness Royall of Blaisdon

CAPTAIN OF THE QUEEN'S BODYGUARD OF THE YEOMAN OF THE GUARD—The Rt. Hon. The Lord Davies of Oldham

LORDS IN WAITING—The Lord Bassam of Brighton, The Lord Bach, The Lord Tunnicliffe

BARONESSES IN WAITING—The Baroness Farrington of Ribbleton, The Baroness Crawley, The Baroness Morgan of Drefelin, The Baroness Thornton

**Regional Ministers. Full list:*

Ministers for the English Regions—
Ben Bradshaw, Esq, MP (Minister for the South West)
The Rt. Hon. Nicholas Brown, MP (Minister for the North East of England)
Liam Byrne, Esq, MP (Minister for the West Midlands)
Barbara Follett, MP (Minister for the East of England)
Phil Hope, MP (Minister for the East Midlands)
The Rt. Hon. Beverley Hughes, MP (Minister for the North West)
The Rt. Hon. Tessa Jowell, MP (Minister for the Olympics and London)
Jonathan Shaw, MP (Minister for the South East)
The Rt. Hon. Rosie Winterton, MP (Minister for Yorkshire and the Humber)

SECOND CHURCH ESTATES COMMISSIONER, REPRESENTING CHURCH COMMISSIONERS—Sir Stuart Bell, MP

HOUSE OF COMMONS

THE SPEAKER—The Rt. Hon. Michael J. Martin, MP

CHAIRMAN OF WAYS AND MEANS—The Rt. Hon. Sir Alan Haselhurst, MP

FIRST DEPUTY CHAIRMAN OF WAYS AND MEANS—Mrs. Sylvia Heal, MP

SECOND DEPUTY CHAIRMAN OF WAYS AND MEANS—Sir Michael Lord, MP

CHAIRMEN'S PANEL

David Amess, Janet Anderson, Peter Atkinson, Hugh Bayley, Anne Begg, Joe Benton, John Bercow, Sir John Butterfill, Martin Caton, Christopher Chope, Frank Cook, John Cummings, Janet Dean, Roger Gale, Mike Hancock, Jim Hood, Joan Humble, Eric Illsley, Martyn Jones, Robert Key, Dr. William McCrea, Eric Martlew, Edward O'Hara, Bill Olner, Greg Pope, David Taylor, Joan Walley, Mike Weir, Hywel Williams, David Wilshire, Ann Winterton, Sir Nicholas Winterton

HOUSE OF COMMONS COMMISSION

The Rt. Hon. The Speaker (Chairman), Sir Stuart Bell, MP, The Rt. Hon. Harriet Harman, QC, MP, Nick Harvey, MP, The Rt. Hon. David Maclean, MP, The Rt. Hon. Mrs. Theresa May, MP

SECRETARY OF THE COMMISSION—Andrew Kennon

ASSISTANT SECRETARY—Jenny McCullough

ADMINISTRATION ESTIMATE AUDIT COMMITTEE

The Rt. Hon. Mrs. Theresa May, MP (Chairman), Clive Betts, MP, Nick Harvey, MP, Sir Thomas Legg, KCB, QC, David Taylor, FCA

SECRETARY OF THE AUDIT COMMITTEE—Tracey Garratty

MANAGEMENT BOARD

Malcolm Jack, PhD (Chief Executive), Douglas Millar, CB (Director General, Chamber and Committee Services), John Pullinger (Director General, Information Services), Andrew Walker (Director General, Resources), John Borley, CB (Director General, Facilities), Joan Miller (Director of Parliamentary ICT) (External Member)

SECRETARY OF THE MANAGEMENT BOARD—Philippa Helme

SPEAKER'S SECRETARY—Angus Sinclair

SPEAKER'S COUNSEL—John Vaux

SPEAKER'S CHAPLAIN—Rev. Canon Robert Wright

MEDICAL ADVISER TO THE SPEAKER—Dr. Ron Zeegen, OBE, FRCP, MRCS, DObst, RCOG

PARLIAMENTARY COMMISSIONER FOR STANDARDS—John Lyon, CB

PARLIAMENTARY SECURITY CO-ORDINATOR—Peter Mason

Written Ministerial Statements

Monday 14 July 2008

TREASURY

Tax Credits

The Financial Secretary to the Treasury (Jane Kennedy): Tax credits today provide support to 20 million people including around 6 million families and 10 million children. Take-up of tax credits is a significant success. Tax credits have played a key role in tackling child poverty: since 1998-99, some 600,000 children have been lifted out of relative poverty, compared to a doubling of child poverty in the previous 20 years. Tax credits also play a major role in moving people into work and helping people move up the employment ladder, ensuring that work pays over welfare.

Over the past 12 months, HM Revenue and Customs (HMRC) has significantly accelerated its work programme for measuring error and fraud in the tax credits system and has today published its estimates for both 2005-06 and 2006-07. A copy of these statistics has been deposited in the Libraries of both Houses and is available on the HMRC website.

The figures show that HMRC has reduced the level of error favouring the customer from 9.2 per cent. of all tax credit entitlement in 2003-04 to 7.6 per cent. in 2006-07, and the levels of fraud from 0.6 per cent in 2003-04 to 0.2 per cent in 2006-07.

I have today set HMRC a target to further reduce levels of error and fraud to no more than 5 per cent. of finalised entitlement by the end of March 2011. HMRC is committed to achieving this challenging target.

HMRC has strengthened its strategy for reducing error and fraud, building on the Tax Credits Transformation Programme. This programme has improved HMRC's understanding of tax credit customers, enabling the Department to better support customers to get their claim right.

HMRC will deliver targeted assistance to customers making a new claim, to help them claim more easily. This could range from straightforward advice when a customer requests a claim form to intensive help over the phone or face-to-face.

Existing customers will receive support in areas in which they have difficulty to ensure that they are providing the correct information on which to base their awards, and help with the renewals process. For example, during this years' renewal window HMRC is proactively contacting vulnerable customers to offer them additional assistance to renew their claims. From September, HMRC is also rolling out new services to proactively seek information from customers and make better use of information already held, to help mitigate against errors relating to an individual's award.

HMRC is also embedding this deeper understanding of customer behaviour into its compliance programme, deploying resources to areas of greatest risk with the aim of identifying incorrect claims and supporting customers to prevent errors in the future.

HMRC also remains vigilant to fraud. Previously published information on organised fraud shows that HMRC is successfully stopping the majority of claims identified as being submitted by organised fraudsters. The Department has implemented a range of measures designed to restrict the opportunity for fraudsters to abuse the system, including tighter control on the issue of claim forms, fraud awareness training for staff, and deploying compliance officers in tax credit call centres.

These measures, combined with the closure of the e-portal, have significantly reduced the level of identified losses due to organised fraud from the levels in 2005-06. In 2006-07 HMRC identified attempts to defraud the tax credit system of around £252 million. Of this the vast majority, some £212 million, was detected by HMRC before any money was paid out.

DEFENCE

Far East Prisoners of War and Civilian Internees

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): On 26 January 2007,1 announced that the Ministry of Defence would consider claims for compensation for injury to feelings resulting from discrimination on grounds of national origins from persons of non-UK national origins whose claim under the UK's ex gratia payment scheme for former Far East prisoner of war and civilian internees was rejected under the birthlink criterion. I am now announcing the cut-off date and arrangements for those compensation claims.

Claimants who think that they are entitled to compensation should write to the Service Personnel and Veterans Agency setting out the basis on which they consider themselves to be entitled to make a claim for indirect discrimination under the Race Relations Act 1976. The cut-off date for receipt of applications will be 31 December 2008.

We have consulted the Association of British Civilian Internees—Far East Region (ABCIFER) about these arrangements and will be seeking their support in publicising the cut-off date.

HOME DEPARTMENT

Draft (Partial) Immigration and Citizenship Bill

The Secretary of State for the Home Department (Jacqui Smith): I have laid before Parliament today a draft (partial) Immigration and Citizenship Bill to replace almost all of our current immigration laws with a single piece of legislation, together with plans to radically reform the path to citizenship for newcomers to Britain.

At the heart of the Bill are radical changes to nationality law to ensure that newcomers earn their way to citizenship with full access to benefits and social housing reserved for citizens and permanent residents. Full details of our policy are set out in "The Path to Citizenship: Next Steps In Reforming The Immigration System—Government Response To Consultation" which I am placing in the Library.

Economic migrants will need to speak English and prove they can hold down a job paying taxes to qualify for citizenship.

Committing even minor crimes will slow down citizenship. Serious crimes will trigger automatic deportation.

Citizenship will also be slowed down for those who do not make an effort to become an active citizen.

We will take powers to ask migrants to pay a little extra towards local public services.

In addition our draft Bill sets out how we propose to ensure that the sweeping changes that we are making this year to our border security and immigration system stick.

Ten measures will sit centre stage in the Bill and the immigration rules made under it:

Strong borders

New powers for frontline UKBA officers at foreign ports and airports to cancel visas.

Bringing customs and immigration powers at the border into the 21st century, consolidating and strengthening civil penalties for bringing passengers without the right papers and clandestine entrants to the UK.

Selective migration

The Bill proposes a clear legal duty on migrants to ensure they have permission to be in the UK, for example under our new points system.

The Bill introduces a single, streamlined power of expulsion for those without permission.

Earning the right to stay

Migrants will now have to earn their right to stay in the UK

Automatic bans on returns with new powers to exclude offenders and powers to require those who are expelled to repay costs to taxpayers if we allow them to come back.

Playing by the rules

The Bill gives a new power to require large 'bail bonds' for those awaiting decisions or expulsion, part of a tough menu of conditions for "Immigration bail" as an alternative to detention.

Confirming tough measures to prevent organised illegal immigration by attacking illegal working with civil penalties for employers who do not make the necessary checks.

Simplifying our appeals system to cut red tape; ensuring that the system is properly sensitive to the needs of vulnerable groups; honouring our international obligations to refugees and ensuring the UKBA safeguards and promotes the welfare of children.

Managing any local impacts

Full access to benefits for citizens and permanent residents, with migrants contributing a little extra to the cost of local services;

Our earlier consultations show widespread support for our ambition to reform and strengthen the law. Polling I am publishing today confirms that;

70 per cent. of the public think that newcomers should earn the right to stay in Britain;

83 per cent. think that immigrants in Britain should be made to learn English and;

69 per cent. agree that newcomers should be penalised on the path to citizenship if they do not obey the UK's laws.

But many want to see the detail to understand what we propose in practice. Today's draft Bill will help that debate.

The draft (partial) Bill is accompanied by a Narrative Document "Making Change Stick" which explains the Government's plans for further clauses which are not included in it at this stage.

The Government have also published today explanatory notes on the draft (partial) Bill, illustrative rules on protection and a partial impact assessment.

We have consulted widely in preparation for this Bill including consultations published in June 2007 and February 2008. We want to proceed in the same spirit of openness. We invite views from Parliament and the wider public before finalising the full Bill for introduction.

JUSTICE

Lockyer Service Review

The Parliamentary Under-Secretary of State for Justice (Maria Eagle): The Ministry of Justice is today publishing an internal review led by Kevin Lockyer, the then regional offender manager for the south-west region into indeterminate sentenced prisoners, including indeterminate sentences of imprisonment for public protection (IPP).

This review was a study into operational matters relating to the management and progress of indeterminate sentence prisoners through offender services. It was commissioned by Helen Edwards, then chief executive officer of the National Offender Management Service in April 2007. The review reported to the NOMS board in August 2007.

The review identifies various areas for improvements and proposed recommendations on how these improvements could be achieved. These recommendations were accepted in full by the NOMS board, who commissioned an implementation plan, which was agreed in September 2007.

The report identified five core principles for the better management of these prisoners.

These principles are:

The offender assessment should be front-loaded in order to facilitate sentence progression. An OASys assessment and an outline sentence plan should, wherever possible, be available at the point of sentence.

Case management arrangements must be streamlined.

Targeted interventions pathways should be developed to enable sentence progression.

Services should be tailored regionally to meet needs within nationally agreed arrangements.

Resources should follow risk and not the sentence.

In response to this report, NOMS established better case management arrangements through new, streamlined procedures for the management of indeterminate sentenced prisoners. This was to be achieved through the roll-out of phase three of the offender management model and through targeted work on IPP prisoners at or approaching their tariff date. It set out recommendations aimed at ensuring IPP prisoners have an assessment of need completed which leads to a sentence plan. It also sets out the need for improved access to the interventions contained in those plans. Good progress has been made, in particular in delivering assessments to those nearest their tariff expiry date and in moving IPP prisoners through the prison system.

NOMS also recognises that in the medium to long-term there would be a requirement to consider local needs further, and to develop plans to meet those needs against a background of budgetary constraints which may require a significant re-assessment of resource allocations.

This review is a important piece of work, providing clear, evidence-led recommendations to improve existing practice. The review team was made up of officials from NOMS, Her Majesty's Prison Service and a number of other bodies, and drew heavily on their experience and knowledge. I wish to take this opportunity to thank them all for their diligent work in producing this report.

I have deposited a copy in the Libraries of both Houses. Copies are also available in the Vote Office and the Printed Paper Office. The review can also be accessed at: www.justice.gov.uk/foi-indeterminate-sentence-prisoners.htm

LEADER OF THE HOUSE

Departmental Objectives and Annual Reports

The Leader of the House of Commons (Ms Harriet Harman): The Modernisation Committee published its second report of session 2007-08 (HC 530) "Debating Departmental Objectives and Annual Reports" on 30 April. This report responded to the invitation in the Government's Green Paper July 2007 "Governance of Britain" (Cm 7170) that the Committee should examine ways in which the House should be given additional opportunities to debate "the annual objectives and plans of the major Government Departments in order to strengthen further Parliament's scrutiny of the executive".

"Governance of Britain" noted that while Select Committees are already free, through the Liaison Committee, to select for debate the overall work of Departments (usually on the basis of a committee report or evidence on the Department's annual report), the only regular annual debates on departmental objectives take place on the work of the Treasury (through the Budget debate and the PBR statement), the Ministry of Defence (through the regular defence debates) and the Wales Office (through the debate on Welsh affairs). As a result "a year can pass with the objectives and plans of some Departments having never been properly discussed".

The Modernisation Committee report noted the competing pressures on available debating time in different parliamentary forums and that the most appropriate selection of Departments on which to hold debates may vary from year to year. It concluded that "additional opportunities to debate departmental objectives and annual reports could be provided by rebalancing the present programme of business and identifying existing opportunities more systematically, without the need for changes to the standing orders or the invention of a new formal procedure".

The Government agree with these conclusions and accordingly will be seeking to ensure that the annual objectives and plans of a range of Government Departments will be debated each year through a combination of existing procedures:

In the main Chamber, the Government will seek to identify opportunities for debate on individual Departments' objectives and plans as set out in annual reports:

either on the basis of a specific Motion that the House has considered the matter of the Department's objectives and plans; or

by 'tagging' the annual report or other appropriate report to a relevant debate;

This will be in addition to the opportunities already provided for the Treasury, Ministry of Defence and Wales Office. The Government will take into account any review of the number and allocation of the current annual Chamber debates.

In Westminster Hall, on the Thursday afternoon slots not specifically allotted by Standing Orders as being at the disposal of the Liaison Committee, the Government will seek to identify opportunities for departmental objectives debates:

by facilitating requests from the Liaison Committee for such debates on the basis of Select Committee reports or evidence; and

by identifying other opportunities for such debates at the initiative of the Government.

The Government would welcome a wider review into the work of Westminster Hall, which would provide an opportunity to examine whether further time for debates of this nature could be provided.

These opportunities will of course be in addition to any such debates that Select Committees table, through the Liaison Committee, for consideration on Estimates days. As noted in the second report of the present session from the Liaison Committee "Parliament and Government Finance: Recreating Financial Scrutiny" (HC 426), to which the Government will be responding shortly, the Treasury's Alignment project on the financial documentation (including the Estimates) made available to Parliament will provide an opportunity in due course for the House to review further the pattern of Estimates days and the exact forms of motion which it would be appropriate to consider on Estimates days.

Through these means it will be possible for the objectives and plans of a range of Government Departments to be debated each year, as envisaged in "Governance of Britain". Since there will be no single House procedure under which these debates will take place, the Government will monitor closely how this system is operating. As the Modernisation Committee has suggested, there could be scope on occasion for debates to be cross-departmental debates where the objectives (in the form of PSAs) link to more than one department and in some cases material and publications other than the departmental annual report will also inform the debate.

The Committee has also emphasised the importance of the relevant departmental Select Committee playing a central role in these debates, and proposes that debates should not take place until after the relevant Select Committee has completed its work on any departmental annual report. The Government certainly envisage that Select Committees will be key contributors to the debates and the Liaison Committee will be a major initiator of the debates in Westminster Hall. Many debates will take place on the basis of proposals instigated by committees themselves on the basis of work they have completed. For those debates not instigated by Select Committees, it is difficult to give a firm undertaking that debates should not take place until after a Select Committee has

completed its work, since different committees examine Departments' annual reports on very different timescales and there will be a range of factors influencing the timing of a debate; nevertheless the Government will seek to liaise with relevant committees and the Liaison Committee to try to ensure that any select committee work is taken into account in the timing of any such debate.

The Modernisation Committee emphasises that the new arrangements should be reviewed at the end of the current Parliament. The effectiveness of the new approach will no doubt also be reflected in the regular discussions between the Leader of the House and the Liaison Committee.

Topical Debates

The Leader of the House of Commons (Ms Harriet Harman): Subjects proposed (other than in Business Questions) for Topical Debates (April 08-June 08) are listed.

The list includes all requests and whether they have been submitted by letter, email or another method. The list does not include requests made during Business Questions, or otherwise on the floor of the House, and which are already a matter of public record. Weeks where there were no such requests are not included.

Week commencing 21 April

Biofuels (letter)

Week commencing 28 April

Occupational health and safety (telephone)

Prescription of antipsychotic drugs to people with dementia in care homes (letter)

Week commencing 12 May

Two requests for Anti-Semitism (email)

Trade relations with Cuba (letter)

Week commencing 19 May

House of Commons Freedom of Information ruling (in person)

Week commencing 16 June

Review of services for children and young people with speech, language and communication needs (email)

Bangladesh (email)

Week commencing 23 June

Forced marriages and rules applied for overseas nationals marrying British nationals (telephone)

TRANSPORT

Crossrail

The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris): During the earlier public stages of scrutiny of the Crossrail Bill and more recently during the House of Lords Grand Committee stage on Thursday 26 June 2008, amendments were proposed that would have placed specific obligations on the Secretary of State, the Mayor and Cross London Rail Links (CLRL) to publish information on an annual basis about the project's funding and finances.

The Government are committed to ensuring that there is a high level of transparency as to the progress and cost of the Crossrail project and we have already set out our intention in this area in the Heads of Terms which were signed by my right hon. Friend the Secretary of State for Transport and Transport for London (TfL) last November. We are currently working with parties to turn the Heads of Terms into binding legal documents with the intention of including a requirement on CLRL to publish financial information on an annual basis, subject to protecting commercial interests.

However, in recognition of the fact that these agreements are still being developed, I am prepared to give an additional assurance that information will be made available.

Therefore, I offer the assurance to Parliament that a statement will be published at least every 12 months until the completion of the construction of Crossrail, setting out information as to:

Total funding amounts provided to CLRL by the Department for Transport and TfL in relation to the construction of Crossrail to the end of the period covered by the statement

Expenditure incurred by CLRL in relation to the construction of Crossrail in the period covered by the statement

Total expenditure incurred by CLRL in relation to the construction of Crossrail to the end of the period covered by the statement

Whether the costs of the construction of Crossrail are likely to fall within the agreed budget and, if not, whether any measures are being taken in consequence

The amounts realised by the disposal of any land or property for the purposes of the construction of Crossrail by the Secretary of State, TfL or CLRL in the period covered by the statement.

The first statement will be published within 12 months from when the Act comes into force.

In disclosing such information, my right hon. Friend the Secretary of State or the nominated undertaker, will need to take account of any commercial interests.

This assurance will be placed on the Crossrail Register of Undertakings and Assurances.

Written Ministerial Statements

Tuesday 15 July 2008

COMMUNITIES AND LOCAL GOVERNMENT

North East Regional Spatial Strategy

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Parmjit Dhanda): My right hon. Friend the Secretary of State for Communities and Local Government is today publishing the North East of England plan, which is the final version of the North East regional spatial strategy. This is the latest in a series of comprehensive reviews of regional spatial strategies to be completed under the provisions of the Planning and Compulsory Purchase Act 2004.

The plan reflects consideration of responses to the consultations on the Secretary of State's proposed changes and further proposed changes which followed on from the independent examination in public carried out into the draft strategy in 2006.

The North East plan replaces the existing regional planning guidance (RPG1) which became the statutory RSS in September 2004, and the submission draft revision to that document called "View: Shaping the North East" which was published by the North East Assembly in June 2005.

One hundred and thirty people and organisations responded to the latest round of consultation which ended on 2 April 2008. Almost 1,300 representations were received with many of them expressions of support.

Careful consideration has been given to all of these responses and, as is required under appropriate legislation, a sustainability appraisal, a strategic environmental assessment and a habitats regulations assessment have been prepared and updated to help the plan deliver sustainable development.

The aim of the plan is to guide development in the North East to 2021 and also to set the direction of travel in the longer term. Key elements of the plan include:

A requirement for 128,900 net new dwellings to be built between 2004-21 (about 7,600 dwellings per annum). This level of growth can be achieved within RSS previously developed land targets and the overall direction of the strategy which focuses development within the conurbations of the Tyne and Wear and Tees Valley city regions, and includes a rural allocation appropriate to supporting sustainable rural communities.

A regional employment land portfolio (of about 3400 ha) and a suite of key employment locations which provide sufficient land to enable sustainable economic growth in the region, with appropriate policy criteria to ensure developments address wider sustainability issues including sustainable energy, transport and environmental protection.

A table of transport outcomes and related investment and management priorities using information on known commitments and schemes which have a real possibility of progressing.

A climate change policy requiring other strategies and plans contribute to meeting national policy as set out in the Energy White Paper to put ourselves on a path to cutting the UK's carbon dioxide emissions by some 60 per cent. by about 2050, with real progress by 2020.

A sustainable energy policy requiring major new developments secure at least 10 per cent. of their energy supply from decentralised and renewable or low-carbon sources where feasible and viable, ahead of local planning authorities setting their own targets.

Policies for sustainable waste management and minerals aggregates provision.

Policies for protecting and enhancing the built and natural environment, on matters including design quality, the historic environment, landscape and bio-diversity.

The plan represents a step change in addressing housing need in the North East and goes a long way to achieving what is likely to be required in the longer term to meet the Government's Housing Green Paper target.

Copies of the North East of England plan and the supporting documents will be available in the Libraries of both Houses, are being sent to the region's MPs and MEPs and will be available in local libraries and local planning authorities. They are also on the GONE website (www.go-ne.gov.uk) and can be purchased from The Stationery Office (TSO) either online (www.tsoshop.co.uk) or at TSO shops.

DEFENCE

Complex Weapons

The Minister for the Armed Forces (Mr. Bob Ainsworth): I am pleased to inform the House that the Ministry of Defence has concluded a teaming agreement with the industrial grouping known as Team CW[1] to take forward, to the next stage, the Government's intentions for the UK complex weapons sector. This agreement is underpinned by enabling contracts which we have placed with MBDA (UK) Ltd and Thales UK which, with the teaming agreement, will launch the assessment phase for the initiative as a whole and undertake specific concept and assessment work on six complex weapons programmes[2].

The assessment phase will assess further our ability to enter into a partnering arrangement and, through the programme activity, test an innovative way of developing weapons to meet the UK's military requirements, including the use of modularity and families of weapons. The teaming agreement, which has been signed by all of the Team CW partners, including the Ministry of Defence, links the two enabling contracts and formalises the governance arrangements for the duration of the assessment phase.

If successful, it is expected that the technologies developed to meet these initial military requirements will be adapted to meet the majority of our future weapons needs.

This approach has the potential to offer a greater level of capability to the front line while achieving value for money for the taxpayer and maintaining UK operational sovereignty over our complex weapons.

[1]Team CW is led by MBDA (UK) Ltd, and includes Thales UK, QinetiQ Ltd, and Roxel (UK Rocket Motors) Ltd. The Ministry of Defence is also a member of team CW.

[2]The projects are: Indirect Fire Precision Attack Loitering Munition (IFPA LM); Future Air to Surface Guided Weapon (FASGW); Storm Shadow Capability Enhancement Programme (SSCEP); Selected Precision Effects at Range (SPEAR), and Future Local Area Air Defence Systems (FLAADS).

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture and Fisheries Council

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): I and my hon. Friend the Under-Secretary of State, the Minister with responsibility for marine, landscape and rural affairs, Jonathan Shaw, will be representing the United Kingdom at this month's Agriculture and Fisheries Council in Brussels. The Scottish Minister for Rural Affairs, Richard Lochhead, will also be attending.

There are a number of items for discussion on this month's agenda relating to agriculture, covering the common agricultural policy health check, a proposal introducing a fruit and vegetable scheme in schools, and proposals authorising the placing on the market of products containing, consisting of or produced from genetically modified soyabean and cotton.

With regard to fisheries, the Council is due to agree the in-year TAC and quota adjustments for certain stocks, as well as the revised EU-Mauritania fishery agreement. The main fisheries item for discussion concerns the planned measures for coping with high fuel prices.

Under any other business, the Agriculture Commissioner will provide the usual update on the WTO-DDA negotiations.

Hungary and Romania have tabled AOB items respectively on non-recoverable VAT under the rural development regulation and on forestry policy.

2007-08 Annual Report and Accounts for Animal Health

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw): The 2007-08 annual report and accounts for Animal Health will be laid before Parliament today.

FOREIGN AND COMMONWEALTH OFFICE

Zimbabwe

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): Since the sham election on 27 June, conditions in Zimbabwe have deteriorated. International agencies estimate that 36,000 people have been displaced internally since the first round in March, at least 103 have been murdered and many thousands have received treatment for the injuries they have been dealt by the security forces. In spite of the promise of the authorities that the ban on their activities was temporary, aid agencies are still denied access to large swathes of the country, a restriction that means that 1.5 million people are still unable to access food aid and vital medicines that they need.

We have been clear that words are simply not enough, and that the international community as a whole must act. We have said openly that Zimbabwe's crisis is one that the world has a responsibility to respond to. That is why we supported the United States in their decision to table a resolution at the Security Council and to take that resolution to a vote on 11 July. The draft resolution had the nine votes that it needed to pass into law. It was co-sponsored by two African states—Liberia and Sierra Leone. Burkina Faso—an African member of the council—also voted in favour of it. All European and South American council members and the USA were behind it. That it was vetoed by Russia and China despite this clear and broad majority is something that the ordinary people of Zimbabwe—the victims of that violence and those who are denied that food and medicine—will not be able to understand.

I believe that it is right when one believes in a cause that should push others to be clear on their attitude to it. That Russia agreed to a G8 statement calling for further measures, including precisely the targeted sanctions that we were advocating but then—the same week—chose to vote against that resolution is now for them to explain. The terms of the draft UN resolution were widely discussed within the Council. Sufficient opportunity was given to explain reservations and to table amendments. Russia chose not to engage in that debate. China's decision to veto was deeply disappointing, too. We will continue to work with both states to persuade them to take a different course and to use their influence both in Zimbabwe and in the wider region to resolve the crisis.

The draft resolution did not cut across negotiations that the African Union had advocated in its own conclusions at its summit in Sharm el Sheik. We believe that dialogue between the parties can provide a way forward for Zimbabwe's crisis. But we need to be clear about the basis on which dialogue can be developed. At present we have one party that won a popular mandate in the parliamentary elections of 29 March, but whose members and supporters have been intimidated by the violence unleashed on them by the state and by ZANU-PF militia. We have another party that has refused to cede power, and that has used the full force of the state security apparatus to intimidate its citizens and turn the presidential run-off into a farce. To turn this context into one in which credible negotiations might begin, pressure is needed and the threat of an alternative approach that demonstrates what is at stake, personally, for the very people who believe they have least to gain from engaging in a process leading to democratic reform. That is why we will continue to advocate further targeted sanctions that focus on not just the 14 who would have been affected by the draft UN resolution but those around them and those who depend on them.

The UN itself estimates that 5 million people will need food aid in Zimbabwe by the end of 2008 if conditions do not improve. Given the humanitarian situation on the ground, the incalculable hyper-inflation and the increasing violence, the end of 2008 may bring a greater catastrophe still—for both Zimbabwe and the region—if the international community does not act to prevent it.

At the EU General Affairs and External Relations Council on 22 July, we will press for EU Foreign Ministers to agree to extend the number of persons on the EU visa ban and asset freeze list, for the first time to target companies and entities owned by such persons, and to tighten further the exemptions which allow Zimbabweans on that list to travel to the EU. This first wave of targeted measures will aim to act as a stimulus on the regime to engage in meaningful dialogue with the opposition. The regime and some of its sympathisers try to portray the 'talks about talks' that have occurred in South Africa last week as a breakthrough. We will not regard those talks as a breakthrough until they lead

not just to agreements on paper but to implemented changes on the ground, and in particular a transitional Government who reflect the will of the people as they voted on 29 March. Meanwhile, we shall work with like-minded partners to root out the sources of the regime elite's foreign currency and target their personal wealth. With our partners, we shall work with banks and financial institutions to underline the unacceptability of harbouring the cash of those who are directing or profiting from Zimbabwe's meltdown.

The opposition MDC and their leader Morgan Tsvangirai have been clear that basic preconditions must be met before any real negotiation can begin. Their demands are reasonable: the cessation of violence; the release of political prisoners; and the unfettered access of NGOs to the people who need them most and for whom the regime has long since forgotten its responsibilities. The onus now is on the region—the Southern Africa Development Community—and the African Union to demonstrate that they are serious about making dialogue work. We will also continue to advocate the appointment of a UN envoy to support President Mbeki's efforts to negotiate, and to investigate and report on human rights abuses on the ground.

For the first time in the election on 27 June, we saw all three major African election observer groups underline their public dissatisfaction with the vote and the outcome. It is now for Africa and its leaders to show that it will not accept the 27 June result as the basis for any future settlement, and that its commitment to democracy and to reform is real. We will support them in that goal. But calls for space and for time for negotiation to work can be taken seriously only when the conditions on the ground are conducive to meaningful dialogue. The current violence makes that impossible. Newly elected MDC MPs today are in hiding in Harare and elsewhere and are afraid to take up their roles. They are right to be afraid, and Africa and its leaders have a responsibility to respond to their concerns and to their constituents' concerns and remove the causes of that fear.

Robert Mugabe described his election campaign as a war. Morgan Tsvangirai was clear that the people of Zimbabwe did not want to join Mugabe's war. Zimbabwe's independence has been won long ago. No one is challenging its sovereignty or its right to be a nation. Our concern is that its people should have the right to choose who leads it and how it is governed, and that their choice be respected. Our twin-track approach of applying pressure on the regime elite via targeted sanctions and keeping the ordinary people of Zimbabwe alive through our contribution as the second largest bilateral donor of aid will continue. We will continue to meet our responsibilities on both, and we will press others to join us in that approach. The price of not doing so—in terms of the dead and the dying in Zimbabwe—means that we have no option but to continue.

Corruption Allegations (Turks and Caicos Islands)

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Meg Munn): The House of Commons Foreign Affairs Committee, in its report "Overseas Territories", published on 6 July, recommended amongst other things the appointment of a commission of inquiry into allegations of corruption in the Turks and Caicos Islands.

I wish to inform the House that on 10 July the Governor of the Turks and Caicos Islands announced the appointment of a commission of inquiry. The commission will inquire into whether there is information that corruption or other serious dishonesty in relation to past and present elected Members of the House of Assembly (previously known as the Legislative Council) may have taken place in recent years. It is to report to the Governor within sixteen weeks its preliminary findings and recommendations concerning:

(a) instigating criminal investigations by the police or otherwise;

(b) any indications of systemic weaknesses in legislation, regulation and administration;

(c) any recommendation that the inquiry's terms of reference be extended;

(d) any other matters relating thereto.

The Commission will be led by the Rt Hon Sir Robin Auld. He is undertaking a short initial visit to the territory from 13-16 July followed by a period of preparation in the UK leading to his main visit to the Turks and Caicos Islands in September/October. He will submit the preliminary report and recommendations to the Governor by 3 November.

The Commission will conduct such parts of its inquiry as it deems appropriate in camera, in the interests of confidentiality. In addition, the commissions of inquiry ordinance provides that anyone who attempts to interfere with this process is liable, on conviction, to a fine, imprisonment, or both. The Commission also has powers to summon any person in Turks and Caicos Islands to attend to give evidence.

In addition, a number of important steps have recently been taken or are currently underway to reduce the scope for corruption and to improve capacity in the Turks and Caicos Islands to deal with it should it occur. These include the establishment of an integrity commission, a human rights commission, a complaints commissioner, a ministerial code, a public service code of ethics and integrity and the appointment of a highly experienced Chief Auditor, and the adoption of a comprehensive proceeds of crime ordinance.

HOME DEPARTMENT

Youth Action Plan

The Secretary of State for the Home Department (Jacqui Smith): The Government have today published the Youth Crime Action Plan, the first ever cross-Government plan for dealing with the full range of issues around youth crime.

The plan focuses on three key areas: tough enforcement where behaviour is unacceptable or illegal; more non-negotiable support to address the underlying causes of poor behaviour, including more parenting orders and the new Youth Rehabilitation Order that can require young people to attend education, go to an attendance centre for group work or undertake treatment for drug and substance abuse; and better prevention to tackle problems before they become serious or entrenched.

The plan sets out the Government's aim to reduce by one fifth the rate of young people aged 10 to 17 entering the criminal justice system by 2020, and introduces a new national goal to reduce substantially the number of young victims by 2020.

The plan builds on the Government's existing investment to support children, young people and families, with almost £100 million available over the next three years under the Youth Crime Action Plan for measures to cut youth crime in the short term and prevent it in the long term.

Copies of the action plan are available in the House Library, the Vote Office and on the Home Office website at www.homeoffice.gov.uk.

JUSTICE

Prison Long Service and Good Conduct Medal

The Minister of State, Ministry of Justice (Mr. David Hanson): Her Majesty the Queen has graciously given her approval for the introduction of a prison long service and good conduct medal.

This medal will be awarded to operational staff in the UK prison services on completion of 20 years continuous meritorious service and brings operational prison staff in line with other comparable organisations such as the police, fire service, ambulance service and the military, as well as other prison/correctional services within the Commonwealth. Prison officers do a difficult and dangerous job and it is right that they will in future receive public recognition for this vital work.

CABINET OFFICE

Public Services Forum (Government Contracting)

The Parliamentary Secretary, Cabinet Office (Mr. Tom Watson): As Chair of the Public Services Forum (PSF) I have today placed in the Library of the House a new joint statement on access to skills, trade unions and advice in Government contracting developed by the PSF. This joint statement was developed in partnership by Government, trade unions, business and the third sector and its aim is to improve the quality of services delivered under Government contracts by raising the skills of employees working on these contracts.

For the UK to compete in the modern global economy, a world-class skills base is needed. Government have set a challenging target to ensure almost all adults (95 per cent.) have basic literacy and numeracy skills by 2020. It is important for Government to lead by example in making progress on this agenda, and to provide a framework for social partners to do the same. This joint statement will give many of those who work on Government contracts the opportunity to develop their basic skills where needed. This will have benefits for those who use public services, the individual employee and for the employer.

TRANSPORT

Rail Franchise Enforcement Policy

The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris): The Department for Transport has today published the results from a consultation paper on rail franchise enforcement policy, "Rail Franchise Agreements and Closure Conditions".

The document summarises the responses received to the consultation document together with the outcomes stated by the Department. The policy document details the Department's stepped and pragmatic approach to enforcement. It also contains a statement of policy with respect to the imposition of penalties and the determination of their amount, which the Department has a legal obligation to consult on.

The purpose of the publication of the results is to provide transparency to the Department's current policy and to ensure that it is easily understood. We acknowledge and welcome the input provided by the rail industry. It is available on the DfT's website. Copies have been placed in the Library of the House.

WORK AND PENSIONS

Pension, Disability and Carers Service Business Plan

The Minister for Pensions Reform (Mr. Mike O'Brien): I am pleased to announce that the 2008-09 business plan for the Pension, Disability and Carers Service, an executive agency of the Department for Work and Pensions, has been published today.

The annual performance targets for the Pension, Disability and Carers Service in 2008-09 were previously published on 27 March 2008. Further information on these targets is contained within the business plan, copies of which have been placed in the Library of the House.

Social Security Benefits

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): It has been brought to my attention that the reply I gave the hon. Member for Hornsey and Wood Green, (Lynne Featherstone), (*Official Report*, 5 June 2008, column 1094W), contained incorrect information on the number of incidents of benefit fraud reported to the benefit fraud hotline. I apologise for this oversight.

The correct answer should have been:

Information is not available broken down by benefit type. The available information is in the table:

Benefit Fraud Hotline Reports by Type, Great Britain

Hotline	2003-04	2004-05	2005-06	2006-07	2007-08

COMMUNITIES AND LOCAL GOVERNMENT

"Housing Challenge" Document

The Minister for Housing (Caroline Flint): I am today launching a document entitled "Facing the Housing Challenge: Action today, innovation for tomorrow". A copy will be placed in the Library of the House.

We know that the vast majority of people aspire to home ownership. This is more than an economic calculation—it represents their hopes and dreams for their families. Across Government, we value and support these aspirations. We are absolutely committed to making sure that everyone can find the housing that meets their needs.

So this time last year, we published a housing Green Paper, setting out our plans for the biggest housebuilding programme in decades. It set out our long-term plans to meet the housing needs of our aging, growing population, with a major increase in supply to address increasing demand, helping those families and first time buyers priced out of the property market.

More recently, however, the international housing market has experienced significant challenges as a result of turbulence in the global financial markets. People are finding it harder to get a mortgage; we have seen falls in house prices and house builders are now experiencing difficult business conditions after years of extremely favourable circumstances.

But the long-term demographic trends remain the same. And without action now, we risk frustrating many more potential first time buyers and growing families in the future. Our target to achieve a rate of 240,000 new homes per year by 2016 was set to address these long-term trends and we remain absolutely committed to increasing supply to this level to respond to this long-term demand.

The signs are that current market conditions will lead to a fall in housing completions this year, which makes our targets of two million homes by 2016 and three million by 2020 challenging, particularly if the current conditions are protracted.

However, the development industry has shown before it is capable of responding and delivering substantial increases in new homes over a short period—from around 130,000 net additions in 2001-02 to approaching 200,000 in 2006-07. We therefore remain committed to our overall target of three million homes by 2020 as the right long-term goal, whilst recognising the scale of the challenge this entails.

We need now to retain our focus on stimulating market conditions, seeking new ways to deliver the housing this country urgently needs and ensuring there is a planning framework that will support a rapid market recovery.

So we are publishing this document to set out our next steps in this housing delivery programme, helping to strike the right balance in responding to both current conditions and long-term challenges.

We invest around £6 billion per year in housing and regeneration programmes. Our priorities for these resources are to:

provide greater help for first time buyers;

help existing homeowners facing difficulties due to problems in the international financial markets;

keep housing supply, particularly affordable housing supply, as high as possible during the current difficulties, in order to keep on track to meet our targets; and

maintain capacity and create the right conditions for recovery and longer-term growth.

We are therefore setting out a package of measures in this document to achieve these objectives. These include:

The pilot of a 'Rent to HomeBuy' scheme, led by the Housing Corporation, which will aim to help prospective buyers who are unable to take advantage of current shared ownership schemes, perhaps because they cannot find a suitable mortgage. The scheme will enable eligible households to rent a new build property, at less than market rates, for a pre-specified period, with the option to buy a share in the home at the end of that time.

Plans from the London borough of Barking and Dagenham, Newcastle city council, Nottingham city council and Manchester city council to launch the first pilot local housing companies. These have the potential to deliver up to 10,000 new homes. They represent a new model of working which combines local authority land assets with private sector investment, enhancing delivery of new homes and communities. This represents just one of the ways that local authorities will play a central role in delivering the housing the country needs.

Confirmation that more funding, beyond the £200 million already allocated from the affordable housing budget, could be made available to purchase high quality unsold stock, in the right locations, for the right price. This would help deliver our demanding affordable housing targets, while also supporting house builders.

Proposals to support delivery of up to 75,000 homes in 20 more towns and cities in the next stage of the growth points programme. These will combine increased housing with new jobs, town centre regeneration, and higher design and environmental standards. We will invest £100 million in helping these areas to realise their ambitions for sustainable growth. Further details of the new growth points can be found in the "Partnership for Growth" document, being published today, which will be placed in the Library of the House.

Provisional allocations of the £510 million housing and planning delivery grant, to support those local authorities who are taking action to meet housing needs, and reward those who are preparing plans and identifying land supply for delivery. We will keep this under review for the next three years to ensure that it remains an effective incentive for delivery. We will also develop proposals for specific incentives to deliver affordable housing from 2010-11. Further details are set out in "Housing and Planning Delivery Grant: Allocation mechanism and summary of consultation responses". A copy will be placed in the Library of the House, along with the schedule of provisional allocations.

A commitment to working with our stakeholders to explore the viability and practicality of mortgage rescue schemes, building on the example of local authorities and housing associations which already offer such schemes.

New consumer advice and information for those concerned about mortgage repayments from the National Housing Advice Service.

The appointment of Baroness Margaret Ford to work for Partnerships UK in identifying and releasing surplus public sector land for housing delivery, particularly land owned by central Government Departments and their agencies.

Alongside this document, I am publishing an open letter which sets out our response to the Calcutt review of housing supply. We have accepted a number of the recommendations from John Calcutt. These include the creation of a zero-carbon unit to co-ordinate and guide the programme of work to deliver zero-carbon housing from 2016, and further work to develop skills within the house building industry.

I am also publishing a summary of the Pomeroy review of private sector shared equity. Brian Pomeroy was tasked with examining how the private sector shared equity market is developing and what the private and public sector might do to facilitate its development. The review found that there were no major institutional barriers which were preventing a shared equity market from developing and there remains an interest in developing suitable shared equity products when conditions improve. The full text has not been published as it contains confidential information, but the summary sets out the main findings. A copy has been placed in the Library of the House.

Finally, effective regional and local planning for the medium and long term is essential if we are to reach the target of 240,000 homes per year from 2016. We will now work with regional partners on a flexible basis to agree the work programmes and timetables with each regional planning body. The National Housing and Planning Advice Unit recently provided the Government with advice on the numbers it felt should be considered in regional strategy reviews. I am today writing to all regional assembly chairs, the North West regional leaders' forum, and the Mayor of London with guidance on how we expect the advice from the National Housing and Planning Advice Unit to be used.

The document "Facing the Housing Challenge: Action today, innovation for tomorrow" outlines a broad response to the impact of the disruption in international financial markets on the housing market. This package will both help people facing difficulties today, and lay the foundations to help meet the long-term housing needs of the country.

However, it is not the end of the process. We will review progress and reflect on new approaches, incentives or support mechanisms which will both help address the current difficulties and deliver our longer-term programme. We will take a proactive approach wherever it is clear that we can do more to support consumers and industry.

CULTURE, MEDIA AND SPORT

Society Lottery Limits

The Parliamentary Under-Secretary of State for Culture, Media and Sport (Mr. Gerry Sutcliffe): In recent months my Department has received representations from the Lotteries Council and the Hospice Lotteries Association, seeking changes to the regulatory regime for non-commercial society lotteries established by section 99 of the Gambling Act 2005 ("the Act"). Societies under the Act are typically national and local charities, sporting and social clubs that run lottery draws in order to raise funds for local good causes such as hospices or air ambulances. Societies which operate lotteries that raise more than £20,000 in a single draw or over £250,000 in a year must be licensed by the Gambling Commission.

The aim of the representations I have received has been to persuade the Government to increase the present limit on the maximum proceeds that are permitted to be raised by society lotteries in a single draw, from the present limit of £2 million. This would also allow a larger top prize to be offered, since the Act provides that a person buying a society lottery ticket cannot win more than 10 per cent. of the overall proceeds of the draw.

These representations have been echoed in Parliament. Through signing early-day motion 1570 tabled by the hon. Member for Bolton North-East (Mr. Crausby) in May this year, some 70 hon. Members on all sides have expressed support for an increase in proceeds limits under the Act, specifically in relation to hospice lotteries.

While very few societies currently reach the present limits, some have argued that the limits hold them back, for example by preventing a number of societies coming together to promote a larger one-off annual draw.

The Government have always been willing to consider representations made on behalf of the good causes which benefit from society lotteries, as we showed when we doubled the then society lottery limits in 2002. The 2005 Act also introduced a range of deregulatory measures designed to assist society lotteries. I have considered the arguments now put by the Lotteries Council and Hospice Lotteries Council, as well as the views of hon. Members. I have also taken into account the view of the Gambling Commission, which as the Government's principal adviser on gambling matters has also recommended an increase.

I have had to balance these arguments for increasing the amount that society lotteries can raise for projects, with my responsibility for ensuring that the licensing objectives of the Gambling Act are observed. There is a significant risk that increasing the limit on proceeds of lottery draws, and hence the top prize available, by too great an amount could significantly change the character of a society lottery by appealing to players for whom winning such a prize would be a greater attraction than supporting the charitable cause in question. Very high prizes also bring with them an increased risk of fraud and other criminal activity.

Having weighed these considerations, I have concluded that there is a reasonable justification for a limited increase in the maximum proceeds that society lotteries may raise in a single lottery draw. I am now able to inform the House how the Government intend to proceed.

I will tomorrow publish a three-month consultation paper on a proposal to increase to £4 million the maximum proceeds for each individual society lottery draw. This will entail a top prize of up to £400,000 for each draw. There will be no increase to the annual maximum proceeds per society lottery of £10 million since no society lotteries presently reach that limit. The maximum £25,000 prize for society lotteries whose proceeds are below £250,000 will also remain unaltered.

If in the light of public consultation we decide to proceed, either with this proposal or another that suggests itself in the light of responses to the consultation, we will bring forward the necessary order. This will be for Parliament to approve by means of an affirmative resolution, requiring a debate and potentially a vote in both Houses.

This measure would benefit around 630 societies that are presently licensed by the Gambling Commission to operate society lotteries. I believe that it would provide

a valuable boost to hospices, charities and other good causes which raise funds through lottery draws, while retaining the character of society lotteries and remaining wholly consistent with the licensing objectives of the Act.

DEFENCE

Defence Equipment and Support (Co-location)

The Minister for the Armed Forces (Mr. Bob Ainsworth): On 10 October 2006, *Official Report*, column 13-14WS, my predecessor announced the formation of Defence Equipment and Support (DE&S) and that elements of the new organisation were to be co-located in the Bath/Bristol area. DE&S was established on 1 April 2007 and in March this year a major business improvement programme, PACE (Performance, Agility, Confidence, Efficiency), was launched to drive forward the changes required to continue to improve support to the armed forces both now and in the future.

As part of this we have concluded that additional improvements to the provision of through-life military capability and logistics support to the front line can be realised through greater consolidation of DE&S business activities in Bristol. I am therefore announcing today, subject to consultation with the trade unions, the co-location of further elements of DE&S at Abbey Wood in Bristol. This will involve DE&S withdrawing in its entirety from Andover, Wyton, Caversfield and from both the Ensleigh and Foxhill sites in Bath, in a phased programme through to 2012. Those sites vacated by DE&S are being considered for further defence use. Under the DE&S programme, around 2,800 posts will move to Bristol, in addition to the 1,000 transfers already in hand. It will produce estimated savings of around £560 million over a 25 year period, is a key enabler for the PACE programme and is also part of a wider departmental estates rationalisation programme, reflecting the Department's commitment to maximising the funds available to support the front line.

Midland Medical Accommodation

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): Ministers have now approved the redevelopment of Whittington Barracks, Lichfield for use by the Defence Medical Services (DMS) and I am today announcing the next steps.

The assessment phase of the Midland Medical Accommodation project has been completed. We have concluded that the strategic, operational, economic and personnel benefits of the project will fully justify an investment of around £200 million over the next few years.

Co-location on the Whittington site of the DMS headquarters and the Defence Medical Services Training Centre (DMSTC, currently based near Aldershot) will give us a "critical mass" of military medical expertise and assets in the Midlands. The area will be reinforced as the central focus for British military medicine, and Lichfield will provide the future "military home" for the DMS.

Our project assessment confirmed that the Whittington site offers excellent potential for meeting DMS needs. A combination of new build and upgrading of existing buildings will provide ample high quality, fit for purpose accommodation, training and sports facilities, within easy travelling distance of central Birmingham and the RCDM elements that will remain there. The Whittington site also offers an adjacent military training area. Full planning approval for the redevelopment of the site has already been granted.

The project will be delivered in three increments:

1. An HQ Office building
2. New and refurbished training accommodation; combined officers' and senior NCOs' mess; junior ranks' dining room; training centre; and lecture theatre
3. Delivery of 811 single living accommodation bed spaces.

Increment 1 will involve the relocation to Lichfield of key management elements of the DMS, whose top structure is currently being re-organised as part of the DMS "Top Structures—Next Steps" programme.

Development of a new Strategic Medical HQ and the HQ for the recently established Joint Medical Command (JMC) is now in progress. We are planning to locate these HQs at Lichfield by 1 April 2010 (although a small number of Strategic Medical HQ staff will remain in London). The HQ of the JMC will comprise staffs currently based at Fort Blockhouse, Gosport who were formerly part of the Defence Medical Education and Training Agency; Defence Dental Services HQ staffs from RAF Halton, Buckinghamshire; the Defence Healthcare Directorate from central London; and elements of the RCDM HQ from Birmingham.

We shall place a contract later this year for the construction at Whittington of a purpose-built office block and associated site infrastructure works. We shall announce further details when this contract is placed. By early 2010 we expect that the site will be supporting over 300 military and civilian personnel in total. Almost 200 of these will be military and civilian posts transferred from central London, Gosport and Halton. Some posts will also be relocated from the RCDM HQ in central Birmingham.

Increments 2 and 3 will see the relocation of the DMSTC from Keogh Barracks, Aldershot, to Lichfield, and the provision of training facilities and living accommodation for over 800 staff and trainees. Existing facilities need to be replaced with accommodation that is fit for the 21st century.

The move of DMSTC will be completed between 2012 and 2014. The precise date will be decided in due course. By the end of the project there will be over 1,100 Defence Medical Services personnel at Lichfield, including up to 700 trainees, as well as over 100 personnel attached to lodger units that we expect to remain on the site.

There will be full consultation with the trades unions as the work on the new organisations and their co-location at Lichfield proceeds.

The new jobs that this project will bring to the Midlands over the next few years will also help to fulfil our policy objective of moving jobs out of the Greater South-East.

The decisions announced today about military medical accommodation in the Midlands are further evidence of the Government's commitment to the healthcare of service personnel. I shall keep the House informed of progress with this important project.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

EU Environment Ministers' Meeting

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): EU Environment Ministers and Energy Ministers, MEPs and representatives from the European Commission attended an informal ministerial meeting in Paris, France, to discuss the 2020 climate-energy package and the international climate negotiations. I attended on 3 July and my hon. Friend the Minister for Energy attended from 4 to 5 July.

The first working session, in the presence of representatives from civil society and industry, examined the role that the EU should play in reaching a global agreement on the reduction of greenhouse gas emissions. The UK emphasised the importance of reaching agreement on the energy-climate package so that the EU can be a real force in the international negotiations. Over lunch, member states discussed what they consider is the key for the success of the 2020 package. During the debate the UK highlighted the importance of the EU delivering the 30 per cent. reduction in EU emissions as part of a global international agreement, the need to agree incentive mechanisms for encouraging the carbon capture and storage demonstration projects and our concerns regarding any proposal for the EU to earmark EU ETS auction revenues.

In the second working session, Ministers met with members of the European Parliament for in-depth discussions on the issues concerning the implementation of the energy-climate package. The UK acknowledged that to progress efficiently in the negotiations and obtain a definitive agreement on the package before the Conference of the Parties in Copenhagen at the end of 2009, the framework for discussion should continue to be what was proposed by the Commission. Amendments to the Commission's proposals were suggested offering flexibilities to encourage the reduction of emissions where they are cheapest. Many Ministers expressed concerns about the need to ensure solidarity between the member states to meet the significant costs of a transition to a low carbon EU economy. Ministers agreed that determining which sectors were at risk of carbon leakage should be evidence based and timely.

The informal meeting also examined EU GMOs policy and established a working group to undertake further analysis of the issues. The work of this group should be concluded in time for the Council of Environment Ministers on 4 to 5 December and will form the basis for discussions on interim guidelines.

Finally, the informal ended with a joint lunch with the European Ministers for energy, which was also attended by Dr. Rajendra Pachauri, Nobel prize winner and chairman of the IPCC, who spoke about the urgent need to fight climate change.

Carbon Reduction Commitment

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): The carbon reduction commitment (CRC) is a new emissions trading scheme for large non-energy intensive commercial and public sector organisations. The scheme will place an emissions cap on up to 5,000 large business and public sector organisations responsible for around 14 million tonnes of carbon (MtC) emissions each year.

In March this year we published a Government response to our consultation on the implementation proposals for CRC. I am able to announce today progress on a number of CRC scheme design issues. We propose to operate the CRC on a financial rather than calendar year and propose to permit participants to use allowances from the fixed-price sale in the second year to cover their first year emissions. This will reduce the gap between allowance sales and the recycling of allowance revenue to just six months. There are a number of other proposed CRC scheme wide amendments to improve the operation of the scheme. We will invite views in the consultation on the scheme regulations later this year on these proposed amendments.

We also said in the Government response to our consultation that we would review whether to include schools in the scheme. Respondents to the consultation highlighted the wide potential for energy efficiency in schools and so urged us to require local authorities to include schools as part of their estate for the purposes of CRC, rather than taking the voluntary approach we proposed. The Government, the Scottish Government and the Welsh Assembly Government have decided to include schools in Great Britain in the scheme. All state-funded schools will be included under the umbrella of their local authority; qualifying local authorities will participate on their behalf in CRC. In this way schools will not be required to participate directly in emissions trading as this will be the responsibility of the local authority. Schools will have to report annual energy use data to their local authority and will be able to share the benefits of CRC in the form of improved energy efficiency and reduced energy bills. It will also give schools the opportunity to involve children in delivering energy efficiency improvements and carbon reductions and in safeguarding the future of the environment. In Northern Ireland, where schools are not overseen by local authorities, the Executive are considering whether and how best to include schools in the scheme.

I have deposited copies of our policy paper setting out progress in the House Library.

HEALTH

End of Life Care Stategy

The Secretary of State for Health (Alan Johnson): Today the Government have published the end of life care strategy. This is the first time this country will have a long-term, comprehensive strategy for the care of adults at the end of their life. The strategy builds on the progress made over recent years and sets out a range of recommendations to deliver improvements in end of life care. Its aim is to deliver increased choice to all adult patients, regardless of their condition, about where they live and die and to improve care given in all settings, to patients, carers and families.

The strategy sets out how the manifesto commitment to double investment in palliative care will be met and how choice at the end of life will be improved. It sets

out the responsibilities of commissioners of end of life care services and of all involved in the delivery of care. It complements and supports the visions for end of life care developed by strategic health authorities as part of the NHS next stage review.

The strategy has been placed in the Library of the House, and copies are available for hon. Members in the Vote Office.

HOME DEPARTMENT

Magee Review of Criminality Information

The Secretary of State for the Home Department (Jacqui Smith): The House will wish to know that Sir Ian Magee's independent review of criminality information is being published today.

I am grateful to Sir Ian for his work on the review. He has presented us with a substantial report with wide ranging implications for all organisations which collect information that may be relevant to the prevention, investigation, prosecution, or penalising of crime. This is a complex area and there are no quick fixes. Sir Ian's package of recommendations will require sustained attention. I will therefore be consulting widely and I intend to publish a full, Government-wide action plan in the autumn.

The Government are keen to develop work quickly across a range of Sir Ian's recommendations and my Department will continue to take the lead in driving this work forward as part of our primary focus on public protection. We intend now to proceed with the following.

First, we will continue with the complex and difficult work which the Home Office has been leading to enhance the information we have about the criminal histories of foreign nationals and UK citizens who have spent time abroad. We will do this both by making better use of existing information channels and by leading a process of improvement within Europe and more widely. This work will significantly improve the way we protect the public by ensuring relevant overseas data are available to inform the criminal justice process and key systems such as those used to vet and bar people seeking to work with children and vulnerable adults.

Secondly, we will build on, extend and strengthen existing streams of work, such as the programme the Home Office has led to implement the recommendations from the Bichard inquiry, to develop a clear strategic direction for the improvement of criminality information management across what Sir Ian is calling the public protection network. That will provide the framework for positive changes to sharing of criminality information, training for leaders and front line staff and the ways in which we identify and respond to information-related risks.

Thirdly, the Home Office will be involved in an in-depth review of the way technology supports information flows between public protection organisations, drawing on the expertise of other Departments and key organisations such as the National Policing Improvement Agency. A huge programme of work is already underway to strengthen information handling within policing and the broader criminal justice system, but we recognise the need to join up even more and sharpen the focus on public protection. There is also significant potential to save taxpayers' money through the re-use of existing technology and through reducing the amount of duplicate data held by various organisations.

Fourthly, Sir Ian has conducted some detailed work in specific areas of public protection and made recommendations that directly affect front line operations. We intend to implement these recommendations. Their focus is improving the way information is captured, stored and accessed, shared, analysed and acted upon, and managed. Full implementation of these recommendations will improve the quality of criminality information available to front line staff who are making very difficult decisions on a day-to-day basis. In all these areas we will be building on the foundations of positive work which is already underway between the Home Office and its partners within the public protection network. For example, I anticipate we can:

- work with the UK Border Agency to improve the use of criminality information to assist in deporting people in a timely and fair way; and
- improve the effectiveness of our vetting and barring processes so as to protect children and the vulnerable from those unsuitable to work with them.

Working together to protect the public is the fundamental statement of purpose for the Home Office. I want that to be the guiding principle for our policies to cut crime, provide effective policing, secure our borders and protect personal identity. The effective use and sharing of criminality information is critical to the successful delivery of those policies and Sir Ian's report provides us with the framework within which that can be achieved.

Copies of the documents have been placed in the Vote Office and the Libraries of both Houses.

INNOVATION, UNIVERSITIES AND SKILLS

Draft Apprenticeships Bill

The Secretary of State for Innovation, Universities and Skills (Mr. John Denham): Today, my right hon. Friend the Secretary of State for Children, Schools and Families and I publish the draft Apprenticeships Bill. In January 2008, "World Class Apprenticeships" set out plans for achieving our aspirations for the apprenticeships programme. This draft Bill sets out the legislative framework needed to underpin our strategy to increase the number of apprenticeship places and strengthen apprenticeships in England.

Our ambition is that apprenticeships are seen as a key route to the best jobs, the best careers and the best chance to get on in life. Apprenticeships are at the heart of our strategy to raise the age of participation in education or training for all young people, with high quality vocational training clearly recognised as a mainstream route for young people. Apprenticeships will also help build a workforce fit for the future by providing better and more relevant skills to enable us to compete in the global economy.

Since 1997, we have substantially increased investment in apprenticeships, and the number of starts has increased from 65,000 in 1996-97 to 180,000 in 2006-07. This increase has been accompanied by a steady improvement in the number of people completing apprenticeships, from 40,000 in 2001-02 to 112,000 in 2006-07.

We want to build on this success. We want a significant increase in the number of places so that by 2013 we can ensure that there is an apprenticeship place for every suitably qualified young person who wants one. We want to strengthen the programme so that we can ensure that all apprenticeships are of a uniformly high quality.

Following pre-legislative scrutiny and the consultation we are launching today, the provisions in the draft Bill will form part of the Education and Skills Bill we will introduce in the next Session.

Copies of the draft Apprenticeships Bill will be made available in the Vote office and Printed Paper Office.

JUSTICE

Information Commissioner

The Minister of State, Ministry of Justice (Mr. Michael Wills): I am today publishing a consultation on the Information Commissioner's inspection powers and on funding the Information Commissioner's duties under the Data Protection Act 1998.

The Government want to ensure that the Information Commissioner has the powers and resources to continue to be able to carry out his duties under the Data Protection Act 1998 effectively, in a rapidly changing environment. Good regulation is essential to support a robust data protection framework. The use of information underpins Government's ability to deliver benefits for the citizen through improved public services, new opportunities for the most disadvantaged, protection from crime and terrorism and sustaining economic well being.

Our proposals have been informed by the "Data Sharing Review Report" published on Friday 11 July. Government welcome the review which provides a comprehensive look at the use and protection of personal information in today's society. I am grateful for the invaluable and thorough work that Richard Thomas, the Information Commissioner, and Dr. Mark Walport, of the Wellcome Trust, have done in this complex area.

In October 2007, the Prime Minister invited Richard Thomas and Dr. Mark Walport to undertake an independent review of the framework for the use of personal information—in both the private and public sector.

The objectives of the review were to consider whether there should be any changes to the way the Data Protection Act 1998 operates in the UK and explore options for implementing any possible changes. The review also made recommendations on the powers and sanctions available to the regulator and courts in the legislation governing data sharing and data protection, as well as how the Government should develop data sharing policy in a way that ensures proper transparency, scrutiny and accountability.

I welcome the review's recommendations and agree that measures need to be taken to increase public trust and confidence in the handling and processing of personal data by Government and the private sector. Government will consider how best to take forward the remaining recommendations and it will respond in detail in autumn 2008.

Copies of the consultation will be made available in the Libraries of both Houses, the Vote Office and the Printed Paper Office. It is also available on the internet at:

http://www.justice.gov.uk/publications/cp1508.htm

Reoffending Targets

The Minister of State, Ministry of Justice (Mr. David Hanson): I am, with my right hon. Friend the Minister for Children, Young People and Families, announcing the national targets for reducing adult and youth reoffending. Our new challenging targets will help drive a focus across government on those offenders who commit the highest number of offences and cause the most damage to communities.

The new national targets are:

To reduce the adult reoffending rate by 10 per cent. between 2005 and 2011.

To reduce the youth reoffending rate by 10 per cent. between 2005 and 2011.

(The reoffending rate is defined as the number of reoffences per hundred offenders (frequency).

These targets demonstrate the Government's continuing commitment to tackling reoffending. For adult offenders, this commitment has seen a 7.4 per cent. reduction in the number of reoffenders compared to a predicted rate, and an 11.4 per cent. fall in the frequency rate of reoffending between 2000 and 2005. For juvenile reoffenders, while the number of reoffenders has remained stable, we have seen a 17.4 per cent. fall in the frequency rate of reoffending between 2000 and 2005.

These targets underpin an indicator in the "Make Communities Safer" Public Service Agreement, published last year, which set out how we will work to reduce adult and youth reoffending and reduce crime.

The new targets will continue to focus partners across government and beyond to work together to reduce reoffending. We will continue to provide support for those offenders who are trying to change and turn away from offending, but for those offenders unwilling to change, the targets provide renewed emphasis of the need to catch and convict them as speedily and efficiently as possible.

Spending review 2002 target

We will report our performance against the 2002 spending review target to reduce reoffending by 5 per cent. by 2006 when the 2006 data become available.

Inquests (Service Personnel)

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): My right hon. Friend the Secretary of State for Defence and I wish to make the following statement to the House about the inquests of service

personnel who have died overseas. All fatalities suffered by our armed forces continue to be a source of profound regret. Our sympathies are with their families. It is particularly regrettable that this statement comes at a time when in recent weeks we have experienced an unusually high rate of fatalities in Afghanistan. Our service personnel risk their lives in helping to build strong, stable and democratic nations, and to protect the interests of the United Kingdom. We cannot pay high enough tribute to the job that they do, or to the ultimate sacrifice that some of them have made. We are, as ever, strongly committed to minimising the effect on their families and loved ones.

Today, we are announcing the progress that has been made since the written ministerial statement on 30 April 2008, *Official Report*, column 12WS with information about the conduct of inquests by the Oxfordshire, Wiltshire and Swindon and other coroners. This statement gives the position at 8 July.

For the first time, the tables that accompany this statement include information about those ongoing cases in which there has been a Board of Inquiry (BoI) report.

The purpose of a BoI is to examine the circumstances surrounding an incident resulting in death or serious injury, to learn lessons and to make recommendations to the chain of command for the improvement of working practices, procedures or equipment, which could help to reduce the likelihood of a similar incident happening again.

In some cases, the initial review of an incident will highlight any lessons to be learned or actions that could be taken to prevent a similar incident happening again. Dispensation from holding a BoI may be given if there are no further lessons to be learned. This is often the case for incidents occurring on operations.

Ministers and the military chain of command attach considerable importance to the timely completion of BoIs but the overriding requirement is that a thorough investigation identifies the right lessons. It should also be noted that a BoI (and the coroner's inquest) cannot conclude until the completion of any police investigations. The coroner's inquest may take place before completion of a BoI although this rarely happens in practice.

Progress with inquests

At the time of the last statement, we reported that since additional funding had been provided by the Government to assist the Oxfordshire coroner, 155 inquests had been held: 141 into the overseas deaths of service personnel and 14 into the deaths of civilians in Iraq whose bodies were repatriated via RAF Brize Norton.

Since April, a further 25 inquests have been held into the deaths of service personnel who died in operations overseas whose bodies were repatriated via RAF Brize Norton or RAF Lyneham. This makes a total of 180 inquests held since June 2006.

Since operations commenced there have been a total of 201 inquests into the deaths of service personnel who lost their lives in Iraq and Afghanistan, including one serviceman who died in the UK of his injuries. In two further cases, no formal inquest was held, but the deaths were taken into consideration during inquest proceedings for those who died in the same incident.

Open inquests

(i) Pre-31 March 2007 Fatalities

The statement in April reported that there were 27 inquests to be held into the deaths of service personnel in Iraq and Afghanistan whose bodies were repatriated via RAF Brize Norton prior to 31 March 2007. As at 8 July, there are nine such inquests. The Oxfordshire coroner has retained jurisdiction in six of these cases; three have been transferred to coroners closer to the deceased's next of kin. Hearing dates have been set in four cases.

The oldest individual inquest for which no date has yet been set is that into the death of Private Reeves who was killed on 9 August 2006.

In addition there are 10 inquests for the crew members who died together in the crash of Hercules XV179 on 30 January 2005. These inquests resumed on 31 March 2008 and were adjourned until 30 September.

(ii) Post-1 April 2007 Fatalities

Since October 2007, additional resources have been provided by the Government to ensure that a backlog of inquests will not build up in the Wiltshire and Swindon jurisdiction, now that fatalities are being repatriated via RAF Lyneham. The coroner, Mr. Masters, is continuing the practice of transferring military inquests to a coroner closer to the bereaved family, where possible.

There are 57 inquests to be concluded into the deaths of service personnel who died in Iraq and Afghanistan whose bodies were repatriated after 1 April 2007. Of these, Mr. Masters has retained 34 inquests, while 23 inquests are being conducted by coroners closer to the next of kin. Inquest hearing dates have been set in 12 of these cases. Inquests into the two latest fatalities are yet to be opened.

(iii) Inquests into the deaths of service personnel who returned home injured

There remain five inquests to be held of service personnel who returned home injured and subsequently died of their injuries.

We are very grateful for the efforts of all the coroners involved in conducting these inquests.

We shall continue to keep the House informed on a quarterly basis about progress with the remaining inquests. I have placed tables in the Library of the House which outline the status of all cases and date of death of each case. Copies are also available in the Vote Office and the Printed Paper Office.

Liaison with the next of kin

It is of the greatest importance that the next of kin have full information about the progress of the inquest of their deceased.

We remain committed to providing better support to bereaved military families. The written ministerial statement issued on 7 June 2007 by my right hon. Friend, the then Minister of State, Ministry of Defence, gave details of the support that was then being provided. Since then, we have increased the number of family members who can travel and stay overnight if necessary, at public expense, to attend the repatriation ceremony; and two family members may attend any pre-inquest hearings, as well as the inquest itself, again at public expense.

Visiting officers are crucial in providing the liaison between families and the services, and we continue to give close attention to their selection and training.

On 1 June the Ministry of Defence established the Defence Inquests Unit. This unit acts as the focal point for all coroners' inquests into the deaths of service and Ministry of Defence civilian personnel who die on, or as a result of injuries sustained while on operations; and those who die as a result of training activity. The unit's key role is to assist coroners so that they can complete inquests satisfactorily and as quickly as possible.

The unit's main function is to establish early contact with the coroner for each inquest, and to ensure that they are provided with all relevant paperwork, including reports from the Special Investigation Branch and Board of Inquiry (if convened). The unit will also help advise on subject matter experts for inquests. While the relevant service will, rightly, remain the focal point for liaising with the bereaved families, the unit will work closely with the services to ensure that there is a consistent approach, particularly in terms of providing information to families, coroners and welfare officers.

LEADER OF THE HOUSE

MPs' Allowances

The Leader of the House of Commons (Ms Harriet Harman): As Leader of the House of Commons, it is my responsibility to consider how we put the will of the House into effect. That means both implementing the resolutions of 3 July 2008, and also considering how we can build on the clearly expressed view of the House that we need to do more to ensure that the rules are clear and properly enforced so that:

we protect public money; and

we protect the reputation of the house.

To that end, since the vote on 3 July, I have had a number of positive discussions, both with many hon. Members, but also with the Chair of the Committee on Standards in Public Life, Sir Christopher Kelly KCB and the Comptroller and Auditor General, Tim Burr CB.

The House of Commons agreed important measures to improve the control and audit of public money spent in respect of Members carrying out their duties as Members of the House.

The House agreed:

that no payment will be made in respect of those employed by Members unless the Member has deposited the relevant contract of employment and job description with the Department of Resources; and

on the need to strengthen the existing system of external scrutiny and that a rigorous internal system of financial audit of the additional costs allowance be introduced covering 25 per cent. of Members each year, and every Member each Parliament.

In order to put into effect these changes and to build on the determination of the House to protect public money from abuse and to justify public confidence in expenditure on MPs' allowances, I intend to consult on further steps to improve financial control and audit.

The key elements will be:

(a) That the green book setting out rules on entitlements to allowances be re-written by the Advisory Panel on Members' Allowances in the light of decisions taken by the House on 3 July and to abolish the so-called John Lewis list. The Advisory Panel on Members' Allowances will keep the green book under review and advise on any further modifications to the rules that may be required, including the reimbursement of reasonable costs of mortgage interest for a second residence. We will consult on my proposal to change the ACA, so that the reasonable reimbursement of the costs of furniture and other household goods be capped at 10 per cent. of the ACA in any one year. The membership of the Advisory Panel on Members' Allowances will be increased to include two independent external appointees.

(b) An external financial audit by the NAO covering all the allowances in the green book, not just the additional costs allowance, but also:

travel;

staffing costs;

incidental expenses provision for other office costs; and

the communications allowance.

It will include:

the rules and guidance as to what is and what is not acceptable under the rules;

the management controls and processes used by the Department of Resources to ensure compliance with the rules; and

checks and testing of the controls, to ensure that they are adequate and effective.

I propose that the NAO report to the Members' Estimate Audit Committee, which will include three external independent members.

The Comptroller and Auditor General believes that, given the additional evidence to be provided in support of all claims, there is an opportunity to strengthen significantly the assurance that public money has been properly spent.

NORTHERN IRELAND

Northern Ireland Prison Service

The Minister of State, Northern Ireland Office (Paul Goggins): Copies of the Northern Ireland Prison Service's annual report and accounts for 2007-08 are available in the Vote Office.

TRANSPORT

Roads

The Secretary of State for Transport (Ruth Kelly): Roads are vital to our way of life, connecting people with jobs, schools, shops, family and friends. We must ensure that road users have reliable journeys on safe, well-managed roads. So today I am publishing the Command Paper "Roads—Delivering Choice and Reliability", which sets out how we aim to get the best out of the road network.

The greatest barrier to reliable journeys is congestion. It is frustrating for motorists and has serious consequences for the economy and the environment. So we are taking

a number of important steps to tackle it, focusing our efforts over the next decade on where congestion is worst—on our urban roads and motorways.

I am today announcing that £6 billion is available to fund improvements to national strategic roads in England in the period up to 2014. These improvements could include an innovative mix of road widening, opening up the hard shoulder, and junction improvements. In the Command Paper I set out which national schemes are being considered for this funding, which is in addition to that for strategic regional roads provided through the regional funding allocation process.

While some road building is needed to provide extra capacity, we must also consider how to add capacity to existing roads. That is why I am exploring where the hard shoulder could be used to provide extra space on the motorway network. Where we add new capacity either by using the hard shoulder, or by widening roads, I am particularly interested to see what role tolled or car-share lanes could play to give motorists a more reliable journey. Further work will be done on this in the coming months.

I am also today publishing cost estimates for the Highways Agency major roads programme. Since the Nichols review last year, the Highways Agency has made some important changes to its management of the roads programme. These changes are outlined in the Command Paper. The revised cost estimates for regional schemes will help the regions plan their programmes more effectively over the coming regional funding allocation period. I am placing a copy of the estimates in the Library of the House.

The majority of congestion is in our towns and cities so we have allocated an extra £200 million per year from the transport innovation fund to help local authorities manage congestion in innovative ways. I am announcing today that further pump priming funding will go to Cambridgeshire, Reading and Leeds to help them take forward their ideas. I have also previously announced that, to help local authorities with their thinking on congestion charging, we will run a demonstrations project to trial the technology and processes that could underpin a more sophisticated future congestion charging system. My Department will today tell all those companies who formally expressed an interest in participating in the project the names of the successful bidders. The trials are due to start in the Autumn.

I am also today announcing that eight of the 10 largest urban areas in England, who all have congestion targets, will receive the first tranche of the performance-related payments from the urban congestion performance fund. The fund is worth £60 million over four years and, based on their 2006-07 target performance data, £6 million will be shared between Bristol, Greater Manchester, Leicester, London, Merseyside, South Yorkshire, Tyne and Wear and the West Midlands.

All 10 areas will be eligible for further funding based on future years' performance data. This funding, along with an additional £8 million I am announcing today to help local authorities manage their transport assets more effectively, on top of £15 million already announced in January, is all in addition to the amounts provided through the regional funding allocation process.

It is important that people have the reliable journeys they want. The Command Paper I am publishing today sets out a clear strategy for getting the best out of our roads in the coming years so we can make that a reality.

Security Planning at Airports

The Secretary of State for Transport (Ruth Kelly): My Department, in conjunction with the Home Office, has today begun a consultation on aspects of the Transport Security Bill designed to deliver more effective policing and security planning arrangements at airports.

The consultation sets out a new security planning process that:

- requires the majority of airports in the UK to agree a local airport security plan with their key stakeholders, based upon an agreed threat and risk analysis; and
- allows any policing element of this plan to be charged to the airport operator.

As a consequence, the activities of the police, aviation industry and control authorities will be better co-ordinated to enhance and strengthen security planning. The process of security planning will provide a greater level of understanding to all security stakeholders at an airport as to why they are carrying out certain functions and what resources are required. It is also important that we create a level playing field whereby all airport operators pay for any dedicated police presence required at their airports.

Given the importance of strong policing and security planning in the current climate, we are using the opportunity of introducing a Transport Security Bill into Parliament next session to deliver these objectives as well as including provisions to combat terrorist acts at sea.

It is important to note that airports already provide a secure environment for the travelling public and industry staff. We now want to ensure that security is addressed at individual airports in a structured way, and that the role of the police in preventing criminal activity is clearly determined.

Today's proposals have developed from the findings of the independent review of airport policing that was presented to the Home Secretary and Secretary of State for Transport in July 2006. The Department for Transport and the Home Office, working jointly, have developed the measures in close consultation with senior representatives from industry and the police.

Copies of the consultation document have been placed in the Library of the House.

Written Ministerial Statements

Thursday 17 July 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Regulatory Impact Assessment Command Paper

The Minister for Employment Relations and Postal Affairs (Mr. Pat McFadden): The Government are committed to ensuring that regulations are necessary, give effective protection, balance cost and risk, are fair and command public confidence.

In accordance with this, we require Departments to produce and publish (regulatory) impact assessments for all regulatory proposals likely to have an impact on business, charities or voluntary bodies and the public sector.

I have today presented to Parliament a Command Paper listing impact assessments published between 1 July 2007 and 31 March 2008.

Copies have been placed in the Libraries of the House for the reference of members and will be available in the Vote Office.

Government have now launched the impact assessment library, a central website that ensures increased transparency and accessibility to the analysis underpinning the Government's decision to regulate. The impact assessment library can be found at www.ialibrary.berr.gov.uk.

As a result of the launch of the impact assessment library, this will be the last Command Paper published providing information on final impact assessments.

TREASURY

National Statistics Annual Report 2007-08

The Exchequer Secretary to the Treasury (Angela Eagle): The National Statistics annual report for 2007-08 is being published and laid before Parliament today. Copies are available in the Library of the House and can be accessed on the National Statistics web site.

Tax and Benefit Reference Manual 2008-09

The Financial Secretary to the Treasury (Jane Kennedy): Copies of the 2008-09 edition of the Tax Benefit Reference Manual (TBRM) are today being deposited in the Libraries of both Houses.

HM Treasury publishes the TBRM annually. It is a technical manual detailing the tax and benefit system, describing both the current and historic regimes.

EU Funds (Consolidated Statement)

The Economic Secretary to the Treasury (Kitty Ussher): The Government announced in November 2006 that, as part of its work to improve accountability for EU funds across the EU, HM Treasury would prepare an annual consolidated statement, audited by the NAO, on the use of such funds in the United Kingdom. We are today laying before Parliament the first of these statements, along with the Comptroller and Auditor General's (C&AG) audit opinion and report.

The purpose of this arrangement is to strengthen the audit and parliamentary scrutiny of the UK's use of EU funds and help detect any weaknesses in the UK's management of these funds so that these can be more effectively and rapidly tackled. The statement and C&AG's first report sets an excellent basis for doing this.

The C&AG's positive opinion on regularity clearly shows that the management of EU funds by UK authorities during the period covered by the statement has been sound and that there has be no evidence of material irregularity in the payments made to beneficiaries. The Government welcome this finding, as providing assurance on the management of EU funds in the UK was one of the statement's key objectives.

The C&AG's limitation of scope does make it clear that more needs to be done to improve the consistency of the recording and the accounting of EU funding by UK central government bodies. The Government are working to ensure these issues are addressed. In particular, improved guidance is being developed so that all future EU transactions and balances are recorded consistently and separately in the accounts of all the relevant entities. The actions taken this year will be the first in a rolling programme of improvement in this area.

This statement and the improvements that result from it will be important in building momentum for similar action to be taken by our EU partners. Such action is critical, as a positive "statement of assurance" from the European Court of Auditors on the reliability of the EU's accounts will only ever be obtained if measures to improve the management of agricultural and structural funds are taken by member states as well as the Commission.

In this context, the Government warmly welcome the statements that have been published by the Dutch Finance Ministry and the Danish National Audit Office, as well the Swedish initiative to publish a statement in the spring of next year. In time, the UK hopes to welcome similar reports on the use of EU funds from other member states.

The Government hope this statement and the C&AG's audit opinion will be helpful to the European Court of Auditors and the Commission when they are performing their own audits and controls. I will be sending copies of this statement to both institutions, as well as to my counterparts in other member states.

It is crucial that EU taxpayers are given the necessary assurance that EU money is being spent correctly. The UK's initiative to publish this consolidated statement on its use of EU funds will make a positive contribution to ensuring this is the case. I will continue to work to encourage my counterparts in other member states to show a similar degree of commitment to providing such an assurance.

Free Cash Machines (Low-income Areas)

The Economic Secretary to the Treasury (Kitty Ussher): Following the March 2005 Treasury Committee report on ATM (Automatic Teller Machine) charging, the Treasury invited the chairman of the Treasury Select Committee, the right hon. Member for West Dunbartonshire (John McFall), to chair a Working Group on ATMs to take forward work on key issues. The Working Group, which included banks, independent ATM operators and consumer groups, published its report on 13 December 2006.

The Working Group announced an agreement to provide around 600 new free cash machines across 1,707 target low-income areas that it identified as lacking convenient access to these machines. To achieve this, a market-based financial incentive—known as a "financial inclusion premium"—was introduced, to encourage ATM operators to place or retain free ATMs in deprived areas with a low expected volume of transactions. The Working Group also agreed to implement improved transparency rules for charging cash machines. Since publication of the Working Group report, LINK has assessed around 10 per cent. of the identified low-income areas as unsuitable for an ATM location as there is no centre of population.

The Government are pleased to report that the industry has, over the 18 months following publication of the Working Group's report, made excellent progress towards its goals of placing around 600 non-charging machines in low-income areas across the UK, with around 2 million individuals on low incomes standing to benefit.

As of 30 June 2008, sites for 562 of the 600 new ATMs required have been identified. Of these, 419 new free machines are already in use and issuing cash to the public. Some 74 per cent. of these ATMs that are based in the target deprived areas receive the "financial inclusion premium". Encouragingly, nine of these new cash machines have proved so popular that their level of withdrawals means that they have now graduated from the "financial inclusion premium" scheme.

Banks, building societies and independent ATM operators have all contributed new free-to-use cash machines; independent ATM operators have provided or are in the process of supplying around 35 per cent. of the confirmed new non-charging ATMs. The UK ATM network, LINK, is continuing to work with its member banks and ATM operators to identify suitable sites in the remaining target areas, and is engaging closely in this exercise with Members of Parliament, local authorities, consumer councils and retailers.

The benefits in terms of financial inclusion are clear. Data from LINK suggest that the new ATMs currently in operation or under contract will enable almost 1.3 million residents in the target low-income areas to access cash more conveniently and manage their money more effectively.

In terms of improved transparency, operators of cash machines that charge users for withdrawals and that can upload screens remotely, have met the end-June 2007 deadline to improve the onscreen standards of "at a glance" signage. This means that it is clear to a consumer when a charge is applied when withdrawing cash. Good progress was also made by operators in enhancing external signage by end December 2007.

The Government are encouraged by the substantial progress achieved, and would like to take this opportunity to thank all of those involved in extending free access to cash to those who need it the most.

Full details about progress made is available on the LINK Internet

website at: http://www.link.co.uk/atm/access_to_cash_progress/index.html

I will be issuing a final statement on the progress stemming from this initiative this December.

Issuer Liability

The Economic Secretary to the Treasury (Kitty Ussher): The Treasury is today publishing "Extension of the Statutory Regime for Issuer Liability". This sets out the Government's response to the Davies review of Issuer Liability and contains proposals to extend the statutory civil liability regime for issuer misstatements to the market, established in section 90A of the Financial Services and Markets Act 2000.

Copies have been placed in the Library of the House.

HM Revenue and Customs (Office Reorganisation)

The Financial Secretary to the Treasury (Jane Kennedy): HM Revenue and Customs (HMRC) is today publishing the outcomes of a review of HMRC office accommodation housing around 7,500 staff outside its urban centres in the South East, East and West Midlands and North East regions.

These decisions are the latest to emerge from a nationwide series of reviews started in 2006 and designed to create the future shape of the Department. HMRC has engaged widely with trade unions, MPs, local authorities and a range of customer groups as well as with their own employees.

These have not been easy decisions. However, the overriding consideration has to be the Department's need to address new and challenging customer demands by restructuring its business and estate in the most effective and efficient way possible.

Between now and 2011, HMRC plans to withdraw from locations as circumstances allow and at a pace which enables it to maintain and improve customer services.

All enquiry centres where customers can walk into an office and ask for assistance will remain in their current location or nearby.

Details of the decisions, impact assessments and equality impact assessments will be published on the HMRC website today and MPs will receive email confirmation of decisions relevant to their constituency along with copies of related assessments.

ECOFIN

The Chancellor of the Exchequer (Mr. Alistair Darling): The Economic and Financial Affairs Council was held in Brussels on 8 July 2008. I attended for the UK. Items on the agenda were as follows:

Presidency Work Programme

The French Presidency presented the ECOFIN work programme for the next six months followed by an exchange of views. As part of the agreed three-presidency approach, the French Presidency will begin the first stages of the common priorities agreed with the incoming Czech and Swedish Presidencies in 2009. These priorities include boosting confidence in the financial system, continuing the integration of the internal market, and responding to citizens' concerns about the current economic situation. The UK supports the proposed work programme.

Implementation of the stability and growth pact

The Council adopted opinions on the updated stability programme for Belgium and the updated convergence programme for Poland. Ministers also agreed to a draft decision ending the excessive deficit procedure for Poland, repealing ECOFIN's decision in 2004 noting the existence of an excessive Government deficit. In addition the Council agreed to a decision and recommendations under articles 104(6) and 104(7) of the EC treaty with regard to the UK, placing the UK in excessive deficit procedure.

Adoption of the euro by Slovakia

The Council adopted the legislative acts required for the adoption of the euro by Slovakia from January 2009, finalising the agreement at the June European Council, and adopted regulations for the conversion rate of 30.1260 Slovak korunas to the euro. The UK congratulates Slovakia on the substantial reforms made in order to meet the Maastricht criteria for entry into the single currency.

Oil price trends

Following the discussion at the June European Council, Ministers held an exchange of views on the situation in the oil and fuel markets and on the French Presidency work programme to prepare ECOFIN's contribution to the October and December European Councils. This included reaching political agreement on the principle of weekly publication of oil stock information. The UK supports the work underway to better understand what is driving the development of oil prices under the guiding principles set out in the Manchester 2005 declaration on the need to avoid distortionary fiscal interventions in the oil markets.

Governance of the International Accounting Standards Board (IASB)

The Council welcomed the proposals by the International Accounting Standards Committee Foundation (IASCF) to enhance its governance structure and to improve the functioning of the IASB, and on that basis adopted conclusions that will be submitted as the European contribution to the public consultation on IASB. The UK supports the efforts to improve internal processes and governance within the IASB, principally through improving the oversight arrangements and the creation of a new monitoring board.

Financial markets: situation and implementation of the Council road map

The Commission presented the state of play on the October 2007 ECOFIN Council roadmap. Ministers agreed to conclusions calling for the fullest possible transparency in order to bring confidence to the market. Ministers also agreed conclusions supporting the need for a strengthened oversight regime for credit rating agencies, which will be based on Commission proposals to follow in the autumn. The UK continues to support work to improve the stability of financial markets, and will accordingly examine the Commission's proposals in detail.

The Economic Secretary to the Treasury (Kitty Ussher): Budget ECOFIN will be held on 17 July in Brussels and the UK permanent representative will attend and represent the UK. Discussion will be on the preliminary draft budget for the European Communities for 2009 and the meeting will include conciliation with the European Parliament, during which Council and the European Parliament will discuss expenditure levels. Items on the agenda are as follows:

Preparation for the conciliation meeting with the European Parliament;

Conciliation with the European Parliament;

Establishment by the Council of the draft EC Budget for 2009.

Equitable Life

The Economic Secretary to the Treasury (Kitty Ussher): The Parliamentary Ombudsman has today published the report of her investigation into the prudential regulation of the Equitable Life Assurance Society from 1988 to the end of November 2001.

The ombudsman's investigation was launched in 2004 following the publication of Lord Penrose's independent forensic investigation into the events at Equitable Life (HC 290). He concluded that Equitable Life's own actions ultimately precipitated its financial difficulties in the summer of 2000.

The ombudsman has looked at the application of the now replaced prudential regulatory regime under the Insurance Companies Act 1982. Her investigation has covered issues of considerable factual and technical complexity.

Against this back drop, it was necessary for the bodies subject to the ombudsman's investigation to make detailed representations on a number of occasions throughout the investigation. Those representations were put forward at the ombudsman's request to assist her review of the evidence. They highlighted substantive differences of view between the bodies and the ombudsman which she has responded to in the report published today.

The Government recognise that the ombudsman's report raises issues of concern to all interested parties. The length and complexity of the report mean that the Government will need to consider the report carefully before giving their response to the House in the autumn.

COMMUNITIES AND LOCAL GOVERNMENT

Planning Inspectorate Annual Report and Accounts 2007-08

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Parmjit Dhanda): My right hon. Friend, the Secretary of State for the Department of Communities and Local Government is today laying before the House a copy of the "Planning Inspectorate's Annual Report and Accounts for 2007-08".

The report gives an overview of the performance of the inspectorate and demonstrates the importance of a credible, accessible planning tribunal service that is open, transparent and impartial. It also highlights the ways in which the inspectorate is supporting the Government's drive for a faster and fairer planning system.

The report reveals that the planning inspectorate in England hit 25 per cent. more of its key performance targets this year. In addition, it significantly reduced the backlog of its oldest cases. The inspectorate had also halved the waiting time for setting public inquiry dates for planning appeals to just 10 weeks by the end of the year.

In Wales the planning inspectorate has again performed to a high standard meeting all but one of its ministerial targets. The total number of planning appeal decisions has increased by nearly 4 per cent. since 2006-07. My noble Friend Baroness Andrews has agreed with Jane Davidson AM, Minister for Environment Sustainability and Housing for the Welsh Assembly Government, that the inspectorate's targets for its main areas of casework in 2008-09 should remain unchanged.

Copies of the report have been placed in the Libraries of both Houses.

South East of England Regional Spatial Strategy

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Parmjit Dhanda): My right hon. Friend the Secretary of State for Communities and Local Government is today publishing proposed changes to the draft revisions to the regional spatial strategy for the South East (The South East Plan).

The regional spatial strategy forms part of the statutory development plan for every local authority in the South East, and sets the framework for the production of local development frameworks and local transport plans. It provides the spatial plan for the development of the region, providing the policy framework for employment, housing, transport and the environment over the next 20 years.

The current strategy, initially published as regional planning guidance, became the regional spatial strategy in September 2004 with the enactment of the Planning and Compulsory Purchase Act. A draft revision of the regional spatial strategy was submitted to Government in March 2006 by the South East England Regional Assembly. It was subsequently tested in an examination in public (EIP) between December 2006 and March 2007 and the report of the independent panel which conducted the examination was published in August 2007.

The Secretary of State has considered the recommendations of the independent panel and has taken into account the representations made on the draft revision and any recent changes in Government policy.

Today's publication of the Secretary of State's proposed changes represents the commencement of a public consultation period which will close on 24 October 2008. Also being published for comment are the reports of a sustainability appraisal and a habitats regulations assessment of the proposed changes. A non-technical summary is available of these documents.

Following consideration of the responses to consultation, the Secretary of State expects to be able to publish the finalised regional spatial strategy for the South East by the end of the year. On final publication it will supersede the current RSS.

I have written to the chairman of the regional assembly to give notice of the publication of the proposed changes and thanked the assembly and its staff for their hard work in preparing the draft revisions.

The documents will be accessible from today on the Government Office for the South East website and made available in the Libraries of both Houses.

Copies will be provided for all of the region's MPs, MEPs and local authorities, and sent to all those who participated in the EIP and other interested parties and organisations required by the regulations.

North West England Regional Spatial Strategy

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Parmjit Dhanda): My right hon. Friend the Secretary of State for Communities and Local Government will be publishing the final revision of the regional spatial strategy for the North West of England in late August or early September. On publication it will supersede the current RSS. Also to be published are the reports of a consolidated sustainability appraisal, a habitats regulations assessment and sustainability statement.

The published regional spatial strategy will form part of the statutory development plan for every local authority in the North West, and set the framework for the production of local development frameworks and local transport plans. It will provide the spatial plan for the development of the region, and the policy framework for employment, housing, transport and the environment.

The current strategy, initially published as regional planning guidance, became the regional spatial strategy in September 2004 with the enactment of the Planning and Compulsory Purchase Act. A draft revision of the regional spatial strategy was submitted to Government in January 2006 by the North West regional assembly. It was subsequently tested in an examination in public between November 2006 and February 2007, and the report of the independent panel which conducted this examination was published in May 2007. The Secretary of State considered the recommendations of this independent panel, and took into account the representations made on the draft revision, and also changes in Government policy since the draft revision was submitted, before publishing proposed changes for further public consultation between March and May 2008.

On publication, a further statement and copies of the relevant documents will be available in the Libraries of both Houses and copies sent to the region's MPs and MEPs, members of the Opposition Front Bench and local authorities.

COMMUNITIES AND LOCAL GOVERNMENT

Preventing Violent Extremism: Next Steps for Communities

The Secretary of State for Communities and Local Government (Hazel Blears): Tomorrow I shall be announcing a package of measures to further our work on preventing violent extremism, concerned with building

better connections with local places; fostering community leadership and improving theological understanding.

The launch of "Preventing Violent Extremism: Next Steps for Communities", at Manchester town hall, will fulfil a public commitment that we made in our April 2007 "Winning Hearts and Minds" action plan to provide an update on the progress of our work and to articulate Communities and Local Government's future priorities on Prevent.

Lord Patel of Bradford undertook some work for me visiting a number of local authorities across the country and a wide range of stakeholders. We will continue to reflect on Lord Patel's findings over summer 2008 alongside other review and evaluation work on the Prevent being undertaken across Government. We will set out our conclusions and the further action we propose to take to help develop community approaches later this year.

Regeneration Strategy for England

The Secretary of State for Communities and Local Government (Hazel Blears): I am today publishing "Transforming Places, changing lives: a framework for regeneration". This document sets out an ambitious package of proposals—for consultation—that aim to shape the way that regeneration is carried out in future in England. Publishing the framework fulfils a commitment from the 2007 sub-national review of economic development and regeneration.

We have made great strides in regeneration in the last 10 years, narrowing the gap between the most deprived neighbourhoods and the rest. The new approach builds on what we know works.

The framework contains a renewed focus on ensuring that regeneration tackles the underlying economic challenges to increase social mobility and support people to reach their potential, regardless of where they live. Specifically the measures proposed aim to:

ensure that regeneration investment is co-ordinated and prioritised in the right places, with public, private, and third sector organisations working together in the same places towards a shared vision;

devolve power—decisions about where to invest should be made as locally as possible, so this framework proposes an approach to prioritisation that starts with communities and their councils, and aims to align investment behind local and regional regeneration priorities—making programmes fit places, not places fit programmes; and

focus regeneration investment on tackling the underlying economic challenges that hold places back, in particular supporting people to get a job and then progress within the labour market as well as boosting levels of enterprise in those areas.

The framework proposes that all regeneration should be aligned behind three priority outcomes:

improving economic performance in the areas that have not yet made the same progress as other areas;

improving rates of work and enterprise in these areas; and

creating sustainable places where people want to live and can work, and businesses want to invest.

The consultation is accompanied by an impact assessment. Copies have been placed in the House Library or it can be accessed via the Communities and Local Government website at: www.communities.gov.uk/publications/citiesandregions/transformingplaces.

The consultation closes on 31 October 2008.

CULTURE, MEDIA AND SPORT

Free Swimming

The Secretary of State for Culture, Media and Sport (Andy Burnham): Following the announcement the Secretary of State for Health and I made on 6 June 2008, I am today setting out further details of the Government's free swimming scheme in partnership with local government. This cross-Government announcement set out a £140 million package comprising contributions from the Department for Culture, Media and Sport, the Department of Health, the Department for Children, Schools and Families, the Department for Work and Pensions and the Department for Communities and Local Government.

This statement, and the arrangements it sets out, have been developed across Government with the help of the Amateur Swimming Association, the Local Government Association, Sport England and others.

The Government are keen to encourage as many local authorities as possible to participate in making swimming free for over 60s and under 16s in their local communities, but also to stimulate ambitious authorities to maximise and sustain uptake through other initiatives such as free lessons for adults who cannot swim, the introduction of swimming co-ordinators and to provide incentives for the most ambitious to move further towards a universal free swimming offer.

We hope this statement will give local authorities the information they need to start planning for their budget setting cycle and to decide the extent to which they wish to exploit the opportunities offered by the scheme to improve the health and well-being of their communities and support delivery of local priorities as set out in their respective local area agreements.

Pot 1: Free swimming for the over 60s

Swimming is the most popular participation activity for the over 60s, with 7 per cent. taking part in swimming at least once a month. Swimming has the same health benefits as other forms of physical activity. Additionally, regular swimming builds endurance, muscle strength and cardio-vascular fitness and, as a low impact activity, is ideal for the elderly and those recovering from injury. The Government are keen to encourage as many local authorities as possible to participate in making swimming free for over 60s in their area. To achieve this, central Government is making available £15 million per annum in 2009-10 and 2010-11.

The Government will write at the start of next week to the chief executives of all local authorities in England which are responsible for leisure services to ask them to confirm, by no later than 15 September 2008, whether they wish to take up this offer. This letter will set out the resource funding the local authority will be allocated from pot 1 in 2009-10 and 2010-11 if it chooses to participate. This allocation is calculated according to a simple formula based on the size of the local over-60 population. Funding will be distributed through a specific grant, details of which will be set out in the letter to local authorities.

The qualifying criteria for the scheme are simple. Free swimming for the over 60s means that people in that age group who wish to swim at any time throughout

the year when they would normally be admitted to the pool for public swimming, and in accordance with local programming, should not be charged.

Authorities who already offer free swimming that would otherwise have qualified for this funding may deploy their allocation to fund initiatives that will further increase and sustain participation for the over 60s and extend such measures to wider groups of the population.

Pot 2: Free swimming for the under 16s

Swimming remains a popular activity for children, with 38 per cent. of 11 to 16-year-olds participating in swimming in and out of school at least once a month. The Government are keen to extend the principle of making swimming free to the under 16s. To support this, central Government are making available £25 million per annum in 2009-10 and 2010-11.

All local authorities who choose to participate in pot 1 are also invited to submit, no later than 15 September 2008, an expression of interest to make swimming free for under 16s. For these authorities, details of their prospective allocation from pot 2 will be provided no later than 30 September 2008. They will then be invited to confirm, by no later than 15 October 2008, whether they wish to take up this offer. Funding will again be distributed through a specific grant.

As for the over 60s, we have made the qualifying criteria for the scheme simple. Free swimming for the under 16s means that people in that age group who wish to swim out of normal school hours throughout the year when they would normally be admitted to the pool for public swimming, and in accordance with local programming, should not be charged.

Again, local authorities who already offer free swimming that would otherwise have qualified for this funding may deploy their allocation to fund initiatives which will further increase and sustain participation for the under 16s and extend such measures to wider groups of the population.

We hope that local authorities will work creatively with local partners, including primary care trusts, to access funds from other sources such as the working neighbourhoods fund, extending activities and the Big Lottery Fund, as well as from the private sector.

Pot 3: Modernising pool provision—capital reward fund

To support local authorities in making swimming free for the over 60s and under 16s, we are also making available £10 million of capital funding in 2008-09 to modernise pool provision. All authorities that sign up to participate in pot 1 and pot 2 will be entitled to a one-off capital grant in 2008-09.

Pot 3 will be allocated amongst all authorities that choose to participate in both pot 1 and pot 2, based on population shares.

Pot 4: Modernising pool provision—capital challenge fund

Local authorities have welcomed the opportunity to refurbish and modernise pool provision. Central Government are also making available £25 million capital per annum in 2009-10 and 2010-11 to modernise pool provision and support more ambitious plans for free swimming.

Sport England will administer the capital challenge fund on behalf of the Government, and will publish a prospectus for bids for funding by 31 July 2008. Local authorities which have committed to pot 1 and pot 2 will be invited to submit costed plans for pot 4 by no later than 15 October 2008.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Products (Imports)

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw): As required under the Animal Health Act 1981, as amended by the Animal Health Act 2002, the Government will publish a review of controls on the import of animal products for the financial year 2007-08 on Thursday 24 July. I am pleased to be able to report on activity during the past year aimed at reducing the risk of disease entering the country via imports of animal products.

Her Majesty's Revenue and Customs (HMRC) remains committed to taking effective, proportionate, risk-based and intelligence-led enforcement measures to prevent illegal imports, and continues to target the routes that pose the greatest disease risk.

The Department for Environment, Food and Rural Affairs and HMRC continue to undertake a great deal of publicity within the United Kingdom, at the border and overseas. In January 2008 DEFRA relaunched the black and minority ethnic personal food imports campaign thus continuing to raise awareness of the personal import rules and also trying to encourage behavioural change so illegal food products are not brought in to the country.

DEFRA, with HMRC and the Food Standards Agency, has also used a wide range of other communication channels to promote our message. We will continue to monitor and assess the changing threats from around the world, and work with HMRC/United Kingdom Border Agency to make sure that our enforcement activity is targeted at the current risks.

Copies of the review will be deposited in the Libraries of both Houses, and following publication on the DEFRA "personal food imports" website (www.defra.gov.uk/animalh/illegali), sent to stakeholders for information, seeking their feedback. Hard copies will also be available on request.

Poultry Register

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw): My noble Friend Lord Rooker has today announced changes in the use of personal data held on the GB poultry register in England and Wales following a public consultation. The changes will come into effect on 1 August 2008. Copies of the report summarising the responses to the public consultation will be deposited in the Library of the House.

The register was set up in December 2005 in response to increased threat of outbreaks of avian influenza. Poultry keepers with more than 50 birds are legally

required to provide essential information about their premises to populate the register. To date, the register has been used for avian influenza risk assessment, prevention and control.

Decisions on changes of use of the register took into account the views of individuals and organisations who responded to the consultation as well as the wider public and taxpayer interest, given that the register is a valuable resource. The intention has been to achieve a balance between the benefits of appropriate data sharing, including public protection and improving public services, and the proper respect for personal data in line with our data protection obligations.

Use of personal data on the register will be extended in the following areas:

management of other poultry diseases (in addition to avian influenza), including other notifiable diseases and zoonoses;

planning, response and recovery by the emergency services and other responders in civil emergencies affecting poultry premises, including avian disease outbreaks;

planning of visits related to legislation on veterinary medicines and on animal welfare;

providing information as necessary to the EC to substantiate UK claims for compensation from the EU in the event of a disease outbreak;

informing the work of DEFRA and Welsh Assembly Government statisticians and economists in the development of evidence-based policy;

informing the annual agricultural census and hence enabling the poultry questions to be removed from the census;

facilitating (non-commercial) ad-hoc surveys as part of DEFRA and Welsh Assembly Government's regional and national activities towards achieving their strategic objectives, including for example England's sustainable food and farming strategy and GB's animal health and welfare strategy. This may also include the provision of advice and information to individual poultry keepers; and

informing the development of future customer contact management and registration as part of Animal Health's business reform programme.

It is important to note that the register will not be available freely to new users in connection with these purposes. DEFRA (Animal Health) will issue extracts of the register as necessary to the new users in response to receiving a specific request for personal data but only if satisfied that access to personal data is necessary for the purposes identified above and that appropriate data management arrangements are in place. These arrangements shall be in line with the advice in the Government's recently published report on data handling procedures[1] which is available in the Libraries of both Houses, and with policies and advice in response to the recommendations from the recently completed independent review on data sharing by Richard Thomas and Dr. Mark Walport[2]. For example, measures being put in place across Government Departments and agencies include:

mandatory training for all staff involved in handling personal data;

further enhancing the transparency of arrangements, through annual reporting to Parliament on progress and the use of information charters which provide clarity to the public about the use and handling of personal data.

The additional uses of the register will make the best of this valuable resource. We take very seriously our responsibilities for the proper handling of personal data and will ensure that appropriate safeguards are in place to protect the personal data of keepers in line with our legal obligations.

FOREIGN AND COMMONWEALTH OFFICE

Lisbon Treaty (Ratification)

The Minister for Europe (Mr. Jim Murphy): Following the enactment of the EU (Amendment) Bill, the Government completed the ratification process for the Lisbon treaty on 16 July by depositing its instrument of ratification in Rome.

HEALTH

Official Receptions

The Minister of State, Department of Health (Mr. Ben Bradshaw): I have today published a list of official receptions hosted by Ministers at the Department of Health for the financial year 2007-08. The total cost of official receptions for the financial year 2007-08 was £2,129.

Official Receptions Hosted by Department of Health Ministers 2007-08

Date	*Event*	*Number*	*Host*
24 July 2007	Reception for media correspondents to meet Secretary of State and Ministerial team, national clinical directors and Media Centre staff.	50	Alan Johnson
9 October 2007	Stakeholder reception for launch of Green Paper on adult social care funding.	35	Ivan Lewis

Pharmaceutical Services

The Minister of State, Department of Health (Dawn Primarolo): In April, we published the Government's White Paper, "Pharmacy in England—Building on Strengths, Delivering the Future" (Cm 7341). The White Paper set out our future proposals for expanding high quality, clinical pharmaceutical services for patients and consumers and developing pharmacists' role as a leading clinical profession.

Following publication of Lord Darzi's comprehensive and groundbreaking NHS "Next Stage Review Final Report" (Cm 7432) and our vision for primary and community care, we will publish next month the further consultation on structural changes for pharmaceutical services promised in the White Paper. I am keen that we give everyone involved and concerned ample opportunity to consider these in full. Consultation will therefore run through to the autumn and will be accompanied by relevant impact assessments. We also plan to hold further national events to support comprehensive discussion and debate as part of that consultation.

Since publication of the White Paper, we have proceeded quickly to the next stages to support implementation of our programme. We have:

held a series of national listening events in May to support the launch. Over 630 delegates attended drawn from the NHS, the professions and representative bodies. The events gave delegates the opportunity to consider and to discuss our plans in more detail, including a number of key ideas for structural change which the Government believe are necessary to underpin the White Paper programme. We will publish our report of those events alongside the forthcoming consultation;

announced in the NHS "Next Stage Review Final Report" that a new independent advisory non-departmental public body, Medical Education England, will advise the Department on education, training and workforce planning for pharmacists, as well as doctors, dentists and healthcare scientists;

held events to discuss with pharmacists and others implementation and delivery options for the vascular risk assessment programme, including offering vascular checks through pharmacies;

subject to Royal Assent, the Health and Social Care Bill has completed its passage through both Houses. In due course, a new General Pharmaceutical Council will be created to oversee the pharmacy profession. Consultation on the proposed order for the Council will begin in the summer and it is intended to hold consultation events GB-wide in September and October; and

published responses to our consultation on the responsible pharmacist. We will lay regulations before Parliament in early autumn to implement a new statutory framework that will support pharmacists in using their clinical skills and those of pharmacy staff to improve patients' access to a wider range of services.

To support further work we:

are publishing later today the national template for a service specification for chlamydia screening, to support primary care trusts commissioning of a locally commissioned enhanced service. This will be available on the website of NHS Primary Care Contracting at: www.pcc.nhs.uk

will shortly advertise the posts of the two new pharmacy national clinical directors. They will provide strong, authoritative clinical leadership for pharmacists at both local and national level, championing the development of services and helping implement actions from the White Paper in hospitals and in the community; and

are commissioning further research to map the target audiences for a pharmacy public communications programme. This will particularly focus on those people with long-term conditions and who are most affected by health inequalities. The results, to be available later this autumn, will inform the next stages of implementation.

HOME DEPARTMENT

Justice and Home Affairs Informal Council

The Secretary of State for the Home Department (Jacqui Smith): The French presidency's Informal Justice and Home Affairs (JHA) Council was held in Cannes on 7 and 8 July 2008. My hon. Friend the Parliamentary Under-Secretary of State for Justice, the Member for Lewisham, East (Bridget Prentice) and I attended on behalf of the United Kingdom. Since it was an informal Council, no formal decisions were taken. The following issues were discussed:

During the first session of the Council, member states considered what practical measures could be taken to improve the internal security of the EU and police co-operation. All welcomed the presidency idea that police co-operation should be developed around the principle of convergence, with most defining that to mean practical changes to improve cross border working by police forces, such as radio interoperation, data-sharing, work on major events and in tourist areas. Several called for more European police training.

The UK agreed with the practical approach recalling that, especially on the third anniversary of the London bombings, one of our top priorities remained counter terrorism. As such we welcomed the work led by the counter terrorism co-ordinator. Counter-radicalisation, projects like the Maritime Analysis and Operation Centre (MAOC(N)) on drugs, criminal asset confiscation, cybercrime, and a data-sharing and protection strategy were also all important. The presidency concluded by confirming that the lack of a new treaty did not stand in the way of the practical measures Ministers wanted.

The presidency introduced their paper in the Civil Protection session by stressing the need for the EU to be prepared, improve capabilities, convergence and interoperability and suggesting that some 'modules' (specialised intervention teams based on member state assets) be put on standby. A number of member states supported the need for co-operation, but responded with caution regarding new structures and any suggestion of EU authority over national resources. Modules must remain on a voluntary basis to ensure that member states have full control over the use of their own assets. It was concluded that these should remain voluntary but the EU should look at any capability gaps and support joint training initiatives.

Over lunch, the final report of the interior future group was presented and there was a general discussion with member states welcoming it.

We expect the work of both of the future groups to be officially concluded at the JHA Council at the end of July.

The presidency presented the Migration Pact and said that they hoped to adopt it at the October Council. All member states supported the pact but raised points of detail, with some arguing that asylum procedures should not be changed, others wanting a single consolidated instrument on legal migration procedures, concerns regarding the creation of a common border guard; and some seeking a stronger reference to burden sharing of people.

The UK welcomed the pact and noted that the EU should continue to focus on practical measures that deliver results including on data-sharing, border control, and passenger name records (PNR). The EU's border agency, Frontex, (among others) should be used to strengthen the external border but the responsibility should remain with the member states. On asylum, the UK stressed that the EU should focus on implementing existing asylum legislation. The EU must provide a

haven, but also needed to work together to combat abuse. The global approach to migration needed to be further implemented although we needed to be clearer on the links between development and migration.

The first justice session opened with a debate introduced by the presidency about whether judges required further training in EU law and judicial co-operation. Most member states welcomed the discussion but concerns were raised about judicial independence and the way the training should be delivered. Most thought that any such training should be open to judges, prosecutors and court officials and that the key subjects should be EU law, other member states' law and language training.

The second justice session focused on the protection of children and vulnerable adults. For the discussion on protecting children, the presidency urged member states to establish national missing child alert systems which should be interoperable. The UK supported both the principle and detail of the presidency's ideas and explained that the UK was rolling out an alert system. Information sharing on convicted sex offenders, use of CCTV and automatic number plate recognition were all also useful. The presidency concluded that the child alert system would be taken forward.

There was a discussion about how the European Union should deal with the question of the protection of vulnerable adults in order to meet the challenges of an ageing population and the high level of mobility of European citizens. The presidency encouraged member states to ratify the Hague Convention on the International Protection of Vulnerable Adults and there was a discussion about how member states could improve the implementation of the convention. The UK signed and ratified the convention within Scotland in 2003. Work is underway to extend the convention to cover England and Wales.

There was a short discussion of the report of the Justice future group over lunch. Those Ministers who spoke broadly welcomed the report.

JUSTICE

HM Chief Inspector of Probation: Appointment Extension

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): I am delighted to announce that the appointment of Andrew Bridges CBE as HM Chief Inspector of Probation for England and Wales has been extended until 31 March 2010. Mr Bridges' expertise and knowledge will continue to play a key role in enabling the probation inspectorate to deliver a credible and effective inspection programme for the probation service and youth offending teams.

Legal Services Board

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): The Legal Services Act received Royal Assent on 30 October 2007. Two of the key elements of the Act are the provision of a Legal Services Board (LSB) and the establishment of an Office for Legal Complaints (OLC). The LSB will be an over- arching regulator and the OLC will deal with all complaints about regulated legal service providers.

I am pleased to announce that following open and fair competition, regulated by the Commissioner for Public Appointments, the Lord Chancellor has appointed:

Terence Connor; Stephen Green; William Moyes; Barbara Saunders; and Nicole Smith as the lay members; and

Rosemary Martin; Michael Napier; Andrew Whittaker; and David Wolfe as the non-lay members.

The board members will take up post from 1 September 2008. The appointments will run for three years.

National Offender Management Service

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): I am today publishing the National Offender Management Service (NOMS) agency framework document which sets out the Government's vision for NOMS and how it will be governed as an executive agency of the Ministry of Justice. Copies have been made available in the Libraries of both Houses, the Vote Office and the Printed Paper Office. The document is also available on the Ministry of Justice website at http://www.justice.gov.uk/publications/corporateinformation.htm.

NOMS has the twin aims of protecting the public and reducing reoffending. It is responsible for commissioning and delivering adult offender management services both in custody and in the community in England and Wales. The agency is central to the Ministry of Justice's work to deliver better outcomes for society, improve further the effectiveness of the criminal justice system, and take forward recommendations for streamlining management structures and reducing overhead costs following Lord Carter's latest review of prisons.

CABINET OFFICE

Official Receptions

The Minister for the Cabinet Office (Edward Miliband): I have today published a list of receptions hosted by Cabinet Office Ministers in the 2007-08 financial year.

The total cost of receptions held for the financial year 2007-08 was £2,884.

Date	*Event*	*Number*	*Host*
23 July 2007	Introductory reception with key Cabinet Office stakeholders	80	Ed Miliband, Phil Hope and Gillian Merron
24 October 2007	Stakeholder reception to mark the announcement of the public service agreement target for socially excluded adults	45	Ed Miliband, Phil Hope and Gillian Merron
27 February 2008	Reception with media correspondents and stakeholders	60	Ed Miliband, Phil Hope and Tom Watson

"Greening Government ICT"

The Parliamentary Secretary, Cabinet Office (Mr. Tom Watson): The Cabinet Office has today published "Greening Government ICT", which sets out the steps Government will take to reduce the carbon footprint of their PCs, laptops, data centres and other office equipment. "Greening Government ICT" also sets challenging targets for central Government and the executive agencies, and provides guidance on how these can be achieved.

The document "Greening Government ICT" can be downloaded from the CIO Council website along with a list of potential energy saving measures for ICT at www.cio.gov.uk/. Copies have also been placed in the Libraries of the House.

Access to Statistics

The Minister for the Cabinet Office (Edward Miliband): On 10 December 2007 the Government published its consultation document "Limiting Pre-Release Access to Statistics". The consultation ran over 12 weeks and closed on 3 March 2008. The Government proposed to tighten the rules under which pre-release access can be granted by:

reducing pre-release access to a maximum of 24 hours;

reducing the number of statistics to which pre-release access is granted to a minimum; and

reducing the number of people to whom pre-release access is granted to a minimum.

The Government are grateful for the responses they received to the consultation, which they found helpful in refining and developing their proposals.

The Government are taking forward its proposals and will shortly lay the Pre- Release Access to Official Statistics Order 2008 before Parliament for approval by resolution of each House of Parliament.

I am pleased to announce the publication of the Government's response to the consultation, "Limiting Pre-release Access to Statistics: the Government's response to the consultation exercise".

Copies of this report have been placed in the Libraries of the House. The report is also available on the Cabinet Office website at www.cabinetoffice.gov.uk/consultations.

LEADER OF THE HOUSE

Regional Accountability

The Leader of the House of Commons (Ms Harriet Harman): I would like to inform the House that I intend to publish a command paper outlining the Government's response to the Modernisation Committee's third report of the 2007-08 session on regional accountability (HC282) on Monday 21 July. Copies will be available in the Vote Office.

TRANSPORT

Correction to Written Answers

The Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick): Subsequent to written answers I gave on 29 January, 11 March and 2 April 2008, to parliamentary questions on data-handling, I would like to inform the House that further investigation has revealed additional information.

The response to the Hon. Member for Chipping Barnet (Mrs. Villiers) (Question 175768), [29 January 2008, Official Report, column 197W], should have included reference to three further instances of data being accessible overseas:

First, the Vehicle Operator Services Agency has an IT contract with Siemens covering the computerisation of the MOT scheme. The Siemens data centre is based in the UK and all operational data are stored in the UK. However, some of the data were processed by Siemens staff in India on a controlled basis for the purpose of correcting and updating software code. The data were not transferred to a physical storage device outside of the UK, and the data could not be saved, amended or copied to any device in India.

The information that was potentially viewable on this basis was as follows:

information relating to the construction/specification and the registration mark of all vehicles in Great Britain that are subject to the MOT scheme. This does not include

any details in relation to the registered keeper of the vehicle;

details of 65,500 nominated testers under the MOT scheme comprising individual's name, home address, date of birth, telephone number and driving licence number; and

details of 16,500 individuals authorised examiners under the MOT scheme comprising individual's name, business address, business telephone and fax number.

Siemens were instructed to revoke all access to operational data from India in relation to the MOT computerisation system on 12 June 2008.

Separately, the central Department has a contract with Siemens for a public enquiry service that uses a system provided under contract by RightNow Technologies. That company back up the information transporting the data electronically via an encrypted channel to their Disaster Recovery Centre in Chicago where it is held in an unencrypted form in a physically secure environment. A further unencrypted tape backup is maintained by Iron Mountain in a vault in New Jersey. The information includes business contact details of DfT staff, and details of calls and callers' names and telephone numbers for queries that have been referred to the DfT internal team for answer.

Finally the central Department uses an online survey site hosted by SurveyMonkey.com., a US company whose site is hosted in the United States. This facility has been used by the Department to conduct surveys including staff surveys. Personal information relating to DfT staff included name, workplace address, qualifications and employment experience. It was also used by VOSA to get feedback on staff events such as their annual conference.

The response to Question 179889 from the hon. Member for Pendle (Mr. Prentice), [11 March 2008, Official Report, columns 211-13W] should have included:

In addition to Fujitsu Database Administrators, IBM Database Administrators also have direct access to the Driver and Vehicle Licensing Agency's (DVLA) registers.

Finally, in response to Question 197148 from the hon. Member for Carmathen East & Dinefwr (Adam Price), [2 April 2008, Official Report, columns 1010-11W] the following should have been included:

The central Department uses an online survey site hosted by SurveyMonlcey.com., a US registered company whose site is hosted in the United States. This facility has been used by the Department to conduct surveys including staff surveys. Personal information relating to DfT staff included name, workplace address, qualifications and employment experience. It was also used by VOSA to get feedback on staff events such as their annual conference.

Highways Agency Annual Report and Accounts 2007-08

The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris): The "Highways Agency Annual Report and Accounts for 2007-08" is published today under section 7 of the Government Resources and Accounts Act 2000. A copy of the report will be placed in the House Library. Copies are available from the Vote Office.

Local Transport Bill

The Minister of State, Department for Transport (Ms Rosie Winterton): The Local Transport Bill, currently before Parliament, contains measures to improve public transport and tackle road congestion.

Assuming the Bill receives Royal Assent, the Government propose to issue guidance and make secondary legislation to support the implementation of various provisions in the Bill. In preparation for this, and to inform debate in the remaining parliamentary stages of the Bill, the Department for Transport will shortly be publishing consultations covering:

draft guidance and regulations relating to quality partnership schemes and voluntary partnership agreements (to apply in England and, partly, in Wales); and

draft regulations needed to implement the new flexibilities for the community transport sector (to apply throughout Great Britain).

The Office of Fair Trading will also shortly be consulting on joint guidance with the Department, explaining how competition law applies in the bus market. This guidance will be relevant in England and Wales.

The draft guidance and regulations, and accompanying consultation papers, will be made available on the Department for Transport website, and copies will be placed in the Libraries of the House.

Other consultations related to the implementation of the Bill are expected to be published later in the year.

Civil Aviation Authority

The Secretary of State for Transport (Ruth Kelly): I am publishing today, and placing in the Libraries of both Houses, Sir Joseph Pilling's report of his independent strategic review of the Civil Aviation Authority (CAA), the UK's aviation regulator. I commissioned this review last September, following a recommendation by the Transport Committee of this House.

I am grateful to Sir Joseph for his thoughtful report and his recognition of the important contribution which the CAA makes to aviation in the UK and internationally. He found that the CAA has been and continues to be highly successful, but he concluded that its framework and organisation could be modernised to meet future challenges in the fast-changing aviation sector.

Some of Sir Joseph's recommendations are for the Government, including some which are relevant to the separate review of airport economic regulation which I announced recently, and to work on improving the passenger experience. I intend to consider these recommendations in detail over the summer and to make a fuller statement in the autumn. Interested parties who wish to comment on the report should write to me by the end of September.

Some of the key recommendations deal with the CAA's governance and would bring the way that the organisation operates more in line with modern regulatory practice. It would be advantageous to make the governance reforms soon, to help lead the further changes envisaged.

The current Chair, Sir Roy McNulty, completes his term next year after a very distinguished period in that office since 2001. My Department will shortly start the process of seeking a part-time non-executive Chair and then a new Chief Executive, on the basis envisaged by Sir Joseph Pilling.

I am pleased that the CAA board has welcomed the overall outcome of the review, and has confirmed the CAA's willingness to work closely with my Department in the programme of implementation.

The report is available on the Department for Transport website and printed copies can be obtained from: DfT Publications, Tel: 0870 1226 236, Textphone: 0870 1207 405, Email: dftinf@capita.co.uk.

Departmental Agencies

The Secretary of State for Work and Pensions (James Purnell): I am pleased to announce that the Department for Work and Pensions has today laid in the House the 2007-08 annual reports and accounts for its executive agencies: Jobcentre Plus (HC 707), the Pension Service (HC 855), the Disability and Carers Service (HC 719), and the Rent Service (HC 729). The annual report and accounts of the Child Support Agency will be laid shortly.

WORK AND PENSIONS

Employment and Social Policy Informal Meeting

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): The employment and social policy informal meeting was held on 10 to 11 July 2008 in Chantilly, France. I represented the UK.

The theme of the informal meeting was "Revising the European Social Agenda". This provided the chance to discuss the Commission's social package, which was launched at the beginning of July 2008.

The meeting started with a Ministers only breakfast meeting looking at ideas to make social Europe more concrete and closer to its citizens. A "social Europe week" and a common declaration from all member states of the EU's "social offer/deal" to its citizens were some of the ideas raised.

There were three plenary sessions, each devoted to specific challenges linked to social Europe: the impacts of climate change and globalization, of changing demographic structures and the fights against poverty and discrimination. There was broad support by all delegations for the Commission's renewed social agenda and interesting discussions on poverty and active inclusion in particular. For the UK, I pledged broad support for the new proposals whilst highlighting some of the areas which would need further work. I raised the challenges posed by financial exclusion and the further possible useful work at a European level in this area. Other member states welcomed this positive statement on anti-discrimination and thought the financial exclusion point was a good example of specific problems needing concrete answers and they were willing to discuss further.

An innovation by the presidency was the introduction of web chats at the end of each plenary session. The public had been invited to put questions to Ministers via the French presidency website and these were answered by whichever Minister chose to.

I answered a question on active ageing, pointing out the economic implications, the importance of skills, the need to exchange information and best practice and the challenges of anti discrimination. I met bilaterally with Ministers from Denmark, Sweden, and Italy, and I hope that the new Italian Minister will visit the UK in the autumn and see a Jobcentre Plus office. I was also able to discuss with the French High Commissioner for Active Solidarity against Poverty, Martin Hirsch, UK views on EU social experimentation, including the trans-national pilot projects which we believe can offer significant new insights in the field of social inclusion.

Social Fund Commissioner

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): The Social Fund Commissioner's annual report has been published today and a copy placed in the House of Commons Library.

The report covers the work of the Independent Review Service, whose Social Fund Inspectors provide an independent means of review for applicants who are dissatisfied with the decisions made on their applications for the discretionary Social Fund.

Written Ministerial Statements

Monday 21 July 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Das Air

The Parliamentary Under-Secretary of State for International Development (Mr. Gareth Thomas): My predecessor, my right hon. Friend the Member for Makerfield (Mr. McCartney) committed in 2006 to make a statement to the House once the UK National Contact Point had completed its investigation in to Das Air's behaviour in the Democratic Republic of Congo.

The complaint was submitted to the UK National Contact Point under the auspices of the OECD Guidelines for Multinational Enterprises by a Non-Government Organisation RAID (Rights and Accountability in Development) on 28 April 2005.

I am therefore happy to fulfil that commitment; the UK National Contact Point today published the final statement on the DAS Air complaint. The National Contact Point concluded that DAS Air:

(i) failed to apply due diligence when transporting minerals from Entebbe and Kigali, which had a reasonable probability of being sourced from the conflict zone in the Democratic Republic of Congo (DRC); and

(ii) undertook flights between Entebbe airport and the conflict zone in Eastern DRC. These flights coincided with an illegal occupation of the area by the Ugandan military, during a period when the United Nations and NGO's recorded human rights abuses. A flight ban between DRC and Entebbe was in place during the applicable period, meaning these flights were in direct contravention of international aviation conventions (the Chicago convention).

The NCP upheld the allegations brought by Rights and Accountability in Development (RAID) and concluded that DAS Air had failed to meet the requirements of the guidelines.

Strategic Export Controls

The Minister for Energy (Malcolm Wicks): The Government will today—21 July 2008—publish their further response to the public consultation on UK Strategic Export Controls.

On Wednesday 6 February 2008, I announced to the House the publication of the Government's initial response to a public consultation on strategic export controls introduced under the Export Control Act 2004. This response is available at: http://www.berr.gov.uk/european trade/strategic-export-control/legislation/export-control-act-2002/review/index.html . In it, the Government made a commitment to tighten controls in four areas.

I am pleased to announce that since the initial response was published, the Government:

Has added "sting sticks" to the UK list of torture equipment.

Has started EU negotiations to introduce a new "torture end use control."

Is on track to create the new three category structure for the trade controls, and extend the extra-territorial controls on small arms, MANPADs, and cluster munitions, on 1 October 2008. The Government have also now taken the decision to withdraw all cluster munitions from service in the spirit of "the Dublin Convention on Cluster Munitions."

Is on track to move to light weapons into category B of the new trade controls on 6 April 2009. This will bring under control the trading activities of UK persons anywhere in the world in relation to those weapons. On the same date, unmanned aerial vehicles (UAVs) and long range missiles (LRMs) will be moved into category B;

Is on track to correct a current legal anomaly on the treatment of non-military explosive goods by 1 October 2008. This will bring a wider range of activities relating to the trading of those goods to embargoed destinations under control. In particular, this will include trading activities of UK persons anywhere in the world.

The initial response also identified a number of other areas where further detailed analysis and discussion was needed..I am now in a position to update the House on these areas. The further response commits the Government to:

(i) Negotiate an enhanced EU Military End Use Control under which licences will be required for export from the EU of any non-controlled goods which the exporter knows are intended for use in listed destinations, by the military, police or security forces, or has been informed by the Government that the goods are or may be so used, but only where there is a clear risk that the goods might be used for internal repression, breaches of human rights, or against UK forces or those of allies.

(ii) Introduce additional controls on the provision of transport in the highest risk circumstances through amendments to the trade controls.

(iii) Adjust the scope of the current legislative exemptions in relation to transit and transhipment so that there is no exemption for category A goods. For category B goods, we will remove the exemption for specified destinations of concern.

The further response also identifies areas where the Government have decided not to make a change. These are:

(i) *Ancillary services*—the Government have concluded that the sole provision of finance or insurance services and general advertising and promotion should not be controlled for the new category B goods—but active or targeted promotional activities aimed at securing a particular business deal will be controlled

(ii) *A pre-licensing registration system for arms brokers*—the Government are not yet fully convinced at this stage that the benefits of a pre-licensing registration system would justify the burden it could impose on legitimate business, particularly in view of steps that they are already taking in other areas.

(iii) The current provision in the trade controls which limits the controls on certain activities to those which are done in return for the "*receipt of a fee, commission or other consideration*", will be retained, although we will amend the current legislation to clarify what is meant by the term "commission or consideration".

(iv) *The harmonisation of the definitions of technology*—the response concludes that the current definitions differ for legitimate reasons and so it would be inappropriate to harmonise them; but commits to update guidance to clarify the reasoning behind these differences.

There are also some areas where work is continuing. This further response therefore also:

(i) Informs readers that the Government are still considering with non-Government organisation and industry stakeholders whether to extend trade controls on activities by UK persons anywhere in the world to cover other weapons that is, beyond cluster munitions, small arms, light weapons and MANPADS.

(ii) Provides an update on the progress made by the Government in negotiating a torture-end use control in the EU, as noted in the initial response.

I am very pleased to announce this wide ranging package of measures, which I am satisfied address the main interests of our stakeholders, and is at the same time proportionate to the risks concerned, effective and enforceable.

[1]Announced on 30 May 2008.

CHILDREN, SCHOOLS AND FAMILIES

Contingencies Fund Advance

The Minister for Children, Young People and Families (Beverley Hughes): The then Secretary of State for Education and Skills entered into a two-year contract with Serco Ltd in October 2006 for support for the development of children's centres and the modernisation of services for children and their families. Under this contract the consortium Together for Children is responsible for supporting, challenging and helping local authorities build their capacity, with their partners, to plan and commission to time and cost, the development of sustainable, high quality children's centres.

Parliamentary approval is being sought for expenditure on a continuing service, through an extension of the contract from 1 October 2008 for a further two years. Expenditure on this contract currently rests solely on the authority of the Appropriation Act, in the absence of specific statutory authority. The Children and Young Persons Bill currently before Parliament will put the Secretary of State under a duty to promote the well-being of children. One effect of this duty will be to enable the Secretary of State to enter into this and other such contracts in pursuit of this duty.

The timetable for Royal Assent of the Bill, which is expected in this session of Parliament, means that Parliamentary approval for additional resources of £1,500,000 for this new service will be sought in a supplementary estimate for the Department for Children, Schools and Families to enable expenditure on this new service in advance of Royal Assent of the Children and Young Persons Bill. Pending that approval, urgent expenditure estimated at £1,500,000 will be met by repayable cash advances from the Contingencies Fund.

The expenditure cannot await parliamentary approval of the enabling legislation because any extension of the contract must take place before expiry of the existing contract on 30 September 2008. Disruption of support for local authorities at this stage would threaten the roll out of children's centres at a crucial time when key decisions are being taken about where to locate the remaining centres and how to reconfigure existing services in order to achieve universal coverage for children under five and their families. It could lead to a delay in children and families accessing and benefiting from children's centre services.

The Contingencies Fund advance can be repaid immediately the Children and Young Persons Bill receives Royal Assent.

School Inspection

The Secretary of State for Children, Schools and Families (Ed Balls): School inspection plays an important role in both the publicly funded and independent sectors to ensure quality of provision, to protect the interests of pupils, and to ensure parents have reliable information about schools. The Education and Skills Bill now provides an opportunity for us to secure the high quality of independent school inspection and give this system a clear legislative foundation.

Independent schools in England are required to meet the statutory standards set out in the Education (Independent School Standards) (England) Regulations 2003 (as amended), and are inspected regularly to ensure that they do so. The existence of independent inspectorates allows for simultaneous inspection against both statutory standards and other criteria. For example, the Independent Schools Inspectorate (ISI) checks that schools which belong to the Independent Schools Council (ISC) meet a range of criteria that have to be met in order to belong to ISC. In addition, since 2005 we have been approached by smaller school groupings that want to form their own school inspectorates.

We have therefore proposed to take powers to set criteria for the approval and withdrawal of approval of inspectorates. The proposed criteria cover issues such as the qualifications and experience of inspectors, the inspection framework, management and quality assurance of inspections, public confidence in inspectorates, complaints handling, financial viability, and the school to be covered by new inspectorates. Our proposed criteria were set out in a consultation document published on 21 January 2008, and we have published our consultation response at: http://www.dfes.gov.uk/consultations/conResults.cfm?consultationId=1528 today. Responses to the consultation have been positive and constructive and I am grateful to all those who have participated.

In its response to the consultation and subsequently, Ofsted has provided evidence that the quality of independent inspection and public confidence in this system will best be promoted by a system of larger inspectorates. It concludes that such a system will make it easier to secure consistent assessment of standards, help prevent the inspector body becoming over-familiar with the school groups with which they were associated and promote public confidence about an inspectorate's breadth of perspective and genuine independence from the schools they inspect.

This analysis has led us to re-examine the criteria for size, diversity and the composition of the inspectorial workforce which we consulted on in January. We are therefore today launching a supplementary, limited consultation with those who responded to the initial consultation and other key stakeholders, in which we propose a higher minimum threshold of 350 schools. I have placed a copy of this further consultation in the Library of the House.

COMMUNITIES AND LOCAL GOVERNMENT

Data Matching

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Iain Wright): The Secretary of State has today laid the Audit Commission's Code of Data Matching Practice as required by part 2A of the Audit Commission Act 1998, as amended by the Serious Crime Act 2007.

The code governs how all organisations that participate in the Audit Commission's data matching exercises, including the Commission itself, are required to have regard to it. The code also sets out best practice standards for the Audit Commission and these participating organisations.

The Audit Commission's National Fraud Initiative is a data matching exercise aimed at detecting fraud. The new powers, as conferred by the Serious Crime Act 2007, allow the Commission to build on their previous exercises by making it available to a wider range of bodies.

Housing and Planning Delivery Grant

The Minister for Housing (Caroline Flint): Following the Government's announcement of provisional allocations for Housing and Planning Delivery Grant for 2008-09, a number of local authorities expressed concern that their grant had been abated for poor performance on development control. Unfortunately, a figure of 80 per cent. was used for all development control targets on which grant is abated, rather than of 60 per cent., 65 per cent. and 80 per cent. for major, minor and other applications.

The abatement figures have now been corrected. The changes affect all local authority provisional allocations as there is less abated grant to be redistributed to unabated authorities.

A revised schedule of local authority provisional allocations has been placed in the Library of the House.

CULTURE, MEDIA AND SPORT

The Tote

The Parliamentary Under-Secretary of State for Culture, Media and Sport (Mr. Gerry Sutcliffe): In my ministerial written statement on 5 March I said that the Government intended to prepare for an open market sale of the Tote, and would take advice on strategic options. I also announced that the overriding criterion for a sale of the Tote would be to maximise value for the taxpayer and that the Government would honour their commitment to return half of the net proceeds of any open market sale to racing subject to the requirements of European state aid and competition rules.

The Government remain of the view that it is appropriate that it removes itself from detailed involvement in the affairs of the racing and bookmaking industries. It is also keen to give certainty to the Tote and its businesses so that they can develop and flourish for the benefit of their staff and racing.

The Government have received preliminary views from its advisers on the strategic options available with regard to the Tote. It is clear that the Tote is a highly attractive asset which would enjoy significant interest if brought to market in an open auction.

However the Government will need to be satisfied that it is right to proceed with a sale in the light of current market conditions. The Government intend to commission detailed work on the Tote to be undertaken during the course of the summer, which would provide the necessary groundwork to launch a sale in the autumn. This work will also provide further data on the company which would enable the Government and the Tote board to consider how best to create further value inside the Tote if, in the light of market conditions, the Government decided in the autumn not to proceed to a sale at that time.

Finally, the Government would like to place on record their warm appreciation of the fortitude and professionalism of the Tote's staff up and down the country at this time. If a sale of the Tote were to proceed the Government would emphasise in any sale documentation and process both the quality of the Tote's workforce and the north-west as an excellent business destination.

DEFENCE

Low Flying

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): I have today placed in the Library of the House a report giving a detailed account of the low flying training that has taken place in the UK low flying system for the training year April 2007 to March 2008.

Additional copies of "The Pattern of Military Low Flying Across the UK 2007-2008" are available on request from the following address:

Directorate of Air Staff
Complaints and Enquiries Unit
Ministry of Defence
Level 5 Zone H
Main Building
Whitehall
London SW1A 2HB

Alternatively it can be viewed on the MOD's web site: www.mod.uk/issues/lowflying.

Baha Mousa (Public Inquiry)

The Secretary of State for Defence (Des Browne): In a written statement on 14 May (*Official Report*, column 60WS) I announced that there would be a public inquiry into the death of Baha Mousa, who died in Iraq in September 2003 while being detained by British soldiers.

The inquiry will be held under the Inquiries Act 2005 and it will be chaired by the Rt Hon. Lord Justice Gage, who is about to retire from the Court of Appeal. Lord Justice Gage is a very experienced judge and I am grateful to him for taking on this important task. He has decided to chair the inquiry alone, that is without other panel members. He may, however, decide to appoint assessors who can assist him with expert knowledge and advice.

The inquiry's terms of reference are:

To investigate and report on the circumstances surrounding the death of Baha Mousa and the treatment of those detained with him, taking account of the investigations which have already taken place, in particular where responsibility lay for approving the practice of conditioning detainees by any members of the 1st Battalion The Queen's Lancashire Regiment in Iraq in 2003, and to make recommendations.

In my statement on 14 May I described the death of Mr. Mousa as a disturbing incident; this was not just because a man died in the custody of British soldiers, but because an investigation by the Royal Military Police and subsequent court martial highlighted further important questions that needed to be answered. I am confident that the terms of reference I have set out will not only enable the inquiry to conduct a thorough examination of the circumstances surrounding the death, but are sufficiently focused to ensure that its conclusions can be reached in a timely manner.

The inquiry will, of course, have the full support of the Ministry of Defence. Much work is in hand to ensure that the inquiry has the material it needs and that those who will be required to assist the inquiry are given legal advice.

MOD Annual Report and Accounts

The Secretary of State for Defence (Des Browne): I am pleased to announce that I am today publishing the Ministry of Defence's annual report and accounts 2007-08. It combines the Department's annual performance report and departmental resource accounts in a single document that provides a comprehensive overview of the MOD's financial and non-financial performance for the year, a final assessment of performance against the 2004 spending review public service agreement targets, and a provisional assessment of final performance against the 2004 spending review efficiency target. Copies have been placed in the Library of the House. It is also available online from the Department's website at www.mod.uk/DefenceInternet/DefenceFor/Researchers/.

This has been a challenging year for Defence. The operational tempo remained high with the continuing operations in Afghanistan and Iraq. In those theatres and others, British forces are making a huge contribution to international security. We have made real progress in developing our relationship with industry, promoting innovation and improving the whole procurement process. Our armed forces are now better equipped than ever before. The report also details the considerable progress the Ministry of Defence has simultaneously made in delivering the capabilities and reformed force structure set out in the July 2004 Command Paper "Delivering Security in a Changing World: Future Capabilities", other elements of the defence change programme, the defence acquisition change programme, the capability review, and the Government's wider sustainability goals.

The success of Defence is dependent on the men and women of the Armed Forces and the civilians who support them. They continue to do an exceptional job. The Government remain committed to providing the support that they need and deserve.

Nitrates Directive

The Minister for the Environment (Mr. Phil Woolas): The Government are today publishing their response to a consultation on proposals to revise the regulations which implement the nitrates directive. Copies will be placed in the Libraries of the House.

The consultation drew a very high response from stakeholders and prompted two Westminster Hall debates and an inquiry by the Environment Food and Rural Affairs Committee. I am also writing today to the Chairman of the Select Committee to respond to its report.

The consequences of nitrate pollution of water are serious. They include high treatment costs for removing it from drinking water sources, adverse impacts on biodiversity and the aquatic ecosystem, and reduced amenity use and benefits. Agriculture is the main source of this pollution, chiefly from manures and fertilisers. The key to addressing this problem is to achieve an improvement in farming practices, and the nitrates regulations make an important contribution to that. They are part of a broader approach that is being developed—as highlighted earlier this year in the Government's water strategy for England—to address diffuse sources of pollution from all sources, both agricultural and non agricultural.

A factual analysis of comments received on the consultation proposals has been published on the Defra website at http://www.defra.gov.uk/corporate/consult/waterpollution-nitrates/summary-responses.pdf

The Government have considered very carefully the points made by stakeholders and have refined some of the proposals, largely to address practical implementation difficulties which they identified. For example:

Cover crops—we are removing the proposed cover crops measure. Instead, we are exploring whether there is scope for introducing a new management option within entry level stewardship.

Closed periods for organic manure—we intend to remove the higher rainfall band and align the closed periods end dates according to soil type and are adding a new exemption for registered organic producers.

Capacity of storage vessels—we are increasing the implementation time allowed for this measure from two to three years and are adding a refinement to the storage requirement calculation to allow farmers to take account of the amount of manure that can be spread to "low risk run-off land".

Whole farm limit for livestock manure—we are reiterating our commitment to seek a derogation from the European Commission on the 170 kg/ha whole farm limit as a matter of urgency.

As the EFRA Committee report acknowledged, the directive prescribes specific measures that must be included in member states' regulations to achieve the environmental objectives of the directive. We have made full use of the limited discretionary elements of the directive's provisions in drafting regulations which will be laid before the House in September. We also intend to align the implementation of the directive with our anaerobic digestion strategy.

This package of measures represents the best way forward for addressing concerns raised by stakeholders within the constraints of our obligations to comply with the directive and protect our waters from nitrates from agricultural sources. Officials will be meeting those affected to explain the new requirements, and arrangements will be set up to provide farmers with advice and guidance.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Water Conservation

The Minister for the Environment (Mr. Phil Woolas): My right hon. Friend the Secretary of State for Environment, Food and Rural Affairs has today laid before Parliament a progress report as required by Section 81 of the Water Act 2003, setting out the action taken by Government to encourage the conservation of water during the period 1 April 2004 - 31 March 2007 and the steps Government propose to take in the future.

This is the first such report we have prepared. The first report was due to cover the three year period from 1 April 2004-31 March 2007. However, the drought of 2004-06 together with the subsequent development, with stakeholders, of a new water strategy for England enables us to present a comprehensive report to Parliament, particularly in respect of our future proposals.

We published our water strategy for England, "Future Water", in February 2008, which provides a comprehensive forward look of the Government's plans for water in the future. The key message contained in "Future Water" was that we all need to value water and take responsibility for protecting this essential and unique resource. Today's report sets out the Government's contribution to date and our plans for the future to help achieve this aim.

A copy of the report is also available of the DEFRA website at http://defraweb/environment/water/conserve/what.htm

Rural Payments Agency

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw): The 2007-08 annual report and accounts for the Rural Payments Agency will be laid before Parliament today.

Uplands Entry Level Stewardship Scheme

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): We announced in December 2006 that uplands support will be integrated into environmental stewardship from 2010, replacing the Hill Farm allowance. At that time we said we were minded to do this through a specific uplands strand to the entry level stewardship (ELS) scheme but that further analysis was needed to ensure that this would deliver the fullest environmental benefit.

Work since then with stakeholders and Natural England has shown this approach to be the right one and I am pleased to confirm that Natural England will implement Uplands ELS in 2010.

Our objective for this new strand of environmental stewardship will be to maintain and improve the biodiversity, natural resources, landscape and historical value of England's uplands, and to contribute to climate change mitigation and adaptation, by supporting the land management practices which deliver these benefits.

We want to secure public goods on a landscape scale, additional to those delivered by ELS, by supporting large numbers of upland farmers and land managers in delivering simple yet effective environmental management in the uplands. This is in recognition of the significance of the uplands in delivering a wide range of public benefits, and of the critical role that farmers and land managers play (particularly through extensive livestock grazing).

Uplands ELS will be open to all upland farmers and land managers—providing they can meet the requirements—and will be targeted at those carrying out the land management. We want it to be sufficiently flexible to allow farmers to adapt to future policy and market changes, whilst still delivering environmental and landscape benefits. We have also listened to pleas from farmers and other stakeholders to keep it simple.

We have worked closely with Natural England and stakeholders in developing the proposals, including through advice from a hill farmers' panel. We will be seeking views from the wider hill farming community over the summer, and testing the proposals with a range of hill farms so that we can ensure they are practical for the farmers involved, and achieve our objectives. We will also explore possible transitional arrangements for farmers and land managers in other closed agri-environment schemes. I will make a further announcement on the final scheme later this year.

FOREIGN AND COMMONWEALTH OFFICE

General Affairs and External Relations Council

The Minister for Europe (Mr. Jim Murphy): The General Affairs and External Relations Council (GAERC) will be held on 22 July in Brussels. My right hon. Friend the Foreign Secretary will represent the UK.

The agenda items are as follows:

EXTERNAL RELATIONS

Somalia

Ministers are likely to discuss the Commission's Political Options and Piracy Options papers. The former covers the general political situation in Somalia. We agree with its findings and proposals, namely that the EU should continue to support the Special Representative of the UN Secretary-General in implementing UNSCR 1814, which sets out seven key areas for international action, and increase support for the Djibouti Agreement and AMISOM. On the Piracy Options paper, we agree that the EU should look at ways to help implement UNSCR 1816 on piracy. Our priority is to ensure a flexible approach from EU member states, bringing greater co-ordination of effort in the region, without duplicating or competing with existing arrangements.

We expect the Council conclusions to welcome the recent AU summit and its efforts on Somalia, including calls to reinforce AMISOM; to agree the importance of the UN's role in Somalia in regard to strengthening the Transitional Federal Institutions. The conclusions may also suggest that the Council Secretariat and European Commission study all possible options on how to best contribute to the implementation of UNSCR 1816.

Western Balkans

Discussion of the Western Balkans is likely to be brief, focussing on Serbia and Kosovo. On Serbia, Ministers are likely to discuss the recent formation in Belgrade of a pro-European Government. The Government are supportive of conclusions welcoming the formation of

the new Government and encouraging it to fully co-operate with the International Criminal Tribunal for the former Yugoslavia and play a constructive role in the region. On Kosovo, discussion is likely to centre on progress in deploying the EU's police and rule of law mission, EULEX. The Government support the reconfiguration of international presences in Kosovo, with EULEX rapidly deploying throughout Kosovo.

EU-Ukraine

The GAERC will discuss the EU's position at the EU-Ukraine summit on 9 September. The main objective of the summit will be to reach broad agreement on the key elements of a new enhanced agreement currently being negotiated between the EU and Ukraine with a view to providing impetus to the negotiations and to economic and political reform in Ukraine more generally. The presidency is seeking to agree an ambitious EU position at the summit, for which the UK will offer strong support. We want the EU's new enhanced agreement with Ukraine to be an ambitious one that underpins further reform and holds out the prospect of eventual membership of the EU. There will be no conclusions.

Iran

High Representative Solana is expected to brief Ministers on the outcome of his meeting with Saeed Jalili on 19 July and whether or not the Iranians are ready to accept the terms of the offer made by the E3 plus 3. In the light of this, the Council is also expected to discuss a new Common Position on strengthened implementation of UNSCR 1803. And Ministers may also discuss the need for further EU sanctions against Iran in the light of its continued defiance of UNSCRs 1696, 1737, 1747 and 1803, as well as the recent IAEA reports reinforcing concerns about Iran's nuclear programme. The Government fully support strengthening EU sanctions against Iran and has been pressing partners to support the sanctions track, alongside incentives, as a way of influencing the growing political debate inside Iran.

Middle East

The Quartet Representative, Tony Blair, is expected to debrief Ministers on the latest developments. France is likely to set out their presidency's plans for the Middle East Peace Process. Discussion is also like to focus on: the EU's practical and political support for the process; the continuing negotiations between Prime Minister Olmert and President Abbas; the Gaza ceasefire; and the humanitarian and economic situation in the Occupied Palestinian Territories.

The Government are committed to supporting the process initiated at Annapolis, which has put the Israelis and Palestinians on a path to real negotiations in 2008, leading to a final settlement of two states living side by side in peace and security. Israeli security is absolutely fundamental to a just solution; and Palestinian hardship can only be tackled through a political process that creates an economically and socially viable Palestinian state at peace with Israel.

Chad/Central African Republic

We expect the GAERC to focus on the contributions of EUFOR and MINURC AT to the regional security situation. EUFOR is the EU's military mission to eastern Chad and CAR, and MINURCAT is the accompanying UN police-training mission. The Council conclusions will highlight the contributions to EUFOR from non-EU countries, which the Government welcome. The Government will support references to EUFOR's continued impartiality in all regional conflicts, and the good co-ordination between EUFOR and MINURCAT. The Government hope that MINURCAT will continue its deployment in Chad, and that the rate of deployment will increase where possible.

Zimbabwe

The Government expect the Council to agree conclusions underlining the EU's deep concern over the situation in Zimbabwe and the deteriorating humanitarian situation. The Council conclusions will underline that the EU cannot recognise the 27 June election result as credible or reflecting the will of the Zimbabwean people.

The Government will be pressing partners to adopt a series of extended targeted measures against those involved in human rights abuses and the campaign of violence.

Transatlantic Relations

Ministers are expected to discuss the progress of the Transatlantic Economic Council (TEC) and visa/customs issues. The Government fully support the TEC as a vehicle to drive forward closer EU-US economic co-operation. TEC meetings have made some progress, although discussions have been strained at times on controversial issues such as EU imports of US poultry. Our aim at this meeting is to ensure that such issues do not distract from what we consider to be the TEC's priorities: eliminating unnecessary regulation, promoting open markets and removing barriers to trade and investment.

The discussion may also touch upon transatlantic relations in general at Portuguese request. The Government support their view that the EU and US have common interests and challenges that must be addressed together, though we caution against attempts to dwell on or exaggerate past disagreements as counterproductive to this aim.

HOME DEPARTMENT

Animal Procedures

The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier): I am pleased to inform the House that I have today placed in the Library the annual report of the Animals (Scientific Procedures) Inspectorate for the year 2007. This is the fourth annual report published by the Inspectorate.

Publication of the report honours a commitment given by the Government in response to a recommendation of the House of Lords Select Committee on Animals in Scientific Procedures in July 2002 that more information should be made available about the work of the inspectorate.

The report, published today, explains the inspectorate's role in assessing, and advising Home Office Ministers, and officials, on applications for personal and project licences and for certificates of designation under the Animals (Scientific Procedures) Act 1986. It also provides details of the inspection system through which compliance

with licence authorities granted under the 1986 Act is monitored, and about visiting patterns and practice and the number of visits carried out during the year.

The report explains the important role of inspectors in gathering and transmitting information on good practice and provides examples of the many events and initiatives to which the inspectorate made significant contributions during the year. In addition, this year's report contains special features on the generation, breeding and maintenance of genetically altered mice and on the planning and construction of buildings in which scientific work involving animals is to be conducted.

I commend the report to the attention of Members.

Independent Police Complaints Commission

The Minister for Security, Counter-Terrorism, Crime and Policing (Mr. Tony McNulty): This is the fourth Annual Report from the IPCC. The report covers the work of the IPCC during 2007-08 and includes a discrete chapter on the discharge of their responsibilities in respect of Her Majesty's Revenue and Customs. The report also includes a chapter on deaths during or following police contact, which shows that there were 9 fewer fatalities in this period than in 2006-07 and 32 fewer fatalities than in 2004-05.

During this year the IPCC has made significant improvements in their performance having set some ambitious targets. I am pleased to see that they are committed to continuing to improve their performance further. In their role as statutory guardians of the complaints system, the IPCC have also in this period carried out a stock take of how far the current police complaints system has met its original aspirations when it was set up in April 2004; further information will be made available about this in due course.

The IPCC have a key role in increasing confidence in the police complaints system which will, in turn, impact positively on public confidence in the police.

Security Industry Authority

The Parliamentary Under-Secretary of State for the Home Department (Mr. Vernon Coaker): I am pleased to announce that the annual report 2007-08 and accounts of the Security Industry Authority (SIA) will be laid before Parliament today and published on 28 July 2008.

Copies of the report will be available in the Vote Office upon publication.

Criminal Records Bureau

The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier): I announce that copies of the 2007-08 annual report and accounts for the Criminal Records Bureau have been laid before the House today. Arrangements are now in hand for their publication.

Animal Welfare

The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier): I wish to respond to the publication entitled "Statistics of Scientific Procedures on Living Animals—Great Britain—2007", which was presented as a House of Commons Paper (933) today. Copies have been placed in the House Library.

This annual statistical report meets the requirement in the Animals (Scientific Procedures) Act 1986 to inform Parliament about the licensed use of animals for experimental or other scientific purposes. It also forms the basis for meeting periodic reporting requirements at EU level. A hard copy is available and supplementary information with additional tables is also available on the Home Office website.

The statistical report shows an overall increase over the previous year of 6 per cent. in the number of procedures undertaken. The total number of procedures was 3.2 million, an increase of 189,500 over the previous year. There has now been a relatively small increase for the sixth year running and is the highest total since 1992. A number of factors, such as investment in research and development and strategic funding priorities, determine the overall level of scientific procedures.

Non-toxicological procedures accounted for about 87 per cent. of the procedures carried out. These included fundamental research in human and veterinary medicine to improve understanding of disease mechanisms and possible therapeutic options, and development of vaccines.

Most toxicological studies (78 per cent.) were for the safety and efficacy testing of new drugs and medicines and the majority of all procedures (87 per cent.) were performed in order to carry out legal or statutory requirements.

In keeping with previous years, those procedures that used mice or rats (or other rodents) were the great majority at 83 per cent. Those using fish amounted to 10 per cent. and those using birds, 4 per cent. The total of all procedures using dogs, cats, horses and non-human primates, that is, those species offered special protection by the Act, was less than 1 per cent. of the total.

Genetically normal animals were used in about 1.73 million regulated procedures, up 86,200 (5 per cent.) on 2006 figures. This increase is associated with mice used in fundamental studies. However, this is an overall decrease of 2.27 million (23 per cent.) since 1995. Genetically modified animals (nearly all rodents) were used in 1.15 million regulated procedures representing, 36 per cent. of all procedures for 2007 (compared with 34 per cent. in 2006 and 8 per cent in 1995).

Advances in the opportunities to use genetically altered animals for new areas of biomedical research means that the trend of increased production and use of genetically altered animals has continued. It allows a more precise and often less invasive study of physiological studies and disease mechanisms that was previously possible. Most of the animals concerned are mice, which appear and live as normal. Many are only used in breeding programmes. In fact just over a third of all procedures in 2007 were accounted for by breeding procedures (37 per cent.) conducted in 2007, for the production of harmful mutant and genetically modified animals. Mainly mice (93 per cent.) and fish (6 per cent.) were used in these procedures.

I should point out in relation to the statistics that the Home Office, as regulatory authority under the 1986 Act, does cap the overall amount of animal research and testing which takes place, the imperative being to authorise work which is justified whilst minimising the numbers of animals used and any animal suffering that may be caused.

Therefore we ensure, in carrying out our licensing function, that the provisions of the Act are rigorously applied in each programme of work. All animal use must be justified, and that for each particular programme of work the number of animals used, and the suffering caused must be minimised.

The statistical report and supplementary information can be found at: http://scienceandresearch.homeoffice.gov.uk/animal-research/publications-and-reference/statistics/?version=1

I am also pleased to inform the House that I have today placed in the Library the annual report of the Animals (Scientific Procedures) Inspectorate for the year 2007. This is the fourth annual report published by the Inspectorate.

Publication of the Inspectorate report honours a commitment given by the Government in response to a recommendation of the House of Lords Select Committee on Animals in Scientific Procedures in July 2002 that more information should be made available about the work of the Inspectorate.

The report explains the Inspectorate's role in assessing, and advising the Secretary of State on applications for personal and project licences and for certificates of designation under the Animals (Scientific Procedures) Act 1986. It also provides details of the inspection system through which compliance with licence authorities granted under the 1986 Act is monitored, and about visiting patterns and practice and the number of visits carried out during the year.

This report explains the important role of inspectors in gathering and transmitting information on good practice and provides examples of the many events and initiatives to which the Inspectorate made significant contributions during the year. In addition, this year's report contains special features on the generation, breeding and maintenance of genetically altered mice and on the planning and construction of buildings in which scientific work involving animals is to be conducted.

I commend the Inspectorate's report to the attention of Members.

National DNA Database

The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier): Further to the written ministerial statement made on 25 July 2007 announcing the establishment of an ethics group to provide Ministers with independent ethical advice on the operation and practice of the national DNA database (NDNAD), I am pleased to announce the publication today of its first annual report.

The report makes a number of recommendations around the processes involved in the taking, use and retention of DNA samples, and in particular those taken from volunteers. I have asked the National Policing Improvement Agency and the National DNA Strategy Board to let me have their considered comments on the report's recommendations as soon as possible.

The ethics group report can be viewed on the website of the independent Forensic Science Regulator and I am arranging for a copy of the report to be placed in the Libraries of both Houses.

INNOVATION, UNIVERSITIES AND SKILLS

Learning and Skills Council

The Minister for Lifelong Learning, Further and Higher Education (Bill Rammell): I would inform the House that the Learning and Skills Council for England has today published its annual report and accounts for the period to 31 March 2008. Copies will be placed in the Libraries of both Houses.

JUSTICE

Corporate Manslaughter and Corporate Homicide Act 2007

The Parliamentary Under-Secretary of State for Justice (Maria Eagle): The Corporate Manslaughter and Corporate Homicide Act 2007 received Royal Assent on 26 July 2007.

The Act applies to companies incorporated under companies legislation, other corporations including public bodies incorporated by statute such as local authorities or NHS bodies; organisations incorporated by Royal Charter; limited liability partnerships and all other partnerships that are employers; Crown bodies such as Government Departments; and police forces.

An organisation is guilty of the new offence if the way in which its activities are managed or organised causes a death and this amounts to a gross breach of a relevant duty of care to the deceased. A substantial part of the breach must have been in the way activities were managed by senior management.

The majority of the Act was implemented on 6 April 2008, with the exception of section 2(1)(d) which makes the duty of care a custody provider owes to a person who is detained a relevant duty of care, and section 10 on publicity orders where we await guidelines to be issued by the Sentencing Guidelines Council later this year.

Procedures for caring for some of society's most vulnerable or volatile people are highly complex. That is why it was made clear to Parliament when it passed this legislation that a period of three to five years would be needed for custody providers to prepare for implementation of Section 2(1)(d).

We are publishing a report today which discusses the progress made to date by the various custody providers and what remains to be done. While implementing the Act provides a useful catalyst and driver, reducing deaths in custody is a core part of long-term work by the Government together with custody providers, and this long-term agenda is reflected in the report.

The report includes developments in Northern Ireland for which my right hon. Friend the Secretary of State for Northern Ireland has responsibility under the Act.

Copies of the report will be placed in the Libraries of both Houses. The report is also available in the Vote Office and the Printed Paper Office and on the internet at: www.justice.gov.uk/publications/corporate-manslaughter-progress-custody.htm

Deaths in Custody

The Parliamentary Under-Secretary of State for Justice (Maria Eagle): In February this year I published the independent review of the Forum for Preventing Deaths in Custody (*Official Report*, 25 February 2008, Col. 68WS). I did so in order to canvass the opinions of those both inside and outside Parliament with an interest in this important area of work.

Ministers have now had the opportunity to consider both the recommendations of the review and the responses of stakeholders, and I am pleased to announce today that we have decided to implement the recommended reforms. We are therefore taking steps to set up a new tripartite body, to be known as the Ministerial Council on Deaths in Custody, incorporating senior decision-makers, experts and practitioners in the field. This extended, cross-sector approach to deaths in custody will allow for better learning and sharing of lessons across the custodial secters, and will benefit from direct links to Ministers, as the ultimate decision-makers. The reforms underline our commitment to reducing the number of people who die in our custodial institutions and the new structures will be subject to review after three years to evaluate their impact.

The intention is that the new Ministerial Council will be in place by early 2009. Further information on the work of the forum to date, and copies of the independent review, are available on the internet at www.preventingcustodydeaths.org.uk. Copies of the independent review have also been made available in the Libraries of both Houses.

National Offender Management Service

The Minister of State, Ministry of Justice (Mr. David Hanson): The annual report of Her Majesty's Prison Service for 2007-08 (HC No 860) has today been laid before Parliament. The National Probation Service annual report has also been published today. Copies have been made available in the Libraries of both Houses, the Vote Office and the Printed Paper Office.

The Prison Service report includes the financial accounts for 2007-08. The financial accounts for 42 probation boards were produced at the end of June 2008.

The performance of the National Offender Management Service against its targets for 2007-08 is shown in the table.

National Offender Management Service: Performance Against Targets 2007-08

Performance Indicator	*Annual Performance*	*Annual Target*
Public Protection		
No escapes of Category A prisoners	0	0
Rate of escapes from prison and prison escorts to be lower than 0.05 per cent. of the average prison population	0.008%	0.05%
Fewer than 1 in 20,000 escapes from prison and prison service escorts	1:75,345	1:20,000
At least 90 per cent. of OASys assessments (assessment, screening and full risk of harm analysis and sentence plan) must be completed or updated within five days following sentence or release on licence for all Tier 4 risk of harm cases (excluding PPOs).	96.5%	90%
Reducing Reoffending		
At least 90 per cent. of OASys assessments must be completed or updated within appropriate timescales (five days following sentence or release on licence for all PPO cases)	96.4%	90%
Offender Management		
At least 90 per cent. of OASys assessments (assessment, screening and, if appropriate, full risk of harm analysis and sentence plan) must be completed or updated within 15 days following sentence or release on licence for all Tier 1, 2 and 3 cases (excluding PPOs)	68.9%	90%
Safety Decency and Respect		
Rate of self-inflicted deaths (SIDs) in prison not to exceed 112.8 per 100,000 prison population.	106.7 per 100,000	112.8 per 100,000
1.81 per cent. of serious assaults per overall prison population	1.73%	1.81%
The percentage of prisoners held in accommodation units intended for fewer prisoners does not exceed 24 per cent. of the average population in public prisons	25.1%	24%
The percentage of prisoners held in accommodation units intended for fewer prisoners does not exceed 34.5 per cent. of the average population in private prisons	34.9%	34.5%
Delivery of Justice		
Achieve an average of 35 working days from the relevant unacceptable failure to comply to resolution of the case; and to resolve 60 per cent. of breaches of community penalties within 25 working days of the relevant unacceptable failure to comply (CJS measure).	43	35
	54%	60%
70 per cent. of orders and licences successfully completed	68%	70%
46,300 Completions of unpaid work requirements	55,771	46,300
The rate of drug-misuse in prison is less than 10 per cent. - as measured by the random Mandatory Drug Testing (rMDT) programme (reported 1 month in arrears)[2]	9.1%	<10%

National Offender Management Service. Performance Against Targets 2007-08

Performance Indicator	*Annual Performance*	*Annual Target*
Rehabilitation and Support		
Accredited Programmes Completed for All Prisons and Probation (exclusive of SOTPs & DVs)[1]	21,998	20,595
Prisons	7,467	6,655
Probation	14,531	13,940
Sex Offender Treatment Programmes Completed for All Prisons and Probation	2,477	4,405
Prison	1,117	1,105
Probation	1,360	1,300
Probation Domestic Violence Programmes Completed	2,560	2,079
At least 75 per cent. of offenders move to settled accommodation on release	85.0%	75%
26 per cent. of discharged prisoners entering employment on release	27.8%	26%
To ensure that 7,185 prisoners complete a drug rehabilitation programme or Therapeutic Community annually	8,096	7,185
13,200 offenders under supervision achieve and sustain employment for four weeks	16,823	13,200
75 per cent. of offenders are retained in DRR/DTTO for 12 weeks	84.7%	75%
Reassurance and Confidence		
85 per cent. of victims to be contacted within eight weeks of an offender receiving 12 months or more for a serious sexual or violent offence	95%	85%
Supporting the Courts		
90 per cent. of Pre Sentence Reports (PSR's) are completed to agreed timescales	95%	90%
At least 85 per cent. of prisoners from prison or police cells are delivered to court before the agreed time	85%	85%
Resource Use Strategy		
Days lost due to sickness (Prison System) not to exceed 11 days per annum	11.7	11.0
Days lost due to sickness (Probation) not to exceed nine days per annum	12.1	9.00
At least 6.3 per cent. of the workforce in public prisons to be from ethnic minority groups (Prison System)	6.2%	6.3%
95 per cent. of race and ethnic monitoring data on staff and offenders returned on time using correct classification (Probation)	98%	95%

Notes:
The NOMS targets are inclusive of both public and contracted prisons.
[1]Data relate to total programme completions (before quality reviews)
[2] MDT March data will be adjusted in June (three months' lag time)

NOMS National Targets for Prisons 2007-08: Breakdown of Public and Contracted Prison Performance

Performance Indicator	*Public*	*Contracted*	*Annual Performance*
Public Protection			
No escapes of Category A prisoners	0	0	0
Rate of escapes from prison and prison escorts to be lower than 0.05 per cent. of the average prison population	0.007%	0.01%	0.008%
Fewer than 1 in 20,000 escapes from contracted escorts			1:75,345
Safety, Decency and Respect			
Rate of self-inflicted deaths (SIDs) in prison not to exceed 112.8 per 100,000 prison population.	116.9	11.8	106.7
1.8 per cent. of serious assaults per overall prison population			
The percentage of prisoners held in accommodation units intended for fewer prisoners does not exceed 34.5 per cent. of the average population in private prisons and 24 per cent. in public prisons	25%	34.9%	
Delivery of Justice			
The rate of drug-misuse in prison is less than 10 per cent. - as measured by the random Mandatory Drug Testing (rMDT) programme (reported one month in arrears)	8.9%	10.0%	9.1%
At least 85 per cent. of prisoners from prison or police cells are delivered to court by the agreed time	85%	86%	85%
Rehabilitation and Support			
[6,655] accredited offending behaviour programmes completed by prisoners	6,885	582	7,467
[1,105] accredited sex offender treatment programmes completed by prisoners	1,037	80	1,117
At least 75 per cent. of offenders move to settled accommodation on release	85%	81.8%	85.0%
26 per cent. of discharged prisoners entering employment on release	27.3%	25.9%	27.8%
To ensure that [7,185] prisoners complete a drug rehabilitation programme or Therapeutic Community annually	7,398	698	8,096
Resource Use Strategy			
Days lost due to sickness (HMPS) not to exceed 11 days per annum	12	n/a	12
At least 6.3 per cent. of the workforce in public prisons to be from ethnic minority groups	6.2%	n/a	6.2%

Notes:
Figures for public prisons exclude juvenile-only establishments and immigration centres, which are not the responsibility of NOMS.

Appeals Tribunals

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): My right hon. Friend the Lord Chancellor and Secretary of State for Justice has today published the eighth report by the president of Appeal Tribunals on the standards of decisions made on behalf of the Secretary of State for Work and Pensions in cases which came before appeal tribunals. The major reasons given for Appeal Tribunals overturning or amending decisions were because new evidence was produced at the hearing or the tribunal took a different view of the same evidence.

In his report, the president acknowledges improvements by some of the Department for Work and Pensions' agencies, particularly the Disability and Carers Service. He questions whether the current method of producing feedback via an annual report is sufficiently focused and of practical use and suggests a lower level of more direct feedback to agency decision-makers.

The Tribunals Service has in place a number of partnership agreements with Department for Work and Pensions' agencies, who deal with benefits and make decisions on behalf of the Secretary of State, covering the interface as part of the end to end process of administering appeals. In addition to the agreements, regular meetings are held to review respective performance and discuss any issues to improve customer service.

This is the second report published by Ministry of Justice, as responsibility for Appeal Tribunals transferred from the Department for Work and Pensions from 1 April 2006.

Copies of the report have been placed in the Libraries of both Houses, the Vote Office and Printed Paper Office. Copies are also available on the internet at: www.tribunals.gov.uk

Office of the Public Guardian

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): The Office of the Public Guardian's annual report and accounts for 2007-08 have been laid before Parliament today. This document gives full details of the agency's performance and expenditure for the six months from its implementation on 1 October 2007 to the end of March 2008 and includes the Public Guardian's annual report to the Lord Chancellor about the discharge of his functions pursuant to section 60 of the Mental Capacity Act 2005.

Personal Injury Claims

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): The Government have today published the response to the consultation paper: "Case Track Limits and the Claims Process for Personal Injury Claims". It summarises the responses received to the consultation paper and sets out the next steps.

Having carefully considered the responses the Government have decided to establish a new claims process which will apply to road traffic accident personal injury claims valued at between £1,000 and £10,000. Road traffic accident cases constitute approximately 75 per cent. of personal injury claims. This new streamlined procedure provides for early notification of a claim; promotes early admissions of liability and early settlements; and removes duplication of work from the process. It introduces fixed time periods and fixed recoverable costs.

The Government have concluded that there should be no change to the small claims limits, including those for personal injury and housing disrepair claims, but that the fast track limit should be increased to £25,000.

Copies of the response have been placed in the Libraries of both Houses and can also be obtained free on the Ministry's website at www.justice.gov.uk/publications/cp0807.htm

Copies are also available in the Vote Office and the Printed Paper Office.

Homicide

The Parliamentary Under-Secretary of State for Justice (Maria Eagle): I am today announcing that as part of the review of the law on homicide, on Monday 28 July we will be publishing a consultation paper setting out proposals for reforms on:

partial defences to murder of diminished responsibility and provocation;

the law on complicity in relation to homicide; and

infanticide.

In December 2006 the Law Commission published its report on "Murder, Manslaughter and Infanticide" with wide-ranging recommendations for changes to the law. On 12 December 2007 I announced the second stage of the review of the law on homicide and emphasised the importance of conducting an open and transparent consultation on this important aspect of law.

Following discussions with key stakeholders both within and outside the criminal justice system we have now developed concrete proposals, including draft clauses, and we wish to put these for public consultation prior to introducing legislation.

Copies of the consultation document will be placed in the Libraries of both Houses on the date of publication. The consultation period will last 12 weeks—closing on 20 October.

NORTHERN IRELAND

Chief Electoral Officer

The Secretary of State for Northern Ireland (Mr. Shaun Woodward): The Chief Electoral Officer for Northern Ireland is responsible for the administration of elections in Northern Ireland. Section 14 of the Electoral Law Act (Northern Ireland) 1962—as amended by Section 9 of the Northern Ireland (Miscellaneous Provisions) Act 2006—provides that the Chief Electoral Officer must submit an annual report to the Secretary of State. The annual report of the Chief Electoral Officer for Northern Ireland for the year 2007-08 has been laid before Parliament today. Copies are available in the Vote Office.

Youth Justice Agency

The Minister of State, Northern Ireland Office (Paul Goggins): Copies of the new framework document for the Youth Justice Agency, an Executive Agency of the Northern Ireland Office, are available in the Vote Office.

This document has been reviewed and revised in line with Cabinet Office guidance on framework documents to ensure that it reflects current best practice in the management and corporate governance of agencies.

It has received formal Treasury approval.

WOMEN AND EQUALITY

Equality Bill

The Minister for Equality (Barbara Follett): On 26 June I set out in the "Framework for a Fairer Future" document how the Government propose to make further progress towards a fair and equal society.

The Government are pleased to announce that today we are laying before the House a document that summarises the responses we received to the discrimination law review consultation we held last year called "A Framework for Fairness: proposals for a Single Equality bill for Great Britain".

Copies will be available in the Libraries of both Houses and will be published on the GEO website and can be purchased from the Stationary Office.

FOREIGN AND COMMONWEALTH OFFICE

Wilton Park

The Minister for Europe (Mr. Jim Murphy): Wilton Park is an academically independent Executive Agency of the Foreign and Commonwealth Office. Its annual report and accounts for 2007-08 are laid before Parliament today.

Wilton Park continues to deliver high-value conferences contributing to our overall foreign policy effort. Wilton Park continues to achieve high ratings from participants and sponsors on the value of Wilton Park conferences.

Wilton Park's performance against agreed targets for 2007-08 is shown below:

	07-08 Target	*07-08 Performance*
Total income	£3,843,000	£3,323,000
Excellent rating for programmes	59.3%	59.4%
Excellent rating for discussion	55.9%	57.3%
Excellent rating for administration	89%	87.5%

Written Ministerial Statements

Tuesday 22 July 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

New Nuclear Power Stations

The Secretary of State for Business, Enterprise and Regulatory Reform (Mr. John Hutton): It was announced in the White Paper on Nuclear Power 2008 that the Government would publish a public consultation on the Strategic Siting Assessment (SSA) process and criteria.

I have today issued a consultation document on the SSA process and criteria. Alongside this, the Government are publishing a study of the environmental and sustainability effects of the siting of new nuclear power stations in accordance with the proposed SSA criteria. The Government are seeking views from members of the public, industry, non-governmental organisations (NGOs) or any other organisation, body or individual with an interest. The Government are also publishing today a Habitats Regulations Assessment Screening Report and the environmental study appendices.

This is a step towards the development of a new Nuclear National Policy Statement.

The consultation will close on 11 November 2008. Copies of the Strategic Siting Assessment consultation document and the environmental study will be placed in the Library of the House and are also available together with the Habitats Regulations Assessment Screening Report and the appendices of the environmental study on the website of the Department for Business, Enterprise and Regulatory Reform at: http://www.berr.gov.uk/energy/nuclearwhitepaper/consultations/page44523.html

Regional Development Agencies

The Minister for Employment Relations and Postal Affairs (Mr. Pat McFadden): I have today laid before Parliament the annual reports and accounts for 2007-08 for the eight Regional Development Agencies (RDAs) outside of London. Copies have been placed in the Libraries of both Houses.

The annual report and accounts for the London Development Agency are presented to the Mayor of London rather than to Parliament. I shall provide a copy to the House Library when these are available.

Also published today are the RDAs' reported outputs for 2007-08. These results are evidence that the RDAs continue to play a valuable role in improving the economic performance of the English regions and, through working with their partners, the RDAs are making a real difference to the individual regional economies concerned. The figures cover the number of jobs created and safeguarded, the number of people assisted to get a job, the amount of brownfield land brought back into use, the number of businesses created, the number of businesses assisted to improve their performance, the number of people assisted in their skills development and the amount of public and private sector regeneration infrastructure investment levered, all as a result of RDA activity.

Press releases on the outputs have been issued in each region. Copies of the output results have been placed in the House Library, and are also available on the website of the Department for Business, Enterprise and Regulatory Reform at: http://www.berr.gov.uk/regional-dev-agencies/rda-performance/page46979.html

CHILDREN, SCHOOLS AND FAMILIES

Official Receptions

The Secretary of State for Children, Schools and Families (Ed Balls): I have today published a list of official receptions hosted by Ministers at my Department in the financial year 2007-08.

The total cost of official receptions held by Ministers at the Department for Children, Schools and Families for the financial year 2007-08 was £9,000.

Official Receptions Hosted by Ministers at the Department for Children, Schools and Families 2007-08

Date	*Event*	*Number*	*Host*
24.07.07	Annual Summer reception for media stakeholders	50	Secretary of State and Ministers
25.07.07	Summer reception for key departmental stakeholders	90	Secretary of State and Ministers
16.01.08	New Year reception for key departmental stakeholders	100	Secretary of State and Ministers
23.01.08	Winter reception for media stakeholders	50	Secretary of State and Ministers
13.03.08	Short break amendment to the Children and Young People Bill stakeholder reception	25	Secretary of State
18.03.08	Diploma Gateway 2 stakeholder reception	60	Jim Knight

Teenage Pregnancy Independent Advisory Group

The Minister for Children, Young People and Families (Beverley Hughes): I would inform the House that the Independent Advisory Group on Teenage Pregnancy has published its annual report for 2007-08. Copies will be placed in the Libraries of both Houses.

National Curriculum Tests

The Secretary of State for Children, Schools and Families (Ed Balls): Yesterday, I wrote to the chair of the DCSF Select Committee to update him on the position with the return of national curriculum test results to schools, placing a copy of the letter in the Libraries of both Houses.

Further results have been released to schools by ETS Europe this morning, taking the total of scripts marked and released to over 98 per cent. of marks at key stage 2

and some 88 per cent. in key stage 3—94.1 per cent. in maths, 93.4 per cent. in science and 76.9 per cent. in English.

QCA confirmed in a statement over the weekend that they are in discussions with ETS Europe following the unacceptable delays in delivering this year's national curriculum test results. These discussions are highly sensitive—legally and financially—and, as I set out to the House yesterday, it is very important that the QCA should be allowed to conclude them in a timely and orderly fashion in order to safeguard the interests of pupils, schools and taxpayers. Ministerial intervention, at this stage, would be totally inappropriate and would jeopardise the public interest.

I shall continue to update Parliament regularly over the coming weeks on progress with release of results and Ofqual's work on marking quality. I will write regularly with an update to the chair of the Select Committee, copying this letter to Opposition spokespeople and the Speaker and placing a copy of the letter in the Libraries of both Houses.

At the same time, and following my oral report to the Select Committee last week, Lord Sutherland has started work on his independent inquiry and will be collecting evidence in August and September before reporting publicly (when the House returns) in the Autumn.

COMMUNITIES AND LOCAL GOVERNMENT

South-West England Regional Spatial Strategy

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Iain Wright): My right hon. Friend the Secretary of State for Communities and Local Government is today publishing proposed changes to the draft revisions of the Regional Spatial Strategy for the South-West.

The Regional Spatial Strategy forms part of the statutory development plan for every local authority in the South-West, and sets the framework for the production of Local Development Frameworks and Local Transport plans. It provides the spatial plan for the development of the region, and provides the policy framework for employment, housing, transport and the environment.

The current strategy, initially published as Regional Planning Guidance, became the Regional Spatial Strategy in September 2004 with the enactment of the Planning and Compulsory Purchase Act. A draft revision of the Regional Spatial Strategy was submitted to Government in April 2006 by the South-West Regional Assembly. It was subsequently tested in an Examination in Public (EIP) between April and July 2007 and the report of the independent panel which conducted this examination was published in January this year.

The Secretary of State has considered the recommendations of this independent panel which held the EIP and has taken into account the representations made on the draft revision, and also changes in Government policy since the draft revision was submitted.

Today's publication of the Secretary of State's proposed changes now represents the commencement of a public consultation of 12 weeks. Also being published are the report of a sustainability appraisal of the proposed changes and a Habitats Regulations Assessment.

Following consideration of the responses to the consultation, the Secretary of State expects to publish the finalised Regional Spatial Strategy for the South-West by the end of the year. On final publication it will supersede the current RSS.

In writing to the Regional Assembly to give notice of the publication of proposed changes, I have drawn particular attention to the need for further work by both the region and Government on the infrastructure required to deliver the strategy.

Copies of the relevant documents have been placed in the Library of the House and have been provided for all of the region's MPs, MEPs and local authorities.

East Midlands Regional Spatial Strategy

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Parmjit Dhanda): The Secretary of State for Communities and Local Government is today publishing proposed changes to the Regional Spatial Strategy (RSS) for the East Midlands ("The East Midlands Plan"). They follow the Public Examination held between May and July 2007 and the Panel Report published on 28 November 2007.

The Panel Report endorsed the strategy set out in the draft RSS, but made numerous recommendations to clarify and improve it. The Secretary of State has considered all of the panel's recommendations, along with other relevant evidence together with updates to the Sustainability Appraisal and a Habitats Regulations Assessment. The main changes that are being proposed are:

Increased housing growth across the region to 21,750 per year for the period 2006-26. Much of the additional growth is proposed in and around the main cities of Derby, Leicester and Nottingham, recognising growth related to Growth Point agreements in those cities and surrounding areas (that is, the Three Cities Growth Point) and in other Growth Point agreements at Lincoln, Newark and Grantham.

No change to Growth Area plans in Northamptonshire, which were set in the Milton Keynes and South Midlands Sub-regional Strategy in 2005, though the plan period for the area is extended to 2026 and the housing provision figure for Northampton is replaced following a successful legal challenge (in 2006) which quashed the original figure.

Reduction in housing provision in Lincolnshire coastal districts (East Lindsey, Boston and South Holland) pending a coastal strategy being agreed which will consider growth needs and flood risk implications.

A new policy relating to affordable housing in rural areas has been added, and increased pitch requirements for Gypsies and Travellers are also proposed.

Rejection of the Panel's recommendation to delete Green Belt areas around Nottingham.

Removal of site specific references to major development sites around Nottingham, Leicester and Lincoln.

I have today written to the East Midlands Regional Assembly with the proposed changes which will be published today on the Government Office for the East Midlands website at: www.goem.gov.uk and distributed to interested people and organisations across the region. There will now be a public consultation period of 12 weeks on the proposed changes, which will end on 17 October.

Copies of the relevant documents will be placed in the Library of the House and will also be sent to all of the region's MPs, MEPs and local authorities.

DEFENCE

Counter-terrorism and Resilience

The Secretary of State for Defence (Des Browne): In July 2007, the Prime Minister asked my right hon. Friend the Member for East Kilbride, Strathaven and Lesmahagow (Mr. Ingram), to undertake a detailed study into the role of the Ministry of Defence in counter-terrorism and resilience. My right hon. Friend has now submitted his report. His study provides a thorough analysis of defence's role and of the capabilities it brings to bear in support of the Government's counter-terrorism strategy—CONTEST—and domestic resilience. It reinforces a central theme of the National Security Strategy—that security threats and hazards are intertwined, with no simple distinctions between defence and wider security, and domestic and overseas considerations. It endorses the direction in which the Government are moving the security agenda and it makes a number of recommendations as to how defence could further refine its support in these important areas.

Given the sensitive nature of the study, its classification prevents its publication. The Government will respond to it once they have had the opportunity to consider the recommendations.

FOREIGN AND COMMONWEALTH OFFICE

British Council

The Minister for Europe (Mr. Jim Murphy): Copies of the British Council's annual report and accounts for the 2007-08 financial year have been placed in the Library.

During the period the British Council received £189,462,000 grant-in-aid from the Foreign and Commonwealth Office.

HOME DEPARTMENT

Hazardous Substances (Protective Security)

The Minister for Security, Counter-Terrorism, Crime and Policing (Mr. Tony McNulty): My right hon. Friend the Prime Minister announced in his statement on 14 November 2007 a review of what more we need to do to strengthen security to protect against the use of hazardous substances for terrorist purposes.

This review has been completed. I do not intend to publish it because I do not wish in any way to compromise our security. However, this statement provides a summary of the main conclusions of the review.

The review shows that a substantial amount of work has been undertaken in this area. It also identifies areas where further improvements could be made but recognises that we must ensure that protective security measures are proportionate to the risk. We need to ensure that individuals and businesses are free to carry on normal social, economic and democratic activities and, as a result, there will always be some vulnerability to the use of hazardous substances for terrorist purposes.

First, it is important to underline that considerable progress has already been made in recent years to reduce our vulnerability to the use of hazardous substances for terrorist purposes. The National Counter-Terrorism Security Office (NaCTSO) provide specialist advice regarding the security of a variety of hazardous substances. They have undertaken a range of activities to reduce the vulnerability of hazardous substances. These include "Know Your Customer" campaigns to raise awareness about the 'dual-use' nature of certain products and encouraging suppliers to be more enquiring of new customers and to report suspicious enquiries to police. NaCTSO have also played an important role in overseeing the local police Counter-Terrorism Security Advisers who implement part 7 of the Anti-Terrorism Crime and Security Act 2001 which provides the police with powers to impose security measures at laboratories that hold certain dangerous pathogens and toxins.

The Centre for the Protection of National Infrastructure (CPNI) is the Government authority on protective security in relation to national security threats. CPNI works with NaCTSO to advise businesses and organisations on the security of hazardous substances and sites.

The Environment Agency has managed a Government-subsidised programme that has disposed of more than 9,000 disused radioactive sources from hospitals, universities, museums, schools and other sites across the UK. The Environment Agency, and their sister agencies in Scotland and Northern Ireland, working in partnership with NaCTSO, are also regulating the security of radioactive sources used at hospitals, universities and industrial sites throughout the UK. This review did not cover those nuclear or radiological materials used within the civil nuclear sector, as they fall under the specific regulatory regime led by the Office for Civil Nuclear Security.

The Transport Security and Contingencies Directorate of the Department for Transport (Transec) enforces a statutory regime for the security of dangerous goods in transit. The Department for Transport's Vehicle and Operator Services Agency (VOSA) carries out inspections of vehicles at the roadside, and of road depots, on behalf of Transec. Transec's own inspectors carry out compliance activity for the movement of dangerous goods by rail in the UK.

The Government also welcome the steps that industry has been taking, through a knowledge of its customers and through codes of conduct, to help reduce the chances of abuse of hazardous substances. For instance, the UK Fertiliser Industry has developed, at the request of the UK Government, the Fertiliser Industry Assurance Scheme (FIAS).

The main outcome of the review is a new risk-based strategic framework to drive prioritisation of work to reduce the accessibility of hazardous substances for terrorist purposes. This will enable work to focus on reducing the accessibility of hazardous substances considered to be at highest risk, taking account of the need for a proportionate, cost-effective and practical response. This will allow us to target resources where most needed and to improve the security of hazardous substances even further.

The framework will direct a cross-Government programme of work to reduce the vulnerability of highest risk substances. This programme will be delivered under

the "Protect" strand of the Government's Counter-Terrorism Strategy (CONTEST) and will be led by the Office for Security and Counter-Terrorism in the Home Office.

This framework has prioritised hazardous substances on the basis of the risk they pose, taking account of the threat, vulnerability and impact of those substances. The review examined the vulnerability of substances across their life-cycle (from their precursors through to their disposal).

We are reviewing the pathogens and toxins listed under schedule 5 of the Anti-Terrorism Crime and Security Act 2001 with the assistance of the Health Protection Agency. We are also considering whether further legislative changes are required to clarify the scope of the application of the legislation, and will consult on any proposed changes in due course as appropriate.

Another example of specific work under way as a result of the review is a joint Department for Transport-Home Office project which has been established to agree an impact-based list of substances of most concern, to inform our assessment of the risk, and to identify areas for further reduction of the vulnerability of these substances throughout the supply chain, including transportation.

We will continue to reduce the risks from the illicit transportation of hazardous substances at the UK border. We will build upon existing initiatives such as Programme Cyclamen, which provides radiation screening capability at UK points of entry to prevent the illicit importation of radiological substances, and will use the strategic framework to inform counter-terrorism requirements at the UK border, in conjunction with the UK Border Agency, the National Co-ordinator of Ports Policing and other stakeholders.

We are also considering what further work may be appropriate to reduce the vulnerability of hazardous sites and substances to insider action. This will build on existing work led by the Centre for the Protection of National Infrastructure and take account of the findings of the independent review of personnel security in the transport sector by Stephen Boys Smith.

In taking forward this work, the Government recognise the importance of engaging fully with industry and academia. In particular, we are committed to working with them to identify proportionate, risk-based measures. Equally important is the need to work with international partners to reduce the risk of terrorists acquiring hazardous substances. For example, we are currently working with our European partners to reduce the availability of high-grade ammonium nitrate fertiliser.

Taken together, the various recommendations of the review will further reduce the risk of terrorists obtaining hazardous substances and will increase the likelihood that those attempting to access such materials will be detected.

Justice and Home Affairs Pre-Council Statement (24 and 25 July 2008)

The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier): The Justice and Home Affairs Council will be held on 24 and 25 July 2008 in Brussels. My hon. Friend the Parliamentary Under-Secretary of State for Justice, the Member for Lewisham, East (Bridget Prentice), Cabinet Secretary for Justice in Scotland (Kenny McAskill) and I will attend on behalf of the United Kingdom. As the provisional agenda stands, the following items will be discussed.

The morning of the Council will focus on asylum and immigration business, starting with a state of play report on the European Pact on Immigration and Asylum. The pact covers five areas: legal migration of third-country nationals; illegal immigration and returns; border controls; asylum; and partnership with countries of origin and transit (the "Global Approach"). The presidency is seeking agreement on the pact in time for the 15 October European Council. We support the strong focus on immigration and asylum issues under the French presidency and will use this as basis for stronger practical co-operation in the EU. The Government are generally content with the pact but will continue to work with the presidency on the detail of the final document.

There will follow a discussion on the directive on the conditions of entry and residence of third-country nationals for the purposes of highly qualified employment (commonly known as the EU Blue Card), which aims to set admission conditions for highly skilled migrants. It also proposes to determine the conditions in which third-country nationals who are legally residing in a member state under the proposal may reside with their family members in other member states. The French presidency is aiming for political agreement at the September JHA Council. The UK has not opted in to this measure since it does not fit with the UK's Points Based System.

The presidency is seeking an agreement to the directive providing for sanctions against employers of illegally staying third-country nationals by member states. The UK chose not to opt-in to this directive as a result of concerns in relation to the proposed definition of "employer", a notification requirement and inspections. However, the UK is seeking to influence discussions in order to amend the text in a manner which would allow a review of our opt-in position post-adoption of the directive.

The Council will be asked to agree conclusions on the taking in of Iraqi refugees by member states. The Government strongly agree that member states should be able to determine their own resettlement policies. The UK will continue to resettle Iraqi refugees under our established policies and selection criteria and do not consider common resettlement criteria to be feasible. We support sharing good practice.

The presidency would like to reach a general approach on the directive amending directive 2003/109/EC to extend its scope to beneficiaries of international protection. The UK has chosen not to opt in to the proposed directive as we believe it is not in line with our Frontiers protocol. We want to determine the status of third-country nationals via the UK's Immigration Rules.

The Council then revert to discussions on interior business, starting with the Mixed Committee with Norway, Iceland and Switzerland. The presidency will present a state of play report on the draft regulation amending common consular instructions on visas for diplomatic and consular posts in relation to the introduction of biometrics. Although the United Kingdom does not participate in issuing Schengen visas, we welcome the efforts of Schengen member states in ensuring that the Schengen external EU borders are as secure as possible.

The Commission will also update the Council on the state of play of the Second Generation Schengen Information System (SIS II). The presidency will also look to agree the Council Regulation and Council Decision on the migration of SIS1+ to SIS II.

Under any other business in Mixed Committee, the Commission will present their communication on visa reciprocity. Although the United Kingdom does not participate in the EU Common Visa Policy, the United Kingdom will continue to support the principle of reciprocity and extending the US Visa Waiver Program to all EU member states.

The presidency intends to present its proposed working method on the Passenger Name Records Framework Decision to the Council. Their approach will focus on seeking agreement on the key issues of the dossier, namely scope, the depth of harmonisation necessary, data protection and relations with third countries. The presidency will also suggest that there should be consultation with data protection authorities, the European Parliament and carriers. The UK is in broad agreement with this approach and welcomes the ambitious programme of work outlined in the French proposal.

The presidency will present the final reports of the Future Groups on Home Affairs and on Justice, which aim to provide input to the new JHA work programme that will replace the Hague programme at the end of 2009. The Government see these reports as one element among several that should feed the debate on the direction of the new work programme.

The presidency will propose taking forward work to improve co-operation in tackling cybercrime. The UK supports action in this area to promote co-operation between private industry and public authorities, as well as between law enforcement. We will work with the presidency to develop their ideas.

On the morning of the second day, the Council will move to justice issues. The presidency will seek political agreement on the Council decision on strengthening Eurojust. This instrument aims to improve the efficiency of Eurojust, including by giving national members a minimum set of powers and increasing the flow of information between national competent authorities and Eurojust. The Government are content with the outcome of negotiations and believe the draft strikes a good balance.

The French presidency will also seek political agreement on the Council decision amending the European Judicial Network. This instrument is intended to update and replace the 1998 Joint Action which established the European Judicial Network and take account of subsequent developments in EU judicial co-operation, including the establishment of Eurojust in 2002. The Government are generally content with what is proposed.

The presidency will present a proposal for a Council decision on the establishment of the European Criminal Records Information System (ECRIS). There will be a policy debate on this measure which aims to find a standardised format for exchange of the content of a conviction, as well as other general and technical implementation aspects of the information exchange. The Government strongly support this measure insofar as it aims to improve and speed up the arrangements for exchanging information on past convictions.

There will be a policy debate about the Rome III Regulation (choice of law in divorce). The UK did not opt in to the negotiations on this proposal. Member states have been unable to reach agreement on the measure, and some now wish to proceed by way of "enhanced co-operation". The treaty provides for this, as a last resort, where eight or more states wish to participate in something that falls within Community competence but cannot be attained within a reasonable period. If it went ahead, it would be the first use of enhanced co-operation. There is no expectation that the UK will participate and the Government do not intend to do so.

INNOVATION, UNIVERSITIES AND SKILLS

European Investment Bank Loans

The Secretary of State for International Development (Mr. Douglas Alexander): I have instructed my Department to ask the European Investment Bank (EIB) to return the relevant payments of Lomé debt service directly to Heavily Indebted Poor Countries (HIPC) countries. It is estimated that the benefits of this decision will be approximately £27 million, for 18 Heavily Indebted Poor Countries. The payments relate to the UK share of future debt service payments on public sector loans signed by HIPCs before 2 December 2000 under the Lomé conventions.

The UK share of the Lomé debt service on loans of EDF money is received by DFID from the EIB. Part of this debt service relates to public sector loans signed before 2 December 2000 by HIPC countries. DFID has made a decision to stop receiving this part of the debt service. All monies previously received by DFID through Lomé debt service have been used for international development.

JUSTICE

Chair of the Legal Services Commission

The Parliamentary Under-Secretary of State for Justice (Maria Eagle): My noble Friend, the Parliamentary Under-Secretary of State (Lord Hunt of Kings Heath) has made the following written ministerial statement:

"I am pleased to announce that following fair and open competition, regulated by the Office of the Commissioner for Public Appointments, my right hon. Friend the Lord Chancellor and Secretary of State for Justice has appointed Sir Bill Callaghan to the position of chair of the Legal Services Commission (LSC).

Sir Bill's appointment will take effect from 1 September 2008, and for a term of three years. He will chair the 12-Member Commission, which overseas the strategic direction of the LSC—the body responsible for legal aid in England and Wales".

Courts Service Key Performance Indicators 2008-09

The Parliamentary Under-Secretary of State for Justice (Maria Eagle): The following list of key performance indicators has been set for Her Majesty's Courts Service for 2008-09:

To commence 78 per cent. of cases within the following time scales in the Crown court:

defendants' cases that are sent for trial within 26 weeks of sending;

defendants' committal for trial cases within 16 weeks of committal;

appeals within 14 weeks of the appeal; and

committals for sentence within 10 weeks of committal.

To speed up criminal cases in the magistrates courts so that, for charged cases, the average time from charge to disposal is less than six weeks.

Time taken to produce and send court results to the police (historical KPI):

95 per cent. court registers produced and despatched within three working days.

100 per cent. court registers produced and despatched within six working days.

To achieve an 85 per cent. payment rate for financial penalties in the magistrates courts.

For 60 per cent. of all breached community penalties to be resolved within 25 working days of the relevant failure to comply.

To increase the proportion of defended small claims that are completed otherwise than by court hearing to 65 per cent.

To increase the proportion of defended small claims that are completed (from issue to final hearing) within 30 weeks to at least 70 per cent.

Increase the amount of civil work initiated online—55 per cent. of eligible possession claims through PCOL and 70 per cent. of specified money claims through MCOL.

To ensure that 48 per cent. of care and supervision cases in the county court and 56 per cent. in the magistrates court are completed within 40 weeks.

To increase the proportion of residence and contact orders made by consent in the County Courts (excluding cases involving allegations of harm) to at least 37 per cent. in each HMCS area.

To increase the 'very satisfied' element of the HMCS court user satisfaction survey from the 2007- 08 baseline.

More information on these and other key supporting targets are published in the "HM Courts Service Business Plan for 2008-2009". Copies of the business plan for 2008-09 have been placed in the Libraries of both Houses. Copies are also available in the Vote Office and the Printed Paper Office.

Prison Service Pay Review Body

The Minister of State, Ministry of Justice (Mr. David Hanson): I am pleased to announce that my right hon. Friend the Prime Minister has appointed Mr David Lebrecht for three years as a member of the Prison Service Pay Review Body, commencing June 2008. My right hon. Friend the Prime Minister has also reappointed Dr. Peter Riach for a second term, lasting two years, as a member of the Prison Service Pay Review Body, commencing 1 March 2008. Both appointment and reappointment have been conducted in accordance with the Office of the Commissioner for Public Appointments' guidance on appointments to public bodies.

LEADER OF THE HOUSE

Topical Debates

The Leader of the House of Commons (Ms Harriet Harman): I am today publishing the outcome of my review into the operation of topical debates. I announced the review on 7 February, following their introduction in November 2007, on an experimental basis for the 2007-08 Session. My intention is to place topical debates on a permanent basis and to bring forward a motion before the end of the Session for the decision of the House.

Background

On 25 October 2007 the House welcomed the report of the Select Committee on Modernisation of the House of Commons, "Revitalising the Chamber: the role of the back bench Member"[1], and approved the proposals for change set out in the Government's response[2] to the report introducing topical debates on an experimental basis for the 2007-08 Session.

In a written ministerial statement on the 12 November 2007, I set out the process for applying for such a debate, including the criteria on which they would be chosen. The first topical debate, on immigration, took place on 15 November 2007 (a full list of debates is below).

The review

I am grateful to all Members who submitted their views to me, either in writing or on the Floor of the House during business questions. Comments fell into three main areas; the choice of subject for debate (including the issue of the transparency of that process); the scheduling of debates and the time limit on speeches.

Choice of subject for debate

In its report the Modernisation Committee said that "subjects for topical debates would be announced by the Leader of the House following consultation with the Business Managers". In its response to the report, the Government recognised that the selection of debate would be announced by the Leader of the House following representations from opposition parties and Back Benchers.

Several alternatives to this approach have been proposed:

choosing the topic for debate via a ballot, as is the case for daily adjournment debates and some Westminster Hall debates, is one suggestion. The Government remain convinced that a ballot runs the risk that the chosen subject may not necessarily meet the required criteria that the issue is genuinely "regional, national or international", or allow for occasions where the House has had other opportunities to debate the issue. Also suggested was the topic of debate being chosen by a link to the number of names listed for a particular issue on either the Number 10 petitions website or for Early Day Motions. We believe this would give rise to similar problems;

the Procedure Committee proposed a business committee to take the decision, comprising the business managers together with backbenchers (one of whom would chair the committee). The Government do not consider that formalisation of the current informal processes in this way would be an improvement on the present process, particularly given the need to retain a level of flexibility in managing the time on the floor of the House; and

a further proposal raised during the weekly business statement, was that the Speaker should choose the topic. The Government do not support this view, as the Speaker would not wish to become involved in choosing a debate in Government time or adjudicating on the criteria, which could raise questions over his impartiality.

As the Modernisation Committee proposed, topical debates involve no increase to the overall time that the House sits, or any alteration to the nature of other business taken on those days when topical debates take place, which continue to be used for main business. Topical debates take place therefore within Government time. The original approach recommended by the Committee and endorsed by the House, of the final choice of subject resting with the Leader of the House after consultations, is consistent with this.

Transparency

Building on the increased transparency I announced in February (where we would publish a list of all subjects proposed for debate on a quarterly basis), I now propose that these lists should be produced on a monthly basis.

Scheduling of debates

The success of topical debates is dependent on backbenchers suggesting and attending them. The Procedure Committee evidence stated that "there are advantages with a predictable slot for topical debates...We believe, however, that taking them on Thursday has led to lower levels of participation than could have been expected on other days". The Government agree. We will therefore look for opportunities to schedule topical debates on days other than a Thursday, subject to other business management considerations.

Time limits

A concern has been raised regarding the time allocated to the second largest opposition party. Under Standing Order No. 24A, the governing party and the main opposition party currently have up to 10 minutes to speak (plus an additional minute for each intervention to a maximum of 10). In contrast, the spokesperson for the second largest opposition party is limited to six minutes (plus an additional minute for each intervention to a maximum of six). The effect of this, in topical debates where no other time limits are set, is that the spokesperson for the second largest opposition party has less time than Back Bench Members speaking in the debate. To address this I propose that the Standing Orders should be amended to limit all Front-Bench speeches to no more than 10 minutes each, with a reduction in the time allotted for interventions from a maximum of 10 minutes to five minutes. This would reflect the principle used for other debates and would increase the overall time available for Back Benchers, the control of this time being a matter for the Speaker under Standing Order No. 47.

Next steps

I have considered all representations. The Government believe that topical debates should continue, with the Leader of the House continuing to choose and announce the topic for debate.

Topical debates will continue to provide a forum for important debates on a wide range of issues. I urge backbenchers to take the opportunity to request debates. This is the single biggest measure that will contribute to their future success.

Date	*Topical debate*	*Number of Back Bench participants*
21/07/2008	Bercow Review	5
03/07/2008	Zimbabwe	7
19/06/2008	Eco-Towns	8

[2]Cm 7231 (18 October 2007)

e-Petitions

The Leader of the House of Commons (Ms Harriet Harman): I wish to make the following statement.

Procedure Committee reports on public petitions

The Procedure Committee published a report on e-petitions on 6 April (First report, 2007-08, HC 136). This followed its 2007 report on updating the traditional petitions procedure. Both these reports arose in part out of the growing search for measures to re-engage the public with Parliament and with politics, together with awareness of developments elsewhere including the way the petitions process operates in the Scottish Parliament. A number of changes were made to the House's petitions processes as a result of the 2007 report, including agreement within Government to respond to almost all petitions, for petitions and responses to be published in Hansard, and for encouraging individual Back Benchers to select petitions for debate or to 'tag' them to existing debates. The Committee indicated its intention of conducting a further inquiry into e-petitioning, noting the then recent introduction of the Number 10 petitions website.

This written ministerial statement responds to the Committee's further report on e-petitions, ahead of a proposed debate in the autumn, referring as applicable to the recommendations in the report.

The Government welcome the report from the Committee, as foreshadowed in the July 2007 Governance of Britain Green Paper, and endorses the basic recommendation for the House to develop an e-petitioning system. Such a system is likely to lead to a very significant increase in the number of petitions received. The Government agree with the Committee that e-petitioning will reinforce the House's historic role as recipient of public petitions and help to make a major contribution to making the House more accessible to the public (Recommendations 1-3).

Basic features of an e-petitioning system

The report proposes that an e-petitioning system should have the following basic features:

e-petitions to be submitted via the parliamentary website.

If they comply with the House's rules, the petitioner's constituency MP would be asked to act as facilitator.

The e-petition would then be posted on the parliamentary website for a set period, with others able to add their names.

At the end of the period, the e-petition would be closed; Members would also be able to indicate support.

It would then be formally presented to the House (either automatically or on the floor of the House). Petitioners and signatories could opt in to receive updates on the progress of the e-petition and/or up to two emails from their constituency MP.

E-petitions would be printed in Hansard and the Government will normally be expected to reply within two months of presentation.

There would be opportunities for petitions to receive further consideration by the House or by committee.

The petition website would close when Parliament is dissolved. The Committee indicates that these elements are to some extent illustrative and that a range of further details remains to be worked through. The Government agree with this basic approach. Further consideration will need to be given to whether it will be possible or proportionate for the Government to respond to all e-petitions given the large increase in the number envisaged (Recommendations 4-6 and 8-9).

Filters to ensure focused and relevant petitions:

The Procedure Committee proposes that the traditional 'Member link' to a petition, under which a petition should be sponsored by a Member (even if the sponsoring Member does not agree with the petition) should be retained. The constituency Member would be asked to act as facilitator (where the constituency Member is not willing or—in the case of a Minister—able to act as facilitator, another Member could act). The Committee also proposes that e-petitions should clearly state the action the petitioners desire the House to take and that the rules for petitions should be kept under review.

The Government agree that e-petitions should so far as possible be well-focused and relevant to the role of the House and national Government rather than about matters which are the responsibility of other authorities, such as devolved Administrations and legislatures and local authorities. This should be reflected in the rules and in the instructions to officials dealing with petitions, which may therefore need to be tighter than the current rules.

There would therefore be three interlinking filters to promote effective engagement between potential petitioners and the system:

the first point of contact for a potential petitioner would be via the website, operated by a petitions office, which would provide a first opportunity for the public to be guided as to alternative approaches if a petition was not an appropriate course (petitioners could also be required at this stage, as in the Scottish system, to confirm that they had already taken appropriate previous steps to resolve their issue);

the rules of order for petitions would be clearly set out on the website, minimising the scope for inappropriate petitions and assisting the petitions office in enforcing the rules; the rules would be drawn more tightly than the current rules, in terms of relevance to the role of the House and central Government; and

the constituency MP would automatically be approached to act as the facilitator for the petition, allowing a further opportunity for the Member to help to suggest alternative ways of addressing the issue raised where this would be helpful.

This process would help to retain a clearer distinction between petitions to the House of Commons and other petitioning or similar processes (Recommendations 7 and 12-14).

Outcomes

A vital aspect of e-petitioning, if it is to resonate with the public, is that petitioners should be able to see the effect of their pressure. At the same time, the structure should not raise expectations unrealistically.

As well as petitions generally leading to a Government response, the Procedure Committee proposes that e-petitions, as with traditional petitions, should be sent to Select Committees, which may choose whether or not to consider them further, and that provision should be made for debating certain e-petitions in Westminster Hall on three occasions each year (Recommendations 10-11).

The Government consider that there is a case for going further than this. One of the most effective features of the model of petitioning in the Scottish Parliament is the provision for some petitioners to be able to give direct evidence to an appropriate committee, usually in Scotland the Petitions Committee itself. Capacity at Westminster is already very stretched and it would not be appropriate to set up a specific committee. The existing departmental Select Committees are also stretched but could do this as one of their core tasks. The Government consider that over the course of a year it would be reasonable for them each to devote one day to the taking of oral evidence on petitions sent to them which they themselves had sifted for importance. They could then support the petitioners if they felt it appropriate. The mechanics for all of this would require further consideration. The Government would welcome the views of the Liaison Committee on this proposal.

Selection in committee would be a matter for the committee concerned, while the mechanisms for selection of any debates in Westminster Hall would be for further consideration. In both cases, selection would need to take into account all relevant factors (including other House and committee business). But while sheer number of signatures alone could not be the sole determinant—since this would fail to take into account the importance of the subject or the extent to which it had already been considered by the House—it would clearly be a significant factor.

Implementation and next steps

The Procedure Committee report emphasises that introduction of a new system will take time, not least because of the need to commission and procure the relevant IT systems. It proposes that debate on the proposals should be informed by a fuller estimate of likely costs and also that if the principle is agreed then the House service should also set up a programme for briefing Members and Members' staff on their roles under such a system. Importantly, the Committee notes that the new system will require a structure of political governance with a Committee given an oversight role to resolve detailed issues which will need deciding or refining. The Procedure Committee has indicated that it is itself prepared to undertake this role. It may have to report to the House from time to time, in an iterative process, to seek the endorsement of the House for the more high level issues (such as proposed rules of order for petitions).

Significant further work would therefore be needed before the system comes into operation. The Government agree with these conclusions (Recommendations 15-19).

The Government therefore envisage providing time later in the year for a debate on the Committee's report and the proposed way forward. The debate would be on the basis of a Motion which would seek the House's endorsement for the principle of e-petitioning on the basis set out in this statement, instruct the House service to begin the design and tendering process, and charge the Procedure Committee with oversight of the introduction of the system and with consideration of more detailed rules of order for petitions to make the system work and to report back to the House as necessary. The Committee would also identify areas in which Standing Order changes may be necessary to make the system work, which would be considered by the House nearer the time of introduction of the new system.

The Government hope that the House will endorse this way forward, allowing it to take a significant step forward in helping to promote better engagement with the public. The Government note that in due course the House of Lords may also wish to look at its own petitions procedures.

PRIME MINISTER

Special Advisers

The Prime Minister (Mr. Gordon Brown): Listed below are the names of special advisers in post at 22 July 2008, the special advisers' pay ranges for 2008-09, the number of special advisers in each pay band by Department and the total pay bill cost of special advisers for 2007-08.

All special advisers are appointed under terms and conditions set out in the Model Contract and Code of Conduct for Special Advisers to provide assistance on the full range of their appointing Minister's departmental responsibilities.

Appointing Minister	*Special Adviser in post*
The Prime Minister	Greg Beales
	Theo Bertram
	Nicola Burdett
	Stephen Carter
	Konrad Caulkett (p-t)
	Matt Cavanagh
	Dan Corry
	Colin Currie (p-t)
	Jo Dipple
	Justin Forsyth
	Michael Jacobs
	Gavin Kelly
	Richard Lloyd
	Patrick Loughran
	Damian McBride
	Jennifer Moses (unpaid)
	David Muir
	Geoffrey Norris
	Sue Nye (p-t)
	Nick Pearce
	Lisa Perrin
	Paul Sinclair
	Nick Stace
	Stewart Wood
Cabinet Office Minister and Chancellor of the Duchy of Lancaster	Polly Billington Tom Restrick
Chief Whip (Commons) and Parliamentary Secretary of the Treasury	Michael Dugher Emma Reynolds
Chief Whip (Lords)	Ben Coffman
Secretary of State for Business, Enterprise and Regulatory Reform	John Williams John Woodcock
Secretary of State for Children, Schools and Families	Francine Bates Alex Belardinelli
Secretary of State for Communities and Local Government	Andrew Bagnall Paul Richards
Minister of State (Housing)	Claire McCarthy
Secretary of State for Culture, Media and Sport	Jennifer Gerber Philip French
Secretary of State for Defence	Alaina Macdonald John McTernan
Secretary of State for Environment, Food and Rural Affairs	Mike Dixon Beatrice Stern
Secretary of State for Foreign and Commonwealth Affairs	Madlin Sadler (job share) Sarah Schaefer (job share)
Secretary of State for Health	Clare Montagu Mario Dunn
Secretary of State for the Home Department	Sue Jackson Andrew Lappin
Leader of the House of Commons, Lord Privy Seal and Minister for Women and Equality	Ayesha Hazarika Anna Healey
Leader of the House of Lords, and Lord President of the Council	Philip Bassett Jonathan Pearse
Secretary of State for Innovation, Universities and Skills	Josie Cluer Andy Westwood
Secretary of State for International Development	Anthony Vigor
Lord Chancellor and Secretary of State for Justice	Mark Davies Declan McHugh
Secretary of State for Northern Ireland	Sebastian Dance Oonagh Blackman
Secretary of State for Scotland	Tom Greatrex
Secretary of State for Transport	Julie Crowley David Leam
Chancellor of the Exchequer[1]	Sam White Catherine Macleod
Chief Secretary	Will McDonald
Secretary of State for Wales	Andrew Bold
Secretary of State for Work and Pensions	Blair McDougall Lisa Tremble
Minister of State (Employment and Welfare Reform)	Graham Dale
Minister for the Olympics and London (Paymaster General)	Mandy Telford

[1]In addition, the Chancellor of the Exchequer has appointed Andrew Maugham, David Pinto-Duschinsky and Geoffrey Spence to the Council of Economic Advisers.

Pay bands for 2008-09

The pay bands and pay ranges for special advisers for 2008-09 are as follows:

Scheme Ceiling	£ 140,560
Pay Band 4	£87,651 - £105,285
Pay Band 3	£65,529 - £101,737
Pay Band 2	£51,443 - £68,242
Pay Band 1	£39,756 - £53,321

Advisers by Pay Band

At 22 July 2008, there were 73 special advisers in post. The number of special advisers in each pay band by Department is as follows:

Department	*Pay band*				
	1	*2*	*3*	*4*	*Up to Scheme Ceiling*
No.10[1]	3	5	11		4
Cabinet Office (Includes Minister for the Olympics and London, Paymaster General)		1	2		
Chief Whips' Offices (Commons and Lords)	1	1	1		
Business, Enterprise and Regulatory Reform	1		1		
Children, Schools and Families	1		1		
Communities and Local Government (Includes Minister of State for Housing)	1	1	1		
Culture, Media and Sport	1		1		
Defence	1		1		
Environment, Food and Rural Affairs	1	1			
Foreign and Commonwealth Office		2			
Health		2			
Home Office			2		
Leader of the House of Commons, Lord Privy Seal and Minister for Women and Equality		1	1		
Leader of the House of Lords, and Lord President of the Council	1			1	
Innovation, Universities and Skills					
International Development	1				
Justice (Lord Chancellor)		1	1		
Northern Ireland Office	1		1		
Scotland Office		1			
Transport		2			
HM Treasury[2]	1	3	2		
Wales Office	1				
Work and Pensions (including Minister of State for Employment and Welfare Reform)	1	1	1		
Total	*16*	*23*	*28*	*1*	*4*

[1]Plus one unpaid adviser.
[2]Includes the three Members of the Council of Economic Advisers who are employed on special adviser terms.
[3]This figure includes salary, severance pay and estimate of pension costs.

Paybill costs

The paybill for special advisers in 2007-08 was £5.9 million[3]

Year	*Expenditure (£ million)*
2005-06	6.1
2006-07	6.95
2007-08	5.3

Ministerial Travel 2007-08

The Prime Minister (Mr. Gordon Brown): I am today publishing a list of all visits overseas undertaken by Ministers costing £500 or more during the period 1 April 2007 to 31 March 2008, which has been placed in the Libraries of both Houses. The list provides details of the date, destination and purpose of all such visits and the cost of Ministers' travel and accommodation where appropriate.

Total expenditure on Ministerial overseas visits for the last three financial years is set out in the table below:

Ministerial Gifts (2007-08)

The Prime Minister (Mr. Gordon Brown): I have today published lists of gifts given and gifts received by Ministers. Both lists provide details of gifts valued at more than £140 for the period 1 April 2007 to 31 March 2008. Copies of the lists have been placed in the Libraries of both Houses.

Advisory Committee on Business Appointments

The Prime Minister (Mr. Gordon Brown): I have today published the ninth report of the independent Advisory Committee on Business Appointments. The report provides an account of the work of the Committee in giving advice about appointments that Ministers and senior Crown servants wish to take up after leaving office. The report covers the period 1 April 2006 to 31 March 2008. Copies of the report have been placed in the Libraries of both Houses. I am grateful to Lord Mayhew of Twysden, who was the chairman over this period, and to all the other members, for giving their time and expertise so freely.

As the House has previously been informed, the business of this important Committee has been managed by Sir John Blelloch since Lord Mayhew stepped down as chairman on health grounds in March this year. I wish to thank him for generously agreeing to extend his service further for this purpose.

The Government intend to refresh the membership of the Committee over the coming months. I am pleased that Lord Wilson of Tillyorn, who is currently serving on the Committee, has agreed to step into the role of chairman over this interim period.

UK Visits 2007-08

The Prime Minister (Mr. Gordon Brown): I have today published a list of UK visits made by my predecessor and me during the financial year 2007-08.

Date	*Official visit to*
Rt. hon. Tony Blair	
2-3 April 2007	Edinburgh/ Glasgow/ Nottingham/ Birmingham

Official Hospitality (Chequers)

The Prime Minister (Mr. Gordon Brown): I have today published a list of those who have received official hospitality at Chequers for the financial year 2007-2008 since I became Prime Minister:

Lord Richard Attenborough CBE
Lady Attenborough
Ian Austin MP
Rt. Hon. Ed Balls MP
Caroline Benn
Rt. Hon. Hilary Benn MP
James Benn
Jonathan Benn
Michael Benn
Sally Benn

Tracy Bews
Sir Victor Blank
Lady Blank
Rt. Hon. Hazel Blears MP
Lady Joan Branson
Sir Richard Branson
Charlie Brooks
Damon Buffini
Debbie Buffini
Rt. Hon. Andy Burnham MP
Camilla Bustani
Bruce Byron
Dr. Tanya Byron
Stephen Carter CBE
Sir William Castell
Lady Castell
Nancy Claire
Sir Terence Conran
Lady Conran
Rt. Hon. Yvette Cooper MP
Jamie Cooper-Hohn
Dan Corry
Richard Curtis CBE
Kathy Dacre
Paul Dacre
Rt. Hon. Alistair Darling MP
Maggie Darling
Lord Darzi
Lady Darzi
Gavyn Davies OBE
Jeanne Davies
Mervyn Davies
Clare de Lore
Sir Evelyn de Rothschild
Lady de Rothschild
Ed Denham
Rt. Hon. John Denham MP
Rose Denham
HRH the Duke of York
Lady Dyson
Sir James Dyson CBE
Howard Exton-Smith
Lady Foster
Lord Foster
Lady Antonia Fraser CBE
Emma Freud
Derek Gadd
Danyele Gamier
Dr. Jean Pierre Gamier
Anna Gorman
Jay Green
Stephen Green
Alan Greenspan (Hon. KBE)
Sabrina Guinness
Zaha Hadid CBE
Cyn Hall
Tony Hall CBE
Mike Halsall
Martin Halusa
Lady Hamlyn
Lady Hampton
Sir Philip Hampton
Rev. James Harding
Rt. hon. Baroness Hayman
Martin Hayman
Tony Hayward
Mrs. Hayward
Stuart Hercock
Les Hinton
Chris Hohn
Rt. Hon. John Hutton MP
Rt. Hon. Alan Johnson MP
Laura Johnson
Lord Jones
Kirsty Jones
Nick Jones
Pat Jones
Ella Joseph
Gavin Kelly
Rt. Hon. Ruth Kelly MP
Simon Kelner
Lady Kinnock
Lord Kinnock
Sir Richard Lambert
Lady Lambert
Sally Ann Lasson
Lady Leahy
Sir Terry Leahy
Kathy Lette
Lady Sue Littlemore
Lady Lyons
Sir Michael Lyons
Lindsay Mackie
Lord Malloch Brown
Lady Malloch Brown
Sir George Martin
Lady Martin
Elsa McAlonan
Heather McGregor
Rt. Hon. Don McKinnon
Murdoch McLennan
Cath Miles
Andrea Mitchell
Piers Morgan
Alison Myners
Paul Myners CBE
Sandy Nairne
Indra Nooyi
Sue Nye
Sir Gus O'Donnell
Lady O'Donnell
Hon. James Ogilvy
Julia Ogilvy
Aurelian O'Rourke
Lucy O'Rourke
Sir John Parker
Lady Parker
Lucy Parker

Julia Paton
Richard North Patterson
Alice Perkins CB
Rt. Hon. James Purnell MP
Kath Raymond
Dinah Roake
Geoffrey Robertson QC
Lady Rogers
Lord Rogers
Ruthie Rogers
Lady Rose
Sir John Rose
Sir Stuart Rose
Lady Rothermere
Lord Rothermere
Baroness Jan Royall
Alan Rusbridger
Lady Sainsbury
Lord Sainsbury
Arun Sarin
Rummi Sarin
Albert Scardino
Dame Marjorie Scardino
Angela E. Smith MP
Rt. Hon. Jacqui Smith MP
Nigel Smith
Terry Smith
Sir Tom Stoppard
Rt. Hon. Jack Straw MP
John Studzinski
Sir Alan Sugar
Lady Sugar
Lisa Tickner
Lynda Till
Stewart Till CBE
Richard Timney
Baroness Vadera
Mrs. Marie-France van Heel
Rebekah Wade
Celia Walden
Lucy Walker
Richard Wallace
Kate Weinberg
Lady West
Lord West
Jasmine Whitbread
Bob Wigley
Sarah Wigley
Jill Wills
Michael Wills MP
Stewart Wood
Marienne Yacoub
Professor Yacoub
Baroness Young

Official and Charity Receptions: 10 Downing Street

The Prime Minister (Mr. Gordon Brown): I have today published a list of official and charity receptions held at 10 Downing Street for the financial year 2007-08.

The total cost of official receptions held at 10 Downing Street and Chequers for the financial year 2007-08 was £78,900. The costs of the charity receptions are funded by the charities involved.

Date	*Event*	*Numbers*	*Host*
31/03/2008	Government - National Literacy Trust	150	Prime Minister and Mrs Brown
25/03/2008	Charity - New Horizon Youth Centre	40	Mrs Brown
25/03/2008	Government - Bevin Boys	50	Prime Minister
18/03/2008	Charity -Able Child Africa	80	Mrs Brown
15/03/2008	Government - Fire Fighters Bravery Awards	150	Prime Minister
12/03/2008	Government – Children's Champions	60	Prime Minister
06/03/2008	Government - Head Teachers & Further Education Principals	150	Prime Minister
06/03/2008	Government - World Book Day	23	Prime Minister
05/03/2008	Government – Commonwealth Parliamentary Association UK Reception	100	Prime Minister
04/03/2008	Charity - Leonard Cheshire Disability	80	Mrs Brown
3/03/2008	Mum of the Year Awards	40	Mrs Brown
26/02/2008	Charity - National Children's Bureau	80	Mrs Brown
14/02/2008	Charity - Piggybank Kids	150	Mrs Brown
12/02/2008	Charity - Arab International Women's Forum	80	Mrs Brown
07/02/2008	Government - Academy Sponsors	120	Prime Minister
31/01/2008	Government - Eid	130	Prime Minister
23/01/2008	Government - Political Editors	70	Prime Minister
16/01/2008	Government - Lobby Journalists	150	Prime Minister
15/01/2008	Charity - Grandparents Association	80	Mrs Brown
09/01/2008	Government - Regional Media	70	Prime Minister
08/01/2008	Government - National Year of Reading	40	Prime Minister
18/12/2007	Government - LifeSavers Awards	50	Prime Minister
12/12/2007	Government - Children of Courage Award Winners	30	Prime Minister and Mrs Brown
10/12/2007	Tree Lighting - Book Trust	10	Mrs Brown
04/12/2007	Charity - Maggie's Centre	150	Mrs Brown
28/11/2007	Charity - Terrence Higgins Trust	150	Prime Minister and Mrs Brown

Date	*Event*	*Numbers*	*Host*
13/11/2007	Charity- Spouse in the House Club	70	Mrs Brown
05/11/2007	Government- Eve of Session	130	Prime Minister
18/10/2007	Charity – White Ribbon Alliance	150	Mrs Brown
16/10/2007	Charity - The British Red Cross Society	40	Mrs Brown
09/10/2007	Pride of Britain	150	Mrs Brown
18/09/2007	Charity – Down's Syndrome Association	40	Mrs Brown
11/09/2007	Charity – Autism Speaks	40	Mrs Brown
28/08/2007	Charity – Cannon Collins Trust	40	Mrs Brown
24/07/2007	Charity - Horsesmouth.co.uk	200	Prime Minister and Mrs Brown
23/07/2007	Government - War Widows	150	Prime Minister and Mrs Brown
12/07/2007	Government - Police Bravery Awards	150	Prime Minister
04/07/2007	TUC Women's Academy	25	Mrs Brown
26/06/2007	Charity - Prostate Cancer Research Foundation	40	Mrs Blair
25/06/2007	Government - NHS Military Hospital Staff Reception	150	Prime Minister
20/06/2007	Charity – Scope	40	Mrs Blair
19/06/2007	Charity – Alder Hey Imagine Appeal	40	Mrs Blair
18/06/2007	Government - War Widows Reception	150	Prime Minister and Mrs Blair
16/06/2007	Charity - Tate Patrons	40	Mrs Blair
13/06/2007	Government - Public Services	450	Prime Minister and Mrs Blair
05/06/2007	Government - NHS Military Hospital Staff	150	Prime Minister
05/06/2007	Government - Association of Chief Executives of Voluntary Organisations	80	Prime Minister
22/05/2007	Charity - Concern Worldwide	40	Mrs Blair
21/05/2007	Government - Public Sector	150	Prime Ministes and Mrs Blair
15/05/2007	Charity - Royal Parks	40	Mrs Blair
09/05/2007	Charity - Lord Mayors Appeal (VSO)	40	Mrs Blair
08/05/2007	Charity - Speakability	40	Mrs Blair
02/05/2007	Charity - Jospice	40	Mrs Blair
01/05/2007	Charity - Nicholls Spinal Injury Foundation	40	Mrs Blair
30/04/2007	Government - Maternity Services	150	Prime Minister
03/04/2007	Charity The Children's Trust	40	Mrs Blair

Council of Europe and Western European Union

The Prime Minister (Mr. Gordon Brown): The United Kingdom delegation to the Parliamentary Assembly of the Council of Europe and Assembly of the Western European Union is as follows:

Leader Rt. Hon. John Prescott MP

Full Representatives	*Substitute Representatives*
John Austin MP	Rt. Hon. Lord Anderson of Swansea
Mr Christopher Chope OBE MP	Mr. Tim Boswell MP
Bill Etherington MP	Mr. James Clappison MP
Paul Flynn MP	Rt. Hon. Ann Clwyd MP
Mr. Mike Hancock CBE MP	Mrs. Claire Curtis-Thomas MP
Baroness Hooper	Mr. Nigel Dodds OBE MP
Baroness Knight of Collingtree OBE	Mr. Nigel Evans MP
Chris McCafferty MP	Baroness Gale
Rt. Hon. Lord McIntosh of Haringey	Mr. John Greenway MP
Mr. Humfrey Malins CBE MP	Mr. Oliver Heald MP
Mr. Alan Meale MP	Mr. Doug Henderson MP
Mr. Edward O'Hara MP	Mr. Jim Hood MP
Lord Russell-Johnston	Mr. Bob Laxton MP
Lord Tomlinson	Rt. Hon. Denis MacShane MP
Dr. Rudi Vis MP	Mr. Khalid Mahmood MP
Mr. Robert Walter MP	Mr. Mark Oaten MP
Mr. David Wilshire MP	Paul Rowen MP
	Mrs. Betty Williams MP

Security (Annual Reports)

The Prime Minister (Mr. Gordon Brown): I have today laid before both Houses the annual reports of the Chief Surveillance Commissioner, the Rt. Hon. Sir Christopher Rose (HC 659); the Interception of Communications Commissioner, the Rt. Hon. Sir Paul Kennedy (HC 947); and the Intelligence Services Commissioner, the Rt. Hon. Sir Peter Gibson (HC 948).

The Regulation of Investigatory Powers Act 2000 (RIPA) established the regulatory framework for the use of a wide range of investigatory techniques. It sets out the purposes for which the powers can be used, the public authorities which can use them, the authorisation procedures which they must follow, and the use that can be made of the material obtained. It also provides for an appropriate oversight regime and a means of redress through the independent investigatory powers tribunal. The reports which I have laid before Parliament today set out how the RIPA investigatory powers have been used during the periods covered.

The Government continue to believe that the existing system of authorisations, inspections and other safeguards set out in RIPA is appropriate, and welcome the valuable oversight role discharged by the Commissioners appointed under RIPA. The independent oversight which they provide is vital in ensuring that the various powers are used appropriately and only when necessary and proportionate.

The Interception Commissioner's report notes that the investigatory powers tribunal reached determinations

on 83 cases during the period covered. The tribunal did not uphold any complaints during this period.

A great deal has been done already to improve public authorities' awareness of the obligations placed on them, and to ensure that proper consideration is given to necessity and proportionality. We recognise, however, that there is always more that can be done. The Government are reviewing those public authorities that have access to these powers to ensure that they have a continuing and justifiable requirement for them. On completion, the Government will list the authorities that can use each of the powers and the purposes for which they can use them, and set out revised statutory codes of practice, which Parliament will have the opportunity to debate.

I am grateful to Sir Christopher, Sir Paul and Sir Peter, and to their support staff, for their work on these thorough reports.

National Security Strategy

The Prime Minister (Mr. Gordon Brown): On 19 March, I published the United Kingdom's first ever national security strategy. It set out how we proposed to address and manage an increasingly diverse but interconnected set of security challenges and some of their underlying factors including climate change, competition for energy, poverty, and globalisation. The aim is to safeguard the nation, its citizens, our prosperity and our way of life, against a constantly changing security environment. I want to update the House on arrangements for support to the National Security Committee and proposals for parliamentary oversight of the delivery of the strategy.

As envisaged in the national security strategy, the Government will be establishing a national security forum. We want to promote a constructive and informed dialogue with experts, stakeholders and the public to understand the security challenges we face and how we need to tackle them. The forum will have a core group of 12 publicly appointed members reflecting the broad range of the subject areas in the national security strategy. It is likely to include people with a range of experience and expertise in these issues; and in addition to this core group we will create a register of up to 100 expert associates who could be called upon to provide advice in specific areas. The purpose of the forum will be to provide expert advice to the National Security Committee (Cabinet Committee on National Security, International Relations and Development (NSID)). It will be invited to focus on the published strategy to inform the annual updates, although it will be able to commission its own research subject to agreement of its programme by NSID.

In advance of setting up the forum as a non-departmental public body, I will be establishing an interim forum in the early Autumn. For the interim forum only, the Government will appoint their members on advice from the Cabinet Office. Though an interim body, it will begin substantive work immediately. The Chair of the interim body will be announced shortly. The national security forum will be supported by a new national security secretariat in the Cabinet Office. Alongside that, a horizon scanning unit will be established which will co-ordinate the security-related horizon scanning currently undertaken in a number of Government Departments, with the intention of giving it an overarching framework and a more coherent output.

It is important that we have the right form of parliamentary oversight of the national security strategy and its delivery. There are already a number of Select Committees, and the Intelligence and Security Committee, who have an interest in the development and implementation of the national security strategy; and any new arrangement should not duplicate their existing scrutiny work. I propose therefore to consult the parliamentary authorities and the Opposition through the usual channels about the establishment and terms of reference of a Joint Committee on the national security strategy comprising the Chairs of the key departmental Select Committees with an interest in national security, and other Members of Parliament and Peers with particular interests or experience.

In March, I said that Government would publish a "national-level risk register setting out our assessment of the likelihood and potential impact of a range of different risks that may directly affect the UK". We will be writing shortly to the Chairs of the relevant Select Committees with our national risk register and placing copies in the Library of the House. Its purpose is specifically to give the public information about risks to the UK from natural disasters, accidents and malicious threats over the next five years so that those who wish to can prepare for the consequences. The national risk register will be a key tool in the development of community resilience networks, another national security strategy deliverable, which the Cabinet Office will be taking forward in the coming months and is the next step in improving the UK's resilience.

SOLICITOR-GENERAL

Dr. David Southall

The Solicitor-General (Vera Baird): On 20 February 2007 the then Attorney-General, Lord Goldsmith, announced a review of criminal cases in which Dr. David Southall had been a prosecution witness. The General Medical Council (GMC) had started a hearing to examine allegations that Dr. Southall had kept so-called "Special Case" (SC) files containing original medical records relating to his patients that were not also kept on the child's official hospital file. These files relate to the period 1980 to 2000. Concerns had been expressed that in some of those cases criminal proceedings may have been brought but the existence of the files not revealed, resulting in their not being available for disclosure as part of the prosecution process.

It was not clear at that stage whether or not there had been any such failures to discharge disclosure obligations. Lord Goldsmith decided to assess cases in which Dr. Southall had been instructed as a prosecution witness to determine whether he had kept a separate SC file; and if so to determine what further review might be required.

The Crown Prosecution Service (CPS) undertook that assessment, establishing a Project Board and a Review Team under the leadership of a Chief Crown Prosecutor.

The Review Team

Identified criminal prosecutions to which individual SC files could be linked;

Retrieved original prosecution files;

Reviewed the SC files against the contents of the associated prosecution files to assess whether there were any grounds for concern as to whether the obligations of disclosure to the defence had been fully discharged; and

Reported their findings to the Attorney-General.

Dr. Southall provided all the SC files he held—a total of 4,344 files—in accordance with his undertaking to the GMC. Of the 4,344 SC files reviewed by the Team 82 were found to be linked to court proceedings of some kind. Of those, 40 were established to have been associated with a criminal prosecution conducted in this jurisdiction.

The Review Team then checked CPS records against these 40 SC files and identified a total of seven CPS prosecution files linked with a total of nine SC files. On reviewing these files in depth, the team found no grounds to suggest that there had been a failure to comply with the prosecution's obligations of disclosure to the defence. Accordingly the Review Team has advised, and the Attorney-General and I accept, that there is no reason to indicate that any of these cases needs to be referred to the Criminal Cases Review Commission.

The ability of the Review Team to identify whether an SC file was linked with a prosecution, and then to locate the original prosecution papers, was constrained by a number of wholly practical factors. The team had to rely on the contents of the SC file for information suggesting that there may be linked criminal proceedings. In some older cases where there was such a link, the prosecution file no longer existed because of the application of the normal procedures for file destruction within the CPS after set periods of time. Differences between the methods of identifying SC files (which were linked to the patient) and CPS prosecution files (recorded by the name of the defendant) also made linking SC files to prosecution files difficult.

Nonetheless this review has been a valuable and worthwhile exercise. The Review Team has approached its task conscientiously and with care and thoroughness, for which the Attorney-General and I thank them.

The report makes a number of recommendations designed to reinforce the message that expert witnesses must fully understand their responsibilities in relation to the disclosure of information in criminal cases. These are explained in the CPS/ACPO "Guidance Booklet for Experts". The report's recommendations have been accepted and are being taken forward.

Recommendation seven is that the Department of Health and the Department for Children, Schools and Families (DCSF) should consider whether to conduct a similar review in relation to possible disclosure failings in family court proceedings. DCSF have now considered this recommendation—they agree that there should be such a review and that they are the appropriate department to conduct it. The review will focus on the 82 SC files which the Review Team found were linked to court proceedings of some kind. Thirty six of these were definitely linked to family proceedings. It is to be noted that if a disclosure failure were detected, this may, or may not, have any impact on the case, bearing in mind the passage of time and the fact that the welfare of the child is paramount in family proceedings. However, DCSF will follow the recommendation of the Review Team and conduct a review of the family cases.

The Review Team's report and recommendations (edited to preserve the anonymity of individual patients) have today been placed in the Libraries of both Houses.

TRANSPORT

Transport Personnel Review

The Secretary of State for Transport (Ruth Kelly): Last December I commissioned an independent review of personnel security across the transport sector. This followed Lord West's review last year which focused on physical infrastructure and confirmed that, although it is impossible to eliminate every risk, a robust transport security regime is in place. The review of personnel security was conducted by Stephen Boys Smith who has now delivered his report. It contains a detailed assessment of current security processes and recommendations of where changes might be needed. Because of the sensitive nature of the subject matter, it is not appropriate to publish it in full, but I have published a short summary of the report, and of its key recommendations.

The Government and the transport industries are committed to countering the threat from terrorism. The existing security regime encompasses a wide range of measures which seek to reduce the potential threat from insiders. These measures include both personnel security measures, such as background checks, and physical security measures, such as the searching and screening requirements. Many of these physical security measures apply to industry staff as well as passengers. For instance, the UK requires airports to screen 100 per cent. of staff working in the restricted zone, and has played a leading role in ensuring that this approach has been incorporated into European regulations, as well as promoting it elsewhere.

Stephen Boys Smith's report acknowledges the effectiveness of the UK transport security regime, which overlaps multiple layers of security measures in this way. The report also points out that the more effectively the security regime mitigates external threats, the more likely it becomes that terrorists will look for vulnerabilities elsewhere. I therefore agree with the key message of the report: that there should be an increased focus on personnel security and that this should be informed by systematic analysis of the risks. This is consistent with work already in hand within the Government's counter-terrorism strategy "CONTEST", where personnel security is one of the workstreams.

The most important challenge will be to integrate fully a risk-based approach to personnel security into industry practices. This clearly cannot be delivered by Government alone. Only the industry has the detailed knowledge of its operations and systems that is needed accurately to identify the specific personnel security risks that it faces and how they might be mitigated. But the Government have a vital role to play in raising awareness of personnel security issues within the industry, providing guidance and support to the industry, and ensuring that full and rigorous assessments are carried out and that appropriate action is taken where vulnerabilities are identified.

For this reason, I have asked my Department to ensure with immediate effect that industry's attention is drawn to the advice which is already available (for example, that issued by the Centre for the Protection of National Infrastructure), and to enhance the personnel security elements of our existing training programmes. Alongside this, my officials will urgently work up policy options over the summer for a cross-industry conference, to be held in the autumn. This conference will identify the most effective approaches to embedding risk assessment in the personnel security regime. The next phase will be for Government and industry to work together, including through ongoing working groups such as the National Aviation Security Committee, to ensure that the necessary risk assessments are carried out and a clear programme of work delivered. This will require sustained effort by all.

I agree with the report's view that identity is a key factor in personnel security regimes and note its conclusion that ID cards are a useful addition to identity assurance. This endorses the announcement by my right hon. Friend the Home Secretary on 6 March that ID cards will be part of the identity assurance regime for airside workers, starting in 2009. Officials from the Home Office and my Department are currently in discussion with the industry about how best to do this.

I also accept the report's advice that, in the light of experience both in the Security Industry Association (SIA) and within some sectors of the transport industry, overseas criminal record checks are now a more viable option than they have been in the past.

While checks of this kind are primarily intended to reduce crime, they can also provide a useful additional check on an applicant's integrity as part of the overall personnel security regime. I have therefore asked my Department to produce clear guidance, building on the approach taken by the SIA, to support those organisations whose risk assessments identify posts for which checks of this kind are necessary. Wherever such posts are identified, I would expect the industry to take rapid action, and my Department will be engaging closely with them over the coming months to ensure that this is the case.

Alongside this voluntary approach, which extends existing good practice in the industry, I believe there is also a case for introducing a mandatory requirement for those posts which present the highest risks, such as those with specific security responsibilities (and which are already subject to a counter-terrorism check). However, before such a requirement can be put in place, there remain a number of legal and practical challenges to be overcome. These include identifying an effective means of dealing with the variability of international criminal records systems and documentation, and developing an approach which does not have undue implications for the ongoing efficiency and security of industry operations.

I have therefore asked my Department to begin immediate discussions with employers and employees in the industry to agree a workable and effective approach to introducing such a requirement, with a view to implementation by the end of the year. In line with Stephen Boys Smith's recommendation, I would expect this to apply to new applicants for these posts, as employers can assess the integrity of existing employees in other, more effective ways.

Over the longer term, as the exchange of information between countries becomes more efficient, it may be appropriate to extend this requirement to other posts. I note here also the statement made on 16 July by my right hon. Friend the Home Secretary about Sir Ian Magee's review of criminality and the potential for overseas information to be more readily available to UK criminal record offices.

Finally, I agree with the view that whilst there should be some rebalancing of priorities between physical and personnel security activity, this should not result in a weakening of physical security programmes.

Copies of the report summary and recommendations have been laid in the Libraries of both Houses and will appear on the Department's web site.

Cost of Ministerial Cars for 2007-08

The Secretary of State for Transport (Ruth Kelly): I am publishing today details of the number of, and cost to Departments of the provision of, allocated cars and drivers by the Government Car and Despatch Agency to Ministers during 2007-08.

The figures are:

Department	*No of Cars*	*Contracted Cost*	*Notes*
Department for Business, Enterprise and Regulatory Reform	5	£345,400	1&2
Cabinet Office	7	£473,500	3
Leader of the House of Commons, the Government's Equalities Office and the Leader of the House of Lords	4	£245,300	
Office of the Chief Whips for the Commons and the Lords	1	£76,500	
Department for Communities and Local Government	6	£401,600	
Department for Culture, Media and Sports	3	£241,500	
Department for Children, Schools and Families	5	£346,800	
Department for the Environment, Food and Rural Affairs	4	£267,800	
Department for International Development	4	£226,900	
Department for Transport	4	£272,700	
Department for Innovation, Universities and Skills	5	£248,000	
Department for Works and Pensions	6	£415,900	
Foreign & Commonwealth Office	5	£355,700	
Department of Health	6	£393,700	

Department	*No of Cars*	*Contracted Cost*	*Notes*
HM Treasury	5	£341,900	
Home Office	6	£477,000	4
Law Officers' Dept	2	£138,400	
Ministry of Justice	4	£307,900	
Northern Ireland Office	2	£291,500	
Scotland Office	1	£66,200	
Wales Office	2	£85,400	

Notes:
[1]The Minister of State for Trade, Investment and Foreign Affairs was a post held jointly between the Foreign and Commonwealth Office (FCO) and the Department for Business, Enterprise and Regulatory Reform (BERR). The Government Car Service (GCS) costs were met by BERR.
[2]The Parliamentary Under Secretary of State for Trade and Consumer Affairs was a post held jointly between the Department for International Development (DFID) and BERR. The GCS costs were met by DFID.
[3]Cabinet Office figures include cars for Ministers in the Cabinet Office, the Prime Minister's Office and the Minister for the Olympics.
[4]The Minister of State for Borders and Immigration was a post held jointly between the Home office and HM Treasury. The GCS costs were met by the Home Office.

Written Ministerial Statements

The following statements were received between Monday 1 September and Tuesday 9 September 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Manufacturing: New challenges, New Opportunities

The Minister for Energy (Malcolm Wicks): My noble Friend the Parliamentary Under-Secretary of State for Business and Competitiveness has made the following statement:

"On 8 September the Government unveiled a new strategy for the UK's manufacturing sector—"New Challenges, New Opportunities"—to help UK firms take advantage of changing global trends in manufacturing. A summary document is also available.

In bringing forward its refreshed manufacturing strategy, developed by the Department for Business and the Department for Innovation, Universities and Skills, in partnership with industry, the Government are reaffirming its commitment to the sector as a key part of a mixed and balanced UK economy in the future.

The refreshed strategy is intended to set out a dynamic framework which will shape further new policies and programmes in the future. It builds on the Government's manufacturing strategy of 2002, which was the first strategy for the sector for more than 30 years.

The environment facing manufacturers has undergone and continues to face significant change. To understand what is powering these shifts we have conducted consultations with the Ministerial Advisory Group on Manufacturing and other stakeholders, and drawn upon academic and survey evidence. This has revealed the importance of five inter-related dynamics that have been and continue to be instrumental in reshaping global manufacturing.

The increasing prevalence and complexity of global value chains, underpinned by developments in information and communication technology, and consequent fragmentation of processes, encouraging specialisation.

The accelerated pace of technology exploitation as the pace and demand for change implementation has increased.

The growing importance of investment in intangibles such as design, branding and R&D.

The increased recognition that investment in People and Skills is among the most important for companies to make.

The move to a low carbon economy as the response to climate change creates both new challenges and opportunities for manufacturing firms.

These dynamics are described in detail in the Economics paper: "Five Dynamics of Change in Global Manufacturing", which accompanies the strategy. The strategy itself sets out Government's view of what the sector needs for success in the long-term. It includes:

Global Value Chains: International fragmentation of production—Manufacturing attracts more FDI to the UK than any other country in Europe and globally the UK is second only to the US. Manufacturing growth in other countries means opportunities for the UK. UK Trade & Investment (UKTI) will allocate additional resources to target a package of new support for 600 UK companies of all sizes to identify manufacturing value chain opportunities in India and China. And the UK Intellectual Property Office (UK-IPO) will advise on using and protecting IP in these markets.

Technology exploitation: Accelerating the spread of new technologies—In addition to the existing centre in Yorkshire and the centre currently being built in Glasgow, there will be a new Manufacturing Technology Centre in Coventry. It will have industrial scale pre-production and demonstration facilities, which could lead to £130 million of investment in business-led applied research and its exploitation over the next 10 years. And the Technology Strategy Board will invest £24 million into research central to high value-added manufacturing.

Intangibles: Competitive advantage from non-traditional elements of manufacturing—Firms in the UK are using other areas of leading British skills and industry to make them more globally competitive. UK and global businesses are growing their investment in intangible or knowledge assets, such as software, design, brand building in order to improve their global competitiveness and to meet the changing needs of customers. The Design Council and Regional Development Agencies will implement the findings of the current review of the Designing Demand programme to increase penetration of the programme across the regions. We have supported the creation of the UK Design Skills Alliance and will work with the alliance to help ensure the world-leading UK design sector has the skills required by manufacturers to compete in global markets.

People: Improving the skills base and attracting talent into manufacturing—The strategy sets out a renewed focus on apprenticeships, including the extension and expansion of high quality apprenticeships by approximately 1,500 new places, in addition to the 9,000 places announced earlier this year. We will expand apprenticeships by inviting bids from larger manufacturers to train additional apprentices, including for their supply chains. And for manufacturers, there will be a clear focus on simplifying their experience of the skills system so they can quickly and easily access the skills and training support they need. The "Memorandum of Understanding" published alongside the strategy sets out how delivery partners will work together to simplify the offer to employers.

A new body, "Manufacturing Insight" will be tasked with making the public perception of manufacturing reflect the reality of a successful, modern and broad sector and ensuring young people are aware of the exciting career opportunities available. There will also be a "Manufacturing the Future" schools campaign to promote manufacturing career prospects to young people.

Low Carbon Economy: Opportunities for manufacturing—Next year, a low carbon industrial strategy will address the challenges facing manufacturers as they try to reduce their carbon footprint and the huge opportunities from investment in energy and a shift to a low carbon economy. The Office of Nuclear Development will work with industry partners to develop the nuclear supply chain and maximise high value-added work captured by UK manufacturers from an estimated £20 billion capital expenditure in nuclear. And a new Office for Renewable Energy Deployment will be established to address barriers to renewables deployment including helping to develop the UK supply chain. Nuclear and renewables alone could create up to 260,000 jobs over the next ten years.

Related documents have been placed in the Libraries of both Houses. These are:

Manufacturing: New Challenges, New Opportunities (summary document)

Manufacturing: New Challenges, New Opportunities (full strategy document—print out of document published on the BERR and DIUS websites)

TREASURY

Annual European Community Finances White Paper

The Economic Secretary to the Treasury (Kitty Ussher): I am today laying before Parliament, the annual European Community Finances White Paper "Statement on the 2008 EC Budget and Measures to Combat Fraud and Financial Mismanagement" (Cm 7371). This White Paper is the 28th in the series. It gives details of revenue and expenditure in the 2008 EC Budget and covers recent developments in EC financial management and measures to counter fraud against the EC Budget. It includes information on amendments to the arrangements for the financing of the annual budget of the European Communities in the Own Resources Decision area. It also includes updates on the EC Budget review, the new Own Resources Decision and recent measures taken to improve the management and control of the EC Budget.

The Public Accounts Commission: Sixteenth Report

The Exchequer Secretary to the Treasury (Angela Eagle): I welcome the work of the Public Accounts Commission (TPAC) on the new governance arrangements for the National Audit Office (NAO) as set out in its "Sixteenth Report" (HC 1027) published on 24 July.

The Government will continue to work with TPAC, the NAO, Ministry of Justice and Parliamentary Counsel to prepare provisions for the Constitutional Renewal Bill to implement the Commission's recommendations.

Economic and Financial Affairs Council (Budget ECOFIN)

The Economic Secretary to the Treasury (Kitty Ussher): On 17 July 2008, the UK permanent representative to the EU represented the UK at the Budget Economic and Financial Affairs Council (ECOFIN).

The Council conducted its first reading of the EC Budget for 2009. The Council adopted a draft Budget that was supported by all member states.

During a conciliation meeting between the Council and the European Parliament, six joint statements relating to the Budget were agreed. These concerned: Structural and Cohesion Funds and Rural Development 2007-13 programmes; Recruitment in Relation to the 2004 and 2007 enlargement; the EU Solidarity Fund; the European Globalisation Adjustment Fund and Emergency Aid Reserve; Implementation of the Budget in 2009; and an update of Administration financial programming. In addition Council agreed further statements on Payment Appropriations and Evaluation of Agencies.

The Government are supportive of these statements, which call for a greater degree of transparency, sound financial management and budget discipline in the areas they concern.

COMMUNITIES AND LOCAL GOVERNMENT

Gypsy and Traveller Site Grant

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Iain Wright): The Homes and Communities Agency as established in the Housing and Regeneration Act 2008 will for the first time bring together in one agency housing and regeneration funding, public land and expertise to deliver decent, affordable housing and regenerate our communities by creating places where people choose to live. It will play a key role in turning our ambition to deliver three million new homes by 2020 into a reality.

As part of that role, I am today announcing that from 1 December 2008 the Homes and Communities Agency will take on responsibility for the Gypsy and Traveller Site Grant, which provides funding for the provision and refurbishment of Gypsy and Traveller sites. This approach will bring delivery of homes for Gypsies and Travellers into line with the arrangements for housing and accommodation delivery for the rest of the community. It reflects our determination to address the existing shortfall in accommodation for all in society, tackling the problems that can be caused by unauthorised camping and the poor life chances of Gypsies and Travellers themselves.

The HCA will be responsible for administering the Gypsy and Traveller Site Grant to meet ambitious but realistic targets for the delivery of pitches across England. Through its close relationship with local authorities and other delivery partners, the HCA will be well placed to step up the pace of delivery for the benefit of both Gypsies and Travellers and the settled community. This approach responds to the findings of the independent task group on site provision and enforcement, chaired by Sir Brian Briscoe, whose report issued in December found that the policy framework for site provision was sound, but that delivery was slow.

Ministers will continue to have oversight of the programme, ensuring that it achieves the Government's objectives of meeting Gypsies' and Travellers' accommodation needs and supporting community cohesion. We will also be asking the HCA to recommend any changes to the programme for 2010-11 that may be necessary to improve delivery. The sum of £97 million was allocated for the grant through the CSR07 period, and funding for 2009-10 and 2010-11 will be transferred in full to the HCA on its establishment.

DEFENCE

Service Children's Education

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): The chief executive of Service Children's Education has been set the following key targets for 2008-09.

Key Target 1

To match England Performance at key stages 1, 2 and 3 in all subject elements.

Key Target 2

In each of the key stages 1, 2 and 3 exceed national (England) achievement by 3 per cent. in a majority of the 12 subject elements.

At the higher levels of attainment (that is, level 3+ at key stage 1, level 5+ at key stage 2, level 6+ at key stage 3) match or exceed the national level of performance in 10 of the 12 subject elements.

Key Target 3

At GCSE level, improve the percentage of pupils achieving five or more A*-C (including Maths and English) from 2007-08 (45 per cent.).

At GCSE level, achieve an average points score within 10 points of the national (England) "capped" upper quartile figure.

At GCE "A"-Level, achieve 72 per cent. of pupil entries obtaining grades A-C.

Key Target 4

SCE to achieve a notional position in the English local authority league tables, within the leading 25 (of 150) LAs at each of key stages 1, 2 and 3.

Key Target 5

To achieve Grade 3, or above, for the overall effectiveness of the school in 100 per cent. of schools inspected, and Grade 2, or above, in not less than 66 per cent. of schools inspected.

Key Target 6

To achieve an overall parental customer satisfaction rating of at least 85 per cent. in the 2008-09 parental survey.

Military Low Flying

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): I have today placed in the Library of the House a revised report giving a detailed account of the low flying training that has taken place in the UK Low Flying System for the training year April 2007 to March 2008.

The original report placed on 21 July 2008 was found to contain a number of printing errors that have been corrected.

The report can be viewed on the MOD's website at: http://www.mod.uk/DefenceInternet/AboutDefence/WhatWeDo/AirSafetyandAviation/LowFlying/

FOREIGN AND COMMONWEALTH OFFICE

Hong Kong (Six-monthly Report)

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): The latest report on the implementation of the "Sino-British Joint Declaration on Hong Kong" was published today. Copies have been placed in the Library of the House. A copy of the report is also available on the Foreign and Commonwealth Office website at: www.fco.gov.uk. The report covers the period from 1 January to 30 June 2008. I commend the report to the House.

Georgia

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): I refer hon. and right hon. Members to the written (Prime) ministerial statement made by my right hon. Friend the Prime Minister today.

HOME DEPARTMENT

PA Consulting (Lost Data)

The Secretary of State for the Home Department (Jacqui Smith): I would like to update the House on the loss of sensitive data by PA Consulting and to inform the House that the Home Office has terminated the contract with PA Consulting that covered the handling of these data.

On 19 August PA Consulting formally notified the Home Office of the loss of a data stick containing sensitive information relating to the JTrack system which PA manage under contract to the Home Office. I was informed the same day and immediately initiated an inquiry into this incident, undertaken by the Home Office Security Unit with advice and support from the Metropolitan Police. The incident inquiry has now been completed. The Information Commissioner and Cabinet Office have been kept fully informed. I have also today sent a full report to the Information Commissioner and have placed a copy in the House Library.

JTrack is the operational system used by the police and Crown Prosecution Service as part of the Government's Prolific and other Priority Offender (PPO) programme. The data on JTrack relate to prisoners and other offenders in England and Wales.

The inquiry found that data were transferred to PA from the Home Office in a secure manner. These data were not handled securely by a PA employee on their premises. Data were downloaded to a data stick. The data stick was used to transfer data between computers on the PA premises and was not encrypted or managed appropriately. The data stick went missing and, despite extensive searches, has not been found. This was a clear breach of the robust terms of the contract covering security and data handling.

Based on the findings of the inquiry, the Home Office have decided to terminate this contract. My officials are currently working with PA to take this work back in house without affecting the operation of JTrack or the PPO programme. Data transfers to PA for JTrack were suspended immediately following the incident, data handling has now been transferred to the Home Office, and the system is fully operational. Other PA activity such as system maintenance and user training will be transferred by December.

We are reviewing our other contracts with PA, specifically from a data handling and security perspective. Lessons learned from this incident more generally will be applied to working with suppliers on contracts involving sensitive data.

Together with the Association of Chief Police Officers and the Ministry of Justice, we have undertaken careful assessments of the potential risks to individuals of this incident. The risk to public safety is assessed as low. The risk to individuals whose data were lost is also assessed as low. Appropriate measures are in place for individuals seeking information about the data held on them.

The Home Office has been very active in implementing the findings of the Hannigan Data Handling Review but as with other incidents of data loss the Government are reviewing the circumstances of this incident and will ensure that any lessons, including in relation to strengthening the delivery chain, are incorporated in the ongoing programme of work to provide support and guidance to Departments on information assurance.

Given the seriousness of this incident, I believe it is important both to provide external assurance to the public on our response to the incident and also to enable others to benefit from the lessons learned. Hence I have commissioned Dr. Stephen Hickey to undertake an external scrutiny of our response. I will be placing a report of his findings in the House Library in due course.

Police Pay

The Secretary of State for the Home Department (Jacqui Smith): On 6 December 2007, I published Sir Clive Booth's report "Determining Pay in the Police Service". Sir Clive Booth recommended that a pay review body for police officers should be created. I indicated that the Government accepted his recommendations and we would consult on proposals for implementing the necessary changes to the police officer pay machinery.

On 8 January 2008, I wrote to the Police Negotiating Board (PNB) asking them to consider a multi-year deal for police officers based on the index used by the Police Arbitration Tribunal (PAT) in 2007. I made clear that if the PNB agreed such a deal then it could be implemented in full, and the issue of implementing a pay review body for police officers would become less pressing. We therefore deferred consultation on the implementation of a pay review body while negotiations on a multi-year deal were taking place. The Government's approach on this was also set out in "From the Neighbourhood to the National: Policing our Communities Together" (Cm 7448) published on 17 July 2008.

The official Side of the PNB made an offer of a three-year pay deal which was one of the most generous in the public sector. Regrettably, there was a failure to agree with the staff side on this basis. In the event that the PNB had agreed a multi-year deal there would have been no role for a pay review body for some time, but disappointingly for the third consecutive year a deal was not agreed.

The Government are therefore today beginning consultation on proposals for implementing a pay review body for police officers. Sir Clive Booth already consulted widely with policing stakeholders when undertaking his review. So this second consultation will be an opportunity for stakeholders to comment on the detail of the proposed changes to the police officer pay machinery, including : the scope and purpose of the new body; its remit; membership and coverage.

The consultation will close on Wednesday 5 November 2008.

I have today placed a copy of the consultation document in the Library of the House.

Review of Police Injury Awards

The Minister for Security, Counter-Terrorism, Crime and Policing (Mr. Tony McNulty): On 25 August I published a consultation document, "Review of Police Injury Benefits: Government Proposals", which sets out proposals for a revised police injury awards scheme in the UK. We intend that the new scheme should be in place as early as is possible in 2009, following agreement of the key issues in the Police Negotiating Board by December this year.

The review of the current police injury awards scheme has given us the opportunity to ensure that we have a system of benefits with criteria suitable for modern-day conditions and which ensures that the financial support currently given to police officers and their families for injury or death in the line of duty is properly targeted and is effectively and consistently administered by police forces. The proposals in the consultation document cover a range of issues, including the eligibility criteria for receiving an award, the structure of benefits under the scheme for both former officers and their survivors, and the role of police authorities and medical practitioners involved in considering claims for awards.

Key proposals set out in the consultation document include:

The introduction, as announced by the Home Secretary to the Police Federation conference in May this year, of life-long adult survivor benefits and the extension of survivor benefits to nominated unmarried and unregistered partners in cases where an officer dies in the line of duty. At present survivor benefits for death in the line of duty are restricted to bereaved spouses and civil partners and are stopped on remarriage or cohabitation.

Simplifying injury and survivor awards so they are easier to understand and apply. For instance, if an officer dies or is totally disabled within one year of an injury in the line of duty, the lump sum payment made will as a matter of course be five times the officer's pensionable salary. Currently financial support is set at four times the officer's actual total salary if that works out to be the lesser amount.

Making injury and death payments fairer. The pensionable salary on which lump sum awards are based will be changed so that it is based on average pensionable pay. This will take account of a person's working hours averaged over his or her police career rather than simply the pensionable pay at the time the officer ceased to serve. This will protect those who may have just reduced their hours before being injured.

Revising the eligibility criteria and clarifying the definition for injuries received in the line of duty. This clarification will mean officers will be specifically covered for injury benefits as a result of a terrorist attack and will focus benefits on those injuries received in the line of duty. Proposals will also include withdrawing cover for injury or death sustained on a journey to or from work where the cause was not related to police duty—to bring injury benefits for the police service in line with injury benefits for other public servants.

A clearer link between injury awards and police duty, by introducing a five-year time limit for new post-retirement claims, except in the case of specified progressive illnesses and specified conditions with a long incubation period.

A clearer link between injury awards and compensation for loss of earnings, by introducing an absolute cut-off for new claims at age 65 or state pension age at the time if over 65.

Replacing injury pension reviews at age 65 (or the state pension age at the time if over 65) by introducing a new minimum retirement income guarantee. Under the current system officers injured early in their career can suffer a large reduction in financial support in their retirement if the review takes them to the lowest pay banding. The new retirement income guarantee will protect against this.

No longer paying injury pensions in cases where a former officer has suffered only a very slight loss of earning capacity as a result of the injury. In cases where the loss of earning capacity is 10 per cent. or less the former officer will receive a lump sum payment in recognition of the injury. This will allow benefits to be targeted where they are needed most.

Any changes made as a result of the review will apply to officers serving at the time of implementation, regardless of whether they have already sustained an injury. They will not apply retrospectively however, that is, to officers who have already retired when the changes come into force—they will still be dealt with under the system as it currently stands, even if they have not yet applied for an award.

Our aim is to create a transparent, fair and effective system that provides police officers reassurance to deal with the difficulties that 21st century policing brings. I hope that a constructive and active debate ensues on the proposals we have announced.

The consultation exercise is being conducted on a UK-wide basis in co-operation with the Scottish Executive and the Northern Ireland Office. Copies of the consultation document have been placed in the Library. Further copies can be downloaded from: www.homeoffice.gov.uk/about-us/haveyoursay/current-consultations/. Comments have been requested by 18 November 2008.

LEADER OF THE HOUSE

"Audit and Assurance of MPs' Allowances"

The Leader of the House of Commons (Ms Harriet Harman): Following debates in July, I published a consultation document, "Audit and Assurance of MPs' Allowances" (Cm7460) on 5 August, 2008. It outlines proposals for further action to improve the financial control and audit of the system of allowances claimed by MPs. Copies of the document are available at: www.commonsleader.gov.uk. I have requested that MPs submit their responses by Monday, 29 September 2008.

PRIME MINISTER

Extraordinary European Council: Georgia/Russia

The Prime Minister (Mr. Gordon Brown): Between 8 and 12 August, Russian and Georgian troops clashed in Georgia's separatist region of South Ossetia. The resulting conflict led to a tragic loss of civilian life, and the displacement of over 100,000 people.

From the start of the conflict, the UK and its international partners have been involved in intensive discussions, including through the UN, EU, NATO, G7 and OSCE, to agree a ceasefire and to find a durable and peaceful way forward. I spoke to Russian President Medvedev and to other Heads of State, including Presidents Bush and Sarkozy, to try to find a way forward. My right hon. Friend the Foreign Secretary visited Georgia where he met President Saakashvili and Members of his Government.

On 12 August, the EU and OSCE were able to broker a ceasefire between the parties and agreement to a way forward. This agreement included six key principles:

the parties not to resort to the use of force;

the parties to stop all military actions for good;

the parties to allow free access for humanitarian aid;

Georgian armed forces to return to their places of usual permanent deployment;

Russian armed forces to withdraw to the line they occupied before the start of military actions. Until such time as an international mechanism is created, Russian peacekeeping forces to implement additional security measures;

the parties to engage in international discussions on the modalities of security and stability in Abkhazia and South Ossetia.

Despite this plan, on 26 August, Russia unilaterally recognised the independence of South Ossetia and of Georgia's other separatist region, Abkhazia. Russia also refused to withdraw its forces from Georgia and in some cases moved to reinforce them.

It was in this context that I and my right hon. Friend the Foreign Secretary attended the Extraordinary European Council on 1 September, convened by French President Nicolas Sarkozy, in his capacity as current presidency of the EU, to discuss the current crisis in Georgia.

At this meeting the European Council unanimously condemned Russia's decision to recognise the independence of Abkhazia and South Ossetia; and expressed its grave concern about the consequences of the conflict and Russia's disproportionate military action. Russia's actions were in clear breach of international law and of successive UN Security Council Resolutions.

In response to Russian actions, the Council decided to conduct a comprehensive review of EU-Russia relations. This evaluation has begun and will continue in the run up to the next EU-Russia summit scheduled to take place in Nice on 14 November 2008. The EU has decided to suspend negotiations with Russia on the new EU Partnership and Co-operation Agreement (PCA) until Russian troops withdraw from Georgia to their pre-conflict line. We strongly support this decision. As I made clear during Council discussions, although the EU should continue discussions with Russia on areas of interest and concern to the EU, it cannot be "business as usual". This review will allow us to take a considered decision about the future of EU-Russia relations.

Russia's actions in Georgia illustrate the need for Europe to intensify efforts to ensure its long-term energy security. The European Council tasked the EU with examining initiatives to be taken to this end. We should explore all options for the diversification of energy supply in the EU, including increased support for infrastructure that diversifies energy sources, an increased commitment to renewable energy, measures to improve energy efficiency and measures to improve the internal market.

The international community must support Georgia in rebuilding the damage caused by the conflict. The European Council made clear the EU's commitment to supply humanitarian aid and support for Georgia's long-term reconstruction efforts, including in Abkhazia and South Ossetia. The Council and the Commission have been tasked to start preparations for an international conference to bring focus to reconstruction efforts. The UK will play its part. We have already committed £2 million to Georgia in humanitarian aid. The EU has pledged to step up its relations with Georgia, including through visa facilitation measures, appointing an EU special envoy and the possible establishment of a full and comprehensive free trade area as soon as the conditions are met.

At the European Council, the EU unanimously called on the parties to implement the EU/OSCE peace plan in full. On 8 September, President Sarkozy, EU Commission President Barroso and EU High Representative Solana travelled to Moscow to press Russia to abide by its commitments. I welcome the agreement reached during this meeting that Russia will withdraw its troops from Georgian territory outside Abkhazia and South Ossetia

and that Russia will commit to international discussions on future security modalities. This is a good first step towards peace and security. But it is only the start; Russia must now implement these commitments and must engage fully in finding a lasting solution to the crisis.

The international community will support efforts to ensure lasting peace and security in the region, including through the presence of observers on the ground. In line with the EU Council conclusions and the 8 September Moscow agreement, the European Union will contribute to these efforts. EU Foreign Ministers will discuss the deployment of EU monitors at the General Affairs and External Relations Council (GAERC) on Monday, 15 September. It is vital that international monitors are given free and unfettered access by all sides to carry out their mandate.

The EU's response to this crisis must also consider the implications for the EU's common neighbourhood. On 27 August my right hon. Friend the Foreign Secretary travelled to Kiev where he made a speech on the need for closer ties between the EU and the region. I am pleased that the Council agreed that the EU should strengthen its relations with the region, including Ukraine. I welcome the successful EU—Ukraine summit which took place yesterday (9 September). I look forward to the Commission's proposals for enhancing EU relations with the region, due in December this year.

The UK will continue to work with international partners to ensure that effective support is given to Georgia and that a lasting, peaceful solution is reached as soon as possible.

My right hon. Friend the Foreign Secretary and I will continue to keep the House informed of developments.

WORK AND PENSIONS

Stakeholder Receptions

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): I have today published a list of receptions hosted by Department for Work and Pensions Ministers in the 2007-08 financial year.

The total cost of receptions held for the financial year 2007-08 was £368.00.

Date	*Event*	*Number invited*	*Host*
19 February 2008	Introductory reception with key Working Age stakeholders	27	James Purnell
5 March 2008	Introductory reception with key Pensions and Disability stakeholders	27	James Purnell

Written Ministerial Statements

The following statements were received between Wednesday 10 September and Friday 12 September 2008

DEFENCE

QinetiQ

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): This statement updates the House on the successful sale by the Ministry of Defence (MOD) of its entire holding of ordinary shares in QinetiQ Group plc (QinetiQ). QinetiQ was created in 2001 from the majority of the MOD's in-house science and technology laboratories. Given the market sensitive nature of the transaction, it was not possible to inform the House in advance of the decision to sell.

The MOD announced on 9 September 2008 that it would sell its remaining 18.9 per cent. stake (comprising approximately 125 million ordinary shares) in the company. The sale process was completed on the same day through an accelerated bookbuild process, achieving a price of 206p per share and raising around £254 million (net of estimated costs) for the taxpayer. The price achieved by the MOD represented a discount of 7.8 per cent. to the closing price of QinetiQ shares on the day before the transaction. A discount is normal for a transaction of this scale. Between flotation and this sale, the average price of QinetiQ shares in the market was 194p.

The Government retain a special share in the company. This provides the Government with the right to block certain activities or ownership that could be contrary to UK defence and security interests, or which could threaten QinetiQ's ability to provide its MOD customers with impartial advice.

The sale brings the total raised for the taxpayer from the privatisation of QinetiQ to approximately £830 million (net of costs).

Project MASS

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): I am pleased to announce that on 20 August we signed a 15-year partnering agreement with BAE Systems Land Systems Munitions (BAES LSM) for the future supply of general munitions to the armed forces. This is the first opportunity since contract signature to inform the House.

The new contractual arrangements have been developed under the umbrella of Project MASS (Munitions Acquisition—The Supply Solution), which is a key strand for delivering the defence industrial strategy (DIS) within the general munitions field. The contractual partnering agreement is underpinned by a broader non-contractual strategic partnering arrangement between BAES LSM and the MOD for the longer-term delivery of joint objectives in the munitions sector.

At present, 80 per cent., by value, of the general munitions used by the armed forces for frontline operations and training are procured from BAES LSM under a contract due to end in 2010. The new, innovative partnering agreement will continue to cover about 80 per cent. of the general munitions requirement, including small arms and medium calibre ammunition, mortar shells and artillery shells and will ensure continuing security of supply for a minimum of 15 years. The new agreement, which is worth at least £2 billion and, depending on the level of demand, potentially in excess of £3 billion, also incentivises BAES LSM to deliver a modern, world class industrial base.

This is excellent news for defence. Not only will the new arrangements deliver a long-term, secure supply of battle-winning munitions for our armed forces, it will also ensure that the UK retains an important sovereign capability, directly sustaining some 1,700 UK jobs.

It is also excellent news for BAES LSM, and for their highly skilled workforce in the north of England and south Wales, who are to be commended for their continued commitment and contribution to our efforts in Afghanistan and Iraq, under the current arrangements. During this period of high demand, the company has stepped up production to meet the challenge, providing up to 1 million rounds of small arms ammunition a day from their manufacturing facility at Radway Green, near Crewe.

Our new partnering agreement with BAES LSM is an important milestone in the implementation of the defence industrial strategy, which is providing a framework for real change within the defence industry and its relationships with the MOD.

HMS Tireless

The Minister for the Armed Forces (Mr. Bob Ainsworth): Following my statement on 12 June 2008 about the incident that took place on board HMS Tireless in March 2007, I would like to inform the House today that the investigation undertaken on behalf of the Chief of Defence Matériel to consider issues relating to the procurement, supply and management of oxygen generators has concluded.

This investigation has shown that when the Ministry of Defence introduced the self-contained oxygen generator (SCOG) into service on submarines, it assessed that the new unit delivered a substantial improvement to the safe generation of emergency oxygen over the previously used Mark V candle. The cap and seal present in the new design was believed to be proof against contamination. The investigation has, however, made it clear that this belief, and therefore the resultant understanding of any risk of explosion, was flawed and that we were complacent about the improvement in safety the new SCOGs delivered.

The investigation has also identified a number of shortcomings in the way we handled and managed SCOGs. In particular, it has demonstrated that logistics management processes were in some places ambiguous, and as a result were neither consistently applied nor comprehensively followed. The investigation found that these shortcomings existed across the logistics management system.

The investigation also looked at the issue of individual culpability. It concluded that although individuals had made mistakes, the errors made did not amount to negligence, and as a result disciplinary action is not

justified. Although no individual was found to be personally culpable, it is clear that we were complacent and, as I said in my statement on 12 June, the Ministry of Defence must bear responsibility for this tragic incident. As part of that responsibility it is our duty to ensure that the necessary changes are made to prevent a reoccurrence.

The DE&S investigation has made 14 recommendations for improvements across the logistics management process, including for the handling, storage and tracking of SCOGs. These recommendations have been accepted in full and are being implemented, along with those made by the board of inquiry, which consulted with a range of organisations, including NASA, while it looked into this incident.

The Ministry of Defence has already put in place a number of improved processes, guidance and equipment-related measures since the explosion on HMS Tireless. An interim replacement for the generation of emergency oxygen that is better protected than the SCOG has been introduced. This is being supplied to the submarine fleet as quickly as practicable. We have already fitted replacement oxygen generators to two of the fleet and expect to have rolled them out to the rest by the end of the year. These, along with any pre-existing SCOGs which remain in use over the next few months, will only be used in an emergency situation and are being handled appropriately. Work is also underway to develop and introduce a replacement oxygen generating capability for routine and emergency use in the future.

The outcome of this further investigation, its recommendations, and the improvements that are already being put in place do not change the fact that as a result of this tragic incident two submariners died and another was seriously injured. I would again like to offer my sincere sympathies to their families, friends and colleagues and assure them that the action we have taken significantly reduces the risk of such a tragedy happening again. My Department is continuing to provide the coroner with every assistance possible and is keeping the Heath and Safety Executive fully informed.

I am today placing a copy of the investigation report in the Library of the House.

Armed Forces Compensation Scheme

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): It has been brought to my attention that replies I gave on 14 May 2008, *Official Report*, column 1578W to the hon. Member for North Devon (Mr. Harvey) and on 6 June 2008, *Official Report*, column 1182W to the hon. Member for Woodspring (Dr. Fox) over-reported the percentage and number of rejected claims made under the Armed Forces Compensation Scheme.

The original data and subsequent revisions are shown in the tables below.

Table 1: Previously released and revised AFCS rejection percentages (Excluding medical discharges).

	2005-06	*2006-07*	*April 07-December 07*
Released Percentages of Rejections	40%	36%	45%
Released Percentages of Rejections	40%	36%	37%

Table2: Previously released and revised AFCS rejection figures.

	2005-06	*2006-07*	*April 07-December 07*
Released Percentages of Rejections	165	745	740
Released Percentages of Rejections	165	740	590

HEALTH

Health and Adult Social Care

The Minister of State, Department of Health (Mr. Ben Bradshaw): On 11 August 2008 I published a consultation document, which is the latest stage in the development of the new system we are introducing for the regulation of health and adult social care.

"Changes to arrangements for regulating NHS bodies in relation to healthcare associated infections for 2009-10—A consultation for the NHS" takes forward our commitment to allow the Care Quality Commission to regulate NHS bodies with respect to healthcare associated infections from April 2009. A copy has been placed in the Library and copies are available for hon. Members from the Vote Office.

The NHS has been working hard to tackle healthcare associated infections. We are on course to halve the number of MRSA infections from 2003-04 levels and reduce "C difficile" infections. Patients keep telling us that contracting a healthcare associated infection is one of their biggest concerns. It is crucial that we focus on bringing infection rates down even further and protecting patients, staff and visitors from the risk of infection.

Patients are looking for assurances that no matter who provides their care, they will receive a safe and quality service. They also look to the regulators of health and social care to support and encourage improvements in the services they use.

The NHS next stage review final report, "High Quality Care for All", emphasises the important role regulation plays in improving quality.

The Health and Social Care Act establishes the Care Quality Commission on 1 October this year and it will take over responsibility for regulating health and adult social care from April 2009. It will operate under a new legislative framework, with a wider range of enforcement powers. These include powers to inspect and investigate, to issue statutory warning notices and financial penalties, and, in the most serious cases, to prosecute, suspend or cancel registration.

This document sets out how we plan to carry forward the existing code of practice for the prevention and control of healthcare associated infections into this new environment, and further details the full range of enforcement powers that will be introduced under the Health and Social Care Act 2008.

This publication encourages all NHS organisations to engage with this process and provides an opportunity for them to comment. However, it will also be of interest to anyone working in health and adult social care and to patients and service users who are interested in how the reforms are going to improve the services they use. The consultation will close on 20 October 2008.

HOME DEPARTMENT

Control Order Powers (11 June to 10 September 2008)

The Minister for Security, Counter-Terrorism, Crime and Policing (Mr. Tony McNulty): Section 14(1) of the Prevention of Terrorism Act 2005 (the 2005 Act) requires the Secretary of State to report to Parliament as soon as reasonably practicable after the end of every relevant three-month period on the exercise of the control order powers during that period.

The level of information provided will always be subject to slight variations based on operational advice.

Control orders continue to be an essential tool to protect the public from terrorism, particularly where it is not possible to prosecute individuals for terrorism-related activity and, in the case of foreign nationals, where they cannot be removed from the UK.

As stated in previous quarterly statements on control orders, control order obligations are tailored to the individual concerned and are based on the terrorism-related risk that individual poses. Each control order is kept under regular review to ensure that obligations remain necessary and proportionate. The Home Office continues to hold Control Order Review Groups (CORGs) every quarter, with representation from law enforcement and intelligence agencies, to keep the obligations in every control order under regular and formal review and to facilitate a review of appropriate exit strategies. During this reporting period, three CORGs were held in relation to the orders currently in force. In addition, further meetings were held on an ad-hoc basis as specific issues arose.

During the period 11 June 2008 to 10 September 2008, one new non-derogating control order was made. Six non-derogating control orders were renewed in accordance with section 2(6) of the 2005 Act. In total, 16 control orders are currently in force, four of which are in respect of British citizens. Three individuals subject to a control order live in the Metropolitan Police Service area; the remaining individuals live in other police force areas. All of these control orders are non-derogating.

During this reporting period, 120 modifications of control order obligations were made. Sixty-one requests to modify a control order obligation were refused. A right of appeal exists in sections 10(1) and 10(3) of the 2005 Act respectively against decisions by the Secretary of State to renew a non-derogating control order or modify an obligation imposed by a non-derogating control order without consent, and against decisions by the Secretary of State to refuse a request by a controlled person to modify any such obligation. Ten appeals have been lodged with the High Court by controlled persons relating to modifications to orders or the renewal of orders in this reporting period. One of these appeals was subsequently withdrawn.

Seven judgments have been handed down by the High Court in control order cases during this reporting period. Three of these judgments have been handed down in the case of *Secretary of State for the Home Department v. Abu Rideh*. An interim judgment in a modification appeal was handed down on 23 June 2008 in which the court ordered that a modification be made to Abu Rideh's reporting requirements. Final judgment was reserved until the conclusion of the substantive review of the control order under section 3(10) of the 2005 Act. Following the hearing under section 3(10) in July a judgment was handed down on 8 August 2008 in relation to the issue of compliance with article 6 of ECHR (a closed version of the judgment was handed down on 31 July 2008). The court ordered that further disclosure of the closed case against Abu Rideh should be made available to him or withdrawn from the case. No appeals against this judgment have been submitted by either side as yet. A further interim judgment in relation to modification appeals submitted by Abu Rideh was handed down on 15 August 2008. The court ordered some further modifications to Abu Rideh's reporting and visitor obligations but upheld the Secretary of State's decision to refuse to allow Abu Rideh to have access to the internet.

Two of the judgments handed down in this reporting period relate to the case of *Secretary of State for the Home Department v. AP*. A closed judgment in relation to article 6 compliance was handed down on 14 July 2008. A judgment was handed down in the substantive 3(10) review of *AP*'s control order on 15 August 2008. The court found that there was reasonable suspicion that *AP* is, or has been, involved in terrorism-related activity and that a control order is necessary to protect the public from a risk of terrorism. The court also found that no further disclosure was necessary in order to ensure compliance with article 6. The judgment dealt with two modification appeals lodged by the controlled person. On the first appeal, the court found that a modification made to *AP*'s control order by the Secretary of State had created a package of obligations which was in breach of article 5. *AP* was subsequently served with a modified control order. The second appeal in relation to restrictions on meetings and mosque attendance was dismissed. Both *AP* and the Secretary of State have sought permission to appeal to the Court of Appeal; decisions with regard to permission are pending.

Two judgments have been handed down in other cases in relation to modification appeals lodged by controlled persons. A judgment was handed down in the case of *Secretary of State for the Home Department v. AE* on 21 July 2008 in which the court upheld the Secretary of State's decision to refuse *AE* permission to study AS level human biology and chemistry. On 31 July 2008 a judgment was handed down in the case of *Secretary of State for the Home Department v. AU and AV* in which the court dismissed appeals by the controlled persons against the Secretary of State's refusal to make various modifications to the control order obligations.

Full judgments are available at: http://www.bailii.org/

INNOVATION, UNIVERSITIES AND SKILLS

Learning and Skills Council

The Minister for Lifelong Learning, Further and Higher Education (Bill Rammell): I would like to inform the House that section 2 of the Further Education and Training Act 2007, which inserts section 18A of the Learning and Skills Act 2000, placing a duty on the council to establish regional councils, has been enacted. The Learning and Skills Council has been successful in appointing members to each of its nine regional councils. The regional councils became operational on 10 September 2008. The chairs of the regional councils are:

North East: James Ramsbotham
North West: Roger Hoyle
Yorkshire and Humberside: Rachel Mann
East Midlands: Roger Begy
West Midlands: Ben Reid
East of England: Chris Paveley
South East: Norman Boyland
South West: John Savage
London: Claire Ighodaro[1]

[1]Claire is a member of the LSC's national council undertaking the role on an interim basis.

The Government have announced plans for replacing the LSC with a new structure for 16 to 19 and post-19 funding. Those plans would require parliamentary approval of new legislation. These appointments are being made pending the introduction of that legislation. Full details of all regional council members can be found on the LSC website at: www.lsc.gov.uk

JUSTICE

Front Office Services (Civil Courts)

The Parliamentary Under-Secretary of State for Justice (Maria Eagle): On 15 September 2008 the board of Her Majesty's Courts Service, with my approval, has published a new framework for the provision of front office services in civil courts.

The new framework consists of national minimum standards for front office service provision and operational guidance to local court managers. The framework does not affect court hearings or the future of particular court buildings.

The minimum standards ensure a coherent but flexible system for providing front office services across the county court network. They guarantee appropriate access to the full range of services currently only delivered through the medium of a full-time public court counter. It will allow local HMCS managers some flexibility, working with the judiciary, to provide services through other and more innovative channels that are tailored to the needs and expectations of the local community, as well as improving overall efficiency and service standards.

The national minimum standards set a level below which the provision of front office services must not fall and introduce safeguards to ensure that any alteration to current arrangements do not deny access to services nor create an additional burden for the public. An appropriate level of local consultation, including Members of Parliament, will be required for all significant alterations.

Copies have been placed in the Libraries of both Houses, the Vote Office and the Printed Paper Office. The framework document is also available on the Ministry of Justice website at: www.justice.gov.uk

WORK AND PENSIONS

Child Maintenance

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): As hon. Members are aware, the provisions of the Child Maintenance and Other Payments Act 2008 will enable the Child Maintenance and Enforcement Commission to introduce a range of new collection and enforcement tools in order to improve compliance.

These new powers include the ability to use a deduction from earnings order (DEO) as a basic method of collecting child maintenance. Up to now the Child Support Agency has used a DEO in circumstances where other suitable payment arrangements cannot be agreed or have broken down.

Compliance rates for DEOs are second only to those for direct debits and, as we made clear during the passage of the new legislation, the intention is for the Commission to pilot the use of DEOs as the primary method of collection for employed non-resident parents.

The design and timing of the pilot will need to be carefully planned so it cannot begin immediately. But the Commission is determined to improve compliance as soon as possible in order to get more money flowing to children. It is therefore intending to make use of the new power through regulations which will enable the Commission to implement an interim approach to the collection of child maintenance in order to increase compliance.

This will mean that non-resident parents who have not already agreed a method of paying their child maintenance will be offered the choice of either a direct debit or a deduction from earnings order—the payment methods with the best compliance rates. An alternative method of payment will only be used where the non-resident parent can not pay by direct debit and there is good reason for a deduction from earnings order not to be used. There will be a right of appeal to a Magistrates Court (or sheriff in Scotland) against a decision by the Commission that there is no good reason for a DEO not to be used.

The change, which the Commission plans to introduce by the end of this year, will not affect those non-resident parents who pay their maintenance direct to the parent with care or who have their child maintenance payments deducted from their benefit. And non-resident parents who have already agreed a payment method with the Commission before the change is introduced will be able to continue to pay by their chosen method.

Written Ministerial Statements

The following statements were received between Monday 15 September and Tuesday 16 September 2008

COMMUNITIES AND LOCAL GOVERNMENT

Planning

The Minister for Local Government (John Healey): I can confirm to the House that the Government will shortly commence the early recruitment and appointment of a chair and chief executive of the Infrastructure Planning Commission (IPC), before Royal Assent of the Planning Bill.

The IPC will act as the decision-maker for the majority of major infrastructure consents, acting within a national policy framework set by Government. Early appointments will give infrastructure developers the confidence to work on applications for development consent under the new regime, with the knowledge that the IPC will be operational and able to provide advice by the time the first national policy statements are designated, anticipated to be towards the end of 2009.

Parliamentary approval for additional resources of £50,000 for this new service will be sought in a supplementary estimate for CLG. Pending that approval, expenditure estimated at £50,000 will be met by a repayable cash advance from the Contingencies Fund, under the established terms of that fund.

Regional Spatial Strategy (North-West)

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Parmjit Dhanda): My right hon. Friend the Secretary of State for Communities and Local Government is publishing on 30 September the final revision of the "Regional Spatial Strategy (RSS) for the North-West of England". This is a slight amendment to the late August or early September date which my 17 July statement suggested, *Official Report*, column 42WS. The reports of a consolidated "Sustainability Appraisal, a Habitats Regulations Assessment and Sustainability" statement will also be published alongside the RSS on 30 September.

The "Regional Spatial Strategy" forms part of the statutory development plan for every local authority in the North-West, and sets the framework for the production of local development frameworks and local transport plans. It provides the spatial plan for the development of the region, and the policy framework for employment, housing, transport and the environment.

The current strategy, initially published as "Regional Planning Guidance", became the "Regional Spatial Strategy" in September 2004 with the enactment of the Planning and Compulsory Purchase Act. A draft revision of the "Regional Spatial Strategy" was submitted to Government in January 2006 by the North-West Regional Assembly. It was subsequently tested in an examination in public between November 2006 and February 2007, and the report of the independent panel which conducted this examination was published in May 2007. The Secretary of State considered the recommendations of this independent panel, and took into account the representations made on the draft revision, and also changes in Government policy since the draft revision was submitted, before publishing proposed changes for further public consultation between March and May 2008.

The consultation period ended on 23 May. In total 1,836 representations were received from 149 people and organisations. All of these representations have been considered, along with updates to the "Habitat Regulations Assessment and Sustainability Appraisal/ Strategic Environmental Assessment". As a result a number of amendments and clarifications have been made to various parts of the plan.

Copies of the relevant documents will be available from 30 September in the Libraries of both Houses.

DEFENCE

Iraq

The Secretary of State for Defence (Des Browne): The next roulement of UK forces in Iraq, known as Operation Telic 13, will take place from November. The Telic 13 force package will see the lead formation, currently 7 Armoured Brigade, replaced by 20 Armoured Brigade.

20 Armoured Brigade will take over the command of UK forces from early December and will provide the majority of the units serving in Iraq. The forces deploying include personnel from the following units:

20th Armoured Brigade Headquarters and Signal Squadron (200)
The Queen's Royal Hussars (The Queen's Own and Royal Irish)
35 Engineer Regiment
1st Battalion The Princess of Wales's Royal Regiment (Queen's and Royal Hampshires)
1st Battalion The Yorkshire Regiment (Prince of Wales's Own)
5th Battalion The Rifles
1 Logistic Support Regiment The Royal Logistic Corps
110 Provost Company Royal Military Police
606 Tactical Air Control Party
618 Tactical Air Control Party
Elements of 1st Royal Tank Regiment
Elements of 5th Regiment Royal Artillery
Elements of 16th Regiment Royal Artillery
Elements of 26th Regiment Royal Artillery
Elements of 32nd Regiment Royal Artillery
Elements of 47th Regiment Royal Artillery
Elements of 33 Engineer Regiment (Explosive Ordnance Disposal)
Elements of 42 Engineer Regiment (Geographical)
Elements of 170 (Infrastructure Support) Engineer Group
Elements of 2nd Signal Regiment
Elements of 10th Signal Regiment
Elements of 14th Signal Regiment (Electronic Warfare)
Elements of 21st Signal Regiment (Air Support)
Elements of 1 Regiment Army Air Corps
Elements of 9 Regiment Army Air Corps
Elements of 6 Supply Regiment The Royal Logistic Corps
Elements of 9 Supply Regiment The Royal Logistic Corps
Elements of 11 Explosive Ordnance Disposal Regiment The Royal Logistic Corps
Elements of 17 Port and Maritime Regiment The Royal Logistic Corps

Elements of 24 Postal Courier and Movement Regiment The Royal Logistic Corps

Elements of 27 Transport Regiment The Royal Logistic Corps

Elements of 29 Postal Courier and Movement Regiment The Royal Logistic Corps

Elements of 1 Close Support Medical Regiment

Elements of 22 Field Hospital

Elements of 3 Close-Support Battalion Royal Electrical and Mechanical Engineers

Elements of 101 Force Support Battalion Royal Electrical and Mechanical Engineers

Elements of 103 Military Working Dogs Support Unit

Elements of 1 Military Intelligence Brigade

Elements of 156 (North West) Transport Regiment The Royal Logistic Corps (Volunteer)

Elements of 148 Expeditionary Forces Squadron The Royal Logistic Corps (Volunteer)

Elements of 28 Squadron Royal Air Force

Elements of 78 Squadron Royal Air Force

Elements of Tactical Supply Wing

Elements of Joint Helicopter Support Unit

Members of the reserve forces will continue to deploy to Iraq as part of this force package, and we expect to issue around 175 call-out notices in order to fill some 150 posts during Telic 13. Prior to their deployment, and on completion of their mobilisation procedures, the reservists will undertake a period of training and integration with their respective units. For the majority, their deployment to theatre will commence in November and most will serve on operations for six to seven months, although some may have shorter tours. The reservists will predominantly reinforce regular units and will perform a wide range of activities including force protection duties, intelligence and logistic tasks. As part of this commitment, we expect up to 10 members of the sponsored reserves to be in the operational theatre at any one time.

HEALTH

Organ Donation

The Minister of State, Department of Health (Mr. Ben Bradshaw): The Government response to the House of Lords European Union Committee report on increasing the supply of donor organs within the European Union (Cm 7466) has today been laid before Parliament. The response is in the Library and copies are available to hon. Members from the Vote Office.

JUSTICE

Freedom of Information Act

The Minister of State, Ministry of Justice (Mr. Michael Wills): Tomorrow I will deposit copies of "The Freedom of Information Act 2000—Statistics on Implementation in Central Government: Q2—April to June 2008" in the Libraries of both Houses. Copies will also be available in the Vote Office and the Printed Paper Office.

This is the quarterly monitoring statistics report analysing the performance of central Government in the fourth full year of freedom of information.

Suicide Act

The Parliamentary Under-Secretary of State for Justice (Maria Eagle): There has been growing concern in recent years about whether current law is adequate to deal with misuse of the internet to promote suicide and suicide methods. The Government share the concerns that have been expressed about such misuse, in particular about suicide websites and the influence they may have over vulnerable people, especially young people.

In response to a question from my hon. Friend the Member for Bridgend (Mrs. Moon) on 11 March 2008, my right hon. Friend the Lord Chancellor and Secretary of State for Justice said that we were looking at this issue and would make an announcement as soon as possible, *Official Report*, column 141. The Government subsequently accepted in full the recommendations of the Byron review including that consideration should be given to whether the law in this area could usefully be clarified. This statement sets out our conclusions.

The law of suicide comprises two offences. The first is the offence under section 2 of the Suicide Act 1961 of aiding, abetting, counselling or procuring a suicide or a suicide attempt; and the second is an offence under section 1(1) of the Criminal Attempts Act 1981 of attempting to aid, abet, counsel or procure a suicide or a suicide attempt. Actions to assist or attempt to assist suicide can be carried out on or offline.

The complexity of the law in this area stems from the unusual nature of the offence in section 2 of the Suicide Act which provides accessory liability in respect of something that is not of itself criminal. We believe that the law as it stands is capable of catching the sort of material that is causing concern and, more generally, the encouragement of suicide through the medium of the internet. But in practice the application of the law, particularly in terms of what constitutes an attempt to commit the section 2 offence is complicated. It is difficult both to understand and to explain.

Accordingly, we have concluded that the scope of the current law should not be extended but that the existing statutory language of section 2 of the Suicide Act should be simplified and modernised in a way that will make it clearer for everyone to understand. Simplifying and modernising the language of the law should provide reassurance that the law is capable of reflecting the new ways of communicating and accessing information. This approach also builds on a recommendation from the Law Commission that there is a strong case for updating the language of section 2.

We therefore intend to legislate to update the Suicide Act as soon as parliamentary time allows. And with the support of my hon. Friend the Member for Wythenshawe and Sale, East (Paul Goggins), Minister of State at the Northern Ireland Office and the Minister for Health, Social Services and Public Safety in the Northern Ireland Executive (Michael McGimpsey), the legislation will also include Northern Ireland. The updated legislation will comply, as does the existing law, with the requirements of the Electronic Commerce (EC Directive) Regulations 2002.

TRANSPORT

Official Receptions

The Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick): I have today published a list of receptions hosted by Department Transport Ministers in the 2007-08 financial year.

The total cost of receptions held for the financial year 2007-08 was £408.10.

Official Receptions Hosted by Ministers at the Department for Transport

OBSERVATIONS

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Post Office Closures (Cumbria)

The Petition of supporters of Hayton Post Office in Penrith and the Border constituency,

Declares that Post Offices are a vital part of the social fabric of the local community and must be preserved; notes that the Government is continually reducing Post Office business which should and could continue to be done by Post Offices thus keeping them viable. The Petitioners believe that mobile Post Offices cannot be a substitute for the village shop/Post Office which is often the hub of social and community life and the centre of informal networking which binds a village together.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Business, Enterprise and Regulatory Reform to instruct Post Office Ltd to retain Hayton Post Office.

And the Petitioners remain, etc.—*[Presented by David Maclean, Official Report, Tuesday 20 May 2008; Vol. 467, c. 291 .]* [P000197]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network, allowing people to have reasonable access across the whole country, and why it has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office, as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network, the Government announced, in May 2007, confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of a £150 million Social Network Payment to support the post office network up to this time. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services (such as pubs, village halls, churches and mobile post offices), will mitigate closures (primarily in smaller and more remote communities). Post Office Limited (POL) announced on 9 April that it will extend Outreach trials into urban areas which, if successful, could mean additional Outreach branches over and above the 500 originally planned. Nevertheless, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

POL is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of Parliamentary constituencies. The first area plans went out to local consultation on 2 October last year and these plans will continue to be rolled out at regular intervals until August, with the whole programme scheduled to take around 15 months to complete. The consultation period for Cumbria, which includes the Penrith and Border constituency, has finished. POL has published its Area Plan Decision Booklet available on its website at: www.postoffice.co.uk/networkchange.

Having considered all representations and the criteria for the network change programme, POL has confirmed that Hayton Post Office is to close.

POL develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch. It takes into account the numeric access criteria set out by Government, as well as local factors affecting ease of access, such as local geography (rivers, mountains etc), when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The Government does not have a role in proposals or decisions for individual post offices. No decisions on individual Post Offices are taken until after local consultations. Those decisions are made by POL, in light of the responses to the consultation, while subject to a four-stage appeals process involving Postwatch. The Review Process for closure decisions after the public consultation process applies where Postwatch shows that, for an individual branch:

> POL has not given due consideration to material evidence received during the public consultation in coming to its decision or;
>
> evidence emerges from the consultation that the proposal for the branch does not meet the Government's policy requirements.

The aim of the further review process is for POL and Postwatch to reach an agreed way forward by bilateral review, with 3 stages available at increasing levels of seniority. An addition to the review process in November provided for very difficult cases which remain unresolved after stage 3. At this stage, the Chairman of the Royal Mail Group will review the issues and reach a final decision.

HEALTH

Nurses' Training (Funding)

The Humble Petition of Mrs R Downey editor of Nursing Times magazine and others of like disposition,

Sheweth

That since 2005-06 Strategic Health Authorities (SHAs) have diverted more than £5000 million away from Multi-Professional Education and Training (MPET) budgets to pay for other services and plug financial deficits. Both mandatory and non-mandatory post-registration nurse training have been severely reduced across the country as a result. The situation continues, putting nurses' career progression and patient safety at risk.

The Nursing Times' Time Out For Training campaign urges the Prime Minister to ring-fence post-registration nurse training funds to stop SHAs spending the money elsewhere.

Wherefore your Petitioners pray that your Honourable House urges the Secretary of State for Health to ring-fence Multi-Professional Education and Training (MPET) funding given to Strategic Health Authorities which is used in part to provide nurse training, and to support the Nursing Times' Time Out For Training campaign.

And your Petitioners, as in duty bound, will ever pray, &c.—*[Presented by Dr. Howard Stoate, Official Report,* 25 June 2008; Vol. 478, c. 464.] [P000222]

Observations from the Secretary of State for Health:

The role of the Department of Health is to focus on outputs and accountability rather than on ensuring a fixed amount of money is spent for a particular purpose regardless of local authorities.

Although the Multi-Professional Education and Training budget is not ring-fenced, a service level agreement is issued with the allocations to ensure that Strategic Health Authorities are held to account for training support for healthcare students and the NHS workforce. In the longer-term ring-fencing is inefficient and has been ineffective in the past.

Petitions

Tuesday 15 July 2008

OBSERVATIONS

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Post Office Closures (Acton)

The Petition of People of Acton,

Declares that we the undersigned strongly object to the planned closure of our local Post Office

The Petitioners therefore request that the House of Commons urges the Secretary of State for Business, Enterprise and Regulatory Reform to ask Post Office Limited to reconsider their plans to force the Petitioners to use the inadequate facilities in the Main Post Office on King Street, W3

And the Petitioners remain, etc.—*[Presented by Mr. Andy Slaughter, Official Report,* 29 April 2008; Vol. 475, c. 276 .] [P000185]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network, allowing people to have reasonable access across the whole country, and why it has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office, as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network, the Government announced, in May 2007, confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of a £150 million Social Network Payment to support the post office network up to this time. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services (such as pubs, village halls, churches and mobile post offices), will mitigate closures, primarily in smaller and more remote communities. Post Office Limited (POL) announced on 9 April that it will extend Outreach trials into urban areas which, if successful, could mean additional Outreach branches over and above the 500 originally planned. Nevertheless, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

POL is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of Parliamentary constituencies. The first area plans went out to local consultation on 2 October last year, and these plans will continue to be rolled out at regular intervals until August, with the whole programme scheduled to take around 15 months to complete. The consultation period for London has finished and POL has published its Area Plan Decision Booklet on its website, confirming the closure of the Churchfield Road Post Office branch in W3. The Bollo Bridge Road branch has been submitted for further review. Details of the closures and further review are available on the POL website at www.postoffice.co.uk/networkchange.

POL develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch. It takes into account the numeric access criteria set out by Government, as well as local factors affecting ease of access, such as local geography (rivers, mountains etc), when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The Government does not have a role in proposals or decisions for individual post offices. No decisions on individual Post Offices are taken until after local consultations. Those decisions are made by POL in light of the responses to the consultation, while subject to a four-stage appeals process involving Postwatch. The Review Process for closure decisions after public consultation process applies where Postwatch shows that, for an individual branch:

> POL has not given due consideration to material evidence received during the public consultation in coming to its decision; or
>
> evidence emerges from the consultation that the proposal for the branch does not meet the Government's policy requirements.

The aim of the further review process is for POL and Postwatch to reach an agreed way forward by bilateral review, with 3 stages available at increasing levels of seniority. An addition to the review process last November provides for very difficult cases which remain unresolved after stage 3. At this final stage, the Chairman of the Royal Mail Group will review the issues and reach a final decision.

Post Office Closures (East Londonderry)

The Petition of those concerned about the proposed closures of the Sub Post Offices, in the East Londonderry Constituency,

Declares that the importance of these Post Offices to the local community

The Petitioners therefore request that the House of Commons urges the Secretary of State for Business, Enterprise and Regulatory Reform to instruct Post Office Ltd. to keep these Post Offices open

And the Petitioners remain, etc.—*[Presented by Mr. Gregory Campbell, Official Report,* 22 April 2008; Vol. 474, c. 1285 .] [P000174]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network, allowing people to have reasonable access across the whole country, and why it has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for

example, paid for a computer link-up for every post office, as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network, the Government announced, in May 2007, confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of a £150 million Social Network Payment to support the post office network up to 2011. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services (such as pubs, village halls, churches and mobile post offices), will mitigate closures, primarily in smaller and more remote communities. Post Office Limited (POL) announced on 9 April that it will extend Outreach trials into urban areas which, if successful, could mean additional Outreach branches over and above the 500 originally planned. Nevertheless, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

POL is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of parliamentary constituencies. The first area plans went out to local consultation on 2 October last year and these plans will continue to be rolled out at regular intervals until August, with the whole programme scheduled to take around 15 months to complete. The consultation period for Northern Ireland, including the East Londonderry constituency,has finished and POL has published its Area Plan Decision Booklets on its website.

Having considered all representations and the criteria for the network change programme, POL has confirmed the closure of the Bolea, Cloyfin, Drumraighland and Milburn Post Office branches in East Londonderry.

POL develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch. It takes into account the numeric access criteria set out by Government, as well as local factors affecting ease of access (such as local geography), when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The Government does not have a role in proposals or decisions for individual post offices. No decisions on individual Post Offices are taken until after local consultations. Those decisions are made by POL in light of the responses to the consultation, while subject to a four-stage appeals process involving Postwatch. The Review Process for closure decisions after public consultation process applies where Postwatch shows that, for an individual branch:

> POL has not given due consideration to material evidence received during the public consultation in coming to its decision; or
>
> evidence emerges from the consultation that the proposal for the branch does not meet the Government's policy requirements.

The aim of the further review process is for POL and Postwatch to reach an agreed way forward by bilateral review, with 3 stages available at increasing levels of seniority. An addition to the review process last November provides for very difficult cases which remain unresolved after stage 3. At this final stage, the Chairman of Royal Mail Group will review the issues and reach a final decision.

Post Office Closures (Staffordshire)

The Petition of residents of the village of Great Bridgeford in the Parish of Seighford and surrounding areas in the County of Stafford against the closure of their rural Post Office,

Declares that the supporters recognise the importance of the Post Office and shop to their community, which they depend on as the only retail outlet in the village of Great Bridgeford and oppose the current closure plan.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Business, Enterprise and Regulatory Reform to instruct Post Office Ltd. to keep Great Bridgeford Post Office open.

And the Petitioners remain, etc.—*[Presented by Mr. David Kidney, Official Report,* 17 June 2008; Vol. 477, c. 917 .] [P000214]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network, allowing people to have reasonable access across the whole country, and why it has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office, as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network, the Government announced, in May 2007, confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of a £150 million Social Network Payment to support the post office network up to this time. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services (such as pubs, village halls, churches and mobile post offices), will mitigate closures. Primarily in smaller and more remote communities. Post Office Limited (POL) announced on 9 April that it will extend Outreach trials into urban areas which, if successful, could mean additional Outreach branches over and above the 500 originally planned. Nevertheless, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

POL is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of Parliamentary constituencies. The first area plans went out to local consultation on 2 October last year and these plans will continue to be rolled out at regular intervals until August, with the whole programme scheduled to take around 15 months to complete. The consultation period for Shropshire and Staffordshire, including the Stafford constituency, finished on 9 June. Having considered all representations and the criteria for the network change programme, POL have confirmed that Great Bridgeford

Post Office is to close. Details of the closures and any further reviews will be available on the POL website at www.postoffice.co.uk/networkchange.

POL develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch. It takes into account the numeric access criteria set out by Government, as well as local factors affecting ease of access, such as local geography, when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The Government does not have a role in proposals or decisions for individual post offices. No decisions on individual Post Offices are taken until after local consultations. Those decisions are made by POL in light of the responses to the consultation, while subject to a four-stage appeals process involving Postwatch. The Review Process for closure decisions after public consultation process applies where Postwatch shows that, for an individual branch:

> POL has not given due consideration to material evidence received during the public consultation in coming to its decision; or
>
> evidence emerges from the consultation that the proposal for the branch does not meet the Government's policy requirements.

The aim of the further review process is for POL and Postwatch to reach an agreed way forward by bilateral review, with 3 stages available at increasing levels of seniority. An addition to the review process last November provides for very difficult cases which remain unresolved after stage 3. At this final stage, the Chairman of the Royal Mail Group will review the issues and reach a final decision.

CULTURE, MEDIA AND SPORT

Facebook (Cornwall)

The Petition of residents of Cornwall,

Declares that Cornwall should have its own Network Region on Facebook. Cornwall possesses one of the world's oldest natural borders, its own language and flag, and a population of 500,000 people. We therefore believe that the owners of Facebook should now recognise this by introducing the Cornwall Network region.

The Petitioner therefore requests that the House of Commons urges the Secretary of State for of Culture, Media and Sport to put pressure on the owners of Facebook to grant Cornwall network region status.

And the Petitioners remain, etc.,—*[Presented by Julia Goldsworthy, Official Report,* 14 May 2008; Vol. 1510, c. 475 .] [P000193]

Observations from the Secretary of State for Culture, Media and Sport:

The Government recognise the proud cultural heritage of Cornwall, and notes the desire amongst a number of its inhabitants for the creation of a network region for Cornwall on Facebook.

Facebook is a private company, which describes itself as a social utility that helps people communicate more efficiently with their friends, family and colleagues. The company claims to develop technologies that facilitate the sharing of information through online mapping of people's real-world social connections. It is responsible for the creation and maintenance of all Facebook networks.

As such, the creation of Cornwall as a regional network is a matter for Facebook, not for Government.

OBSERVATIONS

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Post Office Closures (Leeds)

The Petition of those opposed to the closure of Far Headingley, Bramhope and Newall Post Offices.

Declares that Far Headingley, Bramhope and Newall Post Offices are a vital resource, highly valued by the local community.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Business, Enterprise and Regulatory reform to instruct Post Office Ltd. to ensure that Far Headingley, Bramhope and Newall Post Offices remains open.

And the Petitioners remain, etc—*[Presented by Greg Mulholland, Official Report,* 24 June 2008; Vol. 478, c. 260 .] [P000220]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network, allowing people to have reasonable access across the whole country, and why it has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office, as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network, the Government announced, in May 2007, confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of a £150 million Social Network Payment to support the post office network up to this time. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services (such as pubs, village halls, churches and mobile post offices), will mitigate closures (primarily in smaller and more remote communities). Post Office Limited (POL) announced on 9 April that it will extend Outreach trials into urban areas which, if successful, could mean additional Outreach branches over and above the 500 originally planned. Nevertheless, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

POL is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of Parliamentary constituencies. The first area plans went out to local consultation on 2 October last year and these plans will continue to be rolled out at regular intervals until August, with the whole programme scheduled to take around 15 months to complete. The consultation period for West Yorkshire, including the Leeds North West constituency, finished on 23 June and POL will publish its Area Plan Decision Booklet on its website in due course. Details of the closures and any further reviews will be available on the POL website at:

www.postoffice.co.uk/networkchange

POL develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch. It takes into account the numeric access criteria set out by Government, as well as local factors affecting ease of access (such as local geography), when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy.

Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The Government does not have a role in proposals or decisions for individual post offices. No decisions on individual Post Offices are taken until after local consultations. Those decisions are made by POL in light of the responses to the consultation, while subject to a four-stage appeals process involving Postwatch. The Review Process for closure decisions after the public consultation process applies where Postwatch shows that, for an individual branch:

> POL has not given due consideration to material evidence received during the public consultation in coming to its decision or;
>
> evidence emerges from the consultation that the proposal for the branch does not meet the Government's policy requirements.

The aim of the further review process is for POL and Postwatch to reach an agreed way forward by bilateral review, with 3 stages available at increasing levels of seniority. Last November there was an addition to the review process. This provides for very difficult cases which remain unresolved after stage 3. At this final stage, the Chairman of the Royal Mail Group will review the issues and reach a final decision.

Post Office Closures (Maidenhead)

The Petition of those concerned about Post Office closures in the Maidenhead constituency.

Declares that the closure of the Post Office in Cookham Road would be an unacceptable loss to the local community and pose serious difficulties for all the local people who rely on it.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Business Enterprise and Regulatory Reform, to instruct the Post Office Ltd to keep open Cookham Road Post Office and to listen to the views of the local people in respect of their objection to the closure of this vital part of the local community.

And the Petitioners remain, etc.—*[Presented by Mrs. Theresa May, Official Report,* 6 March 2008; Vol. 472, c. 2021 .] [P000142]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network, allowing people to have reasonable access across the whole country, and why it has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office, as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network, the Government announced, in May 2007, confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of a £150 million Social Network Payment to support the post office network up to this time. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services (such as pubs, village halls, churches and mobile post offices), will mitigate closures (primarily in smaller and more remote communities). Post Office Limited (POL) announced on 9 April that it will extend Outreach trials into urban areas which, if successful, could mean additional Outreach branches over and above the 500 originally planned. Nevertheless, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

POL is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of Parliamentary constituencies. The first area plans went out to local consultation on 2 October last year, and these plans will continue to be rolled out at regular intervals until August, with the whole programme scheduled to take around 15 months to complete. The consultation period for Surrey, Berks and West Sussex finished on 3 March, and POL has published its Area Plan Decision Booklet on its website. Having considered all representations and the criteria for the network change programme, POL has confirmed that the Cookham Road branch has now closed. Details of the closures and any further reviews will be available on the POL website at: www.postoffice.co.uk/networkchange

POL develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch. It takes into account the numeric access criteria set out by Government, as well as local factors affecting ease of access(such as local geography), when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The Government does not have a role in proposals or decisions for individual post offices. No decisions on individual Post Offices are taken until after local consultations. PRESENTED PETITION

Petition presented to the House but not read on the Floor

Post Office Closures (Cheshire)

The Petition of Mrs Shelagh Beswick, Manager, Wincham Post Office, Mr Alastair Carmichael, Sub Post Master, Barnton Post Office, and others of like disposition,

Declares that they and others care deeply about their local Post Office, where they wish to be able to continue to use their Post Office Card Account, as they are unable to easily visit the bank in their nearest town.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Business, Enterprise and Regulatory Reform to ensure that POCA2 remains a Post Office product.

And the Petitioners remain, etc.—*[Presented by Mr. George Osborne.]*

[P000248]

OBSERVATIONS

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Post Office Closures (Shepherd's Bush)

The Petition of the people of Shepherd's Bush and Hammersmith,

Declares that we cannot afford to lose four Post Office branches.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Business, Enterprise and Regulatory Reform to ask Post Office Limited to reconsider their plans to close so many branches in our area

And the Petitioners remain, etc.—*[Presented by Mr. Andy Slaughter, Official Report, Tuesday 29 April 2008; Vol. 475, c. 276.]*

[P000184]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network, allowing people to have reasonable access across the whole country, and why it has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office, as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network, the Government announced, in May 2007, confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of a £150 million Social Network Payment to support the post office network up to this time. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services (such as pubs, village halls, churches and mobile post offices), will mitigate closures (primarily in smaller and more remote communities). Post Office Limited (POL) announced on 9 April that it will extend Outreach trials into urban areas which, if successful, could mean additional Outreach branches over and above the 500 originally planned. Nevertheless, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

POL is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of Parliamentary constituencies. The first area plans went out to local consultation on 2 October last year and these plans will continue to be rolled out at regular intervals until August, with the whole programme scheduled to take around 15 months to complete.

The consultation period for London has finished, and POL has published its Area Plan Decision Booklet on its website, confirming the closure of Askew Road and Goldhawk Road post offices. In addition, POL has also confirmed the closure of the Boileau Parade, Haven Green, Churchfield Road and Fulham Road branches within this constituency. Details of the closures are available on the POL website at: www.postoffice.co.uk/networkchange

POL develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch. It takes into account the numeric access criteria set out by Government, as well as local factors affecting ease of access (such as local geography), when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The Government does not have a role in proposals or decisions for individual post offices. No decisions on individual Post Offices are taken until after local consultations. Those decisions are made by POL in light of the responses to the consultation, while subject to a four-stage appeals process involving Postwatch. For closure decisions after the public consultation process, the Review Process applies when Postwatch shows that, for an individual branch:

> POL has not given due consideration to material evidence received during the public consultation in coming to its decision or;
>
> evidence emerges from the consultation that the proposal for the branch does not meet the Government's policy requirements.

The aim of the further review process is for POL and Postwatch to reach an agreed way forward by bilateral review, with 3 stages available at increasing levels of seniority. An addition to the review process last November provides for very difficult cases which remain unresolved after stage 3. At this final stage, the Chairman of Royal Mail Group will review the issues and reach a final decision.

Post Office Restructuring (Coventry)

The Petition of the Communication Workers Union, Coventry Area Branch,

Declares that they do not agree with the franchise of Hertford Street Crown Post Office in Coventry City Centre. They do not want WH Smith, or any other private company, running this public service, we believe that the Crown Post Office at Hertford Street Coventry should continue to be provided by Post Office Ltd. and should remain at its current location.

The Petitioners therefore request that the House of Commons urges the Government and Post Office Ltd. to withdraw its franchise plans for Hertford Street Crown Post Office.

And the Petitioners remain, etc.—*[Presented by Mr. Jim Cunningham, Official Report,* 18 December 2007; Vol. 823, c. 469 .] [P000095]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The future viability of directly managed offices, otherwise known as 'Crown Offices', needs to be addressed in the wider interests of the network as a whole, in view of the major changes and challenges it faces. Post Office Limited's (POL) current policy, which has the Government's support, is to maintain a core network of directly managed offices, whilst continuing to drive efficiencies in an effort to reduce costs and return the business to profitability.

This strategy includes, as recommended in the Performance and Innovation Unit Report on the future of the post office network (a copy of which can be found at: www.berr.gov.uk), the conversion of individual, directly managed offices to franchise or agency status, where suitable opportunities arise. The commercial agreement between POL and WH Smith allows for the franchising of around 70 Crown post offices, which will involve WH Smith introducing a Post Office operation into more of its stores, as it has already done in other parts of the country.

Crown post offices are those that are directly staffed and managed by Post Office Ltd and are around 380 from a network of 13,000 branches—the rest (97%) are 'sub-post offices' operated under contract by agents and franchise chains. The network has always relied on private business for the majority of its outlets. Losses in the Crown post offices have been running at around £70m per year and clearly action has to be taken to reduce these losses. Franchising helps maintain services which could be under threat, due to the large scale of the losses in the Crown network. These losses represent money that could be better used for the benefit of customers and it is absolutely right that POL look to find more cost effective ways of providing the main Post Office service to customers.

Operational matters are, of course, the direct responsibility of POL management, though it is not POL's intention to downgrade any of the branches under its franchise agreements. The franchising will simply mean that the business will be run by another company on its behalf, albeit at a new location nearby. Customers will continue to have access to the same level of Post Office services as they do now. Research has shown that post offices that have run in partnership with franchise partners have proved to be very popular with customers, who very often find that service is actually enhanced, due to new premises, longer opening hours and wider retail offerings. Experience also shows that this allows the Post Office and retail sides of the business to complement each other, increasing footfall and improving financial viability.

Hertford Street Crown Post Office branch was converted on 15 May 2008 and relocated to a nearby WH Smith store.

TREASURY

HMRC Workforce Change

The Petition of local businesses of Hove & Portslade, the PCS and others,

Declares the Petitioners serious concerns about the HMRC's Workforce Change proposals which will close twenty-five offices, including Hove, and lead to a reduction in staff by 2300 across the South-East. The Petitioners further declare that the proposed changes in the HMRC are aimed at generating financial savings and do not take into account the quality of service delivery and the adverse impact both on staff and on customers.

The Petitioners therefore request that the House of Commons urges HM Treasury to prevent the planned closure.

And the Petitioners remain, etc.—*[Presented by Ms Celia Barlow, Official Report, Wednesday 25 June 2008; Vol. 478, c. 7P .]* [P000188]

Observations from the Chancellor of the Exchequer, Treasury:

The Government note the petition, and makes the following observations:

"The Government notes that similar representations were made during the consultation exercise that HM Revenue & Customs held with staff, unions and key external stakeholders including local authorities, on its initial proposals for restructuring its operations in Cluster 42, which includes Brighton, Hove, Lewes, Newhaven and Worthing. All representations were taken into account before final decisions were made on the future of Hove and the other offices under review. Decisions will be announced today. HMRC will continue to maintain a local face to face advice service to customers by retaining Enquiry centre services at or near their current locations".

The Petition of employees of HM Revenue and Customs, the Public and Commercial Services Union and others,

Declares that they are seriously concerned about the future of the HM Revenue and Customs (HMRC) office in Kendal, and also similar threats facing their colleagues in Lancaster and Barrow. The proposal to close these offices will mean that local people and businesses will be left without access to these services. They are also concerned about the likelihood of staff affected by the closures being able to find alternative work within the local area. They further declare their support for the PCS campaign to keep these offices open.

The Petitioners therefore request that the House of Commons urges the HM Treasury to withdraw the threat of closure to local HMRC offices.

And the Petitioners remain, etc.—*[Presented by Tim Farron, Official Report,* 1 July 2008; Vol. 478, c. 835 .] [P000223]

Observations from the Chancellor of the Exchequer, Treasury:

The Government note the petition, and make the following observations:

"The Government notes that HMRC published on 11 June 2008 its proposals for restructuring its operations in cluster and individual locations in the North West, which include Kendal, Lancaster and Barrow-in-Furness. All representations will be taken into account before final decisions are made later this year on the future of Kendal, Lancaster, Barrow-in-Furness and the other offices under review. HMRC will continue to maintain a local face to face advice service to customers by retaining Enquiry centre services at or near their current locations".

The Petition of people of South Holland,

Declares that large parts of their public services are being cut and privatised and that across the UK public servants are struggling to deliver good quality service in the midst of redundancies, low pay and rising workloads. Further declares that the HMRC Office in Spalding is vital to helping those that are self employed, employed, families on tax credits, pensioners and unemployed persons.

The Petitioners therefore request that the House of Commons urges HM Treasury to work to ensure that the HMRC Office in Spalding remains open.

And the Petitioners remain, etc.—*[Presented by Mr. John Hayes, Official Report,* 9 July 2008; Vol. 478, c. 1513 .]

[P000232]

Observations from the Chancellor of the Exchequer, Treasury:

The Government note the petition, and make the following observations:

"The Government notes that similar representations were made during the consultation exercise that HM Revenue & Customs held with staff, unions and key external stakeholders including local authorities, on its initial proposals for restructuring its operations in Cluster 15, which includes Boston and Spalding. All representations were taken into account before final decisions were made on the future of Spalding and the other offices under review. Decisions will be announced today. HMRC will continue to maintain a local face to face advice service to customers by retaining Enquiry centre services at or near their current locations".

Petitions

Monday 21 July 2008

PRESENTED PETITION

Petition presented to the House but not read on the Floor

NHS GP Surgeries

The Petition of supporters of NHS General Practice surgeries,

Declares that in the 60th year of the NHS the House of Commons should support existing NHS GP surgeries, improve services to patients by further investment in existing GP surgeries and be aware of the risks posed by Government plans to promote the use of commercial companies in general practice. Further declares that they do not want public funding to move from GP practices to commercial companies who are accountable primarily to shareholders rather than patients, and declares that they wish to be treated by GPs who see them as patients, rather than as customers.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Health to continue support for existing GP surgeries, improve services to patients by further investment in existing GP surgeries, and to halt its plans to promote the use of commercial companies in general practice because this risks destabilising local surgeries and threatens the comprehensive, high quality care currently received from GPs.

And the Petitioners remain, etc.—*[Presented by Mr. Philip Dunne.]* [P000258]

OBSERVATIONS

HEALTH

Smoking Ban

The Petition of those against the current laws on smoking tobacco,

Declares that the current ban on smoking in public places leaves smokers exposed to the elements of the British winter. Current laws force people to go outside when they smoke, potentially enduring harsh conditions such as rain, snow and extreme cold. The laws should be assessed so that certain venues, such as bars and pubs, are not subject to the same bans as other types of public places such as shops and restaurants. It is unfair to treat bars and pubs the same as other public places when it comes to smoking, as smoking tobacco is something people traditionally do in bars and pubs.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Health to allow for up to a twenty percent provision for smoking in pubs and bars that does not leave smokers exposed to the elements of the British winter.

And the Petitioners remain, etc.—*[Presented by Daniel Kawczynski, Official Report,* 8 July 2008; Vol. 478, c. 1380.] [P000230]

Observations from the Secretary of State for Health:

The new smokefree law in England was introduced to protect employees and the public from the harmful effects of secondhand smoke. Bars, pubs and clubs have employees and customers who have a right to be protected from secondhand smoke in the same way that employees and customers in other hospitality settings. In practice, all are protected equally by the smokefree law.

During consideration of the Health Bill in 2006, both Houses of Parliament decided by a very significant majority across all parties, on a free vote, to include both licensed premises and members' clubs within the new law. They gave very careful consideration to the inclusion of all hospitality premises at that time. Parliament decided that all bars, pubs and clubs should be covered by the smokefree law. In commercial terms, the new law created a level playing field within the hospitality sector, which was seen to be the fairest solution whilst also protecting workers and the wider public from the harmful effects of secondhand smoke.

Parliament also gave consideration to exposure to the elements of a British winter for those who go outside and smoke. Smoking or exposure to the harmful effects of secondhand tobacco smoke was considered a greater danger to public health than requiring those who wish to smoke to do so outdoors. It is generally recognised that winters in this country are much less harsh than in other countries such as Canada and Norway where comprehensive smokefree laws had been successfully enacted before the law in England.

The evidence of the success of the smokefree law is published in the report Smokefree England - One Year On published on 1st July 2008. This shows that the vast majority of people (76 per cent.) support the law and even a majority of smokers support it (55 per cent).

A copy of the report can be found on the following website: www.smokefreeengland.co.uk

TREASURY

HMRC Workforce Change

The Petition of employees of HM Revenue and Customs, the Public and Commercial Services Union and others,

Declares that they are seriously concerned about the future of the HM Revenue and Customs (HMRC) office in Crewe, and also similar threats facing their colleagues elsewhere in the North West of England. The proposal to close this office will mean that local people and businesses will be left without access to these services. They are also concerned about the likelihood of staff affected by the closures being able to find alternative work within the local area, it being unreasonable for them to travel to alternative HMRC sites by public transport for reasons of cost, time and care for their families. They further declare their support for the PCS campaign to keep these offices open.

The Petitioners therefore request that the House of Commons urges HM Government to withdraw the threat of closure to the Crewe HMRC office.

And the Petitioners remain, etc.—*[Presented by Mr. Edward Timpson, Official Report,* 15 July 2008; Vol. 479, c. 213.] [P000231]

Observations from the Chancellor of the Exchequer, Treasury:

The Government notes the petition, and makes the following observations:

"The Government note that HMRC published on 11 June its proposals for restructuring its operations in cluster and individual locations in the North West, which includes Crewe. All representations will be taken into account before final decisions are made later this year on the future of Crewe and the other offices under review. HMRC will continue to maintain a local face to face advice service to customers by retaining enquiry centre services at or near their current locations".

Petitions

Tuesday 22 July 2008

PRESENTED PETITITIONS

Petitions presented to the House but not read on the Floor

Hospital Closures (Cornwall)

The Petition of the People of West Cornwall and the Isles of Scilly

Declares that our support for the cross-party (and non-party political) campaign to:

oppose any plans to reduce or close hospital services at St Michael's or Penzance; express our dismay that NHS money is being used to build up and support private hospitals while the Trust is contemplating the closure of the excellent St Michael's Hospital; object to the waste of money on administrative gimmicks rather than frontline public services; demand an Independent Review of hospital services and for fair funding; support an increase in emergency as well as acute and diagnostic services in the West of Cornwall.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Health to ensure the maintenance of hospital services at St Michael's or Penzance, two of west Cornwall's most crucial public services.

And the Petitioners remain, etc.—*[Presented by Ardrew George.]*

[P000250]

Post Office Closures (Buckinghamshire)

The Petition of those concerned about the proposed closure of Hazelmere Post Office,

Declares the importance of this Post Office to the local community

The Petitioners therefore request that the House of Commons urges the Secretary of State for Business, Enterprise and Regulatory Reform to instruct Post Office Ltd. to keep Hazelmere Post Office open.

And the Petitioners remain, etc.—*[Presented by Mrs. Cheryl Gillan.]*

[P000262]

The Petition of those concerned about the proposed closure of Waterside Post Office,

Declares the importance of this Post Office to the local community.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Business, Enterprise and Regulatory Reform to instruct Post Office Ltd. to keep Waterside Post Office open.

And the Petitioners remain, etc.—*[Presented by Mrs. Cheryl Gillan.]*

[P000263]

The Petition of those concerned about the proposed closure of Botley Stores Post Office,

Declares the importance of this Post Office to the local community

The Petitioners therefore request that the House of Commons urges the Secretary of State for Business, Enterprise and Regulatory Reform to instruct Post Office Ltd. to keep Botley Stores Post Office open

And the Petitioners remain, etc.—*[Presented by Mrs. Cheryl Gillan.]*

[P000264]

The Petition of those concerned about the proposed closure of Chalfont Common Post Office,

Declares the importance of this Post Office to the local community

The Petitioners therefore request that the House of Commons urges the Secretary of State for Business, Enterprise and Regulatory Reform to instruct Post Office Ltd. to keep Chalfont Common Post Office open.

And the Petitioners remain, etc.—*[Presented by Mrs. Cheryl Gillan.]*

[P000265]

The Petition of those concerned about the proposed closure of Old Amersham Post Office,

Declares the importance of this Post Office to the local community.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Business, Enterprise and Regulatory Reform to instruct Post Office Ltd. to keep Old Amersham Post Office open

And the Petitioners remain, etc.—*[Presented by Mrs. Cheryl Gillan.]*

[P000261]

Post Office Closures (Merseyside)

The Petition of Birkenhead consitituents opposed to Post Office closure,

Declares that Holt Hill Post Office should remain open.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Business and Enterprise to keep Holt Hill Post Office open, as losing a local Post Office will be a detrimental loss when no other alternative is presented.

And the Petitioners remain, etc.—*[Presented by Mr. Frank Field.]*

[P000266]

Queen Elizabeth Resource Centre (Dartford)

The Petition of the Bridge Court Action Group at the Queen Elizabeth Foundation Resource Centre in Dartford

Declares that the Queen Elizabeth Resource Centre in Dartford gives disabled people a chance to develop their skills for IT, Health and Fitness, Sports, Sign Language plus other skills, to aid disabled people get back to independent living.

The Petitioners therefore request that the House of Commons urge the Secretary of State for Health to support the Bridge Court Action Group in its efforts to keep the resource centre open.

And the Petitioners remain, etc.—*[Presented by Dr. Howard Stoate.]*

[P000260]

Driving Test Centre (Spalding)

The Petition of the people of South Holland and the Deepings and others,

Declares that due to the closure of Spalding Driving test Centre the cost of learning to drive will increase for the residents of South Holland, as they will be forced to travel to Peterborough. This will further increase the CO_2 emissions and the carbon footprint as a result of the extra miles travelled.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Transport to reverse the closure of Spalding Driving Test Centre.

And the Petitioners remain, etc.—*[Presented by Mr. John Hayes.]* [P000259]

OBSERVATIONS

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Post Office Closures (Oxfordshire)

The Petition of the residents of Neithrop,

Declares that the Petitioners are extremely concerned about the threat to close Orchard Way sub-Post Office.

Further declares that this Post Office is at the heart of this community. It offers a vital service to some of the most vulnerable people, including those on low wages, unemployed and the elderly.

Further declares that the Government has persistently undermined our Post Office network over a number of years. Ministers have prevented the Post Office competing in the market by penalising them and instead playing to the High Street bank network, by seeking to withdraw the Post Office Card Account, and by preventing Post Offices selling TV Licences and other products to keep them competitive.

Further declares that the Federation of Small Business has said that small business will also be adversely affected by Post Office closures and that the Federation of Sub-Post Masters and Mistresses, which presented the largest ever petition in support of Post Offices, has said the closures will devastate communities.

The Petitioners therefore request that the House of Commons urges the Government to stop action which will lead to the immediate closures of Post Offices and urgently review funding for Post Offices and the services offered by them to enable Post Offices to continue to serve as a cornerstone of the community for individuals, business and the most vulnerable in society.

And the Petitioners remain, etc.—*[Presented by Tony Baldry, Official Report,* 4 March 2008; Vol. 472, c. 1716 .] [P000128]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network, allowing people to have reasonable access across the whole country, and why it has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office, as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network, the Government announced, in May 2007, confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of a £150 million Social Network Payment to support the post office network up to this time. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services (such as pubs, village halls, churches and mobile post offices), will mitigate closures, primarily in smaller and more remote communities. Post Office Limited (POL) announced on 9 April that it will extend Outreach trials into urban areas which, if successful, could mean additional Outreach branches over and above the 500 originally planned. Nevertheless, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

POL is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of Parliamentary constituencies. The first area plans went out to local consultation on 2 October last year, and these plans will continue to be rolled out at regular intervals until August, with the whole programme scheduled to take around 15 months to complete. As you may be aware, the consultation period for Oxfordshire and Gloucestershire finished on 17 March and POL have decided to close the Orchard Way Post Office Branch. Details of the closures and any further reviews will be available on the POL website at: www.postoffice.co.uk/networkchange

POL develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch. It takes into account the numeric access criteria set out by Government, as well as local factors affecting ease of access (such as local geography), when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The Government does not have a role in proposals or decisions for individual post offices. No decisions on individual Post Offices are taken until after local consultations. Those decisions are made by POL, in light of the responses to the consultation, while subject to a four-stage appeals process involving Postwatch. After the public consultation process, the review process will apply if Postwatch shows that;

POL has not given due consideration to material evidence received during the public consultation in coming to its decision or;

evidence emerges from the consultation that the proposal for the branch does not meet the Government's policy requirements.

The aim of the further review process is for POL and Postwatch to reach an agreed way forward by bilateral review, with 3 stages available at increasing levels of seniority. An addition to the review process last November

provides for very difficult cases which remain unresolved after stage 3. At this final stage, the Chairman of the Royal Mail Group will review the issues and reach a final decision.

The Petition of residents of Grimsbury,

Declares that the Petitioners are extremely concerned about the threat to close Grimsbury sub-Post Office.

Further declares that this Post Office is at the heart of this community. It offers a vital service to some of the most vulnerable people, including those on low wages, unemployed and the elderly.

Further declares that the Government has persistently undermined our Post Office network over a number of years. Ministers have prevented the Post Office competing in the market by penalising them and instead playing to the High Street bank network, by seeking to withdraw the Post Office Card Account, and by preventing Post Offices selling TV Licences and other products to keep them competitive.

Further declares that the Federation of Small Business has said that small business will also be adversely affected by Post Office closures and that the Federation of Sub-Post Masters and Mistresses, which presented the largest ever petition in support of Post Offices, has said the closures will devastate communities.

The Petitioners therefore request that the House of Commons urges the Government to stop action which will lead to the immediate closures of Post Offices and urgently review funding for Post Offices and the services offered by them to enable Post Offices to continue to serve as a cornerstone of the community for individuals, business and the most vulnerable in society.

And the Petitioners remain, etc.—*[Presented by Tony Baldry, Official Report,* 3 March 2008; Vol. 472, c. 1562.]

[P000129]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network, allowing people to have reasonable access across the whole country, and why it has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office, as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network, the Government announced, in May 2007, confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of a £150 million Social Network Payment to support the post office network up to this time. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

In November, there was an addition to the review process. For very difficult cases which remain unresolved after stage 3, the Chairman of the Royal Mail Group will review the issues and reach a final decision.

TREASURY

HMRC Workforce Change

The Petition of the Public and Commercial Services Union and others opposed to the closure of Launceston tax office.,

Declares that HMRC should reconsider its proposals to close its Launceston office which saves the country money by identifying fraud and ironing out errors. Further declares that Civil Service jobs in this location should be retained.

The Petitioners therefore request that the House of Commons urges HM Treasury to ensure that the Launceston tax office remains open.

And the Petitioners remain, etc.—*[Presented by Dan Rogerson, Official Report,* 14 July 2008; Vol. 479, c. 110.]

[P000233]

Observations from the Chancellor of the Exchequer, Treasury:

The Government notes the petition, and makes the following observations:

"The Government notes that HMRC published on 11 June its proposals for restructuring its operations in cluster and individual locations in the South West, which includes Launceston. All representations will be taken into account before final decisions are made later this year on the future of Launceston and the other offices under review. HMRC will continue to maintain a local face to face advice service to customers by retaining Enquiry centre services at or near their current locations".

HMRC Workforce Change (Lincolnshire)

The Petition of staff and customers of the Revenue and Customs Office in Boston, Lincolnshire,

Declares that they are concerned about cuts to public services, particularly the proposed closure of the HMRC office in Boston.

The Petitioners therefore request that the House of Commons urges HM Treasury to reconsider the decision to close the office in Boston, which provides an excellent service to local people.

And the Petitioners remain, etc.—*[Presented by Mark Simmonds, Official Report,* 16 July 2008; Vol. 479, c. 373.]

[P000234]

Observations from the Chancellor of the Exchequer, Treasury:

The Government notes the petition, and makes the following observations:

"The Government notes that similar representations were made during the consultation exercise that HM Revenue & Customs (HMRC) held with staff, unions and key external stakeholders including local authorities, on its initial proposals for restructuring its operations in Cluster 15, which includes Boston and Spalding. All representations were taken into account before final decisions were made on the future of Boston and the other offices under review.

On 17 July HMRC published the decision to withdraw from Chantry House, Boston as part of the Department's need to address new and challenging customer demands by restructuring its business and estate in the most effective and efficient way possible. HMRC will continue to maintain a local face to face advice service to customers from Chantry House, Boston or from an alternative location nearby".

CHILDREN, SCHOOLS AND FAMILIES

Family Courts (Reform)

The Petition of the O'Gorman Family,

Declares that a case in the Family Court has highlighted an injustice in the current system. The three children of Philip O'Gorman have been put up for adoption because it is alleged one of them missed some days in school, some medical appointments were missed, they were seen to be dirty and unkempt and that they would not co-operate with social services. The family contest the allegations, and believe that neither of these allegations is sufficient to warrant children being forcibly adopted into another family. The petitioners further believe that these actions were driven by a desire to increase the numbers of children adopted rather than to protect the children concerned. The petitioners believe that the response of the authorities was totally disproportionate in this case.

The Petitioners therefore request that the House of Commons urges the government to legislate to prevent courts from accepting these arguments as sufficient cause to forcibly remove children from their birth families and ensure that parents are facilitated to contest the allegations made by the authorities

And the Petitioners remain, etc.—*[Presented by John Hemming, Official Report,* 19 May 2008; Vol. 476, c. 132.]

[P000196]

Observations from the Secretary of State for Children, Young People and Families:

It is not appropriate for the Government to comment on the details of an individual case which is a matter for the courts.

The Government recognises that the decision to remove a child from its family is never an easy one. Putting children through a court process should only ever be the last resort, and local authorities have a duty to support children in their families where that is possible.

Where there are concerns that a child is being harmed it is right that social workers are able to intervene to protect the child. It is a matter for the courts to decide on the evidence in each individual case whether the threshold of significant harm set out in the Children Act 1989 has been crossed and whether a child needs to be removed in order to protect them from further harm.

It is also right that parents are able to give their side of the story. Whenever a local authority brings a case to court, the parents have the right to a publicly funded legal aid lawyer to provide them with advice and represent them in court.

The extensive checks and balances in the care and adoption systems (that is, the independent judiciary, publicly funded solicitors for all parties and CAFCASS children's guardians/reporting officers) combine to ensure that care and adoption orders are only made after proper scrutiny of local authorities' work and proposals.

Where a child is brought into care through the courts, local authorities must continue to work to reintegrate that child into their family with support to help make that work. The majority of looked after children are ultimately reunited with their families.

Sadly, sometimes this is not possible, and local authorities must work out a plan to ensure the child has a permanent and caring placement that meets the child's assessed needs. Adoptive placements are one of the many options available.

There are currently no national targets relating to numbers of adoptions.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Whaling

The Petition of those concerned about whaling,

Declares that the situation for whales is bleak. More than 30,000 whales have been killed for commercial purposes since the International Whaling Commission (IWC) moratorium on commercial whaling came into effect in 1986, in blatant disregard of global conservation efforts. In the next 12 months Japan and Norway intend to kill around 2,000 whales, including endangered species such as fin whales.

Japan claims that the whaling it conducts is for scientific research. However, Japan's "scientific research" is simply a means to carry on commercial whaling despite the moratorium. Whaling is also extremely cruel. There is simply no way to kill a whale humanely at sea.

Japan has also been continuing its attempts to recruit more developing countries to the IWC in order to regain a simple majority at this year's IWC meeting in June and promote commercial whaling. If Japan were to succeed, it would be a disaster for whales. Many whale species have still not recovered from the intensive commercial whaling of the past and face many other threats such as climate change, ship strikes and pollution. It is therefore extremely important that the current pro-conservation majority at the IWC is both maintained and strengthened.

The Petitioners therefore request that the House of Commons urges the Secretary of State for the Department of Environment, Food and Rural Affairs, to demand that the Japanese Government end its cruel and unnecessary "scientific" whaling programmes; to continue and enhance his efforts, at the highest ministerial and diplomatic levels to recruit more pro-conservation countries to the IWC and to persuade those countries which currently vote with Japan to vote instead for whale conservation; and to work with other anti-whaling countries to turn the IWC into a body exclusively focused on protecting and conserving whales for future generations.

And the Petitioners remain, etc.—*[Presented by Mr. David Anderson, Official Report, 24 June 2008; Vol. 478, c.261.]* [P000219]

Observations from the Secretary of State for Environment, Food and Rural Affairs:

Thank you for your Petition on the subject of Whaling, 24 June 2008. I have been asked to reply as policy on whaling is Defra's responsibility.

The UK Government has consistently voiced its opposition to Japanese "scientific" whaling, and has made repeated representations to the Japanese Government regarding their whaling operations under the JARPA II Whaling programme.

In December 2007 the UK called on Japan to "cease all its lethal scientific research on whales, and assure the immediate return of the vessels which are implementing JARPA II". The following month, Jonathan Shaw, as the minister responsible for whaling, met Japanese embassy officials to express the UK's outrage over Japan's whaling activities. The UK Government will continue to make our opposition to whaling known to Japan at every appropriate opportunity and argue that they are undermining the credibility of the IWC as an effective organisation for the conservation of whale stocks world-wide.

The UK has also led an effort with other countries who share our view, to recruit more countries to the IWC through our publication "Protecting Whales—A Global Responsibility" (endorsed by Gordon Brown and Sir David Attenborough). This has been sent to over 60 countries urging nations to protect whales worldwide. In addition, in the build up to this year's IWC meeting, the Secretary of State for Environment and the Foreign Secretary wrote to a dozen EU and Accession States encouraging them to join in the protection of the species. This approach has again brought success, with Romania joining the IWC and other EU member states pledging to join in the near future.

The UK continued to uphold its strong opposition to whaling at the IWC's annual meeting in Santiago in June 2008, urging the International Whaling Commission (IWC) to safeguard the future of all whales and dolphins.

Speaking at the event, the Environment Minister Lord Rooker also spoke out about the current cruelty of whaling operations and called for Japan to reconsider the methods it uses. On commercial and scientific whaling Lord Rooker said: "The UK will continue its vociferous opposition to this unnecessary, inhumane operation, and urge countries that continue to kill whales to reconsider their position".

I hope this is helpful.

JUSTICE

Complaints Against Churches

The Petition of Patricia Anne Davies,

Declares that the Christian Churches in the United Kingdom show enmity to those who have cause to complain against its' Ministers; asserts that the Methodist Church would not hear her complaint of mental abuse by a Methodist Minister; that upon appealing to the Minister herself for reconciliation, she was threatened by the Minister with legal action if she did not drop the matter, and that her subsequent complaint was ignored and that it was only after much correspondence and time that she was eventually heard through the churches quasi-judicial system.

The Petitioner further declares that the hearing refused to show the complainant evidence put forward by another Minister from her own church denomination (The URC) even though she was entitled to see it and in doing this breached Methodist Church rules, but that the Methodist church, to this very day, refuses to enforce those rules.

Further declares that she has twice called upon written submissions through the rules of the Data Protection Act but has never received a response to her request for personal data; has made two complaints about the church to the Information Commissioner's office and they have advised the church of their breaches of the Act, but that the church still refuses to disclose the required documents.

Further declares that she has evidence to support her claim that the churches hold 'secret files' and that they refuse to disclose these under the Data Protection Act.

Further declares that the law has proved ineffective and an inappropriate tool for resolving this case, and that the law is daunting and expensive and therefore out of reach of most normal people.

Further declares that abuse of any nature is damaging and abusing a mentally ill depression patient is dangerous and can push a sufferer to suicide; this being borne out by the suicide figures showing that seventeen people die of suicide caused by depression every day.

The Petitioner therefore requests that the House of Commons urges the Government to make time for a debate in the House on the subject and further gives consideration to the establishment of an independent body to hear complaints against the churches.

And the Petitioner remains, etc.—*[Official Report,* 23 April 2008; Vol. 474, c. 21P.] [P000177]

Observations from the Secretary of State for Justice:

The Ministry of Justice notes the issues raised in the petition.

The Methodist Church is a private body it does not receive state funding and is entitled to live by its own rules so long as it does not break the general law.

The Information Commissioner's Office (ICO) is independent of the Government, and neither Ministers nor officials may intervene or comment on decisions reached by the Commissioner.

Therefore these are not matters on which the Government can comment.

Prison Sentences (Early Release)

The Humble Petition of Mrs D Todd and others of like disposition,

Sheweth

That having lost her husband through the wilfully despicable act of one man, this man Alexander Dix should not be considered for early release. 3 years for the death of another person is not long enough. The consideration that space is needed in prisons should not impact on offenders' prison sentences by means of reducing them.

Wherefore your Petitioners pray that your Honourable House urges the Home Secretary to consider the plight of Mrs Todd and others in a similar situation and to endeavour to keep this person in prison for longer.

And your Petitioners, as in duty bound, will ever pray, &c.—*[Presented by Steve Webb, Official Report,* 2 July 2008; Vol. 478, c. 994 .] [P000226]

Observations from the Secretary of State for Justice:

The Government takes the issue raised very seriously and expresses its condolences to Ms Todd and her family; we would like to highlight the following points in response:

Under the Criminal Justice Act 2003, it is the statutory position that those offenders who receive a determinate sentence will be released into the community on licence at the halfway point of sentence. They remain under supervision, and liable to recall to prison should they breach the terms of their licence, until the end of their sentence.

Prisoners are released in this way in order that they can serve a proportion of their sentence on licence, which is an integral part of the sentence and necessary for the purposes of safely reintegrating offenders back into the community in a controlled and supervised way, and to reduce the risk of further offending. If offenders were to serve the whole of their sentence in custody it would not then be possible for them to be subject to supervision following release, as the supervision period must be within the overall period of the sentence imposed by the court.

Written Answers to Questions

Monday 14 July 2008

WALES

Departmental Computers

Mr. Peter Ainsworth: To ask the Secretary of State for Wales what estimate he has made of *(a)* the number of computer devices left on overnight in his Department when not in use and *(b)* the cost of leaving computer devices on overnight when not in use in each of the last five years; and if he will make a statement. [217876]

Mr. Paul Murphy: None, but my Department issued guidance to all staff in June 2006 to switch off their personal computers and networked printers when not in use.

Reminders are sent to all staff periodically.

Departmental Public Expenditure

David Simpson: To ask the Secretary of State for Wales how much was spent on *(a)* new furnishings, *(b)* art and *(c)* new vehicles by his Department in each of the last three years. [213520]

Mr. Paul Murphy: In the past three years my Department spent nothing on furnishings in 2005, £850 in 2006 on new desks and chairs in the Cardiff Office. In 2007 a refurbishment program was undertaken to Gwydyr House at a cost of £52,900. This involved the replacement of curtains provided for security reasons, worn carpets replaced on health and safety grounds and the replacement of worn and damaged furniture.

All artwork is on loan from the National Museum of Wales or the Government Art Collection.

All vehicles used by the Wales Office are leased through the Government Car and Despatch Agency.

Departmental Sick Leave

Mr. Hayes: To ask the Secretary of State for Wales how many working days have been lost due to sickness amongst employees for which his Department is responsible in each year since 1997. [218039]

Mr. Paul Murphy: Figures for the level of sickness absence at the Wales Office are available for each financial year since April 2004.

The number of days of sickness absence is as follows:

	Days
2004-05	233
2005-06	175.5
2006-07	267
2007-08	[1]505.5

[1] Includes isolated incidents of long-term sickness absence.

Fish

Mr. Peter Ainsworth: To ask the Secretary of State for Wales how much fish was procured by his Department and at what cost in each of the last five years, broken down by species; and what amount and value of such fish met the Marine Stewardship Council standard in each such year, broken down by species. [217891]

Mr. Paul Murphy: My Department does not have a canteen, or host meals, but fish dishes have occasionally been served at Departmental receptions among other hors d'œuvre. It would not be possible to identify separately any of the details requested from the cost of the reception.

Lost Working Days

Mr. Hayes: To ask the Secretary of State for Wales how many working days have been lost due to industrial action by employees for which his Department is responsible in each year since 1997. [218054]

Mr. Paul Murphy: Figures for absence due to industrial action are only available since April 2004.

The number of working days lost due to industrial absence by employees at the Wales Office was 16.

This relates to two events in 2007.

Trade

Mark Pritchard: To ask the Secretary of State for Wales if he will discuss increasing Welsh trade representation at the British Embassy in Washington with the Foreign Secretary. [215812]

Mr. Paul Murphy: UK Trade and Investment staff in UK embassies, high commissions, consulates and trade offices represent all parts of the United Kingdom, including Wales.

Additionally International Business Wales, part of the Welsh Assembly Government, has responsibility for supporting companies from Wales in their efforts to trade internationally.

It also has a strong and close relationship with UKTI both at home and overseas. This cohesive approach provides for a robust service to clients and I understand that globally International Business Wales' intervention in 2007-08 helped facilitate deals of almost £170 million for companies in Wales.

TRANSPORT

A14: Kettering

Mr. Hollobone: To ask the Secretary of State for Transport when she plans to make a decision on proposals to improve the A14 around Kettering. [217035]

Mr. Tom Harris: The Highways Agency has investigated options for improving the A14 in the Kettering area and I expect to receive advice shortly.

Departmental Official Cars

Mr. Hoyle: To ask the Secretary of State for Transport pursuant to the answer of 3 July 2008, *Official Report*, column 1024W, on official cars, for which Minister outside the Cabinet a car manufactured in the UK was purchased. [218123]

Jim Fitzpatrick: The Minister of State for Trade Promotion and Investment is provided with an official car that has been manufactured within the UK.

Departmental Official Visits

Mr. Maude: To ask the Secretary of State for Transport how many individual domestic air flights were undertaken within Great Britain by representatives of *(a)* her Department and *(b)* its agencies in the most recent year for which figures are available; and at what cost. [215550]

Jim Fitzpatrick: In financial year 2007-08, the Department for Transport (Central) and two of its agencies, HA and VCA, together recorded a total of 2,766 individual domestic flight sectors. These were purchased from central travel contracts at a combined cost of £384,671.75.

In addition, DVLA purchased a further 1,832 domestic flights but the agency does not record the cost of such flights separately from other travel costs, and the information could be provided only at disproportionate cost.

The Department's remaining four agencies, DSA, GCDA, MCA and VOSA, do not record this information centrally, and could provide the information only at disproportionate cost.

Fuels: Prices

Philip Davies: To ask the Secretary of State for Transport what assessment she has made of the effect of rising petrol prices on the usage of cars in England and Wales. [218414]

Ms Rosie Winterton: In its work for the Eddington transport study, the Department for Transport assesses the effect of sustained high oil prices on car usage. We compare the traffic growth assuming two different long-term oil prices, one using the 'central' Department for Business, Enterprise and Regulatory Reform oil price projections at the time of the Study, the other using a significantly higher projection.

Traffic is forecast in England to grow by just under a third between 2003 and 2025 in the central case. This assumes oil prices are $35 in 2025 (2004 prices). When Brent crude per barrel prices are assumed to be $100, traffic growth is still increasing in the period, but lowered by 6 per cent. relative to the central forecast growth.

Official Cars: Fuels

Anne Main: To ask the Secretary of State for Transport how much the Government Car Service spent on fuel in each of the last six months for which records are available. [217239]

Jim Fitzpatrick: The Government Car and Despatch Agency spent a total of £161,600 on fuel for its Government Car Service as follows:

	£
December 2007	22,400
January 2008	31,800
February 2008	26,600
March 2008	24,100
April 2008	27,800
May 2008	28,900

Official Cars: Ministers

Mr. Hoyle: To ask the Secretary of State for Transport whether there are any circumstances in which a Minister's request to be provided with a British-built car would not be met by the Government Car and Despatch Agency. [218608]

Jim Fitzpatrick: I refer the hon. Member to my answer of 26 June 2008, *Official Report*, column 427W.

Olympic Games 2012: Transport

Mr. Hunt: To ask the Secretary of State for Transport how many meetings *(a)* she and *(b)* Ministerial colleagues have had with (i) the Olympic Delivery Authority, (ii) Transport for London, (iii) the London Development Agency, (iv) the Department for Culture, Media and Sport, (v) train operating companies and (vi) the Minister for the Olympics to discuss transport plans for the 2012 Olympics in each of the last three years. [218426]

Ms Rosie Winterton: The Secretary of State and her ministerial colleagues have had several meetings over the past three years with the Olympic Delivery Authority (ODA), Transport for London, train operating companies and the Minister for the Olympics, together with officials from the Department for Culture, Media and Sport. There have been no ministerial meetings with the London Development Agency to discuss transport for the 2012 games to date. A more detailed breakdown could be obtained only at disproportionate cost.

Railways: Bridges

Mrs. Villiers: To ask the Secretary of State for Transport how much the Office of Rail Regulation has assumed Network Rail will receive in payments from third parties who wish to build a bridge across a railway in *(a)* 2004 to 2009 and *(b)* 2009 to 2014. [215969]

Mr. Tom Harris: No specific allowance has been assumed by the Office of Rail Regulation in respect of payments received by Network Rail from third parties who wish to build a bridge across the railway in *(a)* 2004 to 2009 and *(b)* 2009 to 2014.

Railways: Licensing

Mr. Hayes: To ask the Secretary of State for Transport what her policy is on EU proposals to harmonise *(a)* training and *(b)* licences for train operators. [217980]

Mr. Tom Harris: The Train Driver Licensing Directive (2007/59/EC) was adopted on 23 October 2007 as part of the Third Railway Package. The directive aims to harmonise the licensing and certification of train drivers and other train crew with a safety related role. Although it specifies the minimum requirements that need to be met by a train driver, the directive does not include measures to harmonise training requirements.

The directive must be transposed by 3 December 2009. In transposing the directive for the UK the Government will work closely with all stakeholders to achieve a balanced and workable implementation in line with the principles of better regulation.

Road Traffic

Mr. Spellar: To ask the Secretary of State for Transport what change there has been in levels of traffic congestion in the 10 largest urban areas of England in the last three years. [214030]

Ms Rosie Winterton: The following tables show morning peak period speeds across the 10 largest urban areas in England in 2004 and 2006, based on surveys conducted by the Department and Transport for London:

Miles per hour

	2000-03	*2003-06*	*2006-09*
London[1]			
Central	9.9	10.6	9.3
Inner	11.6	11.7	11.2
Outer	16.9	16.3	..

[1] Surveys are run over three years for the three areas of London, beginning with the central area and ending with the outer area.

Miles per hour

	2002	*2004*	*2006*
West Midlands	21.1	20.5	18.9
Greater Manchester	23.2	21.0	18.5
Leeds/Bradford	20.1	20.4	20.8
Tyneside	27.8	24.7	25.5
Merseyside	23.7	19.8	18.7
Sheffield	18.8	18.6	19.0
Bristol	23.2	19.0	20.2
Nottingham	15.9	16.4	16.5
Leicester	15.6	14.7	15.8

The 10 largest urban areas set congestion targets as part of the Department's urban congestion PSA indicator, using a new, more detailed data source. The following table shows the first report of progress towards these targets, in terms of the percentage change in person journey time per mile from the baseline[1] to 2006-07 (percentage increases reflect slower journey times).

[1] The baseline is a mix of 2004-05 and 2005-06 data. Comparable data before the baseline are not available.

Percentage

	LO	*GM*	*ME*	*SY*	*TW*	*WM*	*WY*	*BR*	*LE*	*NO*	*ALL*
Change in person journey times (progress to 2006-07)	-3.5	-3.4	-4.3	-3.0	-1.0	-2.3	2.2	-0.4	-1.3	1.6	-2.4
Change in person journey times (2010-11 target)	1.5	0.0	5.1	7.6	7.0	5.0	7.0	14.0	6.25	10.5	3.6

Notes:
1. LO London, GM Greater Manchester, ME Merseyside, SY South Yorkshire, TW Tyne and Wear, WM West Midlands, WY West Yorkshire, BR Bristol, LE Leicester, NO Nottingham
2. The percentage changes of less than 2 per cent. are unlikely to be statistically significant; that is not necessarily indicative of real changes in congestion.

The urban congestion indicator covers key routes in each urban area (mainly principal A roads) during the weekday morning peak, excluding school holidays. Congestion in urban areas is measured by "person journey time per mile". Person journey times per mile are the average journey times per mile experienced by individual road users, rather than the vehicle average. These take into account average vehicle journey times, average vehicle occupancies and the number of vehicles on the route segment (vehicle flow). Figures are based on the academic year (September to August).

The data in the aforementioned table was published in the 2008 Departmental Annual Report, Annex D, available at:

http://www.dft.gov.uk/about/publications/apr/ar2008/

Roads: Accidents

Chris Huhne: To ask the Secretary of State for Transport how many fatalities of *(a)* drivers, *(b)* passengers, *(c)* other vehicle occupants and *(d)* other road users there were in crashes in which one of the drivers was aged between 17 and 24 years in each year since 1995. [218409]

Jim Fitzpatrick: The numbers of fatalities of *(a)* motor vehicle drivers or riders aged 17-24, *(b)* passengers of a 17-24 year old driver or rider, *(c)* occupants of other motor vehicles (including drivers) and *(d)* other road users (mainly pedestrians and cyclists) in reported personal injury accidents involving at least one motor vehicle driver aged 17-24 in Great Britain in 1995 to 2007 are shown in the table.

Number of fatalities

	Drivers or riders aged 17-24	*Passengers of driver or rider aged 17-24*	*Other motor vehicle occupants*	*Other road users*
1995	440	271	218	290

Number of fatalities

	Drivers or riders aged 17-24	*Passengers of driver or rider aged 17-24*	*Other motor vehicle occupants*	*Other road users*
1996	421	311	233	296
1997	450	261	213	259
1998	382	222	222	224
1999	375	238	168	224
2000	398	225	196	179
2001	411	234	208	179
2002	437	256	212	173
2003	468	261	201	145
2004	439	263	225	182
2005	453	256	192	183
2006	475	229	190	160
2007	416	229	206	143

Roads: Repairs and Maintenance

Mrs. Gillan: To ask the Secretary of State for Transport what funding has been allocated to *(a)* road repair, *(b)* road improvement and *(c)* road building schemes in each local authority area in each of the last 12 years. [210179]

Ms Rosie Winterton: Central Government provide a number of funding streams that local authorities are able to apply to road repairs, improvements and building. Authorities are also able to apply their own resources to their networks.

I have placed details of funding from the Department for Transport in the House Libraries, as follows:

(a) block capital funding made available to local authorities since 2000-01 as part of the LTP settlement. This funding is not ring fenced and authorities have discretion to spend their allocations in line with their priorities. Where joint plans were prepared, the figures relate to the plan rather than individual authorities. The table includes aggregate figures for funding provided prior to the introduction of the LTP settlement.

(b) revenue and capital funding provided to authorities since 2001-02 for the maintenance of recently detrunked roads. This funding is also not ring fenced. Prior to 2000-01 funding was provided by the Local Transport Capital Expenditure settlement. I am also including the allocations from 1997-98 to 1999-2000 in this table.

(c) capital funding that the Department has contributed (or is expecting to contribute) to local authority major road schemes generally costing over £5 million. The table shows schemes completed since 2000 and those that are being delivered or at the various approval stages in line with our local major scheme guidance.

(d) PFI credits allocated to schemes. This shows PFI credits allocated to English local authorities (including London boroughs) for improvements in their street lighting and highway maintenance where contracts have been signed or are in procurement.

(e) funding provided for emergency repairs to local highways in 2001-02, 2003-04 and 2007-08.

Local authorities are also provided with financial support for the revenue required for road maintenance through the Revenue Support Grant (RSG), administered by the Department for Communities and Local Government. There is no separately identified highways maintenance component in RSG and it is for each authority to determine how much of it should be allocated to their highway network.

Funding for highway maintenance and for transport in London has generally since 2000-01 been a matter for the Mayor.

Rolling Stock

Norman Baker: To ask the Secretary of State for Transport which rail franchises have approached her Department prior to a formal application being submitted to request additional rolling stock during the current franchise. [218361]

Mr. Tom Harris: Since the Department for Transport took over responsibility for rail franchise management in 2005, some operators have held discussions with the Department proposing additional rolling stock, usually linked to a wider package of contract alterations. These discussions are commercially confidential. The Department considers all such proposals to determine whether they are consistent with procurement law, affordable, provide value for money for the taxpayer and fit with objectives for the rail network.

The Department set out its requirements in the White Paper, Delivering a Sustainable Railway 2007, that it would procure through the operators an additional 1300 new vehicles. These discussions are now taking place and will result in the delivery of the vehicles.

Rolling Stock: Standards

Norman Baker: To ask the Secretary of State for Transport what the process is by which rolling stock companies are consulted on franchise specifications before they are decided; and if she will make a statement. [216734]

Mr. Tom Harris: Rolling stock companies are welcome to comment on franchise specifications during the consultation phase, along with all other stakeholders. Thereafter it is for bidders for the franchise to agree their rolling stock plans with the owners of the stock.

Safety Belts

Mr. Amess: To ask the Secretary of State for Transport what guidance she has *(a)* produced and *(b)* plans to produce on the importance of wearing seat belts correctly; how many (i) males and (ii) females, broken down by age group were (A) killed and (B) injured in road accidents as a result of not wearing their seat belts correctly in each of the last five years for which information is available; and if she will make a statement. [217904]

Jim Fitzpatrick: The Department does not produce such guidance and has no plans to do so. Information on seat belt usage, whether correctly worn or not, by those injured in crashes is not collected by the police for the purposes of the Department's road casualty statistics. The Department's publicity and other guidance focuses on the need to use seat belts.

SCOTLAND

Fish

Mr. Peter Ainsworth: To ask the Secretary of State for Scotland how much fish was procured by his Department and at what cost in each of the last five years, broken down by species; and what amount and value of such fish met the Marine Stewardship Council standard in each such year, broken down by species. [217890]

David Cairns: The Scotland Office has no in-house catering facilities and the provision of food is generally limited to catering associated with official hospitality and is supplied by external contractors. The Office does not separately record the purchase of fish.

NORTHERN IRELAND

Departmental ICT

Mr. Hoban: To ask the Secretary of State for Northern Ireland what IT contracts his Departments and its agencies have entered into in the last two years. [215163]

Mr. Woodward: In the last two years the Northern Ireland Office and its agencies have entered into the following IT contracts:

Business Intelligence Solution Support Contract;

JSE Computing Call-off contract (001-005);

NOVOSCO—Citrix Goldcare Service Level Agreement;

EOS—Contract 64:1 Hardware and Software support for Apple Macs;

Oracle Support Services for Integra Accounting and NIPS PAFIS—Service Level Agreement;

iSoft Business Solutions (Ireland) Ltd Systems Support Agreement;

System Support Agreement for SIPS Systems;

System Support Agreement for VIRBS Systems;

NI Prison Service and Accenture UK Ltd Systems Support Agreement;

Gold Service Level Agreement for Server Hardware Support between British Telecommunications and NI Prison Service.

Departmental Television

Mr. Maude: To ask the Secretary of State for Northern Ireland to what premium Sky, digital terrestrial or cable television channels *(a)* his Department and *(b)* each of its agencies subscribes; and at what yearly cost in the most recent period for which figures are available. [215653]

Mr. Woodward: It is not possible to separate the costs of premium Sky, digital terrestrial or cable television channels from the overall subscription costs paid by my Department and agencies for digital services.

Domestic Animals: Theft

Lady Hermon: To ask the Secretary of State for Northern Ireland how many reports of theft of domestic animals in Northern Ireland there were in each of the last five years. [213472]

Paul Goggins: The Chief Constable has provided the following answer:

The following table details the number of incidents of theft of domestic animals recorded by the Police Service of Northern Ireland in each of the last five years.

	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-08*[1]	*Total*
Birds	0	0	0	0	20	20
Cat	1	0	2	1	4	8
Cattle	45	33	38	40	42	198
Dog	67	63	68	67	67	332
Donkey	2	5	6	1	4	18
Exotic	4	1	1	1	1	7
Fish	0	0	0	0	8	8
Goat	0	2	0	0	2	4
Horse	13	7	16	9	19	64
Pig	0	1	1	0	1	3
Poultry	0	0	0	0	5	5
Rabbit	8	2	5	7	0	22
Reptiles	1	0	1	5	3	10
Rodents	1	2	0	0	2	5
Sheep	49	23	31	21	18	142
Wildlife	0	1	0	1	0	2
N/A	20	18	15	15	15	83
Total	211	158	184	168	211	932

[1] Detailed property information linked to the crime record has been used to provide the figures. With the introduction of a new crime recording system in April 2007, the way the property details are linked to crime records has changed—prior to April 2007 the property was linked to each individual crime, since April 2007 property is linked to an occurrence which may contain one or more crimes therefore linking the property to all crimes in each occurrence. This change means that there may be some inflation in the crime levels based on this property information from 2007-08 onwards. (Please note that crime records are counted in exactly the same way on both systems.) It should also be noted that whilst the categories of animal types on the two crime recording systems are broadly similar, there are some differences.

Domestic Violence

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much funding was allocated to domestic abuse prevention initiatives in *(a)* A District Command Unit area, *(b)* B District Command Unit area and *(c)* Northern Ireland in each of the last 10 years. [207756]

Paul Goggins: The Northern Ireland Office has spent the following amounts on domestic abuse prevention initiatives over the past two years:

	£
2006-07	53,193
2007-08	228,000

This is in addition to the funding allocated by DHSSPS towards implementing the 'Tackling Violence at Home Strategy', which was launched by both Departments in October 2005.

The PSNI has also spent a total of £348,296 on a range of initiatives relating to victims of domestic abuse across Northern Ireland since 2005.

It is not possible to provide the information as requested.

Human Trafficking

Mr. Moore: To ask the Secretary of State for Northern Ireland how much the Police Service of Northern Ireland spent on the Pentameter 2 initiative in the last 12 months; what financial and logistical support his Department gives to the initiative in the last 12 months; and if he will make a statement. [217010]

Paul Goggins: The budget for the Pentameter 2 initiative comes from the PSNI's Crime Operations annual budget.

Pentameter 2 is a one-off operation co-ordinated by the Home Office and ACPO, which commenced on 3 October 2007 and finished on 31 March 2008. A Chief Inspector from the PSNI, attached to the Immigration Service, heads a team of detectives based at Templepatrick, who were involved in Pentameter 2.

Mr. Moore: To ask the Secretary of State for Northern Ireland how much it cost to establish the new Police Service of Northern Ireland Pentameter 2 office in Belfast; what the annual operating costs of the new office are expected to be; and if he will make a statement. [217011]

Paul Goggins: There is no specific Pentameter 2 office in Belfast. The Organised Crime Squad within Crime Operations Department managed Pentameter 2 on behalf of the Police Service of Northern Ireland. The initiative was co-ordinated from Belfast by a Detective Chief Inspector, Organised Crime Squad.

Police officers throughout Northern Ireland have worked towards the goal of Pentameter 2 along with the Immigration Service and other agencies.

Mr. Moore: To ask the Secretary of State for Northern Ireland how many full-time equivalent *(a)* police officers and *(b)* civilian support staff are working on the Pentameter 2 initiative in (i) Northern Ireland and (ii) the specialist Belfast Pentameter 2 office. [217012]

Paul Goggins: There is no specific Pentameter 2 office in Belfast. 20 detectives were involved in the Pentameter 2 operation, ranging from Detective Constable to Detective Chief Inspector rank along with three civilian support personnel.

When conducting search operations the expertise of Tactical Support Groups were employed to carry out the search.

HOUSE OF COMMONS COMMISSION

Computer Devices

Mr. Peter Ainsworth: To ask the hon. Member for North Devon, representing the House of Commons Commission what estimate the Commission has made of *(a)* the number of computer devices left on overnight in the House when not in use and *(b)* the cost of leaving computer devices on overnight when not in use in each of the last five years; and if he will make a statement. [217877]

Nick Harvey: We do not keep statistics on computer devices left on overnight in the House. However, the new online induction course to the parliamentary network, which all new users (Members, their staff and staff of the House) must complete, includes guidance on shutting down personal computers each day. In addition to this, all computers have Microsoft power saving settings enabled; these also reduce energy consumption.

Fish

Mr. Peter Ainsworth: To ask the hon. Member for North Devon, representing the House of Commons Commission how much fish was procured by the House and at what cost in each of the last five years, broken down by species; and what amount and value of such fish met the Marine Stewardship Council standard in each such year, broken down by species. [217892]

Nick Harvey: No records are available for the quantity and value of fish purchased by the House prior to 2007-08, but the records are available to provide details of the quantity of fish consumed in each year since 2004-05; for the sake of consistency, the information for 2007-08 is therefore also presented in this format, as set out in the following table. No records are available for 2003-04.

Unit (kg)

	2007-08	*2006-07*	*2005-06*	*2004-05*
Fish				
Anchovy	88	158	140	82
Black Bream	364	439	70	102

	2007-08	2006-07	2005-06	Unit (kg) 2004-05
Brill	0	60	30	30
Cod (Icelandic preferred)	3,709	2,979	1,608	1,393
Coley	32	3	0	429
Eel	25	51	51	58
Escolar	176	0	0	0
Gurnard	42	0	0	0
Haddock (Icelandic/North Sea)	3,285	3,281	1,803	1,319
Hake	370	21	52	5
Halibut	99	78	90	132
Herring	65	185	215	17
Herring (Kipper)	158	180	156	66
Herring (Rollmop)	657	650	333	47
Hoki	12	0	0	0
Kingfish	218	241	36	0
Mackerel (North Sea, Cornwall and South West)	355	1,475	1,311	470
Monkfish (Channel, South West Coast, Scotland)	83	643	257	32
Mullet, Grey	312	564	119	25
Mullet, Red	326	275	7	37
Octopus	43	14	22	21
Pangasius	94	0	0	0
Plaice	779	901	696	675
Pollock	260	272	48	0
Red Bream	249	8	0	255
Salmon (Scottish farm SSPO approved)	6,566	6,927	8,181	4,899
Sardines	228	299	177	5
Sea Bream (EU farmed)	530	707	56	145
Sea Bass (EU farmed)	1,063	808	721	570
Skate	18	5	116	57
Snapper	29	57	186	311
Sole, Dover	6	72	54	131
Sole, Lemon (English Channel, Irish Sea)	466	492	520	647
Squid	143	220	502	582
Swordfish	8	208	478	248
Talapia	89	44	35	23
Trout (English farmed)	602	1,196	652	401
Tuna (line-caught, Yellowfin)	589	2,346	2,494	1,344
Turbot	9	0	0	0
Whitebait	5	15	0	0
Whiting	22	0	0	0
Shellfish				
Clams	227	137	85	49
Cockles	38	9	7	13
Crab (whole)	35	243	51	16
Crab Meat	237	283	292	124
Lobster	58	104	129	48
Mussels	296	63	232	729
Oysters	7	0	0	60
Prawns	1,811	1,937	2,346	1,933
Scallops	235	65	162	111
Scampi	134	103	160	127
Shrimps, Brown	69	13	21	22

No records are kept of the amount and value of fish purchased that meet the Marine Stewardship Council's environmental standard for sustainable fishing. However, the current instructions issued to suppliers of fresh and frozen fish expressly stipulate that "all fish supplied must come from approved sustainable sources" and provide specific provenance requirements in the case of cod, haddock and other fish regarded as over-exploited by the Marine Stewardship Council or Marine Conservation Society. Furthermore, the House is currently in the process of letting a new contract for the supply of fish. Both the Marine Stewardship Council and the Seafish Industry Authority had input into the specification of requirements regarding environmental sustainability standards, and the relevant clauses were developed using the toolkit provided by DEFRA under the Public Sector Food Procurement Initiative.

Members' Centre

Sir Nicholas Winterton: To ask the hon. Member for North Devon, representing the House of Commons Commission what the cost has been of the refurbishment of the e-Library to create a new Members' Centre in Portcullis House; what the cost has been of the new *(a)* furnishings and *(b)* technological equipment installed in the new Members' Centre; what the reasons were for the establishment of the new Members' Centre in Portcullis House; and whether a cost benefit analysis was carried out before the new Members' Centre in Portcullis House was commissioned. [217114]

Nick Harvey: The total cost of the refurbishment of the e-Library to create the Members' Centre was £38,100. The furnishings installed in the centre cost £25,900 and the technological equipment cost £12,200. The centre was established as a part of the response to Sir Kevin Tebbit's review of the management and services of the House. It is intended to help provide a more integrated and responsive service to hon. Members and to their staff across the range of the services provided by House Departments. Benefits were assessed against costs before the centre was commissioned, though no formal cost/benefit analysis was conducted. The extent of the centre's use, and the support it has received from hon. Members and their staff, albeit after just one week of operation, suggests that the centre will fully justify its costs.

Members: Allowances

Dr. Julian Lewis: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answer to the hon. Member for Aberdeen (Mr. Doran) North, of 30 June 2005, *Official Report*, column 546W, on Members' allowances, (1) how much time hon. Members will be given to examine documents relating to them which are due for disclosure to the public, prior to such disclosure; and whether documents to be scanned may be edited *(a)* before and *(b)* after scanning; [218362]

(2) what procedure will be adopted to ensure that when personal details are redacted from hon. Members' documents disclosed to the public by the House authorities the redacted details will be undetectable; [218457]

(3) whether all hard copy documents from which hon. Members' personal details have been redacted will be photocopied again before distribution to any member of the public in order to ensure the integrity of the redaction. [218458]

Nick Harvey: The information requested is as follows.

(1) The exact timetable is still being finalised. However, it is anticipated that Members will have approximately one month to examine documents relating to them, which are due for disclosure to the public, prior to such disclosure. The documents will be edited after scanning.

(2) The scanned documents will be edited using a proven and secure software product, which will remove pages and remove and replace text and images according to the editing scheme before the document is re-saved. The redacted material will not be detectable in the published information.

(3) Only permanently redacted images of original documents will be made available to the public, rather than photocopies of original documents. The integrity of the redaction will be assured as follows:

The original documents will be scanned and retained. At the end of the imaging and editing process there will be three electronic versions of the scanned documents:

(1) An image of the entire original document before editing

(2) An image of the document with the editing marked but with all underlying text readable

(3) A final version for publication with all edited text removed from the image of the document.

Images 1 and 2 will be retained for auditing purposes in the event of any query about the editing and redacting process. Image 3 will be the only version made available to the public.

Members: ICT

Helen Jones: To ask the hon. Member for North Devon, representing the House of Commons Commission what steps are being taken to ensure that hon. Members' staff based off the parliamentary estate are offered an equivalent IT service to hon. Members' staff based in the House. [218201]

Nick Harvey: The Administration Committee considered proposals prepared by the Parliamentary ICT (PICT) Directorate in June 2008 for improving support and services to Members and their staff while working away from the Parliamentary Estate, and specifically in their constituency offices. The proposals included:

1. Regionally based engineering services that can provide a face to face response to Members and their staffs' issues more quickly than can be achieved at present.

2. Local areas network (LANs) in constituency offices, including wireless access where feasible, and support of the networks on an ongoing basis.

3. Upgrades to the current broadband services.

While not providing an equivalent level of service for off-site users to that available to Members and their staff based in Westminster, these proposals would provide a much improved level of service. Delivery of these proposals is dependent on financial approval. A business case will be presented in the autumn.

Helen Jones: To ask the hon. Member for North Devon, representing the House of Commons Commission if the Commission will undertake a review of *(a)* the contract with Demon and *(b)* the service offered to hon. Members by PICT. [218517]

Nick Harvey: The contract with Demon, the third party service provider, is subject to regular review meetings with Demon. Some service issues have already been addressed. For example, through collaborative working between BT and Demon disruption to broadband services due to constituency office moves has been reduced considerably. Further improvements are expected in the future. In the short term, the parliamentary ICT Directorate (PICT) and Demon are planning to upgrade some of the slower broadband services. A complete new broadband contract is expected to be procured within the next year.

PICT services to Members were subject to review by the Administration Committee last year. The recommendations made in the Committee's report

Information and Communication Technology Services for Members (HC 498) are reflected in PICT's forward plan of work relating to Members' IT, many of which have now been delivered.

WOMEN AND EQUALITY

Departmental Equality

Mrs. May: To ask the Minister for Women and Equality whether the Government Equalities Office met the Civil Service diversity targets set out on page 51 of Cabinet Office Annual Report 2007 by April 2008. [204707]

Barbara Follett: The civil service diversity targets apply to senior grades and are for the civil service as a whole to achieve. The first of the four specific targets is for 37 per cent. women in the senior civil service (grade five officers and above). In the Government Equalities Office, four of the six senior civil servants are women. The second target is for 30 per cent. women in top management posts (those occupied by grade three and above). In GEO one of the two top managers is a woman. The third target, for 4 per cent. ethnic minority staff in the SCS, is not met in the GEO.

The fourth target is for 3.2 per cent. disabled staff in the senior civil service. Staff may declare disabilities voluntarily. GEO will consider whether to disclose any relevant information about this target, taking account of the need to ensure that individuals cannot be identified. This is a particularly important consideration for Departments like the GEO where total staff numbers are small.

Information about gender and ethnicity in the GEO work force is on the GEO website:

www.equalities.gov.uk

The latest published statistics against overall civil service targets were at October 2007, and are available on the civil service website at:

http://www.civilservice.gov.uk/about/diversity/monitoring.asp.

The final measurement against the targets will be published in autumn 2008.

Equal Pay

John Bercow: To ask the Minister for Women and Equality what recent representations she has received on the gender pay gap in the *(a)* private and *(b)* public sectors. [204305]

Barbara Follett: In recent months I have received representations from hon. Members of the House of Commons and members of the public on the gender pay gap in the civil service and the public and private sectors and equal pay in local government and the United Kingdom as a whole.

Closing the pay gap between men and women is a high priority for this Government because it allows families to make real choices about how they live their lives. The pay gap perpetuates the unequal division of labour in the home and prevents fathers from playing a more active role in their children's early years and women from fulfilling their opportunities to work. Closing the pay gap is now one of the indicators in the new Equalities Public Service Agreement. This will help to build on other practical measures we have introduced, such as giving the parents of young, or disabled, children and the carers of adults the right to request flexible working, and providing more access to child care.

PRIME MINISTER

10 Downing Street

Mr. Maude: To ask the Prime Minister what the cost of 10 Downing Street was in *(a)* 2006-07 and *(b)* 2007-08. [217341]

The Prime Minister: For information for the financial year 2006-07 I refer the right hon. Member to the answer I gave the hon. Member for Yeovil (Mr. Laws) on 22 February 2008, *Official Report*, columns 1098-99W. Figures for the financial year 2007-08 are not yet available.

Mr. Maude: To ask the Prime Minister how many staff were employed by 10 Downing street in *(a)* April 2007 and *(b)* April 2008. [217342]

The Prime Minister: I refer the right hon. Member to answers I gave the hon. Members for Epsom and Ewell (Chris Grayling) and Fareham (Mr. Hoban) on 15 October 2007, *Official Report*, columns 819-20W, and the hon. Member for Fareham (Mr. Hoban) on 1 May 2008, *Official Report*, column 624W.

Departmental Aviation

Mr. Maude: To ask the Prime Minister pursuant to the answer of 18 June 2008, *Official Report*, column 919W, on departmental aviation, in what format information on domestic flights and expenditure incurred on them is held. [217432]

The Prime Minister: I have nothing further to add to the answer I gave the right hon. Member on 18 June 2008, *Official Report*, column 919W.

Departmental Buildings

Mr. Peter Ainsworth: To ask the Prime Minister how many *(a)* new builds and *(b)* major refurbishments were completed by 10 Downing Street for a cost in excess of £0.5 million in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08 to which the Building Research Establishment Environmental Assessment Method or equivalent was applied; how many such buildings were assessed as (A) pass, (B) good, (C) very good and (D) excellent; and if he will make a statement. [213773]

The Prime Minister: I refer the hon. Member to the answer given by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Mr. Watson) on 9 July 2008, *Official Report*, column 1625W.

G8: Japan

Mr. Dai Davies: To ask the Prime Minister which Ministers and officials will accompany him to the G8 Heads of Government Summit in Japan; and if he will *(a)* place in the Library and *(b)* post on his office's website links to the papers submitted to the summit by (i) the United Kingdom and (ii) other participants. [217096]

Mark Pritchard: To ask the Prime Minister if he will raise the human rights situation in Tibet with world leaders during the G8 summit in Japan. [217500]

Mr. Drew: To ask the Prime Minister whether he raised the issues of *(a)* malaria, *(b)* tuberculosis and *(c)* HIV/AIDS eradication with his international counterparts at the recent G8 summit in Japan; and what progress has been made through the G8 towards disease control, with particular reference to Africa. [218212]

The Prime Minister: I refer the hon. Members to my statement on 10 July 2008, *Official Report*, column 1547. Copies of all 2008 final G8 Summit communiqués have been placed in the Library of the House. Further copies can be found at the Japanese G8 presidency's website:

http://www.g8summit.go.jp/eng/doc/index.html

Members: Electronic Surveillance

Mr. Maude: To ask the Prime Minister whether communications traffic data on telephone calls made *(a)* by and *(b)* to hon. Members are covered by the Wilson Doctrine. [217354]

The Prime Minister: I set out the position on the Wilson Doctrine on 12 September 2007, *Official Report*, column 2103W.

Ministerial Policy Advisers

Mr. Hoban: To ask the Prime Minister which special envoys he has appointed since taking office; what remuneration is paid to each; what allowance each receives for expenses; and how much each has been reimbursed for claims for *(a)* expenses and *(b)* travel expenses. [211748]

Norman Baker: To ask the Prime Minister what special envoys he has appointed; and for what purposes in each case. [216779]

The Prime Minister: Since June 2007, I have appointed my hon. Friend the Member for Brent, North (Barry Gardiner) as the Special Envoy for Forestry. My right hon. Friend the Member for Cynon Valley (Ann Clwyd) has served since 2003 as the Prime Minister's Special Envoy for Human Rights in Iraq and has been reappointed.

Separately, I have appointed my right hon. Friend the Member for Enfield, North (Joan Ryan) as the Special Representative to Cyprus.

They are entitled to claim reasonable travel and subsistence expenses incurred as part of their work. These expenses are paid in accordance with existing departmental guidelines on allowances and subsistence.

Paul Sinclair

Mr. Maude: To ask the Prime Minister what the *(a)* job title and *(b)* job specification of Mr. Paul Sinclair is in Downing Street. [217390]

The Prime Minister: Special advisers are employed under terms and conditions set out in the Model Contract for Special Advisers. Copies are available in the Library of the House.

CHILDREN, SCHOOLS AND FAMILIES

Children: Communication Skills

Mr. MacDougall: To ask the Secretary of State for Children, Schools and Families what steps he is taking to ensure the effective development of speech and language skills in children; and if he will make a statement. [218459]

Kevin Brennan: The Government recognise that speech and language skills are vital to all areas of a child's development. Together with the Department of Health we are taking a number of steps to ensure all children get the right support to develop these skills, including targeted or specialist support for children and young people with speech, language and communication difficulties.

On 8 July we welcomed the final report of the Bercow Review of services for children and young people with speech, language and communication needs (SLCN). We support fully the report's call for action to raise the profile of speech, language and communications across Government, local agencies and wider society and to improve services for children and young people with SLCN. We will publish a plan for implementation of the recommendations made by the hon. Member for Buckingham (John Bercow) in the autumn. We have already asked Sir Jim Rose to examine how schools can better focus on speech, language and communication as part of his review of the primary curriculum.

Alongside our response to the recommendations in the Bercow Report, on 8 July the Government announced a new £40 million early language programme, Every Child a Talker, which aims to improve the understanding of early language development among the early years workforce. It will provide practitioners with training and materials to enable them to support children's speaking and listening skills more effectively and free up time for practitioners to spend working with parents to enrich the home environment and networking with each other to share good practice. This will complement the materials delivered through the Inclusion Development Programme, which is focusing in its first year on SLCN, along with dyslexia.

Sure Start Children's Centres (SSCC) play a key role in the positive promotion of children's speech and language development. In our Children's Centre Practice Guidance (December 2006) we said that speech, language and communication should be a priority for SSCCs in developing their services and that all staff should have the skills and understanding required for high-quality, responsive interaction with children.

In addition, the Early Years Foundation Stage (EYFS), being introduced from September this year, recognises the importance of supporting and extending children's learning and competence in communicating, speaking and listening and providing opportunities for children to use these skills in a range of situations and for different purposes. One of the key roles for practitioners within the EYFS is to identify and respond to any particular difficulties in children's language development at an early stage.

Early identification of SLCN is further promoted through the Child Health Promotion Programme (CHPP), led by the Department of Health. CHHP is the early

intervention and prevention public health programme that lies at the heart of all universal services for children and families. It highlights a child's speech and language development as one of eight priority topics for health and development reviews of children.

Children: Disabled

Annette Brooke: To ask the Secretary of State for Children, Schools and Families what guidance his Department issues to local authorities *(a)* on the status of a disabled child whilst in short-term respite care and *(b)* on the transportation of such children between school and (i) the family home and (ii) the place providing respite care. [218177]

Kevin Brennan: The White Paper "Care Matters: Time for Change" set out a commitment to issue statutory guidance (within the revised Children Act 1989 guidance) specifically on the issues of short break care to clarify the applicable regulations for different settings and arrangements. The guidance will set out the circumstances in which it would be expected that the child would be looked after.

In 2004, the Department published 'Home to School travel for pupils requiring special arrangements' and following the Education and Inspections Act 2006, which extended entitlement to free transport for low income families, published its 'Home to School Travel and Transport Guidance' in May 2007. This guidance covers local authority duties and powers relating to sustainable school travel, and the provision of school travel arrangements for children and young people.

Guidance to local authorities and PCTs on short break delivery will be issued very shortly and addresses transport to such provision.

Donors: Health Education

Kali Mountford: To ask the Secretary of State for Children, Schools and Families what plans he has to make materials available to schools and colleges for 16 to 18-year-olds on registering for bone marrow donation; and when he expects these materials to be included in the national curriculum. [218358]

Jim Knight: There is a variety of opportunities for young people to learn about bone marrow donation within the curriculum through PSHE, citizenship and science. In science, young people explore how health is affected by diet, drugs, disease and medical treatments and they are also given opportunities to use real life examples when finding out about science. Through PSHE and citizenship, young people are encouraged to make real choices and decisions and take informed action.

The Department is working closely with NHS Blood and Transplant (NHSBT) to improve the accessibility and emphasise the curriculum opportunities on their 'Give and Let Live' website. The site will be re-launched in September 2008, and includes facts and information on bone marrow donation. The Secretary of State for Health and Secretary of State for Children, Schools and Families will write jointly to schools and colleges in September, highlighting how donation can be taught within the curriculum and referring to the revised Give and Let Live resource.

Education: Assessments

Mr. Frank Field: To ask the Secretary of State for Children, Schools and Families (1) what arrangements his Department has agreed with examination boards in England on the timely marking of GCSE and A level papers in 2008; and on what dates he expects schools to release *(a)* GCSE and *(b)* A-level results to those sitting such examinations; [218254]

(2) what representations he has received from examination boards on progress in marking 2008 GCSE and A-level papers; and if he will make a statement. [218353]

Jim Knight: The independent regulator, Ofqual, is responsible for monitoring the processes that are in place with awarding bodies for the timely marking of GCSE and A-level papers. It has regular discussions with awarding bodies about progress. It is Ofqual's assessment that awarding bodies are on course to release A-level results to candidates on 14 August and GCSE results on 21 August as planned.

Pre-school Education

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 24 June 2008, *Official Report*, column 280W, on pre-school education, which local authorities have childminding networks delivering the free entitlement. [218176]

Beverley Hughes: Figures from the 2008 Early Years Census show that 73 local authorities have childminding networks delivering the free entitlement offer. They are:

Barnet
Barnsley
Bath and North East Somerset
Bedfordshire
Bexley
Birmingham
Blackpool
Bournemouth
Bradford
Brent
Brighton and Hove
Buckinghamshire
Calderdale
Cambridgeshire
City of Kingston Upon Hull
Cornwall
Croydon
Cumbria
Derbyshire
Devon
Dorset
Dudley
Durham
East Riding of Yorkshire
East Sussex
Essex
Gloucestershire
Hampshire

Herefordshire
Hertfordshire
Isles of Scilly
Kent
Kirklees
Lancashire
Leeds
Leicester
Lincolnshire
Manchester
Medway
Milton Keynes

North Somerset
North Yorkshire
Northamptonshire
Nottinghamshire
Oxfordshire
Peterborough
Plymouth
Poole
Portsmouth
Richmond Upon Thames
Rochdale
Rutland
Sefton
Sheffield
Somerset
South Gloucestershire
Southampton
Southend-on-Sea
Staffordshire
Stockport
Surrey
Swindon
Telford and Wrekin
Thurrock
Torbay
Warwickshire
West Berkshire
West Sussex
Wiltshire
Worcestershire
York

Secondary Education: Stoke on Trent

Paul Farrelly: To ask the Secretary of State for Children, Schools and Families what submissions his Department has received from Stoke-on-Trent City Council in respect of its preferred option for the reorganisation of the city's secondary schools; what response his Department has made to the latest submission; and if he will place in the Library a copy of the relevant correspondence. [218250]

Jim Knight: Stoke-on-Trent city council has not made a formal submission to the Department in respect of its current plans to reorganise the city's secondary schools through Building Schools for the Future (BSF).

The council has been reviewing its plans for secondary schools, following the decision to place its Children and Young People's Services under Government intervention in 2006, and we have been discussing these plans with it. We have asked the council to set out its vision for transforming secondary education through a 'Strategy for Change' for BSF. This strategy should explain how it proposes to raise secondary school standards and aspirations and address falling pupil numbers in the city. We expect this to be submitted to the Department shortly.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Batteries: Waste Disposal

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number and proportion of discarded portable household batteries which have been *(a)* recycled in the UK, *(b)* sent to landfill and *(c)* exported for recycling in each of the last five years; and if he will make a statement. [217779]

Joan Ruddock *[holding answer 10 July 2008]:* Most of the 25-30,000 tonnes of portable batteries that are placed on the market each year are currently sent to landfill. At present only about 600 tonnes are collected for recycling. The EU batteries directive sets targets that 25 per cent. of portable batteries placed on the market should be collected by 2012 and 45 per cent. by 2016.

Of the 600 tonnes of batteries collected some types are recycled in the UK (e.g. button cells) though some of the more common types (e.g. alkaline) are exported to other EU countries for recycling since at present there are no such facilities in the UK.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made towards establishing a compliance system for the recycling of household batteries to ensure producer responsibility. [217780]

Joan Ruddock *[holding answer 10 July 2008]:* The consultation on a producer responsibility scheme for household, industrial and automotive car batteries closed in March. 113 responses were received. We published a Government response to the consultation on 1 July and are now preparing draft regulations. We will consult stakeholders on these regulations in the autumn.

Biofuels

Mr. Andrew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department has taken to develop and promote sustainability criteria for the production of agrofuels. [217331]

Mr. Woolas: DEFRA is working closely with the Department for Transport, the Department for Business, Enterprise and Regulatory Reform and other domestic and international partners to ensure that policies incentivise the use of the most sustainable biomass fuels for heat and power generation and transport biofuels, with strong safeguards against unsustainable production.

The UK is playing a full part in current EU negotiations on sustainability requirements for both the renewable energy and fuel quality directives. We are pressing for robust sustainability standards for all biomass fuels. Domestically, the renewable transport fuel obligation is designed to encourage the use of only the right sort of transport biofuels. Fuel suppliers have to report on the carbon savings of their biofuels and their wider environmental impacts. We are taking forward the key findings of the Gallagher review which looked at the indirect effects of biofuels on land use change and the consequences for greenhouse gas savings, and the effects on food prices.

Carbon Emissions

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government has taken to *(a)* encourage other countries to reduce carbon dioxide emissions and *(b)* assist poor countries to reduce carbon dioxide emissions. [217571]

Mr. Woolas *[holding answer 10 July 2008]:* The UK Government are happy with the decision taken at the UN climate change conference in Bali in December to begin negotiations on a global climate change agreement to reduce emissions. This will be agreed in Copenhagen in 2009.

A key part of the negotiation process will be to look at how all countries, developed and developing, could reduce emissions of greenhouse gases and how the developed world could support developing countries.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs which *(a)* individuals and *(b)* organisations have been funded by his Department to conduct research on personal carbon trading in the last three years. [217806]

Mr. Woolas: The Government have recently completed an initial assessment of the potential value of personal carbon trading, compared to other approaches to reduce carbon dioxide emissions. The study explored some key issues highlighted by an initial scoping study produced for DEFRA by the Centre for Sustainable Energy in November 2006.

The following DEFRA-funded research was published in May:

the technical feasibility and potential cost of personal carbon trading, which was produced by Accenture;

the distributional impacts of personal carbon trading, by the Centre for Sustainable Energy; and

an assessment of the public acceptability of personal carbon trading, by Enviros and Opinion Leader.

In addition to this research, DEFRA provided a grant to the RSA (The Royal Society for the encouragement of Arts, Manufactures and Commerce) which has been leading a three year project into this area.

Carbon Emissions: Government Departments

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs (1) through what mechanism payments to the Government Carbon Offsetting Fund are made by individual Departments; and whether the calculation of the amount of carbon dioxide equivalent to be offset is made by the relevant Department or by the fund; [217355]

(2) who administers the operation of the Government Carbon Offsetting Fund. [217356]

Mr. Woolas: Individual Departments calculate their total air mileage, subdivided into domestic, short haul and long haul flights. From these figures, the emissions in tonnes of carbon dioxide equivalent, and the costs of offsetting them, are calculated using agreed formulae. This information is passed on to DEFRA, which then makes a formal request for payment into the Government Carbon Offsetting Fund holding account by the relevant Department.

EEA Fund Management administers the operation of the Government Carbon Offsetting Fund.

Climate Change

Mr. Dai Davies: To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received from the Breaking the Climate Deadlock group on climate change. [217097]

Mr. Woolas: My right hon. Friend the Secretary of State for Environment, Food and Rural Affairs (Hilary Benn) and myself have not received representations from the Breaking the Climate Deadlock group. However, DEFRA officials have recently met and maintain regular contact with the chief executive of the Climate Group, which has been working closely with Breaking the Climate Deadlock.

Domestic Wastes: Recycling

Ms Buck: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of household waste was recycled in each English local authority area in 2006-07. [214426]

Joan Ruddock *[holding answer 9 July 2008]:* The household recycling and composting rates for all English local authorities are calculated from data submitted to WasteDataFlow by local authorities. Figures for 2006-07 and the most recent two quarters published are in a table which I will deposit in the House Library.

Recycling and composting rates are affected by seasonal variation in waste generation and therefore the rates for the financial year 2007-08 may be notably different to the figures given in the table.

Domestic Wastes: Waste Disposal

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer to the hon. Member for Bromley and Chislehurst (Robert Neill) of 29 January 2008, *Official Report*, column 245W, on waste disposal: domestic waste, when the research reports on *(a)* bonfire smoke complaints and *(b)* emissions of dioxins will be placed in the Library. [217960]

Joan Ruddock: I can confirm that the reports in question were deposited in the House Library on 30 January.

Flood Control

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what procedures are in place for the Environment Agency to co-ordinate catchment flood management plans with river basin management and the EU Water Framework Directive, with particular reference to policy on land use changes. [214230]

Mr. Woolas: The Environment Agency works to ensure that flood risk management and environmental protection are brought together in the River Basin Management Plans required under the Water Framework Directive.

Catchment Flood Management Plans set out the Environment Agency's flood risk management policies. These need to be incorporated in the River Basin Management Plans so that the plans complement each other. The teams working on both sets of plans liaise regularly on the issues.

Flood Control: Training

Mr. Andrew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of levels of provision of training of flood defence and drainage engineers to ensure sufficient trained engineers in the future. [217142]

Mr. Woolas *[holding answer 10 July 2008]:* We commissioned a comprehensive report on Engineering Skills for Flood Risk Management from the Institution of Civil Engineers (ICE), which was produced in October 2004. This followed the ICE's review floods of the autumn 2000 floods.

The Environment Agency has had a capacity plan since May 2004 and a three year strategy to address the civil engineering skills shortage since August 2005. The Environment Agency also operate a Foundation Degree in Science for River and Coastal Engineering and have a new Graduate Training Programme. These are both supported by national recruitment campaigns.

The Environment Agency is currently reviewing its skills and capacity strategy in the light of various reports following the summer 2007 floods.

Flooding: Gloucestershire

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs if he will discuss with the Environment Agency the condition of the Glynbridge Gardens site of the River Chelt in Swindon village, Gloucestershire following the 2007 flooding; and if he will make a statement. [218373]

Mr. Woolas: I am aware that the Glynbridge Gardens area of Cheltenham was badly affected by flooding last summer. The Environment Agency is currently repairing damage to the river banks and flood defences along George Readings Way. The agency is also excavating material from the river channel to improve the capacity of the River Chelt. This work will be completed by the end of August and will reduce the risk of flooding in the future.

Floods

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what types of critical infrastructure were categorised as at risk of flooding by the Environment Agency in each of the last five years; and how many of each type were categorised in each year; [211902]

(2) when the Environment Agency's list of critical infrastructure at risk of flooding was last updated; and if he will make a statement. [211905]

Mr. Woolas: The Environment Agency commissioned a major project in 2007 to map and improve its understanding of flood vulnerability at a national scale. The resulting database, which draws heavily on information held by other parties, provides a summary of vulnerability to flooding in each 100 metres of land in England and Wales.

The following table sets out a summary of the Receptors Vulnerable to Flooding database. It shows the number of infrastructure assets, divided into sectors, that are at either a significant, moderate or low flood risk probability. Where the following definitions of flood risk probability are used:

Significant: the chance of flooding in any year is greater than 1.3 per cent. (1 in 75)

Moderate: the chance of flooding in any year is 1.3 per cent. (1 in 75) or less, but greater than 0.5 per cent. (1 in 200)

Low: the chance of flooding in any year is 0.5 per cent. (1 in 200) or less.

Environment Agency study showing infrastructure overlain on flood risk maps (river and sea flood plains)

	Number of sites in flood zone (flood risk probability)			
Asset	*Significant (1 in 75)*	*Moderate (1 in 75-200)*	*Low (1 in 200 or fewer)*	*Total in all three zones*
Water and sewerage	737	223	179	1,145
Electricity (generation and distribution)	2,215	2,263	3,818	8,423
Gas (works and distribution)	5	8	10	23
Telephone exchanges	82	67	86	241
Motorways (km)	139	104	132	382
A roads (km)	884	553	809	2,278
Railway lines (km)	1,470	750	948	3,213

As the Secretary of State for Environment, Food and Rural Affairs stated in the House on 25 June, electricity and water providers are responsible for ensuring continuity of supply. The electricity industry has identified just over 1,000 grid and primary sites which are in flood zones, and is working with the Environment Agency to

see which of these might need additional protection. Every water company is reviewing how its critical assets may be at risk from flooding in order to prioritise investment plans. This information will be used as the basis of a planned nationwide programme to improve the resilience of critical infrastructure which Government will produce later this year.

Food: Wastes

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he has taken to reduce food waste by *(a)* producers, *(b)* wholesalers, *(c)* processors, *(d)* retailers and *(e)* consumers. [216789]

Joan Ruddock: The Government-funded Waste and Resources Action Programme (WRAP) is working with stakeholders across the food sector—producers, wholesalers, processors, retailers and consumers—to tackle the problem of food waste. For example:

The Courtauld Commitment between WRAP and major food and drink retailers and manufacturers aims to reduce packaging waste and 'to identify ways to tackle the problem of food waste'.

WRAP will also be running a programme jointly with Envirowise to help the industry reduce packaging and food waste in the grocery supply chain.

WRAP provides an advisory service to local authorities on their waste collection arrangements, and has been involved in managing a series of food waste collection trials in 19 local authority areas. Where appropriate, WRAP is able to advise local authorities to consider opportunities for the co-collection of food waste from commercial premises with food waste from domestic properties.

WRAP is running a consumer-facing campaign, "Love Food Hate Waste", to encourage behaviour change. The campaign is being delivered in partnership with stakeholders from across the food industry and retail sector, and organisations such as the Food Standards Agency and the women's institute. Its aim is to develop practical advice, to help people get the most from the food they buy, and to waste less of it.

DEFRA is also working closely with the food industry to improve its environmental impact through the Food Industry Sustainability Strategy (FISS). The FISS targets a reduction in the food industry's own wastes of 15-20 per cent. by 2010. In responding to the targets outlined in the FISS Champions' Group on Waste report to Ministers last May, the Food and Drink Federation's "Five Fold Environmental Ambition/Making a real difference" document set themselves a target to send zero waste to landfill by 2015.

Forests: Genetically Modified Organisms

Mr. Andrew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the environmental implications of the release of genetically-modified trees. [217332]

Mr. Woolas: Under European Union legislation, any proposed release of a genetically modified (GM) organism is subject to a case-by-case risk assessment, based on appropriate scientific evidence. This process considers all the conceivable risk factors, including the potential for gene transfer to other organisms. Approval for a release will only be granted if the evidence indicates that it will not have any adverse effect on human health and the environment.

No releases of GM trees have been proposed in the UK in recent years. Trial releases in England of GM apple, eucalyptus and poplar plants were approved and completed in the 1990s.

Hazardous Substances: Fly Tipping

Mr. Denis Murphy: To ask the Secretary of State for Environment, Food and Rural Affairs how many instances of fly-tipping involving hazardous waste have been investigated by the Environment Agency in each of the last five years; and how many such investigations have resulted in convictions. [211671]

Joan Ruddock: The following table shows hazardous waste fly-tipping incidents, investigations and convictions data that has been taken from the Environment Agency's National Incident Recording System.

The term 'investigated' means that the incident has been attended or evidence has been provided by a trusted third party. Additionally not all incidents that are reported as being 'hazardous' are ultimately confirmed as such. Cases can also take many months or even years to be brought to court.

Due to changes in Environment Agency data recording systems and methods, figures prior to 2004 are not comparable.

Hazardous waste fly-tipping

	2004	*2005*	*2006*	*2007*
Reported incidents	551	478	294	308
Incidents investigated	404	321	204	215
Convictions	1	6	7	3

These figures do not include local authority prosecutions, because it is not possible to distinguish between prosecutions for hazardous and non-hazardous fly-tipping incidents.

Incinerators: Waste Disposal

Mr. Andrew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs if he will publish the results of the sampling studies which informed the recently revised Environment Agency WM2 guidance on incinerator bottom ash. [217656]

Joan Ruddock: The recent revision to WM2 (technical guidance on the interpretation of the definition and classification of hazardous wastes) was required due to changes to European chemical legislation (approved supply list) and was not the result of any sampling studies on incinerator bottom ash.

Mr. Andrew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs whether further changes are proposed to Environment Agency WM2 guidance on incinerator bottom ash; and if he will undertake public consultation on any further changes. [217657]

Joan Ruddock: The Environment Agency does not propose any further changes to WM2 (technical guidance

on the interpretation of the definition and classification of hazardous wastes) at this time.

The recent review to the chapter on the assessment of ecotoxicity was published on 16 May 2008. The assessment of ecotoxicity is applicable to all wastes and not just incinerator bottom ash. This review underwent external consultation in October 2007, as would any change to WM2.

Gordon Banks: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to incorporate small waste oil burners within the remit of the European Waste Incineration Directive (2000/76/EC). [218675]

Joan Ruddock: Regulators may determine that some devices—such as small waste oil burners—in which waste is burnt lack the technical sophistication which would place them within the definition of plants which are subject to the waste incineration directive. The use of such devices may nevertheless be subject to other controls such as those under the waste framework directive (2006/12/EC) or national environmental legislation.

Recycling: Catering

Gordon Banks: To ask the Secretary of State for Environment, Food and Rural Affairs what requirements and regulations are in place on recycling of glass, plastic and metal waste products by businesses in the catering and hospitality industries. [217572]

Joan Ruddock *[holding answer 10 July 2008]:* There are no sector specific requirements or regulations in place for recycling by businesses in the catering and hospitality industries. However, the Producer Responsibility Obligations (Packaging Waste) Regulations oblige businesses in the packaging chain which have an annual turnover of more than £2 million, and which handle more than 50 tonnes of packaging a year, to recover and recycle a specified amount of packaging waste. This amount is determined, in part, by the amount of packaging handled. The packaging recovery note (PRN) system was established as the mechanism for businesses to provide evidence of compliance with these Regulations.

Businesses with a lower annual turnover, or handling a lower tonnage of packaging, were excluded from the obligation in order to lessen the regulatory burden on small businesses.

Seas and Oceans: Biodiversity

Mr. Andrew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what research his Department has commissioned into the *(a)* feasibility and *(b)* environmental consequences of ocean fertilisation. [217333]

Mr. Woolas: DEFRA is not undertaking or commissioning research in this area.

The issue of ocean fertilisation has been considered under the convention on the prevention of marine pollution by dumping of wastes and other matter (London convention 1972) and its protocol, global legal instruments to which the UK is a contracting party. In 2007 the convention's scientific group released a statement of concern that

> 'knowledge about the effectiveness and potential environmental impacts of ocean fertilisation currently was insufficient to justify large-scale operations'.

This statement was endorsed at the meeting of the convention and protocol in November 2007. A legal intercessional correspondence group has been set up, coordinated by DEFRA, which is working with our international colleagues to review how the framework of the convention and its protocol would apply to fertilisation. Its findings will be considered at the next meeting of the London convention and protocol in October.

Warm Front Scheme

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs how many applicants were offered a grant from the Warm Front scheme but declined it in *(a)* St. Ives constituency, *(b)* Cornwall and *(c)* England in each year since 2000; and what assessment he has made of the reasons for those declined grants. [215335]

Mr. Woolas: The following table illustrates the number of Warm Front applications cancelled at the client's request and the associated number of households assisted.

No patterns in reason for cancellation have been identified, however the most common reasons include:

client moving accommodation/applicant deceased;

wishing to retain funds for heating repairs in the future; and

not interested.

	Scheme year							
Area	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
St. Ives Constituency	2	10	17	94	30	37	56	82
Cornwall (Falmouth and Cambourne, North and South East Cornwall, St. Ives, Truro and St. Austell constituencies)	16	42	120	366	191	168	264	439
England (all)	468	2,008	5,344	12,192	13,476	15,670	25,062	40,410
England (Households assisted)[1]	75,434	190,233	169,285	143,403	134,811	117,610	227,239	238,878

[1] Figures provided are based on known receipt of measure, i.e. provision of compact fluorescent light bulbs and/or installation of at least one main measure.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how many people resident in Stroud constituency applied for Warm Front grants in each year since 2000; how many of these were successful; how many were unable to proceed with the works in each year; and how many received a grant to cover partial costs only in each year. [217777]

Mr. Woolas *[holding answer 10 July 2008]:* I will write to the hon. Member with the information requested and arrange for copies to be placed in the Libraries of the House.

Waste Management: Prisons

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 9 May 2008, *Official Report*, column 1244W, on waste management: prisons, whether Schedule 2 producers may be charged for waste *(a)* collection and *(b)* disposal. [217964]

Joan Ruddock: Local authorities are entitled to charge all schedule 2 producers for waste collection, but not disposal.

Whales: Japan

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with the government of Japan on the illicit trade in whale-meat from Japan's scientific whaling programme. [218425]

Jonathan Shaw: I have not discussed this issue specifically with the Japanese Government.

I have taken note of the allegations made by Greenpeace. The UK Government continue to oppose all forms of whaling apart from some limited subsistence whaling when there is a substantiated need. The UK has also protested against Japan's 'scientific' whaling operations, which we argue are unjustified, cruel and unnecessary, at every appropriate opportunity.

Most recently, the UK maintained its strong anti-whaling position at the annual International Whaling Commission meeting which was held in Santiago, Chile in June 2008.

Written Questions: Government Responses

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs for what reason he has asked the Secretary of State for Communities and Local Government to respond to the question 216797 tabled to him by the hon. Member for Vale of York, on 3 July 2008, on development in flood risk areas, pursuant to the answer of 1 July 2008, *Official Report*, column 776W, on flood control: planning; and if he will make a statement. [217246]

Mr. Woolas: I referred the hon. Member's question to Communities and Local Government as it is the Department which has responsibility for planning issues.

COMMUNITIES AND LOCAL GOVERNMENT

Construction: Waste Disposal

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government if she will make a statement on progress made towards the zero waste construction target in the Thames Gateway area. [216799]

Caroline Flint: We are continuing to investigate how we might make the Gateway a 'zero construction waste zone' including through work with the Department for the Environment, Food and Rural Affairs and the private and public sector stakeholders to determine the costs and deliverability of doing so.

Co-operative Party

Robert Neill: To ask the Secretary of State for Communities and Local Government what meetings *(a)* she and *(b)* Ministers in her Department have had with representatives of (i) the Co-operative Party and (ii) the Co-operative Group on eco-towns. [215066]

Caroline Flint: There have been no meetings between Ministers in Communities and Local Government and either the Co-operative Party or the Co-operative Group on eco-towns. In my role as Housing Minister I was invited by my hon. Friend for Huddersfield (Mr. Sheerman) to speak about eco-towns at the Westminster Sustainable Business Forum's annual summer dinner, which was attended by their members, including representatives from the Co-operative Group. I was pleased to attend and speak at this event on 25 June 2008.

Council Tax: Second Homes

Andrew George: To ask the Secretary of State for Communities and Local Government how many properties are entitled to a second home council tax discount; and what proportion of these are charged at *(a)* 50 per cent., *(b)* 90 per cent. and *(c)* another proportion of the full charge. [217251]

John Healey: As at September 2007, local billing authorities reported there were 239,000 properties recorded as second homes for council tax purposes in England. Of these 16 per cent. of the properties were charged at 50 per cent. of the full council tax charge, 82 per cent. were charged at 90 per cent. of the full council tax charge and the remaining 2 per cent. were charged at another proportion of the full charge.

Andrew George: To ask the Secretary of State for Communities and Local Government which council tax billing authorities have exercised the power to charge *(a)* 90 per cent. and *(b)* between 50 per cent. and 90 per cent. of the council tax charge on second homes. [217265]

John Healey: I have today placed in the Library, a table containing details of the authorities in England that have exercised the power to charge *(a)* 90 per cent. and *(b)* between 50 per cent. and 90 per cent. of the council tax charge on second homes.

Departmental Buildings

Pete Wishart: To ask the Secretary of State for Communities and Local Government on which buildings occupied by her Department's agencies and non-departmental public bodies the lease will be due for renewal in the next four years. [214672]

Mr. Dhanda: The following buildings, which are leased and occupied by the Communities and Local Government agencies and non-departmental public bodies, have leases due for renewal in the next four years.

Audit Commission

2nd Floor, Witham House, The Pelham Centre, Canwick Road, Lincoln, LN5 8HE

Part 4th Floor, County Hall, Martineau Lane, Norwich, NR1 2UG

Suite 1, Observer House, Horsefair, Abbey Foregate, Shrewsbury, SY2 5DE

Part Grd Floor, Opus House, Priestly Court, Staffordshire Technology Park, Beaconside, Stafford, ST18 0LQ

2nd Floor, Sheffield House, Lytton Way, off Gates Way, Stevenage, SG1 3HB

Rooms 201-205, Crosskill House, Mill Lane, Beverley, HU17 9JB

1st Floor Rear, 16 South Park, Sevenoaks, Kent, TN13 1AN

Community Development Foundation

Baltic Chambers, Units 301-309, 50 Wellington Street, Glasgow, G2 6HJ

The Geoffrey Hubbard Building, The Michael Young Centre, Purbeck Road, Cambridge, CB2 2HM

Josephs Well, Suites 6D and 4D Josephs Well, Hanover Walk, Leeds, LS3 1AB

English Partnerships

Ground Floor, Block B, Southfield House, Southfield Way, Durham DH1 5JY

Upper Ground Floor Parkside Grove Road Weston-Super-Mare North Somerset BS23 2AA

Departmental Computers

Mr. Peter Ainsworth: To ask the Secretary of State for Communities and Local Government what estimate she has made of *(a)* the number of computer devices left on overnight in her Department when not in use and *(b)* the cost per year of leaving computer devices on overnight when not in use in each of the last five years; and if she will make a statement. [217860]

Mr. Dhanda: The Department does not compile ongoing records for this information. A spot check conducted overnight in one departmental headquarter building (Eland House) during July 2008 established that computer devices left on overnight when not in use represented 2.3 per cent. of total computer devices within that building.

Departmental records for this information have not been compiled and do not exist for the last five years.

Departmental Early Retirement

Mr. Redwood: To ask the Secretary of State for Communities and Local Government how many staff in her *(a)* Department and *(b)* Department's agencies have taken early retirement in the last two years. [217377]

Mr. Dhanda: 166 staff from Communities and Local Government and 26 staff in the Department's agencies have taken early retirement in the last two years.

Departmental Email

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether *(a)* civil servants, *(b)* Ministers and *(c)* special advisers in her Department are permitted to access webmail accounts from departmental computers. [217836]

Mr. Dhanda: All staff (inclusive of those aforementioned) can access webmail for personal use and for emailing non-protectively marked information. However, this is currently under review.

Departmental Pay

Mr. Redwood: To ask the Secretary of State for Communities and Local Government what proportion of staff of her Department and its agencies did not receive the maximum bonus possible under a bonus scheme applying to them in the last two years. [217369]

Mr. Dhanda: The following table shows the proportion of staff who did not receive the maximum bonus possible under a bonus scheme applying to them in the last two years.

	Staff below senior civil service	*Percentage Senior civil service*
2006-07	73	100
2005-06	87	100

Pay settlements for 2008 have not yet been agreed. Staff below the SCS who received an overall 'exceeded' marking in their 2005-06 and 2005-06 performance report received a non-consolidated performance award, paid as a non-pensionable lump sum.

The maximum bonus for SCS staff in each of the last two years was 20 per cent. of existing salary. No members of the SCS received a bonus of 20 per cent. of existing salary in these periods.

In Communities and Local Government, bonus payments are made to those members of staff who are found to have made a significant contribution towards the achievement of the team's, and/or Department's, objectives. Individuals are expected to show that they have exceeded the requirements set for the achievement of the objective and have demonstrated exemplary behaviour in doing so.

Our senior civil service staff members are also assessed against a range of factors, such as:

The achievement of their prime objective which focuses on the way in which they lead, manage and develop their staff;

Degree to which business objectives are met;

Delivery for Ministers;

Demonstration of skills such as judgement, leadership and the PSG skills;

Effective resource management.

Details of bonuses paid in the Department's agencies are not held centrally.

Deprivation Indicators

Ms Buck: To ask the Secretary of State for Communities and Local Government if she will rank *(a)* the bottom 100 super output areas as measured by the index of multiple deprivation, showing the local authority in each case and *(b)* the bottom 100 local authority wards as measures by the index. [216924]

John Healey: The following table lists the lowest ranked 100 (i.e. most deprived) super output areas by local authority.

As the index is not produced at ward level I am unable to supply the list of the lowest ranked 100 local authority wards.

Lower super output area code	*LA name*	*GOR name*	*Rank of IMD (where 1 is most deprived)*

Economic and Monetary Union

Mr. Maude: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 18 June 2008, *Official Report*, column 950W, on economic and monetary union, if she will place in the Library a copy of *(a)* her Department's euro changeover plan as updated in June 2007 and *(b)* the plans of each of the agencies and non-departmental public bodies listed in the Answer. [217440]

Mr. Dhanda: The Communities and Local Government euro changeover plan was placed in the Library in February 2006.

There has been no change of note to Communities and Local Government and its agencies and NDPB's euro changeover plans since then.

It is therefore not proposed, for this reason, to place a copy of such plans in the Library at the present time.

Eco-towns

Michael Fabricant: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 1 July 2008, *Official Report*, column 715, on eco-towns, whether the required planning consents for eco-town developments will be determined exclusively by local planning authorities. [217001]

Caroline Flint: We would expect applications for eco-towns to be considered as a planning application by the appropriate local planning authority unless called in by the Secretary of State. In such cases these powers would be used in accordance with normal and established practice in development control.

Eco-towns: Motor Vehicles

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 19 May 2008, *Official Report*, column 38W, on eco-towns: motor vehicles, how the composition of a New Town corporation will be determined in circumstances where her Department judges such a delivery vehicle is required; and what role in determining planning applications relating to eco-town developments such a corporation would have. [217959]

Caroline Flint: We would only use these powers in exceptional circumstances to support delivery of complex and challenging developments, and where partner local authorities could see benefit in the exercise of these powers, for example where the task of infrastructure provision and related investment was of a scale where a statutory body would have significant advantages. We have no current plans to establish a body.

Eco-towns: North East Elsenham

Mr. Prisk: To ask the Secretary of State for Communities and Local Government (1) what assessment her Department has made of the effect of the proposed eco-town development at North East Elsenham on the surrounding economies in East Hertfordshire, with particular reference to the economy of Bishop's Stortford; [216945]

(2) what assessment she has made of the likely locations for employment of residents of the proposed eco-town development at North East Elsenham if the development proceeds. [216946]

Caroline Flint: We have published the initial assessments of all the proposed locations, including Elsenham, on our website, and we are further reviewing the issues raised there, including impacts on growth and regeneration of the surrounding areas for these locations.

We have assessed Elsenham and all the eco-town proposals against a criteria relating to jobs and the outcomes we expect to see. This includes developing a clear strategy to maximise employment opportunities and enabling links to existing clusters of employment. We will also be consulting on employment and the other criteria in the draft planning policy statement on eco-towns.

Eco-towns: Planning

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether the provision of *(a)* roads, *(b)* railways, *(c)* water and *(d)* sewage infrastructure serving eco-towns will be (i) governed by the general frameworks set in National Policy Statements and (ii) determined by the Infrastructure Planning Commission. [216985]

Caroline Flint: I refer the hon. Member to my answers of 7 May 2008, *Official Report*, column 1037W, given to the hon. Member for Brentwood and Ongar (Mr. Pickles), and 1 July 2008, *Official Report*, column 788W, given to the hon. Member for Welwyn Hatfield (Grant Shapps).

Eco-towns: Public Participation

Peter Luff: To ask the Secretary of State for Communities and Local Government what geographical criteria were used when selecting interviewees for the Andrew Irving Associates YouGov survey on eco-towns, published by her Department on 30 June; what information was provided to these interviewees before their interview; and if she will place in the Library a copy of *(a)* the commissioning brief for and *(b)* the results of the survey. [218171]

Caroline Flint: With regards to the geographical criteria used in selecting interviewees for the recent YouGov survey on eco-towns, I refer the hon. Member to the answer I gave to the hon. Member for Harborough (Mr. Garnier) on Monday 7 July 2008, *Official Report*, column 1355W.

No information was provided to respondents beforehand as the survey sought to ascertain their current knowledge and opinions. The omnibus survey was commissioned verbally so we cannot provide a copy of the commissioning brief but the results of the survey will be placed in the Library.

Energy Performance Certificates

Grant Shapps: To ask the Secretary of State for Communities and Local Government which public agency will be responsible for *(a)* enforcing the display energy certificate requirements and *(b)* issuing fines for breaches of such requirements. [216022]

Caroline Flint: Local authority trading standards officers will be responsible for compliance with the requirements and will issue civil financial penalties where appropriate.

Grant Shapps: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the impact assessment for display energy certificates. [216023]

Caroline Flint: The impact assessment for display energy certificates forms part of the 'Regulatory Impact Assessment Energy Performance of Buildings Directive Articles 7-10', published in March 2007. This was deposited in the Library on 23 March 2007.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what guidance her Department has provided on compliance with the display energy certificates requirements. [216024]

Caroline Flint: The Department produced, 'A guide to Display Energy Certificates and advisory reports for public buildings' which was published in May. This guidance was produced in consultation with a range of stakeholders. It explains among other things what a DEC is, how it should be produced and how the requirement will be enforced.

Essex County Fire and Rescue Service

Mr. Francois: To ask the Secretary of State for Communities and Local Government (1) how much the Essex Fire and Rescue Service spent on *(a)* overseas training courses and *(b)* overseas conferences or visits in each of the last five years; [218339]

(2) how many administrative staff from Essex Fire and Rescue Service attended the conference in Texas in June 2008 attended by the service's chief and assistant fire officers; [218340]

(3) what the gross salaries, including bonuses and other benefits, of the chief and assistant chief fire officers of the Essex Fire and Rescue Service were in the most recent period for which figures are available; [218341]

(4) who was in operational command of the Essex Fire and Rescue Service in the absence of the chief fire officer and assistant chief fire officer in June 2008; [218342]

(5) how much the attendance of the chief fire officer and assistant chief fire officer of the Essex Fire and Rescue Service at the fire safety conference in Texas in June 2008 cost the public purse. [218343]

Mr. Dhanda: The information requested is not held centrally and is a matter for Essex Fire and Rescue Authority.

Home Information Packs

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what proportion of those compiling home information packs supplemented the required local searches with searches commissioned by home buyers since the introduction of the packs. [217839]

Caroline Flint: Given the confidential relationship between solicitors and their clients it is not currently possible to accurately obtain data on this issue.

Homelessness

Ms Buck: To ask the Secretary of State for Communities and Local Government how many and what proportion of homeless households had duty discharged to them because they rejected temporary accommodation offered in *(a)* England, *(b)* each region and *(c)* each London local authority in each of the last five years. [217139]

Mr. Iain Wright: The information requested is not collected centrally.

Homes and Communities Agency

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what functions relating to the Thames Gateway undertaken by the Thames Gateway Executive she plans to transfer to the Homes and Communities Agency prior to March 2009; what the timescale for such transfers is; and if she will make a statement. [216960]

Caroline Flint: I refer the hon. Member to the written ministerial statement made on 10 January 2008, *Official Report*, columns 11-12WS, by my right hon. Friend the Member for Pontefract and Castleford (Yvette Cooper).

Subject to progress with the Housing and Regeneration Bill, we plan to set up the Homes and Community Agency in April 2009, and for the transfer of functions to be complete by then. However, in order to give greater certainty to staff and stakeholders, and to bring forward the benefits of the new Agency, we are exploring the scope for accelerating its establishment.

Housing and Planning Delivery Grant

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what final allocation criteria are being used for housing and planning delivery grant; what the timetable is for the first payments to be assessed and made; and what performance indicators will be collected from local authorities for the purposes of the delivery grant allocation; [216018]

(2) how much her Department has allocated for the Housing and Planning Delivery Grant in each year of the current Spending Review period. [216020]

Caroline Flint: The consultation paper Housing and Planning Delivery Grant (HPDG) consultation on the allocation mechanism, published in October 2007, set out proposed allocations in each year of the current spending review period as follows:

	£ million
2008-09	£100
2009-10	£160
2010-11	£250

Confirmation of the final allocation mechanism and provisional allocations for the current spending period will be announced shortly. Payments will follow in autumn this year. Assessment criteria for allocations will be based on data collected as part of the local performance framework national indicator set.

Housing: Finance

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government what the surplus in the national housing revenue account was in 2007-08; what estimate she has made of the likely account surplus in each of the next five years; and to what use the account surplus is put. [212325]

Caroline Flint: There was no national surplus in 2007-08 arising from the housing revenue account subsidy calculations. Our current estimate of the potential surplus in 2008-09 is £195 million. It is too soon to say what the actual figure for the current financial year will be, but it will be different from estimates depending on factors such as interest rates, and the dwelling stock remaining in local authority ownership.

Beyond 2008-09, our forecasts will depend on decisions yet to be taken by Ministers on the annual housing revenue account subsidy determination, on which we aim to consult shortly with local authorities.

Housing: Standards

Mrs. Riordan: To ask the Secretary of State for Communities and Local Government what steps her Department is taking to ensure that the home-building industry adopts lifetime homes standards in new housing. [217116]

Caroline Flint: As stated in the National Strategy for Housing in an Ageing Society, in the first instance Lifetime Homes Standards will be a mandatory element in the Code for Sustainable Homes at level 6 from 2008, at level 4 from 2010 and level 3 from 2013. This will have the effect of ensuring that all public sector funded housing is built to Lifetime Homes Standards from 2011.

We will also monitor how the take up of Lifetime Homes Standards is working in the new home market generally and will undertake a review of progress across all sectors in 2010. We will then consider whether further measures are necessary.

In the meantime we have established a Building Regulations Advisory Committee Working Group to look at the issue of Adaptable Housing and Lifetime Homes. We will also work with stakeholders to develop further technical guidance for designers and developers who wish to include the standards in new homes.

Housing: Carbon Emissions

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what progress has been made in establishing a Green Homes Service in the Thames Gateway area; and if she will make a statement. [216800]

Caroline Flint: The Department is currently developing proposals for energy advice services for the Thames Gateway with the Energy Savings Trust, which will be supported by up to £1.5 million of CLG funding.

Local Authorities: Community Relations

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what requirements she plans to impose on local authorities to establish a tension monitoring committee; and whether such groups will monitor *(a)* complaints of noise nuisance and *(b)* high hedge disputes. [217833]

Mr. Dhanda: Tension monitoring is not a mandatory requirement for local authorities.

"The Guidance for local authorities on community cohesion contingency planning and tension monitoring", published on 6 May 2008, sets a framework which each local authority can use to monitor local issues that may lead to tension and to put plans into operation if a problem is identified. These issues could include complaints about noise nuisance or high hedge disputes. It is up to each local authority to determine the scope of their tension monitoring and contingency planning.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether the functions of local authority tension monitoring groups will include monitoring the activities of local political parties. [217852]

Mr. Dhanda: "Guidance for Local Authorities on Community Cohesion Contingency Planning and Tension Monitoring" published on 6 May 2008, sets a framework which local authorities can use to monitor local issues that may lead to local community tensions and to put plans into operation if a problem is identified. It is up to each local authority to determine the scope of their tension monitoring and contingency planning.

Parish Councils

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what criteria parish councils are required to meet to be eligible to use the power of well-being. [217802]

Mr. Dhanda: The conditions which must be met for a parish council to be eligible to use the well-being powers will be prescribed by order to be made under section 1(2) of the Local Government Act 2000 (inserted by section 77 of the Local Government and Public Involvement in Health Act 2007). It is intended to make this Order before the end of 2008.

Property Development

Mark Pritchard: To ask the Secretary of State for Communities and Local Government if she will put in place measures to inform local authorities to criminal convictions of development companies. [214452]

Mr. Dhanda: Communities and Local Government have no plans to put such measures in place.

Recreation Spaces: Thames Gateway

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what proportion of open green space in the Thames Gateway area is managed to Green Flag award standards; and if she make a statement. [216979]

Caroline Flint: A total of 554 green spaces received a Green Flag Award in July 2007 and 28 sites are in the Thames Gateway area. This year's winners will be announced on the 17 July. A list of Green Flag Award winning parks is available on the Green Flag website at www.greenflagaward.org.uk and includes those in the Thames Gateway area.

Regional Planning and Development: Thames Gateway

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what progress has been made towards the Thames Gateway Delivery Plan's objectives for the capital development programme of the London Thames Gateway Development Corporation in respect of *(a)* the Innogy site acquisition, *(b)* the Carpet Right site in Rainham, *(c)* the upgrade of Prescot Lock, *(d)* the Barking town buy-backs and *(e)* the Wildspace Conservation Park visitor centre. [216978]

Caroline Flint: The London Thames Gateway Development Corporation's Corporate Plan for 2008-09 to 2010-11 was published on 7 May 2008. The Corporate Plan sets out how they will investment some £237 million to take forward the strategic regeneration of the Lower Lea Valley and Barking-Havering Riverside areas.

Progress on the individual developments is as follows:

(a) Innogy site acquisition (spend to date £18.85 million)

This 26 acre site at Dagenham Dock was acquired by the corporation in May 2008 for around £18 million and will form part of the London Sustainable Industries Park, which is being developed jointly with the London Development Agency. The site has been acquired to provide premises for Environmental Technology Industries some of whom are being relocated to allow other projects in the London Thames Gateway to proceed as planned. The corporation are already in negotiation with a number of businesses and the first deals are expected to be agreed later this year.

The first occupier of the Sustainable Industries Park, Closed Loop Recycling, the UK's first food grade plastics recycling facility, opened on 27 June. The plant will divert a significant amount of waste from landfill.

(b) Carpetright site in Rainham (spend to date £15.87 million)

The seven acre site at New Road, Rainham was acquired by the corporation in March 2007 subject to a leaseback to Carpetright plc until May 2008. The deal helped facilitate the development of a new state of the art distribution centre for Carpetright in Thurrock and has released seven acres of land adjacent for new housing and jobs adjacent to Rainham Village centre.

Agents have been appointed to seek a private sector partner to progress the project and the opportunity will be advertised later this month.

In the meantime a contract to progress the demolition of most of the buildings on the site has been let and terms have been agreed to let another of the buildings to Havering College to establish a Construction Skills Training Centre. This will be a temporary facility while the corporation works with Havering College to develop a new 80,000 square foot campus on an adjoining site. This is planned to open in 2011.

(c) Upgrade of Prescott Lock (spend to date £5 million)

The corporation has contributed £5 million towards the construction of water control structures in Prescott Channel and Three Mills Wall River. The project will achieve tidal exclusion and allow waterborne freight delivering construction materials to the Olympic Park. The project is located in a deprived area with the potential for future housing and other developments and will result in a number of environmental, social, leisure and health benefits through the creation of a useable waterway park, an increase in boat journeys, use of cycle paths and walkways. British Waterways is the delivery agent for the project and partners include the corporation, DFT and TfL.

The project started on site in March 2007 and the planned completion date is now February 2009. This is slightly behind schedule due to land contamination issues and the discovery of an unexploded bomb on 2 June 2008 but the project is now on track to provide significant benefits to the local community by removing heavy goods vehicles from the road network and creating an improved environment for existing and new waterside homes and businesses.

(d) Canning Town buy-backs (spend to date £8.8 million)—there is no buy back programme in Barking Town.

The investment by the corporation of £9.9 million for the Canning Town buy-backs has helped to achieve vacant possession of most of the site ear-marked for the first phase of the Canning Town centre re-development. Only three properties now remain outstanding and negotiations with the owners are ongoing.

Demolition work is progressing in parallel to clear the site. A panel of developers has now been appointed who will be invited to tender for the site in September 2008 with a start on site planned for summer 2010.

(e) Wildspace Conservation Park visitor centre (spend to date £1.9 million on related access and improvement projects)

Wildspace is being developed as a flagship green space for the Thames Gateway on 1,500 acres in Havering and Thurrock. The corporation are working in partnership with a number of organisations including the local authorities the Royal Society for the Protection of Birds and Veolia to deliver a number of projects across the park. Projects completed to date include the Purfleet Environment and Visitor Centre (part funded by Thurrock Thames Gateway Development Corporation and managed by the RSPB); The Rainham to Purfleet path and cycleway; Discovery Zones; and improved bus access

routes to Ferry Lane. The Wildspace Project Board meet on 8 July to agree a detailed programme of work for the next five years.

Safer and Stronger Communities Fund: Thames Gateway

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how much funding under the Safer and Stronger Communities Fund has been drawn down in the Thames Gateway area in each year since 1 April 2005, broken down by local authority area; and if she will make a statement. [216959]

Caroline Flint: The information is provided in the following table. This shows amounts received by local authorities in the Thames Gateway area from the following CLG funding streams which merged to form the Safer and Stronger Communities Fund from April 2005: neighbourhood management pathfinders, the liveability fund, neighbourhood wardens, single community programme, the neighbourhood element, and the cleaner safer greener element. As 2005-06 was a transitional period, the figures include amounts paid in that year for funding streams that merged into the SSCF from April 2006.

£

Local authority	Total 2005-06	2006-07	2007-08
Barking and Dagenham	285,546	81,007	0
Bexley	0	0	0
Greenwich	2,009,578	115,010	473,000
Havering	0	0	0
Lewisham	425,300	57,991	0
Newham	426,853	1,551,901	1,646,000
Tower Hamlets	701,970	2,048,142	2,162,000
Thurrock	0	0	0
Southend-on-Sea	0	412,800	516,000
Castle Point	0	0	0
Basildon	222,060	0	450,000
Rochford	0	0	0
Medway	1,725,000	0	0
Swale	0	0	0
Dartford	0	0	0
Gravesham	0	0	0

Sustainable Development: Thames Gateway

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what progress has been made on the establishment of an eco-quarter in the Thames Gateway area in 2008-09; and if she will make a statement. [216958]

Caroline Flint: The Thames Gateway Eco-Quarter concept was proposed in November 2007 in the Thames Gateway Delivery Plan, as an extension of the Eco-Towns programme. Further development of the Eco-Quarter concept is being considered in the context of the current ongoing work on Eco-town assessments, the forthcoming Planning Policy Statement and initial Eco-town selection.

Lembit Öpik: To ask the Secretary of State for Communities and Local Government how much her Department has allocated to fund the Thames Gateway element of *(a)* the green homes project and *(b)* the Act on CO2 advice line for 2008-09. [217242]

Caroline Flint: Over the next three years the Department has allocated up to £1.5 million to fund energy advice services to be provided through the Energy Saving Trust in the Thames Gateway.

Transport: Thames Gateway

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government if she will provide a breakdown of the expenditure to date in respect of local transport projects identified for funding under the auspices of the Community Infrastructure Fund in the Thames Gateway area by main budget area; and if she will make a statement. [216798]

Caroline Flint: The following table sets out the allocations to the Thames Gateway projects under the first round of the Community Infrastructure Fund.

Project	Allocation (£ million)
Fastrack—Everard's Link	6.080
Fastrack—Thames Way	7.370
Fryerns/Craylands, Basildon	5.896
Langdon Park DLR Station	5.700
Greenwich Waterfront Transit/East London Transit/DLR Bank-Lewisham 3 Car Upgrade	34.000
Pontoon Dock Station Bridge	1.340
Tidal Basin Roundabout	0.960
Woolwich New Road	2.620

Expenditure on these projects was incurred in the financial years 2006-07 and 2007-08 except for two projects where flexibility has been formally agreed allowing the projects to spend the following amounts in 2008-09:

Fastrack Everard's Link: £0.7 million; and

Pontoon Dock Station Bridge: £ 1.277 million.

These amounts are included in the total allocation figures for these projects shown in the table.

Working Neighbourhoods Fund: Thanet

Dr. Ladyman: To ask the Secretary of State for Communities and Local Government how much her Department has allocated to Thanet from the Working Neighbourhood Fund; for what purposes it has been allocated; and how it will be spent. [218346]

John Healey: Thanet has been awarded £1,012,404 from the Working Neighbourhoods Fund (WNF) for 2008-09. The authority will receive further funding in 2009-10 and 2010-11.

The purpose of the WNF is to provide resources to local authorities that have some of the highest concentrations of worklessness and lowest levels of skills and enterprise. As WNF is paid as an element of Area Based Grant Thanet district council has the freedom and flexibility to use the funding in innovative ways to meet the objectives of the fund.

INTERNATIONAL DEVELOPMENT

Africa: Infant Mortality

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of his Department's policies designed to reduce the rate of child mortality in Central and Western Asia in the last three years. [217017]

Mr. Malik: The Department for International Development (DFID) supports health programmes in Pakistan, India, Bangladesh, Nepal and Kyrgyzstan which include initiatives to reduce child mortality. These focus on essential care of newborns, nutrition interventions including breast feeding promotion, immunisation, early community and hospital management of common childhood illnesses, and improved water and sanitation. Under-five mortality has fallen in all these countries in the past three to five years and DFID's support aims to accelerate this rate of reduction.

Developing Countries: HIV Infection

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development from what sources the $60 billion committed to fighting HIV and AIDS by the G8 at Heiligendamm in June 2007 will be provided; and what proportion of that sum has been committed by the Government. [217224]

Gillian Merron: At the G8 summit in Heiligendamm in 2007, the G8 committed to scale up their efforts to provide a projected $60 billion over the coming years for disease control and health systems. One of the UK Government's objectives at Toyako was to encourage other donors and developing countries to meet those commitments.

The Toyako 2008 G8 communiqué builds on and takes forward the commitments made at previous G8 meetings and reiterated its commitment to the goal of universal access and to continue efforts to work towards the goal of providing at least a projected US$ 60 billion over five years (by mid 2012) to fight infectious diseases and strengthen health.

In "Achieving Universal Access—the UK's strategy for halting and reversing the spread of HIV in the developing world" the Government committed £6 billion to strengthen health systems and services over seven years to 2015, including for HIV-AIDS support. In addition to this recent commitment, the UK Government have made a long-term commitment of £1 billion (2007-15) to the Global Fund to fight AIDS, Tuberculosis and Malaria.

A copy of the updated strategy 'Achieving Universal Access—the UK's strategy for halting and reversing the spread of HIV in the developing world' and supporting evidence paper have been placed in the Libraries of both houses. These are also available on the Department for International Development (DFID) website:

www.dfid.gov.uk.

Developing Countries: Trade

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what steps his Department takes to advocate particular trade proposals to developing countries; and what factors are taken into account in deciding whether to advocate a particular proposal. [217038]

Mr. Thomas: Development has been at the heart of UK's trade policy for the past 10 years. The Government have promoted trade policies that bring real benefits to developing countries. This continues to be our position in various ongoing global and regional trade talks involving both developed and developing countries.

The Department for International Development (DFID) also aims to provide countries with the tools and knowledge they need to form their own positions in trade negotiations. DFID funds research through the World Bank, UN and think tanks on critical trade and development issues. For example, DFID has supported IDEAS, a Geneva based NGO, to help West African cotton producing countries to better grasp the challenges and opportunities linked to emerging proposals on cotton in the WTO negotiations.

DFID supports a number of initiatives which strengthen developing countries trade policies. For example, the Enhanced Integrated Framework will help developing countries to mainstream trade within their broader policies on growth and development.

EU Aid

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development (1) what assessment he has made of the effect of the Lisbon Treaty not coming into effect on the delivery of the EU humanitarian aid programme; [213237]

(2) what assessment he has made of the possible effect of the Lisbon Treaty being abandoned on the delivery of the EU humanitarian aid programme; [217043]

(3) what the reasons were for his statement in his Department's latest departmental report that the success and adoption of the 2007 Lisbon Treaty was necessary to provide a clear legal basis for humanitarian aid. [217042]

Mr. Douglas Alexander: The EU as a whole is the world's largest provider of humanitarian aid. The EU's mechanisms and structures for humanitarian response give it global capability and capacity to respond to a range of disasters.

The Lisbon treaty (article 214) states that the adoption of the framework of the Union's humanitarian aid operations will be by qualified majority and co-decision. This is not new. The existing framework regulation on humanitarian assistance (regulation 1257/96 of 20 June 1996) was adopted using qualified majority voting, on the basis of development cooperation provisions introduced at Maastricht (currently article 179 of the EC treaty).

The change made by the Lisbon treaty is to provide a specific legal base for such assistance and to make clear that humanitarian aid must conform to principles of impartiality, neutrality and non-discrimination. These principles make clear that the delivery of aid must be guided by need and not by political or ideological considerations. This provision, including the specification of the appropriate legal base, is a positive innovation of the treaty and the Government supports it. These changes will not come in unless and until the Lisbon treaty enters into force.

My right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs set out the Government's position on pursuing the entry into force of the Lisbon treaty following the result of the referendum in the Republic of Ireland in a statement to the House on 16 June 2008. My right hon. Friend the Prime Minister also made a statement to the House on the outcome of the discussions at the European Council on 23 June 2008.

France: Foreign Relations

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what steps his Department has taken to strengthen relations with France prior to its assuming the EU presidency, as referred to in his Department's most recent departmental report; and what effect those steps have had on the UK's influence over how EU aid is distributed. [217046]

Mr. Thomas: The Department for International Development has been working with other Whitehall departments to strengthen our relationships with France on development. I and my ministerial colleagues have had several meetings with French counterparts, as have my senior officials. The UK-France summit provided evidence of the close working relationship between the UK and France on development, with the communiqué noting shared commitments in a number of areas.

At an EU level, we worked closely with the French Government to agree at the June European Council an agenda for action on the millennium development goals, which demonstrates the EU's leadership in accelerating progress on poverty reduction. The UK will continue to liaise closely with France and other member states on the level of Community assistance to partner countries in discussions in the Council.

Independent Advisory Committee on Development Impact

Daniel Kawczynski: To ask the Secretary of State for International Development who appointed the members of the Independent Advisory Committee on Development Impact. [218638]

Mr. Douglas Alexander: Members of the Independent Advisory Committee on Development Impact were appointed by the Secretary of State for International Development.

Selection complied with the Commissioner for Public Appointments' code of practice.

Daniel Kawczynski: To ask the Secretary of State for International Development what the salary and other remuneration is of the Chairman of the Independent Advisory Committee on Development Impact. [218639]

Mr. Douglas Alexander: Work undertaken by the Independent Advisory Committee on Development Impact (IACDI) is paid on an honorarium basis. The chairman receives £250 per day, on a three year contract (up to a maximum of 80 days). The Department for International Development (DFID) will also meet the cost of travel and expenses necessarily incurred in respect of the appointment.

Daniel Kawczynski: To ask the Secretary of State for International Development what the cost has been of running the Independent Advisory Committee on Development Impact since its inception. [218641]

Mr. Douglas Alexander: The cost to date has been approximately £40,000. This has covered: recruitment of International Advisory Committee on Development Impact (IACDI) members; committee members' fees and expenses; and the Evaluation Department Secretariat's direct costs.

Daniel Kawczynski: To ask the Secretary of State for International Development what authority the Independent Advisory Committee on Development Impact has to expose shortcomings in his Department. [218642]

Mr. Douglas Alexander: The Independent Advisory Committee on Development Impact has been established to strengthen and assure the independence of the evaluation function in the Department for International Development (DFID), and the use of evaluation results to enhance delivery and impact of UK development assistance.

The full terms of reference of the Committee are available on DFID's external website:

www.dfid.gov.uk

Overseas Aid

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what steps his Department has taken towards delivering the millennium development goals call to action in 2008. [217229]

Mr. Thomas: The Department for International Development (DFID) leads the Government's involvement in the MDG Call to Action campaign. The campaign aims to encourage action by a wide range of stakeholders,

including governments, the private sector, NGOs, faith groups and other parts of civil society to accelerate progress on the MDGs and help make 2008 a turning point in the fight against poverty.

We have worked with other Government Departments to ensure that summits of the EU, and G8 discuss MDG issues. We are also actively supporting preparation by the UN of their High Level Event on 25 September, which will be attended by governments and other key stakeholders. We hope that this meeting will be a focal point for adding further momentum to efforts to achieve the MDGs.

In May this year the UK Government co-hosted an event in London along with the United Development Programme (UNDP) on the Business Call to Action (BCTA). At the meeting more than a dozen global companies announced new initiatives which use their unique business skills to solve problems on the ground and to transform people's lives. Since then DFID has been working with the World Economic Forum, UNDP and the International Business Leaders Forum as part of the preparations for a UN-hosted Private Sector Meeting in September.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development which members of his Department plan to attend the high-level meeting on the millennium development goals in New York in September 2008; and what the projected travel and accommodation costs are. [217230]

Mr. Douglas Alexander: We have yet to decide on the numbers, and therefore the costs, of the UK delegation. I intend to attend.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development which countries have agreed to support the Call to Action initiative as a result of UK intervention; and whether his Department continues to seek the support of more countries. [217231]

Mr. Thomas: To date 45 countries have signed up to the Call to Action initiative. In order to help efforts to get the MDGs back on track, the UK Government have actively encouraged countries to sign up to the Call to Action and attend the UN High Level Event in September. UK Government representatives have sought to raise the Call to Action with bilateral partners in a range of meetings over the past year, helping increase the numbers of signatory countries.

The Department for International Development, as part of a concerted effort with other UK Government Departments and other stakeholders, continues to seek the support of more countries for the Call to Action.

Overseas Aid: Health

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what provision the International Health Partnership makes for *(a)* co-ordination among aid donors and *(b)* a development focus on health systems; and if he will make a statement. [217232]

Mr. Douglas Alexander: At the global level, the International Health Partnership (IHP) provides a framework for the eight major international health agencies, the "H8", to co-ordinate and accelerate their efforts to meet the health-related MDGs. In addition, at country level, IHP country teams bring aid donors together with governments to develop "country compacts". These compacts commit development partners to co-ordinate their support around a government-led health plan that includes a national strategy for health systems strengthening.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what criteria were used to select the eight countries where the International Health Partnership has been implemented; and what plans there are to extend it to further countries. [217233]

Mr. Douglas Alexander: The first eight countries to join the International Health Partnership (IHP) were selected on a number of criteria including:

good leadership in the health sector;
several donors active in the health sector; and
a good prognosis for delivering.

All eight countries indicated their interest in further developing and testing the IHP in its early stages.

The IHP is not exclusive. Madagascar and Nigeria have joined the IHP since the launch. Any country interested in joining the IHP can approach the WHO and World Bank directly, once they have discussed IHP membership with their partners in-country.

Tamils

Mr. MacDougall: To ask the Secretary of State for International Development if he will make a statement on the humanitarian situation of Tamils in Sri Lanka. [218669]

Mr. Malik: The humanitarian situation in Sri Lanka is remains very serious. As a result of violence, long-term conflict and the 2006 tsunami, there are over 800,000 internally displaced persons. The continuous closure of the main A9 highway linking the Jaffna peninsula with the mainland has made land access impossible for the mainly Tamil speaking residents, severely compromised the local economy and led to the increase in the prices of essential items. Internally displaced people from the Jaffna district as well as parts of north-eastern Sri Lanka remain unable to return to their homes due to the demarcation of large areas as "High Security Zones".

The UK, EU and the wider international community have repeatedly pressed the Sri Lankan government and the LTTE to guarantee free access for relief agencies to deliver humanitarian aid to all Sri Lankans affected by the fighting. In September 2007, the Department for International Development (DFID) contributed £1 million to the UN and the International Committee of the Red Cross to help provide protection and humanitarian assistance to people affected by the violence. DFID has already contributed a further £250,000 to the International Committee of the Red Cross (ICRC) 2008 Appeal. DFID continues to closely monitor the humanitarian situation, including by sending regular monitoring missions to Sri Lanka, the last being in November 2007.

Transparency International: Finance

Colin Burgon: To ask the Secretary of State for International Development what funding his Department provided to Transparency International in *(a)* 2005, *(b)* 2006 and *(c)* 2007; and how much of such funding was allocated to projects in Venezuela. [218601]

Mr. Douglas Alexander: The Department for International Development has provided the following funding to Transparency International:

	£
2005-06	250,000
2006-07	1,000,000
2007-08	[1]1,125,000

[1] Estimated

All of this was unrestricted funding provided to the Berlin-based Transparency International Secretariat. None was ear-marked for Venezuela.

JUSTICE

Credit Cards: Fraud

Mr. Gordon Prentice: To ask the Secretary of State for Justice how many people have been convicted of fraud involving credit card skimming in each of the last five years; and if he will make a statement. [217109]

Maria Eagle: There is no specific offence relating to credit card skimming, however people may be prosecuted under various sections of the 1968 and 1978 Theft Acts. Data covering offences under the relevant sections of these acts for the number of persons found guilty at all courts in England and Wales for the years 2002 to 2006 can be viewed in the following table.

Frauds occurring after 15 January 2007 may be prosecuted under various sections of the Fraud Act 2006. Court proceedings data for 2007 will be available in the autumn of 2008.

These data are on the principal offence basis. The figures given in the following table on court proceedings relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Number of persons found guilty at all courts for certain offences relating to fraud, in England and Wales, 2002-06[1, 2, 3]

	Found guilty
2002	10,868
2003	10,018
2004	9,072
2005	8,001
2006	6,484

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Includes the following statutes and corresponding offence description:
Theft Act 1968 Sec 15
Obtaining property by deception
Theft Act 1968 Sec 15A as added by Theft (Amendment) Act 1996 S.1
Obtaining a money transfer by deception
Theft Act 1968 Sec 16 (1)(2)(b) and (c)
Obtaining pecuniary advantage by deception (except railway frauds)
Theft Act 1978 Sees 1 and 2
Railway Frauds
Theft Act 1978 Sec 1
Obtaining services by deception (except railway frauds)
Theft Act 1978 Sec 2
Evasion of liability by deception (except railway frauds)

CJEAU—Office for Criminal Justice Reform—Ministry of Justice

Departmental Manpower

Mr. Maude: To ask the Secretary of State for Justice how many staff in his Department and each of its agencies are assigned to a people action team. [217438]

Mr. Wills: The Ministry of Justice does not have staff who are part of a 'people action team'.

Departmental Press

Mr. Hoban: To ask the Secretary of State for Justice how much was spent by his Department on subscriptions for magazines, newspapers and other publications in each of the last 24 months. [215214]

Mr. Wills: Details of my Department's centrally funded expenditure on subscriptions for magazines, newspapers and other publications is as follows: 12 months to June 2007: approximately £1,250 per month; 12 months to June 2008: approximately £16,591 per month. However, approximately £4,400 per month is recovered locally from prisoner monies.

The latter figure includes expenditure for the National Offender Management Service, including Her Majesty's Prison Service, following the creation of the Ministry of Justice in May 2007.

Expenditure on subscriptions held locally by courts, tribunals and other business areas for which my Department is responsible, could be compiled only at disproportionate cost.

Departmental Security

Mr. Maude: To ask the Secretary of State for Justice pursuant to the answer of 23 June 2008, *Official Report*, column 55W, on departmental security, what types of data breaches were notified by public sector organisations. [217439]

Mr. Wills: The Information Commissioner encourages organisations to report serious data breaches to his Office, although there is no legal obligation on them to do so. The severity and impact of the breaches varies, in part because of the subjective criteria used by organisations when deciding whether to notify. Breaches referred to the ICO only involve information relating to individuals.

The types of data breaches recorded by the Information Commissioner, based on voluntary notification by public sector organisations from November 2007 to July 2008 include the loss or theft of computer or laptop; website security problems; loss of paper records; loss of removable media or discs and inappropriate disclosure of information.

Economic and Monetary Union

Mr. Maude: To ask the Secretary of State for Justice pursuant to the answer of 17 June 2008, *Official Report*, column 886W, on economic and monetary union, for what reasons he is not planning to place a copy of his Department's euro changeover plan in the Library. [217437]

Mr. Wills: The Ministry of Justice is undergoing a huge transformation, and is still in the process of settling into the reorganised structure.

It would be inappropriate to place a copy of the Plan in its current format in the Library, as it requires updating to reflect the new Department.

The Euro Team will consider the timing and appropriateness of updating the plan, and a decision to place an updated copy in the Library will be made in due course.

Electoral Register

Ms Buck: To ask the Secretary of State for Justice what estimate he has made of the number and proportion of people eligible to vote who are not on the electoral register in *(a)* England, *(b)* each English region and *(c)* each London local authority area. [217140]

Bridget Prentice: The Government have not made any estimate of the number and proportion of people eligible to vote who are not on the electoral register in England, each English region and each London local authority area.

The Electoral Commission estimated that 3.5 million eligible electors were not registered to vote in their report, "Understanding Electoral Registration", which was published in September 2005. However the number of electors registered in England continues to grow and between 2 December 2006 and 1 December 2007 the number of parliamentary electors grew from 37,588,775 to 37,817,466 and the number of local government electors grew from 38,223,259 to 38,599,775.

The Government have taken a number of steps to increase voter registration rates. Section 9 of the Electoral Administration Act 2006 placed a new duty on electoral registration officers to take all necessary steps to maintain the electoral register, including sending the annual canvass form more than once, making house to house enquiries and inspecting records that they are permitted to inspect. It is for the ERO to decide on the best steps to use in conjunction with their local knowledge to ensure that requirements for making contact with persons and maintaining the register are complied with. To support such activities we have made £2.5 million available each financial year under our Participation Fund, which allows EROs to apply for additional funding to assist them in promoting electoral awareness within their areas.

The Electoral Administration Act also includes a provision for the Electoral Commission to introduce new performance standards for electoral registration officers. The Electoral Commission are currently developing these standards and the final set of standards will be published in July 2008. A copy of these standards which will be laid before the House and the information obtained from local authorities as a consequence will give us a better understanding of the actions taken to increase registration.

Margaret Moran: To ask the Secretary of State for Justice what estimate he has made of the proportion of those eligible to vote who are registered as electors in *(a)* Luton South and *(b)* the UK; and what steps he is taking to increase levels of voter registration. [217434]

Bridget Prentice: The Government have not made any estimate of the proportion of those eligible to vote, who are registered as electors in Luton, South and the UK. However, as of the 1 December 2007 the parliamentary registration figure for Luton, South is 70,221 and the combined figure for local government electors in the Luton borough is 138,409. I am aware that the decrease in electoral registration rates in Luton, South may be due to a change in the local population, which is made up of student accommodation and large properties converted into dwellings of multiple occupancy.

The Office for National Statistics has recently published electoral registration rates for the UK following the 2007 annual canvass. These confirm that the levels of voter registration in parliamentary elections increased by 307,669 to 45,082,854 and the levels of voter registration in local government elections increased by 463,340 to 45,920,503.

The Government have taken a number of steps to increase voter registration rates. Section 9 of the Electoral Administration Act 2006 placed a new duty on electoral registration officers to take all necessary steps to maintain the electoral register, including sending the annual canvass form more than once, making house to house enquiries and inspecting records that they are permitted to inspect. It is for the ERO to decide on the best steps to use in conjunction with their local knowledge to ensure that requirements for making contact with persons and maintaining the register are complied with.

To support such activities we have made £2.5 million available each financial year under our Participation Fund, which allows EROs to apply for additional funding to assist them in promoting electoral awareness within their areas.

The Act also includes a provision for the Electoral Commission to introduce new performance standards for EROs. The Electoral Commission is currently developing these standards and the final set of standards will be published during July 2008. A copy of these standards will be laid before the House and the information obtained from local authorities as a consequence will give us a better understanding of the actions taken to increase registration.

Food

Mr. Paice: To ask the Secretary of State for Justice (1) how much was spent by his Department on *(a)* food and *(b)* food of British origin in each of the last five years; [214905]

(2) from which five countries of origin the greatest amount of food was procured by his Department in the last year for which figures are available; and what the *(a)* cost and *(b)* quantity procured was in each case. [214906]

Bridget Prentice: Catering services to meet the Ministry of Justice's requirements are contracted out and provided by commercial suppliers. It is not possible to identify the five countries from which the greatest amount of food was procured during the period 1 July to 30 June 2007 as this information is not held centrally and could be obtained only at disproportionate cost.

However, information requested for Her Majesty's Prison Service is as follows:

	£ million
2002-03	39.35
2003-04	42.14
2004-05	43.28
2005-06	47.90
2006-07	47.32

The only figure that is available for food of British origin procured by Her Majesty's Prison Service is £17,508,400 in 2006-07.

37 per cent. of food was domestically produced (as previously published in the DEFRA report:

http://www.defra.gov.uk/farm/policy/sustain/procurement/pdf/govt-food-usage.pdf.

George Kelly

Mr. O'Hara: To ask the Secretary of State for Justice (1) what *(a)* discussions and *(b)* correspondence officials in his Department have had (i) internally and (ii) with the Treasury Solicitor's Department on the proposal to resolve the outstanding issues in the George Kelly case by mediation; [217290]

(2) what invoices his Department has received for work undertaken by the Treasury Solicitor on his Department's behalf in connection with matters related to the George Kelly case; and what payments have been made in respect of such invoices. [217291]

Bridget Prentice: The proposal to resolve the issues in the late George Kelly case by mediation is still under consideration and there have been a number of discussions both internally, and externally with Treasury Solicitor. In the case of the level of compensation due in respect of Mr. Kelly's wrongful conviction and subsequent hanging in 1950, these are matters entirely for the independent assessor now that the case has been approved for compensation under section 133 of the Criminal Justice Act 1988.

Invoices totalling £39,102.25 (including VAT) have been raised in relation to Treasury Solicitor's time spent on litigation involving Mr. George Kelly plus £10,434.07 (including VAT) for disbursements.

Government Departments: Freedom of Information

Mr. Maude: To ask the Secretary of State for Justice what guidance *(a)* his Department and *(b)* the Information Commissioner has provided to Departments on whether the cost of time taken to redact information should be taken into account in deciding whether a response to a freedom of information request exceeds the appropriate fees limit. [217358]

Mr. Straw: My Department has published comprehensive guidance on its website to help public authorities calculate the fees limit under the Freedom of Information Act. We believe that redacting both exempt information and information that is not within the scope of a request are countable activities towards the section 12 cost limit.

The Information Commissioner has said he will publish guidance on this subject in the near future.

Hunting Act: Prosecutions

Andrew George: To ask the Secretary of State for Justice how many prosecutions have *(a)* been brought and *(b)* resulted in convictions under the Hunting Act 2004; and whether any convictions have been successfully appealed against. [217264]

Maria Eagle: The number of defendants proceeded against at magistrates courts and found guilty at all courts for offences under the Hunting Act 2004 in England and Wales for the years 2004 to 2006 can be viewed in the following table.

Court proceedings data for 2007 will be available in the autumn of 2008.

The Hunting Act 2004 came into force on 18 February 2005.

The figures given in the table on court proceedings relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Number of defendants proceeded against at magistrates courts and found guilty at all courts for offences under the Hunting Act 2004 in England and Wales for the years 2004 to 2006[1,2,3]

	Proceeded against	*Found guilty*
2004	0	0
2005	3	3
2006	11	5

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Includes the following statute and corresponding offence description:
Hunting Act 2004 SS.1 and 6
Hunting a wild mammal with a dog
Hunting Act 2004 SS.3(1) and 6
Knowingly permitting land to be entered or used in the course of hunting a wild mammal with dogs
Hunting Act 2004 SS.3(2) and 6
Knowingly permitting a dog to be used in the course of hunting a wild mammal
Hunting Act 2004 SS.5(1) (a) and 6
Participating in a hare coursing event
Hunting Act 2004 SS.5(1) (b) and 6
Attending a hare coursing event
Hunting Act 2004 SS.5(1) (c) and 6
Knowingly facilitating a hare coursing event
Hunting Act 2004 SS.5(1) (d) and 6
Permitting land to be used for the purpose of a hare coursing event
Hunting Act 2004 S.5(2)
Permitting etc a dog to participate in a hare coursing event

Source:
CJEAU—Office for Criminal Justice Reform—Ministry of Justice

Information Commissioner

Mr. Dai Davies: To ask the Secretary of State for Justice pursuant to the Answer of 30 June 2008, *Official Report*, columns 683-84W, on the Information Commissioner, what steps he is taking to assist the Information Commissioner's Office (ICO) to speed up the processing of its caseload; and what consideration he has given to providing additional resources to the ICO. [217112]

Mr. Wills: The Information Commissioner's Office (ICO) is an independent body created by statute. Its responsibilities include handling complaints made under the Data Protection Act 1998, Freedom of Information Act 2000, Privacy and Electronic Communications Regulations 2003 and Environmental Information Regulations 2004.

The ICO's freedom of information work is funded by grant in aid paid through my department. Separately, the ICO's data protection work is funded by the notification fees it receives when data controllers register with the ICO and which the Office is allowed to retain with the Treasury's agreement. Within this funding framework, as an independent office, the ICO has autonomy to decide how to allocate resources to discharge its statutory responsibilities.

The Government are committed fully to both freedom of information and data protection. My Department and the ICO regularly review the resources available to his office and as part of that dialogue my Department provides constructive challenge to ensure that the ICO delivers maximum efficiency and secures the best value from the public money allocated for its statutory responsibilities.

In each of the last four financial years, my Department has given the ICO additional funding for his freedom of information work. This year the additional funding represented a 10 per cent. increase on his baseline.

In addition, the Ministry of Justice has promoted a secondment scheme to assist the ICO in tackling the outstanding backlog of freedom of information cases. Under the scheme secondees from central Government Departments, paid for by their Departments, will work at the ICO to assist with clearing the backlog. This was in response to the Commissioner's request for staffing as well as funding.

My Department is also in discussion with the ICO about funding for its data protection responsibilities. Government have agreed to consider new powers for the ICO for data protection inspections and that the fee arrangements should be reviewed to ensure that new powers are accompanied by funding to support the exercise of these powers.

Michael Shields

Mrs. Ellman: To ask the Secretary of State for Justice what decision he has reached on the determination of his jurisdiction in the case of Michael Shields; and if he will make a statement. [217648]

Mr. Straw: I have held a number of meetings with my hon. Friend and other supporters of Michael Shields, most recently on 3 July 2008. I expect to write to Mr. Shields' legal team shortly on the issue my hon. Friend has raised and I will, of course, copy her in my letter.

National Identity: Public Participation

Mr. Maude: To ask the Secretary of State for Justice what plans there are to use citizens' juries or citizens' panels to discuss the Government's policy on Britishness. [217366]

Mr. Wills: We are planning a wide-ranging engagement process for the British Statement of Values to enable as many people as possible to participate in the debate. This will involve a series of deliberative style events, which could include citizens' juries or citizens' panels. We expect to make an announcement about the way ahead before the summer recess.

The Government have recently published a discussion document "A national framework for greater citizen engagement" that sets out proposals for greater use of deliberative engagement techniques in national policy making-including citizens' juries.

Offensive Weapons

Mr. Jeremy Browne: To ask the Secretary of State for Justice how many and what percentage of people convicted of encouraging violent behaviour involving the use of a knife under the Knives Act 1997 have been *(a)* female and *(b)* male. [217113]

Mr. Straw: Data from the Court Proceedings Database held by the Office for Criminal Justice Reform show that there were no convictions for 2006 for this offence.

These data are on the principal offence basis. The figure provided relates to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2007 will be available in the autumn of 2008.

Offensive Weapons: Sentencing

Mr. Clappison: To ask the Secretary of State for Justice what plans he has to amend the sentencing guidelines for magistrates courts for offences of possession of an offensive weapon due to commence on 4th August 2008. [217570]

Mr. Straw: The revised Magistrates Courts Sentencing Guidelines are the responsibility of the independent Sentencing Guidelines Council, operating within the sentencing framework laid down by Parliament. The Court of Appeal, which has a crucial role in interpreting the law—has recently made clear—Sir Igor Judge's judgment in the case of R *v.* Povey and others—that possession of a knife is "a serious offence and it should be treated with the seriousness it deserves". The guidelines give ample scope for the courts to do this.

The Government's concerns about knife crime are reflected in the fact that last year we doubled the maximum sentence for possession of a knife to four years. In addition, my right hon. Friend the Prime Minister announced on 5 June an end to cautions for knife possession—replacing it with a presumption to prosecute. Anyone over the age of 16 caught in possession of a knife can expect to be prosecuted on the first offence rather than cautioned.

Recovery of Costs

Mr. O'Hara: To ask the Secretary of State for Justice what guidance he issues to the judiciary on the amount of costs that can be recovered by a litigant from an opponent ordered to pay costs in litigation. [217292]

Bridget Prentice: My right hon. Friend the Secretary of State for Justice and Lord Chancellor does not issue guidance to the judiciary on the amount of costs that can be recovered by a litigant from an opponent ordered to pay costs in litigation.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Carbon Sequestration

Jon Trickett: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent assessment he has made of developments in carbon capture and storage technology. [218477]

Malcolm Wicks: The Department keeps developments in carbon capture and storage (CCS) under close review, taking account of research and development in the UK and globally (including through links with the International Energy Agency). In addition, the Government support research and development, and demonstration, of CCS technologies through my Department, the Engineering and Physical Sciences Research Council and the Technology Strategy Board. The Energy Technologies Institute has also identified CCS as a priority area for research.

Jon Trickett: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of jobs which would be created by development and implementation of carbon capture and storage technology in the UK; and what assessment he has made of the likely effects on coalfield areas of such developments. [218478]

Malcolm Wicks: The development of the carbon capture and storage industry is still in its very early stages and therefore it is difficult to estimate the number of jobs that would be created. However, if carbon capture and storage technologies achieve their potential, there will be a global market worth billions of pounds where UK-based firms will be well placed given the UK's leading position on CCS.

As the EU emissions trading scheme cap on CO_2 emissions tightens, power generators will increasingly need to find ways of producing electricity with lower emissions. The successful development of CCS technologies could enable coal-fired power stations to play a greater part in our future energy mix than might otherwise have been the case. UK coalfields could benefit from this ongoing demand for coal; the majority of their output today supplies power stations.

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the value of the property held by *(a)* his Department and *(b)* associated public bodies was at the most recent date for which figures are available. [212912]

Mr. Thomas: The current value of property held by the Department is £1.33 million and by associated public bodies is £1,564.4 million.

Departmental Conferences

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the *(a)* scheduled date and *(b)* title was of each conference proposed to be hosted by his Department and its agencies which was cancelled before taking place in each of the last 10 years; and what costs were incurred in respect of each. [215170]

Mr. Thomas: The Department does not hold this information centrally and this could be obtained only at disproportionate cost.

Substantive answer from Gareth Thomas to Mark Hoban:

Letter from Stephen Speed, dated 14 July 2008:

The Secretary of State for Business, Enterprise and Regulatory Reform has asked me to reply to you directly on behalf of The Insolvency Service in respect of your question (2007/3224) asking what the (a) scheduled date and (b) title was of each conference proposed to be hosted by his Department and its agencies which was cancelled before taking place in each of the last 10 years; and what costs were incurred in respect of each.

The Insolvency Service has cancelled one conference proposed in the last 10 years, on 17 January 2007 entitled "Presentation of Research Findings by Professors Katz and Mumford".

As this conference was being held in-house, there were no costs involved.

Letter from Gareth Jones, dated 14 July 2008:

I am responding on behalf of Companies House to your recently tabled Parliamentary Question to the Secretary of State for Business Enterprise and Regulatory Reform.

Companies House has not cancelled any proposed conferences in the last ten years.

Departmental Domestic Visits

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform on how many occasions he has visited *(a)* Scotland, *(b)* Wales and *(c)* Northern Ireland in an official capacity in the last 12 months. [204402]

Malcolm Wicks: In the last 12 months, Ministers in this Department have visited Scotland eight times; Wales once, and no visits have been made to Northern Ireland. All ministerial travel is undertaken in accordance with the "Ministerial Code".

Departmental Ministerial Policy Advisers

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 27 March 2008, *Official Report*, column 351W, on ministerial policy advisers, which former special advisers have *(a)* received approval from and *(b)* been refused permission by his Department or its predecessor to take up an outside appointment on leaving their post since May 2005. [210920]

Mr. Thomas: Personal information about the applications submitted by special advisers, and other Crown servants, is made public only in accordance with the principles

and practices followed in the operation of the business appointment rules. This information, which includes details of the appointments of the most senior staff and statistical data about cases at the more junior levels, is published on the website of the Advisory Committee on Business Appointments (www.acoba.gov.uk) and in its reports.

Departmental Transport

Mrs. Villiers: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when each of his Department's and its agencies' green transport plans were introduced; and if he will place in the Library a copy of each such plan. [209245]

Mr. Thomas: BERR has committed in its 2008-09 Sustainable Development Action Plan, to be published shortly, to produce a carbon reduction strategy.

The action plan will include initiatives aimed at reducing the environmental impact of business travel, and will be published on the Department's website at:

http://www.berr.gov.uk

I have approached the chief executives of the Insolvency Service[1] and Companies House and they will respond to you directly.

[1] Copies of the Insolvency Service's Environmental Policy and Transport Policy will be placed in the Libraries of the House.

Letter from Stephen Speed, dated 14 July 2008:

The Secretary of State for Business, Enterprise and Regulatory Reform has asked me to reply to you directly on behalf of The Insolvency Services in respect of your question (2007/2865) asking when each of his Department's and its agencies' green transport plans were introduced; and if he will place in the Library a copy of each such plan.

The Insolvency Service introduced a green transport plan within its Environmental Policy and Action Plan, in 2001.This was supplemented by a Transport Policy in 2004, and is currently being reviewed as part of a wider review of our environmental strategy.

Copies of the above documents are attached.

Letter from Gareth Jones, dated 14 July 2008:

I am responding on behalf of Companies House to your recently tabled Parliamentary Question to the Secretary of State for Business Enterprise and Regulatory Reform.

Companies House does not have a formal green transport plan. We do, however, have a car share scheme open to all staff, and we have a diesel mini bus that is used between our two South Wales sites minimising the amount of car usage. Last year we also initiated a salary sacrifice scheme which allowed staff to purchase bicycles and pay for them monthly through their salaries.

Staff are also encouraged to use video-conferencing and telephone-conferencing facilities rather than travel to meetings.

Departmental Vetting

Jenny Willott: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what percentage of successful applicants for jobs in his Department are subjected to a criminal records check; how many *(a)* successful applicants and *(b)* criminal records checks there were in each of the last 10 years; how many successful applicants were found to have a criminal record after a criminal records check took place in each of the last 10 years; whether the selection of successful candidates to be subjected to a criminal records check is random or targeted; and if he will make a statement. [213144]

Mr. Thomas: For all successful applicants for jobs in BERR that require unescorted access to BERR London offices, there is a check of both spent and unspent criminal records. Successful applicants for posts in BERR that do not require unescorted access to London buildings are required to provide a self-declaration of unspent criminal records. On a random basis, 20 per cent. of these self-declarations are checked.

Information on the number of successful applicants, number of criminal checks and how many successful applicants had a criminal record in each of the last 10 years is not held centrally and can be obtained only at disproportionate cost.

Energy Supply: Prices

Chris Ruane: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent assessment he has made of energy price differentials for *(a)* domestic and *(b)* industrial consumers in different regions of the UK. [218987]

Malcolm Wicks: The information is as follows.

(a) Regional price differentials in domestic electricity and gas prices are published quarterly in tables 2.2.3 and 2.3.3 respectively of Quarterly Energy Prices, available online at

http://www.berr.gov.uk/energy/statistics/publications/prices/index.html.

A copy of this is also available from the House of Commons Library.

(b) Regional energy price differentials for industrial consumers are not collected. Industrial prices tend to be driven by tariff negotiations between energy suppliers and individual companies rather than by regional differences.

UK prices for industrial consumers are published in table 3.1.1 of Quarterly Energy Prices.

Energy: Disconnections

Mr. Weir: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 2 July 2008, *Official Report*, column 949W, on energy disconnections, if he will provide a breakdown of the disconnections data given by constituency. [217286]

Malcolm Wicks *[holding answer 10 July 2008]:* The Office of Gas and Electricity Markets (Ofgem) does not collect data about gas and electricity disconnections by constituency. The disconnection data are collected into a separate region for England, Scotland and Wales, or, by individual energy supplier. Data by supplier were included in the answer of 2 July. In the eight quarters to quarter 3 2007, the last period for which data have been published, the number of disconnections by region were:

Electricity

	Q4 2005	Q1 2006	Q2 2006	Q3 2006	Q4 2006	Q1 2007	Q2 2007	Q3 2007
England	141	193	199	293	358	428	435	609
Scotland	3	3	21	51	74	79	115	47
Wales	24	17	6	18	25	37	32	16
GB	168	213	226	362	457	544	582	672

Gas

	Q4 2005	Q1 2006	Q2 2006	Q3 2006	Q4 2006	Q1 2007	Q2 2007	Q3 2007
England	632	659	768	976	952	1210	1311	1318
Scotland	27	20	58	97	151	122	171	101
Wales	39	44	39	39	56	58	59	43
GB	698	723	865	1,112	1,159	1,390	1,541	1,462

Energy: Housing

Mr. Todd: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what funding he has allocated for provision of information to domestic consumers on purchasing their energy supply in 2008-09. [217077]

Malcolm Wicks: The Department does not provide funding for the provision of information to domestic customers on purchasing energy supply. Domestic customers can obtain details of price and level of service offered by energy suppliers from Energywatch, the statutory gas and electricity consumer body, from its website at:

www.energywatch.org.uk

EU Energy Council

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what matters were *(a)* discussed and *(b)* decided at the EU Energy Council meeting on 4 and 5 July; and if he will publish on his Departmental website copies of the documents submitted to the meeting. [218244]

Malcolm Wicks: I represented the UK at the informal EU Energy Council on 4-5 July organised by the French presidency. The main discussion was on the renewable energy directive, with the debate focused on the sustainability of biofuels and flexibilities required for the EU to achieve the 20 per cent. renewable energy target in a cost-effective way. There was also an exchange of national best practice on energy efficiency and a presentation on energy security in advance of the 2nd Strategic Energy Review, expected to be published later this year. This was an informal meeting, so no formal decisions were made nor conclusions reached and the Government submitted no documents to the meeting. A post-council written ministerial statement was published in *Hansard* on 10 July 2008, *Official Report*, column 79WS.

Fuel Poverty

Danny Alexander: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number and percentage of *(a)* heating oil and *(b)* other fuel users living in fuel poverty. [217596]

Malcolm Wicks: The latest available data are for 2005:

2005

	Millions of households fuel poor	Percentage of group fuel poor
Heating oil	0.13	15.2
Other fuel	1.40	6.9
All households	1.53	7.2

Further details of fuel poverty my main heating fuel are contained in the Fuel Poverty Detailed Tables published as an annex to the Fuel Poverty Strategy Report online at:

http://www.berr.gov.uk/energy/fuel-poverty/strategy/index.html

Danny Alexander: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many and what percentage of *(a)* heating oil and *(b)* other fuel users lived in fuel poverty in each of the last 10 years. [217597]

Malcolm Wicks: Splits of fuel poverty in England by use of heating oil and other fuels are only available for the years listed as follows. The data are derived from the English House Conditions Survey in each year.

	Heating oil	Other fuel	All households
2001			
Millions of households fuel poor	0.12	1.60	1.72
Percentage of group fuel poor	19.1	8.1	8.4
2003			
Millions of households fuel poor	0.04	1.18	1.22
Percentage of group fuel poor	5.7	5.9	5.9
2004			
Millions of households fuel poor	0.06	1.18	1.24
Percentage of group fuel poor	7.0	5.9	5.9
2005			
Millions of households fuel poor	0.13	1.4	1.53
Percentage of group fuel poor	15.2	6.9	7.2

Variation in heating oil fuel poverty levels can be attributable to real changes but will also be effected by the small sample size in the EHCS and the volatility of heating oil prices.

Danny Alexander: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what targets his Department has set on assisting heating oil users in fuel poverty. [217660]

Malcolm Wicks: The Department has joint responsibility with DEFRA to eradicate as far as reasonably practicable fuel poverty in vulnerable households by 2010 in England and in all households by 2016, whatever form of heating they use.

Low Carbon Buildings Programme: Leeds

John Battle: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what grant funding is available to businesses in Leeds under the Low Carbon Buildings Programme in 2008-09; and if he will make a statement. [213307]

Malcolm Wicks: The Low Carbon Building programme, with a budget of £86 million, has allocated £30 million to 6,300 projects, including £6.5 million to 154 projects in the private sector. However, funding streams for business are now closed to new applicants. As a result of projects supported under previous funding rounds, we are working closely with the Carbon Trust on a number of private sector projects to raise awareness of the potential for combining microgeneration with energy efficiency to develop low carbon buildings.

By opting to generate their own renewable and low carbon energy businesses can help tackle climate change by moving from being passive users of energy to active production. This can increase self-sufficiency and security of supply in the face of great uncertainty over energy prices. We are looking again at what incentives we can offer to businesses who wish to generate their own renewable energy in the Renewable Energy Strategy Consultation document published in June details of which can be found at:

http://renewableconsultation.berr.gov.uk/

Wider Government activities to support businesses with an interest in low carbon technologies, include for example, the renewables obligation and the Carbon Trust provides site surveys to organisations looking to reduce their energy demand. Further details are available at:

www.carbontrust.co.uk/solutions/sme_toolkit.htm

Microgeneration

Lembit Öpik: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department has allocated to fund the microgeneration element of *(a)* the green homes project and *(b)* the Act on CO_2 advice line for 2008-09. [217243]

Malcolm Wicks: The Energy White Paper and recent Renewable Energy Strategy consultation stress the importance of providing advice on distributed energy including microgeneration. I look forward to the responses to the consultation on this issue.

We work closely with Energy Saving Trust, who run the green homes project and Act on CO_2 advice line, and manage the Low Carbon Buildings Programme Phase One on our behalf. We are supportive of the green homes project and Act on CO_2 advice lines but have not allocated funding specifically for it.

Mines Rescue Service: Finance

David Taylor: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what consideration he has given in the last year to the proposal that the Government serve as a guarantor of the financial bonds the European Commission requires from the Mines Rescue Service Limited for its participation in the research programme of the Research Fund for Coal and Steel; and if he will make a statement. [207880]

Malcolm Wicks *[holding answer 2 June 2008]:* Over the past year the Coal Forum, which we established in 2006, has considered various aspects of the statutory mines rescue scheme and the company which provides that service (Mines Rescue Service Ltd.), including issues of funding. I am conscious of the position as regards bonds and will continue to explore options which might assist in managing the cash flow implications of the current requirement.

Nuclear Power

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions he has had with the Welsh Assembly Government on its submission to the consultation on the future of nuclear power, with particular reference to *(a)* radioactive waste disposal and *(b)* security issues. [218240]

Malcolm Wicks: Ministers have regular contacts with Welsh Assembly colleagues on a range of issues and officials have discussed with Welsh Assembly colleagues actions arising from the Government's decision to allow companies to build new nuclear power stations.

Nuclear Power: Manpower

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the availability of *(a)* electrical engineers and *(b)* systems engineers for the future nuclear power and decommissioning programmes. [218231]

Malcolm Wicks: Our White Paper on Nuclear Power sets out our view in sections 2.190 to 2.216. This is that the energy sector, nuclear and otherwise, faces challenges in meeting its need for skilled workers, but that the situation is manageable and that building new nuclear power stations does not present a significantly greater challenge than the alternatives. Indeed, a nuclear renaissance presents opportunities for companies to grow and for individuals to have rewarding careers.

As my right hon. Friend the Secretary of State said at our Nuclear Investors' Conference on 12 June, we want the new Office of Nuclear Development we are establishing to work with skills bodies, employers, universities and colleges to help identify skills shortages and gaps so we can deliver learning, research and training at every level of our education system. As part of this, the Sector

Skills Network is completing a report on energy sector skills, which we expect to publish this summer. This will outline the demand, what is being done and make recommendations where Government can help develop the future skills base. Government will respond to this report.

Oil: Production

John Hemming: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will hold discussions with Ministerial colleagues on the production of contingency plans for each Department to cover *(a)* the eventuality of global oil production peaking and *(b)* continued high oil prices. [216969]

Malcolm Wicks: The Government constantly monitor risks to the UK economy, including from energy-related developments, as detailed in the Energy White Paper (May 2007) and the Long-term Opportunities and Challenges for the UK (November 2006). In addition, the UK's policies, as outlined in the Energy White Paper, in promoting open and competitive markets, increasing energy efficiency, investing in low carbon technologies and the use of alternative energy sources such as renewables will reduce the risks to the UK of any potential future declines in global oil and gas production. Given these initiatives and policies, the government does not feel the need to hold contingency plans specifically for peak oil

The Government test the robustness of their policies against a number of oil price scenarios. These oil price assumptions are published for the period till 2030 and are disseminated throughout Whitehall and where relevant are used by Government Departments in their analytical work. In order to capture some of the uncertainty around future oil prices there are four illustrative scenarios used: low, central, high and high-high. Further details are available at the following links:

http://www.berr.gov.uk/energy/environment/projections/recent/page26391.html

http://www.berr.gov.uk/files/file46071.pdf

Renewable Energy: Incentives

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment his Department has made of the operation of feed-in tariff policies in other EU countries; and if he will make a statement. [212586]

Malcolm Wicks: In the context of the Renewable Energy Strategy we have considered a variety of approaches taken by other EU countries to encourage renewable generation, including different feed-in tariff mechanisms. We believe we should retain the renewables obligation as the prime means of support for renewable centralised electricity but are consulting on a number of possible measures to overcome the constraints to small-scale energy generation through the Renewable Energy Strategy consultation, including feed-in tariffs.

The consultation can be accessed at:

http://renewablesconsultation.berr.gov.uk/

Renewable Energy: National Grid

Jo Swinson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the average connection charges to the National Grid are for *(a)* renewable generation in Scotland and *(b)* renewable generation in the UK excluding Scotland. [212642]

Malcolm Wicks *[holding answer 20 June 2008]:* It is not possible to compare the connection charges to national grid in Scotland with those in England and Wales, on a like-for-like basis.

In England and Wales, most generators connect directly to national grid. As the generator owns most of the actual connection assets, there are no annual connection charges.

In Scotland, the transmission network owners (SHETL and SPTL) own most of the connection assets. SHETL and SPTL define the connection charges payable by generators for such "connection" assets and pass those charges through to national grid as GB system operator.

Selecting 10 recently signed agreements for renewable generators in Scotland, national grid advise that the average annual connection charge payable as advanced capital contributions in instalments up to completion of the works is £2.3 million.

Sellafield

Paul Flynn: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent communications or discussions *(a)* he, *(b)* other departmental Ministers and *(c)* officials, have had with (i) the Nuclear Decommissioning Authority and (ii) consortium applicants for the Sellafield decommissioning contract on the indemnification of the contract holder against claims arising from property damage, the cost to human health, or the cost of measures of reinstatement of any significantly impaired environment in the event of an on-site accident or other incident resulting in the dispersal of radioactive materials off-site. [217786]

Malcolm Wicks: The Department has been informed by the Nuclear Decommissioning Authority (NDA) that it expects to have to grant an indemnity against uninsurable claims arising from a nuclear incident that fall outside the protections offered by the Nuclear Installations Act and the Paris/Brussels Convention to whichever of the four bidders for the Sellafield contract is successful. The NDA is conducting the Sellafield parent body organisation competition under the EU Competitive Dialogue procedure, evaluating the four bids received against agreed evaluation criteria. Within that process bidders were invited to make proposals for a nuclear indemnity under competitive tension against an established framework. It would not be viable for any of the bidders to proceed without an indemnity because any fee earning benefits of the contract would be overwhelmed by the potential liabilities. The NDA has assessed that the benefits of engaging a new contractor far outweigh the remote risk that an indemnity might be called upon. The final form of the indemnity will reflect the specific terms proposed by the preferred bidder.

Social Fuel Tariff

Mr. Weir: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many consumers there are on a social fuel tariff from each of the six top energy suppliers, broken down by constituency. [217285]

Malcolm Wicks *[holding answer 10 July 2008]:* Data on social fuel tariffs broken down by constituency do not exist. Ofgem published an aggregated review of suppliers' voluntary initiatives in August 2007 and updated the figures in October 2007.

Wind Power: Planning

Mrs. Riordan: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans his Department has to increase the number of wind farms in the United Kingdom in the next 10 years. [219027]

Malcolm Wicks: On 26 June 2008 the Secretary of State for Business, Enterprise and Regulatory Reform launched a public consultation on a UK Renewable Energy Strategy. The consultation seeks views on how to drive up the use of renewable energy in the UK—including on and offshore wind—as part of our overall strategy for tackling climate change, and to meet our share of the EU target to source 20 per cent. of the EU's energy from renewable sources by 2020. The strategy will be published in spring 2009.

The consultation, which runs until 26 September 2008, can be accessed at:

http://www.berr.gov.uk/consultations/page46797.html.

A copy of the consultation document is also available in the Libraries of both Houses.

INNOVATION, UNIVERSITIES AND SKILLS

Adult Education: EC Action

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what recent assessment he has made of the UK's progress towards achieving the EU benchmark on adult participation in lifelong learning. [217999]

Mr. Lammy: The UK has surpassed the EU benchmark on adult participation in lifelong learning. The EU benchmark is for 12.5 per cent. of the working age population of the EU to be participating in education and training by 2010. In the UK, 26.8 per cent. of the working age population were participating in education and training in 2006 when the most recent data were collected for this benchmark, which is an increase from 20.5 per cent. in 2000.

Departmental Aviation

Mr. Maude: To ask the Secretary of State for Innovation, Universities and Skills how many individual domestic air flights were undertaken within Great Britain by representatives of *(a)* his Department since its creation and *(b)* its agencies in the most recent year for which figures are available; and at what cost. [215553]

Mr. Lammy: The Department for Innovation, Universities and Skills was established under machinery of government changes in June 2007. Travel by Ministers and civil servants are undertaken in accordance with the Ministerial Code and the Civil Service Management Code respectively. The Department does not hold records at this level of detail, to answer the question would be at disproportionate cost.

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Innovation, Universities and Skills how much his Department spent on *(a)* new capital investment and *(b)* refurbishment of property in each of the last 10 years, broken down by project. [212870]

Mr. Lammy: The Department for Innovation, Universities and Skills was created as a result of machinery of government changes in June 2007. To provide a response to this question would be at disproportionate cost.

Departmental Disciplinary Proceedings

Mr. Redwood: To ask the Secretary of State for Innovation, Universities and Skills how many staff in his Department and its agencies have been *(a)* dismissed and *(b)* disciplined for their conduct since the Department was established. [217412]

Mr. Lammy: The Department was created in the machinery of government changes announced on 28 June 2007 with staff from the ex-Department for Education and Skills (DFES), and the Department for Trade and Industry (DTI) being incorporated into the new Department. No officials have been dismissed or disciplined for their conduct since the establishment of the Department.

Departmental Early Retirement

Mr. Redwood: To ask the Secretary of State for Innovation, Universities and Skills how many staff in *(a)* his Department and *(b)* his Department's agencies have taken early retirement since the Department was established. [217378]

Mr. Lammy: The Department was formed as a result of machinery of government changes in June 2007. The Department's people information is maintained on the HR management systems of the two Departments from which staff were transferred, namely BERR and DCSF. To obtain the information would be deemed a disproportionate cost.

Departmental ICT

Bob Spink: To ask the Secretary of State for Innovation, Universities and Skills how many of his Department's staff have access to the Department's IT infrastructure at home. [216421]

Mr. Lammy: All DIUS staff are issued with laptops which they can take home and work from; therefore all staff have access to the IT infrastructure.

Departmental Manpower

Mr. Redwood: To ask the Secretary of State for Innovation, Universities and Skills what the change in the number of employees of his Department and its agencies has been since the Department was established. [217068]

Mr. Lammy: The Department was established as part of the machinery of government changes of 28 June 2007. At the point of establishment, there were 779 employees in the Department; at 31 May 2008 there were 802 employees. The overall increase of 23 staff includes 32 additional Government Skills staff who transferred into the Department from the Cabinet Office on 1 April 2008.

Departmental Pay

Mr. Redwood: To ask the Secretary of State for Innovation, Universities and Skills what proportion of staff of his Department and its agencies did not receive the maximum bonus possible under a bonus scheme applying to them in the period since the Department was established. [217370]

Mr. Lammy: My Department was created on 28 June 2007. In accordance to the Cabinet Office guidance, broadly 75 per cent. of senior civil servants have not received the maximum annual bonus available in their grade. The pay settlement for grade 6s and below has yet to be finalised.

Departmental Planning Permission

Mr. Maude: To ask the Secretary of State for Innovation, Universities and Skills what *(a)* planning applications and *(b)* licensing applications his Department has submitted since its establishment. [215534]

Mr. Lammy: The Department has not submitted any planning or licensing applications since its establishment in June 2007.

Departmental Press

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how much was spent by his Department on subscriptions for magazines, newspapers and other publications in each of the last 24 months. [215208]

Mr. Lammy: The Department for Innovation, Universities and Skills was established under machinery of government changes in June 2007. To provide an accurate response would be at disproportionate cost.

Departmental Security

Mr. Maude: To ask the Secretary of State for Innovation, Universities and Skills how many departmental identity cards or departmental passes have been reported lost or stolen by staff in *(a)* his Department and *(b)* each of its executive agencies since its creation. [215606]

Mr. Lammy: Nine departmental access passes have been reported lost or stolen since its creation. There is nothing on the pass which indicates which buildings or organisations it gives access to.

Answers in respect of our agencies could be given only at disproportionate cost.

Security and pass issuance services in respect of London staff are provided on behalf of this Department by the Department for Business, Enterprise and Regulatory Reform, and answers given by that Department may include DIUS staff as well.

Departmental Sick Leave

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many working days have been lost due to sickness among employees for which his Department and its predecessor were responsible for each year since 1997. [218031]

Mr. Lammy: Cabinet Office has recently introduced a revised format for reporting sickness absence statistics across the Civil Service. The new format was introduced at the end of March 2008 and the reports now cover the period up to 31 March 2008. The figure for annual average working days lost due to sickness in the Department up to that date is 7.9 per staff member. The annual number of days lost is 10,464.18.

The Department was formed as part of the Machinery of Government changes on 28 June 2007. Sickness absence data for the Department's predecessors, the Department for Education and Skills and the Department for Trade and Industry, for 2006-07, 2005 and 2004, including the average number of days taken as sick leave are published on the Civil Service website:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

along with data for other departments and agencies.

Earlier sickness data are not readily available and could be obtained only at disproportionate cost.

Departmental Television

Mr. Maude: To ask the Secretary of State for Innovation, Universities and Skills to what premium Sky, digital terrestrial or cable television channels *(a)* his Department and *(b)* each of its agencies subscribes; and at what yearly cost in the most recent period for which figures are available. [215647]

Mr. Lammy: The Department for Innovation, Universities and Skills was established under machinery of government changes in June 2007. The Department does not hold records at this level of detail, to answer the question would be at disproportionate cost.

Education: Hyndburn

Mr. Pope: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the percentage of the population of Hyndburn constituency which has been educated to NVQ level 4 or above. [218292]

Bill Rammell: DIUS uses the Annual Population Survey (APS) to provide local estimates of educational attainment. DIUS estimates that in 2006, 22.5 per cent.

of women aged 19 to 59 and men aged 19 to 64 in Hyndburn were qualified to NVQ level 4 or above. The comparable figures for the North West and England were 26.6 per cent. and 28.9 per cent. respectively.

The economic and social benefits of increasing high level skills are felt at a local as well as national level, unlocking the potential of towns and people by attracting, nurturing and retaining talent in a local area. In "Higher Education at Work-High Skills: High Value" we have consulted on our strategy to increase the numbers of people with qualifications at level 4 and above.

EU Education and Training 2010 Work Programme

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the performance of the EU Education and Training 2010 Work Programme. [218011]

Mr. Lammy: The EU Education and Training 2010 Work Programme, developed to give direction to the role of education and training within the Lisbon Strategy for Growth and Jobs, has added value across the European Union to a policy area which is the responsibility of individual member states.

Performance of the work programme is assessed through a series of EU benchmarks and indicators which identify priority areas for improvement in the field of education and training. A biennial joint report of the European Council and Commission highlights progress towards these benchmarks across the EU and gives further strategic direction to the work programme.

Within these priority areas, the open method of coordination, on which the activities of the work programme are based, provides a platform for exchange of best practice and peer learning across member states, through cluster group work and ministerial exchanges of views at EU Education Council.

European Pact for Youth

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what his Department's role is in activities being carried out in England under the European Pact for Youth. [216648]

Mr. Lammy: The European Youth Pact calls on member states to equip young people with the necessary knowledge, opportunities, skills and competencies to ensure that they can contribute to the achievement of the Lisbon goals of boosting jobs and growth. The Department's role is to share our experience with other EU member states and the Commission as part of encouraging good practice. The pact is implemented in England through our domestic policies, for example the Department's work on skills and joint work with DCSF on apprenticeships.

European Qualifications Framework for Lifelong Learning

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what the UK's role is in the European Qualifications Framework for Lifelong Learning. [217996]

Bill Rammell: The UK supports the European Qualifications Framework as we believe it has the potential to improve the recognition of skills throughout Europe, allowing national qualifications to be translated more effectively between different countries. This will play an important role in helping our labour markets work better.

European Space Agency: Small Businesses

John Battle: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the likely effects of European Space Agency projects on levels of employment in small and medium-sized businesses in *(a)* England, *(b)* Yorkshire and Humberside and *(c)* Leeds Metropolitan District. [218013]

Ian Pearson: There are no estimates available relating solely to small and medium-sized business employment on European Space Agency projects. However, in the "Size and Health of the UK Space Industry" survey published by BNSC in 2006, analysis indicated that 16,200 people were employed in the space sector in the UK in 2004-05. Of these, 15,830 were employed in England with 620 in Yorkshire and Humberside. There are no data available relating specifically to the Leeds metropolitan district.

Higher Education: Admissions

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills what proportion of 17 and 18 year olds who took A-levels in 2007 *(a)* applied to and *(b)* have enrolled in a higher education institution. [216894]

Bill Rammell: The information requested is as follows:

(a) The proportion of A-level students who applied to university is not available.

(b) Detailed information on higher education enrolments is not yet available for 2007/08. The proportion of maintained school pupils who took A-levels in 2003/04, who entered a UK higher education institution in 2004/05 or 2005/06, was 70.7 per cent.

If we consider only those pupils who "gained 2 or more" GCE A-levels in 2003/04, 79.5 per cent. entered a UK higher education institution in 2004/05 or 2005/06.

These figures are obtained using linked National Pupil Database and Higher Education Statistics Agency Student Record datasets. Additional students may have applied for higher education courses in 2006/07 or 2007/08 but linked data are not yet available which allow us to track the above students into higher education later than 2005/06.

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills what research has been undertaken by his Department on the reasons why 18-year-olds with an academic or vocational Level 3 qualification decide not to enter higher education by the age of 19 years. [216926]

Bill Rammell: The Youth Cohort Study asked those with five or more GCSEs at grades A* to C, who were studying level 3 academic or vocational qualifications in 2002/03 and were not intending to apply to university in the near future, to give reasons as to why they were not

applying. The following table summarises the reasons that were given by the 299 respondents.

The respondent to this survey would be considering entering HE in 2003/04 (at age 18) or in 2004/05 (at age 19) and as such would have entered under an old student support system. So reasons regarding finance are unlikely to be relevant to young people now or in more recent history.

	Reason[1]	*Percentage of respondents citing reason*
1.	It is expensive/you can get into debt	21
2.	I wanted to become financially independent	9
3.	I wanted to start earning money	20
4.	There is no guarantee of a good job at the end	2
5.	The application process is difficult/off-putting	1
6.	I wasn't sure what would be like/I didn't have enough information	1
7.	I was worried about fitting in/settling in	–
8.	Didn't think I would get in/didn't get high enough grades	10
9.	The work load can be hard/doubts about ability to finish course	7
10.	Teachers/careers staff advised me to get a job	–
11.	Family encouraged me to start working	–
12.	All/most of my friends were looking for jobs	–
13.	Never thought of applying/no particular reason	6
14.	Other	44
15.	Not yet decided	6

[1] Respondents could give more than one reason.

Note:
YCS cohort 11, based on 299 respondents.

Mr. Byers: To ask the Secretary of State for Innovation, Universities and Skills what percentage of 18 year olds from the 20 *(a)* most and *(b)* least deprived local authority areas entered higher education in (i) 1997 and (ii) 2007. [218606]

Bill Rammell: The Higher Education Funding Council for England analyse the geography of young participation in higher education. The exact specification requested is not currently available but they have provided some provisional figures (from a report on trends in young participation that is currently in preparation) that relate to the young (18 and 19 year old) HE participation rates of deprived areas.

The 20 per cent. of English small areas recorded as most deprived by the 2004 version of the Income Deprivation Affecting Children Index (IDACI) had a young HE participation rate of 13.8 per cent. for 1998-99 and 18.3 per cent. for 2006-07 (projected). The corresponding figures for the least deprived 20 per cent. are 48.7 per cent. (1998-99) and 50.5 per cent. (2006-07, projected). Figures are not available for the 1997/98 and 2007/08 academic years.

Higher Education: Bexley

Mr. Evennett: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the percentage of the population of Bexleyheath and Crayford constituency which has been educated to NVQ level 4 or above. [218614]

Bill Rammell: DIUS uses the Annual Population Survey (APS) to provide local estimates of educational attainment. DIUS estimates that in 2006, 26.1 per cent. of women aged 19-59 and men aged 19-64 in Bexleyheath and Crayford were qualified to NVQ level 4 or above. The comparable figures for Greater London and England were 36.5 per cent. and 28.9 per cent. respectively. DIUS local estimates of attainment down to local authority level are available at:

http://www.dcsf.gov.uk/rsgateway/DB/STA/t000747/index.shtml.

However, it should be noted that all these APS estimates are currently undergoing revision following the reweighting of all underlying datasets to reflect more up to date population estimates from ONS. The DIUS published series will be revised and updated to include 2007 estimates in August.

Higher Education: Teachers

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills (1) what the average age of a lecturer was *(a)* in 1997 and *(b)* at the latest date for which figures are available; [217997]

(2) what the average length of time was that a lecturer had spent in the profession *(a)* in 1997 and *(b)* at the latest date for which information is available. [218001]

Bill Rammell: According to the Higher Education Statistics Agency (HESA) Staff Record, the average age of Academic Lecturers and Senior Lecturers and Researchers who are teaching only or teaching and research was 44 in the 1997/98 academic year and 45 in the 2006/07 academic year. The age of academic staff is as at 31 August and the average age is calculated on known ages only. Figures for the 2007/08 academic year will be available in January 2009.

Information showing the average length of time that a lecturer had spent in the profession is not available. Lecturers are likely to change institutions throughout their career and the HESA Staff Record is unable to follow the path of a lecturer throughout their career.

Morning Star

Mr. Maude: To ask the Secretary of State for Innovation, Universities and Skills how many copies of the *Morning Star* publication his Department and each of its agencies subscribes to each week; and at what cost. [215663]

Mr. Lammy: The Department for Innovation, Universities and Skills was established under machinery of government changes in June 2007. The Department does not hold records at this level of detail, to answer the question would be at disproportionate cost.

Overseas Students

Mr. Amess: To ask the Secretary of State for Innovation, Universities and Skills (1) what recent discussions he has had with *(a)* the Chancellor of the Exchequer and *(b)* others on the contribution that those from overseas studying at universities in England and Wales make to the national economy; and if he will make a statement; [216204]

(2) what estimate he has made of the income which accrued to each university from the teaching and supervision of overseas students in each of the last three years, broken down by country of origin. [216348]

Bill Rammell: My right hon. Friend the Secretary of State has regular discussions with the Chancellor and others on the benefits of international students to the United Kingdom economy. "Global Value", a study published by the British Council in September 2007, estimated that the total value of international higher education students to the UK economy as being over £5.6 billion a year. In 2006/07, the latest year for which data are available, there were 351,470 non-UK domiciled students studying in the UK, of which 308,990 were at higher education institutions in England and Wales.

Tables showing the requested information about *(a)* country of domicile for students at each higher education institution in England and Wales and *(b)* the income received by each higher education institution in respect of tuition fees are being sent to the hon. Member separately. A copy of each table has been placed in the Libraries.

Students: Finance

Mr. Rob Wilson: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 24 April 2008, *Official Report*, columns 7187-8W, how much debt incurred by students from EU member states receiving tuition fee *(a)* loans and *(b)* grants was (i) written off and (ii) behind schedule in each year for which figures are available. [213469]

Bill Rammell: Since students from EU member states became eligible for tuition fee loans in September 2006, fewer than five student loan borrowers from EU member states have had their loan balances written off. The two main reasons for these loans being cancelled were death and permanent disability. These write-offs took place in the financial year 2007-08. To ensure that no individual can be identified and to maintain their confidentiality the exact number of borrowers has been rounded and the amount of money excluded.

On 31 March 2008, no EU students were behind schedule in making repayments.

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills how much was spent on *(a)* maintenance grants, *(b)* student loans, and *(c)* teaching costs for students at English universities who did not complete their studies in the most recent 12 months, broken down by (i) UK-domiciled undergraduates, (ii) EU-domiciled undergraduates, (iii) international undergraduates, (iv) UK-domiciled postgraduates, (v) EU-domiciled postgraduates and (vi) international postgraduates. [214005]

Bill Rammell: Student retention rates at higher education institutions in this country compare very well internationally. The UK ranks 5th in the OECD for first degree completion rates, out of 23 countries who report data in this area. The Government are totally committed to providing opportunities for all people to achieve their potential and to maximise their talent. We have significantly increased the financial support for students, and working with Higher Education Institutions and other partners, improved guidance and other support to students. A university education is now open to more students than ever before.

Grants and allowances and student loans made in academic year 2006/07 to students who Students Loans Company were subsequently notified had withdrawn from their course

	Domicile	*Students*	*Amount paid (£)*
Grants and allowances[1]	English	17,100	26,171,000
Student loans			
Fees and Maintenance	English	28,100	80,394,000
Tuition fees only	EU	300	371,000

[1] Includes maintenance grants and other grants and allowances but excludes tuition fee grants. This information is not available for maintenance grants separately. Grants and allowances paid to students who withdrew from their courses represent 4 per cent. of all grants and allowances paid. Loans made to students who withdrew represent 3 per cent. of loans paid.

Source:
Student Loans Company

Postgraduate students are not eligible for student loans and grants, except for those on courses of Initial Teacher Training who are eligible for the undergraduate package. Information is not available separately for postgraduate Initial Teacher Training students. EU students are not eligible for maintenance grants or maintenance loans, but can apply for tuition fee loans. Students from outside the EU are not eligible for student maintenance grants or loans. Fee loans are paid direct to the Institution if a student is in attendance three months from the start of the course. Students who withdraw from higher education are liable to begin repaying their tuition and maintenance loans in the April after they withdraw, if their income is above £15,000 per year. Where a student who withdraws has been in receipt of grants, the local authority has the discretion to make a reassessment and reclaim any overpayment based on the number of days the student was undertaking the course from the first day of the academic year to the date of withdrawal.

Teaching costs are around £4,000 per full-time student per year. This information is not available by domicile of student or level separately. Higher Education Institutions do not receive HEFCE funding for international students. They are able to charge these students the full cost of delivery.

Students: Loans

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills (1) how much is owed to the Student Loans Company by *(a)* people resident in each county of the UK, *(b)* people resident in other EU member states and *(c)* people resident outside the EU; and how much is owed to it in total; [208854]

(2) how many people owe money to the Student Loans Company, broken down by their *(a)* county of residence, *(b)* sex and *(c)* region of residence. [208855]

Bill Rammell: The information requested has been placed in the Libraries of the House.

Television

Mr. Hunt: To ask the Secretary of State for Innovation, Universities and Skills how much his Department spent on *(a)* commissioning and *(b)* funding the production of television programmes (i) in each of the last three years and (ii) in 2008-09 to date; what programmes these were; and which companies made them. [213502]

Mr. Lammy *[holding answer 24 June 2008]:* The Department for Innovation, Universities and Skills was created as a result of machinery of government changes in June 2007. To date the Department has not spent any funds on the commissioning or funding the production of television programmes.

Vocational Training

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what his policy is on creating systems for the validation of non-formal and informal learning and the incorporation of such into the formal national qualification system, as referred to in section 2.1 of EU document 2008/C 86/01. [217995]

Bill Rammell: The Government are developing the Qualifications and Credit Framework (QCF) in England, Wales and Northern Ireland to enable new unit and credit-based qualifications to be recognised. The distinction between informal, non-formal and formal learning in respect of this EU document is defined by the context (e.g. formal learning takes place in an institution), or by the process of learning (e.g. e-learning is non-formal learning) or by the content (e.g. basic literacy is informal learning). The QCF is concerned with the outcomes of learning, rather than context, process or delivery institution. It can recognise achievements through any of these definitions. Provided the outcomes of learning are organised into a unit format, they can be given a level and a credit value and count towards a qualification irrespective of the process of learning that leads to these outcomes.

CULTURE, MEDIA AND SPORT

BBC

Mr. Carswell: To ask the Secretary of State for Culture, Media and Sport what representations he has received from regional newspapers on the local video news services which the BBC proposes to develop. [216987]

Andy Burnham: I have received a number of direct representations from regional newspapers on BBC's plans for online local news provision. However, this is a matter for the BBC. There is no provision for the Government to intervene in the BBC's day-to-day operational or editorial matters.

BBC: Olympic Games

Mark Pritchard: To ask the Secretary of State for Culture, Media and Sport if he will discuss with the BBC coverage of any human rights protests during the Beijing Olympics. [217510]

Andy Burnham: Responsibility for what is broadcast on television and radio rests with the broadcasters and the organisations that regulate broadcasting—the Office of Communications (Ofcom), the BBC Trust and the Welsh Fourth Channel Authority (S4C). They are independent of Government and it would, therefore, be inappropriate for the Government to have this discussion with the BBC.

Bookmakers

Mr. Hancock: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 3 July 2008, *Official Report*, column 1046W, on bookmakers, if he will make it his objective for the negotiations to lead to a UK-wide agreement for how long racecourses will recognise on-course bookmakers' list positions. [217704]

Mr. Sutcliffe: We wish to see racecourses negotiating contracts with the bookmakers who maintain pitches on them, including holders of existing pitch list positions. Inevitably these contracts will vary from course to course, taking account of local circumstances. In order for racecourses and bookmakers to agree contracts it will clearly be necessary for these to contain provisions on duration and renewability which are acceptable to both sides. The Government are keen to see examples of satisfactory agreements disseminated across the industry.

Clore Leadership Programme

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what payments Arts Council England made to the Clore Leadership Programme in each of the last five years; and for what purpose. [214008]

Margaret Hodge *[holding answer 26 June 2008]:* According to Arts Council England, it has made payments to the Clore Leadership programme as set out in the following table. These payments were for a mixture of course participation and grant funding. Course participation refers to money spent on training courses, and grant funding refers to the funding of the Clore Fellows.

	£
2003-04	0
2004-05	190,000
2005-06	212,500
2006-07	675,343
2007-08	628,656

The cost in 2006-07 increased because of the introduction of the Clore Short Courses programme. 14 courses were run over a period of two years.

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport when he plans to answer Question 214008, tabled by the hon. Member for South West Surrey on 23 June, on the Clore Leadership Programme. [218764]

Margaret Hodge: I answered the question from the hon. Member for South-West Surrey today.

Departmental Accountancy

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport pursuant to the Answer of 16 May 2008, *Official Report*, column 1802W, on departmental accountancy, on what date he expects to *(a)* lay before Parliament and *(b)* publish his Department's annual resource accounts for 2007-08. [219084]

Mr. Sutcliffe: The annual resource accounts for the Department for Culture, Media and Sport for 2007-08 will be laid before Parliament by 17 July 2008 with a publication target of 18 August 2008 subject to the completion of printing by the Stationery Office.

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Culture, Media and Sport what the value of the property held by *(a)* his Department and *(b)* associated public bodies was at the most recent date for which figures are available. [212879]

Mr. Sutcliffe: Information for the latest year for which information is available is provided in the following table. The 2007-08 data are currently being compiled and will be available in the near future.

2006-07

£000

	Total	*DCMS (including consolidated agency)*	*Other associated public bodies*
NBV of dwellings	9,132	4,006	5,126
NBV of other land and buildings	2,819,546	75,552	2,743,994
Total NBV	2,828,678	79,558	2,749,120

This information relates to the net book value (NBV) as shown in the Whole of Government Accounts (WGA) returns from NDPBs sponsored by DCMS, and also as prepared for WGA by DCMS and its agency body. Public corporations that DCMS sponsors have not been included.

Departmental Computers

Mr. Peter Ainsworth: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of *(a)* the number of computer devices left on overnight in his Department when not in use and *(b)* the cost of leaving computer devices on overnight when not in use in each of the last five years; and if he will make a statement. [217866]

Mr. Sutcliffe: All staff are instructed to turn off computer devices overnight. No estimate of the cost of leaving computer devices on overnight has been made.

My Department is in the process of deploying a system to ensure that computer devices are turned off overnight.

Departmental Disciplinary Proceedings

Mr. Redwood: To ask the Secretary of State for Culture, Media and Sport how many staff in his Department and its agency have been *(a)* dismissed and *(b)* disciplined for their conduct in the last two years. [217410]

Mr. Sutcliffe: The information requested is as follows:

(a) There has been one member of staff dismissed in DCMS in the last two years and none from Royal Parks Agency.

(b) There have been no staff formally disciplined for their conduct in either DCMS of the Royal Parks Agency in the past two years.

Departmental Early Retirement

Mr. Redwood: To ask the Secretary of State for Culture, Media and Sport how many staff in his Department have taken early retirement in the last two years. [217398]

Mr. Sutcliffe: In the Department for Culture, Media and Sport, 10 staff have taken early retirement in the last two years.

Departmental Local Area Agreements

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what local area agreements his Department has entered into in the last 12 months. [218387]

Mr. Sutcliffe: 150 local area agreements were approved by the Secretary of State for Communities and Local Government on 30 June 2008 on behalf of the whole of Government. Individual Departments, including the Department for Culture, Media and Sport, have been involved in negotiations with local areas.

Departmental Manpower

Mr. Redwood: To ask the Secretary of State for Culture, Media and Sport what the change in the number of employees in his Department and its agencies has been since July 2006. [217070]

Mr. Sutcliffe: In the Department for Culture, Media and Sport and its agency the Royal Parks the number of full time equivalent (FTE) employees at 31 July 2006 was 519 and 96.7 respectively. The FTE figures as at 31 May 2008 were 466 and 101.5 respectively.

Departmental Marketing

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport what the cost was of *(a)* internet and website design and hosting, *(b)* print media design and *(c)* broadcast media of each of his Department's public information campaigns since 1997. [214671]

Mr. Sutcliffe: The Department has a zero spend on public information campaigns between 1997 and 2002. Expenditure in subsequent years is set out as follows by specified area:

(a) Internet and website design and hosting

	Campaign	Design (£)	Hosting (£)
2003-04	BBC Charter	[1]0	[2]20,000
2005-06	Breakout	17,500	[2]20,000
2005-06	Licensing	[1]0	[2]20,000

[1] Design done in-house using existing resources
[2] £20,000 includes the cost for the server which is also used to host five departmental websites. Individual costs cannot be separated out.

(b) Print media design

	Campaign	Spend (£)
2003-04	BBC Charter	20,987
2005-06	Licensing	51,028
2006-07	Tourism consultation	4,903

(c) Broadcast media

	Campaign	Spend (£)
2004-05	BBC Charter	37,085

Departmental Pay

Mr. Redwood: To ask the Secretary of State for Culture, Media and Sport what proportion of staff of his Department and its agency did not receive the maximum bonus possible under a bonus scheme applying to them in the last two years. [217368]

Mr. Sutcliffe: The information is as follows:

Royal Parks Agency (DCMS's Executive agency)

Appraisal year	Percentage of staff that did not receive the maximum performance bonus
2005-06	99
2006-07	99

Department for Culture, Media and Sport

Appraisal year	Percentage of staff that did not receive the maximum performance bonus
2005-06	78
2006-07	85

Notes:
1. DCMS has not yet finalised its end of year performance bonuses for 2007-08 appraisal year.
2. The figures stated in the tables relate to all grades, including the end of year performance bonuses awarded to senior civil servants.
3. The bonuses relate to staff who were entitled to a DCMS end of year performance bonus and do not include staff who joined the Department during the year and received a bonus from another organisation.
4. Special in-year bonus payments are not included in the tables.

Departmental Publications

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much his Department spent on publishing in each of the last three years, broken down by publication. [209405]

Margaret Hodge *[holding answer 6 June 2008]:* The amount spent on publishing for each of the last three years was:

	Amount spent on publishing (£)
2005-06	191,854.56
2006-07	143,283.50
2007-08	303,218.50

The breakdown for each publication is as follows:

Publication title	Cost (£ ex. VAT)
April 2005 to March 2006	
Gambling Act 2005: What it means for Licensing Authorities	769.31

English Sports Council: Expenditure

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many projects have received funding from Sport England's Community Projects Revenue Fund since 1999; and what estimate he has made of the number of people who participated in those projects. [217167]

Mr. Sutcliffe: Sport England has advised that the Community Projects Revenue Fund is a generic term for a series of funding streams including Sports Action Zones and other community initiatives, and not a single funding stream for which such information is centrally held.

Sport England has advised that 384 projects were supported through the Active Communities Development Fund, Sports Action Zones and Active Sports. Sport England advise that no estimate has been made of the number of people who have benefited from these projects.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many awards Sport England made to projects encouraging *(a)* school, *(b)* after-school and *(c)* community club links in each year since 1999. [217168]

Mr. Sutcliffe: Sport England has advised that it does not hold the information in the format required. However, awards have been made to a number of National Governing Bodies (NGBs) of Sport to support the school club links workstrand of the Government's PE and School Sport for Young People programme.

These awards enable the NGBs to create and develop links between schools and community sports clubs, with the aim of increasing the number of children aged 5-16 years participating in community sport. In total, £14,646,859 million is being invested.

The number of NGBs receiving awards has been as follows:

Financial year	Number
2003-04	7
2004-05	22
2005-06	22
2006-07	22
2007-08	22
2008-09	23

Sport England has advised that it also funded a total of 1,656 projects as part of the Community Club Development Programme (CCDP) in the period 2003 to 2008. Projects funded as part of the programme must demonstrate links to school and after-school activity. Sport England has committed a total of £100,221,827 investment into Community Club Development Programme between 1 April 2003 and 31 March 2008.

Fast Track

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what services Fast Track supplies to his Department; and at what cost. [218383]

Mr. Sutcliffe: The Department is at an advanced stage of negotiations with Fast Track regarding their role in raising £100 million from the private sector to support elite athletes.

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what meetings *(a)* he, *(b)* other Ministers in his Department and *(c)* officials in his Department have had with representatives of Fast Track since February. [218385]

Mr. Sutcliffe: Since February, the Secretary of State has met Fast Track on three occasions: on 3 April,

2 July and 9 July. I also met Fast Track on 3 April and 2 July. There have been frequent meetings between officials and Fast Track.

Festivals and Special Occasions

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much his Department spent on promoting *(a)* St Patrick's Day, *(b)* St David's Day, *(c)* Eid, *(d)* Diwali and *(e)* Hanukkah in the last year. [218391]

Mr. Sutcliffe: There has been no cost to the Department on promoting St. Patrick's Day, St. David's Day, Eid, Diwali or Hanukkah in the last year. The Department has a calendar of religious festivals on its intranet site which is accessible to all staff.

Fish

Mr. Peter Ainsworth: To ask the Secretary of State for Culture, Media and Sport how much fish was procured by his Department and at what cost in each of the last five years, broken down by species; and what amount and value of such fish met the Marine Stewardship Council standard in each such year, broken down by species. [217901]

Margaret Hodge: The Department holds the information set out relating to fish purchased in financial year 2007-08. Information is not available for previous years.

Product	*Approximate weight (kg) 2007-08*	*Total cost 2007-08 (£)*	*Marine Stewardship Council Standard*
Haddock/ cod fillet tail	312	2,392.56	Yes
Tuna in brine	593	2,349.36	Yes
Sandwich prawns	65	328.90	Yes
Smoked salmon	26	786.24	Yes
Salmon fillet	14	52.50	No

Government Art Collection

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport if he will place in the Library the minutes of all meetings of the Government Art Collection Committee where the decoration and art work in No. 10 Downing Street were discussed since January 2007. [215049]

Margaret Hodge: There is no Government Art Collection Committee to discuss the decoration and works of art in No. 10 Downing street. The Government Art Collection (GAC) advise on the pictures to be hung in 10 Downing street. The pictures are changed periodically as those loaned to the house are returned to the collection from which they have been drawn.

Licensing: Circuses

Peter Luff: To ask the Secretary of State for Culture, Media and Sport what recent assessment he has made of the effect of the Licensing Act 2003 on travelling circuses; what steps he plans to take to mitigate any negative effects; and if he will make a statement. [217526]

Mr. Sutcliffe: We are committed to action on many of the irritations about the application process which were highlighted by circuses in their helpful responses to our survey last year. For example, we intend to bring forward shortly a new minor variations process that will, among other things, allow a quicker and lower cost mechanism for altering plans. We are also looking at how we can make aspects of the application process more flexible and less costly, including the greater use of electronic applications.

While our priority is to progress the commitments in our simplification plan, we will also start to look at possible alternative arrangements which better reflect the nature of travelling entertainment performed at multiple sites. Any such changes would, of course, require full public consultation and would have to be supported by a full impact assessment.

Listed Buildings

Mr. Evans: To ask the Secretary of State for Culture, Media and Sport what funding was available for the upkeep of *(a)* Grade I, *(b)* Grade II and *(c)* Grade III listed buildings in (i) Ribble Valley constituency, (ii) Lancashire and (iii) England in the last three years. [212816]

Margaret Hodge *[holding answer 20 June 2008]:* There are three types of funding available for the upkeep of listed buildings, through English Heritage, the Heritage Lottery Fund and the Listed Places of Worship Grant Scheme. Total spend cannot always easily be broken down by geographical area, but where possible this has been provided.

1. English Heritage have provided the following information on the funding they have made available for the upkeep of historic buildings in each of the last three years:

£

	England	*North West region*
2005-06	18,770,000	3,610,000
2006-07	20,050,000	2,813,685
2007-08	18,625,000	2,379,725

These funds were the total available across all the relevant English Heritage grant schemes from which buildings at all grades might benefit. However, English Heritage's resources are largely focused on Grade I and Grade 2* buildings. Grade 3 is no longer in use as an official classification although some local authorities use it to denote local interest.

English Heritage's budget is allocated regionally and so more detailed information is not available for Lancashire or Ribble Valley. English Heritage's north-west region comprises Cheshire, Cumbria, Greater Manchester/Lancashire and Merseyside.

2. The Heritage Lottery Fund (HLF) funds projects which conserve, and enable more people to take part in, take decisions about and learn about the UK's heritage.

HLF administers a number of competitive open grants programmes under which listed buildings can be funded—either as separate projects in their own right, or as part of broader projects through HLF's thematic grants programmes such as Parks for People, the Townscape Heritage Initiative and the Landscape Partnerships scheme. HLF may fund the conservation and restoration of a listed building provided the application meets all the criteria of the relevant programme.

HLF ring-fences an element of its funding for decision in each English region and Scotland/Wales and Northern Ireland, and also has nationwide programmes funded from separate UK-wide pots. Funding is not ring-fenced on a constituency or county level. Details of available funding, as provided by HLF, are as follows:

£

Funding available under programmes which can fund listed buildings

FY	*Ring-fenced to north-west*	*Nine English regions ring-fenced budgets*[1]	*Additional UK-wide budget*	*Funding available for listed buildings in north-west*[2]	*Funding available for listed buildings in England*[3]
2005-06	15,415,230	112,700,000	207,300,000	222,715,230	320,000,000
2006-07	14,189,138	103,300,000	180,700,000	194,889,138	284,000,000
2007-08	13,089,138	95,800,000	153,200,000	166,289,138	249,000,000

[1] Includes north-west ring-fenced budget.
[2] Ring-fenced north-west budget plus additional UK-wide budget.
[3] Nine ring-fenced English regional budgets plus UK-wide budget.

3. The Listed Places of Worship Grant Scheme makes grants equivalent to the VAT incurred in making repairs to listed buildings in use as places of worship. It is not possible to identify the scheme's expenditure in the Ribble Valley constituency, or identify the spend by listing grade.

£

	2005-06	*2006-07*	*2007-08*
Lancashire	77,724	308,336	321,753
England	12,485,548	11,651,298	12,062,290

Oceanic House

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what progress has been made on the disposal of Oceanic House. [218388]

Mr. Sutcliffe: Negotiations are currently taking place with the landlord of Oceanic House about an early surrender of the lease. If these are unsuccessful the property will be placed on the open market.

Personal Injury

Mr. Hayes: To ask the Secretary of State for Culture, Media and Sport what the highest 10 payments made by his Department in settlement of personal injury claims brought against it were over the last 12 months for which figures are available; which of those cases were *(a)* contested and *(b)* uncontested by the Department; and what the nature of the incident was in each case. [216675]

Margaret Hodge: In the Department for Culture, Media and Sport there have been no personal injury claims brought during the last 12 months.

Public Houses

Ben Chapman: To ask the Secretary of State for Culture, Media and Sport whether he has conducted or evaluated research on the contribution of public houses to British culture. [218523]

Mr. Sutcliffe: The Department has not conducted formal research into the contribution of public houses to British culture, but it maintains extensive contacts with representatives of the on-trade and recognises the importance of public houses within many communities.

The Department ensures that other Government Departments are aware of the social and economic importance of the pub industry so that decisions taken by them which impact on the on-trade are properly informed. We look forward to considering the findings of the All Party Parliamentary Beer Group Inquiry into Community Pubs.

Sports: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what progress has been made towards the Government's target of securing £20 million per year of funding for elite sport from private sponsorship. [218384]

Mr. Sutcliffe: The Department continues to work with UK Sport and others in the development of proposals to secure funding from the private sector.

Video Games

Mr. Evans: To ask the Secretary of State for Culture, Media and Sport what recent progress has been made on establishing a centre for excellence for computer games production, as proposed in the Government's 2008 Creative Britain report. [218337]

Margaret Hodge: The Northwest Regional Development Agency is commissioning a feasibility study into establishing a centre of excellence for computer games, which is due to report on 31 January 2009.

Video Games: EU Grants and Loans

Mr. Hayes: To ask the Secretary of State for Culture, Media and Sport what EU grant aid may be provided for development of computer games in the UK with an EU cultural element; and what the qualifying criteria are for such grant aid. [216653]

Margaret Hodge: There is no specific European grant aid for games companies but UK games companies can access investment through European regional development funds.

Article 87(3)(d) of the EC treaty authorises member states to give aid to promote culture provided it does not adversely affect trading conditions and competition, but at the moment this does not apply to video games in the UK.

Within the UK, Government currently offer research and development (R and D) tax credits for businesses. As one of the commitments in our recently published Creative Britain document, we have outlined the aim to work with small businesses, with a particular focus on the video games industry, to make the current system of R and D tax credits more user friendly.

The Technology Strategy Board are currently assessing bids to a new £10 million fund to inspire new collaborative research and development ideas for the creative industries, including the video games industry.

First awards have already been made for feasibility study bids (awards up to £15,000); these are done on a monthly basis on a cycle running from March-August.

HOME DEPARTMENT

UK Border Agency

6. **Mr. Benyon:** To ask the Secretary of State for the Home Department what recent assessment she has made of the performance of the UK Border Agency. [218092]

Mr. Byrne: Since the start of the year, the new United Kingdom Border Agency has stopped 6,000 illegal immigrants and removed over 2,400 FNPs.

Since April the new agency has seized £83 million of drugs, 200 million cigarettes and 800 dangerous weapons; searched 287,000 freight vehicles; and triggered 280 arrests through screening passenger information.

The agency has also recorded over 2 million fingerprints and detected nearly 3,000 cases of ID swaps. It has also issued 352 fines to firms employing illegal immigrants with a value of £3.4 million.

National DNA Database

13. **Mr. Russell Brown:** To ask the Secretary of State for the Home Department what estimate she has made of the number of detections of crimes made possible by the retention of DNA samples on the National DNA Database. [218100]

Gordon Banks: To ask the Secretary of State for the Home Department what estimate she has made of the number of detections of crimes made possible by the use of DNA samples retained on the National DNA Database. [218089]

23. **Sarah McCarthy-Fry:** To ask the Secretary of State for the Home Department what estimate she has made of the number of detections of crimes made possible by the use of DNA samples retained on the National DNA Database. [218110]

Meg Hillier: It is estimated that over the period April 1998 to March 2007, there have been approximately 240,000 detections in which a DNA match was available or played a part in solving the crime. Figures for the 2007-08 financial year will be available shortly.

Asylum Seekers: Iraqi Minorities

15. **Dr. Cable:** To ask the Secretary of State for the Home Department what the Government's policy is on those from Christian and other minorities in Iraq seeking asylum in the UK. [218102]

Mr. Byrne: The United Kingdom considers all asylum claims, including those from Iraqi nationals, on their individual merits in accordance with our obligations under the 1951 UN Refugee Convention. All claims are considered against the background of the latest country information and country guidance case law as decided by the independent Asylum and Immigration Tribunal.

Asylum Seekers: Zimbabwe

16. **Jo Swinson:** To ask the Secretary of State for the Home Department what recent representations she has received on the detention in the UK of Zimbabwean asylum seekers. [218103]

Mr. Byrne: The UK Border Agency has recently received representations from a small number of individuals, including Members of the House, the chair of the Independent Monitoring Board for Haslar and detainees themselves, on the detention in the UK of Zimbabwean asylum seekers.

Newport Passport Office

17. **David T.C. Davies:** To ask the Secretary of State for the Home Department whether she plans to close Newport passport office. [218104]

Meg Hillier: No.

Knife Crime

18. **Mr. Robathan:** To ask the Secretary of State for the Home Department What recent assessment she has made of trends in levels of knife crime. [218105]

Mr. Coaker: We recognise that more and younger people are carrying knives. We acknowledge that the use of knives and other weapons indicates an ongoing trend for young people to carry knives either to protect themselves or for credibility from their peers. Any incident involving a knife is completely unacceptable. That is

why we are investing £2 million on a targeted programme to tackle knife crime in eight police force areas.

20. **Lorely Burt:** To ask the Secretary of State for the Home Department what recent assessment she has made of the effectiveness of measures to reduce knife crime. [218107]

Mr. Coaker: We recognise that knife crime is a problem. That is why we are investing £2 million on a targeted programme working with police forces and local authority partners to tackle knife crime in the most affected areas. In addition, we have increased our powers and penalties and are investing in prevention and education to tackle this problem.

Police Service: Public Accountability

19. **Mr. Timpson:** To ask the Secretary of State for the Home Department what recent representations she has received on improving the public accountability of the police service. [218106]

Mr. McNulty: Following the reviews of policing and community safety by Sir Ronnie Flanagan and Louise Casey, my right hon. Friend the Home Secretary has received representations from ACPO and the APA among others on many issues, including police accountability. My right hon. Friend the Home Secretary intends to publish a Green Paper later this week with proposals to improve the police accountability.

Trafficking: Sexual Exploitation

21. **Anne Snelgrove:** To ask the Secretary of State for the Home Department what steps she is taking to reduce the trafficking of women for sexual exploitation. [218108]

Jacqui Smith: Operation Pentameter 2, the UK's largest anti-trafficking operation, recently recovered 167 victims of sexual exploitation. We will ratify later this year the Council of Europe Convention against trafficking, as part of our comprehensive strategy against trafficking which is set out in our Action Plan, updated on 2 July.

Prostitution: Decriminalisation

22. **Dr. Iddon:** To ask the Secretary of State for the Home Department what research she has evaluated on the effects of decriminalisation of prostitution in other countries. [218109]

Mr. Coaker: As part of the Government's review of measures to tackle the demand for prostitution we have commissioned research comparing policy approaches adopted in other jurisdictions, including New Zealand, which has decriminalised prostitution. Our findings will be published as part of the outcome of this review, in the autumn.

Crime: Rural Areas

24. **Phil Wilson:** To ask the Secretary of State for the Home Department what recent steps her Department has taken to reduce crime in rural areas. [218111]

Mr. Coaker: Both the British Crime Survey and recorded crime statistics show that crime is lower in rural areas.

The Home Office has undertaken actions which directly benefit rural communities such as establishing farm, horse, country and poacher watch schemes. In my hon. Friend's constituency in Sedgefield a "farmwatch" scheme is now in place.

Asylum: Zimbabwe

James Duddridge: To ask the Secretary of State for the Home Department what estimate she has made of the number of Zanu-PF members in *(a)* Southend and *(b)* the UK. [217655]

Mr. Byrne *[holding answer 10 July 2008]:* Statistics on membership of Zanu-PF are not collected by the Home Office.

Departmental Buildings

Pete Wishart: To ask the Secretary of State for the Home Department on which buildings occupied by her Department's agencies and non-departmental public bodies the lease will be due for renewal in the next four years. [214712]

Mr. Byrne: The Department's agencies, shadow agency and non-departmental public bodies occupy the buildings listed as follows where the lease (or inter-departmental agreement where applicable) is due for renewal in the next four years.

Building addresses

India Buildings, Water Street, Liverpool, Merseyside L2 OXG

Unit 31, Orton Southgate, Tresham Road, Peterborough, PE2 6SG

The aforementioned excludes leases that go beyond but with tenants breaks inside four years, leases for immigration use at ports of entry, leases outside the UK and leases where national security precludes their inclusion. 68 of the leases are held under a PPP agreement for the Authentication by Interview passport programme.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for the Home Department what the hourly rates of pay of all non-permanent staff working for her Department and

its agencies were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196440]

Mr. Byrne: Table 1 attached details the range of hourly salary rates and the number of employees on each rate for staff classified as casual, fixed term, fee paid, sandwich course student or contractor. The figures cover the core Department, UK Borders Agency, Identity and Passport Service and Criminal Records Bureau and are for the period May 2007 to April 2008.

The data were taken from the Department's payroll system. It has not been possible to provide information relating to agency staff as they are employed directly by individual business units. Full information on hourly rates is therefore not held centrally and it would incur disproportionate cost to provide these data.

Number of employees

	2007								2008

Departmental Sick Pay

Angus Robertson: To ask the Secretary of State for the Home Department what the cost of sickness pay to staff within her Department was in the most recent year for which figures are available. [187519]

Mr. Byrne: Table 1 as follows details the estimated direct salary cost to the Department of sickness absences in the period 1 April 2007 to 31 March 2008, where periods of absence began in that financial year. The figures relate to staff in the core Department, United Kingdom Border Agency, Identity and Passport Service and Criminal Records Bureau. The figures encapsulate employee salary costs, employer pension contributions and employer national insurance contributions.

Table 1: Calculated direct salary costs of sick absence in Home Office and agencies for 2007-08

	Extrapolated from total annual gross salary costs	
	Number	*Total estimated gross salary cost (£)*
Days Absence for 2007-08	338,713	25,142,084.23

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for the Home Department how many staff in her Department and its agencies have attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197064]

Mr. Byrne: Figures for course attendance and cost in the courses specified are provided in the following table.

Number of staff attending each course in 2007-08 and the amount charged by the National School of Government

(c) Counselling Skills for the Workplace—COUN
(a) Influencing with Integrity—IIS
(b) Emotional Intelligence—PEP3

Genetics: Databases

Chris Huhne: To ask the Secretary of State for the Home Department what estimate she has made of the number of cases resulting in conviction secured to date in which evidence based on DNA profiles from the national DNA database was used *(a)* of those without a previous conviction and *(b)* not found at the scene of a crime. [191144]

Jacqui Smith: In relation to part *(a)*, information on the number of crimes resulting in convictions in which DNA subject sample profiles on the National DNA Database (NDNAD) taken from persons with no previous convictions were a contributory factor is not collected centrally.

In relation to part *(b)*, all detected crimes, in which a DNA match played a part in solving the crime, would involve a match between a subject sample profile (taken from an arrested person) and a crime scene sample profile believed to have been left by the offender at the scene of a crime.

Heathrow Airport: Security

Mrs. Villiers: To ask the Secretary of State for the Home Department pursuant to the answer of 16 June 2008, *Official Report*, column 676W, on Heathrow Airport: security, what further checks UK Border Agency staff undertook to ascertain whether those individuals who left the domestic arrivals area prior to the error being identified presented a security risk. [213187]

Mr. Byrne *[holding answer 23 June 2008]:* On each of the five occasions where international passengers were misdirected, the UK Border Agency was immediately notified and took appropriate remedial action. All of the incidents were a result of errors made by either British Airways or the British Airports Authority staff. UKBA staff worked closely with the airport operator to redirect passengers to the appropriate area in order to complete all of the necessary immigration checks. This was successful on two occasions, although on the other three, a number of passengers had already left the domestic area.

In these instances, further checks were made which satisfied UKBA staff that the individuals who had entered did not present a known risk to UK security. These checks included cross checking the details of all those who had been on board the aircraft against Home Office databases. In addition, passengers' details were also passed on to the Metropolitan Police Service who carried out additional security checks.

Illegal Immigrants: Employment

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department how many employers found to have employed illegal workers have been *(a)* cautioned, *(b)* charged and *(c)* prosecuted in (i) 2007 and (ii) 2008 to date; and, of those in each category, how many were proceeded against for (A) employing illegal workers and (B) facilitating illegal immigrants to remain in the UK by providing employment, food or accommodation. [198525]

Mr. Byrne: The following action has been taken against employers found to have employed illegal workers under section 8 of the Asylum and Immigration Act 1996.

Action	*January to December 2007*	*January to 6 June 2008*
Cautioned	1	1
Charged	41	46
Criminal prosecutions	35	42

New measures were introduced by the Immigration Asylum and Nationality Act 2006 and came into effect for those employed on, or after 29 February 2008. There is now a system of civil penalties for employers who employ illegal migrant workers. This is combined with the introduction of a new criminal offence of knowingly employing an illegal migrant worker.

221 notices of liability have been issued to employers under the civil penalty system in the period 29 February 2008 to 6 June 2008.

All cases are considered on the individual evidence available. A decision to proceed with prosecution is predicated on evidence that indicates that an employer 'knowingly' employed a migrant worker who had no permission to work or to do the work in question.

No employers were proceeded against for facilitating illegal immigrants to remain in the United Kingdom by providing employment, food or accommodation.

This information is derived from provisional local management information which may be subject to change.

Immigration: Latin America

Jeremy Corbyn: To ask the Secretary of State for the Home Department how many nationals of Latin American countries were in detention under immigration law in each month since April 2007. [217787]

Mr. Byrne: Quarterly data are published showing the number of people detained solely under Immigration Act powers on the last Saturday of each quarter. The accompanying table shows the number of Latin American nationals detained solely under Immigration Act powers as at the last Saturday of each quarter since April 2007 up to March 2008, the latest published information.

Further National Statistics on persons detained solely under Immigration Act powers are available from the Library of the House and the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Latin American nationals[1] detained solely under Immigration Act powers as at the specified dates[2,3,4,5]

Detained as at:	*Number of detainees*
30 June 2007	40
29 September 2007	35
29 December 2007	25
29 March 2008	25

[1] Includes nationals of Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, El Salvador, Guatemala, Haiti, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Uruguay and Venezuela.
[2] Excluding persons detained in police cells and those detained under both criminal and immigration powers.
[3] Due to changes in working practices, these statistics now exclude all persons detained in Prison Service establishments. Figures are not directly comparable with those prior to June 2006.
[4] Figures include dependants.
[5] Figures rounded to the nearest five.

Jeremy Corbyn: To ask the Secretary of State for the Home Department how many people were removed under immigration laws to *(a)* Colombia, *(b)* Ecuador, *(c)* Bolivia and *(d)* Peru in (i) each month since April 2007 and (ii) (A) 2006-07, (B) 2005-06 and (C) 2004-05. [217788]

Mr. Byrne: The accompanying tables show the number of persons removed or departing voluntarily to Colombia, Ecuador, Bolivia and Peru during the periods specified and up to March 2008, the latest published information.

Further National Statistics on immigration and asylum are available from the Library of the House and the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html.

Persons removed or departing voluntarily[1,2] from the UK, to Colombia, Ecuador, Bolivia and Peru during 2004-05, 2005-06 and 2006-07[3]

Number of removals

Destination[4]	*2004-05*	*2005-06*[5]	*2006-07*[5]
Colombia	350	380	370
Ecuador	265	240	215
Bolivia	455	360	305
Peru	45	40	45

[1] Includes persons departing voluntarily following enforcement action initiated against them and persons leaving under Assisted Voluntary Return Programmes run by the International Organization for Migration.
[2] Since January 2005, includes persons who it is established have left the UK without informing the immigration authorities.
[3] Figures rounded to the nearest five.
[4] Destination as recorded on source database.
[5] Provisional figures.

Persons removed or departing voluntarily[1] from the UK, to Colombia, Ecuador, Bolivia and Peru by month during 2007-08[2]

Number of removals

2007-08	270	170	415	25

[1] Includes persons departing voluntarily following enforcement action initiated against them, persons leaving under Assisted Voluntary Return Programmes run by the International Organization for Migration and those who it is established have left the UK without informing the immigration authorities.
[2] Figures rounded to the nearest five ('-' = 0, * = 1 or 2) and may not sum to the totals shown because of independent rounding.
[3] Destination as recorded on source database.

Internet

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department which organisation is responsible for regulating *(a)* Bebo, *(b)* YouTube and *(c)* other internet sites; and if she will make a statement. [216594]

Mr. Coaker *[holding answer 7 July 2008]:* While the internet is a worldwide medium, it is subject to UK law and the UK Government policy is that what is illegal offline is illegal online. As such the internet is subject to the same laws as other media.

The Government's policy in relation to the development of the internet is not to place general monitoring obligations or regulation on those who provide internet services, host websites etc., but rather to allow self-regulation.

In practice, there are excellent working relationships with the internet industry, and they have developed strong working practices and guidelines relating to services they offer and content they host. Where a UK ISP is advised—usually by law enforcement—that they are hosting material which is illegal, they have an excellent record in removing it.

Most recently the Home Secretary's Taskforce on Online Child Protection published the Good Practice Guidance for the Providers of Social Networking and Other Interactive Services 2008. This was produced by

members of the Taskforce including representatives from social networking sites. This Guidance asks companies to consider a risk assessment approach to their services and considering putting in place a range of potential safeguards where risks to children do occur. It also identifies to both the providers of interactive services and parents, teachers and carers how these sites can be used to exploit children and gives advice on how to keep children safe while using social networking tools.

In September 2007, the Prime Minister announced a review into the risk to children of exposure to harmful or inappropriate content in video games and online. The review also assessed the effectiveness and adequacy of existing measures to help prevent children from being exposed to such material and help parents understand and manage the risks of access to inappropriate content.

Dr. Tanya Byron conducted this review and reported to Ministers in March 2008. The Government have accepted all of the recommendations arising from the review and are currently planning for their implementation. The Government are actively involved in developing the UK Council on Child Internet Safety (UKCCIS), which will replace the Home Secretary's Taskforce.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for the Home Department when she will reply to the letter from the hon. Member for West Worcestershire dated 16th May 2008, about the UK residency requirement on foreign domiciliary aid workers (Reference: M8887/8). [217783]

Mr. Byrne *[holding answer 10 July 2008]:* The Deputy Chief Executive of the UK Border Agency wrote to the hon. Member on 9 July 2008.

Passports: Lost Property

Mr. David Hamilton: To ask the Secretary of State for the Home Department how many passports were reported *(a)* lost and *(b)* stolen in the last year for which figures are available. [217422]

Meg Hillier: In 2007, the Identity and Passport Service processed 303,572 reports of lost and stolen passports. There were 251,751 reports of lost passports, 41,393 stolen with the balance of 10,428 in the 'other' category. 'Other' includes passports reported as damaged or destroyed.

Schengen Agreement: Borders

Mr. Hayes: To ask the Secretary of State for the Home Department what obligations there are on the UK under the Schengen Borders Code. [217982]

Mr. Byrne: We do not participate in the immigration aspects of the Schengen Acquis. The Schengen Border Code does not therefore apply to the UK. We believe that maintaining our national frontier controls is the most effective way to maintain border security.

Terrorism: Travel Restrictions

Mr. Winnick: To ask the Secretary of State for the Home Department if she will make it her policy to refuse entry to any foreign or Commonwealth citizen seeking to enter the UK who is known to have publicly praised one of the 7th July bombers for their actions in those attacks. [218010]

Mr. Byrne *[holding answer 10 July 2008]:* Existing policy provides that those who engage in the glorification or justification of terrorist violence will normally be excluded from the UK on the basis that their presence here would not be conducive to the public good. Such activities fall within the scope of the list of "unacceptable behaviours" announced by the then Home Secretary in the wake of the July 2005 bombings. The unacceptable behaviours list made clear the sort of activities that are likely to lead to a person's exclusion or deportation from the UK.

Travel Restrictions: al Qaeda

Mr. Hayes: To ask the Secretary of State for the Home Department on how many occasions the EU flight ban on individuals associated with al-Qaeda has been invoked. [217985]

Mr. Byrne: We do not collect this information centrally. The details of those subject to the EU travel ban are placed on the relevant UK watch lists to prevent a named individual from travelling to, entering or transiting the UK.

Waterside Court

John Battle: To ask the Secretary of State for the Home Department what assessment was made of the likely impact of the flood plain of the River Aire on Waterside Court short-term holding facility before it was built; and if she will make a statement. [218017]

Mr. Byrne: Waterside Court was originally a water mill built over the River Aire in the 17th century and is a grade II listed building. The Home Office only took up leased occupation of a refurbished Waterside Court on 19 May 2000 and our knowledge of any flood assessment(s) undertaken prior to our occupation is limited.

John Battle: To ask the Secretary of State for the Home Department what steps her Department has taken to prevent the re-flooding of Waterside Court short-term holding facility on Kirkstall Road by the River Aire; and if she will make a statement. [218018]

Mr. Byrne: The Home Office acquired a demountable flood protection barrier system in 2001, and the building also has permanent waterproofing to cover areas not protected by the barrier. The Home Office has invested in the ongoing maintenance of these defences. The Home Office monitors the Environmental Agency website for flood warnings and operates the manual barrier on the basis of these. The barrier has been put in place once during the last 12 months.

SOLICITOR-GENERAL

Departmental Aviation

Mr. Maude: To ask the Solicitor-General how many individual domestic air flights were undertaken within Great Britain by representatives of the Attorney-General's Office in the most recent year for which figures are available; and at what cost. [215565]

The Solicitor-General: In the last year, there have been 53 flights at a cost of £21,296.50 (excluding VAT).

Departmental ICT

Mr. Hoban: To ask the Solicitor-General what IT contracts the Law Officers' Department and its agencies have entered into in the last two years. [215138]

The Solicitor-General: The Attorney-General's Office, Serious Fraud Office and Revenue Customs and Prosecutions office have entered into contracts with Sungard Public Services.

The Treasury Solicitor's Department have entered into 86 IT contracts:

22 contracts for the support and maintenance of hardware;

43 contracts for the support and maintenance of software; and

21 contracts for the support and maintenance of communication services.

The Crown Prosecution Service has entered into five IT contracts (HM Crown Prosecution Service Inspectorate are also included under these contracts):

1 contract for the support of an HR and Payroll system;

1 contract for a web-based recruitment system; and

3 contracts under the Office for Government Commerce Framework Agreement for the provision of and electronic ordering system, an online tendering system and an intranet application.

Departmental Manpower

Mr. Maude: To ask the Solicitor General how many permanent staff within the Attorney-General's Office are classed as *(a)* staff without posts and *(b)* part of a people action team. [215578]

The Solicitor-General: None.

Departmental Pay

Mr. Frank Field: To ask the Solicitor-General if she will review salary negotiations for public sector employees in organisations within her Department's responsibility to reflect the rise in the consumer price index to a point above 3 per cent. [214542]

The Solicitor-General: The Government's pay policy is guided by the following principles.

Public sector pay settlements should be consistent with maintaining the necessary levels of recruitment, retention and staff engagement needed to support service delivery; ensuring that total pay bills represent value for money and are affordable within Departments' overall expenditure plans; and consistent with the achievement of the inflation target. Timing of pay decisions for a particular work force depends on pay-setting arrangements for that work force.

Departmental Press

Mr. Hoban: To ask the Solicitor General how much was spent by the Law Officers' Departments on subscriptions for magazines, newspapers and other publications in each of the last 24 months. [215219]

The Solicitor-General: The figures are broken down by Department and year in the following table:

	2006-07			*2007-08*		
	Magazines	*Newspapers*	*Other publications*	*Magazines*	*Newspapers*	*Other publications*
Attorney-General's Office	[1]59,108.09	6,304.22	—	[1]65,216.80	5,911.24	—
Crown Prosecution Service		[2]269,301.69			[2]182,865.20	
Treasury Solicitor's Department	[1]240,873.12	4,579.55	—	[1]578,001.78	6,374.09	—
Serious Fraud Office	7,508	2,085.25	51,055	5,944	2,022.05	116,933
Revenue Customs and Prosecutions Office		[2]11,945.53			[2]9,280.95	
HM Crown Prosecution Service Inspectorate		[2]14,885.23			[2]12,539.39	

[1] Figure includes other publications and could be broken down only at a disproportionate cost.
[2] Figure could not be broken down into separate categories without incurring a disproportionate cost.

Departmental Responsibilities

Mr. Maude: To ask the Solicitor-General how many reviews of regulation the Attorney-General's Office has conducted or commenced since July 2007; and in which areas. [215618]

The Solicitor-General: None.

Departmental Security

Mr. Maude: To ask the Solicitor-General how many departmental identity cards or departmental passes have been reported lost or stolen by staff in the Attorney-General's Office in the last 24 months. [215615]

The Solicitor-General: None have been reported stolen, a small number have been lost but records are not kept.

Departmental Television

Mr. Maude: To ask the Solicitor-General to what premium Sky, digital terrestrial or cable television channels the Attorney-General's Office subscribes; and

at what yearly cost in the most recent period for which figures are available. [215654]

The Solicitor-General: The office subscribes to parliamentary television which does not incur any costs.

Fish

Mr. Peter Ainsworth: To ask the Solicitor-General how much fish was procured by her Department and at what cost in each of the last five years, broken down by species; and what amount and value of such fish met the Marine Stewardship Council standard in each such year, broken down by species. [217893]

The Solicitor-General: Detailed records are not kept on the procurement of fish and the information could be obtained only at a disproportionate cost.

Harassment

Mr. Hayes: To ask the Solicitor-General how many cases of *(a)* sexual and *(b)* racial harassment have been brought against her Department in each year since 1997; and what sum of payments resulted from such cases in each year. [214216]

The Solicitor-General: There have been less than five sexual and racial harassment cases brought against the Law Officer's departments, therefore this information cannot be provided on grounds of confidentiality.

Lotfi Raissi

Mr. Grieve: To ask the Solicitor-General what steps are being taken by the Law Officers in response to the findings of misconduct by the Crown Prosecution Service in the Court of Appeal judgment in Raissi v Secretary of State for the Home Department; and if she will make a statement. [195634]

The Solicitor-General: The judgment of the Court of Appeal in the case of R (ex parte Lotfi Raissi) *v.* Secretary of State for the Home Department concerned three issues:

whether, as a matter of interpretation, the ex gratia scheme for the payment of compensation to persons who have lost their liberty as the result of a miscarriage of justice is capable of applying to detention in the context of extradition proceedings;

if it is, whether there is evidence of serious default on the part of the Metropolitan Police and/or the Crown Prosecution Service (CPS) which the Secretary of State ought to consider; and

whether, if an application by Mr. Raissi for compensation failed under the serious default provision, the circumstances of the case are so exceptional that the Secretary of State ought to reconsider the application under the second paragraph of the scheme.

The Court of Appeal held that the scheme does apply to detention in the context of extradition proceedings. Further, it held that there was evidence to suggest that the Metropolitan Police and the CPS were responsible for serious defaults. The court made no findings of misconduct. Its judgment, on this point, was limited to considering whether there was evidence that the Secretary of State ought to consider; and it emphasised that it reached no firm conclusions on the issue of serious default, as neither the Metropolitan Police nor the CPS was represented before the court and in any event, findings of fact in relation to any alleged serious default are for the Secretary of State.

The Attorney-General and I have discussed the Court of Appeal's judgment with the Director of Public Prosecutions. We must await the outcome of any further litigation; but pending that, the Director has asked his Principal Legal Advisor to conduct an internal review of the matters raised by the Court of Appeal's judgment, and to advise him accordingly, with any such recommendations as he considers to be appropriate.

Morning Star

Mr. Maude: To ask the Solicitor-General how many copies of the *Morning Star* publication the Law Officer's Department subscribes to each week; and at what cost. [215671]

The Solicitor-General: None of the Law Officer's departments subscribe to this publication.

FOREIGN AND COMMONWEALTH OFFICE

Burma: Ethnic Groups

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Burmese government on the assassination of Padoh Mahn Sha, Secretary General of the Karen National Union. [217723]

Meg Munn: We have not formally discussed the assassination of Padoh Mahn Sha on 14 February 2008 with the Burmese regime. The case is still under investigation by the Thai police.

Cuba: Political Prisoners

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will hold discussions with the government of Cuba on detention of political prisoners. [217557]

Meg Munn: Foreign and Commonwealth Office Ministers and Officials raise the continuing detention of political prisoners in Cuba with representatives of the Cuban government, including the Cuban ambassador, on a regular basis. I raised the issue with Cuban Vice Foreign Minister Eumelio Caballero on 3 April and with the Cuban ambassador on 11 June.

Last month the EU lifted the suspended diplomatic measures that were imposed on Cuba following the arrest of 75 dissidents in 2003. This decision was taken as a means of facilitating a political dialogue between the EU and Cuba, including on human rights.

Departmental Buildings

Pete Wishart: To ask the Secretary of State for Foreign and Commonwealth Affairs on which buildings occupied by his Department's agencies and non-departmental public bodies the lease will be due for renewal in the next four years. [214704]

Meg Munn: Of the buildings occupied by Foreign and Commonwealth Office agencies and non-departmental public bodies, only the lease on the property occupied by the Westminster Foundation for Democracy in London is due for renewal in the next four years.

Central records are not held by the British Council and it would incur disproportionate cost to provide the information requested.

Departmental Coordination: Dept for International Development

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in delivering the FCO-DfID Shared Service Delivery plan objectives of increasing the proportion of *(a)* co-located offices by over 10 per cent. and *(b)* Department for International Development staff in co-located offices by over 25 per cent. by the end of the Comprehensive Spending Review 2007 period. [216305]

David Miliband: There has been a small increase (4 per cent.) in the number of staff from the Department for International Development (DFID) in co-located offices since the shared service delivery plan was developed in October 2006.

The overall number of co-located offices has reduced, primarily as a result of restructuring which has involved the closure of DFID offices in several countries. However, additional co-locations have taken place at our missions in Harare, Lilongwe, Georgetown and Kampala. We also plan to co-locate at Abuja, Bridgetown, Delhi, Dhaka, Kabul and Jerusalem over the course of the current comprehensive spending review period. We are currently co-located in a total of 33 sites.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs in which countries his Department shares offices with the Department for International Development; and how many staff from each department work at each office. [216307]

David Miliband: The following table shows in which countries the Foreign and Commonwealth Office (FCO) shares offices with the Department for International Development (DFID) and how many UK based and local staff currently work at each office:

Country	*FCO staff*	*DFID staff*
Afghanistan	112	37
Albania	27	2
Angola	34	3
Armenia	19	3
Bosnia	28	6
Belgium (Brussels UKREP)	150	2
Burma	44	8
Burundi	3	6
Cambodia	27	17
Democratic Republic of Congo	37	38
Ethiopia	174	53
Georgia	29	3
Guyana	22	8
Indonesia	61	12
Iraq	60	6
Jamaica	77	5
Kenya (and Somalia)	172	47
Malawi	44	58
Moldova	21	3
Nigeria	121	2
Pakistan	269	53
Russia	140	1
Rwanda	25	28
Serbia and Montenegro	60	5
Sri Lanka	88	2
Tanzania	33	28
Thailand	109	1
Tajikistan	24	7
Uganda	74	44
Vietnam	19	28
Zambia	39	29
Zimbabwe	89	30
Yemen	144	8
Total	2,375	583

Departmental Pay

Mr. Redwood: To ask the Secretary of State for Foreign and Commonwealth Affairs what proportion of staff in his Department and its agencies did not receive the maximum bonus possible under a bonus scheme applying to them in the last two years. [217060]

Meg Munn: The following proportion of staff in the Foreign and Commonwealth Office (FCO) did not receive the maximum bonus possible under the bonus scheme applying to them in each of the last two years:

	Percentage	
	2006-07	*2007-08*
Grades below the senior management structure (SMS)	94	95
SMS	88	76

The FCO uses non-consolidated, non-pensionable, performance-related bonuses to encourage high performance. We pay annual bonuses to staff in the grades below senior managers based on appraisal evidence of annual performance. The highest rating and bonus award is applicable where performance significantly exceeds a challenging performance agreement to a greater extent than considered possible at the start of the appraisal period, and may have radically transformed delivery of policy and/or services.

Variable pay (bonus) arrangements for staff in the SMS/senior civil service (SCS) follow a framework set for Whitehall Departments by the Cabinet Office. We use variable pay for SMS/SCS staff to reward excellent individual performance and achievement during the year. Variable pay decisions are based on a judgment by pay committees of what an individual has achieved in comparison with peers. Those who have delivered the best results, and shown real leadership in doing so, receive the biggest bonuses. Those who have delivered least receive nothing. Whitehall Departments were authorised to spend a sum equivalent to 7.6 per cent. of

their SMS pay budget on non-consolidated variable pay for senior staff in 2007 and 8.6 per cent. in 2008. 25 per cent. of senior staff will not receive a bonus in 2008.

Departmental Secondment

Pete Wishart: To ask the Secretary of State for Foreign and Commonwealth Affairs what procedures his Department uses to ensure equal opportunities in relation to staff secondments to the Department. [214705]

Meg Munn: The Foreign and Commonwealth Office (FCO) is an equal opportunities employer. Staff are recruited in accordance with the Civil Service Commission Recruitment Code and the Diplomatic Service Order in Council 1991. Interchange opportunities with other Government Departments are advertised on a Whitehall-wide basis. Secondments from outside the civil service into the FCO promote the exchange of wider ideas and experience.

For the duration of the loan period, staff on secondment or interchange to the FCO are subject to FCO terms and conditions of service as set out in the Home Service Regulations. As such, the FCO's Dignity at Work policy is applicable to secondees and those on interchange. We listen to their concerns through the Secondees Group, a support network that was set up by and consists of FCO employees who are on loan or seconded from other Government Departments or other organisations.

EU Defence Policy

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the French government has proposed a military ERASMUS programme for the exchange of members of EU member states' armed forces. [215430]

Mr. Jim Murphy: The French Government have made a proposal for officer exchanges between EU member states. They have made clear that any scheme would be voluntary and impose no obligations on any member state. We welcome this proposal as a means to increase interoperability amongst EU member states.

Kurds: Peace Negotiations

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will take steps to convene a peace conference to bring together representatives of Kurdistan, Turkey, Armenia and Iraq. [218126]

Dr. Howells: We are in frequent contact with the Governments of Iraq, Armenia and Turkey and the Kurdistan regional government in Iraq and encourage them to strengthen their bilateral relationships and resolve any disputes they have through dialogue. We have no plans to convene or support a conference specifically for these countries.

Laos: Religious Freedom

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the government of Laos on the treatment of Christians in that country. [217498]

Meg Munn: We are aware of reports of the detention and mistreatment of Christians in Laos. Our ambassador in Bangkok, who is accredited to Laos, raised the issue of human rights with the authorities when he visited that country from 8-10 April.

The Like-Minded Group (a group of resident embassies and international organisations) have regular meetings in Vientiane that discuss human rights issues in Laos and the EU Commission held a Human Rights working group with the Lao government from 2-3 March.

We condemn all instances of violence and discrimination against individuals and groups because of their faith or belief, wherever they happen or whatever the religion of the individual or group concerned.

We will continue to raise our concerns with the Lao authorities as and when the opportunity arises.

Middle East: Armed Conflict

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of relations between Hezbollah and *(a)* Hamas, *(b)* Islamic Jihad and *(c)* the al-Aqsa Martyrs Brigade; what recent discussions he has had with the government of the State of Israel on this issue; and if he will make a statement. [217915]

Dr. Howells: Hezbollah's military wing provides support to rejectionist groups in the Occupied Palestinian Territories. On 2 July my right hon. Friend the Home Secretary laid an order in Parliament which, if approved, will proscribe the entirety of Hezbollah's military wing. Proscription will not affect the political, social and humanitarian role Hezbollah plays in Lebanon, but it sends out a clear message that we condemn Hezbollah's violence and support for terrorism carried out by its military wing.

We have regular discussions with the Israeli authorities, which address this issue among many others.

Pakistan: BBC

Mr. Galloway: To ask the Secretary of State for Foreign and Commonwealth Affairs what arrangements have been made by the BBC World Service with the Pakistan Electronic Media Regulatory Authority for control of content of re-broadcast BBC material in Pakistan; what level of Ministerial consent was required for this arrangement; and if he will make a statement. [217389]

Mr. Jim Murphy: BBC World Service content, including what is re-broadcast by partners on FM frequencies, conforms only to BBC editorial values and guidelines. The BBC World Service has total editorial control over its programming whether that programming is broadcast directly by it on short wave or medium wave or via third party distribution arrangements. This is at the core to any agreement with any partner station.

The Pakistan Electronic Media Regulatory Authority does not regulate the BBC World Service. It regulates the stations which are licence holders in Pakistan. The BBC World Service does not hold a licence. The BBC

World Service is a content supplier in Pakistan in the same way as it supplies content to its partners throughout the world.

No ministerial agreement was required for this arrangement as none is required in the Broadcasting Agreement, between the BBC World Service and the Foreign Commonwealth Office.

Russia: Anti-Semitism

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent discussions he has had with the government of Russia on *(a)* anti-semitism and *(b)* anti-semitic (i) organisations and (ii) publications in Russia; what response was received; and if he will make a statement; [217920]

(2) what recent assessment he has made of levels of anti-semitism in Russia; and if he will make a statement. [217921]

Mr. Jim Murphy: We have concerns about human rights and political freedoms in Russia, including the reported rise in violent attacks on ethnic and religious minorities. An outline of our assessment can be found in the 2007 Foreign and Commonwealth Office (FCO) Human Rights Annual Report.

We hold annual bilateral human rights discussions with Russia. These were last held in January 2007 and they included discussion on the rights of ethnic and religious minorities. The next meeting is planned for later this year. We also raise our concerns through the EU/Russia human rights consultations, which were last held in April 2008. At the consultations, the EU raised a number of concerns related to specific human rights and fundamental freedoms in the Russian Federation including the rights of persons belonging to minorities and combating racism and xenophobia. We welcome President Medvedev's condemnation of "any ethnic or religious enmity" in his speech on 9 May.

The FCO supports projects in Russia which promote human rights, including strengthening state and civil society capacity to combat religious and ethnic discrimination. Last year, we spent £15,000 on such projects (out of a total spend of £700,000 to support human rights, good governance and reform in Russia).

The UK is committed to combating anti-Semitism and all forms of racism. At the 2007 Organisation for Security and Co-operation in Europe (OSCE) Human Dimension Implementation Meeting, held in Warsaw from 24 September to 5 October 2007, we were the first country to report in detail on how we have implemented the Berlin Declaration on Combating Anti-Semitism. We urged other participating states of the OSCE to do likewise. We will continue to work with our OSCE partners, including Russia, on intensifying efforts to combat anti-Semitism.

Russia: Politics and Government

Sarah Teather: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in South Ossetia. [217425]

Mr. Jim Murphy: Recently, there has been a serious escalation of tension in the Georgian-South Ossetian conflict zone. Three incidents have contributed to this: an explosion which killed the head of the de facto South Ossetian Militia; an attack on the convoy carrying the head of the Georgian-backed South Ossetian provisional administration; and a mortar attack on Tskhinvali, the main town of South Ossetia. There have been reports of casualties on both the Georgian and Ossetian sides.

The EU presidency has issued a statement, which we support, expressing concern over the incidents and has appealed to both sides for resumption of dialogue and restraint. We will continue to monitor the situation closely.

Transparency International: Finance

Colin Burgon: To ask the Secretary of State for Foreign and Commonwealth Affairs what funding his Department provided to Transparency International in *(a)* 2005, *(b)* 2006 and *(c)* 2007; and how much of such funding was to fund projects in Venezuela. [218602]

Dr. Howells: Globally, the Foreign and Commonwealth Office (FCO) has provided the following amounts to Transparency International and their local partner organisations for specific anti-corruption projects in 2005-07:

Financial year	£
2005-06	167,149
2006-07	312,487
2007-08	466,530

Our embassies around the global network will also have provided limited funds to local Transparency International partners for micro-projects on anti-corruption, not captured in these amounts.

In Venezuela, the FCO has supported a successful project on institutional capacity building against corruption, money laundering and organised crime for administrators of justice. While Transparencia Venezuela generated the idea, the training is run by the Caracas Metropolitan University. The course offers a diploma for professionals on key principles of how to work against money laundering and other financial crime, which has been endorsed by the national council of universities. Participants in the diploma course have come from both the private and public sector, including private banks, the Venezuelan Ombudsman's office, the office of the prosecutor general, the Venezuelan Supreme Court and other courts. FCO support for this project is as follows:

Financial year	£
2005-06	Nil
2006-07	16,075
2007-08	19,310
2008-09	8,243

USA: Bank Services

Lorely Burt: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the oral statement of 25 October 2007, *Official Report*, column 510, on the Office of Foreign Assets Control List, when the Government will approve the set of principles that will guide the

Government's intervention in extraterritoriality cases referred to by the Parliamentary Under-Secretary of State in his Department. [216884]

Meg Munn: Discussions in Government on this issue are still ongoing.

Zimbabwe: Asylum

Mr. Streeter: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent meetings he has held in South Africa with refugees from Zimbabwe; what assessment he has made of the safety of Zimbabwe as a country to which asylum seekers may be returned; and if he will make a statement. [218349]

Meg Munn: My right hon. Friend the Foreign Secretary took the opportunity of his visit to South Africa to meet some of the 2,000 refugees who had taken refuge at the Central Methodist church in Johannesburg on 6 July. He listened to a number of traumatic tales from victims of the violence, including from those whose relatives had been killed and orphans as young as 12 years of age who had fled hundreds of miles to seek refuge in Johannesburg.

The situation in Zimbabwe is kept under constant review. Asylum claims are considered on a case by case basis. We have no current plans to enforce returns of failed asylum seekers to Zimbabwe.

WORK AND PENSIONS

Crisis Loans

Jenny Willott: To ask the Secretary of State for Work and Pensions whether there are any circumstances in which 100 per cent. benefit payments can be appropriated by Jobcentre Plus for repayment of *(a)* a crisis loan and *(b)* a budget loan when the recipient has defaulted on repayments; and if he will make a statement. [215813]

Mr. Plaskitt: No; there are no circumstances in which 100 per cent. of an applicant's benefit payments can be taken by Jobcentre Plus for repayment of a Social Fund loan.

Crisis Loans: Telephone Services

Jenny Willott: To ask the Secretary of State for Work and Pensions what progress has been made in implementing the 0800 crisis loan number; and if he will make a statement. [215753]

Mr. Plaskitt: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 14 July 2008:

The Secretary of State for Work has asked me to respond to your question on what progress has been made in implementing the 0800 crisis loan number. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Centralisation of Crisis Loans into Benefit Delivery Centres using 0800 numbers began in September 2006 and, with the exception of some parts of London, is now complete. Those parts of London not yet on the new system will switch over when we have sufficient numbers of Decision Makers in place to meet the increased demand.

Economic and Monetary Union

Mr. Maude: To ask the Secretary of State for Work and Pensions on what date the euro changeover plan of *(a)* his Department and *(b)* each of its agencies was last updated; and if he will place in the Library a copy of the most recent version of each. [215526]

Mr. Plaskitt: The euro changeover plan for the Department for Work and Pensions and its agencies received its last full update in September 2004. We are currently updating this plan, and expect it to be completed later this year.

Housing Benefit: Greater London

Ms Buck: To ask the Secretary of State for Work and Pensions how many new claims for housing benefit were received in each London local authority in the most recent year for which figures are available. [217101]

Mr. Plaskitt: The available information is in the following table.

Number of new housing benefit claims received by London local authorities in 2007-08

	Thousand
Barking	4,976
Barnet	8,635
Bexley	3,474
Brent	8,008
Bromley	3,422
Camden	4,944
City of London	406
Croydon	4,612
Ealing	8,877
Enfield	7,487
Greenwich	5,720
Hackney	10,048
Hammersmith and Fulham	4,437
Haringey	12,875
Harrow	2,055
Havering	2,968
Hillingdon	6,599
Hounslow	5,951
Islington	8,287
Kensington and Chelsea	2,151
Kingston upon Thames	2,822
Lambeth	11,435
Lewisham	10,458
Merton	4,430
Newham	7,624
Redbridge	5,831
Richmond upon Thames	2,653
Southwark	6,941
Sutton	3,390
Tower Hamlets	7,138
Waltham Forest	6,934
Wandsworth	5,174

Number of new housing benefit claims received by London local authorities in 2007-08

	Thousand
Westminster	4,254

Notes:
1. The total number of new housing benefit claims includes successful, unsuccesful, defective and withdrawn claims.
2. The information is reported performance from local authorities.

Housing: Low Incomes

Mr. Amess: To ask the Secretary of State for Work and Pensions (1) if he will reconsider his decision to apply local housing allowance to claimants who are required to change address; and if he will make a statement; [217924]

(2) if he will amend the arrangements for local housing allowance to make a distinction between those persons who are required by unforeseen circumstances to change address and those who choose to change address; and if he will make a statement. [217925]

Mr. Plaskitt: No; it was always our intention to apply the local housing allowance to all customers who move address. As from 7 April 2008, all customers who make a new claim for housing benefit, or move address in the deregulated private rented sector have their claims assessed according to local housing allowance rules. This applies regardless of the reason for the change of address.

Incapacity Benefit

Ms Buck: To ask the Secretary of State for Work and Pensions what his latest estimate is of the number of people receiving incapacity benefit (IB) in each parliamentary constituency; how many people made successful applications for IB in each constituency in 2007; and how many children are living in households dependent on IB in each London constituency. [215587]

Mr. Timms: The available information for incapacity benefits claimants and on-flows has been placed in the Library.

For the available information about children, I refer the hon. Member to the written answer I gave her on 8 July 2008, *Official Report*, column 1562W.

Jobcentres: Closures

Mr. Harper: To ask the Secretary of State for Work and Pensions (1) how many closures of Jobcentre or Jobcentre Plus offices are planned; and in which locations; [211141]

(2) which Jobcentre and Jobcentre Plus offices closed in each year since 1997. [211143]

Mr. Timms: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 14 July 2008:

The Secretary of State has asked me to reply to your questions seeking details of planned closures of Jobcentre Plus offices by location, and how many Jobcentre Plus offices were closed in each year since 1997. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

I attach a list of Jobcentre Plus offices which are currently open to the public and which we plan to close. In each case the planned closure has been approved by the Minister of State following consultation. Our approach to closure of a customer-facing Jobcentre takes into account a range of issues, for example, the impact closure may have on customer service and whether the work and staff can be relocated. When we are looking to withdraw our services from a location we are committed to full consultation with our customers, partner organisations, Trade Unions, staff, and local Members of Parliament.

I am only able to provide information on the number of Jobcentre Plus offices closed since April 2002, when Jobcentre Plus was created by the merger of the former Employment Service and Benefits Agency. A list of the Jobcentre Plus offices closed in each year since April 2002 is attached and a copy will be placed in the Library.

Customer facing Jobcentre Plus offices planned for closure

Government office region	District	Site name	Site address
East of England	Norfolk	Downham Market	6 High Street, Downham Market, Norfolk, PE38 9JX
East of England	Norfolk	Hunstanton	2-4 Northgate Precinct, Hunstanton, PE36 6BG
East of England	Norfolk	Wymondham	27 Fairland Street, Wymondham, NR18 OAW
London	South London	Wimbledon	153-157 The Broadway, Wimbledon, SW19 1NE
North West	Cumbria	Cockermouth	43 Station Street, Cockermouth, CA13 9QF
North West	Cumbria	Keswick	Unit 1, Packhorse Court, Keswick, CA12 5JB
North West	Cumbria	Millom	Government Buildings, St. Georges Road, Millom, LA18 5DN
North West	Cumbria	Ulverston	Glynis House, 25-27 Brogden Street, Ulverston, LA12 7AS
South East	Hampshire and IoW	Portsmouth	27 Guildhall Walk, Portsmouth
South East	Hampshire and IoW	Portsmouth	Grd 1st and 2nd Floors, Lake Road, Portsmouth
South East	Hampshire and IoW	Portsmouth North	Kingston House, 227-229 Kingston Road, Portsmouth, P02 7ER

Jobseeker's Allowance

Jenny Willott: To ask the Secretary of State for Work and Pensions how many people were receiving jobseekers allowance in each month since 2005, broken down by region; and if he will make a statement. [215895]

Mr. Plaskitt: The information has been placed in the Library.

Medical Certificates

Sandra Gidley: To ask the Secretary of State for Work and Pensions if he will estimate the number of sick notes issued by doctors in each of the last five years, broken down by region. [216577]

Mr. Timms: The information is not available.

Pathways to Work: Contracts

Mrs. Humble: To ask the Secretary of State for Work and Pensions whether he considered a departmental in-house bid following the entry into administration of the Pathways to Work contractor Instant Muscle. [214589]

Mr. Timms: No. We have always been clear that in order to benefit from the experience of the private and voluntary sectors in providing help to incapacity benefit claimants, delivery of Pathways to Work in phases two and three of the national roll out was to be provider led. Operational arrangements had been made on this basis both by providers and by Jobcentre Plus. The entry into administration of the chosen contractor did not affect these decisions or our ability to deliver Pathways to Work to customers in the relevant geographical areas.

Pensioners: Social Security Benefits

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the number and proportion of pensioner couples one or both of whom are aged 85 years or over entitled to but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit or local housing allowance and *(c)* guarantee credit, housing benefit or local housing allowance and council tax benefit in each of the last five years; and if he will make a statement; [214956]

(2) what estimate he has made of the number and proportion of single pensioners of each sex aged 85 years or over entitled to but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit or local housing allowance and *(c)* guarantee credit, housing benefit or local housing allowance and council tax benefit in each of the last five years; and if he will make a statement; [214959]

(3) what estimate he has made of the number and proportion of pensioner couples, where one or both were aged 85 years or over and living in poverty who were entitled to but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit/local housing allowance and *(c)* guarantee credit, housing benefit/local housing allowance and council tax benefit in each of the last five years; and if he will make a statement; [215757]

(4) how many and what proportion of single pensioners aged 60 to 75 years or over were entitled to but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit/local housing allowance, *(c)* guarantee credit, housing benefit/local housing allowance and council tax benefit, broken down by sex, in each of the last five years; and if he will make a statement; [215885]

(5) what estimates his Department has made of the number and proportion of single pensioners aged 60 to 75 years or over were living on incomes below 60 per cent. of the median income level and who were entitled to but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit/local housing allowance and *(c)* guarantee credit, housing benefit/local housing allowance and council tax benefit, broken down by sex, in each of the last five years; and if he will make a statement; [215891]

(6) how many and what proportion of pensioner couples, where one or both are aged 60 to 75 years old, who are entitled to, but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit/local housing allowance and *(c)* guarantee credit, housing benefit/local housing allowance and council tax benefit, in each of the last five years; and if he will make a statement; [215986]

(7) what estimates the Department has made of the number and proportion of single pensioners aged 75 to 85 years old, who are living in poverty and who are entitled to, but are not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit/local housing allowance and *(c)* guarantee credit, housing benefit/local housing allowance and council tax benefit, broken down by sex, in each of the last five years; and if he will make a statement; [215987]

(8) how many and what proportion of single pensioners aged 75 to 85 years old who are entitled to, but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit/local housing allowance and *(c)* guarantee credit, housing benefit/local housing allowance and council tax benefit, broken down by sex in each of the last five years; and if he will make a statement; [215989]

(9) what estimate the Department has made of the number and proportion of pensioner couples, where one or both are aged 75 to 85 years old, who are living in poverty and who are entitled to but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit/local housing allowance and *(c)* guarantee credit, housing benefit/local housing allowance and council tax benefit in each of the last five years; and if he will make a statement; [215991]

(10) how many and what proportion of pensioner couples, where one or both are aged 75 to 85 years old, who are entitled to but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit/local housing allowance and *(c)* guarantee credit, housing benefit/local housing allowance and council tax benefit in each of the last five years; and if he will make a statement; [215994]

(11) what estimate his Department has made of the number and proportion of pensioner couples, where one or both are aged 60 to 75 years old, who are living in poverty and who are entitled to but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit/local housing allowance and *(c)* guarantee credit, housing benefit/local housing allowance and council tax benefit in each of the last five years; and if he will make a statement. [215995]

Mr. Mike O'Brien: Estimates of the numbers of entitled non-recipients of means-tested benefits in Great Britain, covering income support, pension credit, housing benefit, council tax benefit and jobseeker's allowance (income based) are published in the report "Income Related Benefits Estimates of Take-Up in 2006-07".

The published estimates consider each benefit in isolation. I regret that no estimates are available for the numbers of people who are entitled to but not receiving combinations of income-related benefits.

Social Fund: Finance

Jenny Willott: To ask the Secretary of State for Work and Pensions what the administrative costs of paying *(a)* crisis loans, *(b)* budgeting loans and *(c)* community care grants were in each year since 2003; and if he will make a statement. [216050]

Mr. Plaskitt: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 14 July 2008:

The Secretary of State for Work and Pensions has asked me to respond to your question on what the administrative costs of paying (a) crisis loans, (b) budgeting loans and (c) community care grants were in each year since 2003; and if he will make a statement. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Specific information regarding the administrative costs of paying Community Care Grants is not available prior to 2006/07. The available information for the administrative costs for paying Crisis Loans, Budgeting Loans and Community Care Grants is in the following table. The increase in the administrative costs for paying Crisis loans in 2007/08, was due to a rise in applications for Crisis Loans that year.

Administrative costs of paying Crisis Loans, Budgeting Loans and Community Care Grants

£ million

	Crisis Loans	Budgeting Loans	Community Care Grants
2003/04	21.5	26.2	n/a
2004/05	21.3	23	n/a
2005/06	24	24.5	n/a
2006/07	24	21.9	16.8
2007/08	38.9	15.3	16.1

Social Security Benefits

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the value of *(a)* income support and *(b)* jobseekers allowance as a percentage of forecast (i) mean and (ii) median earnings in each year until 2012; [200640]

(2) what *(a)* income support, *(b)* jobseeker's allowance and (c) child benefit was as a percentage of (i) mean and (ii) median earnings in each year since 1997. [200648]

Mr. Plaskitt: The available information is in the following tables. The percentage levels of benefits for future years will depend upon future movements in earning levels, uprating of benefits, changes in the composition of claimants' characteristics, and policy changes.

Average weekly amount of income support (IS), jobseeker's allowance (JSA) child benefit (CHB) as a percentage of mean earnings

Percentage

Quarter ending May each year	IS (excluding minimum income guarantee (MIG))	JSA	CHB per child (including premiums)	CHB per family (including premiums)
1998	18.1	13.2	—	—
1999	17.9	12.9	3.0	5.5
2000	18.3	12.9	3.0	5.5

Average weekly amount of income support (IS), jobseeker's allowance (JSA) child benefit (CHB) as a percentage of mean earnings

Percentage

Quarter ending May each year	IS (excluding minimum income guarantee (MIG))	JSA	CHB per child (including premiums)	CHB per family (including premiums)
2001	18.7	12.4	3.0	5.3
2002	17.9	11.8	2.9	5.1
2003	18.6	11.7	—	—
2004	18.2	11.1	—	—
2005	16.6	10.2	—	—
2006	15.5	9.8	—	—
2007	14.9	9.9	—	—

Jim Cousins: To ask the Secretary of State for Work and Pensions pursuant to the answer to the hon. Member for Forest of Dean of 23 June 2008, *Official Report*, columns 7-8W, on social security benefits, what assumptions about *(a)* employment levels and *(b)* levels of jobseeker's allowance claims underpinned the estimates for 2009-10 of on-flows on to (i) incapacity benefit, (ii) employment support allowance and (iii) income support on grounds of incapacity. [216628]

Mr. Plaskitt: Forecasts of on-flows to incapacity benefit, employment support allowance and income support on the grounds of incapacity incorporate, at the time of production, the latest available evidence on past trends, announced future policies and operational changes. There is no explicit link made to assumptions about the employment level and the level of jobseeker's allowance claims although the level of inflows (on to incapacity benefit, employment support allowance and income support on grounds of incapacity) are broadly consistent with Treasury planning assumptions about the level of jobseeker's allowance claims.

Social Security Benefits: Polygamy

Tim Loughton: To ask the Secretary of State for Work and Pensions what estimate has been made of the annual cost of allowing benefit payments to polygamous families for each additional wife in line with current guidelines on income support. [218687]

Mr. Plaskitt: The information is not available from which to make such an estimate.

Social Security Benefits: Telephone Services

Jenny Willott: To ask the Secretary of State for Work and Pensions how many calls were made to benefit delivery centres in each year since their inception, broken down by category of call; and if he will make a statement. [216965]

Mr. Plaskitt: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 14 July 2008:

The Secretary of State for Work and Pensions has asked me to respond to your question on how many calls were made to benefit delivery centres in each year since their inception, broken down by category of call; and if he will make a statement. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The roll out of Benefit Delivery Centres was completed in March 2008 and comparable information is only available from November 2007. The following table provides the requested information broken down by type of benefit.

Calls to Jobcentre Plus Benefit Delivery Centres broken down by benefit

Benefit	*November 2007 to March 2008*	*April 2008 to June 2008*
Bereavement Benefit	61,269	42,562
Crisis Loans	1,558,982	1,050,291
Incapacity? Benefit	2,409,933	1,448,271
Industrial Injuries Disablement? Benefit	5,416	3,494
Income Support	4,723,233	2,794,548
Jobseekers Allowance	2,691,122	1,854,377
Maternity Allowance	24,876	19,713
Social Fund	2,845,410	1,783,806
Total	14,320,241	8,997,062

Jobcentre Plus Operational Management Information System (OPMIS)

TREASURY

Cambridge Online Learning: KMI Offshore Trust

Mr. Illsley: To ask the Chancellor of the Exchequer if he will direct HM Revenue and Customs to investigate the *(a)* VAT treatment and *(b)* taxation treatment of the acquisition of the assets of Cambridge Online Learning Ltd by KMI Offshore Trust. [218272]

Jane Kennedy: The Government are committed to supporting those who seek to comply with their obligations and to deterring and challenging those who do not.

HM Revenue and Customs (HMRC) has responsibility for selecting individual cases for compliance check and it would not be appropriate for it to comment on specific cases.

Child Benefit: Personal Records

Mr. Dai Davies: To ask the Chancellor of the Exchequer what recent progress has been made in the search for the discs containing data lost by HM Revenue and Customs last year; what the cost to his Department of its investigation has been to date; and if he will make a statement. [205232]

Jane Kennedy: I refer the hon. Member to Kieran Poynter's final report, published on 25 June, which can be accessed online at:

http://www.hm-treasury.gov.uk/media/0/1/poynter_review250608.pdf

The cost of the investigation was £473,544.

Consumer Goods: Prices

Mr. Philip Hammond: To ask the Chancellor of the Exchequer if he will place in the Library copies of forecasts prepared by his Department for the prices of basic household goods for the next 12 months. [215381]

Angela Eagle: The Government publish forecasts for overall consumer prices index (CPI) inflation in the Budget and pre-Budget report. The latest projection was published in Financial Statement and Budget Report 2008 (HC388) on 12 March 2008, and updated forecasts will be published in the pre-Budget report, based on all relevant factors, as normal.

Cost of Living

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer (1) what steps he has taken to assist vulnerable adults with rising household bills; [215683]

(2) what recent steps he has taken to assist low income families with financial burdens. [215684]

Angela Eagle: Since 1997 the Government have introduced a series of reforms to make work pay and to guarantee minimum weekly incomes for families with and without children. By October 2008, in real terms, families with children in the poorest fifth of the population will be, on average, £4,100 a year better off.

The working tax credit and the national minimum wage work together to provide a guaranteed income in work. The minimum income guarantee for single people aged 25 or over, and in full-time work, has increased by 30 per cent. in real terms since 1999.

Tax credits also play a key role in reducing poverty, and have helped to lift 600,000 children out of relative poverty since 1998-99.

On 13 May 2008, the Chancellor announced further support for low and middle-income families for 2008-09. For the current tax year, income tax personal allowances will be increased by £600 for all tax payers under 65. Around 22 million basic-rate taxpayers will benefit from this change. This not only helps those that lost out from the tax changes, but also middle income families at a time of rising food and oil prices throughout the world.

This year, adults aged 60 and over will benefit from an additional payment of £50, and those aged over 80 from an additional payment of £100to be paid alongside the winter fuel payment.

Council Tax: Valuation

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 6 May 2008, *Official Report*, column 818W, on council tax: valuation, what the official name is of the mapping software provided by TENET. [218310]

Jane Kennedy: The names given to the software provided to the Valuation Office Agency by TENET are "Digital Mapping" and the "Locality Delineation Tool".

Credit Unions: Post Offices

Mr. Kidney: To ask the Chancellor of the Exchequer if he will hold discussions with the Secretary of State for Business, Enterprise and Regulatory Reform to examine the feasibility of offering the public access to credit union services through post offices. [217166]

Kitty Ussher: This is a commercial and operational matter for Post Office Ltd. (POL), the Association of British Credit Unions (ABCUL), and individual credit unions. I understand that the Post Office and ABCUL maintain a regular dialogue to explore the opportunities for working together. I also understand that customers of credit union current accounts, which are offered through a commercial arrangement with the Cooperative bank, can already pay in or withdraw cash and make balance inquiries at post offices.

Departmental Computers

Mr. Peter Ainsworth: To ask the Chancellor of the Exchequer what estimate he has made of *(a)* the number of computer devices left on overnight in his Department when not in use and *(b)* the cost per year of leaving computer devices on overnight when not in use in each of the last five years; and if he will make a statement. [217862]

Angela Eagle: The Department does not have information available, but all staff are asked to switch off computer devices and monitors when they leave each day, and there is a screensaver to remind them to do this. While no precise measures are available, this is likely to have contributed to the year on year falls in electricity consumption which have been recorded at 1 Horse Guards road, the main Treasury building, every year for the last five years.

Departmental Early Retirement

Mr. Redwood: To ask the Chancellor of the Exchequer how many staff in *(a)* his Department and *(b)* his Department's agencies have taken early retirement in the last two years. [217383]

Angela Eagle: The information is as follows:

	Number of early retirements in the last two years
HMT	20
OGC	56
OGC Buying Solutions	2
DMO	1

Departmental ICT

Mr. Pickles: To ask the Chancellor of the Exchequer what objectives his Department's Property Benchmarking Service IT project was designed to meet. [218248]

Angela Eagle: The Property Benchmarking Service measures the performance of all Government buildings over 500 square metres against efficiency and effectiveness key performance indicators, and benchmarks these against equivalent buildings in both the public and private sectors. The objective is to identify buildings that are not performing well against the benchmark so decisions can be taken about their improvement or disposal.

Departmental Ministerial Policy Advisers

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how many special advisers have been employed in his Department in each month since January 2007. [215380]

Angela Eagle: Four special advisers were employed in the Treasury between January 2007 and June 2007. From July 2007 to August 2007, two special advisers were employed, at which point an additional special adviser was appointed. The number has since remained at three.

As the Chancellor also appoints members of the Council of Economic Advisers, I refer the hon. Gentleman to my answer of 17 December 2007, *Official Report*, column 1118W, to the hon. Member for Fareham (Mr. Hoban), and to the Treasury's press notice of 2 April 2008.

Departmental Pay

Mr. Redwood: To ask the Chancellor of the Exchequer what proportion of staff in his Department and its agencies did not receive the maximum bonus possible under a bonus scheme applying to them in the last two years. [217058]

Angela Eagle: The information requested is as follows:

	HM Treasury	*OGCBS*	*OGC*	*DMO*
2005-06				
SCS	100	100	100	100
Grades below SCS	76	71	89	92
2006-07				
SCS	100	100	100	100
Grades below SCS	76	70	88	96

Departmental Responsibilities

Mr. Maude: To ask the Chancellor of the Exchequer how many reviews of regulation his Department and its agencies have conducted or commenced since July 2007; and in which areas. [210844]

Angela Eagle: HM Treasury's Better Regulation Simplification Plan was published in December 2007. It followed recommendations from the 2005 report "Less is More" to develop a rolling programme of simplification to identify regulations that can be simplified, repealed, reformed and/or consolidated. The 2007 Simplification Plan followed a detailed review of the administrative burdens imposed by all the regulations for which HM Treasury and its agencies are responsible and outlines the progress made so far against the administrative burdens target:

http://www.hm-treasury.gov.uk./media/4/4/simplificationplan111207.pdf

HM Treasury's approach is to review regulation in line with the March 2008 White Paper "Post-legislative scrutiny: the Government's Approach" by the Office of the Leader of the House.

In addition, the revised impact assessment process has increased the focus on post implementation reviews.

Equity Release

Mr. Amess: To ask the Chancellor of the Exchequer (1) what his policy is on equity release to enable older people to remain in their homes; what recent representations he has received on the issue; what response he gave in each case; and if he will place in the Library a copy of each such response; [216262]

(2) what *(a)* primary and *(b)* secondary legislation regulates equity release; what changes he plans to initiate to this regime in the next 12 months; what recent representations he has received on the regulatory regime affecting equity release; what response he has made to such representations; if he will place in the Library copies of the representations received and responses given; and if he will make a statement; [216263]

(3) how many residents of *(a)* Southend, *(b)* Essex and *(c)* England and Wales participated in equity release schemes in each year since 1997; [216264]

(4) what research his Department *(a)* has commissioned, *(b)* plans to commission and *(c)* has evaluated on consumers' perceptions of government regulation of (i) equity release schemes and (ii) other financial services; and if he will make a statement; [216265]

(5) what estimate he has made of the number of residents of *(a)* Southend, *(b)* Essex and *(c)* England and Wales who were mis-sold a home equity release product in each year since 1997; [216329]

(6) if he will bring forward proposals to introduce a statutory obligation on mortgage companies to advise borrowers about the risks of using property and equity release as a vehicle for pension investment when they take on a new mortgage; and if he will make a statement; [216330]

(7) what steps he has *(a)* taken and *(b)* plans to take to provide information to the public on equity release products; what recent representations he has received about the issue; and if he will make a statement; [216331]

(8) what steps he *(a)* has taken and *(b)* plans to take to ensure retired people have consumer protection in respect of equity release schemes; what recent representations he has received on the issue; and if he will make a statement. [216352]

Kitty Ussher: Since 2004 the Financial Services Authority (FSA) has regulated mortgages, including lifetime mortgages, one type of equity release product. In 2007 the Government extended the scope of FSA regulation to cover home reversion plans (the other main type of equity release product), to help ensure a level regulatory playing field for the equity release market.

The FSA's regime provides consumers of equity release products with appropriate protections. These include rules on the suitability of equity release products where a firm is giving advice. The FSA's regime also offers means of redress for those consumers who experience problems.

Equity release products are complex financial products, and consumers considering equity release should seek independent financial advice.

The Government do not hold data on the number of equity release products sold each year or data on potential mis-selling.

The FSA conducts regular reviews of its regulation of financial services markets, including the equity release market. Results of these reviews and other research is available at:

http://www.fsa.gov.uk/Pages/library/index.shtml

The OFT is currently conducting a market study of "sale and rent back" arrangements, which share some features with but are distinct from equity release.

The Chancellor receives representations from a wide range of stakeholders on issues relating to equity release products and other financial services. Locating this material and evaluating whether it might be released would present a disproportionate cost.

There are no plans to change the regulatory regime for equity release products at this time. The Government keep all legislation under review.

Financial Services: Disclosure of Information

Jim Cousins: To ask the Chancellor of the Exchequer how many *(a)* financial service providers and *(b)* banking institutions have been served with section 20 notices by HM Revenue and Customs since September 2007; and how many individual returns have been received from those institutions to date. [217778]

Jane Kennedy: Between 1 September 2007 and 30 April 2008, 151 notices under section 20 of the Taxes Management Act were issued to banking institutions. Information is not available as to how many individual returns have been received and as to how many notices were issued to financial service providers.

Government Departments: Assets

Mr. Maude: To ask the Chancellor of the Exchequer what guidance *(a)* the Office of Government Commerce and *(b)* his Department has provided on the use of eBay to sell surplus government stock or assets. [217359]

Angela Eagle: OGC has not issued guidance on the use of eBay to dispose of surplus stock or assets. In disposing of assets, Departments are required to seek value for money. The OGC website has a link to the Disposal Services Agency's website; Departments can set up an arrangement for DSA to dispose of assets on their behalf. In addition, OGC has produced guidance on the disposal of surplus property which is also available on its website.

HM Revenue and Customs: Data Protection

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 29 October 2007, *Official Report*, column 905W, how many reported breaches of security have been recorded by HM Revenue and Customs in its offices since 1 October 2007. [196714]

Jane Kennedy: HMRC employs 90,000 staff at 600 sites. From 1 October 2007 to 24 June 2008, 1,993 breaches of security were reported, covering a wide range of different circumstances. Such security breaches reflect potential weaknesses reported by staff and not actual thefts or losses.

This high level of reporting reflects the increased awareness of staff to all forms of security following the child benefit data in loss in October 2007. HMRC takes any security incident report seriously and deals with each one appropriately in accordance with its departmental guidance and procedures.

Identity Cards

Mr. Maude: To ask the Chancellor of the Exchequer how much has been spent on legal costs in relation to the Office of Government Commerce and the Identity Cards Gateway Review. [217360]

Angela Eagle: The legal costs incurred relating to the disclosure of Gateway information in the Identity Cards programme are £81,000 excluding VAT.

Members: Correspondence

Sir Michael Spicer: To ask the Chancellor of the Exchequer when the Financial Secretary plans to reply to the letter from the hon. Member for West Worcestershire, dated 28 May 2008, PO Ref: 3/05867/2008, on the abolition of the 10 pence tax rate. [218174]

Jane Kennedy: I have replied to the hon. Member on 12 July 2008.

Sir Michael Spicer: To ask the Chancellor of the Exchequer when the Exchequer Secretary plans to reply to the letter from the hon. Member for West Worcestershire, dated 22 April 2008, on taxation of 4x4 vehicles. [218175]

Angela Eagle: There is no record of a letter from the hon. Member dated 22 April. However, I have replied to his letter of 3 June.

Motor Vehicles: Taxation

Mr. Streeter: To ask the Chancellor of the Exchequer if he will review the approved mileage allowance payment in respect of volunteer drivers to reflect trends in the price of fuel. [218351]

Angela Eagle: I refer the hon. Gentleman to the answer I gave the hon. Member for Colchester (Bob Russell) on 28 April 2008. HMRC allows volunteers to use the Approved Mileage Allowance Payment (AMAP) rate for convenience, but it is not mandatory and volunteer drivers can claim tax relief for the full cost of motoring by completing a return, if they wish to do so.

Northern Rock

Sir Michael Spicer: To ask the Chancellor of the Exchequer what assessment he has made of the adequacy of the rate at which Northern Rock has repaid loans of public money made to it; and if he will make a statement. [217785]

Kitty Ussher: Northern Rock has been paying down the Bank of England loan facilities to date and is expected to continue to do so, as set out in its business plan published in March 2008.

The outstanding loan facilities as at 31 March 2008 were £24.1 billion as reported in Northern Rock's trading statement published in May 2008. This compares to the outstanding loan facilities as at 31 December 2007 being £26.9 billion as reported in Northern Rock's 2007 annual report and accounts published in March 2008.

Office of Government Commerce

Mr. Maude: To ask the Chancellor of the Exchequer which *(a)* companies and *(b)* other organisations have a framework agreement with the Office of Government Commerce. [217361]

Angela Eagle: The following link provides an A-Z list of all suppliers with an agreement with OGCbuying.solutions:

http://online.ogcbuyingsolutions.gov.uk/suppliers/index.html

In addition, the following suppliers have a framework agreement with core OGC.

Equifax
The Nichols Group
Methods Consulting Ltd.
Mentis Management Consultants Ltd.
The Tribal Group
Actica Consulting Ltd.
Hitachi Consulting
AMTEC Consulting plc.
Inventures
Oakleigh Consulting Ltd.
VEGA Group plc.

Quality Business Management Ltd.
Moorhouse Consulting Ltd.
Mott MacDonald Ltd.
Drivers Jonas
Gardiner and Theobald LLP
Novos Ltd.
Procurement Excellence Ltd.
MAANA Ltd.
Chimerion Ltd.

Public Sector: Pay

Mr. Frank Field: To ask the Chancellor of the Exchequer what account he takes of trends in the consumer price index in determining the timing of reviews of public pay policy; and if he will make a statement. [214394]

Yvette Cooper *[holding answer 30 June 2008]:* Timing of pay decisions for a particular work force depends on pay-setting arrangements for that work force.

The Government's pay policy is guided by the following principles:

That public sector pay settlements should be consistent with maintaining the necessary levels of recruitment, retention and staff engagement needed to support service delivery; ensuring that total pay bills represent value for money and are affordable within Departments' overall expenditure plans and consistent with the achievement by the Bank of England of its CPI inflation target of 2 per cent.

Research and Development Tax Credit

Jo Swinson: To ask the Chancellor of the Exchequer what assessment he has made of the take-up of research and development tax credits in each of the last five years; what estimate he has made of the percentage of potential recipients who have received the tax credits; and what the value of such tax credits was in each year. [217831]

Angela Eagle: Estimates of the number of claims made for research and development (R and D) tax credits and the cost of support claimed are published as National Statistics on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/stats/corporate_tax/randdicmenu.htm

The research survey conducted in 2005 as part of the evaluation of R and D tax credits collected information on the awareness and take-up of R and D tax credits among R and D companies at that time. The findings are published as Research Report 12 on the HMRC website at:

http://www.hmrc.gov.uk/research/index.htm

Information on the number of claims for R and D tax credits made by companies in their tax return and the estimated cost of support claimed are published on the HMRC website as National Statistics at:

http://www.hmrc.gov.uk/stats/corporate_tax/randdicmenu.htm

Revenue and Customs: Fraud

Jenny Willott: To ask the Chancellor of the Exchequer (1) how many HM Revenue and Customs (HMRC) staff were prosecuted for *(a)* attempting to defraud and *(b)* defrauding HMRC in each of the last 10 years; and if he will make a statement; [214512]

(2) on how many occasions staff employed by HM Revenue and Customs (HMRC) defrauded HMRC in the last 10 years; and if he will make a statement; [214517]

(3) what estimate he has made of losses to HM Revenue and Customs (HMRC) from fraud committed by staff of HMRC in each of the last 10 years; and if he will make a statement; [214514]

(4) how many staff in HM Revenue and Customs were responsible for each instance of *(a)* fraud and *(b)* attempted fraud against the tax credit system in each of the last 10 years; and if he will make a statement; [214515]

(5) on how many occasions staff employed by HM Revenue and Customs *(a)* attempted to defraud and *(b)* defrauded the tax credit system in each year since 2003; and if he will make a statement; [214516]

(6) what estimate he has made of the losses to HM Revenue and Customs (HMRC) from fraud committed by staff of HMRC against the tax credit system in each of the last 10 years; and if he will make a statement. [214513]

Jane Kennedy: Since April 2005, there have been 30 members of staff, out of around 85,000 employed by HMRC, who have been prosecuted for activity relating to fraud against the Department, 10 of which were prosecutions for fraud committed against the tax credit system. The figures can be broken down as follows:

	Number of staff prosecuted for fraud against HMRC	*Number of staff prosecuted specifically for fraud against the tax credit system*
2005-06	6	None
2006-07	12	6
2007-08	10	4
2008 to date	2	None

The total estimated loss to HMRC from fraud committed by staff against HMRC is £6 million, of which £1.9 million related specifically to fraud committed against the tax credit system. The figures can be broken down as follows:

	Estimated loss from fraud committed by staff against HMRC	*£ million* *Estimated loss from fraud committed by staff against the tax credit system*
2005-06	2	0
2006-07	1.7	1.6
2007-08	2.3	0.3

HMRC is committed to the highest levels of integrity and will not tolerate any threats to its perceived trust and level of service in the eyes of the public by its own staff. Robust procedures are in place to identify and combat all types of fraud by staff against HMRC.

Revenue and Customs: Pay

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what bonus payments were made to HM Revenue and Customs staff in each of the last three

financial years, broken down by *(a)* grade and *(b)* department. [208817]

Jane Kennedy: The information is as follows:

Senior civil service

			VOA	
SCS Grade	*Number receiving a bonus*	*Bonus paid (£)*	*Number receiving a bonus*	*Bonus paid (£)*
2005-06				
SCS1	217	972,000	4	13,000
SCS1A	53	295,700	3	16,500
SCS2	25	172,400	1	5,400
SCS3	9	72,000		
2006-07				
SCS1	153	1,054,800	4	21,800
SCS1A	36	341,688	1	6,600
SCS2	24	241,100	1	8,900
SCS3	5	6,400		
2007-08				
SCS1	177	1,358,900	4	23,000
SCS1A	50	455,700	2	22,600
SCS2	22	248,600	1	3,000
SCS3	9	149,700		

Delegated staff

It has not been possible to break down the data for delegated staff for years 2005-06 and 2006-07 so aggregate figures only are shown for those years.

	Performance related bonuses	
Delegated grade	*Number receiving a bonus*	*Bonus paid (£)*
2005-06		
All staff	35,605	9,500,000
2006-07		
All staff	37,959	17,200,203
2007-08		
Admin assistant	8,456	1,423,233
Assistant officer	21,401	4,590,011
Officer	14,656	4,764,152
Higher officer	6,893	3,012,582
Senior officer	2,754	1,603,293
Band T	186	77,419
Grade 7	914	829,740
Grade 6	561	614,643
Other	2	17,621
Total	55,693	16,842,694

The data for delegated staff refers to HMRC staff only as VOA have their own pay structure.

Revenue and Customs: Scotland

Mr. Salmond: To ask the Chancellor of the Exchequer how many cases have been passed from HM Revenue and Customs (HMRC) call centres to HMRC offices in Scotland which are currently earmarked for closure in each of the last five years. [216801]

Jane Kennedy: The information requested is not available. HMRC have announced plans to vacate some buildings in the Edinburgh and Glasgow areas but no decisions have been made regarding the future of other buildings it occupies in Scotland.

Revenue and Customs: Wales

Mr. Roger Williams: To ask the Chancellor of the Exchequer what *(a)* costs and *(b)* savings he expects to arise from the closure of HM Revenue and Customs' Brecon office, broken down by budget heading. [217145]

Jane Kennedy: Proposals for the HMRC office at Government Buildings, Brecon, along with other individual locations in Wales, were published on 11 June 2008. Those proposals included vacation of the office in Brecon but final decisions are not expected until later this year. Detailed feasibility work as to how much HMRC might expect to save by the proposals is still at an early stage.

Mr. Roger Williams: To ask the Chancellor of the Exchequer how many redundancies he expects will take place if HM Revenue and Customs' Brecon (Powys) tax office closes. [217841]

Jane Kennedy: No decisions have yet been made in relation to the HM Revenue and Customs (HMRC) office in Brecon. The future of the Brecon office is currently subject to a programme of consultation and feasibility work. HMRC is committed to avoiding redundancies wherever possible and to helping staff find alternative posts either within the Department or elsewhere.

Taxation: Rebates

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what average annual amount was paid out in tax refunds in each of the last five years. [209034]

Jane Kennedy: Estimates are available for income tax repayments made to individuals through payable orders and the Bankers Automated Clearing System (BACS) only and are as follows.

	Average amount per repayment (£)	
	PAYE or savings income	*Self assessment*
2003-04	320	1,330
2004-05	320	1,270
2005-06	350	1,430
2006-07	380	1,530
2007-08	430	1,480

Valuation Office: Cameras

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 22 May 2008, *Official Report*, column 440W, on Valuation Office: cameras, what makes and models of digital camera were purchased. [218262]

Jane Kennedy: The information requested is as follows:

April to March	Quantity
2006-07	[1]101
2007-08	[2]690

[1] These were all Olympus MJU740 models.
[2] Of these, 25 were Olympus MJU760 models, 65 were MJU820 models and 600 were Olympus MJU840 models.

Valuation Office: Eurostar

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Weybridge of 2 June 2008, *Official Report*, columns 715-6W, on Departmental travel, how many journeys on Eurostar were undertaken by Valuation Office Agency staff in 2006-07; at what cost; and what the purpose was of each such journey. [218249]

Jane Kennedy: Six journeys were undertaken by Valuation Office Agency staff on Eurostar in the 2006-07 financial year. The cost of these journeys was £1047. All of the journeys were in connection with formal investigation procedure Article 88(2) of the EEC treaty.

Valuation Office: Video Recordings

Mr. Pickles: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the Valuation Office Agency's videos entitled *(a)* Breaking the Code—an aid to understanding Dwellinghouse Coding, referred to on page 29 of the Agency's Council Tax Referencing Manual and *(b)* Breaking the Code referred to in Appendix A of the Agency document CTR(E) IA 270303. [199111]

Jane Kennedy: This internal training video, which was produced in 1995, is now rarely used and there is limited availability. Additionally it requires redactions to protect the identity of an individual member of staff, which would mean it has to be converted to a modern format. The cost of sourcing the video and undertaking the editing would be disproportionate.

Welfare Tax Credits: Overpayments

Mr. Hoban: To ask the Chancellor of the Exchequer how many tax credit overpayment notices his Department issued in each of the last 12 months. [215133]

Jane Kennedy: The numbers of requests to pay back overpaid tax credits (forms TC610) issued by HM Revenue and Customs in each month from June 2007 to May 2008 are given in the following table:

Month	Thousand
2007	
June	71
July	91
August	272
September	684
October	151
November	51
December	29
2008	
January	22
February	39
March	26
April	21
May	72

The improvements made to the administration of the tax credits system have significantly reduced overpayments, increased the flexibility of the system and provided certainty to families. Overpayments of tax credits have fallen by £700 million since 2005-06 and are now less than half the level they were in 2003-04.

Welfare Tax Credits: Telephone Services

Mr. Denis Murphy: To ask the Chancellor of the Exchequer how many tax credits enquiries his Department received through its 0800 and 0845 numbers in each of the last three years. [214296]

Jane Kennedy: HMRC operates two 0845 helplines to deal with tax credits inquiries: the tax credits helpline for the general public and an intermediaries helpline. Advisers working on other HMRC helplines may also receive a small number of tax credits inquiries, but these are incidental to their main work, and the number is not recorded.

I refer my hon. Friend to the answers given by the then Paymaster General, my right hon. Friend the Member for Bristol, South (Dawn Primarolo) on 14 March 2006, *Official Report*, column 2137W, on 20 June 2006, *Official Report*, column 1857W and on 25 June 2007, *Official Report*, column 418W, in which the number of calls received by the tax credits helpline in each month in the last three years to April 2007 has been provided. The following table brings this information up to date for 2007-08.

Tax credits helpline

	Number of calls received[1] to the nearest thousand
May 2007	2,510
June 2007	2,664
July 2007	3,149
August 2907	2,129
September 2007	2,025
October 2007	1,703
November 2007	1,563
December 2007	1,039
January 2008	1,830
February 2008	1,600
March 2008	1,445

[1] Where the caller selected an option from the call steering menu and was put in a queue to speak to an adviser

In addition the following table gives details of the number of calls received by the intermediaries helpline in each of the last three years.

Tax credits intermediaries service

	Number of calls received to the nearest thousand
2005-06	80
2006-07	99
2007-08	56

DUCHY OF LANCASTER

Departmental Aviation

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster whether staff in *(a)* his Department and *(b)* the Central Office of Information who are entitled to travel on a business class or first class airfare on official business are permitted to travel in a cheaper class; and what (i) financial and (ii) other benefits staff are permitted to accrue from any saving. [211160]

Phil Hope: As part of recent policy changes designed to reduce its expenditure on official travel, the Cabinet Office requires all air travel by officials to be undertaken by economy class. The only exceptions when premier economy or business class may be used are if the journey time exceeds four hours, or the journey involves an overnight flight, or if no economy seats are available and there are no alternative practical travel options. First class air travel is not permitted. The Central Office of Information's policy on travel for staff is in line with that of the Cabinet Office and civil service guidelines are observed. Travel by Ministers and accompanying staff is governed by the requirements of the ministerial code.

No financial or other benefits are received by staff.

Departmental Carbon Emissions

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster how frequently the Cabinet Office makes a payment to the Government Carbon Offsetting Fund; and whether the calculation of the cost of the offsetting is made by the Cabinet Office or the Offsetting Fund. [217351]

Phil Hope: Cabinet Office has made two payments to the Government Carbon Offsetting Fund covering the periods 2005-06 and 2006-07. Data is currently being collected for the 2007-08 reporting year and will be available later in the year. The calculation of the cost of the offsetting is made by Cabinet Office using methodology provided by DEFRA.

Departmental Pay

Mr. Frank Field: To ask the Chancellor of the Duchy of Lancaster if he will review salary negotiations for public sector employees in organisations within the Cabinet Office's responsibility to reflect the rise in the consumer price index to a point above 3 per cent. [214543]

Mr. Watson: The Government's pay policy is guided by the following principles. Public sector pay settlements should be consistent with maintaining the necessary levels of recruitment, retention and staff engagement needed to support service delivery; ensuring that total pay bills represent value for money and are affordable within Departments' overall expenditure plans; and consistent with the achievement of the inflation target. Timing of pay decisions for a particular work force depends on pay-setting arrangements for that work force.

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster (1) how much was claimed in reimbursable expenses by special advisers in his Department in each of the last 10 years; [215228]

(2) how much was claimed in reimbursable expenses by special advisers in the Prime Minister's Office in each of the last 10 years. [215242]

Mr. Watson: The Prime Minister's Office forms an integral part of the Cabinet Office. The information can be provided only at disproportionate cost.

Departmental Responsibilities

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster how many reviews of regulation the Cabinet Office has *(a)* conducted and *(b)* commenced since July 2007; and in which areas. [211007]

Phil Hope: There has been one review of regulation in the Cabinet Office since July 2007. The Office of the Third Sector (OTS), located in the Cabinet Office, conducted a review of financial thresholds in charities legislation jointly with the Charity Commission, and published de-regulatory proposals for public consultation in December 2007. This fulfilled a commitment made in Parliament during debate on the Charities Bill.

A summary of consultation responses will be published shortly, together with a plan for implementation.

Departmental Secondment

Pete Wishart: To ask the Chancellor of the Duchy of Lancaster what procedures his Department uses to ensure equal opportunities in relation to staff secondments to the Department. [214677]

Mr. Watson: The Cabinet Office is committed to ensuring equal opportunities in all of its processes. We conduct equality monitoring of secondees to the Department as part of our monitoring of the overall work force.

Departmental Security

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the Answer from the Prime Minister of 18 June 2008, *Official Report*, column 920W, on departmental security, whether records are kept of *(a)* the number of lost passes in the Prime Minister's Office and *(b)* the reasons for losses. [217548]

Edward Miliband: I have nothing further to add to the answer given by my right hon. Friend the Prime Minister on 18 June 2008, *Official Report*, column 920W.

Departmental Telephones

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what contracts the Cabinet Office has with mobile telephone operators for the provision of mobile telephones for *(a)* staff and *(b)* ministerial use. [217350]

Phil Hope: Within the Cabinet Office, mobile phones for official use by staff and Ministers are procured through two contracts with Vodafone, both of which

were facilitated through the provisions of an Office of Government Commerce buying solutions (OGCbs) negotiated agreement.

Ecovert FM

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster if he will place in the Library a copy of the schedule of charges levied for minor works under the Cabinet Office facilities management contract with Ecovert FM. [217937]

Phil Hope: The contract with Ecovert FM currently incorporates a threshold with all works completed under this threshold being paid as part of the fixed fee element of the contract. To obtain details of all such minor works would incur disproportionate cost.

Futurebuilders England Fund

Margaret Moran: To ask the Chancellor of the Duchy of Lancaster what assessment he has made of the effectiveness of expenditure made from the Futurebuilders England Fund. [217433]

Phil Hope: Futurebuilders is an active research programme which tests the theory that if unbankable third sector organisations can access investment finance at reasonable cost, they can then compete for and win public service delivery contracts, and that public service delivery will improve as a result. The programme is being independently evaluated by Sheffield Hallam University. Their interim report, published in April 2008, is available on the Sheffield Hallam website at:

www.shu.ac.uk/cresr.

Office of the Third Sector

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster how many staff worked in the Office of the Third Sector in April 2008; and what plans there are for the number of staff which will be in place in April 2009. [217347]

Phil Hope: There were 55 staff in post in the Office of the Third Sector as at 30 April 2008. The number of staff in OTS will be 59.5 in April 2009.

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what the estimated cost to the public purse, including office costs, is of employing the five policy officers for the Office of the Third Sector in 2008-09. [217401]

Phil Hope: The OTS is in the process of recruiting five additional policy officers. The salary band published in the job advert was from £26,712 to £32,283 (with the potential to rise to £34,612 through performance-related pay).

All office costs are included in the overall OTS administration budget as published in the Central Government Supply Estimates 2008-09—Main Supply Estimates (HC 479), available online at the following address:

http://www.hm-treasury.gov.uk./documents/public_spending_reporting/estimates/estimates_index.cfm

Any change to the budget will be included in future supplementary estimates.

Pay

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster what the average mean full-time *(a)* male earnings and *(b)* female earnings were in each local authority area in Great Britain in the most recent period for which figures are available. [217939]

Mr. Watson *[holding answer 10 July 2008]:* The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 14 July 2008:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the average mean full-time (a) male earnings and (b) female earnings were in each local authority area in Great Britain in the most recent period for which figures are available. (217939)

Levels of earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for employees on adult rates of pay, whose pay for the survey period was not affected by absence. The ASHE, carried out in April each year, is the most comprehensive source of earnings information in the United Kingdom.

Results for Local Authorities can be obtained from Table 7 in the ASHE publications available from the National Statistics website at:

http://www.statistics.gov.uk/ashe

Public Participation

Norman Baker: To ask the Chancellor of the Duchy of Lancaster on how many occasions since 1 June 2007 *(a)* focus groups have been consulted and *(b)* polling surveys have been undertaken; and what subject was in question in each case. [217149]

Mr. Watson *[holding answer 8 July 2008]:* For information regarding public participation events, I refer the hon. Member to the answer given to the right hon. Member for Horsham (Mr. Maude) on 3 April 2008, *Official Report*, column 1142W.

Information on individual management units conducting polling surveys of the public can be provided only at disproportionate cost.

Voluntary Work: Car Allowances

Mr. Drew: To ask the Chancellor of the Duchy of Lancaster in what ways the Cabinet Office monitors effects on volunteer car and minibus drivers of fluctuations in the price of fuel; and what estimate he has made of the effects of recent rises of the price of fuel on the number of such volunteers. [213584]

Phil Hope: The Cabinet Office is committed to addressing barriers to volunteering. Officials from the Office of the Third Sector regularly meet with representatives from the sector to discuss a range of issues.

DEFENCE

Afghanistan: Asylum

Mr. Keith Simpson: To ask the Secretary of State for Defence pursuant to the answer from the Secretary of State for International Development to the right hon. Member for Richmond, Yorks (Mr. Hague) of 30 June 2008, *Official Report*, columns 596-7W, on Afghanistan: asylum, on how many occasions security for humanitarian agencies delivering aid has been provided by *(a)* the International Security Assistance Force and *(b)* other forces since January 2008; and if he will make a statement. [217625]

Des Browne: Since January 2008, there are no recorded instances in which UK military personnel have provided security for humanitarian agencies delivering aid in Afghanistan, nor are there any recorded instances in which such assistance has been requested.

We do not hold detailed records on the extent to which the other members of the International Security Assistance Force have been engaged in these activities.

Afghanistan: Pakistan

Dr. Julian Lewis: To ask the Secretary of State for Defence what recent assessment he has made of the role of elements of the Pakistani *(a)* military and *(b)* intelligence services in assisting (i) the Taliban and (ii) other insurgents in Afghanistan since 2001. [218255]

Des Browne: We do not comment on the detail of intelligence assessments but the Ministry of Defence continually analyses how the Taliban and other extremists operate in support of the insurgency in Afghanistan. International cooperation is central to our efforts and we welcome the Government of Pakistan's commitment to countering terrorism as a top priority. We continue to press them to ensure that the Afghanistan insurgency cannot draw support from within their own borders.

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence how many rounds of ammunition were discharged in Helmand province in each roulement since Operation Herrick 4, broken down by type. [216076]

Des Browne: The amount of ammunition used by UK forces in each Operation Herrick roulement since Herrick 4 is set out in the following table:

Type of nature	*Herrick 4 (August 2006 to October 2006)*	*Herrick 5 (October 2006 to April 2007)*	*Herrick 6 (April 2007 to October 2007)*	*Herrick 7 (October 2007 onwards)*	*Herrick 8 (April 2008 onwards)*
7.62mm all natures	210,000	520,000	1,100,000	1,036,000	493,000
5.56mm all natures	235,000	615,000	1,170,000	1,020,000	590,300
0.5 inch all natures	25,000	90,000	185,000	153,000	59,200
12.7mm all natures	2,400	350	0	1,005	840
9mm all natures	10,000	69,000	14,000	57,000	45,000
0.338	200	1,700	4,900	485	272
12 bore shotgun all natures	5	45	660	71	216
105mm all natures	8,600	4,300	12,100	12,430	1,645
30mm Armoured Fighting Vehicle rounds	1,200	5,000	3,600	2,800	0
30mm Attack Helicopter rounds	29,800	21,000	26,500	7,700	15,350

Note:
Where applicable, figures have been rounded either to the nearest 10,100 or 1,000.

Dr. Fox: To ask the Secretary of State for Defence how much has been spent on providing bottled water to British troops operating in Afghanistan in each of the last 12 months; and how much has been purchased in each month. [216242]

Mr. Bob Ainsworth: The following table sets out the volume and cost of water supplied to UK troops in Afghanistan over the last year through our enabling contract:

	Volume/litre	*Value (£)*
July 2007	1,159,776	80,208
August 2007	1,228,899	72,922
September 2007	1,837,818	123,038
October 2007	593,240	44,938
November 2007	421,932	29,421
December 2007	613,102	38,295
January 2008	876,935	56,458
February 2008	749,903	49,566
March 2008	1,212,854	79,072
April 2008	598,706	61,725
May 2008	896,616	76,346
June 2008	751,127	63,707

We have invested around £7 million on the provision of a water bottling plant in Camp Bastion to provide bottled water from natural sources in theatre. This has been running since the end of February 2008, at maximum capacity can produce 50,000 litres of bottled water per day and has produced over 2 million bottles since production began.

Dr. Fox: To ask the Secretary of State for Defence by what means water is supplied to troops operating in Afghanistan. [216243]

Mr. Bob Ainsworth: Water is supplied to UK forces in Afghanistan by a number of methods. Bottled water is provided to troops where water is not available locally from other sources, and it is supplied either through a contract or using the water bottling plant at Camp Bastion. The water is distributed to troops by a

range of methods, depending on the location, including truck, helicopter or air dispatch.

In many forward bases, water is supplied locally from boreholes established by the UK military. Water from these is purified by reverse osmosis plants and tested for purity. Samples are regularly taken to ensure that the water is safe to drink.

Soldiers are also provided with purification tablets for use in extremis, although these are not relied upon as an enduring means to provide troops with drinkable water.

Paul Flynn: To ask the Secretary of State for Defence what assessment he has made of the performance of *(a)* British forces and *(b)* ISAF forces in Afghanistan against their objectives; and if he will make a statement. [217652]

Des Browne *[holding answer 10 July 2008]:* The presence of UK and other ISAF troops has already contributed significantly in transforming Afghanistan from a pariah state that harboured international terrorists, into a functioning democracy with a legitimate Government and Parliament. Security conditions are broadly stable if fragile in places, particularly in the South and East of the country. Overall in 2007, 70 per cent. of security incidents were confined to 10 per cent. of Afghanistan's 398 districts, which together contain less than 6 per cent. of the Afghan population.

UK forces continue to expand the authority of the Government of Afghanistan in Helmand and, together with Afghan forces, are expanding areas of security around the major towns in the province, allowing civilian-led reconstruction and development work to take place.

Afghanistan: Prisons

Dr. Fox: To ask the Secretary of State for Defence what security reviews *(a)* the British armed forces and *(b)* other NATO forces have carried out on Afghan prisons in the last five years. [214376]

Des Browne: The security of prisons in Afghanistan remains the responsibility of the Government of the Islamic Republic of Afghanistan. Consequently, UK forces do not conduct formal security reviews of these facilities.

However, our deployed forces clearly have a strong interest in ensuring that security in the prisons in Afghanistan is adequate and therefore, we do work with the Afghan authorities in this area: for example, a team from the Helmand Task Force visited the prison in Lashkar Gar recently in part to assess the local security arrangements and provide advice on how these might be improved. The UK Prison Service is also working with the responsible local authorities to enhance security in Pol-e-Charki prison in Kabul.

We do not hold detailed records on the extent to which NATO allies undertake security reviews of Afghan prisons.

Armed Forces: Amphibious Vehicles

Mr. Streeter: To ask the Secretary of State for Defence which vessels comprise the amphibious fleet; and how many *(a)* officers and *(b)* crew serve on each. [218347]

Mr. Bob Ainsworth: I refer the hon. Member to the answer I gave on 6 March 2008, *Official Report*, column 2707W.

Armed Forces: Cadets

Mark Pritchard: To ask the Secretary of State for Defence what steps he is taking to acknowledge the work of cadet forces as part of the Cadet 150 celebrations. [217509]

Derek Twigg: Work is currently under way between the MOD, the cadet forces and their supporting associations to develop a programme of events and activities to celebrate and promote the success and values of the Cadet Movement in its 150th year. A broad outline of events around the UK showcasing adventure, sports and cadet skills has been agreed, including at least one organised by each of the single-service cadet forces as well as a major national commemorative event to be taken forward under the stewardship of the MOD's ceremonial events and commemoration team in the summer of 2010.

In addition to demonstrating the wide range of developmental opportunities available to young people in cadet units across the entire UK, it is intended that the events will help stimulate interest from adults who will be willing to come forward and dedicate their free time to becoming adult volunteers for this most worthwhile cause.

Mark Pritchard: To ask the Secretary of State for Defence if he will take steps to offer equal access to Ministry of Defence logistical support to cadet force units based in rural and urban areas. [217721]

Derek Twigg: All cadet forces have equal access to MOD logistical support and this is provided on a regional basis, irrespective of whether the unit is based in a rural or urban setting.

Armed Forces: Coroners

Mr. Baron: To ask the Secretary of State for Defence for what reasons the Government have legal representation at all inquests involving deceased military personnel. [218195]

Mr. Bob Ainsworth: For the majority of inquests, MOD does not have legal representation because they are non-adversarial, fact-finding proceedings. However, on some occasions the MOD, as an "interested person" may engage Counsel to assist the coroner in establishing the relevant facts surrounding the death, particularly in cases which are complex, often involving sensitive matters relating to national security.

Armed Forces: Eyesight

Nick Harvey: To ask the Secretary of State for Defence how many applicants to the armed forces have been rejected due to poor vision or visual impairments in the last 12 months. [218451]

Mr. Bob Ainsworth: The armed forces do not record centrally the exact reason for a medical rejection of an application; only that an individual has been medically rejected. The only way to determine the exact answer would be to manually trawl through the individual files for all rejected applicants and this could be done only at disproportionate cost.

Nick Harvey: To ask the Secretary of State for Defence how much of the annual defence medical budget is allocated to eye care. [218452]

Derek Twigg: The figure requested is not held centrally and could be provided only at disproportionate cost.

Nick Harvey: To ask the Secretary of State for Defence how many personnel have been taken off front-line duty due to visual impairments sustained in service. [218454]

Derek Twigg: This information is not held centrally and could be provided only at disproportionate cost.

Armed Forces: Mental Health Services

Dr. Fox: To ask the Secretary of State for Defence what the average *(a)* start up and *(b)* running cost of a Department of Community Mental Health is. [216248]

Derek Twigg: The MOD has 15 departments of community mental health (DCMHs) in the UK with additional satellite centres in Germany, Cyprus and Gibraltar. Responsibility for their individual management is shared between the single service commands.

DCMHs came into being in April 2004. Prior to 2004 community-based mental health services were provided by what were known as departments of community psychiatry (DCPs). The conversion of DCPs to DCMHs involved providing uplifts of funding to the single services for the creation of specific staff posts and improvements to IT resources. The amount of funding provided to each of the single services varied depending on their needs, however in financial year 2004-05 it totalled approximately £7.5 million.

Each service funds its respective DCMHs differently with funding provision coming from a number of areas. Estimated annual costs for an average Army DCMH are approximately £543,000, which covers staff pay and other associated costs, such as allowances, training, equipment and line rental.

Due to the number of budgets to which costs would be attributable any detailed study of DCMH finances would incur disproportionate costs.

Armed Forces: Pay

Mr. Bellingham: To ask the Secretary of State for Defence (1) what proportion of salary payments for personnel in all three services were paid on time in the last two years; [215422]

(2) how many RAF employees *(a)* received a salary payment late and *(b)* missed a salary payment as a result of errors in the Joint Personnel Administration system in (i) 2006 and (ii) 2007; [215423]

(3) how many armed forces personnel *(a)* received a salary payment late and *(b)* did not receive one or more salary payments as a result of errors in the Joint Personnel Administration system in 2007. [215424]

Derek Twigg: During financial years 2006-07, 99.92 per cent. of personnel in all three Services were paid on time (773 RAF personnel were paid late) and in 2007-08 all armed forces personnel were paid on time. (See notes). No member of the armed forces failed to receive a salary payment as a result of errors in the Joint Personnel Administration System in either year.

Notes:

1. The number of personnel paid on time and paid late reports the performance of the former Armed Forces Personnel and Administration Agency's (financial year 2006-07) and the Service Personnel and Veterans Agency's (financial year 2007-08) against key target 1 (timeliness of pay) as set out in the Annual Corporate Plan and Annual Report and Accounts.

2. Some individual delays in payments of some additional pay and allowances have occurred as a result of late or invalid inputs to the Joint Personnel Administration system being received from individuals, unit HR or career managers.

3. Local cash payments are always available to individuals should the need arise.

Armed Forces: Recruitment

Nick Harvey: To ask the Secretary of State for Defence if he will provide a breakdown of recruitment to the armed forces against targets by region for the last five years. [218449]

Mr. Bob Ainsworth: There are no recruitment targets currently set by region or nationality.

I refer the hon. Member to the answer I gave on 16 June 2008, *Official Report*, column 718W, to the hon. Member for Woodspring (Dr. Fox), which details target and actual recruitment to the Army, Naval Service and RAF. Recruitment targets are shown from 2000-01 to 2007-08. Actual recruitment is shown from 1997-98 to 2007-08.

Armed Forces: Scotland

Nick Harvey: To ask the Secretary of State for Defence how many service family accommodation properties in *(a)* Scotland and *(b)* Northern Ireland have been identified as awaiting (i) disposal and (ii) demolition in each year since 2002. [218437]

Derek Twigg: The following service family accommodation (SFA) properties in Scotland have been identified for disposal and demolition.

Financial year	Identified for disposal	Identified for demolition
2001-02	670	0
2002-03	41	84
2003-04	248	0
2004-05	260	0
2005-06	86	0
2006-07	183	0
2007-08	419	0
2008-09	95	0

In Northern Ireland, 553 properties await disposal and 142 properties are currently being demolished. Historic data for Northern Ireland is not available.

Armed Forces: Training

Mark Pritchard: To ask the Secretary of State for Defence what assessment he has made of the impact on Defence Training Review project financing of levels of demand from residential developers for his Department's land at *(a)* Aborfield and *(b)* Bordon. [217395]

Mr. Bob Ainsworth: The Defence Training Review (DTR) Package 1 Project plans to improve and rationalise phase 2 and phase 3 technical training. As a consequence of this rationalisation both Bordon and Arborfield Garrisons will be released for sale from 2012 onwards.

MOD has sought recent independent valuation advice for both sites as part of financial appraisals for DTR which uses prudent levels of values in its assessments.

Mrs. Gillan: To ask the Secretary of State for Defence what recent progress his Department has made on the proposed sale of sites at *(a)* Arborfield and *(b)* Bordon; and if he will make a statement. [218767]

Derek Twigg: As a result of defence training review project, which aims to improve and rationalise defence training, Bordon and Arborfield garrisons will be released for sale. The sites will be sold following the relocation of the occupying units to their new facilities from 2012 onwards.

In anticipation of this disposal Defence Estates is working with the respective local authorities to achieve master plans and prepare planning applications for both locations.

Mark Pritchard: To ask the Secretary of State for Defence what contingency plans have been agreed by his Department for managing affordability gaps identified in the Defence Training Review. [217725]

Mr. Bob Ainsworth: The Department continues to work constructively with the Metrix consortium on a range of issues on DTR Package 1 to achieve an affordable, value for money, acceptable and deliverable project. Cost growth and the implications of the credit crunch on borrowing have been a significant factor. The Department has been working jointly with Metrix to drive the price down to seek to eliminate the affordability gap without materially affecting the scope of the project.

Mark Pritchard: To ask the Secretary of State for Defence whether he plans to discuss with the Comptroller and Auditor General the treatment of the financing of the Defence Training Review programme in his Department's accounts. [217726]

Mr. Bob Ainsworth: The Ministry of Defence has not yet entered into a contract for the delivery of Defence Training with the Metrix consortium. The treatment of the financing of the Defence Training Review (DTR) programme does not therefore appear in the Department's accounts and consequently there are no plans to discuss DTR with the Comptroller and Auditor General. One minor entry for a contingent liability of £9.5 million will, however, be included in this financial year's account. This undertaking was laid as a departmental minute before the House for 14 working days on 29 January this year.

Defence Training Review Executive Board

Mark Pritchard: To ask the Secretary of State for Defence if he will publish the minutes of the last meeting of the Defence Training Review Executive Board. [217394]

Mr. Bob Ainsworth: I am withholding the information requested as its release would, or would be likely to, prejudice commercial interest.

Defence: Expenditure

Dr. Fox: To ask the Secretary of State for Defence what defence expenditure *(a)* including and *(b)* excluding the cost of operations was in the latest 12 month period for which figures are available in (i) cash terms and (ii) as an estimated percentage of gross domestic product. [217005]

Des Browne: Defence expenditure figures for 2006-07 are as follows:

	Near cash outturn (£)	Percentage of GDP
Including the cost of operations	30,207,161,000	2.6
Excluding the cost of operations	28,475,793,000	2.4

Departmental Car Allowances

Sir Nicholas Winterton: To ask the Secretary of State for Defence what mileage allowance is provided to each category of entitled worker by his Department; and if he will make a statement. [218482]

Derek Twigg: Civilian employees who use their private vehicle for official duty may claim one of two mileage rates, the Standard Rate of Motor Mileage

Allowance (SRMMA) or where there are more economic methods of travel, the Private Travel Rate of Motor Mileage Allowance (PTRMMA). Rates are:

SRMMA:

40p per mile for the first 10,000 miles

25p per mile for travel more than 10,000 miles

PTRMMA:

25p per mile

The SRMMA is based on HM Revenue and Customs Authorised Mileage Allowance Payments (AMAPs) and the PTRMMA on the AMAP for travel more than 10,000 miles.

There are several travel allowances which can be claimed by service personnel.

The UK Private Car Rate (PCR) is more usually claimed for duty journeys (i.e. journeys undertaken for reasons such as meetings or official visits). It is payable for journeys where there is no spare seat available in a service or private motor vehicle already scheduled to undertake a journey in the required direction and, although public transport could be used without undue detriment to the interests of the service, the use of a private motor vehicle is considered reasonable. The rate is 28.3p per mile.

The UK Official Duty Rate (ODR), which is authorised only very occasionally for duty journeys where the use of a private motor vehicle is essential and there is no cheaper alternative, is the same as the SRMMA for civilians and is also based on HM Revenue and Customs Authorised Mileage Allowance Payments AMAPs.

Service personnel who travel daily between the accommodation where they live and their place of duty may claim Home to Duty (HTD) (Public) if they live in public accommodation or HTD (Private) if they live in private accommodation. The allowance is based on the distance travelled up to a maximum of 50 miles per single journey, less a personal contribution of one mile per single journey for HTD (Public) and nine miles per single journey for HTD (Private). The rates are paid on a daily basis and vary according to the number of miles travelled. For example the daily HTD (Public) rate claimable for a distance of 30 miles each way from the place of duty is £9.94.

Departmental Early Retirement

Mr. Redwood: To ask the Secretary of State for Defence how many staff in *(a)* his Department and *(b)* his Department's agencies have taken early retirement in the last two years. [217382]

Derek Twigg: The following table shows details of the number of Ministry of Defence civilian employees that have taken early retirement in the last two financial years.

Financial year	*Number of MOD civilian staff who have taken early retirement*[1]
2006-07	1,370
2007-08	1,700

[1] Includes armed forces, industrial, industrial and trading fund MOD civilian personnel but excludes Royal Fleet Auxiliary and locally engaged civilian staff for whom no information on exit reason is available.

Note:

Numbers have been rounded to the nearest 10.

Departmental Equipment

Dr. Fox: To ask the Secretary of State for Defence (1) pursuant to the answer on 19 January 2007, *Official Report*, columns 1363-64W, on departmental equipment, how many of the computers which have been stolen since 1998 contained information with a classification of *(a)* none, *(b)* restricted, *(c)* confidential, *(d)* secret and *(e)* top secret; [182387]

(2) pursuant to the answer of 10 December 2007, *Official Report*, column 58W, on departmental computers, how many of the computers which were stolen in 2007 had a classification of *(a)* no classification, *(b)* restricted, *(c)* confidential, *(d)* secret and *(e)* top secret. [182390]

Mr. Bob Ainsworth: As a result of the theft of the Royal Navy laptop, the Ministry of Defence has initiated an investigation into the details of all lost or stolen computers since 2003.

I will write to the hon. Member when the information is available and arrange for a copy of my reply to be placed in the Library of the House.

Substantive answer from Bob Ainsworth to Liam Fox:

I undertook to write to you in answer to your Parliamentary Questions on 25 January 2008, (Official Report, columns 2246-47W) about departmental computers.

As a result of the investigation into details of electronic media lost/stolen since 2003, which I announced on 31 March 2008, (Official Report, column 517W), data on the number of laptops and desktop computers centrally reported as stolen from the Department since 2003 have been revised. Figures prior to 2003 were not centrally recorded and were limited in nature and are therefore not presented in this reply. The information is set out in the following table which identifies the highest Protective Marking ("classification") of material which the systems were accredited to hold.

	Unclassified /None	*Restricted*	*Confidential*	*Secret*	*Top Secret*	*Not determined*	*Total*
2003							
Laptops	20	39	0	1	3	73	136
Desktops	7	2	0	0	0	36	45
2004							
Laptops	74	86	0	2	0	110	272
Desktops	12	5	0	0	0	20	37

	Unclassified /None	Restricted	Confidential	Secret	Top Secret	Not determined	Total
2005							
Laptops	12	34	0	1	0	83	130
Desktops	3	3	0	0	0	19	25
2006							
Laptops	32	58	0	2	0	63	155
Desktops	2	3	0	1	0	22	28
2007							
Laptops	13	35	0	0	0	53	101
Desktops	1	9	0	0	0	3	13
2008 (Up to 25 June 08)							
Laptops	15	19	0	0	0	0	34
Desktops	3	2	0	0	0	0	5

In some instances it has not been possible to determine the highest Protective Marking of material which the systems were accredited to hold as it was not established when the incident was reported and subsequent clarification has proved inconclusive (these are classified as 'Not Determined' in the table).

Our investigation may not have identified all instances where a higher Protective Marking of material was held on a lower classification of system. Attempting to confirm these would exceed the disproportionate cost threshold. Processes have been amended to establish the highest Protective Marking of material held on systems as part of our data capture and investigation of such incidents.

Departmental Land

Nick Harvey: To ask the Secretary of State for Defence (1) how much of the land owned by his Department has been deemed surplus to requirements; and what the estimated value of such land is; [218473]

(2) what the estimated value of his Department's land planned to be decommissioned is. [218475]

Derek Twigg: Information regarding sites both in disposal and also those potentially surplus to requirements in the future is available in the Library of the House and is periodically updated.

Details of the estimated sale value of land that is due to be disposed of are not published as its disclosure would prejudice commercial interests.

Departmental Legal Costs

Nick Harvey: To ask the Secretary of State for Defence how much his Department has spent on legal fees defending cases in the courts in each financial year since 1997. [218447]

Derek Twigg: The information requested is not held centrally and could be provided only at disproportionate cost.

Departmental Parliamentary Questions

Mr. Maude: To ask the Secretary of State for Defence if he will place in the Library a copy of the internal guidance available on his Department's staff intranet on the drafting of answers to Parliamentary Questions. [217337]

Derek Twigg: Yes.

Departmental Pay

Mr. Redwood: To ask the Secretary of State for Defence what proportion of staff in his Department and its agencies did not receive the maximum bonus possible under a bonus scheme applying to them in the last two years. [217059]

Derek Twigg: The proportion of staff who, under their respective pay arrangements did not receive the maximum bonus possible was 92 per cent. in 2006 and 94 per cent. in 2007.

Dr. Murrison: To ask the Secretary of State for Defence (1) what bonuses were paid to senior civil servants in his Department in 2007-08; [218510]

(2) what proportion of bonus payments to senior civil servants in 2007-08 was paid to officials in his Department; and if he will make a statement; [218511]

(3) how many senior civil servants in his Department were eligible for bonus payments in 2007-08; and how much his Department paid in bonus payments in that year. [218512]

Derek Twigg: We are not yet in a position to provide the information requested as this year's Senior Civil Service Pay Committee process for 2007-08 is not yet complete. I will write to the hon. Member when the information is available.

Departmental Public Expenditure

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will break down his Department's main estimate in *(a)* near cash and *(b)* non-cash terms on the same basis as in his Answers to the hon. Member for Aldershot on 4 March 2008, *Official Report*, column 2346W and 5 March 2008, *Official Report*, column 2284W. [218334]

Mr. Bob Ainsworth: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Mr. Gerald Howarth: To ask the Secretary of State for Defence pursuant to the Answers to *(a)* the hon. Member for Aldershot of 10 September 2007, *Official Report*, column 1893W and *(b)* the hon. Member for Lancaster and Wyre of 26 February 2008, *Official Report*, column 1359W on departments: public expenditure, if he will clarify his Department's budget in each of the next three years; and if he will make a statement. [218335]

Mr. Bob Ainsworth: The Ministry of Defence's planned expenditure over the next three years (including 2008-09) is detailed in section IV of the Defence Plan published in June 2008.

Departmental Responsibilities

Mr. Maude: To ask the Secretary of State for Defence how many reviews of regulation *(a)* his Department and *(b)* its agencies have conducted or commenced since July 2007; and in which areas. [215624]

Derek Twigg: The majority of regulations made by the Ministry of Defence relate directly to the armed forces. Following the Armed Forces Act 2006 the Department has begun, and is continuing, a programme which will involve the replacement of all the single service subordinate legislation with tri-Service regulations under the new Act. However, this does not cover all regulations to which the question refers. That information is not held centrally and could be provided only at disproportionate cost.

Departmental Television

Mr. Maude: To ask the Secretary of State for Defence to what premium Sky, digital terrestrial or cable television channels *(a)* his Department and *(b)* each of its agencies subscribes; and at what yearly cost in the most recent period for which figures are available. [215651]

Derek Twigg: This information is not held centrally and could be provided only at disproportionate cost.

Departmental Training

Mr. Hoban: To ask the Secretary of State for Defence how much *(a)* his Department and *(b)* its agencies spent on training courses for staff in the last (i) 12 months and (ii) five years. [210558]

Derek Twigg: The information requested is not held centrally and could be provided only at disproportionate cost.

Mr. Hoban: To ask the Secretary of State for Defence what training courses were *(a)* available to and *(b)* taken up by civil servants in his Department in the last 12 months. [210575]

Derek Twigg: The Defence Academy, the MOD's internal training provider, runs 660 different courses that are open to civil servants, of which some run several times a year, making a total of 5,439 courses available.

The take-up by civil servants over the last 12 months was 54,602. This figure does not include any e-learning courses undertaken, and may include the same civil servant attending and completing more than one course.

Information about courses run by external training providers can be provided only at disproportionate cost.

Departmental Wastes

Mr. Jenkins: To ask the Secretary of State for Defence what steps his Department has taken to reduce the volume of waste produced by it and sent to landfill in each of the last two years. [215916]

Derek Twigg: Over the past two years the Ministry of Defence has undertaken a series of actions to reduce the amount of waste it produces and sends to landfill. These include: conducting a series of site waste audits to determine the processes that generate waste; implementing site waste minimisation schemes; and commissioning a Waste Management Improvement Project. This examined waste management activities carried out throughout the defence estate and how these could be improved to reduce the amount of waste generated in the first instance and to increase the amount of waste that remained to recycling and recovery operations. The recommendations from this report are in the process of being actioned.

The Ministry of Defence is also working closely with not-for-profit organisations such as WRAP (Waste Resources Action Programme) to increase the amount of construction waste re-used on site and recycled off-site, and NISP (National Industrial Symbiosis Programme) which looks to create industrial synergies with local businesses and organisations so that the Department's waste is used as another's resource.

The MOD Specialist Training School at RAF Halton also runs an accredited three-day waste management course which teaches individual site environmental advisers the practical aspects of waste management with an emphasis on waste reduction and recovery.

Departmental Written Questions

David Simpson: To ask the Secretary of State for Defence how long on average his Department took to answer *(a)* ordinary written and *(b)* named day questions in each of the last three years. [215469]

Derek Twigg: The information is not held in the format requested. However, during session 2006-07, 25 per cent. of both named day written questions and ordinary written questions were answered on time.

EU Defence Policy

Mr. Hayes: To ask the Secretary of State for Defence which UK *(a)* military units and *(b)* vessels have taken part in EU military operations. [216656]

Des Browne: I refer the hon. Member to the answer given by my right hon. Friend the Minister for the Armed Forces on 10 September 2007, *Official Report*, column 1894W, to the hon. Member for Woodspring (Dr. Fox).

The UK is also contributing a total of four military officers to the current ESDP mission to Chad/Central African Republic (CAR): two officers in the operational HQ at Mont Valerien in Paris and two officers in the force HQ in Chad/CAR. These staff officers are being provided under standing EU headquarters augmentation procedures.

Iraq: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence how many civilian contractors employed by his Department serving on *(a)* Operation Telic and *(b)* Operation Herrick have been (i) wounded and (ii) killed in each year since 2003. [207909]

Mr. Bob Ainsworth: We greatly value the work done by contractors in supporting operations in Afghanistan and Iraq and we take very seriously our responsibilities towards them in both theatres. However, collating comprehensive data on injuries or fatalities suffered by our contractors is very difficult. As a result, detailed and reliable information is not held centrally and could be provided only at disproportionate cost.

John Battle: To ask the Secretary of State for Defence what proportion of Iraqi insurgents his Department estimates to be *(a)* Ba'athists, *(b)* Nationalists, *(c)* Kurdish Worker Party members, *(d)* the Salafi, *(e)* Badr Organisation members and *(f)* Mahdi Army members; and if he will make a statement. [218023]

Des Browne: It is not possible to estimate with any accuracy the proportion of Iraqi insurgents that belong to specific categories. Membership of individual groups fluctuates with their fortunes and divisions between them can be blurred, making assessments of their numbers difficult.

The Badr Organisation is not an insurgent group, but a legitimate political party. The Kurdish Workers' Party is a Turkish, not Iraqi, group which operates against Turkey.

Nick Harvey: To ask the Secretary of State for Defence how often armoured vehicles have been penetrated by insurgent ordnance in *(a)* Iraq and *(b)* Afghanistan. [218446]

Des Browne: I am withholding the information as its disclosure would, or would be likely to prejudice the capability, effectiveness or security of our armed forces.

Nick Harvey: To ask the Secretary of State for Defence how many contact lens infections have been reported in *(a)* Iraq and *(b)* Afghanistan amongst armed forces personnel since 2003 in each country. [218455]

Derek Twigg: The following numbers are recorded as having been aeromedically transferred to the Royal Centre for Defence Medicine at Selly Oak with contact lens related ulcers:

Theatre	*Time period*	*Number of cases*
Iraq	1 January 2003 to 9 July 2008	24
Afghanistan	1 January 2003 to 9 July 2008	<5

There may also have been a small number of cases treated successfully in-theatre. Details will be recorded on the individuals' personal medical files, but are not recorded centrally.

Korean War

Mark Pritchard: To ask the Secretary of State for Defence how many British servicemen who went missing in action during the Korean War remain unaccounted for. [217504]

Derek Twigg: The cases of all Korean war servicemen who were not accounted for at the end of the war were extensively investigated in the early 1950s. In 1954, following these investigations, the War Office presumed death had occurred for all 118 cases of servicemen identified as missing. This was later changed to 113 to reflect the recovery of five bodies in the late 1950s.

Martyn Compton

Hugh Robertson: To ask the Secretary of State for Defence pursuant to the answer of 7 July 2008, *Official Report*, column 1175W, on Martyn Compton, when he expects to make a decision on the compensation payable to Lance Corporal Compton. [218366]

Derek Twigg: I will write to the hon. Member when a decision has been made.

Military Aircraft: Helicopters

Dr. Fox: To ask the Secretary of State for Defence what the average number of *(a)* planned and *(b)* actual flying hours for each helicopter type in the (i) Army Air Corps, (ii) Fleet Air Arm and (iii) Royal Air Force was in each year since 2001. [216251]

Mr. Bob Ainsworth: There is no requirement to hold data on average flying hours. The total planned and actual flying hours for each helicopter type in the three services for each year since 2001 are shown in the following tables. Information on planned flying hours prior to 2004-05 is not available for all aircraft types.

Army Air Corps

	2001-02	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Apache AH1							
Planned hours	—	—	—	8,096	9,793	13,720	13,987
Actual hours	818	2,137	3,248	5,460	7,295	11,334	12,040

Army Air Corps

	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08
Agusta A109							
Planned hours	—	—	—	1,000	1,000	1,000	1,000
Actual hours	989	1,053	1,001	925	1,067	987	1,080
Gazelle							
Planned hours	—	—	—	33,333	20,376	14,200	14,822

National Security

Mr. Hancock: To ask the Secretary of State for Defence (1) how many of the National Security Strategy's objectives in areas within his Department's responsibility have been implemented; and if he will make a statement; [217345]

(2) what plans his Department and its agencies have to implement the National Security Strategy within areas of his Department's responsibility; and if he will make a statement; [217346]

(3) what targets have been set for his Department in implementing those parts of the National Security Strategy which are within its areas of responsibility; and how performance against such targets will be measured. [218152]

Des Browne: MOD is contributing to the delivery of a wide range of the cross-Government objectives set out in the National Security Strategy and these priorities are reflected in our plans. Implementation is co-ordinated by the Cabinet Office and overseen by the Ministerial Committee on National Security, International Relations and Development.

Nord Anglia

Mark Pritchard: To ask the Secretary of State for Defence what assessment he has made of the effect on the Metrix Consortium and the Defence Training Review programme of the sale of Nord Anglia to Baring, an Asian private equity company. [217720]

Mr. Bob Ainsworth: The MOD will need to be content with all relevant arrangements pertaining to the Metrix Consortium and its subcontractors as a precursor to entering into a contract for DTR Package 1. The DTR contract is not yet let but Nord Anglia are envisaged as a lower-tier sub-contractor to Metrix. MOD will therefore be assuring itself that this change in ownership does not in any way preclude the inclusion of Nord Anglia under the terms of the proposed DTR contract, which includes specific provisions to protect the national interest. If these subcontracting conditions cannot be met, the requirements of the contract to provide the DTR services nonetheless persist and it will be for Metrix, as the prime contractor, to deliver against those requirements.

RAF Halton

Mr. Lidington: To ask the Secretary of State for Defence how many *(a)* armed forces and *(b)* civilian personnel are stationed at RAF Halton. [217582]

Mr. Bob Ainsworth: The following tables give the number of armed forces and civilian personnel stationed at RAF Halton at 1 July 2008.

Armed forces personnel

	Number
Service	790
Student	944

Civilian personnel

	Number
Staff	490
Contractors	375

Mr. Lidington: To ask the Secretary of State for Defence how many armed forces personnel have received recruit training at RAF Halton in each year since 1998. [217583]

Mr. Bob Ainsworth: The following table gives the number of armed forces personnel who have received recruit training at RAF Halton. Information is only available from financial year 2003-04.

Recruit training

	Number
2003-04 [1]	3,271
2004-05	1,556
2005-06	957
2006-07	1,075
2007-08	2,149

Note:
1. Training numbers for financial year 2007-08 includes figures for the Royal Auxiliary Air Force.

Mr. Lidington: To ask the Secretary of State for Defence how many armed forces personnel have received basic trade training at RAF Halton for *(a)* supply roles, *(b)* catering and *(c)* administration roles in each year since 1998. [217584]

Mr. Bob Ainsworth: The following table gives the number of armed forces personnel who have received basic trade training for supply, catering and administration roles at RAF Halton. Information is only available from financial year 2003-04.

Trade

	Catering	Administration	Supply
2003-04	201	120	159
2004-05	188	65	134
2005-06	51	—	50
2006-07	61	—	40
2007-08	44	—	45

Mr. Lidington: To ask the Secretary of State for Defence how much income was received by his Department from RAF Halton selling *(a)* spare capacity training and *(b)* spare capacity resources in each year since 1998. [217586]

Mr. Bob Ainsworth: The income received by the MOD from RAF Halton selling spare training capacity and spare resource capacity, is given in the following table. Spare training capacity figures are approximate and have been provided by HORIZON who have a contract with the RAF to market this training. Exact figures relating to spare training capacity are not held centrally and could be provided only at disproportionate cost. Information given in the table has been rounded to the nearest £1,000. Information is not available for the years prior to those included in the table.

£

	Income received from spare training capacity at RAF Halton	Income received from spare resource capacity at RAF Halton
2003-04	21,000	n/a
2004-05	20,000	145,000
2005-06	25,000	237,000
2006-07	44,000	212,000
2007-08	63,000	240,000

n/a = Not available.

Mr. Lidington: To ask the Secretary of State for Defence which customers purchased *(a)* spare capacity training and *(b)* spare capacity resources from RAF Halton in each year since 1998. [217587]

Mr. Bob Ainsworth: The RAF has had a contract with HORIZON to market spare training capacity at RAF Halton since 2001. I am withholding the list of HORIZON'S customers as its release would, or would be likely to, prejudice commercial interests. Details of customers for spare capacity at RAF Halton prior to 2001 are not held centrally and could only be provided at disproportionate cost.

Since financial year 2004-05, approximately 1,500 customers have purchased spare resource capacity from RAF Halton. I will write to the hon. Member with the names of these customers.

Mr. Lidington: To ask the Secretary of State for Defence how many civilian staff vacancies have been advertised at RAF Halton in each year since 1998. [217593]

Mr. Bob Ainsworth: The following table gives the number of civilian staff vacancies advertised internally and externally at RAF Halton. Information is only available from calendar year 2003. Earlier information could be provided only at disproportionate cost.

Vacancies

	Number
2003	6
2004	11
2005	36
2006	82
2007	171

South Korea: Defence

Mark Pritchard: To ask the Secretary of State for Defence what recent discussions he has held with his South Korean counterpart on strengthening the defence procurement relationship between the UK and the government of South Korea. [217503]

Mr. Bob Ainsworth: My right hon. Friend the Defence Secretary met his South Korean counterpart Minister, Lee Sang Hee in Singapore on 1 June in the margins of the International Institute for Strategic Studies' Asia Security Summit. Strengthening the defence procurement relationship between the UK and the government of South Korea was not discussed.

Trident Missiles

Norman Baker: To ask the Secretary of State for Defence whether any Trident warheads have experienced specified abnormal or severely abnormal environments, as defined by JSP 538 in the last 30 years. [218408]

Des Browne: No Trident warhead has experienced either a specified or severe abnormal environment. The Trident nuclear warhead system was designed against robust environmental standards that are now captured in JSP 538. In achieving approval for in-service use for Trident, trials and assessments of components and special build warheads against those standards were undertaken and passed.

Unmanned Air Vehicles: Procurement

Mr. Carswell: To ask the Secretary of State for Defence what consideration he has given to purchasing MQ-9 Reaper unmanned aerial vehicles (UAVs) from overseas rather than UK-assembled UAVs. [216229]

Mr. Bob Ainsworth: In order to meet an Urgent Operational Requirement an assessment was made of all known developmental and off-the-shelf strategic level unmanned air vehicles, including those available from within the UK. This assessment concluded that the MQ-9 Reaper was the only UAV which provided the required capability in the necessary time scale. The MQ-9 Reaper has been procured complete from a US company, General Atomics Aeronautical Systems Inc, which is the sole source for the system. Watchkeeper, which is expected to enter service in 2010 to meet the long-term requirement for a formation higher tactical level UAV, will be assembled in the UK and work is under way to decide how best to meet our future strategic level UAV requirements.

HEALTH

Abortion: Statistics

Mr. Amess: To ask the Secretary of State for Health (1) how many times the 2007 Abortion Statistics have been downloaded from his Department's website. [216353]

(2) how many hard copies of the 2007 Abortion Statistics have been provided by his Department free of charge; to whom; at what cost to the public purse; and if he will make a statement. [216354]

Dawn Primarolo: Between 19 and 30 June there have been 783 downloads of the PDF of "Abortion Statistics, England and Wales: 2007" and 764 downloads of the tables in Excel format.

Further to the answer I gave the hon. Member on 12 June 2008, *Official Report*, column 515W, paper copies of the statistical bulletin were made available in the Vote Office as he requested. Fifty copies were provided and no estimate has been made of the cost of doing so. No other hard copies of the bulletin have been distributed.

Ambulance Services

Mr. Jenkins: To ask the Secretary of State for Health how many ambulances have been decommissioned by the NHS in each of the last five years for which records are available. [215766]

Mr. Bradshaw: This information is not collected centrally. It is for trusts to ensure at local level that the ambulance vehicles they are using are fit for purpose.

Ambulance Services: Fuels

Anne Main: To ask the Secretary of State for Health (1) what recent representations he has received from the East of England Ambulance Service on the effect of increases in the cost of fuel on ambulance services; [217234]

(2) what assessment he has made of the effect of recent increases in the cost of fuel on ambulance services in *(a)* Hertfordshire and *(b)* England and Wales; and if he will make a statement. [217235]

Mr. Bradshaw: No recent representations have been received from the East of England Ambulance Service on the effect of increases in the cost of fuel on ambulance services.

Arrangements for accessing fuel for ambulances are the responsibility of local ambulance trusts, and we have made no assessment of the effect of increases in the cost of fuel on ambulance services in either Hertfordshire or England. The health service in Wales is a matter for the Welsh Assembly Government.

Ambulance Services: Vehicles

Mr. Hoyle: To ask the Secretary of State for Health what guidance his Department provides to ambulance authorities on procurement of vehicles; and what makes of ambulance are recommended for purchase by ambulance authorities. [215317]

Mr. Bradshaw: There are two types of ambulance procured by ambulance trusts: patient transport service ambulances and accident and emergency (A and E) ambulances.

Both types of vehicles can be procured either by outright purchase or by leasing, depending on the individual trusts preference.

For the outright purchase of either type the NHS Purchasing and Supply Agency (PASA) has two national frameworks in place. These contracts provide ambulances which comply with the standard adopted by the British Standards Institute for those vehicles which carry a stretcher.

The specification for A and E ambulances for the new framework was decided by the National Strategic Ambulance Group. The new national specification for front line accident and emergency ambulances is box body only and because of the equipment it carries Mercedes, Iveco and Volkswagon are specified as suitable providers.

These frameworks are not mandatory and trusts can tender on their own behalf for both patient transport service and A and E ambulances. However, trusts may make use of NHS PASA advice and assistance.

Autism: Drugs

Mr. Byers: To ask the Secretary of State for Health what steps he plans to take to ensure that there is no gap in the provision of prescribed drugs to a person suffering from autism on reaching the age of 18 years; and if he will make a statement. [218605]

Dawn Primarolo: Transition planning is important for young people moving from child to adult services. This process should involve an integrated multidisciplinary team (including the general practitioner) to enable co-ordinated care, including medical management and medication. The Department would expect the continued prescribing of medicines to form part of this planning.

Cancer: Mortality

Bob Spink: To ask the Secretary of State for Health what his estimate is of the average numbers of years of life lost for *(a)* all cancers, *(b)* brain tumours, *(c)* prostate cancer and *(d)* breast cancer in the latest period for which figures are available; and if he will make a statement. [216616]

Ann Keen *[holding answer 9 July 2008]:* The following table shows the numbers of years of life lost for all cancers, cancer of the brain, prostate cancer and breast cancer in England. The figures are for the period 2004-06.

Summary of years of life lost statistics for selected causes of death, England, 2004-06 (pooled)

		Number of deaths aged under 75 years		Number of years of life lost up to age 75 years	
Cause of death	*Gender*	*Three year total*	*Annual average*	*Three year total*	*Annual average*
Mortality from all cancers[1]	Persons	186,747	62,249	2,221,529.5	740,509.8
Mortality from cancer of the brain (brain tumours)[2]	Persons	6,594	2,198	121,828.0	40,609.3
Mortality from prostate cancer[2]	Males	7,298	2,433	49,250.0	16,416.7
Mortality from breast cancer[1]	Females	17,086	5,695	265,068.6	88,356.0

[1] Source: Clinical and Health Outcomes Knowledge Base: The Information Centre for health and social care/National Centre for Health Outcomes Development, 2008.

[2] Source: Cancer of brain—a bespoke analysis by National Centre for Health Outcomes Development, July 2008.

Notes:

1. Data are based on the original underlying cause of death.
2. Data are based on the latest revisions of Office for National statistics population estimates for the respective years, current as at 23 October 2007.
3. Data exclude deaths under one year of age.
4. Figures have been taken from the Compendium of Clinical and Health Indicators on the National Centre for Health Outcomes Development website—specifically from the spreadsheets showing the crude rate per 10,000 population and number of years of life lost for each of the conditions requested.

Breast Cancer: Genetics

Gordon Banks: To ask the Secretary of State for Health what estimate he has made of the number of women in England considered to have an increased risk of breast cancer as a result of a genetic defect. [218252]

Ann Keen: The Department does not have estimates of how many women are at risk of breast cancer due to a genetic defect. The 2004 National Institute for Health and Clinical Excellence guideline on the classification and care of women at risk of familial breast cancer estimates that three to 5 per cent. of women have inherited faults that can lead to a high risk of developing breast cancer. Up to 27 per cent. of women may have an inherited predisposition to breast cancer.

Recent research has identified other genes, which are associated with a small increased risk of developing breast cancer. Further work is needed but these discoveries offer the possibility that we will be able to identify more women at increased risk.

Gordon Banks: To ask the Secretary of State for Health which NHS healthcare trusts offer double screening of mammograms and MRI mammograms to women at increased risk of breast cancer as a result of family history and genetic defect. [218253]

Ann Keen: This information is not held centrally.

Care Homes: Inspections

Mr. Amess: To ask the Secretary of State for Health what criteria are used by the Commission for Social Care Inspection to judge the performance of care homes; how many *(a)* care homes, *(b)* residential homes and *(c)* nursing homes in (i) Southend, (ii) Essex and (iii) England were ordered to close in each of the last five years; and for what reason in each case. [214039]

Mr. Ivan Lewis: We have been informed by the Commission for Social Care Inspection (CSCI) that it assesses the performance of care homes against the Care Homes Regulations 2001, taking account of the relevant national minimum standards (NMS). Inspectors also assess how care homes comply with other regulations, such as those relating to health and safety.

CSCI uses key lines of regulatory assessment (KLORA) to help in making judgments about each NMS outcome group. These guidance documents provide inspectors with examples of evidence that may be found in an excellent, good, adequate or poor service. The KLORA are a description of what the standards might look like in practice, not an additional set of standards that have to be met. They help to translate evidence into a judgement of either excellent, good, adequate or poor, to assist in assessing how well a care service is performing.

The following tables show the information held centrally with regard to the cancellation of registration of providers of care homes and care homes with nursing in Southend, Essex and England during the operational years from 2003-04 to 2007-08. The data cover both cancellation of registration under section 17 'normal' cancellations following the set Notice of Proposal procedure and section 20 'urgent applications to a Justice of the Peace', of the Care Standards Act 2000.

It should be noted that all care homes are residential. CSCI distinguishes between those that provide personal care only, nursing homes and non-medical nursing homes.

In Southend, three care homes underwent cancellation of registration during the period. These cancellations were due to continuous failure on the part of the providers in question to meet regulations and an unacceptable degree of risk to people living in the services.

In Essex, one care home underwent cancellation of registration during the period. The home, which was deregistered in 2004-05, provided a poor physical environment and had issues regarding staffing. This provider subsequently applied for a voluntary cancellation.

We have been informed by CSCI that to provide the reasons for all cancellations in England since 2003-04 would involve disproportionate cost.

Number of compulsory cancellations of registration issued (care homes in Essex and Southend on Sea)

Type of home	*Area*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*Total*
Care home—personal care only	Essex	0	1	0	0	0	1
Care home—personal care only	Southend on Sea	1	0	1	0	1	3
Total		1	1	1	0	1	4

Note:
Figures shown are non-urgent cancellations. There have been no urgent cancellation orders in either of these council areas during the period shown.

Note:
The figures shown include both urgent and non-urgent cancellations. Urgent cancellations are shown separately in the following table.
Source:
CSCI registration and inspection database. Data as at 27 June 2008.

Number of urgent cancellations of registration issued (care homes in England)

Type of home	2003-04	2004-05	2005-06	2006-07	2007-08	Total
Care home with nursing	0	0	1	0	0	1
Care home—personal care only	0	5	0	3	9	17
Totals	0	5	1	3	9	18

Source:
CSCI registration and inspection database. Data as at 27 June 2008.

Mr. Laurence Robertson: To ask the Secretary of State for Health (1) how often care homes are subject to inspection; and if he will make a statement; [218370]

(2) what the standard of care was in each care home inspected in each of the last three years for which details are available; and if he will make a statement. [218371]

Mr. Ivan Lewis: We have been informed by the Commission for Social Care Inspection (CSCI) that The Commission for Social Care Inspection (Fees and Frequency of Inspections) (Amendment) Regulations 2006 require CSCI to make arrangements to inspect care homes, domiciliary care agencies and adult placement schemes at least in every three-year period. The Regulations permit CSCI to take a proportionate approach to inspection, based on an assessment of the quality, risk and outcomes for the people who use services.

In order to make these assessments, CSCI carries out key inspections of all registered services. Key inspections, which are usually unannounced, are a thorough examination of how well a service is performing. Inspections take into account information provided by the owner or manager, the views and experiences of people living there, their relatives, staff and visiting professionals, as well as information CSCI finds when it visits the service. CSCI also considers any relevant information it has received about the service since the last inspection, for example, concerns that may have been raised.

CSCI uses all information collected to measure how far the experiences of people using a service meet their expectations in areas that are important to them. Inspecting in this way helps CSCI to put residents at the heart of how it judges the quality of services. From these judgments, CSCI awards quality ratings, which help it to plan how often the service should be inspected in future. The frequencies are:

a three star—excellent—service will receive at least one key inspection every three years;

a two star—good—service will receive at least one key inspection every two years;

a one star—adequate—service will receive at least one key inspection every year; and

a zero star—poor—service will receive two key inspections every year.

This does not mean that a service will not be inspected more often if necessary. CSCI also carries out shorter, targeted, random inspections. These are usually unannounced and can take place at any time of the day or night. CSCI may undertake a random inspection because it has received information that suggests people using the service might be at risk, or to check on improvements that should have been made.

During each year in which services rated excellent or good are not inspected, CSCI carries out an annual service review. During a review, CSCI analyses all the information received about the service during the last 12 months, including any complaints or notifications. It also surveys people using the service and other interested parties. If, as a result of the review, CSCI considers the quality of the service may have changed, it may decide to bring forward the next key inspection or to carry out a random inspection visit.

To provide information on the standard of care in every care home inspected in each of the last three years would incur disproportionate cost. CSCI inspects homes against the National Minimum Standards (NMS) for Care Homes for Older People or the NMS for Care Homes for Adults. The decision as to which set of NMS should be used is made by the inspector at the time of the inspection and is based on the current age profile of the residents of the home. The following tables show the percentages of homes meeting or exceeding the individual NMS during the last three years for which information is available.

Percentages of services meeting or exceeding individual NMS for care homes for older people 2004-05 to 2006-07

Children: Cannabis

Tim Loughton: To ask the Secretary of State for Health how much his Department has spent on research into the psychotic effect of skunk cannabis on children in the last 10 years. [217027]

Dawn Primarolo: The Department has not commissioned research from its centrally managed research and development programmes specifically related to the effects on children of cannabis.

Over the last 10 years, the main part of the Department's total expenditure on health research has been devolved to and managed by national health service organisations. Details of individual NHS supported research projects undertaken during that time are available on the archived national research register at:

https://portal.nihr.ac.uk/Pages/NRRArchiveSearch.aspx.

Commission for Social Care Inspection

Mr. Amess: To ask the Secretary of State for Health what the *(a)* title, *(b)* date of issue and *(c)* consultation period was of each document issued for consultation by the Commission for Social Care Inspection in each year since its creation; if he will place copies of each in the Library; how members of

the public may obtain copies; at what cost; and if he will make a statement. [214058]

Mr. Ivan Lewis: The information requested is shown in the following table.

Copies of the published consultations have been placed in the Library.

Members of the public can also obtain copies of all consultations free of charge by ordering from CSCI Details for how to order can be obtained from the CSCI website at:

www.csci.org.uk/about_us/publications/how_to_order_free_printed_pub.aspx

In addition, copies of all consultations can be downloaded from the CSCI website as follows.

Cord Blood

Dr. Evan Harris: To ask the Secretary of State for Health (1) what plans he has to change the arrangements for supply of cord blood units to the NHS; and if he will make a statement; [216941]

(2) whether he plans to extend the capacity of the NHS Cord Blood Bank; and if he will make a statement. [216940]

Dawn Primarolo: There are no plans to change the arrangements for the supply of cord blood units to the national health service. NHS Blood and Transplant business plans for the NHS Cord Blood Bank aim for

the number of banked units to rise from the present stock of over 11,000 to 20,000 by 2013.

Departmental Aviation

Mr. Maude: To ask the Secretary of State for Health how many individual domestic air flights were undertaken within Great Britain by representatives of *(a)* his Department and *(b)* its agencies in the most recent year for which figures are available; and at what cost. [215554]

Mr. Bradshaw: During April 2007 to March 2008 a total of 784 domestic air flights were undertaken by the Department and its agencies at a cost of £147,135.

Travel by Ministers and civil servants is undertaken in accordance with the "Ministerial Code" and the "Civil Service Management Code" respectively.

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Health how much his Department spent on *(a)* new capital investment and *(b)* refurbishment of property in each of the last 10 years, broken down by project. [212868]

Mr. Bradshaw: In each of the last 10 years the Department has had no expenditure on capital investment.

During the same period the Department's expenditure on refurbishment has been:

	£
1998-99	1,271,733
1999-2000	1,453,483
2000-01	652,456
2001-02	555,000
2002-03	788,000
2003-04	1,113,565
2004-05	963,974
2005-06	5,033,305
2006-07	3,520,407
2007-08	2,628,819

It is not possible to break this information down to individual projects over this period of time.

Departmental Furniture

Mr. Hoban: To ask the Secretary of State for Health how many *(a)* chairs, *(b)* desks and *(c)* other office furnishings have been purchased by his Department and its agencies in each of the last five years; and at what cost in each case. [211766]

Mr. Bradshaw: The cost of furniture and fittings purchased by the Department in the last five years is:

	£
2003-04	46,743
2004-05	149,097
2005-06	514,155
2006-07	1,074,555
2007-08	751,712

Note:
The figure for 2007-08 includes expenditure of the Medicines Healthcare products Regulatory Agency for whom no other records are available.

The Department does not currently keep a record of itemised purchases.

Departmental ICT

Mr. Hoban: To ask the Secretary of State for Health what IT contracts his Departments and its agencies have entered into in the last two years. [215158]

Mr. Bradshaw: Historically, information on information technology contracts let by the Department has not been held centrally. Due to the limitation of existing data, the information could be obtained only from direct contact with individual business units and would result in disproportionate costs.

Pete Wishart: To ask the Secretary of State for Health what the value of his Department's computer systems *(a)* was at the time of purchase and *(b)* is now. [214690]

Mr. Bradshaw: The cost of identifying the value of the components making up the Department's computer systems at the time of purchase and now, is not possible on the grounds of the disproportionate cost of collating the information.

The Department's accounts are compiled in line with the Financial Reporting Manual.

Departmental Inquiries

Mrs. May: To ask the Secretary of State for Health what independent inquiries have been commissioned by his Department in the last five years; what the *(a)* purpose and *(b)* cost was of each; and what steps were taken following each such inquiry. [212323]

Mr. Bradshaw: The Department commissioned an Independent Inquiry into Modernising Medical Careers in April 2007. The inquiry was asked to examine the framework and processes underlying Modernising Medical Careers and make recommendations to inform any improvements for 2008 and beyond. The inquiry published its final report in January 2008. The inquiry cost £560,000. The Department has accepted the majority of recommendations.

The Department commissioned an Independent Inquiry into Access to Healthcare for People with Learning Disabilities in May 2007. The inquiry is expected to report its findings shortly. As well as focusing on the action needed to ensure adults and children with learning disabilities receive appropriate treatment in acute medical (hospital) care and general primary care, the inquiry is aiming to learn lessons from the six cases highlighted by the Mencap report "Death by Indifference" which are being investigated by the Health Service Ombudsman. As the inquiry is still ongoing, final costs are not yet known.

Departmental Manpower

Stewart Hosie: To ask the Secretary of State for Health how many jobs his Department expects to relocate under the policy of civil service job dispersal. [213401]

Mr. Bradshaw: The Department's overall target for relocating posts out of London and the south-east is 1,030 posts by March 2010. This covers the Department, its agencies and arm's length bodies. Against this target, 870 posts have already been relocated.

Mr. Maude: To ask the Secretary of State for Health how many permanent staff in *(a)* his Department and *(b)* its agencies are classed as (i) staff without posts and (ii) part of a people action team. [215571]

Mr. Bradshaw: In total 22 permanent staff in the Department, and less than five staff in each of the Medicines and Healthcare products Regulatory Agency (MHRA) and the NHS Purchasing and Supply Agency (PASA) are classed as staff without posts. Precise numbers are not provided for MHRA and NHS PASA on the grounds of confidentiality. In all cases active steps are being taken to find permanent posts for these staff, including such measures as providing regularly updated information on permanent vacancies, giving them priority for vacancies over staff who already have permanent posts, and providing trial periods in new posts to assess suitability.

The Department does not have 'people action teams'.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for Health how much was claimed in reimbursable expenses by special advisers in his Department in each of the last 10 years. [215234]

Mr. Bradshaw: The current special advisers arrived on 27 June 2007, and have claimed no expenses since their arrival.

We have no record of expenses for the previous special advisers.

Procedures for reimbursing staff expenses are set out in the Department's staff handbook and are in line with the provisions set out in the Civil Service Management Code. Copies of the code are available in the Library and are also available on the civil service website at:

www.civilservice.gov.uk/iam/codes/csmc/index.asp

Departmental Retirement

Lynne Featherstone: To ask the Secretary of State for Health what the standard retirement age in his Department is; and how many people worked beyond the standard retirement age in each of the last five years. [214127]

Mr. Bradshaw: The Department's mandatory retirement age for all employees is 65.

The numbers of Civil Servants employed by the Department who were at least 65 in each of the last five years are given in the following table:

Civil Servants aged at least 65

	Number
31 March 2008	0
31 March 2007	0
31 March 2006	1
31 March 2005	0
31 March 2004	n/a

n/a = Not available.

The Department writes to all employees still working at the time of their 64th birthday, asking them to confirm their intended retirement date and informing them of their right to request to continue working beyond their 65th birthday.

Departmental Secondment

Pete Wishart: To ask the Secretary of State for Health what procedures his Department uses to ensure equal opportunities in relation to staff secondments to the Department. [214689]

Mr. Bradshaw: The Department acknowledges and works to the principle that appointments to the civil service should be made on merit, on the basis of fair and open competition. However, the Civil Service Recruitment Code allows some specific exemptions to this principle, one of which is to encourage secondments into the civil service to promote the exchange of ideas and experience. This is particularly important for the Department, which makes use of secondments as a means of employing managers and practitioners from the national health service to inform its development of policy and strategy.

The Department makes use of an extensive network of contacts across the NHS to secure secondments, and in all cases makes an assessment to ensure that those taken on are capable of effectively undertaking the duties of the job for which they are recruited.

In 2007-08, exceptions under the code were permitted for 37 secondments and 19 extensions of secondments.

Departmental Security

Mr. Maude: To ask the Secretary of State for Health how many departmental identity cards or departmental passes have been reported lost or stolen by staff in *(a)* his Department and *(b)* each of its executive agencies in the last 24 months. [215607]

Mr. Bradshaw: The number of departmental passes lost or stolen during the last 24 months is:

	Number
Lost	183
Stolen	22

Departmental Sick Leave

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many days sick leave were taken by staff in his Department *(a)* on average per full-time post, *(b)* on average per head and *(c)* in total in the most recent year for which figures are available. [214942]

Mr. Bradshaw: For the financial year 2007-08, staff in the Department took 5.3 average working days sick leave per full-time post, 4.6 average working days sick leave per head and 12,102 total working days sick leave.

Average working days sick leave per head is calculated using the total number of people who worked in the Department during the year, irrespective of how long they were employed.

Mr. Hayes: To ask the Secretary of State for Health how many days of sick leave were taken by his Department's employees in each year since 1997. [216694]

Mr. Bradshaw: Until 2006-07 the Cabinet Office published an annual Analysis of Sickness Absence in the Civil Service. Since then departments have been responsible for carrying out their own analysis. The annual average number of days of sick leave taken by the Department's employees in each year since 1997 are presented in the following table:

	Average number of days
2007-08	5.3
2006-07[1]	6.5
2005[1]	7.0
2004	3.8
2003	5.4
2002	4.7
200[1]	6.8
2000	5.8
1999	6.8
1998	n/a
1997	n/a

n/a = Not available
[1] Reporting periods changed from calendar years to financial years between 2005 and 2006.

Departmental Television

Mr. Maude: To ask the Secretary of State for Health to what premium Sky, digital terrestrial or cable television channels *(a)* his Department and *(b)* each of its agencies subscribes; and at what yearly cost in the most recent period for which figures are available. [215648]

Mr. Bradshaw: The Department's London administrative buildings are connected to the parliamentary 'annunciator' system provided by the Central Office of Information. All television feeds including the Parliamentary Channel are provided in this way.

The Department has no direct subscriptions with the television companies for these services apart from a Sky Plus subscription set up and paid for by the Department's Media Centre. This is at a cost of £2,171.40 per annum.

The Department's Medicines and Healthcare Regulatory Agency does not subscribe to any Sky, digital or cable channels.

Departmental Transport

Mrs. Villiers: To ask the Secretary of State for Health when each of his Department's and its agencies' green transport plans were introduced; and if he will place in the Library a copy of each such plan. [209240]

Mr. Bradshaw: The Department and its agencies have not published green transport plans, but have implemented a number of greener travel initiatives. The Department is developing a green travel policy in line with national policies and targets for sustainable operations on the Government estate. The Department's green travel policy will be a key component of its Sustainable Development Strategy, which is due to be published in the autumn.

Food

Mr. Paice: To ask the Secretary of State for Health how much was spent by his Department on *(a)* food and *(b)* food of British origin in each of the last five years. [214913]

Mr. Bradshaw: The Department has expended the following sums on food in the last five years:

	Spent on food (£)
2003-04	546,926
2004-05	540,599
2005-06	559,924
2006-07	546,122
2007-08	581,353

It is not possible to provide information on how much of this spend was on food of British origin.

Mr. Paice: To ask the Secretary of State for Health from which five countries of origin the greatest amount of food was procured by his Department in the last year for which figures are available; and what the *(a)* cost and *(b)* quantity procured was in each case. [214914]

Mr. Bradshaw: The five countries of origin in order of highest procurement of food are:

Britain—for all seasonal produce;
France—fruit juice, soft and orchard fruits, legumes;
Holland—chipped potatoes;
Ireland—cheese; and
Spain—protected and other vegetables, soft fruits.

It has not been possible to obtain details of cost and quantity from the Department's catering contractor.

General Practitioners: Chorley

Mr. Hoyle: To ask the Secretary of State for Health what discussions his Department has held on the establishment of a polyclinic in Chorley. [214792]

Mr. Bradshaw: The Government do not have a polyclinic policy. Primary care trusts (PCTs) have been asked to provide at least one general practitioner (GP)-led health centre in their areas that will be open from 8 am to 8 pm, 365 days a year and that can be used by anyone either with an appointment or on a walk-in basis.

It is for PCTs to set out their proposals for these new GP-led health centres following consultation with patients, GPs and others, which focus on local needs and preferences.

The North West strategic health authority (SHA) reports that Central Lancashire PCT plans to introduce three primary care access centres, which will include GP access services, urgent primary care (minor injuries and ailments) and dentistry. One of these centres will be located in Chorley.

A procurement process, open to all providers including existing local GPs, is in its early stages for the primary care access centres. The providers will be chosen at the end of 2008 with the centres opening in 2009.

General Practitioners: Greater London

Ms Buck: To ask the Secretary of State for Health how many *(a)* GPs, *(b)* GPs working in single-handed practices and *(c)* GPs working in practices of two there were in each London primary care trust in 2006-07. [216479]

Mr. Bradshaw: The following table shows the number of general practitioners (GPs), GPs working in single-handed practices and GPs working in practices of two practitioners in each London primary care trust (PCT) at 30 September 2006 and at 30 September 2007.

GPs (headcount, excluding retainers and registrars) by PCT within the London Strategic Health Authority, at 30 September

	2006			2007		
	All GPs	*Single-handed GPs*	*GPs working within a practice of two practitioners*	*All GPs*	*Single-handed GPs*	*GPs working within a practice of two practitioners*

Health Centres

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 19 May 2008, *Official Report*, column 119W, on health centres, on what dates officials in his Department attended programme-based meetings within strategic health authorities' remit; and if he will place in the Library copies of the *(a)* agenda and *(b)* minutes of such meetings. [209187]

Mr. Bradshaw: Departmental officials have not attended any such meetings.

Polyclinics: Greater London

Harry Cohen: To ask the Secretary of State for Health what the estimated cost is of the polyclinics which are to be set up in London. [215676]

Mr. Bradshaw: The organisation of health services is a matter for the national health service at local level. My hon. Friend may therefore wish to direct his question to the relevant primary care trusts or London strategic health authority.

Health Centres: Rural Areas

Mr. Paice: To ask the Secretary of State for Health what assessment his Department has made of the effect that GP-led health centres will have on levels of access to primary healthcare in rural areas. [215029]

Mr. Bradshaw: The new general practitioner (GP)-led health centres will provide the public with access to primary care services from 8 am to 8 pm seven days a week. Patients can either book an appointment or use the centres on a walk-in basis, and can do so while remaining registered with their existing GP practice.

Analysis of NHS Choices data of practices currently delivering extended opening hours, shows that where a practice's closest neighbour is not currently open on evenings or weekends, there is only a one in five chance of a practice delivering extended opening. However, where the immediately neighbouring practice is delivering extended opening to their patients, a practice is twice as likely to also provide extended opening. Therefore, by securing a new GP-led health centre and new GP practices in poorly served areas, other patients will also directly benefit from extended opening and better access for patients from their own practice.

Mr. Paice: To ask the Secretary of State for Health what guidance his Department has issued to primary care trusts on access criteria for GP-led health centres in rural areas. [215030]

Mr. Bradshaw: PCTs have been asked to follow a small number of core criteria for the general practitioner (GP)-led health centres, including that the centres should be situated in an easily accessible location, that they can be used by any member of the public, whether registered with the health centres or not by either a bookable appointment or on a walk-in basis, and that they are open from 8 am-8 pm, 365 days a year. It is, ultimately, for PCTs to identify the best location for these new services following consultation with patients, GPs and others to reflect local needs and preferences.

Health Services: Greater London

Ms Buck: To ask the Secretary of State for Health how many patients were waiting for treatment in each London primary care trust in *(a)* 2003 and *(b)* 2007. [216478]

Mr. Bradshaw: The information requested is contained in the following table.

In-patient hospital waiting list statistics for London primary care trust (PCT) areas—commissioner based (all specialties)

	Total waiting list	
Name	*Period ending December 2003*	*Period ending December 2007*
Barking and Dagenham PCT	3,863	2,192

Note:
Bexley PCT was renamed Bexley Care Trust in 2004.
Source:
Department of Health QFO1 and Monthly Monitoring

Health Services: North East

Jim Cousins: To ask the Secretary of State for Health what quality incentive payments have been made in respect of each practice in the *(a)* Newcastle upon Tyne Primary Care Trust, *(b)* North Tyneside Primary Care Trust and *(c)* Northumberland Primary Care Trust areas. [216742]

Mr. Bradshaw: The information is not collected centrally.

Health Services: Public Participation

Mr. Stephen O'Brien: To ask the Secretary of State for Health if he will place in the Library a copy of *(a)* each response to the consultation on the Health Care and Associated Professions (Miscellaneous Amendments) No. 2 Order 2008 and *(b)* the Government's collated response to the consultation. [214867]

Mr. Bradshaw: The report on the consultation will be laid in Parliament at the same time as the Health Care

and Associated Professions (Miscellaneous Amendments) No. 2 Order 2008. The report will include information on individual responses, including how copies can be obtained.

Health Services: Staffordshire

Mr. Jenkins: To ask the Secretary of State for Health how many of the Core Standards for Better Health were met by hospitals in the South Staffordshire NHS Primary Care Trust area in the most recent period for which information is available; and which of the standards the hospitals did not meet in that period. [215845]

Mr. Bradshaw: Each national health service trust and NHS foundation trust is required to publish a self-declaration of compliance against the twenty-four core standards set out in the Department of Health's "Standards for Better Health". This document, as amended on 3 April 2006, has been placed in the Library and is also available on the Department's website at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_4086665

These declarations are on each trust's website and the Healthcare Commission published the national position on 16 June 2008.

Health Services: Wirral

Stephen Hesford: To ask the Secretary of State for Health what steps are being taken to reduce health inequalities between the two Wirral primary care trust populations. [216493]

Dawn Primarolo: This information is not held centrally.

The Department has put in place a number of measures to tackle health inequalities. On 9 June 2008, my right hon. Friend the Secretary of State launched the document Health Inequalities: Progress and Next Steps (copies of which have already been placed in the Library). The document highlights successes in reducing inequalities and identifies how effort will be increased to meet the health inequalities 2010 National Public Service Agreement target for life expectancy and infant mortality. The document also sets the direction of travel for tackling health inequalities. It commits the Government to work together to develop the structures, systems and actions to sustain long-term delivery on health inequalities.

The document also publicised an improved health inequalities intervention tool, jointly owned by the Department and the Association of Public Health Observatories. The tool is an interactive website to help local health services and councils improve life expectancy in local areas.

The Department has also established national support teams for health inequalities and for tobacco control to disseminate best practice across all spearhead areas, including the Wirral area, and areas with high infant mortality rates, and to provide intensive support for those areas that need it.

HIV Infection: Children

Mark Pritchard: To ask the Secretary of State for Health how many children in England are receiving NHS treatment for HIV/AIDS. [215797]

Dawn Primarolo: The number of children (aged under 18 years) who were resident in England and who received HIV-related treatment or care in England in 2006 are shown in the following table.

Number of children (aged under 18 years) who were resident in England and who received HIV-related treatment or care in England in 2006[1]

Age	*HIV-infected*	*Indeterminate HIV status or subsequently shown not to be infected with HIV*
Under 12 months	25	1,002
1-15	933	0
16-17	137	0
Total	1,095	[2]1,002

[1] Numbers exclude 13 children cared for/treated in England whose country of residence was not known.

[2] In total 659 (66 per cent.) of these infants had been shown to be uninfected by the time that data were collected. Almost all of the remaining 343 infants would be expected to be shown to be uninfected by 18 months after being born.

Sources:

1. Health Protection Agency annual survey of HIV-infected persons accessing care
2. Institute of Child Health National Study of HIV in Pregnancy and Childhood

Human Papilloma Virus: Vaccination

Jenny Willott: To ask the Secretary of State for Health which drugs, manufactured by which companies, his Department is considering for use in the programme to vaccinate girls against cervical cancer. [216563]

Dawn Primarolo: Cervarix will be the vaccine used for the human papilloma virus vaccination programme and is manufactured by GlaxoSmithKline.

Mrs. May: To ask the Secretary of State for Health what discussions he had with his counterparts in other EU member states on the effectiveness of a human papilloma virus (HPV) vaccination programme based on a quadrivalent vaccine before deciding which vaccine to procure for the Government's HPV vaccination programme. [218185]

Dawn Primarolo: My right hon. Friend the Secretary of State has had no discussions with his counterparts in other European Union member states on the effectiveness of a human papilloma virus vaccination programme based on a quadrivalent vaccine.

Mrs. May: To ask the Secretary of State for Health what account was taken of the effect of potential vaccines on the prevention of vulval and vaginal cancers in the decision to procure a two-type vaccine for the human papilloma virus (HPV) vaccination programme; what steps the Government plan to take to prevent vulval and vaginal cancers; and what contribution the HPV vaccination programme is intended to make to the Government's overall programme on sexual health. [218186]

Dawn Primarolo: Due account was taken of the potential preventative benefit of human papilloma virus (HPV) vaccine against vulval and vaginal cancers. The natural history of vaginal and vulval cancers is not completely understood. Although HPV infection is a risk factor for

the development of vaginal or vulval lesions, unlike cervical cancer, only approximately 50 per cent. are associated with HPV infection. The evidence for a causal association and the percentage attributable to HPV infection, is greater for HPV types 16 and 18 than for other HPV types. Further studies are being conducted on the extent to which the HPV vaccine may protect against vulval and vaginal cancers caused by HPV type 16 and 18.

The HPV vaccination programme has always been about cervical cancer protection and is not part of the Government's programme on sexual health.

Mrs. May: To ask the Secretary of State for Health (1) for what reasons he decided to procure a two-type vaccine for the human papilloma virus vaccination programme in schools; [218187]

(2) for what reasons he decided not to procure a quadrivalent vaccine for the human papilloma virus vaccination programme in schools; [218188]

(3) what account was taken in procuring a vaccine for the human papilloma virus vaccination programme of the effectiveness of such vaccines in providing protection against genital warts; and what steps the Government plan to take to reduce the incidence of genital warts. [218189]

Dawn Primarolo: The aim of the human papilloma virus (HPV) vaccine programme is to prevent cervical cancer in women and the best way to do this is to vaccinate girls/young women.

Routine HPV vaccine will be introduced for girls aged 12 to 13 years from September this year. A catch-up programme will start from September 2009 and will run for two years. Girls aged 16 to 18 years will be immunised in 2009-10 and girls aged 15 to 17 years in 2010-11.

I refer the right hon. Member to the reply I gave to the hon. Member for Boston and Skegness (Mark Simmonds) and my hon. Friend the Member for Norwich, North (Dr. Gibson) on 2 July 2008, *Official Report*, column 943W.

Influenza

Mr. Lansley: To ask the Secretary of State for Health (1) what steps he is taking to ensure robust data collection systems are in place during an influenza pandemic to capture data on *(a)* attack rate, *(b)* disease pattern and severity and *(c)* mortality as referred to on page 8 of his Department's Scientific Pandemic Influenza Advisory Committee's Subgroup on Modelling's modelling summary, dated February 2008; and if he will make a statement; [216909]

(2) what steps he is taking to develop a flexible system to enable influenza antiviral treatment to be targeted dynamically, as referred to on page 8 of his Department's Scientific Pandemic Influenza Advisory Committee's Subgroup on Modelling's modelling summary, dated February 2008; what size of stockpile would make implementation of household prophylaxis practical; and if he will make a statement; [216910]

(3) when his Department plans to have stockpiled influenza antivirals sufficient for 50 to 60 per cent. of the population, as referred to in paragraph 2.4.2(d) of his Department's Scientific Pandemic Influenza Advisory Committee's Subgroup on Modelling's modelling summary, dated February 2008; [216911]

(4) what estimate he has made of the proportion of individuals infected with a pandemic strain of influenza who would go on to become clinical cases over the course of a pandemic; and if he will make a statement. [216912]

Dawn Primarolo: Wherever possible surveillance and information gathering during a pandemic will be based on existing data collection mechanisms. The attack rate will be estimated by modellers, principally those at the Health Protection Agency, through clinical data emerging from the United Kingdom and other affected countries. Disease pattern and severity will also be based on this information and that from national seasonal influenza surveillance systems, coordinated through the Health Protection Agency and mortality will be monitored through death registration data from the Office for National Statistics. There are data already monitored routinely as part of national seasonal influenza surveillance.

Work is under way to ensure that information obtained from all these sources will be robust during a pandemic and appropriate to the needs of modellers and others who will use them.

The proportion of individuals infected with a pandemic strain of influenza who would go on to become clinical cases over the course of a pandemic is estimated to be between 50 per cent. and 66 per cent. Evidence from seasonal influenza and the 1957 pandemic suggest that of these between 50 per cent. and 67 per cent. will show clinical symptoms. This is consistent with a worst case clinical attack rate of around 50 per cent.

The increase in the antiviral stockpile from 25 per cent. to 50 per cent. will ensure treatment is available for all symptomatic patients under the maximum clinical attack rate assumption of 50 per cent. There is thus much less chance that the dynamic targeting referred to will be needed. Flexibility in antiviral distribution via the Flu Line will be achieved by adjusting the clinical algorithm based on the clinical information obtained as the pandemic unfolds, as well as stock management and policy decisions. Plans for separate distribution channels are being developed to assist the hard to reach groups and others for whom the Flu Line will not be suited.

As stated in the "National Framework for responding to an influenza pandemic", it is possible to use antiviral medicines as a preventative measure (prophylaxis), copies of this publication have already been placed in the Library. The adoption of a policy of household prophylaxis is still being considered by the Department.

The Department hopes that the antiviral stockpile will be procured during the latter part of 2008 and early 2009.

Injuries: Offensive Weapons

Andrew Rosindell: To ask the Secretary of State for Health how many people were treated for *(a)* gunshot and *(b)* knife wounds at hospitals in each London borough in each of the last five years. [214197]

Mr. Bradshaw: Information is not collected in the format requested.

Information is available on patients admitted to hospital for gunshot wounds and knife wounds. These figures do not include patients who were treated in accident and emergency departments for gunshot wounds and knife wounds and not admitted.

Tables have been placed in the Library which show a count of finished admission episodes for both gunshot and knife related injuries. Information is provided at primary care trust (PCT) level of residence for knife injuries which is the closest geographical breakdown to a London borough. Information is provided at strategic health authority level for gunshot wounds due to the relatively low numbers for individual PCTs.

Lasers

Mike Penning: To ask the Secretary of State for Health what *(a)* research he has undertaken and *(b)* evidence he has used to compile the draft partial impact assessment of deregulating Class 3B and 4 lasers and intense light sources in the consultation paper Private and Voluntary Healthcare: Care Standards Act 2000. Regulations and National Minimum Standards. [216357]

Mr. Bradshaw: The partial impact assessment (IA) provided a number of arguments and figures in support of our consultation proposals. Some of the arguments and figures were based on working assumptions and these were made clear in the document; other figures were based on evidence and research and these were fully referenced in the IA. It was expected that the consultation would test the working assumptions and would bring to light further research and evidence, which could be fully taken into account when drawing up the final IA.

Leicester Primary Care Trust: Finance

Keith Vaz: To ask the Secretary of State for Health what representations he has received on the reconfiguration budget of Leicester primary care trust. [213836]

Mr. Ivan Lewis: None. This is purely a matter for local determination.

Medical Treatments Abroad

Sandra Gidley: To ask the Secretary of State for Health when he expects NHS patients living outside a pilot area to be able to travel abroad for operations. [216545]

Mr. Bradshaw: The London Patient choice pilot between 2003 and 2005 included a bilateral arrangement with Belgium for patients who had waited more than six months to access treatment in Belgian hospitals. The scheme was terminated on 31 March 2005 because of low take up and increased availability of capacity within the national health service. There is therefore no possibility of extending this scheme. However, it is open to local commissioners to put in place whatever arrangements they want to make.

There are also routes in European Union law for NHS patients who wish to receive planned health care abroad, namely long-standing social security arrangements under EC Regulation 1408/71. In addition, European Court of Justice case law has established the right for patients to go to EU member states for treatment, subject to certain circumstances. On 2 July 2008 the European Commission adopted a draft directive on the application of patient rights in cross-border health care. This directive will be subject to negotiations, but aims to clarify the application of the case law on overseas treatment.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Health when he plans to reply to the letter from the hon. Member for West Worcestershire, dated 3 June 2008, on Government proposals for changes to GP surgeries. [218515]

Mr. Bradshaw: A reply was issued to the hon. Member on 4 July 2008.

NHS

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 25 February 2008, *Official Report*, column 1211W, on the NHS, which *(a)* hospitals and *(b)* other organisations were visited; and what the (i) purpose and (ii) duration was of each visit. [195372]

Mr. Bradshaw: The information has been placed in the Library.

NHS: Coroners

Mr. Baron: To ask the Secretary of State for Health for what reasons the national health service has legal representation at all inquests involving deaths in hospital. [218194]

Ann Keen: National health service trusts and foundation trusts running hospitals are themselves legal entities distinct from the Department. As such, they are responsible for deciding if and when to take legal advice or seek legal representation, including at any inquest into a death in hospital.

NHS: Drugs

Jenny Willott: To ask the Secretary of State for Health (1) what contracts there are for the supply of drugs by Merck, Sharp and Dohme Limited for use under the NHS; what drugs and how much of each type of drug are supplied under each contract; and if he will make a statement; [216550]

(2) how much has been spent on the procurement of drugs manufactured by Merck, Sharp and Dohme Ltd. for use in the NHS in each of the last 10 years, broken down by *(a)* drugs and *(b)* doses procured; [216562]

(3) what steps his Department is taking to secure a supply of drugs manufactured by Merck, Sharp and Dohme over the next five years; what recent discussions his Department has had with the company on contracts for the supply of drugs for use in the NHS in that period; and if he will make a statement. [216967]

Mr. Bradshaw: NHS Purchasing and Supply Agency (NHS PASA) contracts for the supply of licensed prescription medicines to the national health service (secondary care) in England.

At present NHS PASA is in no dialogue with Merck, Sharp and Dohme that is specific to this supplier. Any dialogue with Merck, Sharp and Dohme is consistent with NHS PASA dialogue with all other suppliers as part of its sourcing programme and in line with its operating procedures that reflect European Union guidance.

The actual figures of the quantities and values of products purchased from Merck, Sharp and Dohme in the NHS is not collected centrally.

The NHS PASA currently have framework agreements in place for the following products:

Alendronic acid tablets 5 milligrams (mg);

Dorzolamide (as hydrochloride) 2% Timolol 0.5% eye drops 5 millilitres (ml);

Dorzolamide (as hydrochloride) eye drops 2% 5ml;

Imipenem + Cilastatin injection 500mg 120ml;

Imipenem + Cilastatin injection 500mg 120ml Monovial;

Imipenem 500mg/Cilastatin 500mg intramuscular injection 15ml vial;

Imipenem 500mg/Cilastatin 500mg powder. 120ml.vial;

Imipenem 500mg/Cilastatin 500mg powder. 20ml vial;

Imipenem 500mg/Cilastin 500mg powder for suspension vial;

Imipenem 500mg/Cilastin 500mg powder for solution monovial;

Imipenem 500mg/Cilastin 500mg powder for solution vial;

Imipenem/Cilastatin intramuscular injection vial 500mg 15ml;

Imipenem/Cilastatin intravenous injection vial 500mg 120ml;

Imipenem/Cilastatin monovial injection vial 500mg 20ml;

Timolol eye drops long acting 0.5% 5ml;

Timolol eye drops long acting 0.25% 2.5ml;

Timolol eye drops long acting 0.5% 2.5ml;

Timolol eye drops long acting 0.25% 2.5ml;

Timolol eye drops long acting 0.5% 2.5ml;

Timolol eye drops long acting 0.5%/2.5m;

Timolol eye drops 0.25% 0.25ml;

Timolol eye drops 0.5% 0.25ml; and

Tirofiban hydrochloride solution for injection bag 12.5mg/250ml.

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the *(a)* initial budget and *(b)* outturn for both (i) revenue and (ii) capital were for the National Programme for IT in the 2007-08 financial year. [215045]

Mr. Bradshaw: The Department's NHS Connecting for Health Agency is responsible both for ensuring delivery of the information technology (IT) systems under the National Programme for IT (NPfIT), and for maintaining the critical business systems previously provided to the national health service by the former NHS Information Authority.

NHS Connecting for Health does not prepare annual whole-programme budgets for NPfIT activity separate from the business of the Agency as a whole because this would involve the unnecessary apportionment of common management, administrative and support costs. For the same reason, separate outturn figures are not routinely reported for management information purposes.

Information covering all the Agency's responsibilities is shown in the following table. These figures are subject to audit and may therefore continue to be subject to minor adjustment.

2007-08	*Initial Budget*	*£ million Outturn*
Revenue	607	507
Capital	915	686

These figures include amounts allocated in year to NHS organisations.

NHS: Land

Mr. Pickles: To ask the Secretary of State for Health (1) what assessment he has made of the effect of the downturn in the property market on the financial position of NHS trusts which have factored in profits from the sale of surplus land into their budgets; [217791]

(2) what requirements NHS trusts have to notify his Department of surplus land sales; and what consent regimes exist to authorise the disposal of surplus land; [217792]

(3) what guidance his Department has provided to NHS trusts on the disposal of surplus land. [217793]

Mr. Bradshaw: National health service trusts develop and manage their own capital financing plans, to which the proceeds from property disposals may make a contribution. Such transactions are subject to the conditions of the property market at that time. In general, a more significant contribution is made from the cash they receive in their income for the depreciation charge in their accounts, through loans from the Department and, under certain circumstances, allocations of public dividend capital. It is for NHS trusts to manage any changes in value of proceeds from asset disposals as part of their capital and overall financial planning

The Department operates a system of delegated limits for capital investment and for property transactions for NHS trusts, primary care trusts and strategic health authorities. A copy of the Delegated Limits for Capital Investment guidance has been placed in the Library.

Guidance to NHS organisations on all land and property transactions, including the disposal of surplus land or buildings, is given in the Department's publication, Health Building Note 00-08: "Estatecode", copies of which have been placed in the Library.

Under this guidance, where property has been identified as surplus to a particular NHS organisation, it should be offered to other local trusts to determine whether the asset could be re-used by them for the provision of healthcare services, Government Departments and the local authority. This policy accords with the Government's requirement to make better use of surplus public sector land.

NHS foundation trusts are authorised and regulated by Monitor, the independent regulator, which provides guidance to these trusts on property transactions.

NHS: Procurement

Mr. Lansley: To ask the Secretary of State for Health in which areas primary care trust commissioning is immature, as referred to on page 10 of his Department's document, Developing the NHS Performance Regime, published on 4 June 2008. [216907]

Mr. Bradshaw: Commissioning for local health services in England is the core responsibility of primary care trusts (PCTs). It is a complex process with responsibilities ranging from assessing population needs and prioritising health outcomes to procuring products and services, and managing service providers. As such, commissioners are required to possess a wide range of skills, including robust analysis, effective stakeholder engagement and communication, financial management, strategic planning and performance management skills. The joint Department of Health and Prime Minister's Delivery Unit review of commissioning capabilities in May 2007 suggested that some PCTs perform better in some areas than others. However, there is not yet any comprehensive evidence about commissioning strengths and weaknesses nationally.

In June this year, a national commissioning assurance system was launched to hold commissioners to account through assessing their performance and rewarding development. PCTs will be assessed against commissioning skill sets, or competencies, organisational governance and health outcomes. By publishing and assessing against the competencies that make commissioning for health services world class, a clearer national picture will emerge. PCTs will also be better able to understand where their commissioning strengths and weaknesses lie and will be incentivised to access support and development resources in order to improve.

NHS: Public Appointments

Mr. Oaten: To ask the Secretary of State for Health when he expects to make a full-time appointment to the post of head of the NHS Commercial Directorate. [R] [216901]

Mr. Bradshaw *[holding answer 7 July 2008]:* The Director General of the Commercial Directorate is in post until 15 July 2008. The Department remains committed to having strong commercial expertise and presence in its leadership team and decisions will be taken in due course on appropriate leadership arrangements. In the interim, Director General level leadership for the directorate will be provided by the Director General for Commissioning and System Management.

NHS: Telephone Services

Mike Penning: To ask the Secretary of State for Health pursuant to the Answer of 16 June 2008, *Official Report*, column 766W, on NHS: telephone service, what the reasons are for the disparity between calls to NHS Direct *(a)* made and *(b)* forecast in (i) 2006-07 and (ii) 2007-08. [216083]

Mr. Bradshaw: The reasons for the differences between the number of calls forecast and number of calls made in 2006-07 and 2007-08 are as follows:

There have been significant increases in web usage across the two years with some patients choosing to access NHS Direct's services through the internet rather than via the telephone;

in 2006-07 web visits increased by 52 per cent. (approximately 7 million additional visits per annum); and

in 2007-08 web visits increased by 49 per cent. (approximately 10 million additional visits per annum).

significant improvements in performance during 2007-08 have helped reduce the number of repeat callers and therefore the number of calls; and

NHS Direct include in their forecast calls to 0845 46 47 and other calls to services provided to national and local commissioners. This includes calls to the appointments line (formerly choose and book appointments line). In 2006-07 the Department overestimated calls to the appointments line when there were 520,000 calls less than the 2 million forecast.

Regulatory Impact Assessments

Mr. Amess: To ask the Secretary of State for Health what criteria are used by his Department to determine whether a regulatory impact assessment should be undertaken on primary legislation; and if he will make a statement. [216402]

Mr. Bradshaw: Regulatory impact assessments no longer exist as they have been superseded by impact assessments. The Department follows the criteria contained in guidance provided by the Department for Business, Enterprise and Regulatory Reform (BERR). Impact assessments are required:

for all forms of intervention (including primary or secondary legislation as well as codes of practice or guidance) where the department or regulator considers that the effect will be to increase or decrease costs for business, the public sector, third sector organisations, regulators or consumers;

when proposals would not yield an overall net change in costs and benefits but some kind of redistribution, or when there is a change in administrative costs; and

when seeking collective agreement for United Kingdom negotiating positions on European Union proposals, and also when submitting bids for primary legislation to the Legislative Programme Cabinet Committee.

However, a proportionate approach should be used. If the cost of a proposal is below £5 million only a developmental/option stage impact assessment is necessary.

Further information is available on BERR website at:

www.berr.gov.uk/bre/policy/scrutinising-new-regulations/preparing-impact-assessments/page44077.html

Smoking: Young People

David Taylor: To ask the Secretary of State for Health what assessment he has made of the effects of *(a)* tobacco advertising and promotion and *(b)* displays of tobacco at the point of sale on young people's smoking behaviour; and what research has been conducted into each of these areas. [218367]

Dawn Primarolo: The Government's recently published 'A consultation on the Future of Tobacco Control' includes an overview of research on tobacco marketing and promotion and young people, and asks several questions of stakeholders in this area.

Copies of the consultation have already been placed in the Library.

David Taylor: To ask the Secretary of State for Health what research his Department has undertaken or evaluated on how under 18 year-olds obtain tobacco products. [218368]

Dawn Primarolo: Protecting young people from smoking is a priority for the Government, and is one of the key areas of the Department's current consultation on the future of tobacco control, 'A consultation on the Future of Tobacco Control'. Copies of the consultation have already been placed in the Library. The age of sale for tobacco was raised to 18 years on 1 October 2007. Tougher sanctions against retailers who persistently flout the tobacco age of sale law will be introduced in April 2009.

Latest information about the sources of tobacco for children who regularly smoke is published by The Information Centre for health and social care in 'Smoking, Drinking and Drug Use Amongst Young People in England 2006'. Copies of this information have already been placed in the Library.

Social Care Journal

Mr. Stephen O'Brien: To ask the Secretary of State for Health what discussions he has had with publishers on the implementation of the recommendation of the Platt Review on the establishment of a social care journal. [213330]

Mr. Ivan Lewis: The Department has commissioned the Social Care Institute for Excellence (SCIE) to take forward this project on its behalf. In the first phase of work, the SCIE commissioned strategic consultancy from the Central Office of Information to develop options for a new journal. A report on the outcome of this work was submitted to the Department in March 2008.

The second phase will be a formal process of engagement/tendering, between January and March 2009, to identify an appropriate commercial partner.

Southern Cross Healthcare: Care Homes

John McDonnell: To ask the Secretary of State for Health (1) if he will take steps to investigate the reports by Southern Cross Healthcare that it is experiencing higher than normal attrition rates in its residential care homes; [216807]

(2) what contingency planning the Government have undertaken to ensure the continuance of care for the elderly in the event of Southern Cross Healthcare being unable to continue in operation as a result of its financial difficulties. [216808]

Mr. Ivan Lewis: We have been informed by the Commission for Social Care Inspection (CSCI) that it monitors care homes individually and would take action on any such information received. Regulation 37 Notification of deaths, illness and other events, of the Care Homes Regulations 2001 requires homes to notify CSCI "without delay of the occurrence of *(a)* the death of any service user, including the circumstances of his death".

There have been no concerns raised with local CSCI offices or inspectors in respect of this issue regarding Southern Cross care homes.

Local authorities are responsible for managing and directing their resources in accordance with local priorities and the needs of the communities to which they are accountable. This will include ensuring continuity of care to residents for whose care they are responsible.

St Mary's Hospital NHS Trust: Waiting Lists

Ms Buck: To ask the Secretary of State for Health what the median waiting time in weeks was at St. Mary's NHS Trust for *(a)* ordinary admissions, *(b)* first out-patient attendance from GP referral and *(c)* day case admission in each year since 2007. [216474]

Mr. Bradshaw: Information is not held in the format requested. Data are no longer collected separately for ordinary and day case admissions but are combined for patients waiting for admission to hospital. In addition, St. Mary's NHS Trust merged with Hammersmith Hospitals NHS Trust on 30 September 2007 to form Imperial College Healthcare NHS Trust.

The following table shows the median waiting times for inpatient admission and first outpatient attendance at St. Mary's NHS Trust and Hammersmith Hospitals NHS Trust at 31 March 2007 and at Imperial College Healthcare NHS Trust at 31 March 2008 and 31 May 2008. This is the latest information that is available.

Median waiting time for inpatient admission and first outpatient attendance (weeks)

	Organisation	*Inpatient*	*Outpatient*
Period ending 31 March 2007	St. Mary's NHS Trust	5.3	3.3
	Hammersmith Hospitals NHS Trust	5.9	3.4
	Trusts Combined	5.6	3.4
Period ending 31 March 2008	Imperial College Healthcare NHS Trust	3.9	2.5
Period ending May 2008	Imperial College Healthcare NHS Trust	3.1	2.2

Notes:
1. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are only estimates of the position on average waits. This should be taken into account when interpreting the data.
2. The inpatient figures show the median waiting times for patients still waiting for admission at the end of the period stated. Inpatient waiting times are measured from decision to admit by the consultant to admission to hospital.
3. The outpatient figures show the median waiting times for patients still waiting for a first outpatient appointment following a general practitioner (GP) referral at the end of the period stated. Outpatient waiting times are measured from a GP referral to a first outpatient appointment with the consultant.

Monthly Monitoring Return—provider based.

Vaccination

Ian Stewart: To ask the Secretary of State for Health which manufacturers have supplied vaccines to the NHS; over what period of time each vaccine was supplied; and if he will make a statement. [216715]

Dawn Primarolo: The information requested is shown in the following table.

Vaccine	*Manufacturer/brand name*	*Start*	*Finish*
Acellular Pertussis Vaccine (APV)	Lederle—APV	May 1994	August 2000
Anthrax	The Health Protection Agency—Anthrax	September 2004	Ongoing
Bacilllus Calmette Guerin (BCG)	Evans vaccine—BCG (Intradermal)	1986	August 2002
BCG	Evans vaccine—BCG (Percutaneous)	1992	June 2005
BCG	Statens Serum Institut—BCG (Intradermal)	December 2002	Ongoing
Diphtheria and Tetanus (DT)	Aventis Pasteur MSD—different dosages—DT	1992	July 2003
DT	Chiron Vaccines—DT	April 2000	January 2004
DT	Medeva—DT	1992	March 1999
Diphtheria (D)	Medeva—Diphtheria	April 1993	June 2000
Diphtheria, Tetanus and Acellular Pertussis (DTaP)	GlaxoSmithKline—Infanrix	October 2001	October 2004
Diphtheria, Tetanus and Wholecell Pertussis (DTwP)	Aventis Pasteur MSD—DTP	1994	June 2000
DTwP	Chiron Behring—DTP	1998	January 2003
DTwP	Medeva—Trviax AD	1992	November 1998
Diphtheria, Tetanus, Acellular Pertussis and Inactivated Polio (DTaP/IPV)	Aventis Pasteur MSD—Tetravax	April 2001	July 2001
DTaP/IPV	GlaxoSmithKline—Infanrix IPV	February 2005	Ongoing
DTaP/IPV	Sanofi Pasteur MSD—Repevax	August 2004	Ongoing
Diphtheria, Tetanus, Acellular Pertussis and Inactivated Polio with Haemophilus influenzae type b (DTaP/IPV+Hib)	GlaxoSmithKline—Infanrix/IPV+Hib	March 2006	Ongoing
DTaP/IPV+Hib	Sanofi Pasteur MSD—Pediacel	August 2004	Ongoing
Haemophilus influenzae type b (Hib)	Aventis Pasteur MSD—ACT Hib	1992	April 2002
Hib	GlaxoSmithKline—Hiberix	June 2001	July 2006
Hib	Lederle—HibTITER	1992	2001
Haemophilus influenzae type b/Meningococcal Group C Conjugate (Hib/Men C)	GlaxoSmithKline—Menitorix	July 2007	Ongoing
Haemophilus influenzae type b with Diphtheria, Tetanus and Acellular Pertussis (DTaP/Hib)	GlaxoSmithKline—Infanrix Hib	December 1999	February 2003
Haemophilus influenzae type b with Diphtheria, Tetanus and Wholecell Pertussis (DTwP/Hib)	Aventis Pasteur MSD—ACTHib DTP	April 1996	September 2004
DTwP/Hib	SmithKlineBeecham—Trivax/Hib	May 1997	October 1999
Inactivated Polio (IPV)	Aventis Pasteur MSD—Inactivated polio	1984	October 2004
Low Dose Diphtheria (d)	Berna Biotech—Low Dose Diphtheria	October 1995	August 2003
Measles, mumps and rubella (MMR)	GlaxoSmithKline—Priorix	May 1998	Ongoing
MMR	Pasteur Merieux—Immravax	1989-90	1992-93
MMR	Sanofi Pasteur MSD—MMR II	April 1998	Ongoing
MMR	Sanofi Pasteur MSD—MMR II (American MMR)	May 2005	July 2005
MMR	Sanofi Pasteur MSD—Triplovax (German MMR)	May 2005	June 2005
MMR	SmithKlineBeecham—Pluserix	1988-89	1992-93
Meningoccocal Group C Conjugate (MenC)	Baxter Healthcare—Neisvac	August 2000	January 2007
MenC	Chiron vaccines—Menjugate	March 2000	March 2005
MenC	Novartis vaccines—Menjugate Kit	April 2006	Ongoing
MenC	Wyeth vaccines—Meningitec	October 1999	September 2007
Oral Polio (OPV)	Evans Vaccines—Oral Polio	December 1998	October 2000
OPV	GlaxoSmithKline—Oral polio	April 2001	October 2004
OPV	SmithKilneBeecham—Oral Polio	April 1997	March 2001
Pneumococcal conjugate (PCV)	Wyeth—Prevenar	April 2006	Ongoing

Vaccine	*Manufacturer/brand name*	*Start*	*Finish*
Rabies	Rabies vaccine has been purchased for the NHS since 1979 from either Sanofi Pasteur MSD or Novartis Vaccines	1979	Ongoing
Rubella	Evans—Almevax	1992	1997
Rubella	SmithKlineBeecham—Ervevax	1992	2003
Tetanus and Low Dose Diphtheria (Td)	Aventis Pasteur MSD—Diftavax	September 1994	November 2006
Tetanus and Low Dose Diphtheria with Inactivated Polio (Td/IPV)	Sanofi Pasteur MSD—Revaxis	August 2004	Ongoing
Tuberculin Purified Protein Derivative (PPD) (diagnostic test for tuberculosis (TB))	Chiron vaccines—10 unit	1986	May 2005
Tuberculin PPD (diagnostic test for TB)	Chiron vaccines—100 unit	1992	May 2005
Tuberculin PPD (diagnostic test for TB)	Chiron vaccines—1,000 unit	1992	May 2005
Tuberculin PPD (diagnostic test for TB)	Chiron vaccines—Heaf test	1986	November 2005
Tuberculin PPD (diagnostic test for TB)	Statens Serum Institut—SS2	July 2005	Ongoing
Tuberculin PPD (diagnostic test for TB)	Statens Serum Institut—SSI0	May 2005	Ongoing

Vaccination: Drugs

John Hemming: To ask the Secretary of State for Health what restrictions there are on the provision of the drugs *(a)* Pedaciel, *(b)* Repevax, *(c)* Infanrix-IPV and *(d)* Menitorix to GP surgeries; whether any vaccination clinics have not taken place as a result of restrictions in supply; whether any alternative arrangements have been made for vaccination; and if he will make a statement. [216829]

Dawn Primarolo: Pedaciel, Repevax, Infanrix-IPV and Menitorix have been put on an allocation system. The allocation system aims to ensure general practitioner contractors receive doses based on their historic vaccine requirements so every child should be immunised with no need to delay immunisations. Where surgeries are concerned that they may not have sufficient stocks for a clinic they have contacted the Department's vaccine supply team who are working to ensure additional doses have been made available.

Wood

Mr. Peter Ainsworth: To ask the Secretary of State for Health (1) how much timber and timber products were procured by his Department in each of the last five years; and at what cost; [213734]

(2) how much timber and timber products were procured by his Department originating from independently verified legal and sustainable sources or from a licensed FLEGT partner in each of the last five years; and at what cost. [213735]

Mr. Bradshaw: The Department expended the following sums on timber products, furniture and fittings in the last five years;

	£
2003-04	74,743
2004-05	164,092
2005-06	532,655
2006-07	1,142,555
2007-08	807,018

It has not been possible to ascertain individual quantities of materials ordered.

The Department confirms that it has specified verifiable, legal and sustainable sources for the provision of timber and timber products purchased by this Department over the last five years, and will specify the European Union's Forest Law Enforcement, Governance and Trade (FLEGT) licensed timber products for future purchases when it becomes available.

Written Answers to Questions

Tuesday 15 July 2008

TRANSPORT

Aviation: Carbon Emissions

Colin Challen: To ask the Secretary of State for Transport what recent discussions she has had with the Secretary of State for Business, Enterprise and Regulatory Reform on the merits of including aviation in the European Emissions Trading Scheme, with particular reference to the likely effect of aviation's demand for carbon permits on other sectors of the economy. [218522]

Jim Fitzpatrick: In formulating the collective Government position, a range of impacts of including aviation in the EU ETS has been considered, including the economic impact on other sectors of aviation being a net buyer of carbon allowances.

Buses: Passengers

Stephen Hammond: To ask the Secretary of State for Transport what estimate she has made of bus passenger numbers in each of the last five years, broken down by constituency. [217621]

Ms Rosie Winterton: The information requested is not available from the Department for Transport annual survey of bus operators, although local authority estimates of bus passenger journeys are published by the Audit Commission.

Cycling

Justine Greening: To ask the Secretary of State for Transport how much her Department has spent on advertising the Cycle to Work scheme in each year since the scheme began. [215704]

Ms Rosie Winterton: In 2005-06 the Department spent £9,067 on producing the 'Cycle to Work Implementation Guidance'. In 2006-07 the Department's cycling delivery body, Cycling England, produced two promotional leaflets, one for employers and one for employees, which cost £10,710. Cycling England promoted the scheme and leaflets through a marketing agency during the 2006 Bike Week, which focused on cycle commuting and although it is difficult to disaggregate each element of their promotion of Bike Week, we estimate that the cost in specifically promoting Cycle to Work was around £6,000.

Since 2006 the market has matured considerably with around a dozen commercial providers now in operation and it is therefore in the interests of these providers to promote the scheme. The Department has not incurred any further expenditure other than minimal storage and distribution costs of the guidance and leaflets as they are still available on request.

Justine Greening: To ask the Secretary of State for Transport what assessment she has made of the effect on carbon dioxide emissions of the Cycle to Work scheme in each year since the scheme began. [215711]

Ms Rosie Winterton: There has been no assessment by the Department of the effect on carbon dioxide of the Cycle to Work scheme. The scheme is not run by the Department but was created by the bicycle industry to take advantage of the tax exemption provided in the Finance Act 1999 and the Income Tax (Earnings and Pensions) Act 2003. The Department's role has purely been to assist the bicycle industry in its implementation of the scheme.

There is no requirement for employers to register the scheme with the Department or Her Majesty's Revenue and Customs. As we do not impose a burden on business to register centrally this information, we are not able to determine the precise level of participation in the scheme and therefore its impact on carbon dioxide.

Departmental Buildings

Pete Wishart: To ask the Secretary of State for Transport on which buildings occupied by her Department's agencies and non-departmental public bodies the lease will be due for renewal in the next four years. [214700]

Jim Fitzpatrick: The requested information has been placed in the Libraries of the House.

Departmental Official Cars

Mr. Hoyle: To ask the Secretary of State for Transport pursuant to the answer of 2 July 2008, *Official Report*, column 923W, on official cars, if she will require the Government Car and Despatch Agency to undertake an assessment of the effect of its purchasing patterns on the UK car manufacturing sector. [218124]

Jim Fitzpatrick: The ministerial car fleet represents an extremely small fraction (less than 0.0001 per cent.) of new cars sold in the UK each year. We do not consider that making an assessment of the impact of this procurement on the domestic car manufacturing industry would be productive.

Driving Tests

Dr. Murrison: To ask the Secretary of State for Transport what estimate she has made of the average change in total costs for driving test candidates which will arise from *(a)* the relocation of the Trowbridge driving test centre in Chippendale and *(b)* the nationwide programme of test centre closures; and what costs to candidates have been taken into account in making decisions on closures. [218768]

Jim Fitzpatrick *[holding answer 14 July 2008]:* No estimate has been made for changes in the total costs for driving test candidates when closing driving test centres in specific areas, or nationwide. This is due to the high number of variables that would have to be taken into account, such as where candidates live and the value

they place on their time. Any estimated costs could be based only on assumptions and could result in inaccurate figures.

The Driving Standards Agency (DSA) is a trading fund and costs are largely recovered through test fees paid by driving test candidates. In order to keep any fee increases to a minimum, DSA seeks economies in the way it conducts its business.

The existing driving test centre provision is constantly monitored to ensure that acceptable service standards are maintained but there is no wasteful over-provision of facilities. The right balance needs to be struck between the provision of a satisfactory level of public service and the cost that service incurs.

M3: Surrey

Mr. Arbuthnot: To ask the Secretary of State for Transport what the accident rate at *(a)* Junction 4A of the M3 and *(b)* all three-lane motorway junctions was over the most recent period for which figures are available. [217343]

Mr. Tom Harris: Based on the three years of accident and traffic data up to 2006, the latest data available, the accident rate at *(a)* junction 4A of the M3 is 6.66 accidents per 100 million vehicle-km and *(b)* for all three-lane motorway junctions is 11.38 accidents per 100 million vehicle-km.

M66

Mr. Chaytor: To ask the Secretary of State for Transport what estimate she has made of the number of vehicles which travel each day during peak periods between Bury and Manchester on the M66; and if she will make a statement. [217013]

Mr. Tom Harris: Information from the Highways Agency is that during the period Monday 23 June 2008 to Friday 27 June 2008 inclusive, the traffic flows during peak hours on the M66 between Bury and Manchester were:

Vehicle volumes per hour between M66 junction 3 and M60/M62 junction

Time of day	*Total vehicles per hour*
Southbound 7 am to 10 am	4,291
Northbound 7 am to 10 am	3,170
Southbound 4 pm to 7 pm	3,146
Northbound 4 pm to 7 pm	4,294

These figures represent typical vehicle volumes for that route.

Motor Vehicles: Greater London

Sarah Teather: To ask the Secretary of State for Transport what estimate she has made of the number of households in London who owned *(a)* one, *(b)* two, *(c)* three and *(d)* four or more cars in each of the last five years. [219048]

Jim Fitzpatrick: The following table gives estimated car ownership figures for households in London for the last five years, based on data from the National Travel survey.

Household car availability, London, 2002-06

Percentage

	2002	*2003*	*2004*	*2005*	*2006*
None	40	41	42	39	38
One	42	38	40	43	46
Two	16	18	15	15	13
Three	3	2	2	2	3
Four or more	<1	1	1	1	1
Total[1]	100	100	100	100	100

[1] Totals may not sum due to rounding.

Motor Vehicles: Safety Measures

Mr. Lancaster: To ask the Secretary of State for Transport what her most recent estimate is of the percentage of towing mirrors on sale which have been E-marked. [218799]

Jim Fitzpatrick: The Department does not collect information on the number of towing mirrors on sale.

Motorways: Closures

Mr. Evans: To ask the Secretary of State for Transport what estimate she has made of costs to the economy of *(a)* the North West and *(b)* the UK arising from motorway closures in 2007. [219098]

Mr. Tom Harris: Figures on the cost of motorway closures to the economy are not routinely calculated.

However, delays are calculated for 91 routes covering most of the strategic road network, including strategic motorway routes in the North West. An estimate of daytime delays (6 am to 8 pm) for each of these routes is available for the period January to December 2007. This information was placed in the House Libraries of the House in response to an answer on 2 April 2008, *Official Report*, columns 1029-30W to the hon. Member for Lewes (Norman Baker).

Figures are presented on a rolling year basis. Delay is calculated as the difference between observed journey time and a reference journey time (the time that could theoretically be achieved when the traffic is free flowing). Figures for average delays on motorways and trunk roads for individual regions are not calculated on this basis.

Official Cars

Mr. Hoyle: To ask the Secretary of State for Transport pursuant to the answer of 2 July 2008, *Official Report*, column 923W, on official cars, if she will make an assessment of the effects of procurement policies for ministerial cars on the domestic car manufacturing industry. [218005]

Jim Fitzpatrick: The ministerial car fleet represents an extremely small fraction (less than 0.0001 per cent.) of new cars sold in the UK each year. We do not consider that making an assessment of the impact of this procurement on the domestic car manufacturing industry would be productive.

Parking

Mrs. Villiers: To ask the Secretary of State for Transport pursuant to the answer of 18 June 2008, *Official Report*, column 938-9W, on fixed penalties: appeals, what methods of redress are available to those whose parking contraventions have been observed or detected since 30 March 2008. [218785]

Ms Rosie Winterton: A motorist who considers that a penalty charge notice (PCN) served on or after 31 March 2008 did not contain the correct information may first make informal representation to the local authority. If this is rejected and the PCN is not paid, a notice to owner is served, against which a motorist may make a formal representation. If the formal representation is rejected, the motorist may appeal to a parking adjudicator.

Fixed penalty notices are only issued by the Police service.

Mrs. Villiers: To ask the Secretary of State for Transport what the average charge for a two-hour stay during working hours in a municipal car park is in each English local authority area. [218842]

Ms Rosie Winterton: This information is not held by central Government.

Mrs. Villiers: To ask the Secretary of State for Transport what parking charges are applied at council-owned parking facilities in South Northamptonshire. [218843]

Ms Rosie Winterton: This information is not held by central Government.

Parking: Schools

Mr. Andrew Smith: To ask the Secretary of State for Transport what guidance her Department has issued on the enforcement of parking restrictions in areas denoted by zig-zag road markings outside school gates. [218461]

Ms Rosie Winterton: The Department for Transport's guidance about parking enforcement covers the theory and principles of the process. It does not advise on how the process might be applied in particular situations. Those are decisions for the local authority concerned.

Road Traffic Offences: Cameras

Robert Neill: To ask the Secretary of State for Transport if she will instruct each safety camera partnership to publish the revenue resulting from fines attributable to each individual speed camera within their area on an annual basis. [218984]

Jim Fitzpatrick: There are no plans to instruct partnerships to publish details of fine revenue attributable to individual speed cameras. Since 1 April 2007 the individual local partnerships have had full responsibility for the deployment and operation of cameras, and publication of any such information is entirely a matter for them.

Road Accidents: Outside Schools

Mr. Andrew Smith: To ask the Secretary of State for Transport what assessment her Department has made of trends in occurrences of injuries to *(a)* children and *(b)* adults caused by traffic outside school gates. [218462]

Jim Fitzpatrick: Although the location of accidents is collected no work has been done centrally to match these against school addresses and no assessment of trends has been made. Data on injuries sustained by children and young people under 17 on the journey to and from school, some of which may have been outside the school gates, show a downward trend which mirrors the decrease in all children's casualties.

NORTHERN IRELAND

Departmental Responsibilities

Mr. Maude: To ask the Secretary of State for Northern Ireland how many reviews of regulation *(a)* his Department and *(b)* its agencies have conducted or commenced since July 2007; and in which areas. [215627]

Mr. Woodward: Since July 2007 the Northern Ireland Office and its agencies have not conducted any reviews on regulation.

We are considering the appropriate timing for post legislative scrutiny of Northern Ireland Acts and Orders in Council on excepted and reserved matters that have received Royal Assent since 2005.

We will be agreeing the handling of these reviews with the Northern Ireland Affairs Committee.

WALES

Departmental Official Hospitality

Mrs. May: To ask the Secretary of State for Wales how many receptions he has hosted and funded in his capacity as Secretary of State in the last 12 months; which individuals and organisations *(a)* were invited to and *(b)* attended each reception; and what the cost was of each reception. [203855]

Mr. Paul Murphy: Since my re-appointment as Secretary of State in January I have hosted one reception on 27 February to celebrate St. David's Day. Approximately 150 guests attended, including parliamentarians from all parties in both Houses, journalists and others with an interest in Wales. The cost of the reception was £3,059.23.

Smoking

Mrs. Gillan: To ask the Secretary of State for Wales what estimate he has made of the number of people in Wales who smoked in the latest year for which figures are available. [218737]

Mr. Paul Murphy: The latest available statistics were published in "Smoking in Wales: Current Facts" published jointly by the Welsh Assembly Government and the Wales Centre for Health in November 2007.

Statistics show that in 2005-06, 25 per cent. of adults in Wales reported that they currently smoked, while regular smoking was reported by 19 per cent. of 15-year-old boys and 28 per cent. of 15-year-old girls in 2004.

However, in 2006-07, more than 12,000 people contacted smoking cessation services and the percentage of adults in Wales who smoke has fallen 15 per cent. over the last 30 years.

OLYMPICS

Olympic Games 2012

Mr. Dodds: To ask the Minister for the Olympics what recent assessment she has made of the potential economic effects of the 2012 Olympic Games on each region. [215284]

Tessa Jowell: Businesses around the UK will win contracts in the London 2012 supply chains, but there are many other ways in which each region will gain economic benefits from the 2012 games. These include the boost to the tourism industry, the opportunity to inspire people to develop their skills, and using volunteering to improve skills. The pre-games training camps will enable regions to attract inward investment and showcase themselves on an international stage, and UKTI are developing programmes to use the games as a springboard for export.

There is no detailed breakdown of how much each region will benefit in each of these areas. However, the Government and the London Organising Committee of the Olympic Games and Paralympic Games (LOCOG) are working hard to ensure the benefits of 2012 are realised across the UK and have established a Nations and Regions Group (NRG).

All regions, working through the NRG, have now published their own plans to maximise the benefits and opportunities of the 2012 games. Full details of the plans are available via the Nations and Regions pages on the London 2012 website at:

http://www.london2012.com/in-your-area/index.php

Olympic Games 2012: Contaminated Land

Mr. Dai Davies: To ask the Minister for the Olympics to which location contaminated soil or other contaminated material found at the Olympic Park site has been transported for disposal; what volumes of material are involved; and what contaminants have been discovered. [214313]

Tessa Jowell: The ODA had calculated that earthworks totalling 1.6 million tonnes of soil is necessary in preparing the Olympic Park site for construction of work. Of this, around 1 million tonnes will require treatment.

To date, less than 2 per cent. has been transported off-site for landfill disposal at Environment Agency approved sites across the UK. The locations of those sites are:

Kings Cliff, Cambridgeshire (Augean Kings Cliff);

Dudley, West Midlands (Himley Quarry);

Teesside, North Yorkshire (Impetus Waste Management ICI 3);

Barling Magna, Essex (Barling Landfill);

Purton, North Wiltshire (Parkgate Farm Landfill);

Middlesbrough, Cleveland (Augean Middlesbrough).

Also, a small percentage of asbestos-contaminated material has been removed off-site during the demolition phase to approved specialist sites for safe disposal. Those sites are:

Kings Cliff, Cambridgeshire (Augean Kings Cliff);

High Wycombe, Buckinghamshire (Biffa Waste);

Dartford, Kent (Pinden Plant and Processing);

Taunton, Somerset (Viridor Waste Management);

Teesside, North Yorkshire (Impetus Waste Management ICI 3).

Other contaminants discovered on-site include hydrocarbons, industrial chemicals, heavy materials and a very small amount of low level radioactive material. A report on the radium find from the ODA's specialist contractor stated that

"no worker or member of the public has been unnecessarily exposed to ionising radiation"

which registered low or very low levels of radioactivity. The Health and Safety Executive (HSE) was consulted immediately following the find, with the Environment Agency, Newham Environmental Health and the planning authority informed and consulted on safe transit and disposal.

Much of the other contaminants are treated at source and the cleansed material, where appropriate, reused in the landscaping and foundations work of the Olympic Park.

The ODA is currently exceeding its 90 per cent. target of reclaiming material for recycling or reuse from its demolition and remediation works.

Olympic Games 2012: Security

Mr. Hunt: To ask the Minister for the Olympics whether she has approved a draft costed security plan for the 2012 Olympic and Paralympic Games. [218386]

Tessa Jowell: The Home Secretary is responsible for the security in the London 2012 Olympic games. The security plan is in the course of preparation by a process which, in relation to the overall objective of a safe and secure games, is proportionate and affordable. The plan is being developed in close discussion with all relevant stakeholders and will be delivered with costs at the end of the year.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan and Australia: Morphine

Mr. Frank Field: To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to the Answer of 8th February 2007 by Lord Triesman, PQ HL1749, what his most recent estimate is of the costs of producing morphine in *(a)* Afghanistan and *(b)* Australia; and on what bases the costs are estimated. [215441]

Meg Munn *[holding answer 1 July 2008]:* In 2008, we estimate that it costs US$385 to produce one kilogram of morphine equivalent[1] in Afghanistan. However, this is the 'farm gate' cost of illegal opium production, not the manufacturing cost of the final morphine product. This does not therefore include the following: regulation and security (policing of product, security of product transport from farm to factory); processing; equipment; chemicals; labour costs; and other business costs. These costs are unknown for Afghanistan. We estimate that the breakdown of costs for opium production in Afghanistan (per hectare) is as follows: production costs include fertiliser (estimated at 250 kilograms of urea and 250 kilograms of diammonium phosphate per hectare at a cost of US$210); oxen (at a rate of 10 days per hectare at a cost of US$8 per day); 350 labour days, including 200 days for harvesting (at an estimated wage rate of US$4 per day); and 150 days for land preparation; sowing; weeding; field clearance and seed collection (at an estimated rate of US$2.80 per day).

The Australian Crime Commission advise that it costs a licit manufacturer in Australia approximately US$300 (as at 30 June 2008) to produce one kilogram of morphine. This is the cost of the final product, not the 'farm gate' cost. Due to the commercially sensitive nature of these data, a breakdown of the Australian Crime Commission figures is not available. In 1999 the International Narcotics Control Board stated that the price paid to growers was US$56 for each kilogram of morphine equivalent. The breakdown of these costs is also confidential.

[1] This assumes opium production of around 40 kilograms per hectare and that 10 kilograms of opium is required to produce one kilogram of morphine equivalent.

Bosco Ntaganda

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking together with its international partners to ensure that the Government of Democratic Republic of Congo complies with the arrest warrant issued by the International Criminal Court for Bosco Ntaganda. [216746]

Meg Munn: The UK is ready to provide whatever assistance may be required to ensure that those accused of the most serious crimes by the International Criminal Court (ICC) are brought into custody. Co-operation between the Government of the Democratic Republic of Congo (DRC) and the ICC has already led to the arrest of three DRC nationals, as part of the ICC's investigations into the situation in the DRC. We expect the Government of the DRC to provide the same level of co-operation over the arrest of Bosco Ntaganda.

China: Taiwan

Sarah Teather: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of relations between China and Taiwan. [217423]

Meg Munn: As my right hon. Friend the Foreign Secretary said publicly on 22 March, the change of administration in Taiwan is a real opportunity to renew efforts to improve cross-Strait relations. We hope that the Chinese Government and Taiwan President Ma Ying-Jeou's administration will continue to engage in direct dialogue to resolve differences and strengthen cross-Strait stability, with a view to finding a peaceful solution to the Taiwan issue, acceptable to the people of both sides of the Strait. We support the EU declaration of 26 May and the EU presidency statement of 13 June which similarly sought to encourage this dialogue and welcome the practical results seen so far. These include the institution of regular direct weekend charter flights between mainland China and Taiwan, which started on 4 July.

Departmental Consultants

Mr. Evans: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on consultancy fees in each of the last five years. [215283]

Meg Munn *[holding answer 30 June 2008]:* Annual expenditure on consultants is published in the Foreign and Commonwealth Office's annual departmental reports, copies of which have been placed in the Library of the House. The two most recent departmental reports also contain details of expenditure on the top five consultancy contractors.

Departmental Early Retirement

Mr. Redwood: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff in his *(a)* Department and *(b)* Department's agencies have taken early retirement in the last two years. [217387]

Meg Munn: A total of 305 staff in the Foreign and Commonwealth Office (FCO) have taken early retirement in the two years up to 1 July 2008, of whom 19 were FCO services staff. The reasons for granting early retirement range from redundancy to ill health. During this period, there were two restructuring exercises which led to a higher than expected number of early retirements: one reduced the size of the FCO's senior management structure by almost 20 per cent.; and the other involved the closure of a number of business units in preparation for the launch of FCO Services as a Trading Fund from April 2008.

All payments to those who took early retirement with compensation were made in strict accordance with the terms of the Civil Service Compensation scheme.

Departmental Surveys

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place a copy of his Department's most recent annual staff survey in the Library. [218685]

David Miliband: The Foreign and Commonwealth Office's (FCO) most recent annual staff survey was concluded in December 2007. The results are already available in the public domain. They have been published on two sites: the civil service website at:

http://www.civilservice.gov.uk/documents/staff-survey/FCO2007.pdf

and the FCO's website at:

http://www.fco.gov.uk/en/departmental-report/part2/public-diplomacy/.

I will also arrange for a copy to be forwarded to the Library of the House.

Members: Correspondence

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs when he plans to reply to the letter from the hon. Member for Thurrock of 20th May 2008 on the visit to the US of HRH the Prince of Wales in 2006; and what the reasons are for the time taken to reply to the letter. [218927]

Meg Munn: I replied on 9 July to my hon. Friend's letter of 20 May on the visit to the US of His Royal Highness the Prince of Wales in 2006. The delay in replying was caused by the length of time needed to research the response thoroughly.

Personal Injury

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs what the highest 10 payments made by his Department in settlement of personal injury claims brought against it were over the last 12 months for which figures are available; which of those cases were *(a)* contested and *(b)* uncontested by the Department; and what the nature of the incident was in each case. [216687]

Meg Munn: The Foreign and Commonwealth Office have settled two personal injury claims in the last twelve months. Neither claim was contested by the Department. The payments were:

£4,000.00 Not contested for fingers trapped in door; and

£3,871.02 Not contested for manual handling accident.

Republic of Ireland: Treaty of Lisbon

Mr. Gauke: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer to my hon. Friend the Member for Wellingborough (Mr. Bone) of 1 July 2008, *Official Report*, column 779W, on the Republic of Ireland: Lisbon Treaty, under what circumstances the Government can withdraw an instrument of ratification in respect of an international treaty once it has been deposited with the treaty depositary; and if he will make a statement. [218172]

Mr. Jim Murphy *[holding answer 14 July 2008]*: The EU (Amendment) Bill received Royal Assent on 19 June. We are proceeding to ratification in the usual way; once prepared, the instrument of ratification will be deposited with the Italian Government in Rome. Once deposited, it will not be withdrawn.

Sri Lanka: Overseas Trade

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs how many trade inquiries were handled by the British high commission in Colombo, Sri Lanka in the last 12 months; what expenditure his Department has incurred on the promotion of trade with the Maldives in the last 12 months; and if he will make a statement. [216260]

Mr. Thomas: I have been asked to reply.

The UKTI Trade and Investment team in Colombo handled 241 trade inquiries for the period from April 2007 to March 2008.

UKTI has neither a presence in the Maldives nor financial resources specifically dedicated to the promotion of trade with the islands. No change in this position is currently envisaged.

The British high commission in Colombo (Sri Lanka) however handles inquiries about trade with the Maldives on a reactive basis and companies interested in trading with the islands have access to background information via the UKTI website.

Westminster Foundation for Democracy: Finance

Ms Keeble: To ask the Secretary of State for Foreign and Commonwealth Affairs how much funding his Department has provided to the Westminster Foundation for Democracy in the last three years; and how many days of training for parliamentarians from developing countries the Foundation has delivered in that period. [216780]

Meg Munn: From 2005-08 the Westminster Foundation for Democracy (WFD) received £4.1 million annually in grant-in-aid from the Foreign and Commonwealth Office (FCO). In addition to this, from 2006-08 WFD received £432,000 from the FCO's Global Opportunities Fund to implement regional projects on behalf of the FCO.

WFD has delivered 192 framing days for parliamentarians in the following countries:

Serbia, Bosnia and Herzegovina, Macedonia, Montenegro, Moldova, Bulgaria, Georgia, Kyrgyzstan, Kazakhstan, Mongolia, Uganda, Sierra Leone, Ghana, Mozambique, Tanzania, the Maldives, Sri Lanka, Egypt, Bahrain, Peru, Yemen, Chile, Namibia, Belarus, Turkey and Palestine and regional projects in the Balkans, the Caribbean, Central Europe and Africa.

LEADER OF THE HOUSE

Departmental Official Cars

Stephen Hammond: To ask the Leader of the House which make and model of car she has chosen as her ministerial car to be provided by the Government Car and Despatch Agency. [217767]

Helen Goodman: The Leader of the House's current ministerial car is a Toyota Prius leased under agreement by the Government Car and Despatch Agency.

Members: Allowances

John Mann: To ask the Leader of the House how many hon. Members claimed additional costs allowance in respect of a second home *(a)* in London, *(b)* in the hon. Member's constituency and *(c)* elsewhere in the last period for which figures are available. [218857]

Helen Goodman: Hon. Members are entitled to claim the additional costs allowance when staying away from their main home on parliamentary business. The allowance

may be used for help with the cost of purchase or rental of a property, or for hotel or other overnight costs. Currently 441 Members claim the allowance for staying in London and 148 in their constituency.

Of the 148 Members claiming the allowance for staying in the constituency, 34 have homes that fall outside the constituency boundary. All of these are within 20 miles of the boundary, in accordance with the rules that allow second homes to be located up to 20 miles outside the constituency.

Public Sector: Pay

Mr. Burstow: To ask the Leader of the House what the median relevant increase for the public sector groups which will in future be used in the uprating formula for the salaries of hon. Members was in each of the last 10 years. [217714]

Helen Goodman: The information requested is not easily obtainable within the normal timescales for answering written parliamentary questions. I will write to the hon. Member with the information shortly.

TREASURY

Bank Melli plc

Mr. Blunt: To ask the Chancellor of the Exchequer whether the Government have evidence that Bank Melli plc has been in breach of UN Security Council resolutions 1737, 1747 and 1803. [217079]

Kitty Ussher *[holding answer 8 July 2008]:* The Government expect all financial institutions in the UK to comply with financial sanctions and any evidence of a breach would be investigated. We cannot comment on individual cases.

Mr. Blunt: To ask the Chancellor of the Exchequer whether the EU designation and his Department's asset freeze imposed on Bank Melli plc is *(a)* related to Bank Melli plc's activities or *(b)* aimed at the holding company in Iran; and if he will make a statement. [217080]

Kitty Ussher *[holding answer 8 July 2008]:* The financial sanctions imposed on Bank Melli plc are directly applicable EC sanctions which the UK has an obligation to enforce. The EC sanctions designated Bank Melli Iran and its branches and subsidiaries abroad, including Melli Bank plc and Bank Melli Iran Zao. As the relevant Council Decision makes clear, Melli Bank plc is designated for financial sanctions as a part of the Bank Melli group and as a subsidiary of Bank Melli Iran.

Capital Allowances: Rural Areas

Mr. Drew: To ask the Chancellor of the Exchequer what assessment he has made of the effect of the withdrawal of capital allowances on buildings in rural areas. [217954]

Jane Kennedy: The phased withdrawal of agricultural buildings allowances (ABAs) is part of a package of measures which also saw the reduction in the main rate of corporation tax and the basic rate of income tax and the introduction of a £50,000 annual investment allowance, allowing 95 per cent. of businesses to write-off all their expenditure on plant and machinery (apart from cars) in the year in which it is made. An impact assessment in respect of the business tax reform package as a whole was published as part of the December 2007 technical note on the capital allowances changes. A link to that document is as follows:

http://customs.hmrc.gov.uk/channelsPortalWebApp/channelsPortalWebApp.portal?_nfpb=true&_pageLabel=page_Library_ConsultationDocuments&propertyType=document&columns=1&id=HMCEPROD1_028217

Council Tax: Valuation

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 6 May 2008, *Official Report*, column 818W, on council tax: valuation, if he will place in the Library a copy of the Valuation Office Agency's *(a)* guidance and *(b)* manual in relation to using the TENET software. [218311]

Jane Kennedy: I refer the hon. Gentleman to the answer given on 9 January 2006, to the hon. Member for Meriden (Mrs. Spelman), *Official Report*, column 250W.

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 14 May 2008, *Official Report*, column 1622W, on council tax: valuation, which external contractors assisted with the development of the council tax banding support tool. [218316]

Jane Kennedy: The Valuation Office Agency's council tax banding support tool was developed with assistance from CapGemini, SAS and Cole Layer Trumble/Tyler Technologies.

Council Tax: Wales

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 14 May 2008, *Official Report*, column 1622W, on council tax: Wales, how many households moved *(a)* up and *(b)* down bands consequent on the 2005 council tax revaluation in Wales. [218313]

Jane Kennedy: I refer the hon. Member to the answer given on 14 May 2008, *Official Report*, column 1622W.

Departmental ICT

Pete Wishart: To ask the Chancellor of the Exchequer what the value of his Department's computer systems *(a)* was at the time of purchase and *(b)* is now. [214710]

Angela Eagle: I refer the hon. Gentleman to the published Annual Report and Accounts of the Treasury 2006-07 (HC 518), pages 135 and 136.

To separately identify the value at purchase and value now of each component of the Treasury's computer system could be provided only at disproportionate cost.

Departmental Research

Robert Neill: To ask the Chancellor of the Exchequer whether projects or research have been commissioned from the Institute for Public Policy Research by *(a)* his Department or *(b)* the Valuation Office Agency in the last 12 months; and on what topics. [211924]

Jane Kennedy: No. HMRC does not hold the requested information centrally and it could be collated only at disproportionate cost. None has been commissioned by the VOA.

Departmental Sick Leave

Jenny Willott: To ask the Chancellor of the Exchequer how many sick days were taken by employees in *(a)* his Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility due to (i) stress and (ii) mental health and behavioural disorders in each of the last 10 years; what proportion of sick days taken this represented in each case; and if he will make a statement. [216091]

Angela Eagle: Information relating to the Treasury and its agencies for 2004, 2005, 2006-07 can be found on the Civil Service website:

http://www.civilservice.gov.uk/about/statistics/sickness.asp.

All three illnesses are grouped together under the ICD code 'Mental and Behavioural Disorders'.

Data for 2007-08 are not yet available but will be published later in the year. Information for years prior to 2004 data is not held electronically and could be provided only at disproportionate cost.

Financial Capability Action Plan

Mr. Dai Davies: To ask the Chancellor of the Exchequer what proportion of the £200 million funding for the new Financial Capability Action Plan has not been previously announced. [218247]

Kitty Ussher: The Financial Capability Action Plan, published jointly by HM Treasury and the Financial Services Authority, made reference to various different projects to improve financial capability in the UK. This included over £200 million Government funding for debt advice, to help people in serious financial difficulty, which had been previously announced.

Foreign Investment in UK: India

Mr. Evans: To ask the Chancellor of the Exchequer how much foreign direct investment into the UK was from Indian investors in each of the last five years. [219118]

Kitty Ussher: The Office for National Statistics (ONS) publishes data on foreign direct investment (FDI) annually in the "Business Monitor MA4: Foreign Direct Investment". The latest available data on FDI are for 2006, as follows, and available at:

http://www.statistics.gov.uk/downloads/theme_economy/MA42006.pdf

Net FDI international positions in the United Kingdom, 1998 to 2006

	Stock of FDI from India to UK (£ million)
1998	94
1999	104
2000	182
2001	162
2002	162
2003	194
2004	164
2005	518
2006	795

Source:
Table 6.1 in Business Monitor MA4: Foreign Direct Investment 2006.

Housing: Valuation

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answers of *(a)* 17 March 2008, *Official Report*, column 899W and *(b)* 14 May 2008, *Official Report*, column 1628W, on the Valuation Office, what the value impact is, in numerical terms, of each of dwelling house codes 01 to 09, as identified during the calibration of the Valuation Office Agency's automated valuation model. [218264]

Jane Kennedy: This information could be provided only at disproportionate cost.

Mr. Pickles: To ask the Chancellor of the Exchequer (1) pursuant to the answer of 14 May 2008, *Official Report*, column 1635W, on housing: valuation, if he will outline each substantive change to the coding guide made since January 2005; and on what date each change was made; [218317]

(2) whether the copy of the coding guide on the Valuation Office Agency website is the most up to date available version of the guide incorporating all changes made since January 2005. [218318]

Jane Kennedy: The Dwellinghouse Coding Guide currently shown on the Valuation Office Agency website is the most up to date version. The majority of the changes to the guide since January 2005 have been of a minor nature, and a compiled list could be provided only at disproportionate cost.

Income Tax

Jim Cousins: To ask the Chancellor of the Exchequer if he will estimate the revenue from each *(a)* London borough area and *(b)* metropolitan authority area which would accrue from the addition of one penny to the basic rate of income tax. [219090]

Jane Kennedy: Information on the mean and median tax liability of taxpayers living in the London boroughs and metropolitan authorities can be found in table 3.14 "Income and tax by borough and district or unitary authority" on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/stats/income_distribution/menu-by-year.htm#314

The information is based on the Survey of Personal Incomes and 2005-06 is the latest year available.

The yield for the UK from a 1p change in the basic rate of income tax can be found in table 1.6 "Direct effects of illustrative tax changes" on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/stats/tax_expenditures/menu.htm

A breakdown of the yield by borough and district or unitary authority is not available as sample sizes at these levels of geography are small and can demonstrate a large variability from year to year.

PAYE

Nick Ainger: To ask the Chancellor of the Exchequer what his estimate is of *(a)* the average tax overpayment and *(b)* the average tax underpayment for each PAYE account following clerical review in the latest period for which figures are available. [216621]

Jane Kennedy: Approximately 70 per cent. of PAYE records clear automatically each year with no need for clerical review.

Of the remainder, it is estimated that in 77 per cent. of cases the tax has been correctly paid, in 17 per cent. of cases customers are owed an average of £350 and in 6 per cent. of cases HM Revenue and Customs is owed an average of £300.

Personal Injury

Mr. Hayes: To ask the Chancellor of the Exchequer what the highest 10 payments made by his Department in settlement of personal injury claims brought against it were over the last 12 months for which figures are available; which of those cases were *(a)* contested and *(b)* uncontested by the Department; and what the nature of the incident was in each case. [216688]

Angela Eagle: There were no personal injury claims brought against the Treasury in the last 12 months, April 2007-March 2008 for which figures are available.

Revenue and Customs: North West

Mr. Hoyle: To ask the Chancellor of the Exchequer what recent assessment he has made of the relative performance against objectives of HM Revenue and Customs staff at *(a)* Chorley, *(b)* Bolton, *(c)* Blackburn and *(d)* St. Helens; when a Minister from his Department last visited each such office; and what (i) timetable and (ii) details for re-organisation of these offices (A) were originally announced to staff and (B) are now in place. [218858]

Jane Kennedy: I refer my hon. Friend to the answers I gave on 2 July 2008, *Official Report*, column 966W. The reasons for offices being either retained or closed under HM Revenue and Customs (HMRC) work force change programme is not a reflection on the current performance of staff working in those offices.

I have not visited the HMRC offices in Chorley, Bolton, Blackburn or St. Helens.

Announcements of decisions on those offices were made on 29 February 2008. In those announcements staff were informed that some movement of work and staff would commence in spring 2008 and continue as alternative accommodation became ready.

Revenue and Customs: Rightmove

Mr. Pickles: To ask the Chancellor of the Exchequer on what date the decision was taken to extend the HM Revenue and Customs and Valuation Office Agency contract with Rightmove.co.uk plc; and what the estimated cost is of the extension. [218295]

Jane Kennedy: A decision to extend the contract has not yet been taken.

Mr. Pickles: To ask the Chancellor of the Exchequer what the status of the contract between Rightmove.co.uk plc and HM Revenue and Customs and the Valuation Office Agency is; and what the termination date of the contract is. [218421]

Jane Kennedy: I refer the hon. Member to the answer given on 22 May 2006, *Official Report*, column 1444W.

Revenue and Customs: Weston-Super-Mare

John Penrose: To ask the Chancellor of the Exchequer whether a full equality impact assessment was carried out on the effects on *(a)* staff and *(b)* service users of the proposal to close the HM Revenue and Customs office in Weston-Super-Mare. [218319]

Jane Kennedy: HM Revenue and Customs (HMRC) is restructuring its business and estate across the whole of the UK in order to achieve business efficiencies and customer service improvements, and release surplus accommodation. On 11 June 2008, proposals were published for the HMRC office in Weston-Super-Mare, which envisage withdrawal from that office. These proposals are under consultation and no final decision has been made. An overview impact assessment which included the Weston-Super-Mare office was published on the same day. Feasibility work undertaken by HMRC before recommendations are made include assessment of the impact of closure on staff, customers and the wider community. This includes any equality impacts.

If the final decision is to withdraw from Weston-Super-Mare, an impact assessment will be published at that point, with an Equality Impact Assessment as an appendix to this document.

John Penrose: To ask the Chancellor of the Exchequer if he will publish the business case for the proposal to close the HM Revenue and Customs office in Weston-Super-Mare. [218320]

Jane Kennedy: HM Revenue and Customs do not produce a single business case document for any specific building or location. The overall business case within which HMRC's regional review programme operates is its need to restructure in order to achieve the required efficiency savings and customer service improvements. Most of these savings are realised at business unit or even departmental level, and cannot realistically be apportioned to particular offices.

Taxis

Mrs. Villiers: To ask the Chancellor of the Exchequer what the cost of registration of a private hire vehicle is in each local authority. [218784]

Ms Rosie Winterton: I have been asked to reply.

There are 342 taxi and private hire vehicle (PHV) licensing authorities in England and Wales. Under the relevant legislation each authority is permitted to set its licence fees at such a level as to enable it to cover the costs of administering the licensing system. Fees therefore vary from area to area depending on the administrative costs incurred.

Information is not collected centrally on the fees charged by each authority. However, a small-scale sample survey of authorities we undertook in 2006 indicated an average fee of around £200 for a vehicle licence. Fees are also charged for the award of a PHV driver's licence and an operator's licence.

Valuation Office

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 14 May 2008, *Official Report*, columns 1628-9W, on the Valuation Office, on what date in each month between March 2003 and November 2005 the Council Tax Revaluation Programme Board (England) met. [218266]

Jane Kennedy: I refer the hon. Member to the answer given to the hon. Member for Bromley and Chislehurst (Robert Neill) on 25 June 2008, *Official Report*, column 341W.

Valuation Office Agency Local Authority Liaison Group

Mr. Pickles: To ask the Chancellor of the Exchequer how many times the Valuation Office Agency Local Authority Liaison Group has met since April 2006. [218418]

Jane Kennedy: The Local Authority Liaison Group has met five times since April 2006.

Valuation Office: Cole Layer Trumble

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 14 May 2008, *Official Report*, column 1629W, on Valuation Office: Cole Layer Trumble, if he will place in the Library copies of the OASIS training manual and supporting documentation held by the Valuation Office Agency. [218267]

Jane Kennedy: I refer the hon. Member to the answer given on 9 January 2006, to the hon. Member for Meriden (Mrs. Spelman), *Official Report*, column 250W.

Valuation Office: ICT

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 14 May 2008, *Official Report*, column 1629W, on Valuation Office: ICT, how many localities there are in each billing authority area in London. [218270]

Jane Kennedy: The number of localities in each billing authority area in London at 2 April 2008 was as follows:

Billing authority	*Count of localities*[1]
Barking and Dagenham	17
Barnet	23
Bexley	40
Brent	18
Bromley	54
Camden	46
City of London	3
Croydon	40
Ealing	24
Enfield	26
Greenwich	55
Hackney	50
Hammersmith and Fulham	55
Haringey	15
Harrow	17
Havering	17
Hillingdon	20
Hounslow	21
Islington	47
Kensington and Chelsea	47
Kingston upon Thames	41
Lambeth	37
Lewisham	35
Merton	39
Newham	29
Redbridge	21
Richmond upon Thames	41
Southwark	46
Sutton	36
Tower Hamlets	44
Waltham Forest	15
Wandsworth	58
Westminster	57

[1] As at 2 April 2008.

Mr. Pickles: To ask the Chancellor of the Exchequer what funding the Valuebill project has received from the Invest to Save budget. [218424]

Jane Kennedy: The Invest to Save budget has not provided funding for the Valuebill project.

Valuation Office: Standards

Mr. Pickles: To ask the Chancellor of the Exchequer which projects sponsored by the Valuation Office Agency have been subject to Gateway reviews since 1997. [218416]

Jane Kennedy: The postponed Council Tax Revaluation Programme.

Valuation Office: Travel

Mr. Pickles: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the Valuation Office Agency's guidelines on travelling and subsistence contained in Section 7 of The Guide publication on the Agency's intranet. [218321]

Jane Kennedy: A copy of section 7 of the Valuation Office Agency's guide has been placed in the Library.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agricultural Shows

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs which rural and agricultural shows Ministers from his Department *(a)* have attended in 2008 and *(b)* plan to attend before 31 September 2008. [215368]

Jonathan Shaw: The rural and agricultural shows that Ministers from my Department have *(a)* attended so far in 2008, and *(b)* plan to attend before 31 September 2008 are tabled as follows:

Show	*Date visited/planned*	*Minister attending*
British Pig and Poultry Fair	13 May	Jeff Rooker
Devon County Show	15 May	Jeff Rooker
Royal Show	3 July	Jeff Rooker
	4 July	Hilary Benn
Great Yorkshire Show	10 July	Hilary Benn
Kent County Show	11 July	Jonathan Shaw
Cumberland Show	19 July	Jeff Rooker
CLA Game Fair	26 July	Jeff Rooker
Dairy Event	17 September	Jeff Rooker
Royal Norfolk Show	26 June	Jonathan Shaw

Agricultural Land

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the potential effects of changes in the price of agricultural land on the *(a)* profitability and *(b)* productivity of English agriculture. [217272]

Jonathan Shaw: DEFRA have not made a specific assessment on the effects of changes in the price of agricultural land on the profitability and productivity of English agriculture.

DEFRA publish aggregate balance sheets for agriculture in "Agriculture in the United Kingdom". The balance sheet shows the value of fixed assets at a point in time (December each year) and the value of liabilities at a point in time. Fixed assets are dominated by land. As the volume of land is unchanging, the trend in the value of land and buildings is dominated by the effect of land prices. The latest balance sheet shows the value of UK agricultural land and buildings increasing by 40 per cent. at current prices, between 2003 and 2006.

Changes in profitability of farming are measured by changes to Farm Business Income. Data on Farm Business Incomes are provided by the annual Farm Business Survey conducted in England. These figures are for March/February years. The most recent published figures show Farm Business Income in England at the all types level falling by 2.5 per cent. at current prices, between the years 2003-04 and 2006-07 (to then increase sharply in 2007-08).

Productivity for UK agriculture, measured by Total Factor Productivity, is published in "Agriculture in the United Kingdom". The latest publication shows UK agricultural productivity increasing by 5 per cent. between the years 2003 and 2006.

Agriculture: Public Sector

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what advice his Department provides to British farmers to assist them in supplying fruit and vegetables to the public sector. [216791]

Jonathan Shaw: There is a page on the Public Sector Food Procurement Initiative web site that is devoted to providing advice to UK farmers on how to supply fruit and vegetables and other produce to the public sector. The page can be found at:

http://www.defra.gov.uk/farm/policy/sustain/procurement/sellingpublic.htm.

The page, for example, contains the guide "Selling to the public sector" which explains how growers (and farmers) can take advantage of opportunities to supply food to the public sector either directly or indirectly via the supply chain of a primary supplier. The guide also includes short case studies showing how small and local producers have worked successfully with the public sector and lists useful sources of further information and advice.

DEFRA is also funding the Government offices for the regions to undertake workshops and projects to improve the supply of domestically grown fruit and vegetables into the public sector. It is also working through key stakeholders such as the NFU and English Farming and Food Partnerships to provide advice and support to producers.

Bees: Diseases

Ben Chapman: To ask the Secretary of State for Environment, Food and Rural Affairs if he will consider increasing his Department's spending on bee health research. [217020]

Jonathan Shaw: An additional £90,000 has been allocated to the National Bee Unit this financial year to expand investigations started last year under a Horizon Scanning project into significant colony losses and to meet the demand for increased inspections of bee imports consequential to the colony losses.

Research priorities are addressed in the draft Bee Health strategy which has recently been published for public consultation. Commissioned research in later years will be considered in the light of priorities identified in the agreed strategy and the resources available from DEFRA and elsewhere.

Bovine Tuberculosis: Disease Control

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs of those cattle slaughtered as reactors and inconclusives under the bovine tuberculosis eradication scheme, how many *(a)* were found to be free of tuberculosis through (i) visual inspections of lesions and (ii) culturing of tissue samples after death and *(b)* entered the human food chain in each of the last three years. [217160]

Jonathan Shaw: The following table shows the number of cattle slaughtered under bovine tuberculosis (TB) control measures in England in each of the last three years, and details the number of cattle where infection with *Mycobacterium bovis* (*M. bovis*) was not confirmed at post mortem examination.

	England	
	Number of cattle slaughtered[1]	*Infection not confirmed at post-mortem examination*
2005	23,135	10,243
2006[2]	16,006	6,385
2007[2]	19,777	7,470

[1] Includes cattle slaughtered as skin and gamma-interferon (gIFN) test reactors, skin test inconclusive reactors and direct contacts.
[2] 2006-07 figures are provisional, subject to change as more data become available.

Following a TB breakdown, we aim to carry out post-mortem inspections of all the slaughtered cattle. Tissue samples are taken from the reactor (or if several animals must be removed, from a representative subset of those), to attempt isolation and molecular typing of the causative organism in the laboratory. This is done to support epidemiological investigations and management of the incident, rather than to validate the ante-mortem test results.

Failure to detect lesions of TB by post-mortem examination, or to culture *M. bovis* in the laboratory, does not imply that a test reactor was not infected with bovine TB. With TB in cattle, it is frequently not possible to observe lesions during abattoir post-mortem examination and, due to the fastidious nature of this organism, it is very difficult to isolate it from tissue samples without visible lesions.

Meaningful confirmation proportions for TB test reactors cannot be provided, as substantial numbers of skin and gIFN positive animals are not subject to laboratory culture, for example, once infection has already been identified in other cattle from the same herd.

Responsibility for inspecting TB carcases and their associated offal rests with the Meat Hygiene Service (MHS). Under the EU Food Hygiene Regulations, all animals herds with no visible tuberculosis lesions, plus any cattle with visible tuberculosis lesions localised in one organ or one part of the carcase, will have been considered fit for human consumption by the MHS.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what income to the public purse resulted from cattle that were slaughtered as reactors and inconclusives in the tuberculosis eradication scheme entering the human food chain in each of the last three years. [217842]

Jonathan Shaw: The amount of money received by the Government from the sale of the cattle slaughtered as reactors and inconclusives in England, as a result of bovine tuberculosis control measures from 2004-05 to 2006-07 is set out in the following table:

	Amount received
	£ million
2004-05	3.1
2005-06	4.9
2006-07	1.1

Bovine Tuberculosis: Vaccines

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department plans to spend on research for a *(a)* wildlife and *(b)* cattle vaccine against bovine tuberculosis in 2008-09; and what plans he has for such spending in the next two years. [217776]

Jonathan Shaw *[holding answer 10 July 2008]:* As part of DEFRA's commitment to tackling the issue of bovine TB (bTB), we have invested in a significant research programme looking into the development of vaccines for both cattle and badgers. The total investment (since 1998) in vaccine development reached more than £17.8 million by March 2008, with over £5.5 million invested in cattle and badger vaccine research last financial year (2007-08).

On 7 July 2008, the Secretary of State for Environment, Food and Rural Affairs announced a commitment to additional funding over the next three years. During this time period, £20 million will be spent on vaccine development to strengthen the prospects of successfully developing a usable vaccine.

The increased funding will not result in a vaccine being available sooner. While the programme of research has been designed to minimise the time required to deliver licensed vaccines, research by its nature takes time and a significant proportion of the work can only be addressed sequentially.

The exact scope and cost of the research projects is in the process of being finalised, approximate projected spending is shown in the following table:

	Estimated spend (£ million)		
Vaccine type	*2008-09*	*2009-2011*	*Total for CSR period*
Badger (injectable and oral)	2.3	4.7	7
Cattle (including diagnostic test)	4.3	8.7	13
Total	6.6	13.4	20

The larger budget for cattle research reflects the high costs of keeping infected cattle under stringent biosecurity containment in the laboratory.

Cumbria

Mr. Martlew: To ask the Secretary of State for Environment, Food and Rural Affairs how many people were employed by his predecessor Department in Cumbria in 1997; and how many were employed by his Department in Cumbria at the most recent date for which figures are available. [216277]

Jonathan Shaw: The number of staff employed by DEFRA's predecessor Department in Cumbria in 1997 is unavailable.

The number of staff (in full-time equivalents) employed at DEFRA's offices in Cumbria as at 30 June 2008 was as follows:

	Full-time equivalent
Carlisle (DEFRA)	1.00
Carlisle (Animal Health)	40.79
Carlisle (Rural Payments Agency)	377.57
Penrith (Veterinary Laboratories Agency)	25.18
Whitehaven (Marine and Fisheries Agency)	1.54
Workington (Rural Payments Agency)	672.37
Total	1,118.45

Departmental Aviation

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs how many individual domestic air flights were undertaken within Great Britain by representatives of *(a)* his Department and *(b)* its agencies in the most recent year for which figures are available; and at what cost. [215556]

Jonathan Shaw: From information held centrally and for the period April 2007 to March 2008 inclusive the information requested is as follows:

Body	*Expenditure (£)*	*Number of tickets*
CEFAS	1,196	14
Core-DEFRA	64,817	715
GDS	205	2
MFA	11,147	103
Animal Health	15,009	186
Rural Payments Agency	267,405	2,573

Expenditure on travel is undertaken in accordance with departmental travel policy.

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department has spent on *(a)* new capital investment and *(b)* refurbishment of property in each of the last 10 years, broken down by project. [212869]

Jonathan Shaw: Information for the period requested, broken down for the period from June 2001 onwards, being the inception of DEFRA, could only be provided at disproportionate cost.

The Department did not have systems in place to record all the information in the format requested and it would take several days to review systems and track all individual projects.

However spend, excluding property disposal income, against the Department's capital investment programme, on new and refurbishment projects but excluding projects for a number of its agencies (VLA, VMD, CSL, CEFAS) for the period 2001 has been identified as (rounded to the nearest £1 million):

	£ million
2001-03	5
2002-03	9
2003-04	13
2004-05	24
2005-06	22
2006-07	18
2007-08	19

During this period the following specific projects in excess of £0.5 million were undertaken and completed:

	£ million
London, 3-8 Whitehall Place—Fit out of developer led scheme	2.11
London, Nobel House—Major refurbishment	33.9
London, 55 Whitehall—Major refurbishment	4.97
London, Ergon House—Major refurbishments	3.5
London, 9 Millbank—Major refurbishments	3.0
Workington, BCMS Offices—New build modular offices	1.5
London, Eastbury House—Major refurbishments	1.3
Reading, Northgate House—Fit out of new Innovation Centre	1.51
Stafford, RAF Stafford—Fit out for new GDS agency	0.96
Worcester, Whittington Road—Major refurbishments	2.25
London, Ashdown House—Major refurbishments	4.39

Spend in the period 2005-08 period also includes circa £40 million value of projects currently in progress.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* new builds and *(b)* major refurbishments were completed by his Department for a cost in excess of £0.5 million in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08 to which the Building Research Establishment Environmental Assessment Method or equivalent was applied; how many such buildings were assessed as (A) pass, (B) good, (C) very good and (D) excellent; and if he will make a statement. [213697]

Jonathan Shaw: The Department, excluding a number of its agencies (VMD, CSL, CEFAS) have undertaken and completed BREEAM assessments on a number of new builds and major refurbishments with a value of exceeding £0.5 million as follows:

	Project title	*Rating*
2005-06	New Build—SVS Offices Carmarthen	Excellent Design
2005-06	New Build—3-8 Whitehall Place	Excellent Design
2005-06	New Build—Mills Building (VLA)	Excellent Design
2005-06	New Build—Stewart Stockman Building (VLA)	Very Good Design[1]
2005-06	Major Refurbishment—55 Whitehall	Very Good Design[2]
2006-07	Major Refurbishment—Nobel House	Excellent Design
2007-08	—	—

[1] Very Good achieved despite the building being a complex and high containment building

[2] Very Good achieved in what is a grade 2 listed building

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* new builds and *(b)* major refurbishments for a cost in excess of £0.5 million were completed by his Department in *(i)* 2005-06, *(ii)* 2006-07 and *(iii)* 2007-08. [213733]

Jonathan Shaw: The Department, excluding a number of its agencies (VMD, CSL, CEFAS) completed new builds and major refurbishments with a value exceeding £0.5 million as follows:

	New build	*Refurbishments*
2005-06	5	3
2006-07	1	12
2007-08	0	0

Departmental Conferences

Mr Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* scheduled date and *(b)* title was of each conference proposed to be hosted by his Department and its agencies which was cancelled before taking place in each of the last 10 years; and what costs were incurred in respect of each. [215176]

Jonathan Shaw: This information is not held centrally and could be obtained only at disproportionate cost.

Departmental Consultants

Mr. Evans: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department spent on consultancy fees in each of the last five years. [215378]

Jonathan Shaw *[holding answer 1 July 2008]:* I refer the hon. Member to Figure 18, page 141 of the Departmental Report 2008 for DEFRA presented to Parliament by the Secretary of State for DEFRA in May 2008. Figures for the financial year 2007-08 are being finalised and will be available in September 2008.

Departmental Official Cars

Stephen Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs which make and model of car he has chosen as his ministerial car to be provided by the Government Car and Despatch Agency. [217769]

Jonathan Shaw: DEFRA's official ministerial cars are all hybrid, with two Toyota Prius cars (1.5 litre petrol/electric) and two Honda Civic Hybrid cars (1.4 litre). The Secretary of State's car is a Toyota Prius.

The Government Car and Despatch Agency (GCDA) is responsible for providing ministerial cars in line with the Ministerial Code and the Prime Minister's guidance 'Travel by Ministers'.

GCDA advises the Prime Minister on the suitability of cars for inclusion in his guidance, taking into account a number of criteria when assessing suitable cars including their environmental impact, running and maintenance costs and overall suitability as a ministerial car.

Lord Rooker and Helen Ghosh have both given up their GDCA allocated cars, but occasionally use GDCA pool cars and green cars where necessary, and there is no viable public transport alternative.

Departmental Official Hospitality

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 26 November 2007, *Official Report*, column 34W, on departmental official hospitality, when he expects the list of hospitality received by senior civil servants in his Department in 2007 to be published. [215247]

Jonathan Shaw: I refer the hon. Member to the answer the Chancellor of the Duchy of Lancaster gave him on 7 May 2008, *Official Report*, column 885W.

Departmental Pay

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs how many and what proportion of staff in his Department received bonus payments in each of the last five years; what the largest single payment was in each year; and if he will make a statement. [213311]

Jonathan Shaw: The following table shows details of performance bonuses awarded to staff in DEFRA in each financial year since November 2004. Data prior to November 2004, are only available at disproportionate cost.

Period	*Number of staff awarded bonuses*	*Proportion of workforce (Percentage)*	*Highest bonus paid (£)*
November 2004 - March 2005	[1]513	6.7	7,616
April 2005 - March 2006	[2]3,535	44.9	[3]12,000
April 2006 - March 2007	[2]2,239	37.3	15,147
April 2007 - March 2008	[2]1,818	36.9	15,640

[1] This figure includes in-year performance bonuses only, which are paid to staff at grade 6 and below.
[2] These figures include annual performance bonuses paid to staff in the SCS and at grade 6 and below. They also include in-year performance bonuses paid to staff at grade 6 and below.
[3] The figure quoted represents the highest bonus paid to a permanent member of staff. However, a higher bonus award of £34,040 was paid as an exceptional one-off circumstance, to a fixed-term appointee, as part of their contractual provisions.

The data cover annual performance bonuses paid to SCS and annual and in-year performance bonuses paid to staff in core-DEFRA and those Executive Agencies covered by the core-Department's terms and conditions (i.e. Animal Health, Marine and Fisheries Agency, Veterinary Medicines Directorate, Government Decontamination Service and Pesticides Safety Directorate (who merged with the HSE on 1 April 2008).

Separate performance bonus arrangements operate for staff in the SCS and those at grade 6 and below.

For the SCS

Non-consolidated cash payments, otherwise known as bonuses, are used to reward in-year performance in relation to agreed objectives, or short-term personal contribution to wider organisational objectives. Bonuses are paid addition to base pay increase and do not count towards pension.

Bonuses are allocated by departments from a 'pot' expressed as a percentage of the SCS salary bill, which is agreed centrally each year following the SSRB recommendations. The intention is that the bonus decisions should be differentiated in order to recognise the most significant deliverers of in-year performance.

The Department has limited discretion in the application of the policy, as the criteria for the operation of the arrangements are determined centrally by the Cabinet Office.

For staff at grade 6 and below

The High Performance Bonus schemes introduced in April 2005, provide staff in core-DEFRA and those Agencies covered by the core-Departments pay arrangements (i.e. Animal Health, Marine and Fisheries Agency, Veterinary Medicines Directorate and Government Decontamination Service), with recognition and reward for delivery of an outstanding outcome or performance that significantly exceeds normal expectations.

The process should provide staff at all grades with an opportunity to earn a bonus, and ensure that achievements in operational, policy and corporate services areas are recognised as being of equal esteem.

These are two types of award:

In-year high performance bonuses paid to individuals or teams in recognition of one-off achievements during the year; and

Annual high performance bonuses, which are paid to the top 10 per cent. of performers in each DG for delivery of an outstanding outcome or performance sustained throughout the whole year.

Departmental Secondment

Pete Wishart: To ask the Secretary of State for Environment, Food and Rural Affairs what procedures his Department uses to ensure equal opportunities in relation to staff secondments to the Department. [214685]

Jonathan Shaw: The Department has clear guidance on the use of inward secondments, defined as a posting for an individual from a non-civil service organisation.

Inward secondments can:

allow the Department to seek specialist expertise which cannot be provided by existing staff and for which recruitment to permanent posts is not appropriate;

enable the Department to offer to other organisations the broadening, personal development and skills enhancement we seek for our own staff;

foster mutual understanding and co-operation and promote links between the Department and particular sectors or organisations.

They are not a means of addressing the Department's long-term in-house staffing needs and do not restrict opportunities for permanent staff.

For all secondment appointments below senior civil service which will exceed one year, modified rules of fair and open competition apply. The business unit must provide evidence that they have created as wide a field of candidates as they can in the circumstances; that they have selected the best candidate; and that the candidate's qualifications and experience are such as to qualify them to undertake the duties required. However, a single body may be approached where it is the only likely source of a particular expertise, where the secondment is intended to foster a particular relationship between the Department and an external organisation, or where it is part of a recognised programme.

Departmental Sick Leave

Mr. Hayes: To ask the Secretary of State for Environment, Food and Rural Affairs how many days of sick leave were taken by his Department's employees in each year since 1997. [216693]

Jonathan Shaw: Information on sickness absence in the civil service is available at:

http://www.civilservice.gov.uk/about/statistics/sickness.asp.

Published data are available from the 2004 calendar year to the 2006-07 financial year. The number of working days lost due to sickness in DEFRA was as follows:

	Number
2004	56,000
2005	59,826
2006-07	48,026

Data on days lost to sickness before 2004 could be provided only at disproportionate cost.

Departmental Visits Abroad

Mr. MacNeil: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost of overseas visits by each Minister in his Department has been since 1997. [214627]

Jonathan Shaw: Since 1999, the Government have published the total cost of all overseas travel by Ministers and a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007, *Official Report*, column 1112W. Details for the financial year 2007-08 will be published before the summer recess and will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the Ministerial Code.

Information in respect of overseas visits by all Ministers for the period 1997-99 could be provided only at disproportionate cost.

Departmental Wastes

Mr. Jenkins: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department has taken to reduce the volume of waste produced by it and sent to landfill in each of the last two years. [215918]

Jonathan Shaw: The Secretary of State for Environment, Food and Rural Affairs can confirm that between 2005-06 and 2006-07 the Department's waste arisings decreased by 8 per cent.

DEFRA has taken steps to reduce its waste by ensuring that printers are automatically set to duplex and have the ability to print more than one page to a side. The Department has stopped providing printed copies of its weekly Office Notices, saving over two million sheets of paper, in its place the Office Notice is published electronically on the DEFRA intranet.

DEFRA has also increased recycling by 8 per cent. between 2005-06 and 2006-07 resulting in less waste being sent to landfill.

The increase in recycling can be attributed to staff awareness campaigns and improved site recycling facilities.

At this time the Sustainable Development Commission have yet to verify Government data for 2007-08. Therefore we are unable to provide this information.

Fishing Vessels: Fuels

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what assistance his Department is giving the commercial sea fishing industry to improve the fuel efficiency of its vessels. [217273]

Jonathan Shaw: In 2005-06, DEFRA funded a £20,000 study by SEAFISH on how fishing vessels could reduce their fuel consumption. The results of that study are available to the industry, and advice on what vessel owners can do to improve efficiency is widely available from SEAFISH.

£71 million of grants through the European Fisheries Fund will come on stream in autumn. A significant proportion of these funds will be targeted to support the industry in adapting to higher fuel prices, including through increasing fuel efficiency.

Food Supply

Mr. Jenkin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 1 July 2008, *Official Report*, column 733W, on food supply, under what circumstances the Government would seek to access food stocks identified by his Department's database. [217222]

Jonathan Shaw: The food supply chain is robust due to the high degree of substitutability of food stuffs and the range of options available when one element of the supply chain is disrupted. This flexibility arises from a combination of domestic production and the multiplicity of trading and transport options that exist.

In the event of a disruption to the food supply, DEFRA would work closely with the food industry to deal with the situation. The information held in the database allows DEFRA to better represent the food industry in any discussions with other Government Departments during incidents which could impact on the industry. However, it is not possible to speculate in advance on the Government's future actions.

Mr. Jenkin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 1 July 2008, *Official Report*, column 733W, on food supply, what stocks are held which are not part of the existing food distribution chain. [217306]

Jonathan Shaw: There are no food stocks held in the UK outside the existing food distribution chain.

Geographical Information Systems

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of the presentation and handouts produced by his Department's representative at the conference on GIS in the Public Sector held in London on 14 May 2008. [217856]

Jonathan Shaw: The presentation made by DEFRA at the GIS in the Public Sector conference on the 14 May was part of a joint presentation with the Local Government Association. A more up-to-date presentation from DEFRA—'Seeing the bigger picture: Mapping out a vision of INSPIRE'—was made at the European Commission's INSPIRE Conference held in Slovenia from 23 to 25 June. It is publicly available on the conference website at:

http://www.ec-gis.org/Workshops/inspire_2008/presentations/06_02_watson.pdf.

The vision for implementing INSPIRE is still in the process of being updated.

Hunting

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department has made an assessment of the effects of the Hunting Act 2004 on *(a)* rural employment, *(b)* the rural economy and *(c)* the numbers of (i) fox hounds and (ii) horses. [217261]

Jonathan Shaw: The Government have made no detailed assessment of the effect of the Hunting Act on rural employment, the rural economy or on the numbers of fox hounds and horses.

The Government note, however, that there is no evidence that the adverse economic, social and welfare consequences, predicted by opponents of the Hunting Act during its passage, have materialised.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Environment, Food and Rural Affairs when the Minister of State plans to reply to the letter from the hon. Member for West Worcestershire dated 13 June 2008, about the dog rental company, FlexPetz. [217781]

Jonathan Shaw *[holding answer 10 July 2008]:* My noble Friend the Lord Rooker sent his reply to the hon. Member for West Worcestershire on 9 July.

Nature Conservation: Finance

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department spent on wildlife management and conservation in each of the last five years, broken down by main budget heading. [210937]

Joan Ruddock: Expenditure on UK Biodiversity forms one of the suite of indicators which DEFRA publishes on behalf of the UK Biodiversity Partnership in 'Biodiversity Indicators in your pocket'. Available information based on that underpinning the indicator is provided in the following table. The figures represent programme spend only and do not capture staff costs in non-departmental public bodies funded by the Department through grant-in-aid. Staff in these organisations also contribute significantly to wildlife management and conservation through their various activities, including for example, provision of advice. Furthermore, a number of other programmes have also contributed approximately £10 million per annum to the total budget.

DEFRA's expenditure on biodiversity has approximately doubled in real terms over the last five years. The majority of this comes from agri-environment expenditure. £3.9 billion of agri-environment funding has been secured for England for the period 2007-13, much of which will be targeted at biodiversity. Other contributions also arise from other organisations such as the Royal Botanical Gardens—Kew, who for example, will receive £17.6 million in grant-in-aid this year.

Public sector expenditure on biodiversity schemes

current prices, £ million[1]

	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-08*[p]	*2008-09 (budget)*[2]
DEFRA						
Agri-Environment Schemes[3]						
ESA/CSS[4]	129.8	167.8	187.2	170.3	145.3	130.0
Environmental Stewardship	—	—	—	84.3	180.9	250.0
Darwin Initiative[5]	4.0	5.0	7.0	7.7	9.4	4.8
Environment Agency	4.0	6.1	10.8	11.9	7.6	[6]7.6
of which:						
estimated expenditure in England[7]	3.4	5.2	9.2	10.1	6.5	[6]6.5
Forestry Commission England	14.4	14.7	17.7	22.8	28.1	n/a
Natural England[8]	57.2	55.5	57.3	54.1	51.7	[6]51.7
Joint Nature Conservation Committee[9]	1.2	1.4	1.8	1.8	2.1	[6]2.1
DEFRA family total (programme/grant spending)[10]	210.0	249.6	280.2	351.2	423.9	466.6

n/a = Data not yet available.
[1] The estimates cover DEFRA family non-administration expenditure related to biodiversity in England and globally.
[2] Where data are provided for 2007-08 and the 2008-09 budget was not available, the 2007-08 estimate has been carried forward.
[3] This represents total scheme expenditure, of which a major share is judged to be spent on biodiversity schemes.
[4] Environmentally sensitive areas and countryside stewardship schemes.
[5] Darwin initiative budget has been reduced in 2008-09 to balance overspend in 2007-08.
[6] Data are provisional or have been assumed to be carried forward.
[7] Based on DEFRA share of grant-in-aid expenditure on environmental protection.
[8] The Natural England contribution to JNCC has been excluded to avoid duplication.
[9] Expenditure shown is based on the income contribution from DEFRA and Natural England as a proportion of total income.
[10] See note 3. Note that Forestry Commission expenditure includes both grant aid to woodland owners and expenditure on the public forest estate.

Nature England: Environment Protection

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how much the administration of environmental stewardship schemes cost Natural England in the last year for which figures are available, broken down by scheme; and whether this cost is met from *(a)* funding under the England Rural Development Programme and *(b)* within his Department's Natural Environment budget [215370]

Jonathan Shaw: The cost to Natural England of administering Environmental Stewardship is estimated to be £41.6 million per annum. This includes staff, overheads and IT.

We do not record administration costs associated with different schemes separately. Our estimate is that administration costs associated with each scheme is as follows: Entry Level Stewardship/Organic Entry Level Stewardship (£9.6 million) and Higher Level Stewardship (£32.0 million).

The cost of administering the schemes is not met from the £2.9 billion over the current seven-year period allocated to RDPE for making scheme payments to landmanagers. It comes from Natural England's grant in aid funding.

River Thames: Transport

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has for promoting greater use of the River Thames for *(a)* passenger and *(b)* freight traffic; what estimate he has made of the amount of (i) passenger and (ii) freight traffic on the River Thames in each year since 1990; and if he will make a statement. [217903]

Jonathan Shaw: The Environment Agency is working with Sea and Water, the Inland Waterways Advisory Council and the Association of Inland Navigation Authorities to further the potential for the growth of freight across their waterways.

The Environment Agency promotes the River Thames as a leisure destination through a tourism marketing partnership under the River Thames brand. It promotes passenger boats as a leisure experience and an alternative form of transport through this partnership.

The Environment Agency is the navigation authority for the non-tidal River Thames (source to Teddington) and registered the following number of passenger boats for use on the non-tidal Thames from 1990 to 2008.

	Number
1990	67
1991	64
1992	69
1993	69
1994	62
1995	63
1996	65
1997	69
1998	65
1999	60
2000	61
2001	60
2002	58
2003	58
2004	57
2005	58
2006	57
2007	55
2008	58

The Environment Agency started monitoring passenger boat movements through locks (traffic) in 2004. The figures are shown in the following table:

	Number
2004	4,853
2005	12,602
2006	14,118
2007	14,314

The Environment Agency does not specifically monitor freight traffic as this is currently negligible on the non-tidal Thames.

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs what money has been received in the last 10 years from the European Union for promoting greater use of the River Thames for *(a)* passenger and *(b)* freight traffic. [217906]

Jonathan Shaw: The Environment Agency is the navigation authority for the non-tidal River Thames (source to Teddington). No money has been received in the last 10 years from the European Union for promoting greater use of the River Thames for passenger and freight traffic. The Thames Valley is not a priority area for European funding.

Shellfish

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) who has powers to close shellfish waters to fishing on grounds of pollution or toxicity levels; [217047]

(2) what steps his Department takes to prevent shellfish from *(a)* British and *(b)* other waters being marketed when affected by radioactivity or other pollution. [217048]

Dawn Primarolo: I have been asked to reply.

Food business operators are responsible for placing safe food on the market.

The Food Standards Agency (FSA) is the competent authority for food safety, and is responsible for designating and classifying shellfish beds and ensuring that these areas are monitored for microbiological contamination and the presence of marine biotoxins in accordance with the relevant food safety legislation. In England and Wales this monitoring is undertaken by local enforcement authorities. Delegated powers are conferred on local enforcement authorities to close shellfish beds when monitoring results exceed specified legal limits.

The FSA also carries out a comprehensive monitoring programme around United Kingdom nuclear sites and further afield to ensure the safety of seafood from radioactive pollution. For shellfish from other waters, the port health authorities have the powers to sample shellfish (and other foods) for radioactive pollution and prohibit their placing on the market in the UK, if appropriate.

Subject to ministerial approval, the FSA may also issue Emergency Closure Orders under the Food and Environment Protection Act 1995 to close shellfish beds due to toxicity or pollution levels.

Sites of Special Scientific Interest: Environment Protection

Ben Chapman: To ask the Secretary of State for Environment, Food and Rural Affairs what his policy is on the preservation of heathland on Sites of Special Scientific Interest. [217668]

Joan Ruddock: Our policy for heathland on Sites of Special Scientific Interest is to avoid any loss of extent, to maintain the condition of those areas in favourable condition and to improve conditions in those areas that are currently unfavourable.

We are on course to meet the PSA target of 95 per cent. of SSSIs in favourable or recovering condition by 2010. The current figure for heathland SSSIs is 79.2 per cent.

HOME DEPARTMENT

Antisocial Behaviour Orders: Wales

Mrs. Gillan: To ask the Secretary of State for the Home Department how many antisocial behaviour orders were *(a)* issued and *(b)* breached in Wales in each year since they were introduced. [218770]

Mr. Coaker: The number of antisocial behaviour orders (ASBOs) issued and breached in Wales (up to 31 December 2006) are given in the following tables. The first table shows the number of orders issued (by year and by area) and the second the number of orders breached in each year by area. It is of course possible that an order recorded as having been breached in, say, 2004 could have been issued in 2003, and therefore the two tables are not directly comparable.

Table 1: Number of antisocial behaviour orders issued at all courts, as reported to the Home Office by the Court Service, by CJS area and year, April 1999 to December 2006

CJS area	Total issued	1999-2000 Apr 99-May 00	2000 Jun-Dec	2001	2002	2003	2004
Dyfed Powys	43	—	—	—	—	12	8
Gwent	121	—	—	2	2	8	27
North Wales	255	—	1	—	7	15	42
South Wales	201	—	1	4	3	29	46
Total Wales	620	—	2	6	12	64	123

	2005					2006				
CJS area	Jan-Mar	Apr-Jun	Jul-Sep	Oct-Dec	Total	Jan-Mar	Apr-Jun	Jul-Sep	Oct-Dec	Total
Dyfed Powys	1	2	5	7	15	6	1	—	1	8
Gwent	7	14	7	5	33	15	9	10	15	49
North Wales	23	31	29	20	103	19	25	17	20	25	87
South Wales	15	15	18	16	64	19	16	10	9	54
Total Wales	46	62	59	48	215	65	43	40	50	198

Notes:
1. Previously issued data have been revised.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:
Prepared by OCJR

Table 2: ASBOs proven in court to have been breached for the first time within the periods shown[1] by CJS area[2] from 1 June 2000 to 31 December 2006

CJS area	2000-02[3]	2003	2004	200	2006	Total
Dyfed Powys	0	5	5	6	10	26
Gwent	3	2	16	24	17	62
North Wales	3	7	12	50	51	123
South Wales	4	11	12	29	30	86
Total Wales	10	25	45	109	108	297

[1] ASBOs may be breached more than once and in more than one year. In this table ASBOs are counted once only within the period when they were first breached.
[2] ASBOs may be issued in one area and breached in another. Breaches are counted in this table by area of issue.
[3] From 1 June 2000.

Note:
Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

OCJR Court Proceedings Database

Burglary: Wales

Mrs. Gillan: To ask the Secretary of State for the Home Department how many burglaries were reported in each police authority area in Wales in each year since 1997; and how many convictions for burglary were obtained in each authority area in each of those years. [218777]

Mr. Coaker: Statistics on the number of recorded offences of burglary in Wales for the years 1997 to 2006-07 are given in Tables 1-3.

Statistics on the number of defendants found guilty at all courts in Wales for burglary for the years 1997 to 2006 are provided in Table 4. Information for 2007 will be available in the autumn of 2008.

The figures given in Table 4 relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Caution must be used when looking at recorded crime statistics and convictions statistics as these are from two different databases and recorded in quite different ways. Recorded crime data are provided on a financial year basis and count offences whereas court proceedings data are on a calendar year basis and count offenders. Therefore, these two separate data-sets are not directly comparable.

Table 1 Offences of burglary recorded by the police in Wales, 1997

Police force area	*Number of offences*
Dyfed-Powys	2,590
Gwent	9,154
North Wales	7,554
South Wales	27,147
Wales	46,445

Table 2 Offences of burglary recorded by the police in Wales, 1998-99 to 2001-02

Police force area	*1998-99*	*1999-2000*	*2000-01*	*Number of offences 2001-02*
Dyfed-Powys	2,615	2,072	1,489	2,122
Gwent	8,416	7,656	6,899	6,169
North Wales	7,226	6,892	7,197	7,368
South Wales	23,684	20,144	16,765	16,549
Wales	41,941	36,764	32,350	32,208

Notes
1. The coverage was extended and counting rules revised from 1998-99. Figures from that date are not directly comparable with those for 1997.
2. The data in this table are prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.

Table 3 Offences of burglary recorded by the police in Wales, 2002-03 to 2006-07

Police force area	*2002-03*	*2003-4*	*2004-05*	*2005-06*	*Number of offences 2006-07*
Dyfed-Powys	2,104	2,703	2,875	2,240	2,232
Gwent	7,586	7,541	6,528	5,999	5,740
North Wales	8,534	7,301	5,008	4,471	4,565
South Wales	18,615	17,127	14,873	13,608	14,237
Wales	36,839	34,672	29,276	26,318	26,774

Note
1. The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Table 4 Number of defendants found guilty at all courts for burglary by police force area, Wales 1997-2006[1,2]

Police force area	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*Number of defendants found guilty 2005*	*2006*
Dyfed-Powys	335	325	268	219	222	220	198	157	147	163
Gwent	426	431	416	334	371	394	344	345	273	306
North Wales	411	437	382	353	353	335	338	315	275	283
South Wales	888	987	883	789	694	806	708	664	584	621
Wales	2,060	2,180	1,949	1,695	1,640	1,755	1,588	1,481	1,279	1,373

Notes
1 These data are on the principal offence basis.
2 Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Skunk Cannabis

Tim Loughton: To ask the Secretary of State for the Home Department what estimate her Department has made of trends in the average street price of skunk cannabis in the last two years. [216998]

Mr. Coaker: Street prices of drugs vary considerably and are dependent on a number of factors such as demand, availability and quality. In 2006, the average street price for one ounce of skunk cannabis was estimated at £118. In 2007, the price for one ounce of skunk cannabis ranged between £100 and £200, the average price being estimated at £136.

Tim Loughton: To ask the Secretary of State for the Home Department how much skunk cannabis was seized in each year since 1997, broken down by local authority area. [218419]

Mr. Coaker: The information requested is not collected centrally. Skunk cannabis is not separately identifiable in the Home Office's drug seizures collection.

Crime

Mr. Ruffley: To ask the Secretary of State for the Home Department how many *(a)* violent crime offences, *(b)* car crime offences, *(c)* robberies, *(d)* burglaries, *(e)* thefts and *(f)* criminal damage offences there were per 1,000 head of population for each police area in England and Wales in 2007. [219147]

Mr. Coaker: The information requested is not currently available. Detailed recorded crime data for 2007-08 will be published in "Crime in England and Wales 2007/08" on 17 July 2008.

Crimes of Violence: Cambridgeshire

Mr. Moss: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in *(a)* Cambridgeshire Constabulary area and *(b)* Cambridge Constabulary Central Division in each of the last five years. [217078]

Mr. Coaker: The information requested is given in the following table.

Offences of violence against the person recorded by the police in Cambridgeshire

Number of offences

	Cambridgeshire police force area	*Cambridgeshire central*
2002-03	12,574	3,521
2003-04	13,663	3,876
2004-05	13,358	3,638
2005-06	10,158	2,892
2006-07	10,421	2,896

Crimes of Violence: East of England

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department how many violent crimes against the person were recorded per 1,000 population in each local authority area in the *(a)* East of England and *(b)* East Midlands region in each year since 2002; and if she will make a statement. [216333]

Mr. Coaker *[holding answer 3 July 2008]:* The information requested is given in the following table.

Recorded offences of violence against the person. Rate per 1,000 population in the East of England and East Midlands region

Region and local authority area	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*

Domestic Violence

Mrs. Riordan: To ask the Secretary of State for the Home Department what steps her Department has taken together with local authorities to encourage women to report domestic violence. [217174]

Mr. Coaker: The Home Office has developed a co-ordinated community response to domestic violence, which has included:

providing funding to local partnerships through the Government offices for the regions to support them in developing and rolling out awareness raising campaigns to encourage victims of domestic violence to report incidents.

providing funding to the Local Government Association in December 2003 to run a three-year domestic violence project aimed at identifying and promoting good practice of councils and partner organisations in addressing domestic violence.

developing local area agreement stretch targets for local partnerships, which included increasing the rate of reporting of domestic violence to various agencies.

working with local partnerships through the Government offices for regions to launch the ENOUGH campaign in 2006 and 2007 which encouraged third party reporting of domestic violence incidents.

developing and rolling out routine inquiry to all women attending antenatal clinics and encouraging similar responses for all social and health care agencies to identify victims of domestic violence.

Drugs: Burma

Mr. Keith Simpson: To ask the Secretary of State for the Home Department what assessment she has made of the extent of illicit trafficking of opium across Burma's borders into neighbouring countries; and what proposals the Government has put forward to reduce the trade. [218327]

Mr. Coaker: The most recent assessment was conducted in 2007 and drew on information from the United Nations Office for Drugs and Crime's World Drugs Report 2006. This noted that opium and heroin from

Laos and Burma is trafficked to neighbouring South East Asia countries (notably China) and to the Oceania region (mainly Australia). The main focus of the United Kingdom Government's drugs strategy is on drugs trafficked to this country and there was no indication that any of the traffic out of Burma is destined for the United Kingdom. The current stance of the Burmese Government makes it difficult for any non-Burmese national and international agency to work in that country.

Female Genital Mutilation

Mrs. May: To ask the Secretary of State for the Home Department how many cases of female genital mutilation have been referred to the police since 2003. [217605]

Mr. Coaker: The Home Office collects recorded crime data for offences committed under the Female Genital Mutilation Act 2003. However, these offences are recorded under the offence classification of 'Less serious wounding' and cannot be separately identified from other offences within that offence classification.

Fraud: Crime Prevention

Mr. Djanogly: To ask the Secretary of State for the Home Department to what extent combating fraud is a national policing priority; and whether she plans to alter the level of national priority currently accorded to combating fraud. [216034]

Mr. Coaker: The Government take all forms of fraud seriously which is why they have allocated £29 million over the next three years to implement the recommendations of the fraud review. Some of this funding will be directed towards enhancing the police response to fraud by giving the City of London police a national lead role in fraud investigation. The force already receives additional Government and Corporation of London funding to perform a lead force role across the South East and this further funding will enable the force to expand its Economic Crime Department and take on the investigation of serious and complex frauds across the country. The force will also establish a centre of excellence which will provide best practice advice to other forces around the country.

The Home Secretary sets strategic priorities for the police service each year to inform police planning. Last year, these were included in the National Community Safety Plan. Combating fraud is one aspect of the priority on serious and organised crime. We will keep this under review.

Human Trafficking

Mr. Steen: To ask the Secretary of State for the Home Department how many of the victims of trafficking found during Operation Pentameter 2 were found outside city centres. [217973]

Mr. Coaker: Information on location of victims was not collected under Operation Pentameter 2 in a way that defined city centres as geographically separate from the cities themselves.

Mr. Steen: To ask the Secretary of State for the Home Department how many victims of human trafficking were found in *(a)* residential properties and *(b)* massage parlours and saunas raided under Operation Pentameter 2. [217976]

Mr. Coaker: A total of 167 victims of trafficking for sexual exploitation were recovered under Operation Pentameter 2 from a number of properties including residences and massage parlours.

The precise numbers found in each type of property is not held centrally.

Mr. Steen: To ask the Secretary of State for the Home Department how much of the money recovered as a result of Operation Pentameter 2 has gone to *(a)* victims in compensation and *(b)* the Exchequer; and what currencies the money recovered was in. [217978]

Mr. Coaker: All receipts from recovered assets are transferred to the Treasury with 50 per cent. returned to the investigative, prosecution and enforcement bodies for re-investment in further asset recovery activity. The remaining 50 per cent. is received by the Home Office and supports a range of business, including community crime reduction projects.

There are various avenues for victims of crime to claim compensation. Victims of violent crime can apply to the Criminal Injuries Compensation Authority, which has granted awards for victims of human trafficking. Additionally, prosecutors can request a compensation order following a conviction and the Crown Prosecution Service has issued guidance highlighting the application of this in human trafficking cases. It is also open to a victim to pursue compensation directly through the civil courts.

The vast majority of cash seized under Operation Pentameter 2 was in sterling with a small amount in euros.

Mr. MacDougall: To ask the Secretary of State for the Home Department what recent steps she has taken to stop human trafficking; and if she will make a statement. [218460]

Mr. Coaker *[holding answer 14 July 2008]:* On 2 July we published the update on the United Kingdom Action Plan on Tackling Human Trafficking and on the same day announced the outcomes of Operation Pentameter 2.

The original action plan was published in March 2007. It outlines the Government's end to end strategy to tackle human trafficking and to identify and protect victims. The update reports on progress since then and sets out new actions—85 in total, up from 62 actions originally.

Operation Pentameter 2 was a major success. It resulted in the arrest of 528 people and the recovery of the 167 victims of trafficking for sexual exploitation. A total of 15 victims of trafficking for sexual exploitation were recovered in Scotland.

We remain committed to tackling this horrendous crime and continue to make progress towards our overall aim of ensuring the UK becomes a hostile environment for the traffickers. This will be further reinforced by the ratification of the Council of Europe Convention on Action against Trafficking in Human Beings before the end of 2008.

Human Trafficking: Arrests

Mr. Steen: To ask the Secretary of State for the Home Department how many people arrested under Operation Pentameter 2 have been *(a)* charged and *(b)* convicted of human trafficking offences. [217969]

Mr. Coaker: As at May 2008 a total of 71 people arrested under Operation Pentameter 2 had been charged with offences under the dedicated human trafficking legislation. These cases are currently at different stages of the criminal justice process.

Mr. Steen: To ask the Secretary of State for the Home Department how many individuals were arrested during Operation Pentameter 2. [217970]

Mr. Coaker: 528.

Human Trafficking: Children

Mr. Steen: To ask the Secretary of State for the Home Department how many of the children found as a result of Operation Pentameter 2 have *(a)* been provided with safe house accommodation and *(b)* gone missing since being rescued. [217977]

Mr. Coaker: It is the statutory responsibility of local authorities to assess the needs of all separated children at risk of harm and in need of accommodation. It is their responsibility to provide suitable accommodation, following this assessment, ensuring that they are safeguarded and their welfare promoted under the provisions of the Children Act 1989.

We understand from the police that Operation Pentameter 2 identified 16 children, 13 of whom had been trafficked for sexual exploitation and three for forced labour.

All were appropriately referred to local authorities. We understand from the police that one has absconded.

Human Trafficking: Repatriation

Mr. Steen: To ask the Secretary of State for the Home Department how many of the adult victims of trafficking found under Operation Pentameter 2 have been returned to their country of origin. [217975]

Mr. Coaker: Under Pentameter 2, forty-eight individuals identified as victims of trafficking by the police have returned to their country of origin.

Robbery: Wales

Mrs. Gillan: To ask the Secretary of State for the Home Department how many recorded incidents of *(a)* robbery and *(b)* drug offences there were in each police authority area in Wales in each year since 1997. [218761]

Mr. Coaker: The available information relates to the number of recorded robbery and drug offences and is given in the following tables.

Table 1 Offences of robbery recorded by the police in Wales, 1997

	Number of offences
Dyfed-Powys	34
Gwent	156
North Wales	112
South Wales	509
Wales	811

Table 2 Offences of robbery recorded by the police in Wales, 1998-99—2001-02

	1998-99	1999-2000	2000-01	2001-02
	Number of offences			
Dyfed-Powys	42	28	20	26
Gwent	173	216	242	215
North Wales	127	146	158	194
South Wales	511	519	460	595
Wales	853	909	880	1,030

Notes:
1. The coverage was extended and counting rules revised from 1998-99. Figures from that date are not directly comparable with those for 1997.
2. The data in this table are prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.

Table 3 Offences of robbery recorded by the police in Wales, 2002-03—2006-07

	2002-03	2003-04	2004-05	2005-06	2006-07
	Number of offences				
Dyfed-Powys	40	54	41	40	47
Gwent	329	274	351	316	282
North Wales	224	201	149	150	134
South Wales	784	751	543	631	891
Wales	1,377	1,280	1,084	1,137	1,354

Note:
1. The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Table 4 Drug offences recorded by the police in Wales, 1997[1]

	Number of offences
Dyfed-Powys	374
Gwent	389
North Wales	238
South Wales	525
Wales	1,526

1. Figures for 1997 are for drug trafficking only.

Table 5 Drug offences recorded by the police in Wales, 1998-99—2001-02

	1998-99	1999-2000	2000-01	2001-02
	Number of offences			
Dyfed-Powys	2,483	2,030	1,273	2,407
Gwent	2,447	2,214	2,196	1,729
North Wales	1,885	1,586	1,421	1,382
South Wales	2,934	2,690	3,039	3,907
Wales	9,749	8,520	7,929	9,425

Notes:
1. The coverage was extended and counting rules revised from 1998-99. Figures from that date are not directly comparable with those for 1997.
2. The data in this table are prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.

Table 6 Drug offences recorded by the police in Wales, 2002-03—2006-07

Number of offences

	2002-03	2003-04	2004-05	2005-06	2006-07
Dyfed-Powys	2,978	2,420	2,327	2,495	2,484
Gwent	1,585	1,422	1,332	1,412	1,888
North Wales	1,830	1,830	1,833	2,108	2,105
South Wales	3,872	3,837	3,705	3,483	4,051
Wales	10,265	9,509	9,197	9,498	10,528

Note:
1. The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Squatting

Mr. Pickles: To ask the Secretary of State for the Home Department what guidance has been issued to the police by her Department on the treatment of squatters. [218300]

Mr. Coaker: The Home Office has not issued any guidance to the police on the treatment of squatters.

Stalking

Tom Brake: To ask the Secretary of State for the Home Department how many reviews of the handling of stalker cases involving *(a)* children and *(b)* adults being stalked are under way; when the reviews will be completed; and what guidance her Department has issued to police authorities on the need to review cases involving stalkers. [212670]

Mr. Coaker: No specific reviews of the handling of cases involving children and adults being stalked have been commissioned by the Department.

The Government, however, are committed to tackling the incidence of stalking and harassment. The Home Office currently sits on the Association of Chief Police Officers (ACPO) Stalking and Harassment Working Group and has been working closely with them to develop a national risk identification toolkit to ensure that officers are able to apply risk assessments in all cases of stalking and harassment, allowing them to better predict levels of risk to victims.

Revised guidance outlining how police officers should investigate and deal with cases of harassment will be launched by ACPO in the autumn.

COMMUNITIES AND LOCAL GOVERNMENT

Community Development: Wales

Mr. Dai Davies: To ask the Secretary of State for Communities and Local Government what discussions she had with her counterparts in the Welsh Assembly Government on initiatives announced in the White Paper, 'Communities in control', Cm 7427, prior to its finalisation for publication. [218906]

Mr. Dhanda: Chapter 1 of 'Communities in control: real people, real power' explains that the policies in the White Paper largely cover England only (paragraph 1.57). We will engage with all devolved administrations on implementation, issue by issue.

Departmental Car Allowances

Sir Nicholas Winterton: To ask the Secretary of State for Communities and Local Government what mileage allowance is provided to each category of entitled worker by *(a)* her Department and *(b)* local authorities; and if she will make a statement. [218483]

Mr. Dhanda: Motor mileage allowance may be claimed for the purpose of official travel by all Communities and Local Government staff. For journeys where staff could reasonably be expected to use public transport then an equivalent mileage rate is paid. A higher, standard mileage rate may be claimed where it is not practical to use public transport. The allowance rates are currently:

Standard mileage rate

Higher (up to 10,000 miles): 40p per mile;

Lower (over 10,000 miles): 25p per mile.

Public transport rate

All mileage: 25p per mile.

Details of motor mileage allowances provided by local authorities are not held centrally.

Departmental Film

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 20 May 2008, *Official Report*, columns 263-4W, on departmental film, if she will place in the Library a copy of *(a)* the film about the work of the Department and *(b)* the PowerPoint presentation, "One year on (Celebrating success and looking to the future)". [217962]

Mr. Dhanda: I have placed a copy of the two films in the Library.

Departmental ICT

Mr. Hoban: To ask the Secretary of State for Communities and Local Government what IT contracts her Departments and its agencies have entered into in the last two years. [215122]

Mr. Dhanda: The Department has awarded the following contracts for IT in the last two financial years. Please note that this list is not exhaustive; it does not, for instance, cover contracts awarded for under £20,000. Details of all IT contracts are not held centrally and could be provided only at disproportionate cost.

The Department agencies have reported the following:

(a) Fire Service College has only had the following IT contract entered into during the last two years in December 2007 for a Managed Learning System infrastructure and support services.

(b) Ordnance Survey has let the following contracts:

Imagery Web Hosting Services

Customer facing web-based Map Services

Oracle Professional Services framework

GIS Development Project

Electronic Document Record Management solution

'Outdoor Exploration' web-based portal

Master Vendor Agency for IT Contractor Resource.

However details of all their IT contracts could be supplied only at disproportionate cost.

(c) Queen Elizabeth II Conference Centre has let one contract—Meeting Matrix—which is for the purchase and installation of room diagramming and imaging software to facilitate the planning of conference and exhibition events.

(d) Planning Inspectorate awarded the following IT contracts the last two financial years 1 April 2006 to 31 March 2008 (PQ 4317):

MS enterprise agreement

ISS Information Service

PCS Cardiff WAN Upgrade

Electronic Business Model

Programme Manager Software Tool

IT Security

GTN Contract

Collaborative Document Working and Consultation Software/ System for RSS

Technology Refreshment Laptops

Information Back-up Review

Technology Refreshment Desktop PCs.

Bob Spink: To ask the Secretary of State for Communities and Local Government how many of her Department's staff have access to the Department's IT infrastructure at home. [216371]

Mr. Dhanda: Communities and Local Government have 891 staff who have full remote access to the IT infrastructure. Some of these staff will use these devices from home and others will use them while on the move, or when working at other locations.

Departmental Manpower

Mr. Redwood: To ask the Secretary of State for Communities and Local Government what the change in the number of employees in her Department and its agencies has been since July 2006. [217069]

Mr. Dhanda: The following table shows the change in the number of employees in the Department for Communities and Local Government since July 2006:

	Number of employees		
	July 2006	*July 2007*	*July 2008*
Central CLG	2,283	2,291	2,176
Agencies:			
Fire Service College	215	213	205
Planning Inspectorate	804	855	859
QEII Centre	52	51	51
Total for agencies	1,071	1,119	1,115
Overall total	3,354	3,410	3,291

Departmental Records: Lost Property

Grant Shapps: To ask the Secretary of State for Communities and Local Government what information her Department's lost laptop held in relation to the Planning Bill. [216015]

Mr. Dhanda: A desk-top computer was stolen from my right hon. Friend the Secretary of State's constituency office. The matter is now subject to a police investigation.

Departmental Responsibilities

Mr. Maude: To ask the Secretary of State for Communities and Local Government how many reviews of regulation her Department and its agencies has conducted or commenced since July 2007; and in which areas. [210886]

Mr. Dhanda: Since July 2007 the Department has reviewed 20 specific pieces of regulations covering Building Regulations, Fire, Housing, Local Government and Planning. We are also putting in place arrangements for the timely review of our Bills and Acts in line with "Post Legislative Scrutiny: the Government's Approach" published in May 2008. The new impact assessment process introduced in May 2007, also places increased emphasis on the post-implementation review of our policies.

Departmental Sick Leave

Mr. Hayes: To ask the Secretary of State for Communities and Local Government how many working days have been lost due to sickness among employees for which her Department and its predecessor were responsible for each year since 1997. [218030]

Mr. Dhanda: I refer the hon. Member to the Cabinet Office series of reports "Analysis of Sickness Absence in the Civil Service" available in the House of Commons Library. However, there are no reported figures for 1997 and 1998.

Departmental Wastes

Mr. Jenkins: To ask the Secretary of State for Communities and Local Government what steps her Department has taken to reduce the volume of waste produced by it and sent to landfill in each of the last two years. [215913]

Mr. Dhanda: Communities and Local Government has taken numerous steps over the last two years to reduce its volume of general waste produced and sent for incineration. The measures taken have included:

Reducing the number of personal general waste bins, to encourage staff to produce less waste and to dispose of recyclable materials in the appropriate facilities provided.

In headquarter buildings, plastic bottle recycling has been replaced by a system of 'total plastics recycling' enabling all common plastic polymers to be recycled, not just those used for bottles.

Introducing mobile phone and waste electronic and electrical equipment recycling systems, in addition to the standard recycling provisions such as paper, cardboard, glass and cans.

Organic waste recycling was also extended, enabling staff to compost waste in tea points of HQ buildings. This facility is also provided in kitchens and restaurant areas.

The number of printers has also been reduced to encourage less printing.

Communications campaigns are run at various intervals to remind staff to recycle; this has included focusing on avoiding

the use of single use plastic bags and holding a 'Sustainability Month' during which staff were reminded to make full use of recycling facilities provided.

An environmental champions network has been established comprising staff volunteers who encourage their colleagues to foster more sustainable practices in the office, such as reducing waste production and recycling more.

Plastic food containers in staff restaurants have been replaced with biodegradable alternatives.

Major office furniture replacement projects have included ensuring redundant office furniture is disposed of by Green Works. Green Works is a not for profit social enterprise which redirects second hand furniture to third sector organisations such as schools and charities. The replacement office furniture has been selected ensuring a high level of reuse and recyclability to enable future general waste levels to be minimised.

Communities also relaunched its reusable water bottling scheme in its main HQ building. Instead of buying mineral water in glass bottles, the Department bottles filtered tap water on site in reusable glass bottles. This not only minimises waste but, similar to many sustainable waste solutions, reduces carbon dioxide emissions associated with waste treatment and transportation.

The Department will continue to identify further waste solutions to improve its future performance.

Digital Broadcasting

Mr. Don Foster: To ask the Secretary of State for Communities and Local Government what assessments her Department has made of the performance of the digital television initiatives in Kirklees, Hull and Glasgow referred to in the minutes of the Emerging Technologies Group meeting on 27 February. [217165]

Mr. Iain Wright: The Kirklees digital TV initiative was developed as part of the local e-government programme. In 2006, at the end of the programme, an assessment of the business case was undertaken. The business case continues to be revised annually on the basis of the experience of the 70+ local authorities who continue to use the service, now branded 'DigiTV'. The latest published business case can be found online at:

http://www.digitv.gov.uk/site/content/view/110/64/

Independent external evaluations of the programme in Kingston upon Hull are currently being undertaken both by the University of Hull and by York St John. These will report later in the year.

The Department has no responsibility for the digital television initiative being developed in Glasgow.

Digital Switchover Help Scheme

Mr. Don Foster: To ask the Secretary of State for Communities and Local Government how much funding her Department has provided for the digital television initiatives in Kirklees, Hull and Glasgow referred to in the minutes of the Emerging Technologies Group meeting of 27 February 2008. [215267]

Mr. Iain Wright: In total, £3,768,000 of funding was provided to develop the Kirklees initiative, which formed part of the local e-government programme. This initiative is now entirely self-sustaining and no longer relies on funding from central Government.

The Kingston upon Hull project has been allocated £30,000 from the overall award which was made to the runners-up in the Department's 2007 Digital Challenge competition to enable them to develop their key projects.

CLG has no responsibility for the Glasgow digital television initiative.

European Union Solidarity Fund

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what her most recent estimate is of the amount that the UK will receive from the European Union Solidarity Fund to assist in recovery from floods in 2007. [217835]

Kitty Ussher: I have been asked to reply.

The EU budgetary authority have approved €162.4 million in EUSF assistance for the UK in relation to the summer 2007 flooding. The sterling value of this grant will be determined at the time the funds are made available.

Fire Services: Finance

John McDonnell: To ask the Secretary of State for Communities and Local Government what the cost, including VAT, has been of consultants' fees for the FiReControl project, broken down by consultancy; and which of these costs will be included in the business case. [217128]

Mr. Dhanda *[holding answer 8 July 2008]:* Total project spend on consultants to the end of June 2008 was £38.6 million inclusive of VAT. The following table gives a breakdown by company:

Company name	£ *Costs to date*
Atkins Transport Planning	1,195,682
Cornwell Management Consultants Plc	1,194,949
Denton Wilde Sapte	2,145,670
Donaldsons	269,652
Electronic Commerce Associates Ltd	755,667
Hyder Consulting (UK) Ltd	100,320
Insight Management and Systems Consultants	148,462
PA Consulting Services Limited	25,371,774
PKF	889,516
Systeme Evolutif Ltd	42,158
Turner and Townsend	3,964,407
Other	2,493,255
Total	38,571,512

These costs were included in the business case version one published in June 2007 and will be updated in part two of the business case to be published later in the summer. A copy of the full business case will be placed in the Library.

John McDonnell: To ask the Secretary of State for Communities and Local Government what her Department's estimate for planning purposes of the convergence costs associated with FiReControl was in each fire *(a)* authority and *(b)* region; and whether these costs will be included in the FiReControl business case. [R] [217125]

Mr. Dhanda *[holding answer 8 July 2008]:* Regional and Fire and Rescue Authority project costs including the costs of convergence activities are met through New Burdens funding. A detailed breakdown of payments and allocations to Regions and Fire and Rescue Authorities can be found in Implementation Funding Circulars 63/2005, 44/2006, 76/2006 and 5/2008.

John McDonnell: To ask the Secretary of State for Communities and Local Government what the *(a)* staffing costs, including civil servants, interim and agency staff, *(b)* secondment costs and *(c)* travel costs of the national FiReControl project team have been; and whether these costs are included in the business case. [R] [217126]

Mr. Dhanda *[holding answer 8 July 2008]:* The following table identifies the costs incurred on FiReControl to the end of June 2008.

Resource type	*Total (£)*
T and S	1,176,773
Pay, civil servants	4,824,300
Interim (including fixed term contractors and agency staff)	11,692,568
Secondee	4,328,853
Total	22,022,494

These costs were included in the Business Case version 1 published in June 2007 and will be updated in part 2 of the Business Case to be published later in the summer. A copy of the full Business Case will be placed in the Library.

John McDonnell: To ask the Secretary of State for Communities and Local Government what the *(a)* staffing costs, including civil servants, interim and agency staff, *(b)* secondment costs and *(c)* travel costs of the regional FiReControl project teams have been; and whether these costs are included in the business case. [R] [217127]

Mr. Dhanda *[holding answer 8 July 2008]:* Regional and Fire and Rescue Authority project costs including those associated with staffing, secondment and travel are met as part of the New Burdens funding. A detailed breakdown of payments and allocations to Regions and Fire and Rescue Authorities can be found in Implementation Funding Circulars 63/2005, 44/2006, 76/2006 and 5/2008. CLG does not keep records of this expenditure.

John McDonnell: To ask the Secretary of State for Communities and Local Government what her estimate is of the cost, including VAT, of all consultants' fees for the FiReControl project for the duration of the project. [217129]

Mr. Dhanda *[holding answer 8 July 2008]:* To the end of June 2008 the cost of consultancy services for the FiReControl project totalled £38.6 million (inclusive of VAT). Communities and Local Government estimates that future costs will be £16.9 million (inclusive of VAT).

Fire Services

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what the cost of each fire and rescue service regional management board was in financial year *(a)* 2004-05, *(b)* 2005-06, *(c)* 2006-07 and *(d)* 2007-08; and if she will make a statement. [216560]

Mr. Dhanda: The running costs of each Regional Management Board (RMB) are financed by the constituent Fire and Rescue Authorities from the FRAs' allocations. How this is administered is a matter for each RMB. Central Government do not hold information about the cost of each RMB in each financial year.

Fish

Mr. Peter Ainsworth: To ask the Secretary of State for Communities and Local Government how much fish was procured by her Department and at what cost in each of the last five years, broken down by species; and what amount and value of such fish met the Marine Stewardship Council standard in each such year, broken down by species. [217898]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Fraud

Jenny Willott: To ask the Secretary of State for Communities and Local Government (1) on how many occasions staff employed by her Department and its agencies defrauded her Department in each of the last 10 years; and if she will make a statement; [214631]

(2) what estimate she has made of the losses to her Department from fraud committed by staff of her Department and its agencies in each of the last 10 years; and if she will make a statement; [214638]

(3) how many staff in her Department and its agencies were prosecuted for *(a)* attempting to defraud and *(b)* defrauding her Department in each of the last 10 years; and if she will make a statement; [214642]

(4) how many staff of her Department and its agencies were responsible for each instance of fraud or attempted fraud in her Department and its agencies in each of the last 10 years; and if she will make a statement. [214645]

Mr. Dhanda: Since 2003 departmental records show that there have been two members of staff who have committed fraud totalling £871,818.73. Both were successfully prosecuted and action was taken to recover the monies. These two frauds consisted of 28 separate transactions. In addition there was one separate instance of attempted fraud of a value of £700. This attempted fraud was carried out by one of the perpetrators of the aforementioned frauds, but was prevented by the controls put in place during the fraud investigation.

Departmental records do not go back beyond 2003.

Home Information Packs

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 22 May 2008, *Official Report*, column 443W, on home information packs, whether informal minutes of the subsequent meetings were taken by civil servants from her Department. [217825]

Caroline Flint: No minutes were taken of the Stakeholder Panel meetings.

Housing

Ms Buck: To ask the Secretary of State for Communities and Local Government (1) how many and what proportion of housing stock units were *(a)* owner-occupied, *(b)* privately rented and *(c)* socially rented in (i) England, (ii) each English region and (iii) each London local authority in (A) 1980, (B) 1990, (C) 2000 and (D) 2007; [217103]

(2) if she will rank each English local authority by the percentage change in the number of properties in the social rented sector in its area since 1980. [217104]

Mr. Iain Wright: The number of households by housing tenure are available from the 1981, 1991 and 2001 censuses. Estimates for 2007 are derived from the labour force survey, but only for England and the regions. Information on housing stock for 2007 is also available from the Housing Strategy Statistical Appendix (HSSA), collected from local authorities. This information does not separately identify privately rented and owner occupied dwellings—however it does provide estimates for the London boroughs.

Data on the change in social housing stock between 1980 and 2007 are from the Housing Investment Programme (1980) and the HSSA (2007). Local authorities that did not provide data or are in areas where there was local government reorganisation over this period have been excluded.

Tables showing (1) census-based household figures for 1981, 1991, 2001 and labour force survey estimates for 2007; (2) housing stock figures by tenure for England, the regions and London boroughs as at 1 April 2007; and (3) social housing stock by local authority: England 1980 and 2007 have been deposited in the Library.

Housing: Construction

Mr. Bone: To ask the Secretary of State for Communities and Local Government what target has been set for house building in *(a)* North Northamptonshire and *(b)* England in the period to 2021; and what assessment she has made of progress towards these targets. [214944]

Mr. Iain Wright: Housing targets below national level are not set directly by Government, but are set out in regional spatial strategies and local development frameworks which are developed through the regional and local planning processes. The 2007 Green Paper "Homes for the Future: more affordable, more sustainable" (Cm7191), copies of which are in the Library, sets out the Government's long-term objectives in terms of housing supply.

Andrew George: To ask the Secretary of State for Communities and Local Government what her most recent assessment is of the effect of current conditions in the housing market on the likelihood of her Department meeting its 2020 house-building targets. [217257]

Mr. Iain Wright: I refer the hon. Member to the answer given to the hon. Member for Falmouth and Camborne (Julia Goldsworthy) on 12 June 2008, *Official Report*, column 497W.

Mr. Drew: To ask the Secretary of State for Communities and Local Government if she will issue guidance to local authorities on the provision of short-term supply of land within their control for housing in the event of numbers of new housing starts falling; and whether the number of new housing starts in an area should be a material consideration in planning appeals relating to possible sites for new houses. [217553]

Mr. Iain Wright: Planning Policy Statement 3 Housing (PPS3) requires local planning authorities to identify sufficient specific, deliverable sites to deliver housing in the first five years, as part of a 15-year plan period horizon. The policy advises how local planning authorities need to regularly monitor housing performance against trajectory and that in circumstances where market conditions have changed, local authorities may find it necessary to reassess need and demand, considering a review of approach across the whole market area. PPS3, including those policies relating to whether the local authority has an up to date five year supply of deliverable sites, is capable of being taken into account by local planning authorities, the Planning Inspectorate Agency or other relevant decision maker, in determining planning applications.

Housing: Heating

Lembit Öpik: To ask the Secretary of State for Communities and Local Government (1) what estimate her Department has made of the number of electrically heated new homes built in the last five years that have compatible gas grid connections available; [217551]

(2) how many new homes which were *(a)* electrically heated and *(b)* gas heated were built in 2007-08. [217659]

Mr. Iain Wright: The Department's statistics for new home completions do not include details of the form of heating used.

The Department for Communities and Local Government has not made estimates of the number of electrically heated new homes built in the last five years that have compatible gas grid connections available.

However, based on statistics for house completions in 2004, the regulatory impact assessment supporting the 2006 amendment to part L of the building regulations estimated that electricity was used for heating in 90 per cent. of flats, but only 1 per cent. of houses. Flats made up 43 per cent. of new build homes.

Mr. Mullin: To ask the Secretary of State for Communities and Local Government what plans she has to amend the building regulations to require the

installation of energy efficient domestic heating pumps; and if she will make a statement. [217694]

Mr. Iain Wright: There are no plans to amend the building regulations to require the installation of particular heating systems. However, as announced in July 2007, it is proposed that the energy performance standards of the building regulations will be progressively improved in 2010, 2013 and 2016 to ensure all new homes are zero carbon by 2016. The installation of energy efficient technologies will help to meet these higher standards.

Housing: Standards

Mrs. Riordan: To ask the Secretary of State for Communities and Local Government what steps her Department is taking to ensure that the Homes and Communities Agency promotes the application of lifetime homes standards in new build homes. [217117]

Caroline Flint: As stated in the National Strategy for Housing in an Ageing Society, in the first instance Lifetime Homes Standards will be a mandatory element in the Code for Sustainable Homes at level 6 from 2008, at level 4 from 2010 and level 3 from 2013. This will have the effect of ensuring that all public sector funded housing is built to Lifetime Homes Standards from 2011. We are currently proposing amendments to the Housing and Regeneration Bill to make explicit reference to the needs of both elderly and disabled persons.

We will expect the Home and Communities Agency (HCA) to promote well designed quality homes and places by using industry benchmarks in conjunction with recognised public sector standards. The standards adopted will include social, economic, environmental and physical measures of design and performance. They will apply equally to the private and public sector activity in which the HCA engages, covering regeneration and housing, existing places and new places. We also expect the HCA to consult widely about their proposed approach to quality before adopting specific measures.

Local Government Ombudsman: Freedom of Information

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will bring forward legislative proposals to remove exemptions from the Freedom of Information Act 2000 of the Local Government Ombudsman under Sections 32 and 44 of the Local Government Act 1974; and if she will make a statement. [217827]

Mr. Dhanda: There are no plans to remove the exemptions from the Freedom of Information Act that currently apply to the Local Government Ombudsman. The removal of such exemptions could deter people suffering injustice due to a council's maladministration from raising the matter with the ombudsman and hence obtaining redress.

It is the policy of the Local Government Ombudsman to operate as openly as possible without putting at risk its investigations and the service provides for the public.

Ordnance Survey: Telephone Services

Mr. Prisk: To ask the Secretary of State for Communities and Local Government what income her Department received from the Ordnance Survey 0845 number in *(a)* 2007-08, *(b)* 2006-07 and *(c)* 2005-06. [217540]

Mr. Iain Wright: Neither the Department nor Ordnance Survey has received income from Ordnance Survey's 0845 numbers in any of the years in question.

Planning Permission: National Parks

Mr. Drew: To ask the Secretary of State for Communities and Local Government if she will put in place measures to ensure that planning applications relating to areas within National Parks are dealt with expeditiously. [217609]

Mr. Iain Wright: National Parks are subject to the same national targets for dealing with planning applications as all other local planning authorities which are that 60 per cent. of major applications (10 houses or more) should be dealt with within 13 weeks, that 65 per cent. of minor applications and 80 per cent. of all other applications should be dealt with within eight weeks.

Planning Permission: Rural Areas

Mr. Drew: To ask the Secretary of State for Communities and Local Government what assessment she has made of the implications of proposed changes in planning regulations of *(a)* re-using under used or disused property in rural areas, *(b)* developing rural business centres and *(c)* new-build for employment purposes in the countryside. [217489]

Mr. Iain Wright: The Government published draft Planning Policy Statement (PPS) 4: 'Planning for Sustainable Economic Development' for consultation in December 2007. The draft PPS asks regional planning bodies and local planning authorities to plan positively and proactively to encourage economic development, in line with the principles of sustainable development.

The draft PPS asks local authorities to encourage new uses for vacant or derelict buildings, including historic buildings in urban and rural areas and is clear that local authorities should support small scale economic development in rural villages, whether it be rural business centres or dedicated new-build, where it provides the most sustainable option.

The Department has received over 300 responses to the consultation and is currently considering these. We also expect to receive shortly the report of the Taylor review into the issues facing rural areas in terms of housing and the economy. The hon. Member for Truro looked at these and other issues, and we will take account of his recommendations as we finalise our policies for sustainable economic development.

Mr. Drew: To ask the Secretary of State for Communities and Local Government if she will take steps to reduce the average time taken to grant planning permission for employment purposes in rural areas. [217490]

Mr. Iain Wright: All local planning authorities, including those in rural areas, have targets within which to determine planning applications (60 per cent. within 13 weeks for major applications, 65 per cent. and 80 per cent. within eight weeks for minors and others). Authorities have been steadily improving their performance to meet these targets; recent data show that 84 per cent. of authorities met all three key performance targets over the year April 2007 to March 2008.

Prisons: Planning Permission

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what role the Secretary of State plays in considering planning applications from Crown development for Titan prisons; [215996]

(2) who will be responsible for considering planning applications made in respect of Titan prisons. [215998]

Mr. Iain Wright: Planning applications for Titan prisons would be considered under the Town and County Planning legislation and normally be determined by the local planning authority. It is possible that such an application could be called in by the Secretary of State for Communities and Local Government for her own decision, or, if refused by the local planning authority, any appeal could be recovered for determination by the Secretary of State.

If the Ministry of Justice concluded, on the basis of pre-application discussions, that the relevant local planning authority would be likely to refuse planning permission and provided that he can certify that the scheme is of national importance and required urgently, the Secretary of State for Justice could submit the application direct to the Secretary of State for Communities and Local Government under section 293 A of the Town and Country Planning Act 1990. This provides for the case to be determined by the Secretary of State under an expedited procedure.

Property Development

David Taylor: To ask the Secretary of State for Communities and Local Government what recent representations she has received on the merits of the proximity principle in planning and building new housing developments; and if she will make a statement. [216887]

Mr. Iain Wright *[holding answer 7 July 2008]:* The Department for Communities and Local Government has received the Campaign to Protect Rural England's report "The Proximity Principle: why we are living too far apart" published in May.

Many of the issues discussed in the report, such as prioritising the use of suitable brownfield land and making the most efficient and effective use of that land, are already set out in the Government's Housing Green Paper, "Homes for the future:more affordable, more sustainable", and Planning Policy Statement 3 Housing (PPS3). PPS3 sets out that homes should be delivered to a high quality, in suitable locations, with good accessibility to jobs, key services and infrastructure, which will contribute to sustainable communities.

The report also comments on eco-towns. We are currently consulting on eco-towns and the first stage of the consultation, which closed on 30 June, looked at potential locations of eco-towns and how they might be delivered. In due course we will provide a statement on the responses received. We will also draw on these responses, and look at the findings in this report to inform the second stage of consultation on the draft Sustainability Appraisal and draft planning policy statement.

Regional Development Agencies: Fraud

Jenny Willott: To ask the Secretary of State for Communities and Local Government (1) how many staff were prosecuted for *(a)* attempting to defraud and *(b)* defrauding each regional development agency in each year since the agencies were established; and if she will make a statement; [214641]

(2) how many staff employed in each regional development agency defrauded that agency in each year since they were established; and if she will make a statement; [214632]

(3) how many staff employed in each regional development agency were responsible for each instance of fraud or attempted fraud in each year since the agencies were established; and if she will make a statement. [214633]

Mr. McFadden: I have been asked to reply.

No members of RDA staff have been prosecuted for either *(a)* defrauding, or *(b)* attempting to defraud the RDAs since they were established in 1999.

There are no known instances of fraud or attempted fraud by RDA staff members.

Regional Development Agencies: Standards

Bob Spink: To ask the Secretary of State for Communities and Local Government what criteria she uses to assess the *(a)* accessibility and *(b)* responsiveness of regional development agencies to the sectors they serve; and if she will make a statement. [201438]

Mr. McFadden: I have been asked to reply.

Each RDA, in consultation with stakeholders in its region, has drawn up a regional economic strategy identifying the key priorities and sectors for securing the region's economic growth. BERR and other Government Departments are also involved in developing the strategy, as are businesses in the region. BERR ministers review and approve RDA corporate plans to ensure that they deliver against the priorities identified in the strategy.

The RDAs are also responsible for the delivery of Business Link advice to firms in all sectors.

Social Conditions

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what definition her Department uses of a poor quality environment for the purposes of measuring progress against her Department's liveability performance indicator. [217834]

Mr. Iain Wright: For the purposes of the Department's liveability performance indicator, a 'poor quality environment' is defined as one assessed to have 'major' or 'significant' problems relating to any of 16 environmental problems. The assessments are carried out by professional surveyors as part of the English House Condition Survey and are based on observed problems in the immediate environment of households, in some cases verified by residents. Problems are assessed on a scale of 1 ('no problems') to 5 ('major problems'), with scores of 4 and 5 corresponding with 'major' or 'significant'. The 16 specific environmental problems are:

ambient air quality;
condition of dwellings;
dog or other excrement;
graffiti;
heavy traffic;
intrusion from motorways/arterial roads;
intrusive industry;
litter and rubbish dumping;
non-conforming uses;
nuisance from street parking;
railway/aircraft noise;
scruffy gardens;
scruffy/neglected buildings;
vacant sites;
vacant/boarded up buildings;
vandalism.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Business: Rural Areas

Mr. Paice: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many recommendations in the Commission for Rural Communities report, "England's rural areas: steps to release their economic potential", are within his Department's areas of responsibility and Department intends to implement; and if he will provide a timetable for implementation. [217701]

Mr. McFadden: The Rural Advocate's Report, commissioned by my right hon. Friend the Prime Minister, illustrates the contribution made by businesses in rural areas to the national economy. It highlights the relevance of activity across all levels of Government and by the private sector. The recommendations within the report are, therefore, very broadly targeted. The Department is working with other Government Departments and the RDAs in considering how best to respond to its recommendations.

China

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many officials in his Department visited China on official business in 2007-08, broken down by grade; and what the equivalent figures for the Department of Trade and Industry were in *(a)* 1983, *(b)* 1987 and *(c)* each year between 1998 and 2006. [209101]

Mr. Thomas: According to records held by Carlson Wagonlit, the Department's travel agent, the number of Department of Business, Enterprise and Regulatory Reform/Department of Trade and Industry officials who travelled to China between April 2005 and March 2008 is as follows:

April to March each year	*Number*
2007-08	63
2006-07	83
2005-06	74

These figures relate to number of trips booked with Carlson Wagonlit only, and additional trips may have been taken. We are not able to provide a breakdown by grade. Information for any period earlier than April 2005 is not held centrally and could be obtained only at disproportionate cost.

Departmental ICT

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what IT contracts his Department and its agencies have entered into in the last two years. [215118]

Mr. Thomas: I refer the hon. Member to the answer I gave to the hon. Member for Taunton (Mr. Browne) on 5 March 2008, *Official Report*, columns 2653-54W. The contracts listed in this answer remain unchanged and were all let in the last two years.

I have approached the Chief Executives of the Insolvency Service and Companies House and they will respond to the hon. Member directly.

Letter from Stephen Speed, dated 14 July 2008:

The Secretary of State for Business, Enterprise and Regulatory Reform has asked me to reply to you directly on behalf of the Insolvency Service in respect of your question (2007/3220) asking what IT contracts his Department and its agencies have entered into the last two years.

The IT contracts have entered in the last two years is recorded under the table below:

IT Contracts	*Contractor*	*Year of contract*	*Expiry of contract*
IT Desk Top Services/ Infrastructure	IBM	2007	2012
IT Application Support Service	Ace Database	2005	2009
IT Product Licences	Singularity (subcontractor to Computacenter)	2007	2010+
IT Product Licences	Agresso (subcontractor to Computacenter)	2008	2010
IT Product Licences	Thunderhead (subcontractor to Computacenter)	2008	Ongoing
IT Product Licences	Wisdom (subcontractor to Computacenter)	2007	2009
IT Product Licences	Business Objects (subcontractor to Computacenter)	2007	2009
IT Product Licences	Parasoft	2007	2009
IT Product Licences	Wisdom (subcontractor to Computacenter)	2007	2009
IT Product Licences	Business Objects (sub-contractor to Computacenter)	2007	2009
IT Product Licences	Parasoft	2007	2009

IT Contracts	Contractor	Year of contract	Expiry of contract
IT Product Licences	Condeco	2008	2011
IT Product Licences	Parity	2007	2008
IT Product Licences	Serena	2006	2008
IT Product Licences	Wisdom (sub-contractor to Computacenter)	2007	2009
IT Product Licences	Microsoft/Trustmarque	2007	2010
IT Product Licences	C&C Technology	2006	2008
IT Product Licences/ hardware	BT	2007	2008

Letter from Gareth Jones, dated 14 July 2008:

I am responding on behalf of Companies House to your recently tabled Parliamentary Question to the Secretary of State for Business Enterprise and Regulatory Reform.

Since April 2006 Companies House has entered into the following IT contracts:

Software Support Services for the Image Database

Finance Systems Managed Service

Mainframe Bureau Services and Print and Output Handling

Multi-vendor Hardware Maintenance Services

Network Support Services

WAN Replacement and Support Services

Departmental Marketing

Mr. Philip Hammond: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department and its agencies spent on branding and marketing activity in 2007-08. [212034]

Mr. Thomas: Since the creation of the Department for Business, Enterprise and Regulatory Reform spend on branding is listed in the following table.

Item	£
Fees paid to advisors	0
Stationery	2,354
Rebranding and IT changes including revised email addresses, new signage, web based changes, new logo and print costs	191,709
Cost of producing branding guidelines	20,000
Total	214,063

In the 2007-08 financial year, spending on advertising and direct marketing procured through the Central Office of Information by my Department and the former DTI was as follows:

Advertising	£
Nuclear energy consultation 2007-08	149,634
Employing people 2007-08	77,447
National minimum wage 2007-08	588,499
Total for advertising	815,580

Direct marketing	£
BERR Information and consultation 2007-08	49,784
Companies Act 2007-08	12,650
Consumer Protection from Unfair Trading Regulation 2007-08	168,798
Employment Law 2007-08	607,534
National minimum wage 2007-08 experiential activity	248,922
Queen's award data cleanse 2007-08	7,320
Queens awards publicity campaign 2007-08	125,500
Total for direct marketing	1,220,508

Details of other costs for BERR advertising and marketing activities are not held centrally and can only be provided at disproportionate cost.

UK Trade and Investment's costs in maintaining its brand guidelines are £850.00 per month for hosting on the UKTI website. Other costs for UKTI marketing activities are not held centrally and can only be provided at disproportionate cost.

The Insolvency Service and Companies House will reply directly.

Letter from Tim Moss, dated 14 July 2008:

I am responding on behalf of Companies House to your recently tabled Parliamentary Question to the Secretary of State for Business Enterprise and Regulatory Reform.

In the financial year 2007/8 Companies House spent £749,831 on branding and marketing activity.

Letter from Stephen Speed, dated 14 July 2008:

The Secretary of State for Business, Enterprise and Regulatory Reform has asked me to reply to you directly on behalf of the Insolvency Service in respect of your question (2007/3026) asking how much the Department and its agencies spent on branding and marketing activity in 2007-08.

The Insolvency Service Executive Agency spent £13,060.98 on branding and marketing in the financial year 2007-08.

Departmental Public Bodies

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will introduce legislation requiring all regulatory bodies sponsored by his Department to admit the public to their meetings. [208072]

Mr. Thomas: The Department has no plans to introduce such legislation.

However, the regulatory bodies generally have statutory duties under specific legislation e.g. Ofcom operates under the Communications Act 2003 and the Competition Commission's procedures are governed by the provisions of the Enterprise Act. They must abide by their statutory duties in the exercise of their functions. These include requirements to consult and to consider representations before taking decisions. The regulatory bodies can be held to account by Parliament, via the Business and Enterprise Committee and the Public Accounts Committee, for the exercise of their statutory duties.

Departmental Sick Leave

Mr. Hayes: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many days of sick leave were taken by his Department's employees in each year since 1997. [216691]

Mr. Thomas: Cabinet Office has introduced a revised format for reporting sickness absence statistics across the civil service. The new format was introduced at the end of March 2008 and the first report covers the calendar year 2007. It indicates 6.1 average working days lost per employee lost due to sickness.

Sickness absence data for the Department's predecessor, the Department of Trade and Industry, for 2006-07, 2005 and 2004, including the average number of days taken as sick leave, are published on the public civil service website:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

along with data for other Departments and agencies.

Earlier sickness data are not readily available and the cost of producing this would be disproportionate to the benefit to be derived.

Departmental Training

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what training courses were *(a)* available to and *(b)* taken by civil servants in his Department in the last 12 months. [210586]

Mr. Thomas: Individuals and their line managers identify learning and development needs, and the appropriate training to attend, over the course of the year. Individuals can then access a variety of interventions to meet their requirements either through the Department's preferred suppliers or through other suppliers if the required training is not available. Details are not held centrally as learning and development is devolved across the Department.

Family Businesses

Lorely Burt: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what sources of advice and financial support are available to family businesses. [216500]

Mr. McFadden: The Government support a suite of national instruments to help businesses and SMEs to start up and grow. At the national level, the Small Firms Loan Guarantee exists to help lending to SMEs with viable business propositions that lack the necessary collateral with which to secure a commercial loan. Enterprise Capital Funds invest a mixture of public and private money into small growth businesses seeking up to £2 million in risk capital. Regions, via RDAs, also offer sources of finance on a regional and sub-regional basis, including loan and equity programmes, and support to prepare businesses with skills they need to attract finance. Information on national and regional programmes, and advice and support on wider issues is available on Business Link's website:

www.businesslink.gov.uk

and via their helpline on 0845 600 9006.

Food

Mr. Paice: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much was spent by his Department on *(a)* food and *(b)* food of British origin in each of the last five years. [214889]

Mr. Thomas: The following information shows the amount spent on food by the Department's contracted catering service provider, with the amount spent on food of British origin shown in brackets over the last five years:

	£
2004	878,427 (527,056)
2005	905,304 (570,341)
2006	893,688 (580,897)
2007	919,855 (735,884)
2008[1] (to end June)	621,483 (497,186)

Mr. Paice: To ask the Secretary of State for Business, Enterprise and Regulatory Reform from which five countries of origin the greatest amount of food was procured by his Department in the last year for which figures are available; and what the *(a)* cost and *(b)* quantity procured was in each case. [214890]

Mr. Thomas: The Department's contracted service provider does not hold records which would enable an accurate answer to be given and this could be obtained only at disproportionate cost.

The majority of food procured by our current contractor originates from the UK (meat, vegetables and fish), Europe (fruit and vegetables), France (poultry) and Greenland (seafood).

Foreign Investment in UK: China

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assistance his Department provides to Chinese businesses wishing to *(a)* invest in the United Kingdom and *(b)* take part in joint ventures with UK companies; how much was made available for these purposes in each of the last five years; and if he will make a statement. [209098]

Mr. Thomas: UK Trade and Investment promotes the UK as the location in Europe for foreign investors to do business. It provides information, advice, and guidance for companies wishing to locate in the UK and its Global Partnership Programme provides a fast expert partner matching service for overseas organisations.

In 2003-04, the last year that Regional Selective Assistance was available, no offers were accepted or payments made to a Chinese owned company. Since Selective Finance for Investment (SFI) came into effect in April 2004 there has been one offer of £3.8 million accepted by a Chinese owned company in February this year. (SFI is a capital grant business support scheme that can, subject to European Commission and Treasury criteria being satisfied, provide financial assistance to companies, foreign owned or indigenous, who wish to invest or create jobs in deprived areas in England.)

The UK welcomes inward investment from around the world, including China, which is why the latest European Investment Monitor figures show that in 2007 the UK remained the number one location in Europe for attracting inward investment globally with 19.2 per cent. of market share ahead for France in second place with 14.6 per cent.

Global Coal Management Resources

Lynne Jones: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions he had with the Secretary of State for International Development on the proposed project by

the UK company Global Coal Management Resources plc for an opencast coalmine at Phulbari in North West Bangladesh and possible effects for the population living in the area in advance of the decision to provide support to the company through the High Commission in Dhaka. [209461]

Mr. Thomas: BERR officials have held regular discussions with officials from the Department for International Development on this subject, both in the UK and the British high commission in Dhaka.

Medical Treatments: Lasers

Ann Clwyd: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many complaints have been received by local trading standards bodies about non-surgical laser and intense pulsed light treatments in the last five years. [210099]

Mr. Thomas: Consumer contact with Local Authority Trading Standards Services has been handled by the Government funded Consumer Direct telephone and online advice service since June 2004. Before this time contacts were made direct to the 205 local authorities and are not readily available or collected by BERR.

Contacts recorded against the categories of hair removal therapy; beauty treatments; cosmetic therapies; hair replacement therapies and the term "laser" identifies 199 contacts since June 2004. A contact may be a complaint or could be a request for other information such as pre-shopping advice. Consumer Direct does not specifically record contacts regarding non-surgical laser and intense pulsed light treatments.

Oil: Prices

Mr. Hollobone: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will hold discussions with the Chancellor of the Exchequer on the potential use as business cost relief of tax revenues obtained from increased oil prices. [217014]

Mr. Thomas: My right hon. Friends the Secretary of State and the Chancellor of the Exchequer have regular discussions on a wide range of issues.

Post Offices: Closures

Mr. Laws: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the impact on people with disabilities of the planned closure of Hinton St George post office in Somerset; and if he will make a statement. [212249]

Mr. McFadden: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Public Holidays

Bob Russell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his policy is on the establishment of an additional public holiday; and if he will make a statement. [208876]

Mr. McFadden: The Government are currently conducting a wide-ranging consultation on the nature of our citizenship and our constitution, including how best we celebrate our national identity. As part of this process, we have received a number of suggestions for new or replacement bank holidays, designed to celebrate or commemorate aspects of British life or history. At present, we have no plans to change the current pattern of bank holidays, but we are nevertheless considering all these suggestions carefully.

Street Trading: Regulation

Dan Rogerson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what consideration he has made of introducing a public Bill with generally applicable provisions analogous to those in the Leeds City Council Bill and other similar private Bills. [218160]

Mr. Thomas: I am aware that several local authorities, including Leeds city council, are pursuing private Bills seeking to extend their powers in relation to the control of street trading and to limit the activities of certified pedlars, and that some seven local authorities have already done so.

This Department is in the process of undertaking research to better establish evidence about the effectiveness of current legislation in this area and to gather views from all stakeholder groups with an interest. This will enable us to better assess whether there is a case for national legislation to provide all local authorities with additional powers along the lines of the private Bills and Acts; and to decide the best way forward that balances the interests of business, consumers and pedlars.

CULTURE, MEDIA AND SPORT

Advertising: EU Action

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what representations his Department has received on the effect of the proposed changes to the rules on product placement contained in the European Audiovisual Media Services Directive. [218382]

Andy Burnham: Since the AVMS Directive was adopted in December 2007, my Department has received three written representations on this issue.

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport when he expects to start consultation on the implementation of the European Audiovisual Media Services Directive; and how long the consultation will last. [218390]

Andy Burnham: I intend to begin this consultation shortly. The consultation period will last for at least 12 weeks.

Arts: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport (1) what courses have been organised as part of the Cultural Leadership programme in each of the last three years; and what the cost of each has been; [216531]

(2) what the estimated cost of staging the Cultural Leadership programme *(a)* Vision 2020 event at the Royal Opera House on 26 June 2008 and *(b)* Alumni gathering event at the Emirates Stadium on 11 September 2008 is; and how much has been spent by the Cultural Leadership programme on conferences and events in each of the last three years. [216532]

Margaret Hodge *[holding answer 7 July 2008]:* According to Arts Council England, the Cultural Leadership Programme has delivered, itself and with a range of partners, over 300 courses since June 2006. The courses have ranged from two-week intensive courses to one-day and half-day courses. Details are set out in the following tables.

2006-07

	Cost (£)
Clore Leadership	4,100
Catalyst/Impact Unleashed	22,000
Networks	3,000
Governance	4,000

2007-08

	Cost (£)
Clore Leadership	4,100
Clore Fellows	4,100
Leadership Development Days	5,100
Dynamics of Leadership Coaching	20,000
Dynamics of Leadership Coaching 2	12,000
Networks	3,000
Governance (Clore)	6,000
Governance (Gold)	14,000
Shape Future Leaders	1,500
Carver Model	3,500
Entrepreneurs	15,000
Discovering Voices	19,000
The Circle	1,000
Action Learning Sets	1,000
CEO Breakfasts	2,400
Strategic Skills Training	5,800

2008-09

	Cost (£)
Clore Leadership	4,100
Clore Fellows	4,100
Leadership Development Days	5,100
Dynamics of Leadership: Foundation Course	11,500
Integrated Leadership	8,000
Networks	2,000
Governance	6,000
Action Learning Sets	1,000
Facilitation Skills	12,000
The Circle	1,000

BBC

Mr. Carswell: To ask the Secretary of State for Culture, Media and Sport if he will bring forward legislative proposals to put in place mechanisms for enhanced parliamentary oversight of the BBC, with particular reference to its development of *(a)* local video news services and *(b)* education websites. [217709]

Andy Burnham: I have no plans to do so. The question of parliamentary oversight of the BBC was fully addressed in the BBC Charter review.

BBC Trust: Accountability

Mr. Carswell: To ask the Secretary of State for Culture, Media and Sport what elements of the 2006 agreement between his Department and the BBC govern the financial accountability of the BBC Trust. [217707]

Andy Burnham: Provisions as to the financial accountability of the BBC Trust are included in article 45 of the Royal Charter, which deals with reporting and accounting arrangements for the BBC as a whole.

BBC: Internet

Mr. Carswell: To ask the Secretary of State for Culture, Media and Sport if he will undertake an assessment of the effect on the commercial television market of the BBC's proposal to create web pages for every episode of each television programme it broadcasts. [217711]

Andy Burnham: I have no plans to do so. Under the terms of the BBC's Charter and agreement, the BBC Trust must have regard to the competitive impact of the BBC's activities on the wider market.

BBC: Manpower

Mr. Carswell: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 4 June 2008, *Official Report*, column 86W, on the BBC, if he will give a breakdown of the expenditure referred to by main budget heading; and how much was spent on *(a)* staff costs and *(b)* redundancies. [217708]

Andy Burnham: This is a matter for the BBC. I have, therefore, asked the BBC's director of finance to write to the hon. Member direct. Copies of the reply will be placed in the Libraries of both Houses.

Departmental Buildings

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport on which buildings occupied by his Department's agencies and non-departmental public bodies the lease will be due for renewal in the next four years. [214668]

Mr. Sutcliffe: The Department has the following information regarding leases due for renewal in the next four years:

Leases due for renewal

	Renewal date
Arts Council England	
Eastgate Business Park, Basildon	2010
Future House, Bradford	2008
Sovereign House, Brighton	2009
Manchester House, Manchester	2008
Manchester House, Manchester	2011
Manchester House, Manchester	2010

Leases due for renewal	Renewal date
Unit A212 LCB Depot, Leicester	2008
17-18 The Parade, Margate	2009
Big Lottery Fund	
Baron House, Newcastle Upon Tyne	2009
Dominion House, Guildford	2010
Carlton Tower, Leeds	2009
1 Cromac Quay, Belfast	2008
Elizabeth House, Cambridge	2009
Greyfriars Road, Cardiff	2009
Newhall Street, Birmingham	2009
British Standard Commission	
The Sanctuary, Victoria	2010
English Heritage	
Canada House, Manchester	2009
55 Blandford Street, London	2009
Unit 5, Marlborough Court, Exeter	2011
Wyndham House, Salisbury	2009
1 Waterhouse Square, London	2998
Fortress House, London	2010
Football Licensing Authority	
Harcourt House, London	2010
Heritage Lottery Fund	
Holbein Place, London	2009

Thames Tower, London	2009
1 Regent Street, London	2012
1 Regent Street, London	2008
1 Regent Street, London	2010

Departmental Disciplinary Proceedings

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how many staff have been disciplined by *(a)* his Department, *(b)* Arts Council England, *(c)* the Museums, Libraries and Archives Council, *(d)* English Heritage, *(e)* the Big Lottery Fund, *(f)* Sport England, *(g)* UK Sport and *(h)* the Heritage Lottery Fund for (i) bullying and (ii) harassment of colleagues in each of the last three years. [216533]

Margaret Hodge *[holding answer 7 July 2008]:* The table indicates how many members of staff have been disciplined for bullying and harassment of colleagues, as provided by the bodies in question.

	DCMS	Arts Council England	MLA	English Heritage	Big Lottery	Sport England	UK Sport	Heritage Lottery Fund
Bullying								
2005	0	0	0	2	0	0	0	0
2006	0	0	0	—	0	[1]	0	0
2007	0	0	0	2	0	0	0	0
Harassment								
2005	0	0	0	2	0	0	0	0
2006	0	0	0	1	0	[1]	0	0

	DCMS	Arts Council England	MLA	English Heritage	Big Lottery	Sport England	UK Sport	Heritage Lottery Fund
2007	0	0	0	1	0	0	0	0

[1] Same employee disciplined for bullying and harassment.

Departmental Responsibilities

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport if he will publish each of his Department's directorates' most recent business plans. [216520]

Margaret Hodge: My Department underwent a reorganisation on 15 April 2008 in response to the findings of its Capability Review. Business planning for 2008-09 focused on how the Department should be configured. Now that most of the Department has been restructured, the new directorates are working on plans to show how they intend to deliver against departmental goals. A Corporate Plan was published on 15 April and is available on the Department's website at:

http://www.culture.gov.uk/images/publications/DCMS_Corporate_Plan_2008_PDF.pdf

Festivals and Special Occasions: Finance

Hywel Williams: To ask the Secretary of State for Culture, Media and Sport how much was spent by publicly-funded bodies for which his Department is responsible on celebrations of *(a)* St. David's Day, *(b)* St. Patrick's Day, *(c)* St. George's Day and *(d)* St. Andrew's Day in each of the last five years for which figures are available. [216917]

Margaret Hodge *[holding answer 7 July 2008]:* This information is not held centrally and it could be provided only at disproportionate cost.

Festivals and Special Occasions: Religion

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport how many days of religious celebration his Department allocated funding to in 2007. [218531]

Mr. Sutcliffe: The Department did not allocate any funding to religious celebration days in 2007.

Listed Buildings: Schools

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how many Grade *(a)* I, *(b)* II* and *(c)* II listed buildings are in use as school buildings. [218763]

Margaret Hodge: It is not possible to say how many listed buildings are currently in use as school buildings. The English Heritage Listed Building System records the number of listed buildings in the category of schools as:

	Number
Grade I	195
Grade II*	494
Grade II	4,688

These figures include buildings that were originally built as schools, but are now in another use; buildings that were used as a school as part of their chronological history; and buildings that, since listing, are no longer used as schools.

Sport: Community Development

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much was spent by Sport England through the Priority Groups Revenue Fund in each year since 1999. [213790]

Mr. Sutcliffe: Sport England has advised that the Priority Revenues Group Fund was renamed and became Active Communities Development Fund in February 2001. There was no funding prior to 2001. The amounts spent in each year since 2001 is as follows:

	Programme	Total
2001-02	Active Communities Development Fund	7,373,308
2002-03	Active Communities Development Fund	6,136,687
2003-04	Active Communities Development Fund	2,244,655
2004-05	Active Communities Development Fund	230,012
2005-06	Active Communities Development Fund	11,571
2006-07	Active Communities Development Fund	1,900
2007-08	Active Communities Development Fund	11,625

Sports

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how many Ministers in his Department attended or plan to attend the *(a)* Ascot Race Week, *(b)* Henley Regatta, *(c)* Wimbledon Championships, *(d)* British Grand Prix, *(e)* Lords Test Matches and *(f)* Open Golf Championship in 2008. [218352]

Mr. Sutcliffe: The Secretary of State attended the Wimbledon Championships Men's Final on 6 July, and the Lords Tests Match on 11 July. I attended the Ascot Race on 17 June and the British Grand Prix on 6 July, and the Lords Tests Match on 10 July. I will also be going to the Open Golf Championship on 20 July.

Sports: Commonwealth

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport what steps he *(a)* has recently taken and *(b)* plans to take to improve sporting links between the United Kingdom and Commonwealth countries. [215775]

Mr. Sutcliffe: There are a number of recent initiatives and planned activities, primarily delivered through bodies such as UK Sport and the British Council, designed to improve sporting links between the United Kingdom and Commonwealth countries.

UK Sport currently supports sport development projects and programmes which foster school links through sport in 21 Commonwealth countries and plans to work in one further Commonwealth country. UK Sport works in conjunction with the British Council and UNICEF to deliver the international inspiration project to inspire young people in developing countries and communities to take part in sport.

In addition Dreams + Teams is an initiative to promote Youth Leadership and School Links through sport. Dreams + Teams currently operate in the Commonwealth countries (as shown in the table). We anticipate that much of the work on Dreams + Teams will be absorbed into International Inspiration and Premier Skills (a joint development project between the British Council and the Premier League) over the next two years.

UK Sport hosted the Next Step Conference, empowering young sports leaders to champion the Olympic values of friendship and fair play, in Namibia in 2007 where 19 Commonwealth countries were represented.

Representatives from 67 of the 71 Commonwealth Games Associations attended the Commonwealth Sports Development Conference in Glasgow in June 2008 focusing on how sport and development initiatives can raise levels of grass-roots participation and create pathways to excellence both here in the UK and in the developing world, and was hosted by Culture and Sport Glasgow with support from Glasgow city council.

UK Sport and the Commonwealth Games Federation signed a Memorandum of Understanding in January 2007 for a four year period to develop and broaden the relationship between the two organizations. Additionally, Sue Campbell, Chair of UK Sport, is also Chair of Commonwealth Advisory Body on Sport (CABOS) which was established in 2005 to promote the value of sport as a tool for social, economic, health and educational development. Its advocacy work is directed primarily at the Commonwealth governments through their Ministers of Sport, the Commonwealth secretariat and other key policy-makers.

Countries where UK Sport International Development Programmes and British Council Dreams + Teams programmes are currently working

	Country	*UK Sport International Development Programmes*	*Dreams + Teams*
1	Botswana	yes	yes
2	Cameroon	yes	yes
3	Ghana	—	yes
4	India	yes	yes
5	Kenya	yes	yes
6	Lesotho	yes	—
7	Malawi	yes	yes
8	Malaysia	—	yes
9	Mauritius	—	yes
10	Mozambique	—	yes
11	Namibia	yes	yes
12	Nigeria	yes	yes
13	Pakistan	—	yes
14	Sierra Leone	—	yes
15	Singapore	—	yes
16	South Africa	yes	yes
17	Sri Lanka	—	yes
18	Tanzania	yes	yes
19	Trinidad and Tobago	—	yes
20	Uganda	—	yes
21	Zambia	yes	yes
	Bangladesh	[1] —	—

[1] There are plans in place to extend work to Bangladesh.

Strip Clubs

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 12 May 2008, *Official Report*, column 1375W, on strip clubs, to the hon. Member for Brentwood and Ongar (Mr. Pickles), how many licensable activities have been carried out under the Licensing Act 2003; and what activities are included in that category. [215332]

Mr. Sutcliffe: The following table shows the number of licences and certificates in force on 31 March 2007 in England and Wales which permitted regulated entertainment. This shows responses from 68 per cent. of licensing authorities. Around 53 per cent. of licensing authorities provided the further break down by type of permitted regulated entertainment.

	Total	*Percentage of entertainment licences*	*Percentage of all licences*
Premises licences	162,053	—	100
Premises licences with any regulated entertainment	72,643	100	45
Plays	8,798	12	5
Films	15,296	21	9
Indoor sporting events	13,119	18	8
Boxing or wrestling	1,692	2	1
Live music	38,096	52	24
Recorded music	48,977	67	30
Performance of dance	21,622	30	13
Entertainment similar to live music, recorded music or dance	18,953	26	12
Facilities for making music	23,864	33	15
Facilities for dancing	26,919	37	17
Facilities for entertainment similar to making music or dancing	14,579	20	9
Club premises certificates	15,187	—	100
Club premises certificates with any regulated entertainment	9,100	100	60
Plays	1,257	14	8
Films	1,708	19	11
Indoor sporting events	2,895	32	19
Boxing or wrestling	341	4	2
Live music	5,548	61	37
Recorded music	5,953	65	39
Performance of dance	2,742	30	18
Entertainment similar to live music, recorded music or dance	2,202	24	14
Facilities for making music	2,944	32	19
Facilities for dancing	4,637	51	31
Facilities for entertainment similar to making music or dancing	1,893	21	12

Note:
Multiple activities can apply to a particular premises.

Entertainment is regulated by the Act if it includes the performance of live music or dance, recorded music or entertainment comparable to these activities. It must be available to the public or members and guests of a qualifying club (whether a charge is made or not), or to a private audience if there is a charge with a view to making a profit.

Premises offering entertainment in the form of striptease or similar dancing must, therefore, apply for a licence to cater for the performance of dance (or entertainment of similar description), live or recorded music and, if it has a bar, alcohol sales.

Tourism: Career Structure

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport if he will bring forward policies to promote career development strategies in the tourism industry. [219188]

Margaret Hodge: People 1st, the Sector Skills Council for the tourism industry, is promoting career development opportunities as part of the National Skills Strategy for hospitality, leisure, travel and tourism—an employer-led strategy launched by my Department in March 2007. Government have signed up to the strategy's 10-point plan to improve skills, retention and career development, which is a key part of my Department's broader tourism strategy for 2012 and beyond.

Within the National Skills Strategy, People 1st has developed an on-line skills and employment resource—the UKSP (previously the UK Skills Passport)—which includes a detailed and easy-to-use career map of the sector, and allows individuals to match themselves and their skills to the best employers who have signed up to the industry's 'Good Employer' standards. UKSP marketing is also targeted to attract new talent by showing potential recruits the career opportunities available right across the sector. People 1st is also giving clarity to the role of qualifications in an individual's career pathway, from pre-entry to employment, through to workplace development and progression.

Finally, the National Skills Academy for Hospitality was approved by Government in May. Over the next five years over 65,000 learners will go through academy programmes, helping learners develop good careers in the industry through UKSP and by linking up with the network of Good Employers.

Travel Information: Human Rights

Mark Pritchard: To ask the Secretary of State for Culture, Media and Sport if he will take steps to encourage travel companies to inform their customers of the human rights records of countries to which they are travelling. [217558]

Margaret Hodge: My Department's interests in relation to tourism are to champion the tourism and leisure industries, helping everyone make the most of the UK as a tourist and leisure destination.

My Department is not responsible for regulation of the outbound tourism industry, and I have no plans to impose or encourage travel companies to provide information to customers on the human rights records of countries they intend to visit.

Information on the Government's human rights policy overseas is available through the FCO website. Some aspects of human rights are covered in local laws and customs in FCO Travel Advice as they relate to Britons travelling abroad.

The Association of British Travel Agents advise that their code of practice for tour operators encourages them to adhere to the FCO travel advice for their customers who are travelling abroad, but it is ultimately down to customers to make informed decisions about were they choose to holiday.

World Book Day: Finance

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport how much his Department spent on promoting World Book Day in each of the last five years. [218529]

Margaret Hodge: World Book Day is not a Government initiative, but a partnership of publishers, booksellers and others.

However the promotion of literacy and the love of reading remain central to the purpose of the modern public library, so we fully support the Day's efforts and focus for children, adults and family learners about the benefits that reading can bring.

World Heritage Sites

David Wright: To ask the Secretary of State for Culture, Media and Sport when he plans to publish the review of the tentative list of World Heritage sites in the UK. [218202]

Margaret Hodge *[holding answer 14 July 2008]:* The paper on the Review of World Heritage Policy is currently under consideration. A decision on publication will be made shortly.

World Heritage Sites: Climate Change

David Wright: To ask the Secretary of State for Culture, Media and Sport if he will review the management plan for World Heritage Sites in the UK with regard to their effects on climate change. [218197]

Margaret Hodge: In accordance with UNESCO's adopted recommendations on climate change at its 2006 World Heritage Committee in Vilnius (WHC-06/30.COM/7.1), UK World Heritage Site Steering Groups are considering the effects of climate change when reviewing their management plans. Management plans are reviewed every five years.

DEFENCE

7 Regiment

Nick Harvey: To ask the Secretary of State for Defence what tasks were completed by 7 Regiment in the last six months. [218392]

Mr. Bob Ainsworth: In the last six months 7 Regiment Army Air Corps undertook various tasks including: support to training for operational deployment, support to UK operations, support to non-operational training, recruiting activities and communication flights.

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence what *(a)* private security companies, *(b)* nations and *(c)* intergovernmental organisations are involved with training Afghan national police; and how many British citizens participate in each training initiative, broken down by (i) military and (ii) civilian personnel. [217255]

Dr. Howells: I have been asked to reply.

The Government hold contracts with Global Strategies Ltd. and G4S (formerly Armour Group) to deliver elements of our work with the Afghan police. The US Government contract a number of private security companies to deliver training, including Blackwater Worldwide and DynCorp International. We do not hold a full list of the companies used by other nations.

A total of 25 nations provide training to the Afghan police. The European Police Mission to Afghanistan (EUPOL) currently includes officers from 21 nations, specifically Belgium, Canada, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Germany, Hungary, Ireland, Italy, Latvia, Lithuania, the Netherlands, Norway, Poland, Romania, Spain, Sweden and the UK.

The US, Australia, Canada, Czech Republic, Germany, the Netherlands, New Zealand, Norway and Turkey also have personnel providing training to the Afghan national police on a bilateral basis, as do the UN Office of Drugs and Crime and the North Atlantic Treaty Organisation.

The Government have deployed a total of 84 personnel to work with the police in Afghanistan. Of these, 11 are deployed as part of EUPOL, three are deployed as police advisors to the US reform programme and 70 work on bilateral projects.

Out of 84 UK personnel, 24 are from the military and the remainder are civilians.

Air Force: Training

Mr. Lidington: To ask the Secretary of State for Defence how many non-commissioned officers in the RAF have achieved the National Examining Board for Supervision and Management Award at diploma level since 1998. [217589]

Mr. Bob Ainsworth: I will write to the hon. Member with the information requested and place a copy of my letter in the Library of the House.

Aircraft Carriers

Mr. Gerald Howarth: To ask the Secretary of State for Defence (1) what assessment has been made of the through-life cost of powering the new aircraft carriers with *(a)* conventional gas turbine/diesel engines and *(b)* nuclear reactor plants; [218241]

(2) what studies his Department has undertaken on suitability of nuclear reactor power for the new aircraft carriers. [218430]

Mr. Bob Ainsworth: The through-life cost of powering the Future Aircraft Carriers with a combination of conventional gas turbines and diesel engines was considered during the assessment and demonstration phases of the project and selected as the preferred option for manufacture. On nuclear reactor plants, I refer the hon. Member to the answers I gave on 11 June 2008, *Official Report*, column 255W, and on 25 June 2008, *Official Report*, column 304W, to the hon. Member for Portsmouth, South (Mr. Hancock).

Nick Harvey: To ask the Secretary of State for Defence whether the designs for Carrier Vessel Future have retained the option to install *(a)* catapults and *(b)* arrestor gear. [218470]

Mr. Bob Ainsworth: Yes. The adaptable design retains the option to install both catapults and arrestor gear.

Nick Harvey: To ask the Secretary of State for Defence whether his Department has considered the potential installation of *(a)* steam-powered or *(b)* electro-magnetic catapults for the Carrier Vessel Future. [218471]

Mr. Bob Ainsworth: Yes. Both these options were considered during the assessment phase of the Future Aircraft Carrier project, prior to the adoption of the current adaptable design, configured for short take-off and vertical landing (STOVL) aircraft.

Nick Harvey: To ask the Secretary of State for Defence what UK involvement there is in the Electro-magnetic Aircraft Launch System project; and what estimate he has made of UK expenditure on the project to completion. [218472]

Mr. Bob Ainsworth: The UK has no direct involvement in the US Electro-magnetic Aircraft Launch System project and has not committed funds to this project.

Armed Conflict: Medals

Jon Trickett: To ask the Secretary of State for Defence what assessment he has made of the merits of awarding a veteran's badge to those who worked in munitions factories in the UK during the world wars; and if he will make a statement. [217157]

Derek Twigg: The Veterans Badge is designed explicitly to recognise those who have served at any time in the country's armed forces and it would not therefore be appropriate to extend this badge to those who worked in munitions factories in the UK during the World Wars. The Government hold in high esteem the contribution of all those who supported the war effort during these major periods of national conflict which has been recognised in a number of different ways depending on the particular group. Any question of a badge specifically for munitions workers would be a matter for the Department for Business, Enterprise and Regulatory Reform which has legacy responsibility for those matters covered by the Ministry of Supply, including those who worked in the munitions industry.

Armed Forces: Delivery Services

Dr. Murrison: To ask the Secretary of State for Defence (1) which commercial undertakings do not acknowledge BFPO addresses for deliveries; [218363]

(2) what steps he has taken to ensure that servicemen who receive their mail via BFPO addresses are not discriminated against by commercial undertakings; [218364]

(3) if he will make it his policy not to place departmental business with commercial undertakings which do not deliver to BFPO addresses. [218365]

Mr. Bob Ainsworth *[holding answer 14 July 2008]:* We are aware of a small number of commercial undertakings who do not acknowledge BFPO addresses for deliveries, however companies are free to make their own commercial decisions. In these circumstances, it is MOD policy to work with the organisations to persuade them to adapt their systems to accommodate BFPO addresses. BFPO is in negotiation with the Royal Mail Group, and its IT system providers to develop a technical solution, while continuing to implement successfully 'work-around' solutions with individual companies.

Approximately 1,500 commercial undertakings, including major mail order companies and carriers, have entered into contracts with BFPO and offer deliveries to BFPO addresses. A full list of these can be found on the BFPO website at

www.bfpo.org.uk.

All MOD contracts are subject to Government procurement regulations and it would be unlawful to discriminate against any company.

Armed Forces: Disability Living Allowance

Nick Harvey: To ask the Secretary of State for Defence how many *(a)* service personnel and *(b)* veterans are (i) waiting for and (ii) in redress of disability allowances being offered. [203985]

Derek Twigg: The Service Personnel and Veterans Agency (SPVA) administers two schemes under which disability allowances may become payable—the armed forces compensation scheme (AFCS) and the war pension scheme (WPS). In the case of AFCS, ongoing disability allowances are payable to the most seriously injured and this payment becomes due on discharge. Therefore there are no such claims for ongoing disability allowances outstanding for serving personnel. However the majority of awards comprise of a lump sum payment which may be paid in service or following service depending on when the individual decides to make a claim. WPS claims are always made and awarded following discharge.

SPVA records show that at 31 March 2008 the number of claims of disability related payments, in the process of consideration, against each scheme was 1,292 for serving personnel and veterans under AFCS and 7,238 for veterans under WPS. This does not constitute a backlog as the claims are at various stages of consideration in line with the normal procedures. In considering claims under both schemes, medical evidence of the condition(s) claimed, prognosis for recovery or enduring disability and evidence of the link to service is required. Depending on the complexity and needs of the individual cases, gaining sufficient information in order to properly inform the correct decision can take a varying amount of time.

With regard to the number of claims under redress both schemes offer an appeals process which utilises the independent Pension Appeal Tribunals (administered by the Ministry of Justice). Personnel may decide to appeal for a number of reasons such as the availability of additional information or because they disagree with any aspect of the decision made. The number of appeals currently in progress is 102 for AFCS and 565 for WPS.

Armed Forces: Food

Bob Spink: To ask the Secretary of State for Defence how many operational ration packs his Department disposed of in each of the last five years. [218190]

Mr. Bob Ainsworth *[holding answer 14 July 2008]:* During the last five years, the MOD's Defence Storage and Distribution Agency has disposed of the following quantities of 24 hour operational ration packs (ORP):

	Number
2003	3,132
2004	16,083
2005	95,299
2006	420
2007	7,152

Figures are not held centrally for disposal of ORPs issued to front line Commands and for use on operations.

Bob Spink: To ask the Secretary of State for Defence how much it cost his Department to procure an operational ration pack in the latest period for which figures are available. [218191]

Mr. Bob Ainsworth *[holding answer 14 July 2008]:* The cost of procurement of an operational ration pack is not held centrally and could be provided at only disproportionate cost.

The average cost of the components required to make one ORP are as follows:

	£
24 hour general purpose ORP	8.75
24 hour Sikh/Hindu ORP	8.77
24 hour Halal ORP	9.34
24 hour vegetarian ORP	8.89

Bob Spink: To ask the Secretary of State for Defence what his Department's policy is on the use of operational ration packs which are approaching the end of their shelf life. [218192]

Mr. Bob Ainsworth *[holding answer 14 July 2008]:* All operational ration packs (ORP) components are intended to achieve a minimum of 24 months shelf life after production. A selection of each pack date is sent for analysis by the MOD contracted chemist at the 18 month point. Depending on the recommendations made by the chemist the rations are then recommended for re-inspection in six months, three months or certified as no longer suitable for issue. This process is repeated until the rations are certified as no longer suitable for issue. A monthly report is issued to all units in the armed forces through front line Commands detailing the material condition of each pack date. Action is then taken to ensure that stocks are managed accordingly.

Armed Forces: Housing

Mr. Henderson: To ask the Secretary of State for Defence how many houses on the Ministry of Defence estate in *(a)* the North of England and *(b)* Cumbria will be refurbished in each of the next five years. [217309]

Derek Twigg: Refurbishment of property is not readily distinguishable from other maintenance or upgrade expenditure when compiling data and planning for Service Families Accommodation (SFA).

The Upgrade Programme prioritises those properties identified as being in the greatest need.

There are no properties on the current upgrade programme in the north of England (defined as north of the Mersey/Humber).

Armed Forces: Manpower

Mr. Hoyle: To ask the Secretary of State for Defence pursuant to the Answer of 3 July 2008, *Official Report*, column 1035W, on armed forces: manpower, if he will make it his policy to collect such information centrally and place it in the Library. [218122]

Mr. Bob Ainsworth: Medical Employment Standard (MES) codes (and supporting codes showing Medical Limitations) are used to define an individual's medical fitness and enable the communication of the necessary information to their career manager/chain of command without any breach of medical confidentiality. These codes are used to ensure that an individual is appropriately employed without unnecessarily endangering their own health or that of others. Historically, the codes have evolved along single-service lines and this presents difficulties in deriving a consistent, central view of medical employability across the services which has made it impractical to provide the information requested. Currently, the MES codes do not equate to medical 'deployability' (i.e. the fitness of an individual to deploy on operations).

A working group has been set up to define and plan a set of Joint MES codes and Medical Limitations against which all service personnel will be assessed for their deployability and employability status. This definition work is due to be complete by the end of 2008 and the changes will be implemented on relevant IT systems as soon as possible thereafter. Once in place, this system will provide centrally held information on fitness for employment and deployability. Once the system is in place we will consider the most appropriate means by which this information could be placed in the Library of the House.

It is the Department's intention to maximise the employability and deployability of all individuals at all times. This means that an individual who is unfit for frontline operational duty may still be employable within his/her service. Each case is considered and managed on its individual merits.

Nick Harvey: To ask the Secretary of State for Defence how many service personnel there are, broken down by *(a)* service, *(b)* branch, *(c)* regiment and *(d)* trade. [218497]

Mr. Bob Ainsworth: I have placed the information requested in the Library of the House.

Armed Forces: Scotland

Nick Harvey: To ask the Secretary of State for Defence if he will provide figures of sales and receipts of *(a)* substitute single living accommodation and *(b)* substitute service family accommodation housing in (i) Scotland and (ii) Northern Ireland in each year since 1995. [218439]

Derek Twigg: As substitute service family accommodation (SSFA) and substitute single service accommodation (SSSA) are sourced from the local commercial rental market, such properties are not owned by MOD and no receipts accrue to this Department. We cease paying rent when families vacate.

SSFA and SSSA are not used in Northern Ireland.

Army: Recruitment

Mr. Streeter: To ask the Secretary of State for Defence for what reasons the Army will not recruit a person with a known nut allergy. [218350]

Mr. Bob Ainsworth *[holding answer 14 July 2008]:* All Army personnel, regardless of their chosen trade, must be fit to serve anywhere in the world, in all environments and in locations where medical care may be limited or remote, and medical re-supply uncertain or impossible.

Regrettably, it is not possible to guarantee that food provided through the military catering system is nut-free. Labelling alone would not therefore provide a sufficient safeguard for an individual with a nut intolerance attempting to self-regulate their diet. Neither would it be practical to make special arrangements to accommodate people with such an allergy. It would therefore be highly irresponsible of the Army to employ an individual with such a condition.

For these reasons any recruit with a past history of food allergy is automatically graded as unfit for service, unless there is irrefutable evidence that they are no longer sensitive.

AWE Management: Manpower

Mr. Hancock: To ask the Secretary of State for Defence what changes there were in the staffing levels of the Atomic Weapons Establishment in each year since 2003; and what the reasons for each annual change were. [218756]

Mr. Bob Ainsworth: I refer the hon. Member to the answers I gave on 17 June 2008, *Official Report*, column 849W and 7 July 2008, *Official Report*, column 1144W.

Defence: Foreign Investment in UK

Mark Pritchard: To ask the Secretary of State for Defence if he will discuss with the Secretary of State for Business, Enterprise and Regulatory Reform and the Chancellor of the Exchequer the potential for national security implications to arise from overseas shareholdings in British defence companies. [217505]

Mr. Bob Ainsworth: As the Government's Defence Industrial Strategy (Cm6697) made clear, we welcome overseas investment in the UK's Defence technological and industrial base. Transactions in the defence arena are closely monitored by Government Departments. Where a potential acquisition by a foreign company raises national security concerns, the Enterprise Act 2002 empowers the Secretary of State for Business, Enterprise and Regulatory Reform, normally following consultation with Defence Ministers, to intervene in order to remedy those concerns, usually through statutory undertakings provided by the acquiring company.

Defence: Procurement

Mr. Gerald Howarth: To ask the Secretary of State for Defence when he expects to publish the revised version of the Defence Industrial Strategy. [218219]

Mr. Bob Ainsworth: I refer the hon. Member to the answer my noble Friend, Baroness Taylor of Bolton gave in the other place on 16 June 2008, *Official Report, House of Lords*, column 795, to the noble Lord, Lord Astor of Hever.

Departmental Internet

Dr. Fox: To ask the Secretary of State for Defence what his Department's policy is on updating the *(a)* Defence News and *(b)* Defence News Blog section of the Ministry of Defence Website during off-duty hours and at weekends. [217256]

Derek Twigg: The Defence News section of the MOD website and the Defence News Blog aim to provide the latest news and information about UK armed forces and MOD activity to the defence community and the public. Both can be updated outside of office hours and at weekends through a "duty officer" system.

Out-of-hours updates are generally confined to (i) important, unplanned developments such as operational fatalities and (ii) coverage of significant, pre-planned events and announcements which occur outside of office hours, such as Remembrance Sunday.

Although closely interlinked, the Defence News section of the MOD website and the Defence News Blog are separate websites, and hosted separately. If one site is unavailable for any reason, any necessary updates can be added to the other, giving a capability which is robust to technical outages, planned or unplanned.

Exservicemen: Pensions

Mr. Mates: To ask the Secretary of State for Defence if the Government will offer ex-servicemen who retired from the armed forces before 31 March 1973 the opportunity of buying their wives a forces family widows pension at half-rate on an actuarially calculated, no cost basis. [215086]

Derek Twigg: No. It would be difficult, in equity, to extend the half rate pension to widows whose husbands had left the service before 31 March 1973 because they had not contributed financially towards the improvement. It has also been the long-standing policy of successive Governments that discretionary changes to improve the benefits offered by public service pensions schemes should be implemented for future service only.

Home Information Packs

Robert Neill: To ask the Secretary of State for Defence how many home information packs have been commissioned by *(a)* his Department and *(b)* its agencies to market a residential property; for which properties; at what cost; and whether a voluntary home condition report was purchased as part of the packs. [219011]

Derek Twigg: This Department has commissioned two home information packs in respect of the disposal of 7 and 9 Ladysmith Road, Ashton-under- Lyne, Greater Manchester at a cost of £250.00 each. No voluntary home condition reports were provided.

Iraq: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence what the average number of flying hours for each *(a)* aircraft and *(b)* helicopter type operating in (i) Iraq and (ii) Afghanistan was in each of the last 12 months. [216234]

Des Browne: I am withholding the information requested as its disclosure would, or would be likely to prejudice the capability, effectiveness or security of our armed forces.

Nick Harvey: To ask the Secretary of State for Defence how many Hercules flights there have been between Iraq and Afghanistan in each of the last three years. [218488]

Mr. Bob Ainsworth: We do not run a regular schedule of C130 Hercules flights between Iraq and Afghanistan. Statistics on those flights which have taken place are not held centrally and could be provided only at disproportionate cost.

Military Aircraft: Training

Dr. Fox: To ask the Secretary of State for Defence how many *(a)* RAF, *(b)* Fleet Air Arm and *(c)* Army personnel completed training for (i) fast jet and (ii) rotary types in each year since 2001. [216255]

Mr. Bob Ainsworth: The information requested is provided in the following table:

	Financial year						
Service	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Fleet Air Arm							
Fast-Jet	5	8	7	10	4	2	3
Rotary	56	62	64	76	52	46	64

Service	Financial year 2001-02	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08
Army							
Rotary	41	46	43	41	50	46	45
RAF[1]							
Fast-Jet	65	62	72	72	51	55	58
Rotary	58	79	83	76	50	63	93

[1] These figures include all RAF personnel who completed training for fast-jet and rotary aircraft (i.e. pilots, navigators and crewmen) as appropriate. The figures for rotary aircraft include Chinook, Merlin and Puma.

Military Attaches

Dr. Fox: To ask the Secretary of State for Defence what the cost to his Department was of each defence section in each (a) city and (b) country outside the UK in each year since 1997. [214351]

Mr. Bob Ainsworth: The following table shows the cost of each Defence Section by city and country outside the UK in each year since 2000.

Capital	Country	Financial year 2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08

[1] From November 2006, previously Almaty
[2] No Defence Section
[3] Closed

Notes:

1. The Defence Section in Afghanistan opened in November 2007. There are no costs available from that date as the Defence Section is funded through Operational funds which cannot be disaggregated from the overall budget.
2. These costs include estimated costs for personnel funded by the single service funds which cannot be disaggregated from their overall budgets.
3. Costs are not available prior to financial year 2006-07.
4. All the costs in the table exclude pre-post preparation training costs that fall to the single service budgets; these are assessed to be in the order of £8.7 million at FY 2007-08 prices.
5. All the costs in the table are at their respective financial year prices.
6. The costs in paragraph 2 do not include the personnel funded by the single services, the pre-post preparation costs and the UKMIS New York costs.

Details of the cost of each Defence Section outside the UK in each year from 1997 to 2000 are not available by city and capital. The overall costs of all Defence Sections for Financial Year 1996-97 to Financial Year 1999-00 are as follows:

	£ million
1996-97	22.471
1997-98	22.071
1998-99	23.202
1999-2000	23.925

Military Bases

Nick Harvey: To ask the Secretary of State for Defence (1) what recent progress has been made with *(a)* the upgrade of RAF Northolt and *(b)* the decommissioning of other sites; [218474]

(2) how far the London MoDEL project has progressed since it was commenced; what land has been earmarked to be sold under this project; and if he will make a statement. [218476]

Derek Twigg: The upgrade of RAF Northolt and the decommissioning and sale of other sites forms part of Project MoDEL, which is making good progress.

At Northolt, approximately half of the construction programme has been completed since contract award in August 2006. 11 new facilities have been delivered so far, including: four blocks of Single Living Accommodation (SLA)—250 rooms in total; welfare facilities; office accommodation; a five-bay hangar; and the new British Forces Post Office (BFPO) facility. The new facilities, not least the SLA blocks, have improved the living and working conditions for personnel at RAF Northolt.

So far as decommissioning and sales are concerned, six sites across the Greater London area have been designated surplus and are being released as part of Project MoDEL. Of these, RAF Eastcote and RAF West Ruislip have been sold for residential development, releasing funding for development of the Defence estate and other departmental priorities. The former BFPO site at Mill Hill and RAF Bentley Priory closed in January and May 2008 respectively. These two sites will be sold once planning submissions have been agreed by the local planning authorities.

We are engaging closely with the local planning authority and a number of other organisations and stakeholders to secure the future of Bentley Priory's heritage. A way forward has been agreed and a planning application is currently with the London Borough of Harrow for approval.

RAF Uxbridge and Victoria House, Woolwich, remain operational at present. At Uxbridge, our contractor is preparing a supplementary planning document for the site for submission to the London borough of Hillingdon, and at Victoria House a planning application for development of the site as a residential care home is currently with the London borough of Greenwich for approval.

In addition, Chelsea Barracks was sold earlier this year.

Navy: Fuels

Mr. Gerald Howarth: To ask the Secretary of State for Defence what plans his Department has made to ensure the security of fuel supply to all Royal Navy vessels. [218242]

Mr. Bob Ainsworth: The security of fuel supply to Royal Naval vessels is maintained through the use of multiple supply sources, together with the maintenance of appropriate reserves, and by international agreements that allow access to partners' fuels stocks.

Navy: International Waters

Mr. Hancock: To ask the Secretary of State for Defence what role the Royal Navy has in the defence of *(a)* trade and *(b)* shipping in international waters; and if he will make a statement. [218150]

Mr. Bob Ainsworth: The Royal Navy maintains a constant presence in the Gulf, Arabian sea, Indian ocean, Mediterranean and Atlantic to ensure that the vital sea lanes and choke points along the maritime trade routes are preserved for free, safe and lawful use. This task is achieved in collaboration with other navies and coastguards through a series of coalition maritime operations and strategic alliances.

The Royal Navy also works closely with other Government Departments on shipping protection issues and maintains a worldwide Maritime Trade Operations policy which is capable of providing a range of options to support British merchant shipping.

Nuclear Submarines

Mr. Streeter: To ask the Secretary of State for Defence what the status of the ISOLUS programme is; and if he will make a statement. [218348]

Mr. Bob Ainsworth *[holding answer 14 July 2008]:* Following the Government and Devolved Administrations' response to the Committee on Radioactive Waste Management's report in October 2006, the ISOLUS project team has been able to take forward technical and siting issues in conjunction with the new stakeholder groups, which have been created. The results of a technical options study are due by the end of this year. The project procurement strategy is currently being developed within the context of the Defence Industrial Strategy. These work areas are interrelated and the output from each will be drawn together over the next year to inform a recommendation for the way ahead. The project remains committed to further public consultation before major decisions are made.

RAF Halton

Mr. Lidington: To ask the Secretary of State for Defence how many armed forces officers have received initial specialist officer training for *(a)* caterers and *(b)* administrators at RAF Halton in each year since 1998. [217585]

Mr. Bob Ainsworth: The following table gives the number of armed forces personnel who have received initial specialist officer training at RAF Halton in the categories requested. Information is available only from financial year 2003-04.

Financial year	Officer specialisation: Catering	Administration
2003-04	8	75
2004-05	3	46
2005-06	6	19
2006-07	0	19
2007-08	0	22

Mr. Lidington: To ask the Secretary of State for Defence how many non-commissioned officers have taken the *(a)* junior management and leadership course, *(b)* intermediate management and leadership course and *(c)* advanced management and leadership course at RAF Halton in each year since 1998. [217588]

Mr. Bob Ainsworth: The following table gives the number of non-commissioned officers who have taken courses at RAF Halton in the areas requested, from financial year 2003-04 to present.

Course	Financial year	Number of officers
Junior management and leadership course (Junior - on promotion to corporal)	2003-04	1,565
	2004-05	2,035
	2005-06	1,201
	2006-07	1,210
	2007-08	1,182
Intermediate management and leadership course (Intermediate—on promotion to sergeant)	2003-04	974
	2004-05	1,521
	2005-06	903
	2006-07	812
	2007-08	875
Advanced management and leadership course (Advanced—on promotion to flight sergeant)	2003-04	273
	2004-05	475
	2005-06	279
	2006-07	256
	2007-08	253

Mr. Lidington: To ask the Secretary of State for Defence what the *(a)* inflow and *(b)* outflow was of civilian staff at RAF Halton in each year since 1998. [217591]

Mr. Bob Ainsworth: The following table gives the inflow and outflow of civilian staff at RAF Halton. This does not include personnel who have transferred within the MOD to or from posts at RAF Halton. The information is only available from financial year 2004-05. Earlier dates could only be provided at disproportionate cost.

Financial year	In	Out
2004-05	28	18
2005-06	20	42
2006-07	17	31
2007-08	13	25

Mr. Lidington: To ask the Secretary of State for Defence what the *(a)* inflow and *(b)* outflow was of armed forces personnel at RAF Halton in each year since 1998. [217592]

Mr. Bob Ainsworth: The following table gives the inflow and outflow of the armed forces personnel at RAF Halton.

Financial year	Inflow	Outflow
2006-07	240	204
2007-08	213	160

Data before 1 April 2006 are not held centrally and can only be provided at disproportionate cost.

Mr. Lidington: To ask the Secretary of State for Defence how many *(a)* Army, *(b)* Royal Navy and *(c)* RAF personnel have received training at RAF Halton in each year since 1998. [217594]

Mr. Bob Ainsworth: I will write to the hon. Member with the information requested and place a copy of my letter in the Library of the House.

RAF St. Athan

Mrs. Gillan: To ask the Secretary of State for Defence how many defence training personnel have been consulted on proposals for relocation to St. Athan; what the outcome of such consultation has been; and if he will make a statement. [218759]

Mr. Bob Ainsworth: The Defence Training Review (DTR) Package 1 Integrated Project Team (IPT) has from the outset routinely consulted the trade unions representing all the civilian employees potentially affected by the proposals stemming from the project. Such meetings, which now include representatives of the Metrix Consortium, take place every three months and provide an informal opportunity to update trade union representatives on project progress and address concerns and questions. Where required, the obligations under TUPE (2006) Regulations have been met through more formal consultation and exchanges of information. The approach taken has been as open as commercial considerations allow and has been cited by the trade unions as best practice. The MOD remains committed to continue the consultative process as the project proceeds. Consultation at MOD level is also matched by meetings and briefings that take place within DTR colleges.

Mrs. Gillan: To ask the Secretary of State for Defence in what ways his Department plans to participate in the public consultation proposals for a defence and training academy at St. Athan. [218835]

Mr. Bob Ainsworth: Following selection by the Ministry of Defence as preferred bidder for provision of the Defence Technical Academy at St. Athan, the Metrix Consortium is preparing to submit planning applications to the Vale of Glamorgan council. As part of their preparations, Metrix have instigated a public consultation process, the first stage of which will be a series of public exhibitions in the week of 14 July. This aims to ensure

that local stakeholders and members of the public can view and discuss the proposed plans. A public website will be made available, letters will be sent to key stakeholders and advertisements will be placed in the local press. The Ministry of Defence will be supporting Metrix in this process, in particular by providing advice and guidance on both their proposals and approach to public consultation and by making available representatives who can respond to any questions arising. The MOD and Metrix are committed to this programme of consultation and communication with the local community.

Submarines: Manpower

Patrick Mercer: To ask the Secretary of State for Defence what steps are being taken to increase the number of suitably qualified submarine warfare officers and ratings in naval service. [217247]

Derek Twigg: Addressing manning shortfalls within the Submarine Service is a key personnel priority. The entire Submarine Service recruiting process has been re-invigorated and its profile raised. Additional people are now in the training pipeline. Work continues to promote recruiting from General Service for both officers, from suitable junior and senior rates, and ratings. Retention measures are being exploited and financial packages updated. These include:

£7,500 Submarine 'Golden Hello' for transferees from the General Service;

£5,500 commitment bonus for specific submarine branches at the five year point;

£1,000 'recruit an oppo' bounty for individuals who recruit someone to specific submarine branches;

£5,000 submarine 'Golden Hello' for new recruits when they complete their training and are awarded their Dolphins.

£25,000 submarine warfare officer financial retention initiative which is payable on qualifying as a Watchleader.

Swiftsure Class Submarines

Mr. Gerald Howarth: To ask the Secretary of State for Defence what the *(a)* unit cost and *(b)* date of commissioning of each Swiftsure Class submarine was. [218237]

Mr. Bob Ainsworth: The Swiftsure Class of six submarines were commissioned at regular intervals between 1972 and 1981 and the commissioning date for each boat is listed as follows. Due to the long period of time that has since elapsed, the unit cost of these submarines is no longer held centrally and could be provided only at disproportionate cost.

Swiftsure class	*Commissioning dates*
HMS Swiftsure	17 April 1973
HMS Sovereign	11 July 1974
HMS Superb	13 November 1976
HMS Sceptre	14 February 1978
HMS Spartan	22 September 1979
HMS Splendid	21 March 1981

Type 42 Destroyers

Nick Harvey: To ask the Secretary of State for Defence what his Department's plans are for the decommissioning of Type 42 destroyers. [218486]

Mr. Bob Ainsworth: Our present planning assumptions, which are kept under review, are that the Type 42 destroyers will be withdrawn from service on the following dates:

Type 42 destroyers

	Withdrawal date
HMS Southampton	2009
HMS Exeter	2009
HMS Nottingham	2010
HMS Manchester	2011
HMS Gloucester	2011
HMS Liverpool	2012
HMS York	2012
HMS Edinburgh	2013

Nick Harvey: To ask the Secretary of State for Defence whether he plans to maintain a number of Type 42 destroyers in active service following the commissioning of Type 45s. [218487]

Mr. Bob Ainsworth: The Type 42 destroyers will be withdrawn gradually as the Type 45s enter service to replace them. On present plans, which are kept under review, all Type 42s will have been withdrawn by the time the sixth Type 45 enters service.

USA: Ministry of Defence Guarding and Police Agency

Norman Baker: To ask the Secretary of State for Defence with reference to the answer of 3 September 2007, *Official Report*, column 1628W, on Ministry of Defence Guarding and Police Agency: USA, when he expects the revised Memorandum of Agreement between the Ministry of Defence Police and Guarding Agency and the US Visiting Forces to be finalised. [218407]

Mr. Bob Ainsworth: The revised Memorandum of Agreement (MOA) between the Ministry of Defence Police and Guarding Agency and the US authorities was signed on 20 May 2008. It will come into effect on 1 October 2008.

INTERNATIONAL DEVELOPMENT

Africa: Energy

Mr. Drew: To ask the Secretary of State for International Development what assessment he has made of the effects of rising energy prices in Africa. [217799]

Gillian Merron: The Department for International Development (DFID) is taking a close interest in the effects of rising oil prices in sub-Saharan Africa, drawing

on reports by the OECD and the International Monetary Fund (IMF), as well as our own assessments. The dollar price of crude oil has doubled over the past two years. The economic impacts in Africa vary from country to country, with oil producers generally gaining through increased foreign earnings.

Non-oil producers have experienced reductions in economic growth. According to the IMF, an increase in the real price of crude oil from $75 to $100 from October 2007 to April 2008 has reduced economic growth by between 0.2 and 1.0 per cent. For some countries, the impacts of high oil prices has been partly offset by higher prices earned from other exported commodities. For all countries, there have been increases in the consumer price of oil products, such as petrol and kerosene.

Africa: Fisheries

Sarah Teather: To ask the Secretary of State for International Development what assistance his Department provides to African countries to help them protect their waters from illegal fishing; and if he will make a statement. [217424]

Mr. Thomas: The Department for International Development (DFID) has funded research which showed that illegal fishing costs the global economy some $23 billion per year. This includes around $1 billion in sub-Saharan Africa, representing a quarter of the total value of legitimate African fish exports. DFID has contributed some £700,000 to increase awareness of illegal fishing in southern Africa. This culminated in the Southern Africa Development Commission (SADC) Ministerial Conference on Illegal Fishing held in Namibia on 4 July (2008), at which urgent measures to tackle illegal fishing were discussed and agreed; these included improving sharing regional intelligence, improving fisheries governance and to encourage market measures that keep illegal produce out of supply chains. Subject to design and appraisal, DFID has allocated £6 million over six years to take this forward under an international partnership for African fisheries governance and trade. Partner donors are likely to include Norway, Germany, the World Bank and the European Commission.

DFID is also providing financial support for the operations of the joint maritime authority in Sierra Leone, which is tackling illegal fishing in that country.

Bangladesh: Storms

Mr. Andrew Smith: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of UK relief and reconstruction aid in Bangladesh following the November 2007 cyclone. [218741]

Mr. Malik: Following the 2007 cyclone in Bangladesh, the UK has contributed just over £15 million in relief and reconstruction aid. This has so far helped more than 2.8 million people in Bangladesh affected by the cyclone, and over the past eight months, has resulted in the following:

812,268 people benefited from receiving basic life saving survival packages;

66,375 people have received shelter assistance in the form of repairs or new constructions;

416,332 people have received livelihoods recovery and restoration support to help them generate incomes again;

1,293,650 people have received access to improved water services;

233,240 people have received access to sanitation, particularly women.

We are currently planning for a full independent evaluation to take place in October to look at the effectiveness of our relief and reconstruction funding for both the 2007 cyclone and floods in Bangladesh, as well as providing lessons to take forward for future emergency responses.

Departmental Disciplinary Proceedings

Mr. Redwood: To ask the Secretary of State for International Development how many staff in his Department have been *(a)* dismissed and *(b)* disciplined for their conduct in the last two years. [217406]

Gillian Merron: In the last two years, the number of staff within the Department for International Development who have been:

(a) dismissed due to conduct: 5

(b) disciplined due to conduct: 17

Departmental Early Retirement

Mr. Redwood: To ask the Secretary of State for International Development how many staff in his Department have taken early retirement in the last two years. [217396]

Gillian Merron: 135 Department for International Development (DFID) staff have taken early retirement during the period 1 July 2006 to 30 June 2008.

Languages

Mr. Ellwood: To ask the Secretary of State for International Development how many staff in his Department took second language training in each of the last five years; and what the five languages in which such training was most frequently undertaken were. [218921]

Gillian Merron: Requirements for language training are assessed by each overseas office and based upon business priorities. As such the Department for International Development (DFID) does not hold central records on language training but according to our main external language training provider 130 staff have received training in the last 18 months. This is equivalent to 35 per cent. of home civil service staff posted overseas at any given time. The top five languages in which training was most frequently undertaken were—French, Arabic, Spanish, Italian and Russian.

Pakistan: Earthquakes

Mr. Andrew Smith: To ask the Secretary of State for International Development what progress has been made in the UK relief and reconstruction effort in areas affected by the 2005 earthquake in Pakistan. [218738]

Mr. Malik: The Department for International Development (DFID) provided £53 million of emergency relief (food and shelter) over six months to help the 3.5 million people affected by the October 2005 earthquake in Pakistan.

Since then, we have been working closely with the Government of Pakistan to support the reconstruction and rehabilitation process. This assistance, totalling £51 million to date, has helped construct 250,000 houses using seismic resistant techniques. It will also fund the construction of 50 new seismic resistant bridges to further help those communities cut off by the earthquake and to improve road access in many remote areas. In partnership with the UN we have also funded almost 900 fully equipped prefabricated offices to get local government back to work while permanent buildings are repaired. Other future work planned includes rebuilding of schools and other education institutions, almost 6,300 of which were damaged by the earthquake.

WOMEN AND EQUALITY

Departmental Conferences

Mr. Hoban: To ask the Minister for Women and Equality if she will list the conferences hosted by the Government Equalities Office in each of the last two years; and what the cost was of each conference. [211682]

Barbara Follett: Since the Government Equalities Office (GEO) was established in October 2007, it has hosted the following conferences:

Events as part of the European Year of Equal Opportunities for All 2007

		GEO contribution (£)
Focus on Youth Seminar	22 October 2007	9,985
Local Government Association Seminar	1 November 2007	17,111
Voluntary and Community Sector Seminar	15 November 2007	22,549
Women and Men working together to achieve Gender Equality Event	3 December 2007	12,990
Age Equality—Its Our Right Event	7 December 2007	11,624
UK Celebration EYEOA Closing Event (HoC)	13 December 2007	12,668
Total	—	86,927

Domestic Violence: Victim Support Schemes

John Bercow: To ask the Minister for Women and Equality what funding her Department has allocated to charities which provide specialist support to women who have been affected by domestic violence over the next three years. [204304]

Barbara Follett: The Government Equalities Office (GEO), has a strategic and influencing role within Government to address the disadvantage that individuals experience because of their gender; race; disability; age; sexual orientation; religion or belief. It is managing a cross-Government emergency fund aimed at keeping a number of rape crisis centres open. However, GEO does not typically allocate funding to charities which provide specialist support services to those experiencing disadvantage and has no plans to do so for charities supporting women affected by domestic violence.

The responsibility for funding decisions about local level, including the provision of specialist support to women who have been affected by domestic violence, rests with local authorities. GEO will continue to work in partnership with the Women's National Commission, the Equalities and Human Rights Commission and other Government Departments to keep a close watch on the way in which local areas prioritise funding for domestic violence services.

WORK AND PENSIONS

Children: Maintenance

Mr. Hepburn: To ask the Secretary of State for Work and Pensions (1) how much money has been collected by the Child Support Agency from non-resident parents in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK in each year since 1997; [217171]

(2) in respect of how many children child maintenance payments were made in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK in each year since 1997. [217172]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to my hon. Friend with the information requested.

Letter from Stephen Geraghty, dated 15 July 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how much money has been collected by the Child Support Agency from non-resident parents in (a) Jarrow constituency (b) South Tyneside (c) the North East and (d) the UK in each year since 1997; [217171] and

For how many children child maintenance payments were made in (a) Jarrow constituency (b) South Tyneside (c) the North East and (d) the UK in each year since 1997. [217172]

Such information as is available is presented in the attached table, which shows both the amount of money collected or arranged and the number of children benefiting from child maintenance since 1997.

Since the introduction of the Operational Improvement Plan two years ago, the number of children benefiting from maintenance has risen by around 126,000 to over 749,000 children. The Agency also collected or arranged a record breaking £1bn in maintenance in the twelve months to March 2008.

I hope you find this answer helpful.

Maintenance Collected or Arranged and Children benefiting from maintenance: 1997 to 2008

	Jarrow		*South Tyneside*		*North East*		*Great Britain*	
	Money (£000)	*Children*	*Money (£000)*	*Children*	*Money (£000)*	*Children*	*Money (£000)*	*Children*
1996/97	786	500	1,479	900	21,000	19,200	213,000	324,700
1997/98	817	600	1,753	1,200	25,000	24,200	306,000	394,700
1998/99	1,150	900	2,143	1,500	32,000	30,100	393,000	470,900
1999/2000	1,416	1,100	2,469	1,900	38,000	34,400	461,000	534,100
2000/01	1,490	600	2,623	1,500	43,000	35,300	503,000	543,300
2001/02	1,441	900	2,731	2,000	45,000	36,500	528,000	546,800
2002/03	1,482	700	2,783	2,000	47,000	34,500	573,000	548,100
2003/04	1,439	900	2,505	2,100	41,000	31,900	797,000	537,500
2004/05	1,338	1,000	2,540	2,200	42,000	34,600	798,000	561,100
2005/06	1,302	1,000	2,569	2,400	44,000	36,500	836,000	623,000
2006/07	1,318	1,000	2,524	2,400	45,000	38,900	898,000	[1]683,300
2007/08	1,536	1,400	3,356	2,800	51,000	43,000	1,010,000	[1]749,300

[1] Children figures for Great Britain include receipts on cases progressed clerically for 2006/07 and 2007/08 and do not include performance of cases held clerically by Parliamentary Constituency, Local Authority or region.

Notes:

1. Figures on money are received via the collection service as well as maintenance arranged via maintenance direct agreements. Figures for Great Britain are sourced from General Ledger and figures for Jarrow, South Tyneside and the North East sourced from Management information.
2. Figures on money for Great Britain include receipts on cases progressed clerically. Figures do not include performance of cases held clerically by Parliamentary Constituency, Local Authority or Region.
3. All Great Britain figures on money are for the relevant financial year. Figures for Jarrow, South Tyneside and the North East up to and including 2002/03 are for the 12 months up to February. For 2003/04 onwards, all information is for full financial years.
4. Money collected and arranged has been allocated to Jarrow Parliamentary Constituency, South Tyneside Local Authority and the North East by matching the postcode of the non resident parent against the Office for National Statistics postcode directory.
5. Figures on money rounded to the nearest £1,000 for Jarrow and South Tyneside and £1m for North East and Great Britain and children rounded to the nearest 100.
6. Children benefiting are allocated to Jarrow Parliamentary Constituency, South Tyneside Local Authority and the North East by matching the postcode of the parent with care against the Office for National Statistics postcode directory. Some movements in the caseload may be down to changes in the postcode directory over time. The reduction in children benefiting between February 2000 and February 2001 in Jarrow is largely due to changes in the postcode directory at this time and is not a real reduction.

Employment: Finance

Chris Grayling: To ask the Secretary of State for Work and Pensions what the cost was of all Government employment programmes, excluding Remploy, in each year for which information is available since 1997. [203267]

Mr. Timms: There are a range of employment programmes that ensure that people get the support that they need to move back into work.

The new deal embodied the idea that rights and responsibilities go hand in hand. In return for the extra support and opportunities provided, young people were expected to take up jobs and training or see their benefits cut. As we saw this approach working, we extended it to other groups. Together with a stable economy, this has helped take a million people off key out-of-work benefits and cut claimant unemployment by 50 per cent. The latest figures show that the number of people on jobseeker's allowance is 819.3 thousand. This is down 58.1 thousand on the year, and down 800.3 thousand since 1997. The result is we are spending over £5 billion less on key out-of-work benefits.

At the same time, we have increased employment support by £800 million and been able to increase help to those who simply cannot work. This is good for the individual and for our society as a whole. All the evidence shows that work is the best route out of poverty and that by helping people into work, we make sure our economy benefits from making better use of individuals' talent while cutting the welfare bill.

Information about the cost of employment programmes is in the following table.

Employment programmes excluding Remploy

	£ million
1997-98	200
1998-99	322
1999-2000	531
2000-01	557
2001-02	791
2002-03	805
2003-04	919
2004-05	1,044
2005-06	973
2006-07	865

Notes:

1. Figures are in nominal terms.
2. Programmes included are: Employment Zones; Working Neighbourhoods Pilot; External Action Teams; Princes Youth Business Trust; Work Based Learning for Adults; European Social Fund; Jobsearch Provision; Incapacity Benefit Reforms; Ambition; Adviser Discretion Fund; Internal Action Teams; Ethnic Minorities Pilot; New Deals; Work Step; Access to Work; Residential Training Centres; Work Preparation.
3. Not all programmes ran in each year.
4. Information about programme expenditure for Employment Zones, The Prince's Trust, and Working Neighbourhoods is not available prior to 2004-05, and is not included in the figures for earlier years.
5. The figures do not include administration expenditure.

Department for Work and Pensions, Jobcentre Plus, and Employment Service annual reports.

Income Support: Lone Parents

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) how many and what proportion of lone parent families that will be affected by the changes to the eligibility criteria for income support taking effect in October 2010 will have *(a)* one child, *(b)* two children and *(c)* three or more children aged between seven and 16 on that date; and if he will make a statement; [214951]

(2) how many and what proportion of lone parent families that will be affected by the changes to the eligibility criteria for income support taking effect in October 2009 will have *(a)* one child, *(b)* two children and *(c)* three or more children aged between 10 and 16 on that date; and if he will make a statement; [214952]

(3) how many and what proportion of the lone parent families that will be affected by the changes to the eligibility criteria for income support taking effect in October 2008 will have *(a)* one child, *(b)* two children and *(c)* three or more children aged between 12 and 16 years on that date; and if he will make a statement. [214953]

Mr. Plaskitt: The information is not available.

Information is available on the number of lone parents receiving income support at August 2007 who had a youngest child aged between seven and 16, 10 and 16, and 12 and 16 by number of children in those age bands at that date.

That information is in the following table.

Number of IS lone parents at August 2007

	All	*Percentage*
Whose youngest child is aged 12 to 16		
All	106,700	—
One child aged 12 to 16	76,300	71.5
Two children aged 12 to 16	26,600	24.9
Three or more children aged 12 to 16	3,800	3.6
Whose youngest child is aged 10 to 16		
All	169,400	—
One child aged 10 to 16	107,400	63.4
Two children aged 10 to 16	50,000	29.5
Three or more children aged 10 to 16	12,100	7.1
Whose youngest child is aged seven to 16		
All	287,800	—
One child aged seven to 16	157,000	54.5
Two children aged seven to 16	93,900	32.6
Three or more children aged 7 to 16	36,900	12.8

Note:
5 per cent. sample figures are uprated to 100 per cent. WPLS totals and rounded to the nearest 100. Totals may not sum due to rounding.
Source:
DWP Information Directorate 5 per cent. sample

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) what his latest estimates are of the number of lone parent families in each region that will be affected by the changes to the eligibility criteria for income support taking effect in *(a)* October 2009 and *(b)* October 2010; and if he will make a statement; [214954]

(2) what his latest estimates are of the number of lone parent families in each region that will be affected by the changes to the eligibility criteria for income support taking effect in October 2008; and if he will make a statement. [214955]

Mr. Plaskitt: The information is not available.

Information is available on the number of lone parents receiving income support at November 2007 who had a youngest child aged seven, 10 or 12 or over at that date by region.

That information is in the following table:

Number of income support lone parents at November 2007, by age of youngest child

Government Office Region	*12 or over*	*10 and over*	*7 and over*
North East	5,020	8,100	13,490
North West	13,010	21,200	35,770
Yorkshire and The Humber	8,280	13,530	22,480
East Midlands	6,100	9,910	16,860
West Midlands	9,780	15,990	26,920
East of England	7,630	12,720	21,760
London	22,430	36,740	62,570
South East	10,190	16,920	29,040
South West	6,260	10,330	17,540
Wales	4,900	8,130	13,920
Scotland	8,730	14,400	24,090
Claimants living abroad/ Unknown	0	0	10

Note:
1. Figures are rounded to the nearest 10.

DWP Information Directorate 100 per cent. WPLS.

Jobcentre Plus: Breast Feeding

Mr. Lidington: To ask the Secretary of State for Work and Pensions what the Government's policy is on breastfeeding by clients in Jobcentre Plus offices; and if he will make a statement. [218630]

Mr. Timms: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie:

The Secretary of State has asked me to respond to your question asking about the policy on breastfeeding by clients in Jobcentre Plus offices. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus has no specific policy on mothers breastfeeding in our offices. Our managers adopt a flexible approach, which will often depend on the particular circumstances of the office. In some offices, this can include, for example, the provision of a suitable area.

I hope this is helpful.

National Insurance: Immigrants

Mr. Clappison: To ask the Secretary of State for Work and Pensions pursuant to the answer of 9 May 2008, *Official Report*, column 1289W, on national insurance: immigrants, how many individuals were on the list of those whose licences had been revoked supplied by the Security Industry Authority to his Department; and when his Department began checking the national insurance numbers and national insurance status of the illegal workers. [206320]

Mr. Timms: The Security Industry Authority (SIA) provided the Department for Work and Pensions with a list of 7,266 individuals on 7 March 2008, and a further 920 individuals on 16 April 2008. This total of 8,186 names included cases where licences had already been revoked and all cases where appeals were pending at the time and where revocation remained a possibility. Work on checking the cases commenced on the 10 March 2008 and has only recently been completed.

Analysis of the details provided by the SIA shows that a total of 294 national insurance numbers were issued following the introduction of the right to work test in July 2006. Detailed checks have confirmed that 269 of these did have the right to work at the time the NINO was issued. The right to work had subsequently expired which is why they were found to be working illegally by the SIA. A balance of 25 cases were found not to have had the right to work and to have been issued with a NINO incorrectly. However, this was due to a temporary misunderstanding by staff about students having an automatic right to work which was quickly rectified.

The remaining 7,892 cases were either issued before the right to work test was introduced (4,617 or about 58.5 per cent. of the 7,892) or are cases where the names or NINOs given to the SIA appear to be false (3,275 or about 41.5 per cent.). Further examination into cases where false names or NINOs appear to have been provided has been initiated where appropriate.

Pensioners: Social Security Benefits

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) what estimate his Department has made of the average amount unclaimed by single pensioners of each sex aged 85 years or over entitled to but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit or local housing allowance and *(c)* guarantee credit, housing benefit or local housing allowance and council tax benefit in each of the last five years; and if he will make a statement; [214957]

(2) what estimate his Department has made of the average amount unclaimed by pensioner couples where one or both were aged 85 years or over, who were entitled to but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit/local housing allowance and *(c)* guarantee credit, housing benefit/local housing allowance and council tax benefit in each of the last five years; and if he will make a statement; [215758]

(3) what estimates his Department has made of the average amount unclaimed by single pensioners aged 60 to 75 years or over who were entitled to but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit/local housing allowance and *(c)* guarantee credit, housing benefit/local housing allowance and council tax benefit, broken down by sex, in each of the last five years; and if he will make a statement; [215888]

(4) what estimates the Department has made of the average amount unclaimed by pensioner couples, where one or both are aged 60 to 75 years old, who are entitled to, but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit/local housing allowance and *(c)* guarantee credit, housing benefit/local housing allowance and council tax benefit in each of the last five years; and if he will make a statement; [215985]

(5) what recent estimates the Department has made of the average amount unclaimed by pensioner couples, where one or both are aged 75 to 85 years old, who are entitled to but not claiming *(a)* guarantee credit and council tax benefit, *(b)* guarantee credit and housing benefit/local housing allowance and *(c)* guarantee credit, housing benefit/local housing allowance and council tax benefit in each of the last five years; and if he will make a statement. [215993]

Mr. Mike O'Brien: Estimates of the average unclaimed weekly amounts of means-tested benefits in Great Britain, covering income support, pension credit, housing benefit, council tax benefit and jobseeker's allowance (income based) are published in the report 'Income Related Benefits Estimates of Take-Up in 2006-07'.

The following table presents average unclaimed weekly amounts of guarantee credit and council tax benefit among pensioners who are entitled to but not receiving both benefits. The amounts are presented for the different family types identified in the question and for each complete financial year since the introduction of pension credit. The amounts for each year are presented in the prices for that year and are rounded to the nearest 10 pence. These estimates are based on survey data and so will be subject to some sampling variation.

Sample sizes are too small to yield reliable results for the groups identified in the other parts of the question. We are therefore unable to provide estimates for those entitled to but not claiming guarantee credit and housing benefit as identified in part *(b)* of each question. Similarly we cannot provide estimates for those entitled to but not claiming guarantee credit and housing benefit and council tax benefit as identified in part *(c)* each time.

Average weekly unclaimed amount of GC and CTB

£

	2003-04	*2004-05*	*2005-06*	*2006-07*
Single male pensioners aged 85 or over	[1]	[1]	[1]	[1]

Average weekly unclaimed amount of GC and CTB

£

	2003-04	2004-05	2005-06	2006-07
Single female pensioners aged 85 or over	[1]—	45.20	50.50	47.40
Pensioner couples where one or more is aged 85 or over	[1]—	[1]—	[1]—	[1]—
Single male pensioners aged 75 to 84	[1]—	[1]—	[1]—	[1]—
Single female pensioners aged 75 to 84	44.80	40.30	42.40	47.90
Pensioner couples where one or more is aged 75 to 84	[1]—	54.50	51.70	55.90
Single male pensioners aged 60 to 74	[1]—	59.00	63.60	67.20
Single female pensioners aged 60 to 74	37.10	41.20	53.00	52.10
Pensioner couples where one or more is aged 60 to 74	58.00	63.80	71.40	72.60

[1] Sample sizes for the group in question are too small to yield reliable results.

Note:

Some couples are included in more than one of the specified family types. For example where a 61-year-old is married to a 76-year-old, this couple is counted both as a 'couple where one more is aged 60 to 74' and as a 'couple where one or more is aged 75 to 84'.

Social Security Benefits

Mr. Harper: To ask the Secretary of State for Work and Pensions what his estimate is of the number of employment and support allowance claimants who will receive *(a)* pensioner premium, *(b)* severe disability premium, *(c)* enhanced disability premium and *(d)* carer premium in each of the next five years. [209939]

Mr. Timms: We expect there will be similar proportions in receipt of the severe disability premium, carer's premium and pensioner premiums under employment and support allowance, as there are for the current incapacity benefits stock. The number of people eligible for the enhanced disability premium will increase under employment and support allowance, due to the automatic passport to the premium for those in the support group. This ensures that everyone in the group receiving income-related employment and support allowance will receive the enhanced disability premium.

The following table provides estimates for those receiving the premiums under incapacity benefits without the introduction of employment and support allowance and this is broadly similar to the combined incapacity benefits and employment and support allowance totals. However, the exception is the number of people in receipt of the enhanced disability premium, which is expected to rise by over 100,000 in the long-run, over and above the figures presented as follows.

Incapacity benefits—additional premiums paid through income support: Estimated benefit case loads

	2007-08 estimated outturn	2008-09	2009-10	2010-11
Enhanced disability premium	160,000	165,000	170,000	175,000
Severe disability premium	220,000	225,000	230,000	240,000
Carer's premium	95,000	100,000	100,000	105,000
Pensioner premium	—	—	—	—

'—' Indicates figures are negligible.

Notes:

1. Figures are rounded to the nearest 5,000.
2. Figures are based on information underlying benefit expenditure tables published on the DWP website. The tables are accessible via the following link:
http://www.dwp.gov.uk/asd/asd4/expenditure.asp

Social Security Benefits: Manpower

Jenny Willott: To ask the Secretary of State for Work and Pensions how many staff were employed in each benefit delivery centre in each month since they were established; and if he will make a statement. [215755]

Mr. Timms: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 15 July 2008:

The Secretary of State has asked me to reply to your question asking how many staff were employed in each benefit delivery centre in each month since they were established. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Centralisation of benefit payments in the Benefit Delivery Centres commenced in April 2006 and was completed by March 2008. The number of full-time equivalents (FTEs) employed each month in Benefit Delivery Centres within the period April 2006 to May 2008 is attached as an Annex to this letter. Copies have also been placed in the Library.

Social Security Benefits: Overpayments

Mr. Harper: To ask the Secretary of State for Work and Pensions (1) in how many cases debt collectors visited individuals to reclaim overpayments of benefits following the death of a claimant in each year since 1997 for which information is available; [211149]

(2) what contractual arrangements his Department has with companies for the recovery of overpayment of benefits where the claimant has died. [211218]

Mr. Plaskitt: The Department does employ debt collectors to recover overpayments of benefits where the debtor cannot be traced or is refusing to pay. However, it is not departmental policy to use debt collectors to reclaim overpayments following death of a claimant.

Social Security Benefits: Telephone Services

Jenny Willott: To ask the Secretary of State for Work and Pensions how many calls were made to each benefit delivery centre in each month since they were established; and if he will make a statement. [214967]

Mr. Timms: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 15 July 2008:

The Secretary of State has asked me to reply to your question asking how many calls were made to each benefit delivery centre in each month since they were established. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Benefit Centralisation was completed in March 2008 and comparable information is available from November 2007. On average we answer 700,000 calls per week in 80 Benefit Delivery Centres.

The available information is attached and has also been placed in the House of Commons library.

DUCHY OF LANCASTER

Teenage Pregnancy

Mrs. Gillan: To ask the Chancellor of the Duchy of Lancaster how many births were recorded to mothers under 16 years of age in *(a)* England, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland in each year since 1997. [218736]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 15 July 2008:

As National Statistician I have been asked to reply to your question about the number of births recorded to mothers under 16 years of age in (a) England (b) Wales (c) Scotland and (d) Northern Ireland in each year since 1997. (218736)

The latest year for which figures from birth registration are available is 2007. The table below shows the number of births to mothers aged 15 or below in each of the four constituent countries of the UK from 1997 to 2007.

Live births to women aged under 16[1] in England, Wales[2], Scotland and Northern Ireland[3,4], 1997 to 2007

	Number of live births			
	England	*Wales*	*Scotland*	*Northern Ireland*
1997	1,477	124	178	39
1998	1,429	113	137	56
1999	1,372	99	142	63
2000	1,376	106	136	58
2001	1,340	93	132	41
2002	1,254	97	110	36
2003	1,177	69	105	33
2004	1,155	67	96	39
2005	1,102	87	104	35
2006	1,154	79	110	35
2007[5]	1,064	75	107	36

[1] Age refers to mother's age at the time of the birth. In England, Wales and Northern Ireland, age of mother is imputed where it is not stated at birth registration. Figures for Scotland exclude births where age of mother is not stated at registration.
[2] Live births registered within England and Wales are assigned to England or Wales based on the usual residence of the mother at the time of the birth—births are excluded if the usual residence is outside England and Wales.
[3] Figures for Northern Ireland exclude births to mothers not usually resident in Northern Ireland at the time of the birth. Figures for Scotland include births to mothers not usually resident in Scotland at the time of the birth.
[4] For Northern Ireland and Scotland, figures relate to the number of live births registered in a calendar year. For England and Wales, figures relate to the number of live births occurring in each calendar year.
[5] The first release of live birth figures for 2007 for England and for Wales occurred on 10 July 2008. Figures for 2007 for Scotland and for Northern Ireland are provisional.

HEALTH

Abortion

Mr. Amess: To ask the Secretary of State for Health if he will bring forward proposals to require abortion clinics to inform women seeking an abortion about alternatives to abortion; what guidance he has *(a)* issued and *(b)* plans to issue on this matter; what recent representations he has received (i) supporting and (ii) opposing the issuing of such guidance; and if he will make a statement. [217728]

Dawn Primarolo: The following guidance recommends that women should be provided with information on alternatives to abortion:

Procedures for the approval of independent sector places for the termination of pregnancy, Department of Health, 1999;

Independent Health Care National Minimum Standards, Department of Health, 2002;

Effective Commissioning of Sexual Health and HIV Services, A Sexual Health and HIV Commissioning Toolkit for primary care trusts and local authorities, Department of Health, 2003;

The Care of Women Requesting Induced Abortion, Evidence-based Clinical Guideline Number 7, Royal College of Obstetricians and Gynaecologists, 2004; and

Recommended standards for sexual health services, Medical Foundation for AIDS and Sexual Health, 2005.

Further guidance will be included in the forthcoming Department of Health document "Good Practice Guidance for the Commissioning of Contraception and Abortion Services" due to be published later this year.

As such, we have no plans to bring forward proposals to require abortion clinics to inform women seeking an abortion about alternatives to abortion.

The Department has received around 200 letters on abortion during 2008. We are unable to break this down in the format requested.

Alcoholic Drinks: Young People

Mr. Malins: To ask the Secretary of State for Health how many people aged under 18 have been admitted to hospitals in England and Wales with illnesses associated with the consumption of alcohol in each of the last five years. [218995]

Dawn Primarolo: I refer the hon. Member to the answer I gave to the hon. Member for South Cambridgeshire (Mr. Lansley) on 8 January 2008, *Official Report*, column 461W.

Brain Cancer

Bob Spink: To ask the Secretary of State for Health what funding the National Cancer Research Institute has provided for *(a)* brain tumour research and *(b)* other cancer-related research (i) in cash terms and (ii) as a proportion of its expenditure in each of the last 10 years. [R] [216380]

Dawn Primarolo *[holding answer 9 July 2008]:* The National Cancer Research Institute (NCRI) was formed on 1 April 2001. The NCRI brings together the major funders (including government, the voluntary sector and industry) together with cancer patient representatives, to ensure a national strategic approach on cancer research. The information shown in the following table relates to research directly funded by NCRI partners.

£ million

	Brain and central nervous system (CNS) expenditure	*Total site-specific expenditure (and brain and CNS expenditure as a percentage of that total)*	*Total expenditure (and brain and CNS expenditure as a percentage of that total)*
2002	1.6	104 (1.6)	258 (0.6)
2003	1.9	121 (1.6)	284 (0.7)
2004	1.8	114 (1.6)	304 (0.6)
2005	2.5	128 (1.9)	348 (0.7)
2006	3.1	159 (1.9)	393 (0.8)

Cannabis: Nicotine

Lynne Jones: To ask the Secretary of State for Health what research his Department has commissioned or evaluated on the physical and psychological effects of *(a)* using cannabis and nicotine together and *(b)* using each substance individually. [215722]

Dawn Primarolo: At the request of my right hon. Friend the Home Secretary, the Government's advisory committee on drugs, the Advisory Council on the Misuse of Drugs (ACMD), recently carried out a substantial review of the harms associated with cannabis use, including the physical and psychological effects of cannabis.

The report, 'Cannabis: Classification and Public Health (2008)', was published in May 2008 and copies have already been placed in the Library and are also available on the Home Office's website at:

http://drugs.homeoffice.gov.uk/publication-search/acmd/acmd-cannabis-report-2008

Recently, the Department commissioned a systematic review of studies in this area. The peer-reviewed results of this review were published in *The Lancet* in July 2007 and confirmed the increased evidence of an association, possibly causal, between prior cannabis use and later development of psychosis and schizophrenia with a 40 per cent. increase in risk reported (up to 200 per cent. increase for at-risk heavy users).

The Department has also commissioned research into the harmful components of cannabis and tobacco smoke. This work is well advanced and a publication date will be set in due course.

The Department keeps the evidence of the physical and psychological effects of cannabis under review and has commissioned the National Addiction Centre to review the evidence of harms for the Department's publication, 'Dangerousness of Drugs (2001)', copies of which have already been placed in the Library. The Department has identified funding for the review to be updated later this year.

Dental Services: Cumbria

Mr. Jamie Reed: To ask the Secretary of State for Health what estimate his Department has made of the number of dentists required in *(a)* Cumbria and *(b)* Copeland constituency to meet demand for NHS dental care. [217427]

Ann Keen: Decisions on the provision of dental services are left to local national health service organisations, who are best placed to judge the requirements of the communities they serve.

Mr. Jamie Reed: To ask the Secretary of State for Health (1) how many Copeland residents access NHS dental treatment outside Copeland; [217429]

(2) how many dental practices in *(a)* Cumbria and *(b)* Copeland constituency have stopped accepting NHS patients in the last 12 months; [217430]

(3) how many dental practices in *(a)* Cumbria and *(b)* Copeland constituency are accepting new NHS patients. [217431]

Ann Keen: The requested information is not collected centrally. However, my hon. Friend may wish to approach the chief executive of Cumbria primary care trust, which might hold some of the information that has been requested.

Dentistry: Carlisle

Mr. Jamie Reed: To ask the Secretary of State for Health (1) when the first cohort of new dentists will qualify from the new dental school in Carlisle; [217426]

(2) how many students are expected to qualify as dentists from the new dental school in Carlisle each year. [217428]

Ann Keen: The new dental school at the University of Central Lancashire has four dental education centres at Accrington, Blackpool, Carlisle and Morecambe Bay where students are trained in clinical dentistry. The school admitted its first cohort of 32 students, eight of whom will be placed in Carlisle, in autumn 2007. The first students to graduate from this cohort will qualify as dentists in the summer of 2011.

Departmental Early Retirement

Mr. Redwood: To ask the Secretary of State for Health how many staff in *(a)* his Department and *(b)* his Department's agencies have taken early retirement in the last two years. [217380]

Mr. Bradshaw: The numbers of staff who have taken early retirement in the last two years are presented in the following table:

	2007-08	*2006-07*
Departmental staff	75	21
Medicines and Healthcare Products Regulatory Agency	0	2
NHS Purchasing and Supply Agency	1	1

Departmental ICT

Bob Spink: To ask the Secretary of State for Health how many of his Department's staff have access to the Department's IT infrastructure at home. [216375]

Mr. Bradshaw: At the 30 June 2008, there were 2,082 information technology (IT) accounts which had remote access to the Department's IT infrastructure. This included departmental staff and other authorised workers such as seconded and contract staff. Staff can connect securely from practically any location with access to a telephone or broadband line including their home address. If a mobile telephone network card has been supplied, connection is possible from anywhere with a general packet radio service or 3G signal. To establish how many accounts are solely for departmental staff or how many staff actually access the Department's IT infrastructure from their homes, will not be possible without incurring disproportionate cost.

Departmental Pay

Mr. Redwood: To ask the Secretary of State for Health what proportion of staff of his Department and its agencies did not receive the maximum bonus possible under a bonus scheme applying to them in the last two years. [217374]

Mr. Bradshaw: The Department and its agencies have two sets of arrangements under which bonuses can be awarded. For senior civil servants (SCSs), pay arrangements are common across all Government Departments. The Department's senior pay strategy, which conforms to these common arrangements, explains that bonuses may be awarded for delivery of personal objectives or other short-term personal contributions to wider organisational objectives. Individuals are required to agree their priorities with their manager at the beginning of the performance year. Line managers then make recommendations for performance bonuses which are considered by the Department's pay committees at the end of the performance year. The pay committees, which meet annually, make the final decision on whether a bonus should be awarded, relative to the performance of others. In 2006 and 2007, 85 per cent. of SCSs in the Department and its agencies did not receive the maximum bonus possible under the scheme. Bonuses for 2008 have yet to be decided.

For staff below the SCS, the Department and its agencies operate a special bonus scheme whereby managers may award a bonus to recognise an outstanding contribution in a particularly demanding situation. This can include a temporary and substantial increase in job loading, dealing with pressures arising from temporary vacancies or job requirements, a high level of commitment and resolution to get a job done, difficulties requiring a special effort to overcome, or a contribution over and above what would normally be expected for the job and of the person, or team, concerned. Bonuses are generally small in value, but there is no specified maximum size of award. As a result, it is not possible to answer the question for this scheme.

Departmental Planning Permission

Mr. Maude: To ask the Secretary of State for Health what *(a)* planning applications and *(b)* licensing applications his Department has submitted in the last 24 months. [215535]

Mr. Bradshaw: Only one planning application has been made on behalf of the Secretary of State within the last 24 months. This was for 10 flats on a site at Woodside car park, Plymouth.

No licensing applications have been made.

Departmental Public Expenditure

Mr. Lansley: To ask the Secretary of State for Health (1) with reference to page 148 of his Department's Annual Report 2008, if he will provide a full breakdown of the *(a)* central Strategic Health Authority allocations, *(b)* Department of Health administration and *(c)* other revenue budgets, noting for each how much money has not yet been allocated; [209134]

(2) pursuant to the answer of 15 May 2008, *Official Report*, column 1672W, on departmental public expenditure, if he will provide a break down of the allocations to central budget holders made on 17 March. [209182]

Mr. Bradshaw: The breakdown of budgets are given in the following tables:

Table one: Central strategic health authority (SHA) allocations;

Table two: Departmental administration; and

Table three: Other revenue budgets.

All budgets were issued to budget holders by the start of this financial year.

Table 1: Central SHA allocations

Budget title	*Budget (£ million)*
Revenue support	218
Clinical Excellence Awards	202
Prison healthcare payments to Home Office	196
NHS Direct—non contestable core services	139
newGeneral Medical Services (nGMS) Contract fees for Dispensing Doctors	84
Independent sector treatment centres	78
Securing Recombinant Clotting Factors	46
Dangerous People with Severe Personality Disorders	40
SHA Strategic Development Fund (Was Modernisation Agency Corporate Programme)	39
National Cancer Screening Management—Further Funding of £39.971 million in Departmental Central Budget to be transferred to York	32
Care Services Improvement Partnership (CSIP)	28
Community and Prison Drug Treatment	23
SHA Strategic Development Fund (was Modernisation Agency Corporate Programme)	22
Heart Improvement	18
Personal Medical Services (PMEDs): Personal Admin Costs for Non Dispensing Doctors	17
National Screening Programmes—Pilots and Quality Management. (Was Antenatal and Child Health Pilots Quality Management)	15
Rare conditions—burns	14
SHA Strategic Development Fund (was Modernisation Agency Corporate Programme)	12
Mental health choice and inclusion	11
Choose and book appointments line	11
Budgets less than £10 million	73
Total	1,319

Table 2: Departmental administration

Budget title	*Budget (£ million)*
Direct administration costs (as reported in Figure A5 of Department Report 2008)	219
Administration related expenditure e.g. Capital charges, provisions, Administration cost of collection, Consultancy	28
NHS Purchasing and Supplies Agency	29
Total	276

Table 3: Other Revenue Budgets

Budget Title	*Budget (£ million)*
Injury benefit review	60
Emergency planning	57
School fruit and vegetable scheme	41
Injury allowances	40
Electronic Staff Records	40
National Cancer Screening	40
NHS Choices	38
Health and Social Care Policy Research	34
Ambulance Radio Contract	34
Service Delivery	33
Tobacco Smoke Free Legislation	31
Smoking	26
Substance Misuse	25
Multi-Professional Education & Training Transfer	24
Pensions Programme	22
Contract management	18
Whole system Demonstrators	18
Elective Care	18
General Scheme of Grants to National Voluntary Organisations (S64)	18
International	17

Table 3: Other Revenue Budgets

Budget Title	*Budget (£ million)*
Sexual Health	17
Children and Young People	17
Health Protection	16
Human Resource Services	16
Education and Learning	16
Secretary of States Health Inequalities Review	16
Monitor	16
Public Health Information & Intelligence and Workforce Capacity	14
Social Marketing	12
Independent Complaints	11
Life Check	11
Inequalities analytical work: Communities for Health	11
Cancer Registry Modernisation	11
Scientific Development & Bioethics (including genetics and stem cells)	10
GP Patient Survey	10
Toward Cleaner Hospitals/Healthcare Associated Infection & Cleanliness	10
Child Safety	10
Other Budgets less than £10 million including receipts	308
Total	1,167

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Health how many and what percentage of staff in his Department have had more than two periods of sickness absence of less than five days in each of the last three years. [218722]

Mr. Bradshaw: The numbers and percentages of staff in the Department who have had more than two periods of sickness of less than five days in each of the last three years are given in the following table.

	Number	*Percentage*
2007-08	344	15
2006-07	343	15
2005-06	328	13

Percentages are based on numbers of staff in post at the end of each financial year.

David Simpson: To ask the Secretary of State for Health how many staff in his Department have had five or more periods of sickness absence of less than five days in two or more of the last five years. [218968]

Mr. Bradshaw: Information is not available in the format requested. However information is available for the last three years on the numbers of staff who have had five or more periods of sickness of less than five days. This is given in the following table.

	Number
2007-08	93
2006-07	93
2005-06	87

Information is not available before 2005-06.

Dietary Supplements: EU Law

Mr. Austin Mitchell: To ask the Secretary of State for Health (1) when *(a)* he and *(b)* officials of the Food Standards Agency last met counterparts from each of the other member states of the European Union to discuss the Government's objectives for the setting of maximum permitted levels for vitamins and minerals in food supplements under the provisions of Article 5 of the Food Supplements Directive; and what the outcome of each of those meetings was; [216281]

(2) when the Chief Executive of the Food Standards Agency last met officials of the European Commission's Directorate-General for Health and Consumer Affairs to discuss the Government's objectives for the setting of maximum permitted levels for vitamins and minerals in food supplements under the provisions of Article 5 of the Food Supplements Directive; whom he met; and what the outcome of that meeting was; [216282]

(3) how many representations he has received from *(a)* right hon. and hon. Members and *(b)* others on the process of setting maximum permitted levels for vitamins and minerals in food supplements under the provisions of Article 5 of the Food Supplements Directive in 2008. [216283]

Dawn Primarolo: No recent meetings have been held between Health Ministers and their counterparts in other member states on setting maximum levels for vitamins and minerals in food supplements.

Food Standards Agency (FSA) officials met their counterparts from other member states at a European Commission working group meeting to discuss this issue on 27 June 2008. A summary of the meeting will be made available on the Food Standards Agency's website.

We have been advised by the FSA that their officials are planning a series of bilateral meetings to discuss the setting of maximum levels for vitamins and minerals in food supplements in the near future.

No meetings have been held between the FSA's chief executive and officials of the European Commission's directorate-general for health and consumer protection specifically to discuss setting maximum levels for vitamins and minerals in food supplements.

In 2008, Health Ministers have received 24 written representations on setting maximum levels for vitamins and minerals in food supplements from right hon. and hon. Members and peers and five from others.

Drugs: Misuse

Mr. Jenkins: To ask the Secretary of State for Health what research he has *(a)* commissioned and *(b)* evaluated on the relationship between ecstasy use and psychosis. [215764]

Dawn Primarolo: The Department keeps the evidence on the relationship between ecstasy use and psychosis under review and it has commissioned the National Addiction Centre to review the evidence of harms for the Department's publication, 'Dangerousness of Drugs (2001)', copies of which have already been placed in the Library. The Department has identified funding for the review to be updated later this year.

Additionally, the Government's advisory committee on drugs, the Advisory Council on the Misuse of Drugs (ACMD), has undertaken to provide advice on the harm and prevention of harms caused by ecstasy (MDMA) in the form of a published review.

The ACMD review will draw from a recent Health Technology Assessment review of ecstasy and is expected to be available to Ministers in the later part of 2008.

Mr. Jenkins: To ask the Secretary of State for Health what research he has *(a)* commissioned and *(b)* evaluated on the relationship between crystal methamphetamine use and psychosis. [215765]

Dawn Primarolo: Although the Department has not commissioned any specific research into the relationship between crystal methamphetamine use and psychosis, it does keep the evidence base under review and has commissioned the National Addiction Centre to review the evidence of harms for the Department's publication, 'Dangerousness of Drugs (2001)', copies of this publication have already been placed in the Library. The Department has identified funding for the review to be updated later this year.

In addition, the Government's advisory committee on drugs, the Advisory Council on the Misuse of Drugs (ACMD) carried out a substantial review entitled 'Methamphetamine Review' of the harms of methylamphetamine, including the risks of psychosis in 2005 prior to its reclassification as a Class A drug. This review is available on the Home Office's website at:

http://drugs.homeoffice.gov.uk/drugs-laws/acmd/reports-research/

Methylamphetamine is also a standing item on the ACMD's Technical Committee agenda.

Food: Genetically Modified Organisms

Mr. Peter Ainsworth: To ask the Secretary of State for Health what steps the Food Standards Agency is taking to ensure that food containing genetically modified organisms which is sold in restaurants and public houses is identified as such to customers; and if he will make a statement. [217152]

Dawn Primarolo *[holding answer 8 July 2008]:* The labelling requirements for genetically modified (GM) food are set out in the directly applicable Regulations (EC) Nos. 1829/2003 (GM Food and Feed) and 1830/2003 (Traceability and Labelling of GM Organisms). GM food may only be marketed in the European Union (EU) if it has been authorised following a process which involves a rigorous safety assessment. GM organisms which have not been authorised for use in the EU are prohibited.

Regulation 1829/2003 states that its labelling requirements apply to foods which are to be delivered as such to the final consumer or mass caterers in the Community.

Local authorities are responsible for enforcement of the legislation in catering establishments and checks for the presence of GM material in foods on the basis of sampling and analysis as part of their enforcement activities.

General Practitioners

Mrs. Gillan: To ask the Secretary of State for Health how many people were registered with general practitioners in England in each of the last five years, broken down by local authority area. [218644]

Mr. Bradshaw: The number of patients registered with general practitioners in England, by primary care trust (PCT) is shown in the following table.

Data at this level has been published online by the Information Centre for health and social care (IC) since 2006 and are available on the IC's website at:

2006

www.ic.nhs.uk/webfiles/publications/nhsstaff2006/gp/Primary%20Care%20Trusts.xls

2007

www.ic.nhs.uk/webfiles/publications/nhsstaff2007/gp/PCT%20Level.xls

Registered patients by PCT in England, as at 30 September

The Information Centre for health and social care General and Personal Medical Services Statistics.

General Practitioners: Gloucestershire

Mr. Drew: To ask the Secretary of State for Health what general practitioner practices within Gloucestershire Primary Care Trust *(a)* have agreed extended opening hours and *(b)* declined to extend opening hours. [218356]

Mr. Bradshaw: Information is not collected in the requested format. Information is only available for the number of general practitioner (GP) practices offering extended opening. According to the latest data collected in June 2008, there are no GP practices within Gloucestershire Primary Care Trust currently offering extended opening.

In order to extend GP opening hours £158 million has been provided nationally. The development and location of services are a matter for the national health service locally, based on need and working in conjunction with clinicians, patients and other stakeholders. The hon. Member may therefore wish to raise this matter locally.

General Practitioners: Pharmacy

Mr. Drew: To ask the Secretary of State for Health what assessment he has made of the effects on dispensing GPs of implementing the proposals set out in the Pharmacy White Paper; what discussions he has had with dispensing GPs on the matter; and what recent representations he has received on the proposals. [217952]

Mr. Bradshaw: The White Paper "Pharmacy in England: Building on Strengths—Delivering the Future" looks at aligning the future provision of pharmaceutical services and sets out proposals to look at the market entry criteria for doctors and community pharmacists, (copies of this are available in the Library). No final decision has been taken over any criteria to be used in considering future arrangements for patients to receive pharmaceutical services from their general practitioner (GP).

A consultation paper will be launched later this summer following the recent publication of the primary and community care strategy—"NHS Next Stage Review" (copies of this publication have already been deposited in the Library). This will put forward possible options to address these issues and will contain an initial assessment of the impact of any proposals on patients, the national health service and contractors.

The Department has carried out a number of listening events around the country in the past two months on the Pharmacy White Paper. As part of this, over 120 dispensing GPs and practice managers attended these events. In addition, The Department's officials have met with representatives of GPs and pharmacists to discuss these matters and a large amount of correspondence has been received on the proposals contained in the White Paper.

Health Centres

Mr. Lansley: To ask the Secretary of State for Health pursuant to the Answer of 19 May 2008, *Official Report*, column 119W, on health centres, on what dates regional workshops have been held; and if he will place

in the Library copies of the *(a)* agenda, *(b)* minutes and *(c)* other papers for each of these workshops. [209191]

Mr. Bradshaw: The following table shows dates of regional workshops held to date.

Agendas and generic presentations for Workshop 1, Workshop 2, Evaluation workshops and Finance workshops are available on the Department's website at:

www.dh.gov.uk/en/Procurementandproposals/Procurement/ProcurementatPCTs/DH_081031#_20

Papers for all future workshops will also be available on the Department's website.

Workshops held to date are detailed in the following table:

	Workshop	*Aim/topics/content*	*Invitees*
Programme launch			
13 December 2007	National Programme Launch Conference on Local Procurements—Equitable Access to Primary Medical Care (EAPMC)	Provide an understanding of: Policy around Access to Primary Medical Care. Primary care trust (PCT) Procurement Framework and the website. What a Procurement Framework is. Level of support provided by the Department.	All PCTs and strategic health authorities (SHAs)
Workshop 1—Procurement Planning to Advert Stage			
17 January 2008	Yorks and Humber Strategic Health Authority (SHA) Workshop 1	Provide an understanding of: Procurement processes and initiation of procurement. Covered PCT project specification to advert stage.[1]	Regional SHAs and respective PCTs[2]
23 January 2008	East of England SHA Workshop 1	[1]—	[2]—
24 January 2008	North East SHA Workshop 1	[1]—	[2]—

14 February 2008	South East Coast SHA Workshop 1	[1]—	[2]—
Knowledge Share Workshops—Developing Commercial and Legal Understanding			
19 February 2008	Legal Workshop	Introduction to Equitable Access in primary medical care. Legal and Contract aspects.	Selected PCTs and SHAs.
26 February 2008	Commercial Workshop	Introduction to Proper Balance between: Quality, Value and Safety.	Selected PCTs and SHAs.
Procurement Hub Workshop			
4 March 2008	—	Provide an understanding of: Procurement/ Commercial Strategy. Bidder Management.	Collaborative Procurement Hubs
Workshop 2—ITT Stage			
15 April 2008	South West SHA Workshop 2	Provide an understanding of: Commercial principles that inform the Invitation to Tender (ITT) for GP Practices and Health Centres. How to adapt template documents to meet PCT needs. Building Clinical Quality Requirements into the Contract.[3]	Regional SHAs and respective PCTs[4]
16 April 2008	South East SHA Workshop 2	[3]—	[4]—
22 April 2008	South Central Workshop 2	[3]—	[4]—
23 April 2008	Yorkshire and Humber SHA Workshop 2	[3]—	[4]—
29 April 2008	West Midlands SHA Workshop 2	[3]—	[4]—
30 April 2008	North West SHA Workshop 2	[3]—	[4]—
1 May 2008	East of England SHA Workshop 2	[3]—	[4]—
7 May 2008	North East SHA Workshop 2	[3]—	[4]—
Finance Workshops—Affordability Review and Financial Model Template			
21 April 2008	South West SHA Affordability Model and Financial Model Template (FMT)	Understanding the FMT and Affordability Models and how to adapt the FMT to meet PCT needs[5]	Regional SHAs and respective PCTs[6]
13 May 2008	Yorkshire and Humber SHA Affordability Model and FMT	[5]—	[6]—
21 May 2008	East Midlands SHA Affordability Model and FMT	[5]—	[6]—
3 June 2008	West Midlands SHA Affordability Model and FMT	[5]—	[6]—
5 June 2008	South Central SHA Affordability Model and FMT	[5]—	[6]—

	Workshop	Aim/topics/content	Invitees
6 June 2008	North West SHA Affordability Model and FMT	[5]	[6]
10 June 2008	East of England Affordability Model and FMT	[5]	[6]
12 June 2008	North East Affordability Model and FMT	[5]	[6]
Evaluation Workshops			
21 May 2008	North West SHA Evaluation Workshop	Provide an enhanced understanding of: Bidder selection process. Key elements of the ITT evaluation. ITT Requirements and Weightings. Consolidation Results.[7]	Regional SHAs and respective PCTs[8]
17 June 2008	South West	[7]	[8]
19 June 2008	East of England	[7]	[8]
25 June 2008	South East Coast	[7]	[8]
3 July 2008	North East	[7]	[8]
9 July 2008	Yorkshire and Humber	[7]	[8]

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 19 May 2008, *Official Report*, column 119W, on health centres, on what dates future regional workshops have been planned; and what the planned content is of each. [209192]

Mr. Bradshaw: Workshops planned for the future are regional (strategic health authority (SHA) Level) evaluation process workshops and a London region programme overview workshop for London primary care trusts (PCTs). These will be held during the month of July 2008.

The planned content is as follows:

Evaluation Workshop:

overview of the evaluation/bidder selection process;

pre-qualification questionnaire process overview and questions;

key elements of the invitation to tender evaluation;

invitation to tender requirements and weightings; and

consolidating results evaluation results.

London Workshop 1:

overview of the equitable access to primary medical care programme;

commercial and market management strategy overview;

an understanding of the early steps of a procurement process (service design, affordability assessment, stakeholder engagement and procurement planning and publishing advertisements); and

set out next steps and timeline for delivery for London PCTs.

All London PCTs have been invited to attend by London SHA.

Health Services: Overseas Aid

Mr. Moore: To ask the Secretary of State for Health what contribution his Department has made to the Global Health Workforce Alliance's Health Worker Policy Initiative working group; and if he will make a statement. [213269]

Dawn Primarolo: The Department for International Development (DFID) takes the lead in the United Kingdom's support to the Global Health Workforce Alliance (GHWA). DFID has provided £1 million to support GHWA from 2007-09, plus technical assistance in the early stages.

The Department of Health participated in the First Global Forum on Human Resources for Health convened by GHWA in Kampala in March 2008. The emerging UK Government's strategy, Health is Global, highlights the importance of GHWA.

Mr. Moore: To ask the Secretary of State for Health what steps his Department is considering for implementing the March 2008 Global Health Workforce Alliance Kampala Declaration and Agenda for Global Action; and if he will make a statement. [213270]

Dawn Primarolo: Health is Global: a United Kingdom Government-wide strategy will be published in the autumn. In it, we highlight the work of the Global Health Workforce Alliance and the Kampala Declaration.

Across Government, we will work with the Global Health Workforce Alliance and other partners for a comprehensive and coherent approach to tackling the global human resources for health crisis. The Government provides effective development assistance, is ensuring the national health service is increasingly self-sufficiency, and promulgates fair polices and codes of conducts for health worker migration in the UK and the rest of the world.

The Department has a responsibility in all three areas, all of which are key components of the Kampala declaration. First, we have worked with the NHS and others to make sure that the NHS is now much more self sufficient than previously. Second, the Government's response to Lord Crisp's report highlights how the Department will work with the NHS and others to support effective development assistance. Finally we have a code of conduct in the UK that ensures the NHS does not recruit from countries where we provide development assistance (unless there are specific agreements in place between the two governments). We are working with the Global Health Workforce Alliance on the development of a global code of conduct.

Health Services: Private Sector

Mike Penning: To ask the Secretary of State for Health what account his Department took of the Better Regulation Executive's code of practice for consultation in the preparation of its consultation paper on amendments to regulations governing private and voluntary healthcare. [217537]

Mr. Bradshaw: The Department took full account of the "Code of Practice on Consultation".

Health: Equality

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of levels of health inequalities in urban communities between *(a)* white, *(b)* mixed race, *(c)* Asian and *(d)* Afro-Caribbean ethnic groups; and what steps he plans to take to reduce such inequalities. [216833]

Dawn Primarolo: Primary care trusts and local authorities assess levels of health inequalities between different ethnic groups in urban communities at local level to inform service planning. Nationally the Department has provided tools to aid this process such as joint strategic needs assessment and the health inequalities health poverty index.

The Department has also put in place specific programmes of work to tackle health inequalities between ethnic groups including race for health and delivering race equality in mental healthcare. Action to address ethnic health inequalities is an integral and vital part of our national drive to increase health overall and to reduce inequalities. In a fair society, everyone should have equal opportunity to have a healthy life and the Department is committed to facilitating equitable outcomes in the interest of all sections of the population.

Hemel Hempstead Hospital: Hospital Beds

Mike Penning: To ask the Secretary of State for Health what representations his Department has received on the number of beds in maternity facilities at Hemel Hempstead hospital since June 2005; and if he will make a statement. [217318]

Ann Keen: The Department's records show that we have received only one representation specifically on the number of beds in maternity facilities at Hemel Hempstead hospital, which was a parliamentary question from the hon. Member for Hemel Hempstead in June 2008. However, from June 2005 to June 2008, we have received the following representations on the future of services at West Hertfordshire Hospitals NHS Trust, including maternity services:

three parliamentary questions;

one business question;

two ministerial meetings with hon. Members; and

one debate.

The Department has also received around 1,900 items of correspondence on the future of services at Hemel Hempstead hospital since June 2005. However, due to the way in which correspondence is logged, items concerned specifically with the number of beds in maternity facilities at the hospital could be identified only at disproportionate cost.

Hospitals: Infectious Diseases

Mr. Hancock: To ask the Secretary of State for Health (1) how many NHS in-patients contracted *(a)* MRSA, *(b)* clostridium difficile, *(c)* norovirus and *(d)* other healthcare-associated infections in each year since 2005; [216136]

(2) how many in-patients were treated by NHS hospitals for *(a)* MRSA, *(b)* clostridium difficile and *(c)* norovirus in each year since 2005. [216137]

Ann Keen: The information requested is not collected centrally and the best available data are from the mandatory surveillance system operated for the Department by the Health Protection Agency (HPA). These and additional information on norovirus are given as follows.

All acute national health service trusts in England are obliged to report all cases of bloodstream infections caused by meticillin-resistant *Staphylococcus aureus* (MRSA).

These data comprise all specimens processed by NHS acute trust laboratories, not just those from in-patients and include infections acquired in hospital and elsewhere.

These data are only available by financial year.

April to March each year	*Number of cases of bloodstream infections caused by MRSA*
2004-05	7,233
2005-06	7,096
2006-07	6,383

All acute NHS trusts in England are obliged to report all cases of *Clostridium difficile* (*C. difficile*) infection in people aged 65 years and over.

These data comprise all specimens processed by NHS acute trust laboratories, not just those from in-patients and include infections acquired in hospital and elsewhere.

	Number of cases of C. difficile infection in people aged 65 years and over
2005	51,829
2006	55,636

In April 2007, mandatory surveillance was extended to include all patients aged two years and over. Annual data for patients aged less than 65 years are not yet available.

The HPA Centre for Infections (CfI) has a voluntary reporting system, General Surveillance of Outbreaks (GSURV) that collects data on outbreaks of gastrointestinal illness.

The following table gives the number of outbreaks that were reported to be due to norovirus and occurring in hospitals in England and the number of people affected (patients and staff). The reporter has recorded the pathogen as norovirus from positive laboratory specimens.

	Number of outbreaks	*Number of people affected*
2005	58	1,377
2006	50	719
2007	36	499

Note:
Many outbreaks that are suspected to be due to viral origin may not have laboratory diagnoses. The number of reported norovirus outbreaks and the number of people affected recorded will, therefore, be considerable underestimates.
Source:
HPA CfI GSURV

All acute NHS trusts in England are obliged to report all cases of blood stream infections caused by glycopeptides-resistant enterococci.

These data comprise all specimens processed by NHS acute trust laboratories, not just those from in-patients and include infections acquired in hospital and elsewhere.

These data are available from October to September; they are not available by calendar year.

October to September each year	*Number of cases of blood stream infections caused by glycopeptides-resistant enterococci*
2004-05	758
2005-06	903

The following data are collected from the mandatory surveillance of surgical site infections (SSIs) in orthopaedic categories in English NHS hospitals. Hospitals carrying out orthopaedic surgery have to participate in the surveillance of at least one category for at least one quarter of the year. All of the SSIs reported are identified during the in-patient period.

	2004-05		*2005-06*		*2006-07*	
Surgical category	*Number of operations*	*Number of SSIs*	*Number of operations*	*Number of SSIs*	*Number of operations*	*Number of SSIs*
Hip prosthesis	16,765	211	21,046	190	25,397	181
Knee prosthesis	15,848	103	22,843	128	25,167	96
Open reduction of long bone fracture	3,277	66	2,774	44	3,678	69
Hip hemiarthroplasty	5,396	219	6,328	230	6,709	211

Human Papilloma Virus

Mike Penning: To ask the Secretary of State for Health what factors underlay the decisions *(a)* to offer Cervarix and *(b)* not to offer Gardasil as part of the national immunisation programme against the human papilloma virus. [217533]

Dawn Primarolo: I refer the hon. Member to the answer I gave on 2 July 2008, *Official Report*, columns 943-44W, to the hon. Member for Boston and Skegness (Mark Simmonds) and for Norwich, North (Dr. Gibson).

Incontinence: Medical Equipment

Mr. Drew: To ask the Secretary of State for Health with reference to his Department's June 2008 consultation on the proposed new arrangements for the provision of stoma and urology services and related services in primary care, what is meant by the statement that a supplier of continence care products derives particular advantages from ownership of a dispensing appliance contractor; and if he will make a statement. [218493]

Dawn Primarolo: Dispensing appliance contractors, who dispense items that they manufacture, stand to benefit from the fact that in most cases a wholesaler will not be part of their supply chain. Hence, they are able to retain a greater proportion of the reimbursement they receive for items dispensed.

Mr. Drew: To ask the Secretary of State for Health with reference to his Department's June 2008 consultation on the proposed new arrangements for the provision of stoma and urology services and related services in primary care, for what reason the expensive prescription fee is not proposed to be extended to dispensing appliance contractors; and if he will make a statement. [218494]

Dawn Primarolo: The 'expensive prescription' fee is to reflect where pharmacies have had to purchase an expensive item to dispense yet they are not reimbursed the final total amount until more than two months after dispensing. Dispensing appliance contractors are reimbursed one month earlier than pharmacists. However, proposals relating to service and service payment regarding products in part IX of the Drug Tariff dispensed by pharmacies and appliance contractors, are subject to a consultation.

Mr. Drew: To ask the Secretary of State for Health with respect to his Department's June 2008 consultation on the proposed new arrangements for the provision of stoma and urology services and related services in primary care, what estimate his Department has made of the remuneration that will be provided in respect of *(a)* stoma items and services and *(b)* urology items and services; and if he will make a statement. [218496]

Dawn Primarolo: Subject to the outcome of the consultation, it is estimated that the total reimbursement for stoma and urology appliances and remuneration for related services would be as follows. These figures are based on the number of items dispensed in 2007:

	£ million
Stoma appliances and related services	184.9
Urology appliances and related services	111.7

Maternity Services

Sandra Gidley: To ask the Secretary of State for Health how many maternity units were closed in NHS hospitals in each *(a)* strategic health authority and *(b)* primary care trust area in each of the last five years. [216835]

Ann Keen: That information is not collected centrally.

Medical Records: Lost Property

Keith Vaz: To ask the Secretary of State for Health (1) what procedures are followed to retrieve NHS patient information which is *(a)* lost and *(b)* stolen; [218136]

(2) what safeguards are in place to prevent NHS patients' information being *(a)* lost and *(b)* stolen. [218205]

Mr. Bradshaw: The security of patient records is a local responsibility and each national health service body is legally responsible for holding information securely. However, the Department provides comprehensive policy, guidance and supporting tools for security compliance to NHS bodies and has also made encryption software available to all NHS trusts through a central procurement. The 10 strategic health authorities hold local organisations to account for their performance.

The Department is also providing, through the National Programme for IT, electronic patient record systems that are protected by the highest levels of access controls and other security measures, a secure NHS network for exchanging information that is centrally monitored and strongly protected, and secure NHS e-mail facilities that encrypt all data in transit within the system.

Action taken to retrieve lost or stolen patient information is locally determined and will depend on the circumstances of each particular event, but will typically include involvement of the police where theft has occurred or is suspected, and an internal investigation into the circumstances, with disciplinary procedures invoked where necessary and appropriate.

Keith Vaz: To ask the Secretary of State for Health how many NHS patients' records were *(a)* lost and *(b)* stolen in (i) Leicester and (ii) England in the last 12 months. [218137]

Mr. Bradshaw: I refer my hon. Friend to the answer I gave to the hon. Member for North Norfolk (Norman Lamb) on 25 June 2008, *Official Report*, column 363W.

Medical Treatments Abroad

Sandra Gidley: To ask the Secretary of State for Health how many NHS patients have been sent abroad for operations in the last three months; in which countries they have been treated; what the net effect on costs to the NHS was; and if he will make a statement. [216544]

Dawn Primarolo: There are currently two routes that cover patients who choose to go to another European Economic Area (EEA) country for treatment: the E112 form and the Article 49 route. Information is held centrally on the former but not on the latter as the decision about reimbursement is the responsibility of the local commissioner. The Department also does not hold centrally information about patients referred to countries outside of the EEA.

Departmental data show that 275 E112 forms (used to refer national health service patients to other EEA countries) were issued between April and June 2008. The countries of treatment can be found in the following table. The Department is not able to tell what the cost saving (if any) will be for the NHS as, due to the nature of the claims process between member states, the United Kingdom may not receive the bill for the cost of this treatment for 18 months or more.

The Department recognises that in accordance with EC Regulation 1408/71 and Article 49, British citizens are entitled to go to another country for healthcare, subject to certain conditions.

Countries of treatment

	Number
Belgium	6
France	65
Greece	3
Italy	6
Poland	132
Sweden	7
Switzerland	3
Austria	6
Czech Republic	7
Finland	5
Germany	16
Hungary	3
Slovakia	8
Spain	6
Netherlands	2
Total	275

Medical Treatments: Finance

John Battle: To ask the Secretary of State for Health how many exceptional funding requests for treatment were *(a)* approved and *(b)* declined by primary care trusts in (i) Leeds West constituency, (ii) Leeds Metropolitan District and (iii) England in each year since 2000. [218024]

Mr. Bradshaw: The information requested is not held centrally.

It is for primary care trusts (PCTs) to commission services on behalf of their populations and to make decisions locally on which treatments to fund, taking into account all relevant circumstances and their statutory responsibilities and the principles of administrative law set out by the courts, particularly in relation to funding policies and whether to fund treatment in exceptional circumstances.

The draft "National Health Service Constitution" (copies of which have already been placed in the Library) makes clear the patient's right to expect local decisions on funding for drugs, for which National Institute for Health and Clinical Excellence guidance is not available, to be made rationally following proper consideration of the evidence. To underpin this, the Government will require PCTs to put in place clear and transparent arrangements both for local decision-making on funding of new drugs and for considering exceptional funding requests, and to publish information on those arrangements. Where the local NHS decides not to fund a treatment, the patient and clinician can expect an explanation.

National Institute for Health and Clinical Excellence

Mr. Hancock: To ask the Secretary of State for Health if he will review the resources available to the National Institute for Health and Clinical Excellence to produce commissioning guides. [218650]

Dawn Primarolo: No separate review is required. There will be significant new investment in the National Institute for Health and Clinical Excellence to enable it to take on the additional roles proposed in Lord Darzi's 'High Quality Care for All: NHS Next Stage Review Final Report' (CM 7432), published last month, copies of which are available in the Library.

NHS: Standards

Mr. Hancock: To ask the Secretary of State for Health if he will consider making compliance with clinical guidelines produced by the National Institute for Health and Clinical Excellence mandatory upon all NHS healthcare trusts. [218649]

Dawn Primarolo: Clinical guidelines relate to a whole pathway of care and can make a large number of recommendations spanning all stages of care from the diagnosis to treatment of a condition. They are not mandatory or subject to the same performance management assessment as the National Institute for Health and Clinical Excellence (NICE'S) technology appraisals in recognition of their complexity. Clinical guidelines published by NICE are developmental standards for the national health service and the Government expect them to be fully implemented over time.

NHS: Training

Mr. Denis Murphy: To ask the Secretary of State for Health how many applications for NHS bursaries were received from *(a)* medical and *(b)* dental students in each of the last five years; how many applicants were successful in each year; and how much was paid. [217106]

Ann Keen: Information on the number of NHS bursary awards assessed and the amounts paid for medical and dental students in each of the last five years is shown in the following table.

Number of NHS bursary awards assessed and amounts paid for medical and dental students by academic year

	Number of bursary holders			*Amount paid (£)*		
Academic year	*Medical*	*Dental*	*Total*	*Medical*	*Dental*	*Total*
2002-03	4,452	675	5,127	5,993,111	775,492	6,768,603
2003-04	6,447	535	6,982	9,939,850	900,697	10,840,547
2004-05	7,068	572	7,640	12,269,626	886,568	13,156,194
2005-06	8,385	528	8,913	14,787,446	843,334	15,630,780
2006-07	9,159	589	9,748	17,229,398	1,053,332	18,282,729

Note:
Number of Students for whom a NHS bursary award assessed is shown rather than number of applications because:
if an application is received and returned for more information / students signature etc. NHS Student Bursaries Unit do not hold the data on the number received and returned, which are then never returned with the additional information (due to the fact they decide in the interim period not to apply for NHS Bursary funding);
if an application is received, and rejected on residency eligibility grounds, NHS Student Bursaries receive that application, but do not assess their entitlement as they are rejected before that assessment is made;
if an application is received, but NHS Student Bursaries need more information to determine if they are eligible on residency grounds, they have received that application, but do not assess their entitlement until they provide the additional information;
NHS Student Bursaries have only been collating data about 'applications received' for internal service level agreement monitoring purposes since 2005-06 and therefore they do not have five years worth of data about 'applications received' and can not provide valid year on year comparative figures;
NHS Student Bursaries' database only holds details of the course that the student was actually funded for in that academic year, accordingly all medical and dental students who intercalated (undertook a one year BSc course part way through their medical/dental course) in any academic year have to be included with the figures for the medical students (because the vast majority of intercalating students are medical students) as they can not interrogate the data to clarify whether an intercalated student was a medical or dental student in previous or future academic years; and
Due to the way tuition fee payments were paid prior to 2005-06, NHS Student Bursaries only hold data in relation to tuition fee payments for the academic years 2005-06 and 2006-07, therefore to ensure that the figures for the last five years compare 'like with like' details for 'amounts paid' they do not include any amounts paid for tuition fees in any academic year.
Source:
NHS Business Services Authority Student Bursaries Unit

Obesity: Children

Ms Buck: To ask the Secretary of State for Health what proportion of children in *(a)* each London borough and *(b)* English region were obese in the most recent year for which figures are available. [216541]

Dawn Primarolo: The information requested is not available in the exact format requested.

The national child measurement programme provides the most comprehensive data on obesity among children aged 4-5 and 10-11 years; now in its third year, it has produced one of the largest collections of data on children's height and weight in the world. The most recent available data, broken down by London local authority and strategic health authority (SHA) in England, can be found, respectively, in table C on pages 39 to 40 and table B on page 38, National Child Measurement Programme: 2006-07 school year, headline results, which was published on 21 February 21 2008. Copies of this publication have already been placed in the Library.

Further information on the percentage of children in England who are obese, for ages two to 15 years, broken down by Government Office Region and SHA in England, is collected in the Health Survey for England. The most recent available data for children can be found in Tables 2.3 and 2.11, pages 36 and 43, Health Survey for England 2006: Volume 2 Obesity and other risk factors in children, which was published on 31 January 2008. Copies of this publication have already been placed in the Library.

Organs: Donors

Mr. MacDougall: To ask the Secretary of State for Health what steps his Department is taking to ensure that the black market in human organs is stopped; and if he will make a statement. [219129]

Ann Keen: In the United Kingdom, it is unlawful under the Human Tissue Act 2004 and the Human Tissue (Scotland) Act 2006 to buy and sell organs for transplantation, or to attempt to buy and sell organs for transplantation.

The Human Tissue Authority also administers the approval system for all live organ donations across the UK, and includes a number of safeguards in their approval system to ensure that individuals are not being coerced, or receiving commercial gain.

Out-Patients: Bedfordshire

Margaret Moran: To ask the Secretary of State for Health how many missed appointments there have been *(a)* at Luton and Dunstable Hospital, *(b)* in Luton Primary Care Trust and *(c)* in Luton Mental Health Trust in the last 12 months; and what the cost of missed appointments in each category was over that period. [217435]

Mr. Bradshaw: The following table contains information about missed appointments ('did not attends' = DNAs) at Luton and Dunstable Hospital NHS Foundation Trust and Luton Primary Care Trust (PCT) in 2007-08. Information is not collected centrally about DNAs for community-based services, and therefore information is not available for Bedfordshire and Luton Mental Health and Social Care Partnership NHS Trust.

Information about the cost of missed appointments is not collected centrally.

DNAs at Luton and Dunstable Hospital NHS Foundation Trust and Luton PCT in 2007-08

Organisation name	*First out-patient attendance DNAs*	*Subsequent out-patient attendances DNAs*	*In-patient DNAs*	*Total DNAs*
Luton and Dunstable Hospital NHS Foundation Trust	8,814	17,598	616	27,028
Luton PCT	61	227	0	288

Source:
Department of Health form Quarterly activity return provider-based.

Overseas Visitors

John Battle: To ask the Secretary of State for Health whether his Department employs any overseas visitors' officers; and what their responsibilities are. [218058]

Mr. Bradshaw: The Department employs two overseas visitors' officers. Their responsibilities involve the administration and management of visits from overseas to the Department, national health service and related bodies. They also develop links and partnerships with overseas ministries, foreign health industry and trade bodies along with United Kingdom organisations with international health interests. They are supervised by a third officer with a wider remit.

Pain: Health Services

Patrick Hall: To ask the Secretary of State for Health what plans he has to introduce a national framework for the management of chronic pain in England. [217061]

Ann Keen: The Department has no plans to introduce a national framework for the management of chronic pain in England.

It is the responsibility of primary care trusts (PCTs) to commission services for people with pain, taking into account resources they have available, the needs of their wider population and available guidance on best practice. The quality of services should be monitored locally to ensure it is provided to meet the needs of the local population. The Department is supporting commissioning through the recent publication of an 18-week pathway for the management and treatment of chronic pain. NHS Choices has also provided information that will raise the awareness of chronic pain and treatments.

As part of the NHS Next Stage review lead by Lord Darzi, working groups of local clinicians in each strategic health authority have carried out a detailed review of clinical pathways across all areas of health care, and have identified what they believe to be the best models of care for local patients. The results have now been published and PCTs will now be responsible for working out in discussion with local partners, patients and the general public how best to commission the proposed improvements.

Prescription Drugs

Anne Milton: To ask the Secretary of State for Health what plans he has to alter the best practice guidance to primary care trusts on the funding of drug treatments in the absence of guidance from the National Institute for Health and Clinical Excellence. [218503]

Dawn Primarolo: In 'Good Practice Guidance on Managing the Introduction of New Healthcare Interventions and Links to National Institute for Health and Clinical Excellence (NICE) Technology Appraisal Guidance', published in December 2006 (copies of which have been placed in the Library), on medicines where no NICE guidance exists, the Department gave a commitment to undertake a review. We are planning to review and extend this guidance in 2009 and we will consult on draft guidance as part of this process.

Sex: Health Education

Mark Pritchard: To ask the Secretary of State for Health if he will include within the review of his Department's sexual health and HIV strategy consideration of the findings of the study commissioned by his Department on the economics of family planning and underage conceptions by Professor David Patton. [217724]

Dawn Primarolo: The review of the 2001 National Strategy for Sexual Health and HIV is being undertaken by the Sexual Health Independent Advisory Group (SHIAG). This is an independent review and it is for SHIAG to consider what evidence and studies they include in the Review.

Smoking

Mr. Crausby: To ask the Secretary of State for Health what plans he has to help smokers stop smoking in *(a)* the North West and *(b)* England. [215395]

Dawn Primarolo: Although smoking prevalence has declined in the North West over the past decade, it is still above the all-England average. The number of deaths from smoking among people aged 35 and over is also higher in the North West than the all-England average.

A £1.8 million programme to reduce smoking rates in the North West is now being implemented. Current activity includes supporting national smoke free campaigns,

making NHS Stop Smoking Services widely available, and partnership action to reducing the appeal and availability of illicit tobacco.

National action on reducing smoking prevalence over the past decade is set out in the "Consultation on the future of tobacco control", published in May 2008. Copies of the Consultation have already been placed in the Library.

The Government have undertaken to develop a new National Tobacco Control Strategy to further reduce smoking rates in the future. The current consultation will inform the development of the strategy, and includes questions on protecting children and young people from smoking, and on helping smokers to quit.

Sir Peter Soulsby: To ask the Secretary of State for Health what steps he has taken to reduce smoking rates in the *(a)* adult and *(b)* child population in each of the last five years, broken down by (i) socio-economic and (ii) ethnic group; what steps he plans to take further to reduce smoking rates; what funding his Department has allocated to the reduction of smoking rates in each of the last five years; what funding he intends to allocate over the current comprehensive spending review period; and if he will make a statement. [216406]

Dawn Primarolo: In England, tobacco control activity has been guided by the Department's six-strand strategy, based on international evidence that a co-ordinated and multi-faceted response is required to effectively tackle tobacco use.

National action on reducing smoking prevalence over the past decade is set out in the "Consultation on the future of tobacco control", published in May 2008 (copies of which have already been placed in the Library), and in the Department's annual reports over the period.

The Government have undertaken to develop a new national tobacco control strategy to further reduce smoking rates in the future. The current consultation will inform the development of the strategy, and includes questions on protecting children and young people from smoking, and on helping smokers to quit.

NHS Stop Smoking Services continue to provide vital support to smokers to quit. Local national health service bodies provide quit support that is tailored to the needs of local communities. A range of guidance has been published on the provision of smoking cessation services by the Department and the National Institute for Health and Clinical Excellence (NICE). In May, Communities and Local Government published "Working with Black and Minority Ethnic Communities: A guide for Stop Smoking Service managers".

Smokers can also quit with free support from the NHS Smoking Helpline and 'Together' programme which provide information, advice and motivation by telephone, e-mail, post or by text message at key moments during the smoker's quitting process. The NHS Pregnancy Smoking Helpline and the Asian Tobacco Helpline are also in operation.

The Department has provided the following funding to support the Government's national tobacco strategies set out as follows:

The following table shows advertising expenditure on the dangers of smoking from 2003-04 to2007-08.

Expenditure on education campaigns financial year	*Tobacco control (£ million)*
2003-04	17.76
2004-05	25.00
2005-06	23.00
2006-07	13.50
2007-08	11.39

The Department awarded a grant of £2.67 million to Cancer Research UK (CRUK) under section 64 of the Health Services and Public Health Act 1968 to fund the charity's Light and Mild campaign in 2003-04. A further grant of £3 million grant was made in 2006-07 for CRUK's media campaign on the harmful constituents of second-hand smoke.

The Department awarded a grant of £5 million to British Heart Foundation (BHF) under section 64 of the Health Services and Public Health Act 1968 to fund the charity's media campaign in 2004-05 on heart disease caused by smoking. A further grant of £4 million was made in 2005-06 to BHF for a media campaign highlighting the dangers of smoking and heart disease.

In each year since 2003, £2 million has been funding allocated to the nationwide system of local tobacco alliances and the regional tobacco policy managers.

Financial year	*Financial allocations to the national health service for stop smoking services (£ million)*
2003-04	41
2004-05	46
2005-06	51
2006-07	56
2007-08	56

The Department's grants to Action on Smoking Health under section 64 of the Health Services and Public Health Act 1968 are set out in the following table.

Financial year	*Grants (£)*
2003-04	164,000
2004-05	168,000
2005-06	180,000
2006-07	185,400
2007-08	191,000

The Department's grants to the No Smoking Day organisation are set out in the following table.

Financial year	*Grants (£)*
2003-04	250,000
2004-05	250,000
2005-06	250,000
2006-07	250,000
2007-08	250,000

The Department's grants to QUIT (an organisation that provides support to smokers who want to quit smoking) under section 64 of the Health Services and Public Health Act 1968 are set out in the following table.

Financial year	*Grants (£)*
2003-04	20,000
2004-05	25,000

Future funding for national tobacco control will be subject to the outcomes of the new national tobacco control strategy.

Smoking: Bexley

Mr. Evennett: To ask the Secretary of State for Health what estimate he has made of the number of people who have ceased smoking in the London Borough of Bexley since the introduction of the smoking ban. [218221]

Dawn Primarolo: Information is collected quarterly at primary care trust level on people accessing the NHS Stop Smoking Services who set a quit date and those who successfully quit smoking at the four-week follow up. However, information is not available about people who have ceased smoking independently.

The smoke-free law was introduced in England on 1 July 2007, and the latest data available are for quarter three of 2007-08. The following table shows the number of people in Bexley care trust area accessing the NHS Stop Smoking Services who set a quit date and those who successfully quit smoking at the four-week follow up, for quarter two and quarter three of 2007-08 and the total for July 2007 to December 2007.

Number of people setting a quit date and number of successful quitters in Bexley care trust in 2007-08

Period	Number setting a quit date	Number of successful quitters
Quarter two (July to September 2007)	483	328
Quarter three (October to December 2007)	446	238
Total for July to December 2007	929	566

Notes:
1. A client is counted as having successfully quit smoking if he/she has not smoked at all since two weeks after the quit date. The four-week follow-up (based on self report) must be completed within six weeks of the quit date. Persons not contacted within this time are treated as lost to follow-up for evaluation purposes.
2. Figures published in Statistics on NHS Stop Smoking Services in England, July to December 2007 (quarter two and three bulletin) are provisional. Provisional results from the Stop Smoking Services are published on a quarterly basis. An annual bulletin will be published in August 2008 that represents finalised figures for the year April 2007 to March 2008.

The Information Centre for health and social care: Lifestyle Statistics, Statistics on NHS Stop Smoking Services in England.

Smoking: Young People

David Taylor: To ask the Secretary of State for Health what the estimated smoking prevalence rates were amongst *(a)* 11 to 15, *(b)* 16 to 19 and *(c)* 20 to 24 year-olds in each year since 1998; and if he will make a statement on the trends. [218369]

Dawn Primarolo *[holding answer 14 July 2008]:* Smoking prevalence rates among 11 to 15, 16 to 19 and 20 to 24 year-olds in each year since 1998 are set out in the following table. There has been a decrease in prevalence of cigarette smoking among all three age groups since 1998, particularly among those aged 16 or over.

Prevalence of cigarette smoking by age band, England

Percentage

	1998	2000	2001	2002	2003	2004	2005	2006
Age								
11 to 15[1]	11	10	10	10	9	9	9	9
16 to 19[2]	31	30	28	25	25	26	25	20
20 to 24[2]	40	36	37	38	36	33	32	31

[1] Smoking, drinking and drug use among young people in England 2006, Information Centre for health and social care.
[2] General Household Survey 2006, Office for National Statistics.

Note:
Data are not available for 1999.

David Taylor: To ask the Secretary of State for Health what assessment he has made of the main predictors of regular smoking among young people; and what steps he is taking to tackle them. [218402]

Dawn Primarolo: The Government remain concerned about youth uptake of smoking. Around two-thirds of smokers say they started to regularly smoke before they turned 18.

Protecting children and young people is one of the key areas within the Government's recently published 'Consultation on the Future of Tobacco Control', and includes references to the predictors of regular smoking by young people. Copies of the consultation have already been placed in the Library.

David Taylor: To ask the Secretary of State for Health what recent representations he has received on the influence of smoking imagery on young people. [218849]

Dawn Primarolo: The Department has received a report from the British Medical Association entitled 'Forever cool: the influence of smoking imagery on young people'. The report calls for a range of measures to reduce young people's exposure to positive images of smoking.

The Department has recently published 'A Consultation on the Future of tobacco control'. Copies of the consultation have already been placed in the Library. The consultation seeks views on protecting children and young people from smoking. The paper includes the evidence on the influence of tobacco promotion on young people and seeks views on banning the display of tobacco products in retail outlets.

JUSTICE

Young People: Reoffending

13. **Mr. Mahmood:** To ask the Secretary of State for Justice what recent steps his Department has taken to

prevent young people convicted of knife and gun crime from reoffending. [218571]

Mr. Straw: My right hon. Friend the Home Secretary yesterday gave further details to this House of the new national knife crime programme in the eight police areas where knife crime is most prevalent. The courts have made clear their increasingly tough approach. Sir Igor Judge, now Lord Chief Designate said in the case of Povey

> "Even if the offender does no more than carry the weapon, even when the weapon is not used to threaten or cause fear, when considering the seriousness of the offence courts should bear in mind the harm which the weapon might foreseeably have caused. So the message is stark. This is a serious offence and it should be treated with the seriousness it deserves".

Circuit Judges

14. **Mr. Llwyd:** To ask the Secretary of State for Justice what representations he has received on the provision of circuit judges for child care cases in north and mid Wales; and if he will make a statement. [218572]

Bridget Prentice: One, in a letter from the hon. Gentleman on 8 July 2008. The complement of circuit judges has been reduced by the unfortunate illness of His Honour Judge Dafydd Hughes and the delay in securing a district judge replacement at Rhyl. However, no judicial time has been lost, and replacement judges have been found to cover all existing cases listed in the North Wales courts.

Voting Rights

15. **Robert Neill:** To ask the Secretary of State for Justice what plans he has to extend voting rights to sentenced prisoners in England and Wales. [218573]

Bridget Prentice: Following the European Court of Human Rights' judgment in the case of Hirst *v.* UK requires the Government to reconsider their policy of a blanket ban on the voting rights of convicted prisoners. That requirement is a consequence of a judgment in the European Court of Human Rights and is something that would need to be implemented in the UK even if the Human Rights Act was not in place.

In response, we undertook a first stage consultation which concluded in March 2007. However, since that point the context for the debate about the rights and responsibilities of citizenship, and in particular the exercise of the franchise, in the United Kingdom has changed significantly following the launch of the Governance of Britain Green Paper and publication of the Goldsmith Review.

I can confirm that the Government remain committed to carrying out a second, more detailed public consultation on how voting rights might be granted to serving prisoners, and how far those rights should be extended. But we consider it essential that any changes to the law to extend the franchise to those held in custody are considered in the context of the wider development of policy on the franchise and the rights that attach to British citizenship.

During April 2008 we provided the Committee of Ministers with a detailed note about implementing the Hirst judgment and we have undertaken to submit further information in due course on the form and timing of a further consultation in the light of the wider debate which is now taking place. Following consideration of the outcome of consultation, legislation to implement the Government's final approach will be brought forward as soon as parliamentary time allows.

Reoffending

16. **Michael Connarty:** To ask the Secretary of State for Justice what steps his Department is taking to reduce reoffending. [218574]

Mr. Hanson: The Government are committed to reducing reoffending in England and Wales. In the last 10 years the Government have invested in a wide range of programmes to tackle the root causes of offending behaviour and punish and reform offenders. This is reflected in the Government's commitment to reduce the volume of reoffending and address the level of serious re-offences in the new 'Make Communities Safer' PSA 23. To provide strategic direction for this work and to promote an effective cross-government partnership response, I co-chair a Reducing Re-Offending Inter Ministerial Group (IMG) which includes Ministers from 14 Government Departments.

Community Sentences

17. **Charlotte Atkins:** To ask the Secretary of State for Justice what steps he has taken to tailor community sentences to women offenders. [218575]

Maria Eagle: The Government recognise that women offenders have specific needs which are being addressed in the design of community sentences in order to reducing their reoffending. The Community Order introduced in 2005 enables courts to tailor community sentences to the needs of all offenders. Both nationally and at probation area levels, we are looking to increase the provision of community-based sentences for women including the availability of women-only settings for their delivery. We are also looking to increase the skills and knowledge within the probation service to enable staff to deliver appropriate interventions that will enable more women to complete their sentence successfully.

Foreign Prisoners: Deportation

18. **Michael Fabricant:** To ask the Secretary of State for Justice what recent discussions he has had with the Home Secretary on the deportation of foreign prisoners on their release from prison. [218576]

Mr. Hanson: I regularly have meetings and discussions with Home Office Ministers on a range of issues, including the deportation of foreign national prisoners.

Restraint: Secure Accommodation

19. **Ms Keeble:** To ask the Secretary of State for Justice when he will publish the report on the use of restraint in secure accommodation facilities for young people. [218577]

Mr. Hanson: The Government are giving careful consideration to the recommendations of the chairs of the independent review of restraint in juvenile secure settings, Andrew Williamson and Peter Smallridge. We intend to publish the chairs' full report alongside our response to its recommendations by the end of October.

Offenders: Rehabilitation

20. **Mrs. James:** To ask the Secretary of State for Justice what measures he has put in place to increase co-operation with other Government Departments to improve the rehabilitation of offenders. [218578]

Mr. Hanson: The new suite of public service agreements (PSAs), and in particular the Home Office led 'Make Communities Safer' and Cabinet Office led 'Socially Excluded Adults' PSAs, provide important levers to support a cross-government focus on offender rehabilitation and reducing re-offending. To provide strategic direction for this work and to promote an effective cross-government partnership response, I co-chair a Reducing Re-Offending Inter Ministerial Group (IMG) which includes Ministers from 14 Government Departments. We have recently completed a formal consultation that builds on our partnership work to date and informs us in moving forward.

Sharia Law

21. **Mark Pritchard:** To ask the Secretary of State for Justice what discussions he has had with the Lord Chief Justice on the use of sharia law in the arbitration of some disputes. [218579]

Bridget Prentice: The Lord Chief Justice and my right hon. Friend the Secretary of State for Justice and Lord Chancellor meet on a regular basis. The Lord Chief Justice set out his views on sharia law in a lecture on 2 July 2008 at the East London Muslim Centre.

Community Justice

22. **Laura Moffatt:** To ask the Secretary of State for Justice what progress is being made on implementing his policy on community justice; and if he will make a statement. [218580]

Maria Eagle: The Government want to work towards making community justice the norm. Therefore, we have set up 13 community justice courts across England and Wales with a view to testing the concept fully before extending out to all courts.

We are taking the lessons learned from these projects and will be working during 2008 to help the magistrates courts improve engagement and involvement with the communities they serve.

Restorative Justice

23. **Paul Holmes:** To ask the Secretary of State for Justice what recent consideration he has given to the use of restorative justice practices in the criminal justice system. [218581]

Mr. Hanson: The Government are considering any encouragement they can provide to support continued growth of adult restorative justice, taking account of the research report published on 16 June on its impact on reoffending. Restorative justice is embedded in youth justice. Pilots of a new out of court disposal started in April 2008.

Knife Crime

24. **Ann Winterton:** To ask the Secretary of State for Justice what assessment he has made of the adequacy of sentencing options for those persons convicted of a knife crime. [218582]

Mr. Hanson: We have announced that anyone carrying a knife can expect to be prosecuted; and that a tough community penalty or custodial sentence will result.

Electoral Systems

Danny Alexander: To ask the Secretary of State for Justice if he will make a statement on his Department's review of electoral systems. [218559]

Mr. Wills: We published the Review of Voting Systems earlier this year which considers the experience of the new voting systems introduced in the United Kingdom since 1997. The review forms part of the continuing debate on electoral reform. The White Paper on House of Lords reform, published yesterday, which includes a number of options on possible voting systems for elections to an elected second Chamber, contributes to this continuing debate.

Crime: Victims

Mr. Hollobone: To ask the Secretary of State for Justice what steps he plans to take to ensure that victims' personal statements are *(a)* encouraged, *(b)* drawn to courts' attention and *(c)* taken into account. [218657]

Maria Eagle: The Ministry of Justice has been reviewing the use of the victim personal statement. We are currently updating guidance for victims and CJS practitioners with a view to running an awareness raising campaign later this year.

One example of the way in which use of the VPS in court has developed is via the CPS Victim Focus Scheme where (since October 2007) in cases of murder, manslaughter and qualifying cases involving road traffic fatalities the prosecutor will offer to read out in court a VPS made by a family member of the victim.

Crimes of Violence: Pregnant Women

Mrs. May: To ask the Secretary of State for Justice what statutory offences there are of causing a miscarriage through violence against a pregnant woman; and how many prosecutions there have been for such offences in the last 12 months. [217712]

Mr. Straw: Causing a miscarriage is an offence under section 58 of the Offences Against the Person Act 1861. Causing a child to die if the child is capable of being born alive is an offence under section 1 of the Infant

Life Preservation Act 1929. Both are subject to the Abortion Act 1967, which makes the medical termination of pregnancy lawful in certain circumstances. Offences under these Acts do not differentiate between miscarriages caused by violence and other miscarriages.

If a miscarriage is caused by violence, it would normally be dealt with as an offence of violence against the mother, such as assault causing actual bodily harm. In this case, the circumstances of the offence are not recorded separately.

The information reported to the Ministry of Justice on court proceedings shows one prosecution for child destruction under section 1 of the Infant Life Preservation Act 1929 and no prosecutions under section 58 of the Offences Against the Person Act 1861 in 2006, the latest year for which data have been published. Data for 2007 will be available in the autumn of 2008.

Departmental Manpower

Mr. Redwood: To ask the Secretary of State for Justice what the change has been in the number of employees in his Department and its agencies since July 2006. [217065]

Mr. Wills: The Ministry of Justice was created on 9 May 2007 bringing together the former Department for Constitutional Affairs (DCA) and parts of the Home Office, namely the National Offender Management Service, which includes HM Prison Service and the Office for Criminal Justice Reform.

The following figures show the number of employees for the former Department for Constitutional Affairs for the period mentioned, and for the first year of the new Ministry of Justice. The machinery of government change creating the new Ministry brought together several organisations from the Home Office, contributing to the significant increase against those figures for the former DCA. The new organisations account for 99 per cent. of the overall increase in the number of staff, most of whom work for HM Prison Service. Staff within the Probation Service are paid through a number of different arrangements with local authorities and are not included in these figures.

Ministry of Justice: Staff numbers

Full-time equivalents (FTEs)

		March		
	Staff	*2006*	*2007*	*2008*
Former Department for Constitutional Affairs	Permanent	24,069	24,567	24,594
	Casual	498	710	1,074
Ministry of Justice	Permanent HM Prison Service	—	—	47,626
	Casual HM Prison Service	—	—	1,714
	Permanent NOMS and OCJR	—	—	1,751
	Casual NOMS and OCJR	—	—	303
Total		24,567	25,277	77,062
Increase		—	710	391

Human Trafficking

Mr. Steen: To ask the Secretary of State for Justice how many of the victims of trafficking discovered by Pentameter II have been provided with legal representation. [217967]

Maria Eagle: All the victims that were referred to the UK Border Agency and the Poppy project will have had access to independent legal advice relating to immigration issues.

Mr. Steen: To ask the Secretary of State for Justice whether he plans to establish more refuges for victims of trafficking throughout the UK. [217974]

Maria Eagle: This year we are investing a further £1.3 million into the Poppy project to support women trafficked into sexual exploitation. This covers the core bespoke support services, the outreach service and the continuation of the capacity building work that started during Operation Pentameter II which resulted in service level agreements being put in place with other women's refuges across the country.

The Government have given their commitment to ratify the Council of Europe Convention against Trafficking in Human Beings by the end of the year. This will require us to enhance our existing arrangements by continuing to build capacity to support these victims and to develop support arrangements for victims trafficked into forced labour.

Legal Services Commission: Complaints

Mr. O'Hara: To ask the Secretary of State for Justice (1) how many claims for redress and compensation the Legal Services Commission received in respect of *(a)* the unified contract, *(b)* online services provided by the Commission and *(c)* late payments by the Commission in (i) 2006-07, (ii) 2007-08 and (iii) 2008-09; what action the Commission has taken in response; and which claims remain outstanding; [217287]

(2) how the Legal Services Commission records complaints under its complaints procedures; what complaints databases it maintains; what classes of information are recorded on such databases; which departments in the Commission maintain records of complaints; and what grade of official is responsible for the *(a)* entry, *(b)* verification and accuracy, *(c)* audit and *(d)* security of the data of such information; [217293]

(3) how many complaints handlers there are within the Legal Services Commission to handle complaints made to the Commission; and where each is located; [217296]

(4) how many complaints were received about information relating to account holders' payments held by the Legal Services Commission being *(a)* sent to the wrong suppliers and *(b)* sent in a unusable format since 1April 2008; [217298]

(5) how many payments have not been made by the Legal Services Commission on the due date to suppliers since 1 April 2008; [217299]

(6) how many of the complaints under the Legal Services Commission's complaints procedures have been made by *(a)* hon. Members, *(b)* those seeking legal services funded by the Legal Services Commission and *(c)* providers of services funded by the Legal Services Commission in each year since 2004-05; [217301]

(7) how many telephone complaints have been made to (a) the Chief Executive's Office, *(b)* the Central Customer Service Unit and *(c)* the North of England Regional Office of the Legal Services Commission on (i) non-compliance with the Commission's complaints procedure guarantee and (ii) failures to respond to complaints about the Commission's non-compliance with its complaint procedure guarantee; and in what form such complaints were recorded; [217303]

(8) how much in due payments was not processed by the date due by the Legal Services Commission since 1 April 2008; [217304]

(9) what *(a)* interest, *(b)* compensation and *(c)* other costs have been paid by the Legal Services Commission to suppliers to whom the Commission failed to make due payments by the due date since 1 April 2008. [217305]

Maria Eagle: Seven members of staff work in the Legal Services Commission's Central Customer Service Unit in London, which is responsible for handling complaints. Many other staff deal with a wide range of telephone, email and written inquiries from both providers and clients in the LSCs other offices including the regions and Wales. The information is not held centrally in the format requested and could be compiled only at disproportionate cost.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Justice when the Minister of State plans to reply to the letter from the hon. Member for West Worcestershire dated 15 May 2008, on prisoners' pay (Reference: 201584). [217782]

Mr. Hanson: I apologise for the delay in responding to the hon. Member. A letter has been issued today.

Motor Vehicles: Registration

Andrew Selous: To ask the Secretary of State for Justice how many people were *(a)* prosecuted and *(b)* convicted for the fraudulent registration of vehicles in each of the last three years for which figures are available. [218916]

Maria Eagle: Data collected centrally combine all the offences within the offence group "Fraud, forgery etc. associated with registration and licensing documents". As a result we are unable to identify separately prosecutions involving fraud for offences under ss. 44 and 45 of the Vehicle Excise and Registration Act 1994.

Parole

Chris Huhne: To ask the Secretary of State for Justice how many cases were dealt with by the Parole Board's *(a)* oral hearings team and *(b)* paper hearings team in each of the last five years. [217630]

Mr. Hanson: Information from the Parole Board about the number of cases dealt with by their oral hearings team and paper hearings team in each of the last five years is provided in the following table.

	(a) Number of oral hearings	*(b) Number of paper hearings*
2003-04	2,372	15,069
2004-05	2,317	16,617
2005-06	2,982	16,824
2006-07	3,402	22,526
2007-08	4,518	26,654

Chris Huhne: To ask the Secretary of State for Justice what the *(a)* average, *(b)* maximum and *(c)* minimum period was between prisoners becoming eligible for a Parole Board (i) oral hearing and (ii) paper hearing and the hearing taking place in the latest period for which figures are available. [217631]

Mr. Hanson: The Parole Board does not hold this information and it is not available from any other source.

Chris Huhne: To ask the Secretary of State for Justice how many prisoners are awaiting a decision letter following a Parole Board *(a)* oral hearing and *(b)* paper hearing. [217632]

Mr. Hanson: The Parole Board has a target of issuing oral hearing decisions within five working days and paper hearing decisions within two working days. Information from the Board is that on 9 July 2008, 13 oral hearing cases and 18 paper hearing cases were awaiting the issue of a decision letter.

Chris Huhne: To ask the Secretary of State for Justice how many prisoners are awaiting a Parole Board oral hearing. [217633]

Mr. Hanson: I am advised by the Parole Board that there were 949 prisoners awaiting an oral hearing at the end of June 2008.

Chris Huhne: To ask the Secretary of State for Justice what arrangements the Parole Board has made to protect the security and confidentiality of communications between its staff and prisoners' solicitors. [217634]

Mr. Hanson: In response to Government initiatives at the beginning of this year, the Parole Board carried out a general review of security matters throughout their organisation including the way in which communication is conducted with prisoners' representatives. A new security policy and manual for staff was issued in April 2008.

Chris Huhne: To ask the Secretary of State for Justice how many Parole Board dossiers were destroyed in each of the last 12 months; and on what criteria the decisions to authorise their destruction were based. [217638]

Mr. Hanson: I am advised by the Parole Board that for the period between June 2007 and June 2008, 323 files were destroyed. It is normal practice for files for oral hearing cases to be destroyed after nine months from the date of the hearing unless further action has been initiated.

Parole Board: Civil Proceedings

Chris Huhne: To ask the Secretary of State for Justice on how many occasions legal proceedings were brought against the Parole Board for alleged failure to release prisoners in a timely fashion in each of the last five years; in how many of these cases the proceedings were successful; and how much compensation was paid in respect of each. [217643]

Mr. Hanson: The Parole Board does not hold records of all claims for compensation, only those where a payment is made. In some cases, payment may have been ex-gratia and not necessarily as a result of successful legal proceedings. Records of payments made in compensation for unacceptable delays in conducting a hearing have been kept by the Parole Board since April 2006. There have been 29 payments made since then and the amounts of each of these are contained in the following table:

	£
1	7,500
2	500
3	1,500
4	4,000
5	600
6	807.50
7	4,000
8	2,231.55
9	2,000
10	1,750
11	1,500
12	3,000
13	2,000
14	6,000
15	5,000
16	1,500
17	1,750
18	4,500
19	3,000
20	1,500
21	3,000
22	1,500
23	10,000
24	10,000
25	5,000
26	3,000
27	2,000
28	12,000
29	2,000
Total	103,139.05

Parole Board: Correspondence

Chris Huhne: To ask the Secretary of State for Justice what arrangements the Parole Board has for sorting incoming mail; whether there have been changes to the arrangements in the last 12 months; and if he will make a statement. [217639]

Mr. Hanson: I am informed by the Parole Board that their incoming mail is initially scanned centrally for suspect devices, as is all mail for secure Government buildings in London. It is then delivered by Government messenger service to the board's London offices. The mail is not opened until it has been received by individual teams within the board who then open and action the mail. Following a recent review a new central services team will be set up to handle incoming mail once it arrives with the board and will be supported by a new post database that has been developed for that purpose.

Parole Board: Lost Property

Chris Huhne: To ask the Secretary of State for Justice how many Parole Board dossiers have been lost in the last 12 months. [217640]

Mr. Hanson: The Parole Board is not aware of any dossiers being lost during this period.

Parole Board: Manpower

Chris Huhne: To ask the Secretary of State for Justice how many caseworkers were employed by the Parole Board to deal with *(a)* oral hearings and *(b)* paper hearings in each of the last five years. [217629]

Mr. Hanson: Information from the Parole Board on the numbers of caseworkers employed to deal with oral and paper hearings is contained in the following tables.

(a) Number of caseworkers on oral hearings

	Permanent	*Templagency*
2004-05	23	2
2005-06	27	4
2006-07	29	1
2007-08	29	5
2008-09	24	7

(b) Number of caseworkers on paper hearings

	Permanent	*Templagency*
2004-05	16	1
2005-06	13	5
2006-07	11	8
2007-08	15	6
2008-09	13	4

Chris Huhne: To ask the Secretary of State for Justice how many *(a)* civil servants, *(b)* permanent non-civil service employees and *(c)* temporary or agency workers were employed at the Parole Board in each month since January 2007. [217637]

Mr. Hanson: Information from the Parole Board about the number of staff they employed in each month since January 2007 is contained in the following table.

	(a) Civil servants	*(b) Non civil-servants*	*(c) Temporary or agency workers*
January 2007	27	41	8
February 2007	27	41	12
March 2007	26	40	15
April 2007	26	45	9
May 2007	26	46	13
June 2007	26	45	14
July 2007	26	45	22
August 2007	26	43	24
September 2007	26	41	24
October 2007	26	40	19
November 2007	26	41	21
December 2007	26	41	22
January 2008	26	41	24
February 2008	26	41	24
March 2008	26	41	24
April 2008	25	41	22
May 2008	24	40	25
June 2008	24	40	27
July 2008	22	40	29

Political Parties: Finance

Mr. Tyrie: To ask the Secretary of State for Justice if he will place in the Library a copy of the last Home Department guidance that was produced on election expense triggering under the provisions of the Representation of the People Act 1983, prior to the Political Parties and Elections Act 2000. [215328]

Bridget Prentice: Officials have looked through departmental archives and have been unable to find a copy of such guidance. The fundamental provisions were of long standing and there were a number of publications relating to the operation of triggering for candidates and prospective candidates to consider. It is intended that, when legislation is brought forward to implement the proposals to regulate candidate expenditure outlined in the recent White Paper "Party finance and expenditure in the United Kingdom" (Cm 7329), the Electoral Commission will be given a specific power to provide guidance in this area.

Prisoners Release: Yorkshire and the Humber

John Battle: To ask the Secretary of State for Justice how many people have been released on end of custody licence from prison in *(a)* Leeds West constituency, *(b)* Leeds Metropolitan District and *(c)* Yorkshire and Humberside in each year since the scheme began. [218012]

Mr. Straw: The available information on numbers released by establishments is published monthly in Table 2 of the statistical bulletin End of Custody Licence releases and recalls' available from the Library of the House and the Ministry of Justice website at the following address:

www.justice.gov.uk/publications/endofcustodylicence.htm

The following table gives the available information on numbers of prisoners who were released under the end of custody licence (ECL) scheme from the date the scheme came into effect on 29 June 2007 to 31 May 2008, by each prison in the Yorkshire and Humberside region.

	Total releases[1]
Askham Grange	11
Everthorpe	401
Hull	220
Leeds	313
Lindholme	399
Moorland	214
Moorland Open	166
New Hall	359
Northallerton	473
Wealstun	226
Yorkshire and Humberside public prison establishments	2,782
Doncaster	924
Wolds	42
Contracted out prison establishments	966
Total	3,748

[1] 29 June 2007 to 31 May 2008

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisons: Construction

Mrs. Dorries: To ask the Secretary of State for Justice what progress the Government have made in their prison capacity building programme. [218567]

Mr. Hanson: The prison capacity programme will provide an additional 20,000 prison places and an increase overall capacity to just over 96,000 by 2014.

The programme has to date delivered 3,140 prison places and will provide a further 1,000 prison places this year.

Road Traffic Offences: Foreigners

Stephen Hammond: To ask the Secretary of State for Justice what estimate he has made of the number of motorists *(a)* fined and *(b)* convicted of motoring offences while using a foreign licence in the latest period for which figures are available. [217616]

Maria Eagle: Driving without a valid licence is an offence under section 87 (1) of the Road Traffic Act 1988. The Court Proceedings Database held by my Department identifies proceedings and convictions under section 87 (1) of the Road Traffic Act 1988. Information on the UK or foreign origin of those licences is not collected.

Womens Prisons: Young Offenders

Chris Huhne: To ask the Secretary of State for Justice how many women in custody aged 17 years old were placed on wings with adult female prisoners in each of the last 12 months, broken down by prison; how long each spent on those wings; and what the reasons were for those transfers or placements. [219122]

Mr. Hanson: The number of young women aged 17 years placed on wings with adult female prisoners in each of the last 12 months, is contained in the following table.

Number of young women aged 17 years placed on wings with adult female prisoners in each of the last 12 months

Establishment	*Number placed on adult wing/unit*	*Duration on wing/unit (Days)*	*Reason for transfer/placement*
Askham Grange	1	383	Planned moved to mother and baby unit
New Hall	1	86	Planned move due to medical reasons
Low Newton	1	3	Population management
Peterborough	1	2	Population management

Chris Huhne: To ask the Secretary of State for Justice how many women in custody aged 17 years have been placed in adult prison detoxification units in the last 12 months, broken down by prison; and how long each stayed in those units. [219124]

Mr. Hanson: Figures for the number of women aged 17 years placed in adult detoxification units in the last 12 months are not held centrally. Establishments are unable to provide the figures within the time allocated for answer. Figures can be obtained only at a disproportionate cost.

CHILDREN, SCHOOLS AND FAMILIES

Arabic Language: Education

Mr. Drew: To ask the Secretary of State for Children, Schools and Families how many schools in each local authority area offered Arabic teaching at the latest date for which figures are available. [217716]

Jim Knight: The Department does not hold information on subjects offered by schools at GCSE or A level.

Figures relating to schools that entered pupils into Arabic can be provided only at disproportionate cost.

Building Schools for the Future Programme

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much has been allocated to each school under the Building Schools for the Future programme to date. [217532]

Jim Knight: The following table details the projected funding which Partnerships for Schools plans to allocate to Building Schools for the Future projects which have reached Outline Business Case (OBC). Funding is provided to local authorities as an 'envelope' based on formulaic allocations. It is the responsibility of local authorities to allocate resources to individual schools in accordance with local priorities. As projects develop, the funding allocations are updated, so it is likely that these figures will change.

Funding levels are not allocated for projects in BSF until they have reached OBC.

	Funding (£ million)	
Local authority	*Non PFI*	*PFI*
Bradford	20	311
Bristol	32	157
Greenwich	57	184
Knowsley	4	250
Lancashire	49	252
Leeds	150	186
Leicester	165	151
Lewisham	86	230
Manchester	202	0
Newcastle	107	132
Newham	97	65
Sheffield	76	89
Solihull	30	87
STaG	157	69
Sunderland	119	0
Waltham Forest	62	54
Birmingham	261	102
Hackney	152	0
Haringey	184	0
Islington	85	113
Lambeth	87	0
Liverpool	153	0
Middlesbrough	114	0
Nottingham	146	76
Tower Hamlets	88	0
Barnsley	28	324
Derbyshire	60	65
Durham	75	79
Kent	179	99
Luton	108	34
North Lincs	89	0
Salford	34	192
Sandwell	137	63
Southwark	134	85
Tameside	82	128
Westminster	159	0
Blackburn	85	119
Cambridgeshire	87	62
Rochdale	117	132

Michael Gove: To ask the Secretary of State for Children, Schools and Families what funding has been allocated from the Building Schools for the Future programme to National Challenge schools *(a)* in the last and *(b)* for the next three financial years. [217554]

Jim Knight: Building Schools for the Future (BSF) funding is provided to local authorities as an 'envelope'

to allow allocation of resources to individual schools reflecting the local view on priorities and needs. Details of allocations to BSF local authorities are included in the answer to the hon. Member's question 217532.

Fifteen secondary schools, where in 2007 fewer than 30 per cent. of pupils attained five or more good GCSEs including English and mathematics, are expected to open in new or remodelled BSF buildings this financial year. A further 256 will benefit from funding as part of current Building Schools for the Future projects, either through Local Education Partnerships, the Partnerships for Schools National Framework or as One School Pathfinders. An additional 73 are included in pre-BSF private finance initiative projects, and 29 are being, or have been built under the DCSF Academies programme.

Children in Care: Young Offenders

Mr. Kidney: To ask the Secretary of State for Children, Schools and Families what discussions he has had with the Secretary of State for Children, Schools and Families on collaborative measures to improve the performance of local authorities' care systems in *(a)* preventing offending and *(b)* reducing re-offending by looked-after children. [218804]

Beverley Hughes: There have been substantial discussions between the Secretaries of State on how to improve resettlement of young offenders during the development of the Youth Crime Action Plan which signals our intention to develop a comprehensive package of support for children leaving custody.

A range of current legislation and guidance imposes duties on local authorities and professionals to ensure that looked-after children leaving custody are provided with the support and accommodation they need on release. Measures in the Children and Young Persons Bill will enable us to revise Children Act Guidance setting out how we expect local authorities to exercise their statutory duties to continue to plan for looked-after children throughout any period in custody which would necessarily include planning for their support in the community to minimise the risk of re-offending. Clause 16 of the Bill provides for power to be given to the Secretary of State to require the local authority to visit children who were provided with voluntary accommodation by the authority but who then loses their looked after status because they received a custodial sentence. The purpose of these visits will be to assess the support that the child may need on release from custody. It will be essential that children's and youth justice services coordinate any support needed to prevent re-offending.

Children: Disadvantaged

John Battle: To ask the Secretary of State for Children, Schools and Families what estimate his Department has made of the number of children eligible for free school meals in Leeds West constituency in each year since 1997. [218014]

Kevin Brennan: The requested information is given in the table.

Primary and secondary schools[1]: Number and percentage of pupils known to be eligible for free school meals—position in January each year: 1997 to 2008—Leeds, West parliamentary constituency

	Primary schools			Secondary schools		
	Number of pupils[2]	*Number or pupils known to be eligible for free school meals[3]*	*Percentage of pupils known to be eligible for free school meals*	*Number of pupils[2]*	*Number or pupils known to be eligible for free school meals[3]*	*Percentage of pupils known to be eligible for free school meals*
1997	8,984	2,349	26.1	3,635	1,029	28.3
1998	8,796	2,295	26.1	3,725	964	25.9
1999	8,609	2,182	25.3	3,834	1,026	26.8
2000	8,313	2,062	24.8	3,993	1,047	26.2
2001	8,152	2,059	25.3	4,042	1,075	26.6
2002	7,932	1,999	25.2	4,093	1,007	24.6
2003	7,690	2,004	26.1	4,137	1,027	24.8
2004	7,391	1,929	26.1	4,190	1,088	26.0
2005	7,159	1,885	26.3	4,157	1,079	26.0
2006	6,949	1,730	24.9	4,040	1,005	24.9
2007	6,872	1,729	25.2	3,937	986	25.0
2008	6,776	1,652	24.4	3,850	982	25.5

[1] Includes middle schools as deemed. Also includes nursery schools, CTCs and academies (although none of these school types in Leeds, West).
[2] Includes pupils with sole and dual main registration.
[3] Pupils who are eligible and are claiming their free school meal entitlement.
Source:
School Census

Class Sizes: Primary Education

Mr. Malins: To ask the Secretary of State for Children, Schools and Families what the average class size in primary schools in England and Wales was in each of the last five years; what effect the personalised learning initiative is expected to have on class sizes; and if he will make a statement. [218998]

Jim Knight: The average class size in local authority maintained primary schools in England, including middle schools as deemed, has remained constant at 26.2 from 2004 to 2008, except in 2006 when it was 26.3. The figure for 2008 is based on provisional data: figures for other years are based on final data. The Department does not collect information for Wales.

Rather than being a discrete initiative, 'personalised learning' means taking a highly structured and responsive approach to each child's and young person's learning, enabling all to progress, achieve and participate. Individual schools and teachers are best placed to tailor teaching to their pupils' needs. This may include teaching in

different sized pupil groupings on different occasions, or using in-class grouping to allow pupils with a range of needs to work at an appropriate level. However, there is no expectation that by using personalised approaches to teaching and learning, schools will experience any change to their overall average class size as indicated.

Departmental Buildings

Mr. Peter Ainsworth: To ask the Secretary of State for Children, Schools and Families how many *(a)* new builds and *(b)* major refurbishments for a cost in excess of £0.5 million were completed by his Department and its predecessors in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08. [213721]

Kevin Brennan: The Department for Children, Schools and Families has not completed any new builds within the years requested. Since 2006 a total of three major refurbishments, with a value in excess of £0.5 million, have been completed. This is broken down as follows; in 2005-06 nil, in 2006-07 two and in 2007-08 one.

Departmental Pay

Mr. Redwood: To ask the Secretary of State for Children, Schools and Families what proportion of staff of his Department did not receive the maximum bonus possible under a bonus scheme applying to them since the Department was established. [217371]

Kevin Brennan: The Department was created on 28 June 2007. For the 2007/08 performance year 74 per cent. of senior civil servants did not receive the maximum bonus that was paid. The pay settlement for Grade 6s and below has yet to be agreed.

Departmental Sick Leave

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families how many working days have been lost due to sickness amongst employees for which his Department and its predecessor were responsible for each year since 1997. [218033]

Kevin Brennan: Cabinet Office has recently introduced a revised format for reporting sickness absence statistics across the civil service. The new format was introduced at the end of March 2008 and the reports now cover the period up to 31 March 2008. The figure for annual average working days lost due to sickness in my Department up to that date is 9.6 per staff member. The annual number of days lost 20,021.2.

The Department was formed as part of the Machinery of Government changes on 28 June 2007. Sickness absence data for the Department's predecessor, the Department for Education and Skills, for 2006/07, 2005 and 2004, including the average number of days taken as sick leave is published on the civil service website:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

along with data for other Departments and agencies.

Earlier sickness data are not readily available and could be obtained only at disproportionate cost.

Departmental Wastes

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families what steps his Department has taken to reduce the volume of waste produced by it and sent to landfill in each of the last two years. [215882]

Kevin Brennan: In 2005-06 a comprehensive waste management system was implemented across the Department for Education and Skills, the predecessor to the Department for Children Schools and Families. The aim of the system was to segregate as many waste streams as possible for reuse and recycling and reduce the amount of waste sent to landfill to the lowest possible level.

Between 2004-05 and 2006-07 the Department reduced the total amount of waste produced by 13.1 per cent. and recycled 55.8 per cent. of all waste. In 2006/07, 38.6 per cent. of waste produced was sent to landfill compared to 51.5 per cent. in 2005/06.

The use of disposable products and packaging is kept to a minimum and as much of this is recycled as possible. Examples of the waste streams that are segregated and recycled include plastic and metal beverage and food containers as well as glass bottles and jars.

Education: Assessments

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils who gained level 4 or above in key stage 2 tests in *(a)* reading, *(b)* writing and *(c)* mathematics in 2004 did not gain level 5 or above in the corresponding key stage 3 tests in 2007. [217614]

Jim Knight: The figures required can be found in the following table:

Number of pupils

	Achieving level 4 or above in KS2 in 2004, and not achieving level 5 or above in KS3 in 2007	*Achieving level 4 or above in KS2 in 2004 and with eligible results for KS3 in 2007*	*With eligible results for both KS2 in 2004 and KS3 in 2007*
English	47,994	441,736	572,283
Mathematics	27,723	424,518	574,850

Figures for reading and writing separately can be provided only at disproportionate cost.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families on what dates *(a)* he and *(b)* the Schools Minister has met (i) ETS, (ii) the Qualifications and Curriculum Authority and (iii) the National Assessment Agency to discuss the administration and marking of the key stage tests in 2008; and if he will make a statement. [217696]

Jim Knight: Neither I nor my right hon. Friend the Secretary of State have met ETS. We do, however, regularly meet with the Qualifications and Curriculum Authority, of which the National Assessment Agency is a division. Recent meetings have included discussions on the administration and marking of key stage tests in 2008, which are now the subject of an independent inquiry being chaired by Lord Sutherland.

Extended Schools

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what criteria he used to select the areas which will pilot the extended schools subsidy. [219228]

Beverley Hughes: DCSF selected local authorities to participate in the extended schools subsidy pathfinder on the basis of Government office nominations. DCSF asked each Government office to nominate two local authorities and two reserves to participate in the extended schools subsidy pathfinder.

DCSF asked Government offices to consider the following issues in making their nominations:

The need for the 18 pathfinder local authorities to reflect a representative national range of characteristics. For example, urban/rural, high deprivation across the authority/pockets of deprivation in a more affluent authority.

To nominate authorities whose schools are well on the way to meeting the extended school core offer.

To nominate authorities according to the Government office's judgment of LA's capacity to deliver the pathfinders.

Fair Trade Initiative

Mr. Moore: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 26 February 2008, *Official Report*, column 1539W, on the Fairtrade initiative, what Fairtrade products are *(a)* available for purchase in his Department's staff catering facilities and *(b)* offered at official departmental meetings and engagements; what value of Fairtrade produce was purchased in his Department's staff catering facilities in each of the last three financial years; and what percentage this represented of total revenue. [208709]

Kevin Brennan: Fairtrade products that are available for purchase within the Department for Children, Schools and Families include: coffee, tea, fruit juices, confectionery, snack bars and fresh fruit. Proceeds from the sale of bottled water are used by the charity ONEWATER to fund the provision of clean water projects in Africa. All tea and coffee supplied for official internal departmental meetings and engagements is Fairtrade.

Information on breakdown of sales in respect of fair-trade products is not held by the Department and would incur disproportionate costs to obtain from the commercial supplier.

Food

Mr. Paice: To ask the Secretary of State for Children, Schools and Families from which five countries of origin the greatest amount of food was procured by his Department in the last year for which figures are available; and what the *(a)* cost and *(b)* quantity procured was in each case. [214888]

Kevin Brennan: The Department for Children, Schools and Families catering service is contracted out and the information requested could only be provided at disproportionate costs. A report was produced by DEFRA and issued to Parliament on the proportion of domestically produced food used in Government Departments during the period 1 July 2006 to 30 June 2007. DEFRA proposes to publish data on the value of contracts let for food and catering contracts (including the value of food provided under the catering contracts) by the end of 2008 which will allow calculations to be made.

GCE A-level

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many schools for pupils aged 11 to 18 years old do not offer an A-level physics course; [217186]

(2) how many schools for 11 to 18 years olds do not offer an A-level course in a modern language. [217187]

Jim Knight: The Department does not hold information on schools that offer particular subjects at A level.

The number and percentage of secondary schools that entered pupils into physics and a modern foreign language in 2006-07 are given in the following table.

	Number of secondary schools with sixth forms that entered pupils into subject	*Percentage of secondary schools with sixth forms that entered pupils into subject*
Physics	1,994	85.0
French	1,677	71.5
German	1,207	51.4
Spanish	904	38.5
Other modern language	990	42.2
Any modern language	2,001	85.3

Notes:
1. The figures relate to 16-18 year olds (age at start of academic year, i.e. 31 August 2006) in secondary schools that entered pupils into GCEA levels.
2. Other Modern Languages' include 'Arabic', 'Bengali', 'Chinese', 'Dutch', 'Gujarati', 'Italian', 'Japanese', 'Panjabi', 'Persian', 'Polish', 'Portuguese', 'Russian', 'Turkish' and 'Urdu'

General Certificate of Secondary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils did not obtain a C grade or above at GCSE, excluding equivalents, in 2007. [217175]

Jim Knight: This question has been answered in the reply to PQ 187634 on 25 February 2008, *Official Report*, column 1276W.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils who gained five GCSEs at A*-C in 2007 gained a good GCSE in *(a)* English, *(b)* mathematics, *(c)* science, *(d)* a modern foreign language and *(e)* either history or geography. [217613]

Jim Knight: In 2007, 402,411 pupils at the end of key stage 4 achieved 5+ A*-C at GCSE and equivalent. Of these, the numbers and percentages of pupils gaining an A*-C GCSE in the subjects listed is given in the following table.

	Number	*Percentage*
English	388,198	96.5
Mathematics	352,909	87.7
Science	331,114	82.3
Modern Foreign Language	198,382	49.3
Either Geography or History	221,131	55.0

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many pupils eligible to sit *(a)* mathematics, *(b)* English and *(c)* science GCSEs in 2007 were not entered for an examination in each subject; [217619]

(2) how many pupils did not gain a GCSE in *(a)* English, *(b)* mathematics and *(c)* science in the last period for which figures are available. [217623]

Jim Knight: The following table shows how many pupils at the end of key stage 4 were eligible to sit GCSEs in English, mathematics and science in 2007, and of these pupils how many were not entered for the exams or did not gain a GCSE in these exams.

Subject	*Number of eligible pupils*	*Number of eligible pupils not entered for an examination*	*Number of eligible pupils attempting examination but not achieving an A*-G grade*
English	649,200	29,700	9,000
Mathematics	649,200	32,300	18,900
Science	649,200	49,500	13,500

These figures can be derived from figures in tables 1 and 10 of the Statistical First Release 'GCSE and Equivalent Examination Results in England, 2006/07 (Revised)', available at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000768/index.shtml.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what effect he expects the introduction of functional skills to have on GCSE results compared with previous years; and if he will make a statement. [218228]

Jim Knight: Functional skills qualifications are currently being piloted and our intention is that, for GCSEs awarded from 2012, students taking mathematics, English or ICT should have to achieve the relevant FS qualification at L2 in order to obtain a grade C or above at GCSE. Level 2 functional skills qualifications are designed to be of a similar level of challenge to GCSE grade A*-C. As they assess different skills the pilot will test the potential effect on GCSE attainment, through analysis of results in the pilot assessments.

General Certificate of Secondary Education: Disadvantaged

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils eligible for free school meals gained 10 good GCSEs in 2007. [217617]

Jim Knight: 77,776 pupils gained 10 or more GCSE grades A*-C in 2006/07. This was 13.1 per cent. of pupils at the end of Key Stage 4 in maintained schools.

2,533 pupils eligible to receive free school meals gained 10 or more GCSE grades A*-C in 2006/07. This was 3.3 per cent. of eligible pupils at the end of Key Stage 4 in maintained schools.

Mathematics: General Certificate of Secondary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils sitting GCSEs in *(a)* mathematics and *(b)* English in 2007 received a grade (i) D, (ii) E, (iii) F, (iv) G and (v) U. [217622]

Jim Knight: Table 13 of the Statistical First Release 'GCSE and Equivalent Examination Results in England, 2006-07 (Revised)' shows GCSE results of pupils at the end of Key Stage 4 in schools, by subject and grade. This SFR is available at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000768/index.shtml

Music: Education

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families what percentage of key stage *(a)* 1 and *(b)* 2 pupils received specialist instrumental and vocal tuition within maintained schools in the latest period for which figures are available. [218757]

Jim Knight *[holding answer 14 July 2008]:* I refer the hon. Member to the reply given on 19 November, *Official Report*, column 637W. While this information is not routinely collected by the Department, the Institute of Education, University of London, was commissioned in 2007 to collect data on local authority music services provision. The 2007 survey built on previous surveys and there was a 90 per cent. response rate.

The following tables provided in my reply last November have now been updated with the 2007 data.

Academic year	*Percentage of KS1 pupils reported as receiving specialist instrumental or vocal tuition*	*Percentage of KS2 pupils reported as receiving specialist instrumental or vocal tuition*
2001/02	[1]—	12
2004/05	2	13
2006/07	4.5	13

[1] Data not available for KS1

Note:
Figures do not take account of music tuition provided by those operating outside of local authority arrangements.

Specific national funding to support the widening of opportunities for primary children to access instrumental and vocal provision began in 2003. Data from the surveys on participation in these programmes, which largely involve specialist music teachers, are reported in the following table.

Academic year	*Percentage of KS1 pupils reported as being involved in wider opportunities activities*	*Percentage of KS2 pupils reported as being involved in wider opportunities activities*
2003/04	[1]—	8
2004/05	[1]—	10
2005/06	5	22
2006/07	7.7	32.6

[1] Data not available

The survey data predicted that the average percentage of children expected to be involved in a widening opportunities programme during the whole school year 2007/08 would rise to 12.5 per cent. for key stage 1 and 50.6 per cent. in key stage 2.

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families how many applications were received for funding from the fund established for the professional development of music teachers; how many have completed programmes funded as a result of such applications; and what the cost of the scheme has been to date. [218765]

Jim Knight *[holding answer 14 July 2008]:* After a tender exercise in 2006, the contract to develop and deliver a programme of professional development for practitioners involved in music in primary schools was agreed with the Open university and Trinity college London. The £2 million funding for the programme has been for both the development and delivery of a national CPD programme, which is free for participants.

Initial applications were received from just over 1,300 teachers and this resulted in 915 practitioners actively engaging with the programme. Of those who did not end up engaging with the programme, most withdrew before starting, due to change of circumstances and/or time constraints. Every practitioner has a mentor and an individualised training programme. A total of 312 mentors have been appointed and trained. Practitioners have been completing their portfolios for moderation and certification, and 132 completed portfolios have been received so far.

The announcement of £332 million for music education over the next three years which was made last November includes £1 million a year for continued support for the programme of professional development for practitioners involved in music in primary schools: http://www.dfes.gov.uk/pns/DisplayPN.cgi?pn_id=2007_0216 We expect to train at least a further 3,000 key stage 2 practitioners during that time.

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effects of the £2 million fund for professional development of music teachers on instrumental and vocal tuition in maintained schools; and if he will make a statement. [218766]

Jim Knight *[holding answer 14 July 2008]:* Evaluation of the programme of professional development for practitioners involved in music in primary schools is ongoing and extensive. Processes which support review and evaluation are integral to the programme and are crucial to ensuring the best possible outcomes in terms of impact of professional practice and the continuing development of the programme for the next three years.

Formal evaluation is central to all aspects of the programme and includes: mentor's observations of practitioner's lessons; practitioner's evaluations of all the workshops they attend as well as online evaluation at the end of their programme; online forums for workshop leaders to inform and support each other; and the regular observation of workshops and visits to practitioners in schools to evaluate the impact of the programme on practice. The final report on the impact of the programme to 2008, including case studies, is expected to be provided to the Department in the autumn.

Primary Education: Standards

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families pursuant to the Answer of 30 June 2008, *Official Report*, column 640W, on primary education: standards, how many and what proportion of children who received free school meals achieved the national standard in each Key Stage 1 examination in each year since 1995. [217566]

Kevin Brennan *[holding answer 10 July 2008]:* The following tables show how many and what proportion of children who receive free school meals achieved the national standard in the reading, writing, mathematics and science Key Stage 1 examinations in each year since 2002. These figures can only be provided from 2002 as this was the first year pupil level characteristics information was collected.

Achievements at Key Stage 1 in reading, by free school meal eligibility and gender, years: 2002-07[1] coverage: England

	Number of pupils						*Level 2 and above*

Pupil Exclusions

Michael Gove: To ask the Secretary of State for Children, Schools and Families what proportion of pupils who received a permanent exclusion were *(a)* placed in a mainstream school and *(b)* placed in a pupil referral unit in each of the last 10 years. [217615]

Kevin Brennan: Information on the number of permanently excluded pupils who are placed in a mainstream school can be provided only at disproportionate cost.

Information on the number of permanently excluded pupils who are placed in a pupil referral unit is not available.

Pupil Referral Units: Disadvantaged

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils eligible for free school meals are attending pupil referral units. [217618]

Kevin Brennan: The requested information is given in the following table:

All schools, excluding independent schools: Pupils known to be eligible for free school meals, as at January 2008, England

	Number of pupils[1]	Number of pupils known to be eligible for free school meals[2]	Percentage of pupils known to be eligible for free school meals[3]	Percentage of all pupils who are known to be eligible for free school meals[4]
Mainstream schools[5]	7,422,420	1,074,630	14.5	96.8
Special schools[6]	91,830	28,680	31.2	2.6
Pupil referral units	25,290	6,790	26.8	0.6
Total	7,539,530	1,110,090	14.7	100.0

[1] Includes pupils with sole and dual registration. Also includes pupils with other providers in pupil referral units.
[2] Pupils who are eligible for and are claiming their free school meal entitlement.
[3] Number of pupils known to be eligible for free school meals expressed as a percentage of the number of pupils in the same type of school.
[4] Number of pupils known to be eligible for free school meals expressed as a percentage of the total number of pupils known to be eligible for free school meals.
[5] Includes maintained nursery, primary and secondary schools, CTCs and academies.
[6] Includes maintained and non-maintained special schools.
Note:
Pupil numbers have been rounded to the nearest 10.

Pupils: Per Capita Costs

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many schools received a per pupil funding increase of below the minimum funding guarantee in each year since 2003; and if he will make a statement. [218229]

Jim Knight: The minimum funding guarantee was introduced to the school funding system for the 2004-05 financial year. A schools forum may approve variations to the minimum funding guarantee proposed by the local authority that together affect no more than 50 per cent. of pupils in the authority's schools. The purpose of this provision is to allow local authorities and their schools forums to handle anomalies that may arise from the operation of the minimum funding guarantee, since the rules set down in the regulations are unable to cover all local circumstances. Where local authorities propose a variation to the minimum funding guarantee that will affect more than 50 per cent. of pupils, the Secretary of State's approval must be sought.

The earliest available data are for 2004-05. Data have not been collected for all years, but figures for 2004-05 and 2005-06 are:

2004-05

Primary: 436 from 18,031 schools received a per pupil increase below the MFG level of 3.4 per cent. (data are unavailable for 737 from the 18,031 schools).

Secondary: one school from 3,431 schools received a per pupil increase below the MFG level of 3.4 per cent. (data are unavailable for 71 from the 3,431 schools).

2005-06

Primary: 478 from 17,087 schools received a per pupil increase below the MFG level of 4.9 per cent.

Secondary: three schools from 3,341 schools received a per pupil increase below the MFG level of 3.9 per cent.

We do not hold information for 05-06 on the number of schools where data are unavailable.

Schools: Cadets

Mark Pritchard: To ask the Secretary of State for Children, Schools and Families what recent discussions he has had with the Secretary of State for Defence on expanding cadet forces within state schools. [217497]

Jim Knight: The independent National Recognition of the Armed Forces study by my hon. Friend the Member for Grantham and Stamford (Mr. Davies) recommended expanding cadet forces within state schools. Lord Adonis and my hon. Friend the Member for Hatton (Derek Twigg), the Parliamentary Under Secretaries of State with policy responsibility for this area, have met twice in recent months to discuss the expansion of cadet forces in state schools, and our Departments will continue work closely together on this issue.

Mark Pritchard: To ask the Secretary of State for Children, Schools and Families if he will hold discussions with teachers' professional bodies on access to cadet force provision in maintained schools. [217508]

Jim Knight: Access to cadet force provision is a matter for individual schools in discussion with the Ministry of Defence. We have no plans to hold discussions with the teachers' professional bodies on these matters at this stage.

Schools: International Cooperation

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many *(a)* secondary and *(b)* primary schools are not twinned with a school overseas; and if he will make a statement. [217844]

Jim Knight: These data are not collected centrally.

Schools: Safety

Mr. Amess: To ask the Secretary of State for Children, Schools and Families what guidance he has provided to *(a)* primary and *(b)* secondary schools on road safety issues, with particular reference to the importance of wearing seat belts correctly; and if he will make a statement. [217902]

Kevin Brennan: The Department has not issued guidelines to schools on how children should wear seat belts correctly. In 2001 we issued "Safety Education: Guidance for Schools", which includes general guidance on how road safety education may be provided. This guidance can be found at:

http://www.teachernet.gov.uk/_doc/3111/Safety%20Education.pdf

The Department also works with the Department for Transport and other stakeholders on road safety issues for children and young people.

Schools: Sanitation

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what assessment he has made of the adequacy of the provision of toilets in English schools; and if he will make a statement; [217677]

(2) how many schools in England only have outside toilets; and if he will make a statement; [217678]

(3) what survey records his Department holds on the provision of school toilets; and if he will make a statement; [217679]

(4) if he will review the adequacy of the standard of toilets in English schools; and if he will make a statement. [217681]

Jim Knight: Schools should put as much effort into designing and managing toilets as they do in building and managing other facilities. They should be clean, safe, well equipped and accessible. Children and young people themselves cite the state of school toilets as a top priority. It is unacceptable that they are put off using toilets at schools because they are badly designed, vandalised dirty or hang-outs for bullies. We want pupils to be healthy by drinking plenty of water throughout the day and they cannot do that without feeling safe to use the toilets.

That is why last year for the first time we laid down clear guidance in the form of a specification for design so that schools can use the record amounts of investment in school buildings and facilities to provide the highest quality pupils' toilets. The guidance sets out specific design features to combat antisocial behaviour; suggests how floor space can be designed effectively and encourages local education authorities and schools to involve pupils in the design and management of the facilities to foster a sense of pride and ownership.

The required number of toilets in schools in England is set out in the Education (School Premises) Regulations 1999. Responsibility for applying the requirements of these regulations rests with local education authorities.

Schools and local education authorities should comply with the requirements of the School Premises Regulations and the HSE Workplace Regulations regarding hygiene and cleanliness then school toilet accommodation will be adequate. But these are minimum requirements and we want more than that which is why we issued the guidance last year.

In the first term of Government, the last 450 primary schools with outside toilets had them replaced. We are not aware of any remaining schools in England which only have access to outside toilets.

We do not hold survey records on the provision of school toilets but we are confident that local education authorities will have assessed their toilet accommodation as part of asset management planning and together with the schools will have remedied most inadequacies by now.

The bulk of schools capital is allocated by formula to authorities and schools so that they can address their local asset management planning priorities, including the upgrading of toilet and washroom facilities. Research on the use of devolved formula capital shows that around a fifth of schools have improved toilets each year from 2003-04 to 2006-07.

Central Government capital support for investment in schools has increased from under £700 million in 1996-97 to £6.7 billion in 2008-09 and will rise further to £8.0 billion by 2010-11. Progress is being made year-by-year in improving the quality of the school building stock. Given the high levels of funding, authorities have the opportunity to upgrade toilets.

At present we are reviewing the School Premises Regulations and will consult on them in due course.

Schools: Sports

Hugh Robertson: To ask the Secretary of State for Children, Schools and Families (1) when the Steering Group for the PE, School Sport and Club Links Strategy last met; and what future meetings are planned; [217524]

(2) if he will make his policy to involve the Association for Physical Education in the delivery of the National School Sport Strategy. [217573]

Kevin Brennan *[holding answer 10 July 2008]:* Through their membership of the consortium contracted to deliver the PE and Sport Professional Development Programme, AfPE continue to be involved in delivering the national PE and Sport Strategy for Young People. The programme manager also has bi-lateral meetings with AfPE on a regular basis.

The last meeting of the PE, School Sport and Club Links Delivery Board was held on 18 January. Since then, new governance arrangements for overseeing the delivery of the new PE and Sport Strategy for Young People have been introduced. Within these new arrangements, the last monthly Management Board was held on 17 June.

Secondary Education: Standards

Michael Gove: To ask the Secretary of State for Children, Schools and Families which National Challenge schools are *(a)* academies, *(b)* foundation schools and *(c)* Fresh Start schools. [217628]

Jim Knight: Information about schools with published results where fewer than 30 per cent. of pupils achieved at least five good GCSEs including English and mathematics in 2007 is in the following tables:

(a) Academies

The Barnsley Academy	Barnsley
The Business Academy Bexley	Bexley
Capital City Academy	Brent
The City Academy Bristol	Bristol, City of
West London Academy	Ealing
Greig City Academy	Haringey

Teachers

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 25 June 2008, *Official Report*, column 414W, on teachers, what information his Department holds on the number of newly qualified teachers teaching in secondary schools as a proportion of all teachers in each of the last 10 years. [217494]

Jim Knight: The following table provides the number of newly qualified teachers in full-time regular service in local authority maintained secondary schools in England as a proportion of all teachers in similar service in each year from 1997 to 2006, the latest information available.

Newly qualified teachers in full-time regular service as a percentage of all full-time qualified teachers in service: Coverage local authority maintained secondary schools in England—Years March 1997 to 2006

	Newly qualified teachers (Percentage)
1997	4.6
1998	4.9

Newly qualified teachers in full-time regular service as a percentage of all full-time qualified teachers in service: Coverage local authority maintained secondary schools in England—Years March 1997 to 2006

	Newly qualified teachers (Percentage)
1999	4.6
2000	4.6
2001	4.7
2002	5.1
2003	6.0
2004	6.7
2005[1]	6.7
2006[1]	7.1

[1] Provisional.

Note:
Newly qualified teachers are those who are recorded as acquiring qualified teacher status in the calendar year prior to that where they are recorded in service.

Source:
Database of Teacher Records

Teachers: Age

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families (1) what the average age of a teacher was *(a)* in 1997 and *(b)* at the latest date for which figures are available; [217998]

(2) what the average length of time was that a teacher had spent in the profession *(a)* in 1997 and *(b)* at the latest date for which information is available. [218002]

Jim Knight: The following table provides the average age and length of service of full-time regular qualified teachers in service in local authority maintained schools in England in March 1997 and 2006, the latest information available.

Average age and length of service[1], in years, of full-time regular qualified teachers: Coverage local authority maintained sector schools in England—March 1997 and 2006

	Age	Length of service
1997	41.0	14.3
2006[2]	40.9	13.5

[1] Length of service is the total length of teachers service recorded in the source data and may include service completed outside of the English maintained sector.
[2] Provisional.

Source:
Database of Teacher Records.

Teachers: Vacancies

John Battle: To ask the Secretary of State for Children, Schools and Families how many *(a)* primary and *(b)* secondary school teacher vacancies there were in (i) Leeds West constituency, (ii) Leeds Metropolitan District and (iii) England in each of the last five years. [218029]

Jim Knight: Information is available for teacher vacancies for individual local authorities but not by constituency. The following table provides the number of full-time vacancies in Leeds local authority and England for each year from 2003 to 2008 where available. Vacancy numbers and rates for 2008 by local authority, including Leeds, are expected to be published in September.

Full-time vacancies[1] in local authority maintained nursery/primary and secondary schools, January of each year: Coverage—England and Leeds local authority years 2003-08

	Leeds LA		England	
	Nursery/ Primary	Secondary	Nursery/ Primary	Secondary
2003	9	23	1,114	2,050
2004	5	34	778	1,627
2005	2	20	743	1,553
2006	6	8	709	1,340
2007	0	0	658	1,214
2008[2]	[3]—	[3]—	872	1,471

[1] Advertised vacancies for full-time permanent appointments (or appointments of at least one terms duration). Includes vacancies being filled on a temporary basis by a teacher with a contract of less than one term.
[2] Provisional.
[3] Not available.

Note:
Excludes city technology colleges and academies.

Annual survey of teachers in service and teacher vacancies, 618g

Truancy: Gloucestershire

Mr. Drew: To ask the Secretary of State for Children, Schools and Families what the percentage was of pupils in secondary education in Gloucestershire was classed as persistent absentees in each year for which figures are available, broken down by school. [217715]

Kevin Brennan: The first year for which information on persistent absentees is available relates to 2005/06 and covers secondary schools only. In 2006/07 the scope of collection also extended to primary and special schools.

Local level information on the percentage of persistent absentees in secondary schools in 2005/06 and 2006/07 has been published in Table 7.2 of the Statistical First Release: Pupil Absence in Schools in England at

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000775/index.shtml

School level absence data are published as part of the Achievement and Attainment Tables, which can be found at

http://www.dcsf.gov.uk/performancetables/.

However, the inclusion of a persistence absence rate is a new indicator that will be available in 2008 tables.

The requested information for 2005/06 and 2006/07 could be provided only at disproportionate costs.

Writing

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what guidance his Department has issued on the teaching of handwriting in the last five years; and if he will make a statement. [217686]

Jim Knight: Through the National Strategies this Department has produced the following guidance on handwriting for schools in the last five years:

Support materials—Developing Early Writing May 2001—have been provided to schools. Additional materials will be provided in January 2009 to schools which link spelling and handwriting.

Primary Framework October 2006: A strand of the Primary Framework for Literacy is dedicated to presentation skills, including handwriting. This provides objectives for every year group from Reception to Year 6.

Letters and Sounds April 2007: Our phonics resource, Letters and Sounds, contains general guidance on the teaching of handwriting to young children.

The primary framework assessment section—January 2008—also contains exemplification of writing through Levels 2-5.

These materials are for guidance and how to teach handwriting, including when to introduce a joined-up script, remains a school based decision. There is no nationally prescribed scheme and no requirement to teach a particular style or script.

Youth Services: Advisory Bodies

Michael Gove: To ask the Secretary of State for Children, Schools and Families if he will place in the Library a copy of the protocol for joint working on the Youth Board, developed by his Department and the Ministry of Justice. [217056]

Beverley Hughes: The Machinery of Government changes in June 2007 gave the Department for Children, Schools and Families and the Ministry of Justice joint responsibility for youth justice. The Management Statement and Financial Memorandum, which sets out the framework within which the Youth Justice Board and the Departments will operate, is being redrafted. A copy will be placed in the House Library when it is available.

Written Answers to Questions

Wednesday 16 July 2008

ELECTORAL COMMISSION COMMITTEE

Departmental Publications

Robert Neill: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission, how many consultation or issues papers the Electoral Commission published in *(a)* March, *(b)* April and *(c)* May 2008. [219064]

Sir Peter Viggers: The Electoral Commission informs me that it published three consultation papers in March:

The registration of party descriptions (deadline for responses: 13 June 2008);

Performance standards for Electoral Registration Officers in Great Britain (deadline for responses: 26 June 2008);

Structure of Electoral Administration in the UK (deadline for responses: 23 May 2008).

The Commission published no consultation or issue papers in April or May.

Elections: Local Government

Robert Neill: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission, which local authority election counts the Chairman of the Electoral Commission visited in May 2008. [219145]

Sir Peter Viggers: The Electoral Commission informs me that the Chairman of the Commission attended two counts of the May 2008 elections: at West Oxfordshire district council and at London Olympia. In total, representatives of the Commission attended 46 counts.

HOUSE OF COMMONS COMMISSION

Electronic Publications

Dan Rogerson: To ask the hon. Member for North Devon, representing the House of Commons Commission, what consideration has been given to publishing electronic versions of Bill amendment papers in PDF format. [219192]

Nick Harvey: Material is placed on the parliamentary website primarily in HTML format, which is the preferred format for the web. PDF versions of documents are made available on the parliamentary website when it has not been possible or cost-effective to produce HTML versions; or in addition to HTML versions in response to particular and substantial demand and after consideration of any cost implications of doing so.

Bill amendment papers are currently available in HTML format and to date there has been no substantial demand for PDF versions.

SCOTLAND

Departmental Computers

Mr. Peter Ainsworth: To ask the Secretary of State for Scotland what estimate he has made of *(a)* the number of computer devices left on overnight in his Department when not in use and *(b)* the cost of leaving computer devices on overnight when not in use in each of the last five years; and if he will make a statement. [217875]

David Cairns: The Scotland Office shares an information technology system (SCOTS) with the Scottish Executive, which is responsible for the development, administration and maintenance of the system. The Office does not maintain records of devices left on overnight. However, the recent introduction of new software on SCOTS will ensure that desktop personal computers are automatically shut down each night and staff have been reminded of the need to switch off printers etc.

Departmental ICT

Bob Spink: To ask the Secretary of State for Scotland how many staff have access to his Department's IT infrastructure at their home. [216386]

David Cairns: The Scotland Office has five security devices for use with laptops that are available to staff and which provide access to the corporate IT network.

WALES

Roads: Accidents

Mrs. Gillan: To ask the Secretary of State for Wales how many recorded deaths from road traffic accidents there have been in Wales in each of the last five years. [218735]

Mr. Paul Murphy: While any road deaths are regrettable the number of fatalities in 2007, at 161, is 25 per cent. lower than the 1994-98 average of 213.

A table showing the last five years data is as follows:

Number of recorded road deaths in Wales 2003-07

	Fatalities
2003	173
2004	201
2005	180
2006	163
2007	161

OLYMPICS

Olympic Games 2012: West Midlands

Mr. Jim Cunningham: To ask the Minister for the Olympics what steps the Government plan to take to encourage children and young people in the West Midlands to participate in events that are part of the London 2012 Olympics. [218598]

Tessa Jowell: The Government and the London Organising Committee of the Olympic games and Paralympic games (LOCOG) are working to ensure that the benefits of 2012 reach across the UK and have established a Nations and Regions Group (NRG) to oversee this work. Further details about the NRG can be found at

http://www.london2012.com/about/the-people-delivering-the-games/the-nations-and-regions-group/index.php

The West Midlands Leadership Group for the 2012 games is represented on the Nations and Regions Group and leads the work of the region in delivering legacy benefits across sport, culture, volunteering, business and tourism. The Group is committed to encouraging young people to participate and since pre-bid has included among its members a representative from their Youth Parliament. (The NRG co-ordinator for the West Midlands is Tim Bryan, who can be contacted at Culture West Midlands, The Regional Partnership Centre, Albert House, Quay Place, Edward St., Birmingham B1 2RA).

In the West Midlands, schools have already started using material from LOCOG's London 2012 education programme, which all schools, colleges and local authorities will have the opportunity to participate in. 20 primary schools from Stoke on Trent prepared flags, mascots and banners for an opening ceremony festival, and children from the region competed in a series of sporting and cultural events at Stafford Sports college.

35 cultural events will be taking place in the West Midlands over the Handover and Cultural Olympiad launch weekends in September. In addition, the West Midlands Legacy Trust has developed a programme of dance and community events aimed at young people who will develop new skills by staging and taking part in their own community-based games. Young people from the West Midlands will also have the opportunity to be among the 70,000 volunteers needed to help run the games in London.

NORTHERN IRELAND

Departmental Pay

Dr. Cable: To ask the Secretary of State for Northern Ireland how many and what proportion of staff in his Department received bonus payments in each of the last five years; what the total amount of bonuses paid has been; what the largest single payment was in each year; and if he will make a statement. [213299]

Mr. Woodward: The Department operates two types of bonus scheme—special bonus (to reward staff for additional contribution, e.g. innovation and improvement, project work), and end of year bonus (to reward staff for performance and delivery throughout the year).

Figures for the last five years are set out in the following table.

£

	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Special bonuses					
Number of staff	779	575	713	685	891
Proportion	44.5	31.6	37.3	32.9	42.9
Total amount (£)	98,705	112,150	153,443	151,558	174,882
Largest payment (£)	600	600	750	1,000	1,100
End of year bonuses					
Number of staff	30	1,670	1,731	292	324
Proportion	1.7	91.9	90.7	14.0	15.6
Total amount (£)	132,300	362,930	476,299	502,667	557,000
Largest payment (£)	10,400	10,080	12,000	11,000	20,000

The Northern Ireland Office pays end-year bonuses for SCS staff in accordance with the Cabinet Office framework. In respect of 2002-03, only SCS staff received non- consolidated bonuses. Grade A and below received fully consolidated rises in this year. The Department established an end-year non-consolidated bonus scheme for Grade A and below in the 2003-04 reporting year, rewarding three levels of performance. From the 2005-06 reporting year this scheme was amended and is now targeted at exceptional performance. The figures relate to the reporting year but bonuses are paid in the following financial year.

In a previous answer given to the hon. Gentleman on 21 June 2007, *Official Report*, column 2050W, in respect of the number of bonuses paid and the value of the bonus pot in 2005-06, the number of individuals who received a bonus is lower (staff may receive more than one bonus in a year). The bonus pot in 2005-06 was not fully utilised so the figures have been amended accordingly.

For clarity, the special bonus figures and end year bonuses have been separated.

Young Offenders: Prisons

Mark Durkan: To ask the Secretary of State for Northern Ireland how many children under the age of 18 years are detained in adult prisons in Northern Ireland in each of the last 10 years. [218597]

Paul Goggins: All males under 18 years are held in the separate Young Offenders Centre.

Females under 18 years have been held with females over 18 years, initially in Mourne House at Maghaberry and then since 20 June 2004 at Ash House in Hydebank Wood prison. Precise figures prior to June 2004 could be obtained only at disproportionate cost. The number of females committed to Hydebank Wood prison is as follows:

	Number
2008 (to 11 July)	2
2007	3
2006	8
2005	10
2004	6

Following an amendment to the Criminal Justice (Children) NI Order 1998, since 7 June 2008 all females aged 17 or under are detained at Woodlands Juvenile Justice Centre.

Young Offenders: Reoffenders

Mark Durkan: To ask the Secretary of State for Northern Ireland what the *(a)* re-offending rate and *(b)* breach of condition rate of young offenders participating in youth justice conferences was in each of the last three years. [218588]

Paul Goggins: The information is as follows:

(a) The only re-offending information currently available relates to 2005 one-year re-offending rates. Youth conferencing had an overall re-offending rate of 38.4 per cent. For court ordered and diversionary youth conferences, the rates were 44.3 per cent. and 30.7 per cent. respectively.

(b) The proportion of young offenders who have had their youth conference orders revoked for non-compliance or their diversionary youth conference plans terminated due to non-compliance is as follows:

	Percentage
2005	8
2006	5
2007	5

Young Offenders: Reparation By Offenders

Mark Durkan: To ask the Secretary of State for Northern Ireland what the average length of time between a court recommending a youth justice conference, and the conference taking place, was in each of the last three years. [218589]

Paul Goggins: The average length of time between the court recommending a youth conference and the conference taking place in each of the last three years was as follows:

	Days
2005	26
2006	29
2007	36

The figures provided are calendar days and not working days.

WOMEN AND EQUALITY

Departmental ICT

Bob Spink: To ask the Minister for Women and Equality how many staff have access to the Government Equality Office's IT infrastructure at their home. [216381]

Barbara Follett: As befits its policy agenda, the Government Equalities Office is keen to ensure that its staff can adopt flexible working patterns, providing business needs are met. Some 90 staff work in the GEO and its Ministers' Private Offices. All staff are, in theory, able to work from home and any request to do so is subject to agreement with managers on a case-by-case basis and to the availability of a limited number of laptops. In practice, 25 staff have been taking occasional advantage of this opportunity, usually for a day at a time. Staff use encrypted laptops when working from home and typically access the IT infrastructure by a broadband connection. Six staff in GEO have Blackberries and can use these for e-mail when they are at home.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Cryptography: Zimbabwe

Harry Cohen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many export licences were granted by his Department for the export of cryptography equipment including cryptography software to Zimbabwe in 2007; to which company each was granted; what the value of goods permitted to be exported under each such licence was; and who the end-user was in each case. [217000]

Malcolm Wicks: In 2007, two export licences, with a total value of £836,870, were granted for the export to Zimbabwe of cryptography equipment and software on the Dual Use list.

Export licence applications are made to the Government in confidence. The information they contain, including the name of the company to whom the licence was granted, the identity of the end-user, and the value of goods permitted for export under each individual licence, cannot therefore be disclosed.

Data Protection: Internet

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent action the Government has taken to ensure that internet users are not sharing personal information to online companies and third parties without their consent. [206174]

Malcolm Wicks *[holding answer 19 May 2008]:* My right hon. Friend the Prime Minister asked Richard Thomas, the Information Commissioner, and Dr. Mark Walport to conduct a consultation on the use and sharing of personal information in the public and private sectors as part of their independent Data Sharing Review.

The review team is now analysing the results from the consultation exercise and the report will consider whether there should be any changes to the way the Data Protection Act 1998 operates in the UK and the options for implementing any such changes. The report will include recommendations on the powers and sanctions available to the regulator and courts in the legislation governing data sharing and data protection. It will also make recommendations how data sharing policy should be developed in a way that ensures proper transparency, scrutiny and accountability. My right hon. Friend the Lord Chancellor and Secretary of State for Justice will publish the report later in the year.

The Data Protection Act gives citizens the right to know what information is held about them and sets rules to make sure organisations handle their personal information properly. The Privacy and Electronic Communications Regulations set out rules for people who wish to send electronic direct marketing, for example e-mails and text messages. The Government and the Information Commissioner's Office (ICO) keep legislation under review in the light of ever-increasing technological changes in the field of data protection.

For example on the matter of Phorm, the ICO made a statement on 3 March that it was in discussion with Phorm about the nature of its service and the way it uses information about Internet Service Provider customers. My noble Friend the Minister for Business and Competitiveness has met BT which intends to run a trial using Phorm's service involving around 10,000 broadband users in the near future. The ICO has discussed the trial with the relevant parties and BT has made it clear that, unless customers positively opt in to the trial, their web browsing will not be monitored for subsequent delivery of advertisements. The ICO will maintain close contact with Phorm and BT throughout the trial. It is important that people's privacy is protected, and the ICO, Phorm and BT are all committed to ensuring that any use of Phorm is compatible with the relevant privacy legislation.

Fuel Poverty

Steve Webb: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department has spent on measures to alleviate fuel poverty since 2000, broken down by *(a)* initiative and *(b)* vulnerable group as defined in the Fuel Poverty Strategy. [218591]

Malcolm Wicks *[holding answer 14 July 2008]:* Funding within Government for fuel poverty measures principally lies with the Department for the Environment, Food and Rural Affairs. BERR has provided £2 million to fund a pilot project to test the scope for community-based schemes to address fuel poverty in partnership with the Regional Development Agencies in North-East England and Yorkshire and Humberside. This will provide high value measures to 4,000 households in 20 communities in each region. I recently announced funding of £3 million for a further pilot project under the Low Carbon Buildings programme. This will provide microgeneration technologies to deprived households on a community basis. Both of these projects, which focus only on communities with high levels of multiple deprivation, are designed to assist low-income households, including vulnerable fuel poor households.

Internet: Security

Mrs. James: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent discussions he has had with internet service providers on internet tracking services and security online. [200292]

Malcolm Wicks: The Department has regular meetings with internet service providers (ISPs) at which a wide range of topics are raised and discussed. On internet tracking services, Ministers have had discussions with one provider on this matter.

The statement of 18 April from the Office of the Information Commissioner (ICO) notes that the Information Commissioner has been approached by a number of individuals and organisations for a view on Phorm's Webwise and Open Internet Exchange (OIX) products. The statement is at:

http://www.ico.gov.uk/Home/about_us/news_and_views/current_topics/phorm_webwise_and_oie.aspx

It is important that people's privacy is protected, and the ICO are committed to ensuring that any use of Phorm is compatible with the relevant privacy legislation.

Members: Constituents

Mrs. James: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will investigate the delay in payment of compensation to the constituent of the hon. Member for Swansea East, Mr Alan Thorpe, ref. T.J.R. 30599/3/SC. [218306]

Malcolm Wicks: The information requested is confidential to the constituent. However, I will write separately to my hon. Friend with an update in respect of her constituent's coal health compensation claim.

Mrs. James: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will investigate the delay in compensation for respiratory disease for the constituent of the hon. Member for Swansea East, Mr Hywel Jones, in relation to the late David Morris Jones, claim no. 755731. [218307]

Malcolm Wicks: The information requested is confidential to the constituent. However, I will write separately to my hon. Friend with an update in respect of her constituent's coal health compensation claim.

Nuclear Power Stations

Mr. Morley: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which nuclear power stations have been *(a)* out of commission and *(b)* stopped for repairs since January 2007. [217580]

Malcolm Wicks: The Department does not publish data on the operational status of individual nuclear stations. Data on recent historic nuclear generation unavailability are published in the "National Grid Winter Consultation Report" which is available at:

http://www.nationalgrid.com/NR/rdonlyres/4B475A5CD41A4039908930B282276577/26306/WinterOutlookConsultationReportJune2.pdf

Nuclear Power Stations: Investment

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what expenditure his Department incurred in organising and hosting the investor conference for new nuclear build held on 12 June 2008. [210736]

Malcolm Wicks: The budget for organising and hosting the Nuclear Investors' Conference was £194,123. I expect final expenditure to be slightly below this.

TRANSPORT

Aircraft

Norman Baker: To ask the Secretary of State for Transport what the most commonly used model of aircraft for domestic flight routes in the UK is. [218509]

Jim Fitzpatrick: The most commonly used model of aircraft for domestic flight routes in the UK in 2007 was the Airbus A319.

Airports: Security

Mr. Brazier: To ask the Secretary of State for Transport what restrictions apply to liquids carried in carry-on hand baggage prior to passing security checkpoints at *(a)* Heathrow, Stansted and Gatwick and *(b)* all other UK airports. [218830]

Jim Fitzpatrick: Passengers may carry small quantities of liquids, but only within separate containers each of which with a capacity not greater than 100 ml. These containers must be contained in a single, transparent, re-sealable plastic bag which itself must not exceed 1 litre in capacity (approximately 20 cm x 20 cm). The contents of the plastic bag must fit comfortably and the bag sealed. Each passenger may carry only one such bag of liquids. These regulations are applicable at all UK airports.

Aviation

Stephen Hammond: To ask the Secretary of State for Transport how many commercial passenger flights there were between London Heathrow Airport and *(a)* Birmingham, *(b)* Manchester, *(c)* Edinburgh and *(d)* Glasgow in each of the last three years. [217770]

Jim Fitzpatrick: The following table shows the number of commercial passenger flights between London Heathrow airport and Birmingham, Manchester, Edinburgh and Glasgow in each of the last three years.

Commercial passenger flights between London Heathrow and Birmingham, Edinburgh, Glasgow and Manchester

Thousand

	2005	*2006*	*2007*
Birmingham[1]	—	—	—
Edinburgh	14.1	13.0	12.8
Glasgow	13.1	11.9	11.6
Manchester	12.5	11.2	10.3

[1] There are no flights between London Heathrow and Birmingham.

Source:
DFT analysis of Civil Aviation Authority data.

Norman Baker: To ask the Secretary of State for Transport what the average load factor was for domestic flights in each year since 1997. [218359]

Jim Fitzpatrick *[holding answer 14 July 2008]:* The following table shows the average load factor for domestic flights in each year since 1997.

Average load factor for domestic flights[1] 1997-2007

	Passenger seat occupancy (percentage)
1997	64.2
1998	62.1
1999	60.7
2000	64.9
2001	61.8
2002	65.9
2003	70.4
2004	67.9
2005	65.0
2006	65.9
2007	65.1

[1] Major UK airlines, excluding sub-charter operations performed on behalf of UK airlines.

Civil Aviation Authority (CAA) UK airline statistics

Aviation: Luggage

Mr. Brazier: To ask the Secretary of State for Transport pursuant to the answer of 30 June 2008, *Official Report*, columns 564-65W, on aviation: luggage, which airports have received permission to relax the one bag rule. [218850]

Jim Fitzpatrick: The airports which have received permission to lift the restriction are Aberdeen, Belfast International, Benbecula, Biggin Hill, Birmingham, Bournemouth, Blackpool, Bristol, Cambridge, Cardiff, City of Derry, Coventry, Dundee, Durham Tees Valley, East Midlands, Edinburgh, Exeter, Farnborough, Filton, Gatwick, George Best Belfast City, Glasgow, Gloucestershire, Guernsey, Hawarden, Heathrow, Humberside, Inverness, Islay, Isle of Man, Jersey, Kent International, Kirkwall, Leeds Bradford, London City, Manchester, Newcastle, Newquay Cornwall, Norwich, Plymouth, Prestwick, Robin Hood, Southampton, Southend, Stansted, Stornoway, Sumburgh, Tiree, Warton and Wick.

Aviation: Passengers

Stephen Hammond: To ask the Secretary of State for Transport how many passengers took flights from London Heathrow Airport to *(a)* Birmingham, *(b)* Manchester, *(c)* Edinburgh and *(d)* Glasgow in each of the last three years. [217771]

Jim Fitzpatrick: The following table shows the number of passengers who took flights from London Heathrow airport to Birmingham, Manchester, Edinburgh and Glasgow in each of the last three years.

Passengers from London Heathrow to Birmingham, Edinburgh, Glasgow and Manchester

Thousand

	2005	*2006*	*2007*
Birmingham[1]	—	—	—
Edinburgh	834	752	724
Glasgow	715	642	603
Manchester	642	555	494

[1] There are no flights between London Heathrow and Birmingham.

Source:
DFT analysis of Civil Aviation Authority data.

Departmental Compensation

Mr. Hayes: To ask the Secretary of State for Transport what the 10 highest payments made by her Department were under property compensation cases brought against it over the last 12 months for which figures are available; which of the cases were *(a)* contested and *(b)* uncontested by her Department; and what the nature of each incident was. [216710]

Jim Fitzpatrick: In the last 12 months, the 10 highest payments made by the Highways Agency, on behalf of the Secretary of State for Transport, were:

	£
Acquisition under compulsory purchase order	3,330,000.00
Acquisition under compulsory purchase order	1,640,419.00
Acquisition under compulsory purchase order	1,614,666.60
Acquisition under compulsory purchase order	1,350,000.00
Acquisition under compulsory purchase order	1,296,360.00
Acquisition under compulsory purchase order	859,851.63
Acquisition following service of a blight notice	783,250.00
Acquisition under compulsory purchase order	683,156.10
Acquisition under compulsory purchase order	675,000.00
Acquisition under compulsory purchase order	495,000.00

All payments arise out of claims for compensation for the acquisition or temporary use of land required for the construction of a new or altered highway. The amount of each payment was determined in accordance with the 'Compensation Code' (made up of statute, case law and established practice) and agreed with the affected landowner following negotiations with the Highways Agency's independent valuer. None of the claims were contested in the Lands Tribunal.

Departmental Manpower

Mr. Redwood: To ask the Secretary of State for Transport what the change in the number of employees in her Department and its agencies has been since July 2006. [217067]

Jim Fitzpatrick: The central Department and its agencies recorded the following change between July 2006 and July 2008:

	Total
July 2006	18840.31
July 2008	18650.36
Change	-189.95

The Vehicle Certification Agency were unable to provide this data without incurring disproportionate cost.

Departmental Official Cars

Stephen Hammond: To ask the Secretary of State for Transport (1) which make and model of car is provided for the Leader of the House of Lords by the Government Car and Despatch Agency; [217749]

(2) what car the Government Car and Despatch Agency provides for the Parliamentary Secretary to the Treasury and Chief Whip; [217763]

(3) which make and model of car she has chosen as her Ministerial car to be provided by the Government Car and Despatch Agency. [217765]

Jim Fitzpatrick: The Prime Minister sets the criteria for cars for use by Ministers. Currently, Cabinet Ministers may choose either a diesel powered Jaguar XJ or a Toyota Prius hybrid. Other Ministers may also choose from a Toyota Prius, a Honda Civic hybrid or any other suitable car with a CO_2 emission of 185 g/km or less.

Departmental Pay

Mr. Redwood: To ask the Secretary of State for Transport what proportion of staff of her Department and its agencies did not receive the maximum bonus possible under a bonus scheme applying to them in the last two years. [217373]

Jim Fitzpatrick: The central Department and its agencies recorded the following proportion of employees who did not receive the maximum bonus applicable through their individual bonus schemes:

Financial period	*Percentage of employees receiving less than maximum bonus*
2006-07	80.46
2007-08	96.16

2007-08 figures do not include the Driving Standards Agency because their group incentive bonus has not yet been paid.

Departmental Retirement

Lynne Featherstone: To ask the Secretary of State for Transport what the standard retirement age in her Department is; and how many people worked beyond the standard retirement age in each of the last five years. [214124]

Jim Fitzpatrick: The standard retirement age in the Department for Transport is 65. Prior to 2006 the standard retirement age was 60. The numbers of staff that worked beyond the standard retirement age in each of the last five years is as follows:

	Standard retirement age	*Staff working beyond standard retirement age*
2008	65	141
2007	65	155
2006	65	145
2005	60	771
2004	60	[1]358

[1] The figure for staff working beyond the standard retirement age in 2004 excludes staff working in the Driving Standards Agency. Due to a change of system in the agency in that year a reliable figure is not available.

Departmental Travel

Stephen Hammond: To ask the Secretary of State for Transport for how many miles of car travel staff in her Department claimed expenses in each of the past three years. [217608]

Jim Fitzpatrick: The Department for Transport and six of its agencies recorded staff car mileage as contained in the following table:

	2005-06	*2006-07*	*2007-08*
VCA	337,063	285,566	325,107
MCA	776,622	863,488	652,072
HA	2,689,030	2,415,254	2,040,147
DSA	—	5,585,147	5,545,335
VOSA	6,800,000	6,200,000	5,800,000
DVLA	1,214,625	1,416,763	1,885,215
DfT	299,996	473,298	230,499
Total	12,117,336	17,239,516	16,489,863

The information for GCDA could only be provided at disproportionate cost. DSA only began recording mileage figures in 2006-07. Information for the previous year could only be provided at disproportionate cost.

Government Car and Dispatch Agency: Tolls

Stephen Hammond: To ask the Secretary of State for Transport how much the Government Car and Dispatch Agency has spent on the London congestion charge in the last financial year. [217774]

Jim Fitzpatrick: The Government Car and Despatch Agency paid a total of £109,538 in congestion charges in 2007-08.

Heathrow Airport: Public Participation

Dr. Cable: To ask the Secretary of State for Transport how many letters and other representations were received by her Department in the course of the consultation process Adding Value at Heathrow; and what proportion of the reply letters sent out by the Heathrow Consultation Team stated that it would not be possible to provide the answers to the individual issues raised. [212756]

Jim Fitzpatrick *[holding answer 23 June 2008]:* Over 65,000 responses have been received to the 'Adding Capacity at Heathrow Airport' consultation. These included responses received as letters, emails, postcards and response forms, sent either direct to the Department or to the designated freepost address of our response handling agents.

A number of the responses received by the Department asked questions relating to the consultation issues and we replied to 229 stating that "it will not be possible to provide you with answers to the individual issues raised". However, all responses have been carefully analysed and the report on this will be made available alongside ministerial decisions, which are expected later this year. These decisions will take account of all the evidence, including responses to the consultation.

Heathrow Airport: Security

Stephen Hammond: To ask the Secretary of State for Transport pursuant to the answer of 17 June 2008, *Official Report*, column 791W, to the hon. Member for Chipping Barnet, on Heathrow airport: security, how many times her Department has conducted *(a)* announced and *(b)* unannounced security inspections and audits (i) prior to and (ii) since the opening of Heathrow Terminal 5; and what the date was of each inspection and audit. [217522]

Jim Fitzpatrick: The Department monitors the level of compliance through its programme of regular inspections and audits. This activity is predominantly unannounced inspectors seek corrective action from industry where appropriate. We worked closely with Heathrow airport in the lead up to the opening of T5, and have undertaken regular monitoring activity since passenger flights commenced. However, it would not be appropriate to discuss the details of this activity.

Motor Vehicles: Greater London

Sarah Teather: To ask the Secretary of State for Transport how many cars were registered in each London borough in each of the last 10 years. [219057]

Jim Fitzpatrick: A table showing the numbers of licensed cars registered in each London borough in each of the last 10 years has been placed in the Libraries of the House.

Motor Vehicles: Registration

Stephen Hammond: To ask the Secretary of State for Transport how many drivers in England are using a foreign licence. [217606]

Jim Fitzpatrick: The requested information is not held.

Personal Injury

Mr. Hayes: To ask the Secretary of State for Transport what the highest 10 payments made by her Department in settlement of personal injury claims brought against it were over the last 12 months for which figures are available; which of those cases were *(a)* contested and *(b)* uncontested by the Department; and what the nature of the incident was in each case. [216678]

Jim Fitzpatrick: The highest 10 payments made by the Department for Transport in settlement of personal injury claims over the last 12 months were as follows:

Nature of incident	*Contested Yes/No*	*Settlement amount (£000)*
Trip/fall injury to employee while at work	Yes	135
Road traffic accident injury due to flooding	Yes	125
Road traffic accident injury due to flooding	Yes	105
Fall injury to employee	Yes	57
Asbestos related injury. Exposure occurred in 1965 to 1975	Yes	50

Nature of incident	Contested Yes/No	Settlement amount (£000)
Mechanical handling injury to employee	Yes	23
Slip injury to employee	Yes	22.5
Mechanical failure injury to employee	Yes	21
Road traffic accident – collision	Yes	15
Work place injury	Yes	12

Notes:
1. These figures exclude the costs reimbursed to the claimants.
2. No claim was paid without first obtaining relevant evidence and negotiating a settlement figure.

Ports: Wales

Mrs. Gillan: To ask the Secretary of State for Transport how much Government funding has been allocated to each port in Wales in each of the last five years. [218734]

Jim Fitzpatrick: None. In general, ports in England and Wales operate in a competitive market without need for Government funding.

Road Traffic Offences: Cameras

Mr. Harper: To ask the Secretary of State for Transport pursuant to the answer of 1 July 2008, *Official Report*, column 746W, on traffic offences: cameras, if she will issue guidance to local authorities; and what her policy is on footage being made available on the internet. [219394]

Ms Rosie Winterton: Making traffic camera footage available over the internet is a matter for the relevant local authority. The Department for Transport has no plans to issue guidance to local authorities on this subject.

Roads: Safety Measures

Roger Berry: To ask the Secretary of State for Transport if she will urge local authorities to stop the introduction of shared surfaces schemes until the completion of her Department's research in this area. [218856]

Ms Rosie Winterton *[holding answer 15 July 2008]*: We neither encourage nor discourage shared surfaces. We will reconsider this position in the light of evidence from wide-ranging research, which will take into account the work of others in this area. Our aim is to use the research findings to inform the preparation of a comprehensive guidance document on the design of shared surfaces.

Taxis: Vetting

Mr. Ruffley: To ask the Secretary of State for Transport what requirements there are for taxi licensing authorities to perform Criminal Records Bureau checks on applicants for taxi licences. [219043]

Ms Rosie Winterton: I refer to the answer I gave on 10 June 2008, *Official Report*, column 169W, to the hon. Member for Brent, East (Sarah Teather).

HOME DEPARTMENT

Animal Experiments

Mr. Hancock: To ask the Secretary of State for the Home Department what recent representations she has received on the necessity of acute toxicity studies in animals to ensure the safety of medicines prior to first clinical trials on humans; what plans she has to amend the conditions under which licences under the Animals (Scientific Procedures) Act 1986 are issued; and if she will make a statement. [218604]

Meg Hillier: We have received representation from the Dr. Hadwen Trust, and have taken note of the conclusions of the European pharmaceutical company initiative challenging the regulatory requirement for acute toxicity studies in pharmaceutical drug development reported in Regulatory Toxicology and Pharmacology 50 (2008) 345-352.

A recent review of the use of single dose acute toxicity studies in the UK confirms that single dose acute toxicity studies prior to first clinical use in humans is no longer routinely conducted. However, in some specific instances, it may be possible to justify such studies on a case-by-case basis; for example, prior to microdose studies in humans.

In view of this, and the fact that the conclusions of the European pharmaceutical company report largely reflects current UK practice, I see no need and have no plans to amend the conditions under which project licences for the purpose of conducting regulatory toxicology and safety evaluation studies have been granted under the Animals (Scientific Procedures) Act 1986.

Animal Experiments: Primates

Mr. Hancock: To ask the Secretary of State for the Home Department if she will introduce legislative proposals to prohibit the use of great apes for experimental and other scientific purposes, in the context of the revision of Directive 86/609 ECC; and if she will make a statement. [218151]

Meg Hillier: We have no plans to do so. It is too early to say what changes may be required to United Kingdom legislation before a proposal for a revised directive 86/609/EEC has been published and adopted. Great apes have never been used as laboratory animals under the Animals (Scientific Procedures) Act 1986 and in 1997 we gave a commitment that we will not allow their use in the future. That remains our position.

Animal Experiments: Statistics

Mr. Hancock: To ask the Secretary of State for the Home Department pursuant to the answer of 19 February 2008, *Official Report*, column 587W, on statistics of scientific procedures on living animals, what progress has been made on the project to make her Department's RDSD database searchable by the public. [218812]

Meg Hillier: The Home Office is continuing to look at ways to improve the search facility across the departmental website and this may provide additional

tools to improve the searchability of the abstracts database. For the longer term, work currently under way to improve the project licence application process under the Animals (Scientific Procedures) Act 1986 will also look at improvements to project licence abstracts. Other work in hand aimed at providing improved IT support for the licensing process will also provide an opportunity to seek ways to improve their searchability.

Criminal Records

Mr. Ruffley: To ask the Secretary of State for the Home Department how many and what proportion of people whose details are recorded on the Criminal Records Bureau database have not been charged, convicted of or otherwise received a penalty or sanction in relation to a criminal offence; and how many such people are aged 16 years or under. [219037]

Meg Hillier: In processing disclosure applications the Criminal Records Bureau (CRB) collates information which is held, owned and maintained by the police service, the Department for Children Schools and Families and the Department of Health respectively. Therefore, the CRB database does not hold the information requested.

Criminal Records Bureau

Mr. Ruffley: To ask the Secretary of State for the Home Department how many organisations submitted tenders to operate the Criminal Records Bureau contract when it was last renewed; and when the contract is next due to be renewed. [219163]

Meg Hillier: The contract with Capita Group plc to operate the Criminal Records Bureau (CRB) information systems is next up for renewal on 11 March 2012.

In June 1999, following a tendering exercise, 95 organisations expressed an interest in joining a partnership arrangement with the CRB. In December 1999, it was announced that Capita Group plc, PricewaterhouseCoopers and eCRES were the short-listed bidders.

On 20 July 2000 the CRB announced that Capita Group plc had been selected as its private sector partner in the public private partnership to operate the Bureau, and the main agreement signed on 3 August 2000.

Criminal Records: Cooperation

Mr. Ruffley: To ask the Secretary of State for the Home Department what percentage of records of offences committed outside the United Kingdom held by the UK Central Authority were made available to the Criminal Records Bureau (CRB) and used in CRB disclosures in the most recent period for which figures are available; whether there are data on categories of offences held by the UK Central Authority which may not be passed to the CRB for use in its disclosures; and whether she plans to introduce proposals to make all records of crimes and offences held by the UK Central Authority available to *(a)* the CRB and *(b)* other law agencies. [219152]

Meg Hillier: I refer the hon. Member to my written answer of 9 June 2008, *Official Report*, columns 72-73W.

Passports: Theft

Mr. David Hamilton: To ask the Secretary of State for the Home Department what steps her Department has taken to prevent the sale of stolen passports. [217421]

Meg Hillier: The Identity and Passport Service provides, on a regular basis, details of all processed reports of lost, stolen and destroyed British passports to Interpol and the UK Border Agency. It also offers a passport validation service (PVS) to approved organisations that are subject to UK money laundering legislation. PVS enables these organisations to confirm that a British passport, which is presented by the holder to support a transaction, is current and has not been reported lost, stolen or recovered. When applications for passport renewals are received by IPS, there is an automatic check that the expiring passport has not previously been reported lost or stolen. Steps such as these reduce the value of stolen British passports, because they are more likely to be identified should they be used to operate financial services to enable travel or to be used to obtain a new passport in a false identity. This reduces the value and hence demand/sales of lost and stolen British passports.

Schengen Agreement: ICT

Mr. Hayes: To ask the Secretary of State for the Home Department what the UK's participation in the Schangen SISNet system is. [217984]

Meg Hillier: SISNet is the established communication infrastructure for the Schengen Information System (SIS), enabling communication between the member states and the central system (C-SIS). Although the UK is not connected to the current SIS, we have established access to SISNet, which provides the technical capacity to receive communication from other member states.

Vetting: Fees and Charges

Mr. Ruffley: To ask the Secretary of State for the Home Department (1) whether payments are required for each Criminal Records Bureau check on an individual seeking to perform one or more roles during the same time period within the same geographical area; [219167]

(2) for what reasons the results of Criminal Records Bureau searches on individuals are not transferable between organisations in circumstances where the individual concerned has given consent. [219184]

Meg Hillier: Disclosures are primarily designed to be used by an employer at the point of recruitment for a particular position. Ultimately it is for each employer, and not the Criminal Records Bureau (CRB), to decide whether a new disclosure should be applied for, bearing in mind their legal and other responsibilities and subject to any statutory requirements.

There are a number of reasons why an employer may not wish to accept a disclosure that has been processed for a previous employment position, including:

The disclosure may not be at the right level (there are two different levels of CRB check; standard and enhanced);

The older a disclosure is the less reliable the information is, because the information it contains may not be up to date;

Information revealed through a CRB check reflects the information that was available at the time of its issue—a person may have committed a crime in the intervening period;

The disclosure process may also include a search to establish whether an individual is subject to a direction under section 142 of the Education Act 2002, or a check against the Protection of Children Act and Protection of Vulnerable Adults PoCA and PoVA) lists.

Each disclosure is specific to the circumstances of a particular job application and any decision to disclose any non-conviction information held by individual police forces is unique to that position.

Payment is required for each CRB check, regardless of whether an individual has had a previous disclosure. The CRB charges £31.00 for a standard disclosure and £36.00 for an enhanced disclosure. The CRB continues to process disclosure applications for volunteers free of charge.

All applications are processed individually and the fee was last prescribed in 2006. This is in accordance with part V of the Police Act 1997 (Criminal Records) Regulations 2002 which states that a disclosure shall be issued to any individual who makes an application in the prescribed format and pays the prescribed fee.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Drugs

Mr. Ellwood: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the volume of opium produced in Afghanistan in each of the last five years; and what proportion is estimated to have been produced in Helmand province in each such year. [218923]

Dr. Howells *[holding answer 15 July 2008]:* The UN Office on Drugs and Crime (UNODC) conducts annual surveys of poppy cultivation in Afghanistan. In the North and East of Afghanistan, where security, alternative livelihoods and governance are improving, poppy cultivation fell in 2007. The number of provinces free from poppy doubled from six to 13. In 2008, the Government of Afghanistan's target is for over half of all provinces to become poppy-free. While we remain concerned by sustained opium production figures in the insecure South, we welcome the UNODC's prediction that overall poppy cultivation will decrease slightly in 2008. We continue to work with the Afghan Government, donors and the North Atlantic Treaty Organisation to sustain success in the North and East and to target operations against the drugs trade in the South.

The data as follows are drawn from the UNODC surveys.

	Potential volume of opium produced in Afghanistan in the last five years (Tonnes)	*Potential volume of opium produced in Helmand province in the last five years*	
		Tonnes	*Percentage*
2007	8,200	4,399	54
2006	6,100	2,801	46
2005	4,100	1,004	24
2004	4,200	840	20
2003	3,600	684	19

Afghanistan: Stabilisation Unit

Mr. Ellwood: To ask the Secretary of State for Foreign and Commonwealth Affairs how many members of the Stabilisation Unit are working in Afghanistan. [218915]

Dr. Howells *[holding answer 15 July 2008]:* The Department for International Development, the Foreign and Commonwealth Office and the Ministry of Defence agreed in June that the unit should take on responsibility for recruiting, training and deploying all civilians in delivery roles in the Helmand Integrated Civilian/Military Mission (formerly the Helmand provincial reconstruction team—PRT) except the head and one of the deputies. This currently represents 37 of the 55 civilian posts. Of these, 22 are filled: six by core staff from the unit and 16 on contract. The remaining 15 posts have only recently been established and are under recruitment. The unit also provides a contracted civilian expert to the North Atlantic Treaty Organisation-led International Security Assistance Force's Regional Command (South) headquarters in Kandahar.

Departmental ICT

Pete Wishart: To ask the Secretary of State for Foreign and Commonwealth Affairs what the value of his Department's computer systems *(a)* was at the time of purchase and *(b)* is now. [214706]

Meg Munn: The Foreign and Commonwealth Office's fixed asset register currently shows, for items categorised as information systems, a total purchase cost of £135.4 million and a current gross value, before depreciation, of £110.7 million.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs how many of his Department's staff have access to the Department's IT infrastructure at home. [216374]

Meg Munn: Approximately 370 Foreign and Commonwealth Office (FCO) staff currently have access to secure facilities enabling comprehensive remote connection to the FCO's information technology infrastructure. A further 140 have been provided with a system providing more limited access.

Embassies: Festivals and Special Occasions

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs how many embassies and other posts held events to celebrate *(a)* St George's Day, *(b)* St Andrew's Day and *(c)* St Patrick's Day in the last 12 months. [219003]

David Miliband: According to the latest information available, during the last year, the number of our embassies and subordinate posts that held national saint's day events was:

	Number
St. George's Day	5
St. Andrew's Day	7
St. Patrick's Day	4

In addition to this, during the last year, the number of our embassies and subordinate posts overseas that publicised the national saints' days via their website and media contacts was:

	Number
St. George's Day	11
St. Andrew's Day	18
St. Patrick's Day	9

Embassies: Manpower

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 25 January 2008, *Official Report*, column 2309W, on embassies: manpower, how many UK-based staff his Department employs in each country overseas. [218646]

David Miliband: The number of UK-based civil servants employed by the Foreign and Commonwealth Office (FCO) in each country overseas is kept under constant review. It changes regularly as staff are redeployed to meet changing business priorities.

Some staff have regional roles and cover a number of countries in addition to the one in which they are based. Others are accredited to international organisations located in the country where they are based.

The figures in the table attached include all UK-based staff employed by, or seconded to, the FCO. The FCO's global network provides a platform to deliver for the whole of the Government. Staff serving other Government Departments, such as the Department for International Development or the Ministry of Defence in our Missions overseas, are not included.

Country	*UK based staff*	*Country*	*UK based staff*	*Country*	*UK based staff*

EU: Foreign Aid

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs what the *(a)* budget and *(b)* entertainment budget of EU missions overseas is in 2008-09. [217979]

Mr. Jim Murphy: The total budget allocated to our Diplomatic Missions in EU member states is £91.01 million for 2008-09, of which £1.93 million has been allocated for entertainment. This is a reduction in real terms from a budget of £86.28 million in 2007-08 but includes an increase of £11.5 million to compensate for exchange rate and inflationary pressures.

Fish

Mr. Peter Ainsworth: To ask the Secretary of State for Foreign and Commonwealth Affairs how much fish was procured by his Department and at what cost in each of the last five years, broken down by species; and what amount and value of such fish met the Marine Stewardship Council standard in each such year, broken down by species. [217883]

Meg Munn: The Foreign and Commonwealth Office (FCO) does not categorise expenditure to that degree of detail. The information is therefore not obtainable. M&J Seafood has recently become the sole fish supplier to the FCO's catering contractor, Director's Table. M&J Seafood is committed to responsible sourcing from well-managed and sustainable fisheries and actively promotes the use of under utilised species. M&J Seafood does not supply any species on the International Union for Conservation of Nature red list of endangered species and was the first company within the UK's food industry to offer Marine Stewardship Council approved products such as New Zealand hoki, wild Alaskan salmon and Cornish line-caught mackerel.

Furthermore, M&J Seafood supplies the 'Natural Choice' Shetland salmon which is certified by the Royal Society for the Prevention of Cruelty to Animals' farm assurance and food labelling scheme and fed with organic sustainable feed only.

Human Rights

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs by what means his Department alerts embassies and high commissions overseas to the tabling of parliamentary Questions on human rights issues. [217501]

Meg Munn: Where a parliamentary question on human rights is country or region specific, the relevant Foreign and Commonwealth (FCO) Office Desk, in consultation with our embassies and high commissions in the countries concerned, will provide a response. For parliamentary questions relating to human rights themes or the international human rights system more generally, the FCO's Human Rights, Democracy and Governance Group will provide a response consulting with relevant posts as necessary.

Languages

Mr. Ellwood: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff in his Department took second language training in each of the last five years; and what the five languages in which training was most frequently undertaken were. [218922]

Meg Munn *[holding answer 15 July 2008]:* During financial year 2004-05, 757 officers undertook language training. Information on which languages were studied is not available for this period.

During financial year 2005-06,754 officers undertook language training.

During financial year 2006-07, 567 officers undertook language training.

During financial year 2007-08, 441 officers undertook language training.

So far during financial year 2008-09, 135 officers are undertaking language training. The five languages most frequently studied so far this year, and in the previous three financial years, are French, Spanish, Russian, Arabic and Mandarin.

North Korea

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library a copy of the advice given by the United Kingdom on the recent Group of 6 talks in Beijing on relations with North Korea. [217507]

Meg Munn: The UK is not a member of the Six party talks process and has not been asked to advise those countries that are. We do, however, strongly support the process as the best mechanism for achieving verifiable denuclearisation of the Korean Peninsula. We welcome recent progress and stand ready to assist the Six parties.

North Korea: Forced Labour

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to his North Korean counterpart on closing North Korea's forced labour camps. [217722]

Meg Munn: The Government are deeply concerned about reported serious, widespread and systematic human rights abuses in the Democratic People's Republic of Korea (DPRK). Our ambassador in Pyongyang raised concerns about labour camps, as well as wider human rights issues, with Kim Young Nam (President of the Presidium of the Supreme People's Assembly) on 2 July. We will continue to take every appropriate opportunity, bilaterally and through the EU and the UN, to press the DPRK to engage with the international community on human rights and to improve its record in this area.

Raoul Wallenberg

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs whether any evidence on the fate of Raoul Wallenberg has been supplied to the Government by *(a)* the government of Sweden and *(b)* the government of Israel; and if he will make a statement. [217919]

Mr. Jim Murphy: According to the Government's records, the only document supplied by the Swedish government related to the fate of Swedish citizen Raoul Wallenberg is the report by the Bilateral Swedish-Russian Commission published in 2000. The document is available on the internet at the following address:

www.fritzes.se.

Our records indicate that there is a public record file FO188/727, entitled 'Political relations between Sweden and the Soviet Union: Raoul Wallenberg, 1957', which is also available for inspection through the Public Records Office.

The Government have no record of receiving evidence from the Government of Israel relating to the death of Raoul Wallenberg.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will ask the Russian authorities to publish their records relating to Raoul Wallenberg; and if he will make a statement; [217918]

(2) if he will make representations to the government of Russia on the case of Raoul Wallenberg; and if he will make a statement; [217916]

(3) on what occasions the Prime Minister or his predecessors have raised the case of Mr. Raoul Wallenberg with the government of *(a)* Russia and *(b)* the former Soviet Union; and if he will make a statement. [217908]

Mr. Jim Murphy: The Government have no plans to request the Russian authorities to publish any records relating to Swedish citizen Mr. Raoul Wallenberg or to make any representations to the Russian government on this case. The case of Mr. Raoul Wallenberg is a matter for the Swedish government.

We have no records to suggest that discussions between the Government and the Soviet or Russian governments relating to Mr. Raoul Wallenberg took place before or after 1991.

South Korea: Prisoners

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will discuss with the government of South Korea the involvement of the United Nations High Commissioner for Refugees in prisoner exchanges between South and North Korea. [217499]

Meg Munn: We are not aware of any prisoner exchanges between South and North Korea.

The few North Korean citizens who do enter South Korea directly are interviewed by the authorities to determine if they wish to defect or to return to North Korea. All North Korean citizens are entitled to South Korean citizenship and have no need to claim refugee status. Those who wish to return are normally repatriated under arrangements made between the North and South Korean Red Cross societies. There is, therefore, no involvement of the Office of the UN High Commissioner for Refugees.

Tamils

Mr. MacDougall: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received on the political situation of Tamils in Sri Lanka; and if he will make a statement. [218672]

Meg Munn *[holding answer 14 July 2008]:* The UK's view is that there must be inclusive political negotiations for a just settlement that could satisfy the legitimate aspirations of all communities in Sri Lanka and promote democracy, stability and the observance of internationally accepted human rights principles.

The Government have grave concerns about the human rights situation in Sri Lanka. Issues of concern include the targeting of civilians, the recruitment of child soldiers in violation of international law, reports of mistreatment and of the intimidation of the media and continuing abductions and disappearances. Tamils are disproportionately affected.

My noble Friend the Minister for Africa, Asia and the UN, Lord Malloch-Brown, recently visited Sri Lanka to reiterate the UK's concerns to the Sri Lankan Government and to urge them and representatives of all communities to improve the human rights situation for all of its citizens.

Zimbabwe: Females

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what proposals the Government have put forward to seek to strengthen women's rights in Zimbabwe and their involvement in the political process. [217511]

Meg Munn: The Government continue to support the rights of women in Zimbabwe as part of the political process. We are pressing for a free, fair and transparent democratic process in Zimbabwe which meets international standards as well as the standards of the South African Development Community (SADC).

Our embassy in Harare has provided support to women's empowerment groups and the Department for International Development is also working closely with the UN, other donors and women's groups to support women's rights.

We will, with the EU and other international partners, support the African Union, SADC and the UN in encouraging a new government in Zimbabwe which permits full and equal humanitarian access and shows commitment to macroeconomic stabilisation, the rule of law, human rights and a democratic process which ensures the full involvement of women.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance the Government has given to women's groups operating in Zimbabwe. [217512]

Meg Munn: The Government provide humanitarian assistance to a broad range of groups in Zimbabwe which include women's groups. Our assistance is saving the lives and livelihoods of Zimbabwe's poorest and most vulnerable—in the context of a failed harvest, hyperinflation and economic hardship, internal displacement and the ravages of the HIV/AIDS pandemic. We stand ready to make further contributions to Zimbabwe's recovery once appropriate conditions are in place.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Carbon Emissions: Finance

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs how much funding from the public purse was provided to *(a)* the Carbon Trust, *(b)* Envirowise and *(c)* the Energy Saving Trust in the latest 12 month period for which figures are available. [217965]

Mr. Woolas: DEFRA provided funding to these organisations as follows:

(a) Total funding provided to the Carbon Trust in 2007-08 was £88 million to the nearest million. This figure is subject to audit.

(b) Total funding provided to Envirowise in England in 2007-08 was £22.19 including VAT.

(c) Total funding provided to the Energy Saving Trust in 2007-08 was £29 million in 2007-08 for the valuable work which they undertake to encourage and promote the sustainable and efficient use of energy.

Construction: Waste Disposal

Dr. Desmond Turner: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to eliminate the illegal landfilling of construction waste, as part of its strategy to improve the efficiency and sustainability of the construction industry, with particular reference to plastic foam insulation. [218700]

Joan Ruddock: Construction waste was identified as a priority waste stream for action in DEFRA's waste strategy for England 2007. As part of this, in April 2008, we introduced site waste management plans on a mandatory basis in England for all construction projects worth over £300,000. One objective of these plans is to encourage the legal handling and disposal of construction waste.

On the specific issue of plastic foam insulation, DEFRA officials have had a number of meetings with industry representatives over the last six months to discuss key issues around the practicality of identification, segregation and destruction of ozone-depleting substances in such foams.

Domestic Wastes: Waste Disposal

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance *(a)* his Department and *(b)* the waste and resources action programme has given to waste collection authorities on the size of bins for residual household rubbish. [219016]

Joan Ruddock: The Government believe local authorities are best placed to make decisions on the waste management strategy for their communities. Local authorities are free to choose how they fulfil their waste collection duties including the frequency of the collections, the priority, degree of effort and resources required.

The authority can specify the number, size, construction and maintenance of receptacles, what can be placed in each, where and when they are to be placed for collection and can require the waste to be treated prior to placing it in a receptacle (usually washing or rinsing containers).

Alternate weekly collection systems use more than one receptacle, so the guidance published by the waste and resources action programme (WRAP) in July 2007 offers some consideration of specific issues associated with the containers for residual waste.

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs how many householders have been issued with fixed penalties for putting household waste out for collection at a time other than that specified by a local authority waste collection service in the latest period for which figures are available. [219080]

Joan Ruddock: My Department collates the number of fixed penalty notices for offences relating to 'waste receptacles', but the information cannot be disaggregated in the way requested. Data on the number of fixed penalty notices issued for offences in relation to waste receptacles (Section 47ZA of the Environmental Protection Act 1990) are available on the DEFRA website.

Fertilisers: Seas and Oceans

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the merits of proposals to sell carbon offsets from the first generation of commercial scale ocean iron fertilisation experiments. [217667]

Mr. Woolas: The Government supports the precautionary approach towards ocean iron fertilisation decided upon recently at the ninth conference of the parties of the UN convention on biological diversity. In line with this decision, our position is that commercial ocean iron fertilisation should not take place until there is a sufficient scientific basis on which to justify such activities.

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the potential environmental effects of ocean fertilisation. [217671]

Mr. Woolas: The Government acknowledges the concerns over the risks posed by ocean fertilisation to biodiversity and supports the precautionary approach decided upon recently at the ninth conference of the parties of the UN convention on biological diversity. DEFRA currently has no plans to fund research into this technology. However, we do not want to rule out possible climate mitigation options at an early stage, and would wish to maintain the option of appropriate and strictly controlled scientific research where it could provide further information to help understand the impact of such technologies. We will continue to keep abreast of research underway in the global community.

According to the intergovernmental panel on climate change (IPPC), iron fertilisation of the oceans may offer a potential strategy for removing carbon dioxide from the atmosphere by stimulating the growth of phytoplankton and thereby sequestering the carbon dioxide in the form of particulate organic carbon. However, the IPCC also stated that ocean iron fertilisation remains largely speculative, and many of the environmental side effects have yet to be assessed.

Flood Control

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been spent on flood prevention measures in each county in England in each year since 2005. [216516]

Mr. Woolas: The Environment Agency allocates funding to stretches of river and areas at risk of flooding rather than to counties.

The following table shows expenditure by Regional Flood Defence Committee and provides the total amount in capital grant to local authorities and Internal Drainage Boards.

Regional Flood Defence Committee	*2005-06*	*2006-07*	*2007-08*
Anglian—Central	20.3	34.1	23.4
Anglian—Eastern	43.1	49.7	52.8
Anglian—Northern	42.9	38.6	34.9
Midlands	57.1	63.7	58.0
North East—Northumbria	14.5	12.6	12.3
North East—Yorkshire	47.3	39.5	41.2
North West	47.7	47.6	57.9
Southern	68.4	52.4	60.4
South West—South West	15.2	23.2	27.6
South West—Wessex	33.4	28.5	31.6
Thames	121.9	113.9	118.0
Total	511.8	503.8	518.1
Local authority and Internal Drainage Boards	13	13	19

Floods: Insurance

Mrs. Villiers: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with insurers on areas adversely affected by the 2007 floods. [218783]

Mr. Woolas: Ministerial colleagues and I have held several meetings with the Association of British Insurers and their members since the flooding last summer. At our most recent meeting on 10 July the insurers reported that, of their customers, they expected that fewer than 300 households would still be out of their homes by the end of July. At this meeting we also finalised an agreement to ensure that flood insurance remains widely available now and in the long term. I have placed a copy of the joint statement and supporting documents in the Libraries of the House.

Fly Tipping

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effect on fly-tipping of the review of inert waste regulation. [219079]

Joan Ruddock: The Government have not made an assessment of the effect that the review of inert waste regulation has had on fly-tipping. The inert waste review considered a number of issues concerning inert waste recovery and disposal mainly linked to the implementation of the landfill directive. A consultation on inert waste regulation which sought views on possible improvements to address these issues closed in March 2008.

Forests

Lynne Jones: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made in identifying and engaging owners of undermanaged woodland since the publication of the England Woodfuel Strategy. [218127]

Joan Ruddock: This work is being led by the Forestry Commission, which has taken on four new staff to co-ordinate activities at national and regional levels. The Forestry Commission is running regional pilot schemes to identify and engage woodland owners through its woodfuel initiative. The information gathered will be used to complete the England woodfuel strategy implementation plan within the next six months.

In addition the Forestry Commission is facilitating the formation of a supplier association and, with the Renewable Energy Association, is identifying and recording the location of wood fuelled boilers to help with the development of fuel supply from existing woodland in private ownership.

The Forestry Commission is also working with the Regional Development Agencies to deliver grants to the forestry sector under the Rural Development programme for England to support infrastructure for woodfuel supply.

Home Energy Efficiency Scheme

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps the Government have taken to regulate the activities of the Warm Front scheme to protect the consumer. [218180]

Mr. Woolas *[holding answer 15 July 2008]:* DEFRA employs independent quality assessors who provide two audit reports per year on scheme performance. These

reports include large scale surveying of Warm Front clients to provide feedback on the standards of service provided, along with recommendations for Scheme improvements.

In addition, a second consumer representative has been appointed to the Warm Front Scheme Management Board, to provide greater input and feedback on the scheme from a consumer's perspective.

Incinerators: Waste Disposal

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what requirements his Department imposes on the management of ash residues arising from pyrolysis of *(a)* biodegradable municipal waste and *(b)* other waste streams; [218592]

(2) what requirements his Department imposes on the management of solid residues arising from the pyrolysis of waste in circumstances where such residues may enter sewage systems; [218593]

(3) on how many occasions solid residues arising from the pyrolysis of municipal waste were flushed into the sewage system in each of the last five years; and if he will make a statement; [218594]

(4) what classification his Department gives to each of the by-products arising from pyrolysis for waste management purposes. [218595]

Joan Ruddock: Incinerators, whether based on pyrolysis or other techniques, produce two main residues called Incinerator Bottom Ash (IBA) and Air Pollution Control (APC) residues. These waste residues may be recovered or disposed of in an appropriately permitted site or one that benefits from an exemption from the need for an environmental permit in a manner that prevents pollution of the environment or harm to human health. Management of waste residues is also subject to the Duty of Care and where appropriate the Hazardous Waste Regulations and must be transported by a registered waste carrier. Municipal waste incinerators, whether based on pyrolysis or otherwise, do not discharge their residues to sewage systems. Therefore, there are no figures on occasions when the residues were flushed into sewage systems in the last five years.

Sewerage companies have powers to control and reduce discharges of trade effluent into sewers. If they consider a discharge to constitute trade effluent, their consent is required under the provisions of the Water Industry Act 1991. The consent may set conditions and require the elimination or diminution of any specified constituent of the trade effluent before it enters the sewer. Such a discharge without the company's agreement is a criminal offence.

If the sewerage company does not classify the discharge as trade effluent, it is still an offence under section 111 of the 1991 Act, for a person to empty into a public sewer, any matter which is likely to injure the sewer, to interfere with the free flow of its contents or prejudice the treatment and disposal of its contents. Any person who is found guilty of an offence is liable to a fine or imprisonment, or both.

In general, APC residues are classed as hazardous waste. Most IBA is likely to be non-hazardous waste. However, IBA is listed in the European Waste Catalogue as a 'mirror entry'. This means that IBA can be either hazardous or non-hazardous waste. IBA that possesses any one of the 14 hazardous properties (H1-H14) is classified as a hazardous waste and hence subject to Hazardous Waste Regulations.

Dr. Desmond Turner: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the *(a)* accessibility and *(b)* capacity of facilities to destroy through incineration products containing ozone-depleting substances, with particular reference to those contained within plastic foam insulation. [218702]

Mr. Woolas: There are two high temperature incinerators that can destroy ozone-depleting substances from plastic foam insulation and they are located in Ellesmere Port and Southampton.

DEFRA officials have met with industry representatives to discuss the recovery for destruction of ozone-depleting substances from plastic foam insulation in buildings but further work is needed to scope the practicality of recovery, likely volumes of waste and the necessary destruction capacity.

Landfill: Contamination

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs how many landfill sites have been investigated as a result of suspected contamination with chemical waste by Monsanto. [216360]

Mr. Woolas: The Environment Agency grants landfill permits, subject to conditions, authorising the types and quantities of waste that may be received. The permits do not normally authorise individual and specific sources of waste. The Environment Agency is therefore not able to state categorically which of 1,500-plus permitted operational and closed landfill sites in England and Wales have received waste from Monsanto.

The lead regulatory authorities for contaminated land in England and Wales under part 2A of Environmental Protection Act are local authorities. Local authorities inspect their areas for the presence of contaminated land, including former landfills, under part 2A. DEFRA does not hold data on how many former landfills have been subject to local authority inspection to date or particular companies that may have been involved.

Under the part 2A regime, the Environment Agency undertakes the inspection of a specific subset of sites known as 'special sites' on behalf of the local authorities. The Environment Agency has so far been involved with the investigation of over 30 former landfill sites. This includes Brofiscin in South Wales, where it is alleged Monsanto historically disposed of hazardous chemical waste.

Manure

Mr. Burstow: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what representations his Department has received on the effects on horticulture of Aminopyralid in manure; [217528]

(2) how many incidents the Pesticides Safety Directorate has recorded regarding manure contaminated by Aminopyralid in the last 12 months. [218325]

Mr. Woolas: The first inquiry relating to the potential effects of Aminopyralid in manure was received by the Pesticides Safety Directorate's helpline on 12 March 2008. Around 70 inquiries had been received up to 9 July 2008, primarily from amateur gardeners and allotment holders. It is not known how many reports of damage to crops are attributable to Aminopyralid.

Mr. Burstow: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment his Department has made of the effects on agricultural production of the use of manure containing Aminopyralid; [217529]

(2) what guidelines his Department has issued on the use of manure containing Aminopyralid; and how and to whom such guidance has been disseminated. [217530]

Mr. Woolas: Aminopyralid has been granted provisional authorisation for use as a herbicide on grassland, following an evaluation of relevant data by the Pesticides Safety Directorate. These data indicated that Aminopyralid may remain in plant material from treated land and pass into the manure of livestock which eat such material. Susceptible crops may be adversely affected by the residues in the plant material.

Labels of products which contain Aminopyralid therefore include warnings not to use manure from livestock which have eaten grass from treated land, or fodder derived from such grass, on susceptible crops or on land intended for growing such crops, until all plant material has fully decomposed. As with all plant protection products, users should always read and follow the label instructions; this is a statutory requirement. Some cases of damage to susceptible crops appear to have arisen because the label precautions on the use of manure may not always have been followed when manure has been supplied to allotment holders and gardeners.

Mr. Burstow: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the risk to *(a)* human and *(b)* animal health of consuming vegetables grown in manure which contains Aminopyralid. [217531]

Mr. Woolas: Aminopyralid is a herbicide designed for selective broad-leaved weed control in grassland. It is of low toxicity to mammals. Damage to vegetables from Aminopyralid residues in manure has arisen in part because the substance can persist in grass, hay or silage, and passes through the mammalian digestive system largely unaffected into the resultant manure, rather than being broken down.

The Pesticides Safety Directorate (PSD) authorised the use of Aminopyralid on grassland on the basis of data which showed that there would be no unacceptable effects on animals fed on that grass, or on their meat or milk. PSD has now assessed additional information from the manufacturer that confirms that using manure which may contain residues of Aminopyralid in ground used to grow vegetables does not have implications for human or animal health. Even if manure were derived from animals fed only grass, or silage made from grass treated with Aminopyralid and plants took up all the aminopyralid present in that manure, the highest residues would not give rise to consumer health concerns and the vegetables should be safe to eat.

Waste Disposal

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of the Waste and Resources Action Programme document, "Management of green waste at civic amenity sites: a good practice guide". [218883]

Joan Ruddock: I am arranging for copies of the document requested to be placed in the Library of the House.

CULTURE, MEDIA AND SPORT

Big Lottery Fund: Regional Government

Robert Neill: To ask the Secretary of State for Culture, Media and Sport what funding the Big Lottery Fund provides to each regional equality and diversity partnership. [219065]

Mr. Sutcliffe: The Big Lottery Fund has advised that it has received no applications from regional organisations called equality and diversity partnerships.

Broadcasting Reception

Nick Harvey: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of households which cannot receive *(a)* television transmission, *(b)* the internet and *(c)* a mobile phone signal. [202155]

Malcolm Wicks: I have been asked to reply.

(a) Ofcom estimate that less than 1.5 per cent. of UK homes are unable to receive the main four television services (BBC1, BBC2, ITV1 and Channel 4) in analogue form. Channel 5's analogue service is available to approximately 80 per cent. of the UK population. While classed as 'unserved' according to the broadcasters' technical criteria for television coverage planning, many viewers in this 1.5 per cent. of homes can actually receive some of the analogue television services with a good level of quality, or can receive all services with a poorer level of quality. The same services are available in digital form today to over 50 per cent. of homes by means of cable networks, to approximately 98 per cent. of homes by means of satellite transmission, and to over 80 per cent. of homes by means of digital terrestrial television. When digital switchover is complete, these public service television services will be available to 98.5 per cent. of homes via digital terrestrial transmission.

(b) The availability of fixed line telephony services to all of the UK under BT and Kingston Communications' universal service obligation means that all UK households are able to receive narrowband internet services. Ofcom data show that almost all UK households (over 99.9 per cent.) are connected to a DSL broadband-enabled local exchange, however a small proportion of lines in these areas will not be suitable for the delivery of broadband services, or will only be able to do so only at very low speeds, due to local technicalities such as line length or poor network quality. According to BT, 99.6 per cent. of its network is able to support broadband speeds of 512 kbit/s or above, although it is not possible to translate this into a proportion of households.

(c) Ofcom estimates that around 0.2 per cent. of the UK population live in an area where they are unable to receive second generation (2G) phone services. 99.8 per cent. of the UK population live within postal districts that have one or more operators with a network footprint that covers at least 95 per cent. of the postcode area. The remaining 0.2 per cent. of the population are generally located in deep rural locations with very small populations and topography that often presents physical barriers to radio waves.

Casinos

Robert Neill: To ask the Secretary of State for Culture, Media and Sport what the timetable for the review of the effect of the new casinos permitted under the Gambling Act 2005 is. [219062]

Mr. Sutcliffe: An assessment of the social and economic impact of the eight large and eight small casinos permitted under the Gambling Act will be conducted when the first of the new casinos has been trading for at least three years. The new casinos are not likely to be trading before 2010 or 2011 at the earliest. We do not expect the assessment to be completed before 2014.

Departmental Buildings

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what his Department's accommodation costs were in each year since 1997. [218389]

Mr. Sutcliffe: The Department's accommodations costs were as follows:

	£
1997-98	5,287,565.22
1998-99	4,653,525.96
1999-2000	4,691,917.98
2000-01	5,504,705.10
2001-02	6,779,078.85
2002-03	7,039,742.89
2003-04	7,487,127.69
2004-05	7,320,765.68
2005-06	8,117,154.80
2006-07	9,225,464.97
2007-08	8,858,113.28

Accommodation costs include rent, business rates, service charges, utilities, maintenance and accommodation management charges.

European Union: Citizenship

Mr. Hayes: To ask the Secretary of State for Culture, Media and Sport what Europe for Citizens programmes are operating in the UK. [217986]

Margaret Hodge: Projects receiving funding under the Europe for Citizens programme in the UK include town-twinning co-operation projects, structural support for public research, civil society organisations and projects promoting European remembrance of the victims of Nazism and Stalinism.

Holocaust Memorial Day: Finance

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport how much his Department spent on events to commemorate Holocaust Memorial Day in each of the last five years. [218530]

Mr. Sutcliffe: The Heritage Memorial Day Trust is responsible for the annual, national commemoration of Holocaust Memorial Day. This is not a Government initiative and, therefore, the Department for Culture, Media and Sport has no budget for its promotion.

The trust raises awareness, informs and educates about the Holocaust and its contemporary relevance, especially to issues of racism, prejudice and discrimination. It prompts action in the UK in favour of diversity, equality and harmony between communities. We believe that it is important to learn the lessons of the past to build a better future.

Home Information Packs

Robert Neill: To ask the Secretary of State for Culture, Media and Sport how many home information packs have been commissioned by *(a)* his Department and *(b)* its agencies to market a residential property; for which properties; at what cost; and whether a voluntary home condition report was purchased as part of the packs. [219010]

Mr. Sutcliffe: None.

Licensing laws

Robert Neill: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer to the hon. Member for Brentwood and Ongar of 22 January 2008, *Official Report*, columns 1810-12W, on licensing, if he will publish an updated list of local authorities with a designated cumulative impact area as of 2008. [219181]

Mr. Sutcliffe: The Department is currently collecting data on the number of cumulative impact areas on 31 March 2008 for the next statistical bulletin which we anticipate will be made publicly available in autumn 2008.

Orchestras: Finance

Jeff Ennis: To ask the Secretary of State for Culture, Media and Sport how much funding the *(a)* Royal Philharmonic Orchestra, *(b)* Hallé Orchestra and *(c)* City of Birmingham Orchestra has received from Arts Council England in each of the last five years. [218854]

Margaret Hodge: These orchestras are three of Arts Council England's regularly funded organisations. According to the Arts Council, they have received funding as set out in the following table. All of this funding has been from the Arts Council's grant in aid.

£

Organisation	2003-04	2004-05	2005-06	2006-07	2007-08

Public Houses: Closures

Ben Chapman: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of closures of establishments in the public house sector in *(a)* 2000, *(b)* 2003 and *(c)* 2007. [218583]

Mr. Sutcliffe: The Department has not at any time made an estimate of the number of closures of establishments in the public house sector.

St. David's Day

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what steps his Department took to celebrate St. David's Day in 2008. [218532]

Margaret Hodge: The Department for Culture, Media and Sport took no steps to celebrate St. David's Day in 2008.

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport how much his Department spent on promoting St. David's Day in each of the last five years. [218533]

Margaret Hodge: The Department for Culture, Media and Sport did not spend anything on promoting St. David's Day in each of the last five years.

Theatres

Dr. Iddon: To ask the Secretary of State for Culture, Media and Sport what the *(a)* seating capacity, *(b)* occupancy rate, *(c)* salary of the Chief Executive and *(d)* amount of support provided from the public purse for each theatre supported by funds from the public purse was in the latest year for which figures are available. [214429]

Margaret Hodge: The information requested is not recorded centrally, apart from the amount of support provided from the public purse for each theatre supported by funds from the public purse. This information, provided by Arts Council England, is set out in the following table.

DEFENCE

Afghanistan: Peacekeeping Operations

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether there are limitations on the quantity of fuel which can be transported by each of the military lorries operating in Afghanistan. [218584]

Des Browne: There are no Afghanistan-specific limitations placed on the quantity of fuel which the current in-service fuel tankers can transport when operating in that theatre.

Armed Forces: Food

Bob Spink: To ask the Secretary of State for Defence how many operational ration packs his Department has purchased in each of the last five years. [218128]

Mr. Bob Ainsworth: In the last five years the MOD has purchased 9.8 million 24 Hr Operational Ration Packs.

Bob Spink: To ask the Secretary of State for Defence what the *(a)* content and *(b)* (i) nutritional and (ii) calorific value is of an operational ration pack. [218129]

Mr. Bob Ainsworth: The General Purpose (GP) 24 Hr Operational Ration Packs (ORP) consists of 10 menus containing meat. In addition there are Sikh/Hindu, Halal and Vegetarian variants each of which has five menus. Each individual menu contains a hot breakfast, snack lunch and hot meal as well as common items such as oatmeal blocks, fruit and brown biscuits, chocolate, boiled sweets, yeast extract, coffee and tea sachets, sugar and whitener, Tabasco sauce, chewing gum, waterproof matches, purification tablets and tissues. All ORP variants also contain an isotonic lemon or orange drink, hot chocolate powder and a dessert such as chocolate sponge pudding. The meals are packed into foil pouches, are menu specific and can be eaten hot or cold.

Nutritionally, the 24 Hr ORP provides a soldier with the necessary balanced diet to sustain him/her for 24 hours. Each menu in the 24 Hr ORP is measured against this and meets the required values as shown:

	Gm	*Percentage daily energy intake*
Protein	90-108	10-12
Fat	120	30
Carbohydrate	500	55
Fibre	18	—

The ORP is designed for use in a temperate climate for which the recommended calorific intake in adult males and females aged 19-50 is 3,600 kcals, and currently contains a calorific range between 3,660-4,200 kcals, depending on the chosen menu.

Data relating to the recently launched multi climate ration due for introduction next year are not yet available; each menu is currently being analysed by a state registered dietician at the Defence Science and Technology Laboratory.

Armed Forces: Scotland

Nick Harvey: To ask the Secretary of State for Defence if he will provide a breakdown by region of the *(a)* number and *(b)* cost of properties rented as substitute service family accommodation and substitute single living accommodation in (i) Scotland and (ii) Northern Ireland. [218438]

Derek Twigg: Substitute Service Family Accommodation (SSFA) and Substitute Single Service Accommodation (SSSA) are not used in Northern Ireland. Details of SSFA and SSSA rented in Scotland, as at July 2008, are given in the following table:

Location	*Number of SSSA*	*£ per calendar month*	*Number of SSFA*	*£ per calendar month*

Armed Forces: Vehicles

Nick Harvey: To ask the Secretary of State for Defence how much has been allocated to urgent operational requirement spending on vehicles since 1997. [218490]

Mr. Bob Ainsworth: This information is not held centrally and could be provided only at disproportionate cost.

Armoured Fighting Vehicles

Nick Harvey: To ask the Secretary of State for Defence which armoured vehicles procured since 1997 have been paid for out of *(a)* planned budgetary provision and *(b)* urgent operational requirements provision. [218489]

Mr. Bob Ainsworth: Since 1997 Viking, Panther, Vector, Titan, Trojan, Beach Recovery Vehicle, Challenger II and Challenger II Driver Training tanks have been paid for out of planned budgetary provision. Mastiff vehicles and ambulances and Vector ambulances were procured as Urgent Operational Requirements.

Departmental ICT

Sarah Teather: To ask the Secretary of State for Defence how many *(a)* mobile telephones, *(b)* personal digital assistants and *(c)* laptop computers issued to departmental staff were reported (i) lost, (ii) missing and (iii) stolen in each year since 2001. [184322]

Dr. Fox: To ask the Secretary of State for Defence how many universal serial bus flash memory data storage devices used to store *(a)* restricted, *(b)* confidential, *(c)* secret and *(d)* top secret data have been lost by or stolen from his Department in each year since 2001. [186051]

Mr. Bob Ainsworth: As a result of the recent theft of a laptop, the Ministry of Defence has initiated an investigation into the details of all lost or stolen electronic media since 2003. This investigation involves the collation and examination of reports from across the Department including final disposal action, where available. While every effort is being made to gather the information as quickly and accurately as possible, not all the details are currently available. In addition, it should be noted that details of such incidents were not collated centrally before 2003 and therefore will not be available.

I will write to the hon. Members when the information has been collated and place a copy of my letter in the Library of the House.

Substantive answer from Bob Ainsworth to Sarah Teather and Liam Fox:

I undertook to write to you in answer to your Parliamentary Question on 18 February 2008, (Official Report, column 95W) about universal serial bus (USB) flash memory data storage devices lost or stolen in each year since 2001. No centralised records were maintained before 2003 and it has therefore not been possible to provide the information for earlier years. The figures below continue to be adjusted as a result of additional thefts and losses along with subsequent clarification of historic incidents. As a result of the investigation into details of electronic media lost/stolen since 2003 which I announced on 31 March 2008, (Official Report, column 517W), details on the number of USB data storage devices reported as lost or stolen from the Department since 2003 are set out in the following table.

	Unclassified/none	Restricted	Confidential	Secret	Top secret	Not determined	Total
2003							
Loss	0	0	0	0	0	0	0
Stolen	0	0	0	0	0	0	0
2004							
Loss	0	0	0	0	0	0	0
Stolen	24	1	0	0	0	2	27
2005							
Loss	0	0	0	0	0	0	0
Stolen	1	0	0	0	0	1	2
2006							
Loss	0	0	1	1	0	0	2
Stolen	2	52	0	0	0	2	56
2007							
Loss	0	6	0	1	0	0	7
Stolen	0	1	0	0	0	0	1
2008[1]							
Loss	1	19	0	3	0	0	23
Stolen	1	2	0	0	0	0	3

[1] Up to 25 June 2008.

In some instances it has not been possible to determine the level of Protective Marking (classification) as it was not established when the incident was reported.

Mr. Hoban: To ask the Secretary of State for Defence how many of his Department's personal digital assistants have been *(a)* lost and *(b)* stolen in each of the last five years; and what the value of those items was. [185276]

Mr. Bob Ainsworth: As a result of the recent theft of a laptop, the Ministry of Defence has initiated an investigation into the details of all lost or stolen electronic media, including PDAs, since 2003. This process involves examining and collating reports from across the Ministry of Defence including final disposal action.

While every effort is being made to gather the information expeditiously, not all the details are presently available.

I will write to the hon. Member when the information is available and arrange for a copy to be placed in the Library of the House

Substantive answer from Bob Ainsworth to Mark Hoban:

I undertook to write to you in answer to your Parliamentary Question on 18 February 2008, (Official Report, column 95W), about lost and stolen personal digital assistants (PDAs) in each of the last five years. The following table shows the number of official issue PDAs centrally reported as lost or stolen from the Department since 2003. These figures are derived from the data collated as a result of the investigation into details of computer and other electronic media lost/stolen since 2003 and provided to Sir Edmund Burton as part of his review.

	PDAs	
	Lost	Stolen
2003	0	1
2004	1	2
2005	1	1
2006	1	1
2007	1	2
2008 (up to 25 June 2008)	0	1
Total value (£)	3,000	

The value is based on an approximate replacement cost of £250.

EU Defence Policy

Dr. Fox: To ask the Secretary of State for Defence pursuant to the answer of 16 June 2008, *Official Report*, column 721W, on EU defence policy, how many of the UK military staff worked *(a)* exclusively on European Union matters and *(b)* on both NATO and UK military staff European Union matters in each month since September 2007; and if he will place in the Library a copy of the full description of each post identified. [217488]

Des Browne: All UK military personnel seconded to the EU Military Staff work exclusively on European Union matters.

Job titles and descriptions for the posts currently filled by UK military personnel and MOD civilian staff attached to the European Union Military Staff (EUMS), European Union Military Committee (EUMC) and other EU institutions are as follows:

EU military staff

Director General of the EU Military Staff (DGEUMS): Responsible for leading the efficient functioning of the Military Staff in accordance with the agreed EUMS terms of reference. Responsible for the provision of early warning, situation assessment

and strategic planning for missions and tasks foreseen in the treaty on European Union (TEU), including those identified in the European Security Strategy.

Personal Staff Officer (PSO) to DGEUMS: Supports DGEUMS in all external relations issues, including the preparation of background information, in particular with regard to public relations correspondence.

Concepts and Capabilities Division—Chief of Concepts Branch: Directs, co-ordinates and supervises all branch work.

Civilian-Military Cell—Chief of Civilian/Military Strategic Planning Branch: Directs, co-ordinates and supervises all branch work.

Policy and Plans Division, Doctrine and Concepts Branch—Staff Officer: Contributes to the elaboration of the doctrinal and conceptual aspects of the EUMS contribution to the development of the European Security and Defence Policy (ESDP).

Operations and Exercises Division, Crisis Response Planning/ Current Operations Branch—Staff Officer: Contributes to the development of operational policy and conceptual documents.

Logistics and Resources Division, Resources Support Branch—Staff Officer: Contributes input and assessment concerning all movement and transportation (M and T) aspects, including Strategic Lift, to military strategic planning.

Intelligence Division, Production Branch—Staff Officer: Contributes to the analysis of documentation received and the production of intelligence reports and information for current intelligence and early warning.

Intelligence Division, Requirements Branch—Staff Officer: Handles and administrates the outflow of information in the Data Management Cell and is responsible for advice on Intelligence collation and dissemination.

Executive Office of the Deputy Director General/Chief of Staff EUMS—Staff Officer: Contributes to the co-ordination of EUMS external interface with military delegations of EU member states and third nations, other EU bodies, NATO, UN and other international bodies.

EU Cell (SHAPE)—Staff Officer: Contributes to matters concerning the EU-NATO strategic partnership, military strategic planning aspects and EU politico-military matters.

Civilian-Military Cell, Civilian/Military Strategic Planning Branch—Staff Officer: Contributes to the military input to strategic civilian/military contingency planning, the development of concepts and doctrines for civilian/military operations and the process of strategic crisis response planning for EU-led crisis management operations.

Civilian-Military Cell, Military Assessment and Planning (MAP) Branch—Staff Officer: Contributes to the military assessment of potential or emerging crisis situations and military strategic advance and crisis response planning.

Communication and Information Systems (CIS) Division, Policy and Requirements Branch—Staff Officer: Contributes to the formulation of CIS policy, plans and requirements in co-ordination with member states, NATO and other international organisations.

Communication and Information Systems Division, Policy and Requirements Branch—Staff Officer: Contributes to the formulation of all geographic aspects, planning, requirements, procedures and support for military strategic options envisaged for EU-led operations and exercises.

Communication and Information System Division, Information Technology and Security (ITS) Branch—Staff Officer: Administrator of the secure networks and links in close co-ordination with the INFOSEC office of the General Secretariat of the Council, and a member of the Security Accreditation Team for EUMS secure systems.

DGEUMS' Personal Staff—Adjoint Assistant: Responsible for providing personal administrative assistance to DGEUMS in his daily work.

DGEUMS' Personal Staff—Personal Staff Co-ordinator: Responsible for assisting DGEUMS in his daily work.

EU Military Committee

Military Assistant to the Chairman of the EU Military Committee (CEUMC): Responsible for the provision of written/oral briefings and advice to CEUMC.

European Defence Agency

Capabilities Director: Responsible for the leading of agency work in ESDP activities related to capabilities development, from goal definition to project design, and including capability harmonisation, assessment and evaluation.

Head of Capabilities Development Support Unit: Supports the Capabilities Director in the co-ordination of the Directorate's work, and in managing external interfaces (with member states, EUMS and other key stakeholders).

Research and Technology (R and T) Assistant Director: Responsible for preparing strategies and policies for increasing co-operation and strengthening of defence R and T and the European defence technological and industrial base.

Principal Officer for Armaments Co-operation: Responsible for supporting the Armaments Director in his relations with OCCAR (Organisation conjointe de coopération en matière d'armement) and member states regarding the management of co-operative programs.

Senior Officer for Defence Market: Responsible for assessing and analysing the European Defence Equipment Market including collecting, comparing and reporting quantitative and qualitative data, and ensuring close relations with the Commission, industry and others regarding industrial issues.

Principal Officer for Defence Industry: Responsible for contributing to assessing and analysing the European defence technological and industrial base (DTIB), preparing strategies and policies regarding DTIB and developing measures for enhanced security of supply of Defence goods between European nations.

Other EU institutions

European Council General Secretariat—Seconded National Expert: Desk officer in DG E VIII—External Relations, responsible for providing advice and briefings on EUFOR ALTHEA (EU military mission to Bosnia-Herzegovina).

European Commission—Seconded National Expert: Desk officer in DG Environment.

European Global Navigation Satellite System Supervisory Authority (GSA)—Seconded National Expert: Security advisor and project officer for the Galileo project.

Iraq: Asylum

Damian Green: To ask the Secretary of State for Defence what assessment he has made of the effectiveness of the protection strategy for the dependants of Iraqi former UK interpreters. [218889]

Des Browne: We have various procedures in place to minimise the risk of interpreters or their dependants being identified as working with British forces. All employees are also advised on fundamental security precautions for their and their families' safety outside working hours. On leaving our employ, those eligible for the Locally Employed Staff Assistance Scheme can choose to apply for resettlement in the UK with those financially dependent upon them. Alternatively, a financial package is offered to assist their relocation within Iraq or elsewhere in the region. All of these measures are kept under continuous review to ensure they are appropriate for the prevailing security situation.

RAF Halton

Mr. Lidington: To ask the Secretary of State for Defence how many armed forces personnel have received training from the Specialist Training School at RAF Halton in each year since 1998. [217590]

Mr. Bob Ainsworth: The following table gives the number of the courses delivered by the Specialist Training School (STS) at RAF Halton. Information is only available from financial year 2003-04.

Financial year	*Armed forces personnel*
2003-04	3,687
2004-05	4,328
2005-06	4,841
2006-07	4,170
2007-08	3,616

The figures exclude the 'road shows' training delivered by STS staff away from RAF Halton, as no nominal rolls are taken at these events.

Warships

Mr. Gerald Howarth: To ask the Secretary of State for Defence (1) what the *(a)* unit cost and *(b)* date of commissioning of each Type 42 Destroyer was; [218220]

(2) what the *(a)* unit cost and *(b)* date of commissioning of (i) HMS Albion and (ii) HMS Bulwark was; [218234]

(3) what the *(a)* unit cost and *(b)* date of commissioning of each Type 22 frigate was. [218239]

Mr. Bob Ainsworth: The hon. Member may find it useful to view the answer given by the then Under-Secretary of State, Defence Procurement to the then hon. Member for Glasgow Govan (Jim Sillars) on 23 October 1989, *Official Report*, column 358 as it includes information about build costs of various Royal Navy and RFA vessels including the costs for all Type 42 Destroyers and most of the Type 22 Frigates.

Due to the age of the Type 42 Destroyers and the first two batches of Type 22 Frigates, records that would enable a ready estimate today of their cost are no longer held centrally, and to establish those now would incur a disproportionate cost.

The following table shows the original hull costs of the third batch of Type 22 Frigates when they were commissioned—they do not include other costs, such as those for Government Furnished Equipment (GFE)—as they are not held centrally for each ship and could be provided only at disproportionate cost.

Ship	*Original cost (£ million)*
HMS Cornwall	131.05
HMS Cumberland	141.17
HMS Campbeltown	161.97
HMS Chatham	175.28

The build contract costs, as at 1 June 2004, for the Landing Platform Dock (LPD) vessels HM Ships Albion and Bulwark are shown in the following table and do not include other costs such as GFE.

Ship	*Build cost (£ million)*
HMS Albion	277.33
HMS Bulwark	188.86

The commissioning dates of each of the Type 42 Destroyers, Type 22 Frigates and HM Ships Albion and Bulwark are shown in the following table.

Ship	*Date commissioned*
Type 42 Destroyer	
HMS Sheffield	16 February 1975
HMS Coventry	10 November 1978
HMS Birmingham	3 December 1976
HMS Newcastle	23 March 1978
HMS Glasgow	24 May 1979
HMS Cardiff	24 September 1979
HMS Exeter	19 September 1980
HMS Southampton	31 October 1981
HMS Nottingham	14 April 1983
HMS Liverpool	1 July 1982
HMS Manchester	16 December 1982
HMS Gloucester	11 September 1985
HMS Edinburgh	17 December 1985
HMS York	9 August 1985
Type 22 Frigate	
HMS Cornwall	23 April 1988
HMS Cumberland	10 June 1989
HMS Campbeltown	27 May 1989
HMS Chatham	4 May 1990
HMS Boxer	22 December 1983
HMS Beaver	13 December 1984
HMS Brave	4 July 1986
HMS London	5 June 1987
HMS Sheffield	26 July 1988
HMS Coventry	14 October 1988
HMS Broadsword	4 May 1979
HMS Battleaxe	28 March 1980
HMS Brilliant	15 May 1981
HMS Brazen	2 July 1982
Landing Platform Dock	
HMS Albion	19 June 2003
HMS Bulwark	28 April 2005

DUCHY OF LANCASTER

Childbirth

Tim Loughton: To ask the Chancellor of the Duchy of Lancaster what estimate he has made of *(a)* the percentage of children living in one parent families, *(b)* the number of live births per thousand teenage women and *(c)* the percentage of children born outside marriage in the last 10 years for which figures are available, broken down by (i) social class, (ii) income, (iii) race and (iv) geographic location. [216783]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 16 July 2008:

As the National Statistician I have been asked to reply to your question about what estimates are available for (a) the percentage of children living in one parent families, (b) the number of live births per 1,000 teenage women and (c) the percentage of children born outside marriage in the last 10 years for which figures are available, broken down by (i) social class, (ii) income, (iii) race and (iv) geographic location. (216783)

Part (a)—One parent families

The percentage of dependent children living in lone parent families in the United Kingdom can be estimated using the Labour Force Survey (LFS). Table 1 (below) shows UK estimates. Estimates broken down by (i) social class, (ii) income, (iii) race and (iv) geographic location are not readily available to answer the question fully for all years and can only be provided at disproportionate cost.

Table 1: Dependent children in the UK

	Proportion of dependent children living in lone parent families (percentage)
1998	22
1999	22
2000	22
2001	22
2002	23
2003	23
2004	23
2005	24
2006	24
2007	24

Source:
LFS quarterly data (average of Spring and Autumn seasonal quarters for all years except for 2006 and 2007 where data are for the calendar quarter April to June only).

There are two existing pieces of information that provide partial answers to part (a). For social class, data are available for 2001 only.

The proportion of dependent children in households in England and Wales by number of birth parents and the NS-SEC (National Statistics Socio-economic Classification) of the household reference person, according to the 2001 Census are available in the response to a recent parliamentary question by David Laws MP (Hansard 187143: 22 Feb 2008 : Column 1107W). For ethnicity, data are available for 2007 only. Estimates of the proportion of dependent children living in lone parent families in United Kingdom by ethnicity are available for 2007 using the LFS in the response to a parliamentary question by David Laws MP (Hansard 201194: 24th April 2008: Column 2204W).

The Family Resources Survey (FRS) contains information on both family type and income. This is available in the annual FRS report: Family Resources Survey 2006-07 (published by DWP [link below] see: Table 3.5: Households by composition and total weekly household income). Information is also available in the report: Households Below Average Income (HBAI) 1994/95-2006/07 (published by DWP [link below] see: Table 4.1 (BHC): Quintile distribution of income for children by various family and household characteristics, United Kingdom).

Part (b)—The number of live births per 1,000 teenage women

Figures on live births are available from birth registration. The latest year for which figures are available is 2006.

(i) social class

Since 2001, NS-SEC has been used to provide a socio-economic classification for all official statistics. The number of live births per 1,000 teenage women broken down by NS-SEC would require population estimates broken down by age, sex and NS-SEC. This information is not routinely available and for teenage women NS-SEC is likely to be unreliable. Consequently it is not possible to provide these figures.

(ii) and (iii) income and ethnicity

Information on income and ethnicity is not collected at birth registration hence it is not possible to provide the number of live births to teenage women broken down by these variables.

(iv) geographical location

Births are assigned to an area according to the usual residence of the mother, as stated at registration.

Table 2: Number of live births per 1,000 teenage women by unitary authority and local authority, England and Wales, 1997 to 2006

Part (c)—The percentage of children born outside marriage

The percentage of children born outside marriage is also derived using figures on live births available from birth registration.

(i) social class

The classification used for social class prior to 2001 is not directly comparable with NS-SEC. For this reason figures broken down by NS-SEC are only provided back to 2001. Information on mother's occupation and employment, from which NS-SEC is derived, is only coded for a sample of one in ten births. The figures provided broken down by NS-SEC are therefore estimates based on a ten per cent sample.

Table 3: Percentage of children born outside marriage for each National Statistics Socio-economic Classification (NS-SEC) of the mother, England and Wales, 2001 to 2006

(ii) and (iii) income and ethnicity

For reasons stated in part (b) it is not possible to produce these figures broken down by income and ethnicity.

(iv) geographical location

The percentage of children born outside marriage by area of usual residence of mother is published annually in Key Population and Vital Statistics (KPVS), table 4.2. These figures have been collated in table 4, for the years 1998 to 2006. It is not possible to provide figures for 1997 because births data for 1997 were revised after the publication of the 1997 KPVS volume.

Table 4: Percentage of children born outside marriage by area, United Kingdom, 1998 to 2006

For more detail on data collated and the individual footnotes associated with each year please refer to the individual volumes available on the web at:

http://www.statistics.gov.uk/statbase/Product.asp?vlnk=539

Copies of the tables are available in the House of Commons Library.

Community Infrastructure Levy

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster whether the Office for National Statistics will classify the Community Infrastructure Levy as a tax. [217938]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 16 July 2008:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking whether the Office for National Statistics (ONS) will classify the Community Infrastructure Levy as a tax. (217938)

It is not standard practice for ONS to be involved in the classification of policy proposals. The proposed Community Infrastructure Levy will only be referred to ONS for classification if the final arrangements, once agreed, are not covered by the classification guidance referred to below.

The ONS national accounts classification process is described within the Statistical Integration and Classification Protocol annex published on the National Statistics website:

http://www.statistics.gov.uk/about/national_statistics/cop/downloads/NSCodeofPractice2.pdf

As noted in the protocol annex,

"Most of the financial information needed to produce the central government sector accounts is provided by government departments and agencies and routed through HM Treasury.

ONS and HM Treasury have produced guidelines to help government departments classify their activities for National Accounts purposes. These have been circulated to departments with the expectation that most cases in departments will be settled by reference to the guidelines without the need for any consultation.

For cases not clearly covered by this guidance, policy departments—including HM Treasury—will refer issues to HM Treasury's classification branch who act as technical experts and answer the straightforward queries on behalf of ONS. For those queries that are not straightforward, HM Treasury classification branch will ask ONS to interpret the guidance and to make a classification decision." The guidance for departments is published on the HM Treasury website. The relevant document relates to government receipts and can be found using the following link

www.hm-treasury.gov.uk/media/B/F/classification_receipts.pdf

Departmental Freedom of Information

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster (1) how many Freedom of Information Act 2000 requests to the Cabinet Office are being considered on grounds of a possible public interest exemption more than *(a)* three months, *(b)* six months, *(c)* nine months and *(d)* 12 months after the initial request was made without a decision or refusal notice having been issued; [217348]

(2) what the average time taken by his Department to consider the application of a possible public interest exemption was in relation to a Freedom of Information *(a)* initial request and *(b)* internal review since the Act came into force. [217349]

Edward Miliband: I refer the right hon. Member to the answer I gave on 23 June 2008, *Official Report*, column 123W.

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster how many freedom of information requests the Cabinet Office received in 2007-08; what each request was for; and what action has been taken on each. [217400]

Edward Miliband: Statistical information on the requests received by the Cabinet Office in 2007 is available in the Ministry of Justice's third annual report on the operation of the Freedom of Information Act in central Government. Copies are available in the Libraries of the House and are also available on the Ministry of Justice's website at the following address:

http://www.justice.gov.uk/docs/foi-report-2007-final-web.pdf

Information on the requests received by the department in 2008 will be published in the Ministry of Justice's fourth annual report. Information about the detail of individual requests and the action taken could be provided only at disproportionate cost.

Departmental ICT

Bob Spink: To ask the Chancellor of the Duchy of Lancaster how many staff have access to the Prime Minister's Office's IT infrastructure at their home. [216387]

Mr. Watson: The Prime Minister's Office is part of the Cabinet Office.

Within the Cabinet Office 442 staff have access to the corporate IT networks from their homes.

Economic and Monetary Union

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the Answer of 18 June 2008, *Official Report*, column 1187W, on economic and monetary union, if he will place a copy of the Central Office of Information's euro changeover plan in the Library when it is published. [217336]

Mr. Watson: A copy of the Central Office of Information's euro changeover plan will be placed in the Library of the House when it is published.

Morning Star

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster how many copies of the *Morning Star* are purchased each day by the Media Monitoring Unit. [217402]

Mr. Watson: No copies of the *Morning Star* are purchased by the Media Monitoring Unit.

Non-profit Making Associations

Margaret Moran: To ask the Chancellor of the Duchy of Lancaster what plans he has to develop the capacity of the social enterprise sector to deliver public services; and if he will make a statement. [218719]

Phil Hope: In June 2008, I announced a new £6 million investment from Capacitybuilders for social enterprise support over the next three years.

This programme will help build the capacity of social enterprises to deliver public services by improving the support system through having more accredited advisers and programmes such as mentoring and developing emerging markets, depending on regional priorities.

Margaret Moran: To ask the Chancellor of the Duchy of Lancaster what discussions he has had on social enterprise as part of the development of the proposals in the Enterprise White Paper. [218720]

Phil Hope: The Office of the Third Sector worked closely with BERR during the drafting of the enterprise White Paper to ensure the paper both recognised the important role of social enterprise, and that the measures included were both relevant to and inclusive of social enterprise. I met the Parliamentary Under-Secretary of State for Business and Competitiveness to discuss the inclusion of social enterprise in the paper. The resulting White Paper is applicable to all types of enterprise and the measures proposed recognise social enterprise as a distinct form.

Non-profit Making Associations: Finance

Margaret Moran: To ask the Chancellor of the Duchy of Lancaster how much he provided to the *(a)* social enterprise and *(b)* voluntary and community sector in each of the last five years. [218718]

Phil Hope: For breakdowns of Active Communities Directorate and Social Enterprise Unit spending from 1998-99 to 2005-06, prior to the creation of the Office of the Third Sector, I refer my hon. Friend to the

answer I gave to the hon. Member for Tunbridge Wells (Greg Clark) on 8 October 2007, *Official Report*, column 4W.

Since May 2006 the OTS has run funding streams covering the whole of the third sector and some specifically targeted at certain parts of the sector. A breakdown of the figures for 2006-07 can be found online in the annual report and resource accounts 2006-07 via the following address:

http://www.cabinetoffice.gov.uk/reports/~/media/assets/www.cabinetoffice.gov.uk/publications/reports/annualreport/resourceaccounts0607%20pdf.ashx

Copies are also available in the Libraries of the House.

The figures for 2007-08 are to be published shortly in the annual report and resource accounts 2007-08. The report will be published on the Cabinet Office website and copies made available in the Libraries of the House.

TREASURY

Child Benefit: EU Nationals

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how many nationals of each A8 country were receiving child benefit for a child or children living in another EEA member state at the end of June 2008; and in respect of how many such children child benefit was being paid on that date. [219241]

Jane Kennedy: Around 7.5 million families are currently claiming child benefit for around 13 million children. Out of that total, at the end of June 2008, around 0.3 per cent. (26,703) were ongoing child benefit awards to A8 nationals recorded as receiving child benefit for 44,008 children living in another EEA member state. These awards are made by virtue of EC social security co-ordinating regulations which the UK has administered since it joined the European Economic Community in 1973.

The estimated breakdown by nationality is as follows.

Country	*Number of children included in awards*	*Number of awards at 30 June 2008*
Czech Republic	266	160
Estonia	26	15
Hungary	90	54
Latvia	334	259
Lithuania	1,040	709
Poland	39,867	24,135
Slovakia	2,382	1,369
Slovenia	3	2
Total	44,008	26,703

Departmental Sick Leave

David Simpson: To ask the Chancellor of the Exchequer how many and what percentage of staff in his Department have had more than two periods of sickness absence of less than five days in each of the last three years. [218693]

Angela Eagle: The information requested could be obtained only at disproportionate cost.

Mapeley

Mr. Hoyle: To ask the Chancellor of the Exchequer whether consideration was given to the status of Mapeley as a Guernsey-based company when choosing it as a strategic partner for HM Revenue and Customs. [218607]

Jane Kennedy: The contract to provide serviced accommodation followed an open competition which was in accordance with European Community and World Trade Organisation rules. The Mapeley bid provided the best value for money for the Departments and the taxpayer.

Non-domestic Rates: Wales

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 14 May 2008, *Official Report*, column 1627W, on taxation, whether *(a)* the 2005 business rates revaluation and *(b)* the most recent council tax revaluation in Wales were revenue neutral. [218299]

Mr. Paul Murphy: I have been asked to reply.

The 2005 business rates and 2005 council tax revaluation in Wales were revenue-neutral. The overall increase in receipts in the year of revaluation arose from councils' decisions to increase council tax rates, and were broadly in line with increases in the previous years.

Revenue and Customs: Chorley

Mr. Hoyle: To ask the Chancellor of the Exchequer pursuant to the answer of 2 July 2008, *Official Report*, column 966W, on HM Revenue and Customs (HMRC): Chorley, what the evidential basis is for his assessment that the effects on Chorley residents of the vacating of the HMRC office there will be minimal. [218926]

Jane Kennedy *[holding answer 15 July 2008]:* Further to the answer I gave my hon. Friend on 2 July 2008, *Official Report*, column 966W, HM Revenue and Customs (HMRC) has given a commitment to continue to provide inquiry centre services in locations where decisions have been made to withdraw, as is the case with Chorley. As a result, the services HMRC provides directly to the population of Chorley will remain unaffected.

Mr. Hoyle: To ask the Chancellor of the Exchequer how many staff at HM Revenue and Customs (HMRC) Lingmell House, Chorley are *(a)* full-time and *(b)* part-time; how many and what proportion of HMRC staff at this office will be (i) relocated, (ii) made redundant and (iii) undergo some other change in employment conditions as a result of HMRC plans; and if he will make a statement. [218928]

Jane Kennedy *[holding answer 15 July 2008]:* As at 1 July 2008, there were 54 full-time staff and 23 part-time staff working for HM Revenue and Customs (HMRC) at Lingmell House Chorley.

Alternative locations for all staff in Chorley have been identified, although final decisions on which individuals can relocate to the proposed location for

their work within reasonable daily travel have not been reached for all staff at this stage. HMRC is committed to avoiding redundancies wherever possible and will seek to identify alternative solutions for anyone who cannot move with their work.

HMRC has no plans to change the employment conditions of staff who relocate as a result of Regional Review decisions for Chorley.

Tax Credits: Fraud

Jenny Willott: To ask the Chancellor of the Exchequer (1) what assessment his Department has made of the possible effect on child poverty if fraud and error were eradicated from working tax credit payments; and if he will make a statement; [218671]

(2) what estimate his Department has made of the effect on levels of child poverty of the eradication of fraud and error in child tax credits; and if he will make a statement. [219568]

Jane Kennedy: Tax credits play a key role in making work pay and reducing poverty, and have helped to lift 600,000 children out of relative poverty since 1998-99.

The Government are keen to ensure that support goes to the right customers at the right time, and is committed to reducing error and fraud across tax credits. I refer the hon. Member to my written statement of 14 July 2008, *Official Report*, columns 1-2WS.

JUSTICE

Courts: Children

Mr. Jim Cunningham: To ask the Secretary of State for Justice what steps the Government has taken to minimise any harmful effects on children arising from their participation in court proceedings. [218745]

Bridget Prentice: In the criminal courts a series of measures are in place aimed at minimising the distress of court proceedings on young defendants as follows:

(i) A Practice Direction from the Lord Chief Justice provides among other things for familiarisation with the courtroom prior to the hearing, frequent breaks during the process, the ability of a very young defendant to sit with family members and the court to ensure an understanding by the young defendant of what is happening and what is being said throughout the process.

(ii) There is also provision within the criminal law to protect the anonymity of the young defendant.

(iii) There are also restrictions on public attendance at the youth court.

Children can apply for special measures to assist them in giving their best evidence in court. This includes giving evidence outside the courtroom through a televised link or screens around the witness box to shield the witness from the defendant.

Children involved in family proceedings do not normally attend court. Children who are subject to an application for care or supervision proceedings by social services (public law) are entitled to separate representation by a Children and Family Court Advisory Support Service (CAFCASS) Children's Guardian and a solicitor, and are made a party to proceedings. Children's Guardians are there to help achieve the best possible outcomes for the child they represent. The Government have consulted on the representation of children in private law proceedings, when families disagree about who children should live or spend time with. However, research has shown that bringing a child into proceedings could be stressful and put too much responsibility on the child. Therefore, party status and separate representation will only be ordered in private law cases which involve an issue of significant difficulty and consequently will occur only in a minority of cases.

Crime: Victims

Mr. Jim Cunningham: To ask the Secretary of State for Justice what recent steps the Government has taken to work with the third sector when supporting victims of crime. [218163]

Maria Eagle: Following a recent public consultation, the Ministry of Justice has published a Third Sector Strategy which sets out the Department's commitment to working with the Third Sector.

Victim Support, an independent charity, is the Government's main provider of services to victims and witnesses of crime across England and Wales. Over recent years annual Government funding to Victim Support has increased from £11.7 million to £30 million. The Office for Criminal Justice Reform (OCJR) has provided additional investment in Victim Support to rollout Victim Support Plus nationally (£5.6 million in 2007-08 and £7 million in 2008-09).

In addition, the Government funds a number of specialist services for victims of individual crime types. The charity Support After Murder and Manslaughter (SAMM) receives a grant of £140,000 a year to provide services to family and friends bereaved through murder and manslaughter.

Over the last four years, we have invested £6.5 million in specialist services for victims through the Victims Fund, with the majority going directly to Third Sector organisations. In 2008-09 a further £1.75 million has been invested into the fund. Specialist services that receive funding through the Victims Fund provide support to victims of sexual violence and childhood sexual abuse, hate crime and homicide.

Since 2003 the Government has worked in partnership with Eaves Housing for Women to deliver bespoke specialist services for women trafficked into sexual exploitation, through the Poppy project. We are investing a further £1.3 million into the project this year, taking the total to £5.8 million since it opened.

In 2007-08 the Government provided £3 million for Independent Domestic Violence Advisers (IDVAs), trained specialists who provide a service to victims who are at high risk of harm, to support victims as their cases progress through Specialist Domestic Violence Courts (SDVCs).

The Youth Crime Action Plan, published on 15 July 2008 will include proposals to support young victims of crime.

Family Courts

Mr. Jim Cunningham: To ask the Secretary of State for Justice what steps he has taken to improve the procedures of family courts. [218744]

Bridget Prentice: The new Family Procedure Rules will make court procedures easier to use and understand. They will provide a modernised and simply expressed code of practice for all levels of court. A significant first segment, the Family Procedure (Adoption) Rules, was made in October 2005. The Department and the Family Procedure Rule Committee are now completing the task for all family proceedings.

Court procedures have also been recently improved in domestic violence and care proceedings cases. On 1 April 2008, the judicially led Public Law Outline came into force, streamlining the care proceedings process and contributing to a reduction in unnecessary delay. In May 2008 a new practice direction changed current procedures in private law proceedings to give better protection for children in cases where domestic violence has been raised as an issue.

Family Courts: Accountability

Mr. Jim Cunningham: To ask the Secretary of State for Justice what recent steps the Government has taken to improve accountability in family courts. [218743]

Bridget Prentice: We have consulted twice on how we could improve transparency in family courts. It is important that the courts are more open and accountable and it is important that children's interests are protected. The right of the public to know what is happening needs to be balanced with a child's rights to privacy.

It is also important to help the public understand what happens in family courts and how the courts make these difficult decisions. That is why we have already announced that we will be piloting the publication of judgments for some family cases.

This is an important and complex area of policy about which people have strong views. We must ensure we get it right. We will be making an announcement to the House about the pilots, and our other proposals, after the summer.

Firearms: Sentencing

Mr. Gordon Prentice: To ask the Secretary of State for Justice pursuant to his answer of 8 July 2008, for what reasons individuals found in unlawful possession of a firearm were not given the mandatory sentence of five years, broken down by category of mitigating factors. [218537]

Mr. Hanson: Sentences are decided by sentencers. Data on mitigating factors at the time of sentencing are not collected on the courts proceedings database held by my Department.

Examples of exceptional circumstances might be where the holder of a firearms certificate inadvertently forgets to renew his authority or where a war trophy is discovered among a deceased person's effects. Rehman. R *v.* [2005] EWCA Crim 2056 (18 July 2005) considers the issue of "exceptional circumstances."

Legal Services Commission: Complaints

Mr. O'Hara: To ask the Secretary of State for Justice what assessment he has made of the merits of *(a)* audit and *(b)* scrutiny of the recording of (i) complaints to the Legal Services Commission and (ii) responses to correspondence by (A) the Legal Services Commission and (B) his Department. [217288]

Bridget Prentice: It is well established practice throughout the public sector to ensure that there are robust systems in place to deal with correspondence and complaints handling. Proportionate auditing and scrutiny are a normal part of those systems. I also refer the hon. Member to my answer to him of 22 May 2008, *Official Report*, column. 411-12W.

Mr. O'Hara: To ask the Secretary of State for Justice how many complaints under the Legal Services Commission's complaints procedures were recorded by the Legal Services Commission in each year since 2004-05. [217300]

Bridget Prentice: The number of complaints received in the Legal Services Commission is as follows:

	Number
2004-05	2,541
2005-06	2,007
2006-07	1,701

The figures for 2007-08 will be published shortly in the 2007-08 annual report.

Mr. O'Hara: To ask the Secretary of State for Justice what procedures are used to process complaints on action by the Legal Services Commission in breach of its complaints procedures guarantee. [217302]

Bridget Prentice: I refer the hon. Member to the answers to him on 4 June 2008, *Official Report* columns 1040-41W and 22 May 2008, *Official Report* columns 411-12W. If a complainant does not feel that their complaint has been dealt with in accordance with the LSC's complaints procedure, the parliamentary ombudsman can investigate. All complaints referred to the ombudsman must be done so through a Member of Parliament.

Legal Services Commission: Standards

Mr. O'Hara: To ask the Secretary of State for Justice how the Legal Services Commission's national customer service score is calculated. [217297]

Bridget Prentice: The Legal Services Commission introduced a customer service single score from 2003-04 in its regional offices and throughout the organisation from 2004-05 to reinforce its commitment to improve all levels of customer service. The measures used in the score are tailored to each department and include: the time taken to perform key tasks; telephone handling skills; quality control; complaints handling and the ability to respond swiftly. In 2007-08, the LSC achieved 93 per cent. in its customer service score against a target of 90 per cent.

Magistrates: Personation

Mr. Gordon Prentice: To ask the Secretary of State for Justice on how many occasions since 2003 he has been informed of instances where individuals have claimed falsely to be a justice of the peace; and if he will make a statement. [218125]

Mr. Straw: Such instances are very rare and my Department does not keep a record. My hon. Friend is obviously aware of the matter regarding Ray Lewis, former Deputy Mayor for London for young people. He has not been appointed as a magistrate.

Members: E-mail

Sir Michael Spicer: To ask the Secretary of State for Justice when the Parliamentary Under-Secretary of State plans to reply to the email from the hon. Member for West Worcestershire, dated 18 June 2008, Ref: 204969, on the transcript of an appeal proceedings. [218159]

Maria Eagle: The Ministry of Justice aims to reply to correspondence from hon. Members of both Houses within 20 working days of receipt. I replied on 15 July 2008.

Members: Mentally Ill

Lynne Jones: To ask the Secretary of State for Justice if he will make it his policy to bring forward proposals to remove the current provisions in common law which prevent a person with mental illness from standing or remaining as an hon. Member; and if he will make a statement. [218435]

Bridget Prentice: Under the Electoral Administration Act 2006 we have already abolished the common law provisions which related to mental state for voters.

We will consider with our stakeholders whether a similar change should be made to remove the current provisions in common law which may be used to prevent a person who has experienced mental health problems from standing or remaining as an hon. Member.

Offensive Weapons: Young Offenders

Chris Huhne: To ask the Secretary of State for Justice pursuant to the answer of 9 July 2008, *Official Report*, column 1620W, on offensive weapons: young people, what sentence was imposed in each case in each year; and, where fines were imposed, what the *(a)* smallest, *(b)* largest and *(c)* average fine imposed was in each year. [219119]

Mr. Straw: Statistics on the number of persons sentenced for the offence of selling knives to persons under 18 by result are contained in the following table.

Number of persons sentenced[1] by result for the offence of selling a knife to a person under 18 years, all courts, England and Wales, 2002-06

Number of persons

Offence description	*Year*	*Total proceeded against[2]*	*Absolutel conditional discharge*	*Fine*	*Community sentence*	*Fully suspended sentence*	*Immrdiate custody*	*Otherwise dealt with*
Selling to a person under the age of 18 years a knife, knife blade, razor blade, axe or any other article which has a blade, that is sharply pointed and which is made or adapted for use for causing injury to the person	2002	4	—	3	—	—	—	—
	2003	9	2	6	—	—	—	1
	2004	6	2	2	—	—	—	1
	2005	19	1	18	—	—	—	—
	2006	43	5	27	1	—	—	2

[1] These data are on the principal offence basis.
[2] Will include cases that were withdrawn or dismissed.

Note:
These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Prisoners: Mental Health Services

Hywel Williams: To ask the Secretary of State for Justice what arrangements there are to provide therapeutic services for prisoners with mental health problems whose first language is not English. [218543]

Maria Eagle: Psychological therapies are commissioned by primary care trusts (PCTs). When commissioning these services for prisoners, PCTs will assess the needs of their population and, as with all other health provision, consideration will be given as to how services will be delivered to meet the needs of all, including those with mental health problems whose first language is not English. This will be determined locally as part of a PCT's commissioning responsibility.

Hywel Williams: To ask the Secretary of State for Justice what arrangements there are to provide Welsh-medium therapeutic services for prisoners with mental health problems. [218544]

Maria Eagle: Provision of health care in Wales is a Welsh Assembly Government devolved responsibility. Services will be provided for Welsh medium offenders in accordance with the Welsh language policies of the local health boards.

Young Offenders: Custodial Treatment

Mr. Kidney: To ask the Secretary of State for Justice what plans he has to provide a greater range of non-custodial sentencing options in cases where young offenders are convicted for non-violent offences. [218809]

Mr. Hanson: We have developed a range of community sentences that can be used by the courts for young people. In addition we have provided out of court disposals which are particularly suitable for dealing with low level offences without the need for recourse to the courts.

We have passed legislation recently in the Criminal Justice and Immigration Act 2008 which will establish a new non-custodial sentencing structure for young offenders aged under 18.

The primary community sentence for young offenders aged under 18 is the referral order under which the young offender must appear before a youth offender panel, including two lay members from the community and a member from the youth offending team. The young offender must agree to undertake reparation and rehabilitation in a contract agreed with the panel. The Act will extend the circumstances in which a referral order can be made and allow a second one to be made in exceptional circumstances. In the Act we also introduced a new generic community sentence for young people, the Youth Rehabilitation Order (YRO), which will replace nine existing community sentences. The YRO has 14 different requirements that may be added to an order and is designed to increase the options available to sentencers to deal with young offenders in the community with effective and tailored interventions. The YRO also provides two further requirements for serious and persistent young offenders that are set as alternatives to custody.

Young Offenders: Foster Care

Mr. Kidney: To ask the Secretary of State for Justice what assessment he has made of the effectiveness of the intensive fostering pilots in reducing the number of young offenders sentenced to custody; and if he will extend the use of intensive fostering nationwide. [218808]

Mr. Hanson: The Youth Justice Board are currently piloting intensive fostering in three areas. We are working closely with them to monitor the progress of these pilots and they are being evaluated by York University. The evaluation report is due later this year.

It is too early to give a full assessment of its effectiveness as an alternative to custody. However, indicative results show that the programme is benefiting the young people subject to it.

WORK AND PENSIONS

Child Support Agency: Correspondence

Mr. Donohoe: To ask the Secretary of State for Work and Pensions if he will make it his policy that Child Support Agency staff respond personally to correspondence marked for their attention. [216599]

Mr. Plaskitt *[holding answer 8 July 2008]:* The administration of the Child Support Agency is the matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, if he will make it his policy that Child Support Agency staff respond personally to correspondence marked for their attention. [216599]

As part of the Operational Improvement Plan, the Agency introduced a new standard operating model to improve client service and get more money for more children. The Agency receives around five million phone calls each year, almost three hundred thousand new applications for maintenance and over two million change of circumstances requests as well as general correspondence. In addition people employed by the Agency may be on holiday, training, or ill when a particular task arises and you will appreciate the Agency needs to be able to allocate work to balance workloads and provide the best possible service. The Agency provides a full service to clients from 8am to 8pm Monday to Friday and from 9am to 5pm on Saturday. It is not possible for an individual caseworker to be available to a client over this period, therefore the majority of clients will not deal with the same caseworker but with the same team, any member of which will be able to resolve their query and reply to correspondence.

This change to team working ensures that the Agency has people available to deal with clients when they need us most.

However, the Agency has also revised its complaints resolution process and has introduced teams of specialist caseworkers responsible for resolving all aspects of a client's complaint. In these cases an individual caseworker will take responsibility for working with the client until the complaint is resolved.

Since the introduction of these changes as part of the Operational Improvement Plan two years ago, the number of children benefiting from maintenance has risen by around 126,000 to over 749,000 children. The Agency also collected or arranged a record breaking £1 billion in maintenance in the twelve months to March 2008.

I hope you find this answer helpful.

Crisis Loans: Telephone Services

Jenny Willott: To ask the Secretary of State for Work and Pensions what the average waiting time was between making a phone call and speaking to a member of staff for all calls made to his Department crisis loan numbers in each of the last five years; and if he will make a statement. [215752]

Mr. Timms: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Mel Groves, dated 16 July 2008:

The Secretary of State for Work and Pensions has asked me to respond to your question on what the average waiting time was between making a phone call and speaking to a member of staff for all calls made to crisis loan numbers in each of the last five years. This is something that falls within the responsibilities delegated to Lesley Strathie as Chief Executive of Jobcentre Plus. I am replying in her absence as Acting Chief Executive.

Access to Crisis Loans by telephone did not commence until September 2006. The management information in place currently at Benefit Delivery Centres does not capture telephone waiting times.

A proportion of Crisis Loan calls are answered in our Contact Centres. The average time taken to speak to a member of staff since Contact Centre Direct started taking Crisis Loan calls in May 2007 has been 1 minute 56 seconds.

Departmental Early Retirement

Mr. Redwood: To ask the Secretary of State for Work and Pensions how many staff in *(a)* his Department and *(b)* his Department's agencies have taken early retirement in the last two years. [217384]

Mrs. McGuire: The number of staff from the Department for Work and Pensions and its agencies who have taken early retirement during the last two complete financial years is summarised in the following table:

Business area	*2006-07*[1]	*2007-08*[1]
Jobcentre Plus	656	510
The Pension Service	52	387
Disability and Carers Service	10	47
Pension Disability and Carers Service[2]	62	434
Child Support Agency	16	84
The Rent Service	6	42
The rest of DWP	39	117
Total DWP	779	1,187

[1] The figures cover the period 1 April to 31 March.
[2] The Pension Service and Disability and Carers Service came together on 1 April 2008 to form a new agency called the Pension Disability and Carers Service. Figures for both elements of the new agency are included for completeness.

Departmental Information Officers

Mr. Hoban: To ask the Secretary of State for Work and Pensions what the average cost to his Department of employing a press and media officer was in 2007-08. [215263]

Mrs. McGuire: The calculated cost to the Department for employing a full-time press officer working on media issues equates to an average annual salary of £31,920.

Departmental Manpower

Mr. Redwood: To ask the Secretary of State for Work and Pensions what the change in the number of employees in his Department and its agencies has been since July 2006. [217074]

Mrs. McGuire: The change in the number of employees in the Department and its agencies since July 2006 is summarised in the following tables.

Table 1: Numbers of individual employees

Business area	*July 2006*	*May 2008*	*Reduction*
Jobcentre Plus	79,089	73,504	5,585
The Pension Service	14,891	11,907	2,984
Disability and Carers Service	7,304	6,218	1,086
Pension Disability and Carers Service[1]	22,195	18,125	4,070
Child Support Agency	12,829	10,751	2,078
The Rent Service	670	575	95
The rest of DWP	11,532	10,293	1,239
DWP total	126,315	113,248	13,067

[1] The Pension Service and Disability and Carers Service came together on 1 April 2008 to form a new agency called the Pension and Disability Carers Service. Figures for both elements of the new agency are included for completeness.

Table 2: Numbers on a full-time equivalent basis

Business area	*July 2006*	*May 2008*	*Reduction*
Jobcentre Plus	71,048	65,607	5,441
The Pension Service	13,667	10,884	2,783
Disability and Carers Service	6,527	5,489	1,038
Pension Disability and Carers Service[1]	20,194	16,373	3,821
Child Support Agency	11,405	9,531	1,874
The Rent Service	650	563	87
The rest of DWP	10,794	9,613	1,181
DWP total[2]	114,092	101,688	12,404

[1] The Pension Service and Disability and Carers Service came together on 1 April 2008 to form a new agency called the Pension Disability and Carers Service. Figures for both elements of the new agency are included for completeness.
[2] Totals may not sum due to rounding of individual lines.

Departmental Official Cars

Stephen Hammond: To ask the Secretary of State for Work and Pensions which make and model of car he has chosen as his Ministerial car to be provided by the Government Car and Despatch Agency. [217766]

Mrs. McGuire: The Prime Minister sets the criteria for cars for use by Ministers. Currently, Cabinet Ministers may choose either a diesel powered Jaguar XJ or a Toyota Prius hybrid. Other Ministers may also choose from a Toyota Prius, a Honda Civic hybrid or any other suitable car with a CO_2 emission of 185g/km or less.

The Secretary of State has chosen the Toyota Prius hybrid as his ministerial car.

Departmental Security

Mr. Maude: To ask the Secretary of State for Work and Pensions how many departmental identity cards or departmental passes have been reported lost or stolen by staff in *(a)* his Department and *(b)* each of its executive agencies in the last 24 months. [215612]

Mrs. McGuire: The arrangements for the issue and management of identity passes that give access to the Department's premises have been outsourced to a service provider. The Department and its agencies operate from several hundred premises across the UK, and no central records are held by the service provider or the Department of the numbers of passes which are reported lost or stolen, and it would be disproportionately expensive to obtain this information. Employees are required to report all lost or stolen passes to the Department immediately, and to the police where appropriate, so that local management can determine any increased vulnerability to security, and take the necessary action.

Departmental Sick Leave

Mr. Hayes: To ask the Secretary of State for Work and Pensions how many working days have been lost due to sickness among employees for which his Department and its predecessor were responsible for each year since 1997. [218036]

Mrs. McGuire: The Department for Work and Pensions (DWP) was created in July 2001. The figures prior to this date relate to absence levels in the Department of Social Security (DSS) Group, the main predecessor to the DWP.

The available information is contained in the following table. The source of the information is the Cabinet Office's annual report titled 'Analysis of Sickness Absence in the Civil Service'. Working days lost (WDL) due to sickness are available only for 2005, 2006 and 2007. We have therefore provided the average working days lost per staff year for each of the years from 1997 to 2007.

	Total working days lost (WDL)	*Average working days lost (AWDL)*
2007	1,094,018	10.3
2006-07[1]	1,361,196	11.1
2005	1,233,162	10.1
2004	—	9.6
2003	—	11.6
2002	—	10.8
2001	—	11.1
2000	—	11.0[2]
1999	—	10.9[2]
1998	—	10.8[2]
1997	—	12.2[2]

[1] Financial year 2006-07 all other years figures are shown in calendar years.
[2] DSS Group only.

Departmental Written Questions

David T.C. Davies: To ask the Secretary of State for Work and Pensions how many days it took on average to answer written parliamentary questions tabled by each hon. Member for answer by him in the last six months. [201764]

Mrs. McGuire: The information requested has been placed in the Library.

Disadvantaged: Rural Areas

Mr. Paice: To ask the Secretary of State for Work and Pensions how many recommendations in the Commission for Rural Communities report, England's rural areas: steps to release their economic potential, within his Department's areas of responsibility his Department intends to implement; and if he will provide a timetable for implementation. [217702]

Mrs. McGuire: I refer the hon. Member to the written answer given to him by my hon. Friend the Parliamentary Under-Secretary of State, Department for Environment, Food and Rural Affairs (Jonathan Shaw), on 7 July 2008, *Official Report*, column 1204W.

Early Retirement

John Battle: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of *(a)* men and *(b)* women who were required to take early retirement in (i) Leeds West, (ii) Leeds Metropolitan District, (iii) Yorkshire and Humberside and (iv) England in each of the last 10 years. [215404]

Mr. Mike O'Brien: I regret that the Department for Work and Pensions does not possess the data in a form which enables me to answer this question.

Fuel Poverty

Danny Alexander: To ask the Secretary of State for Work and Pensions how much his Department spent tackling fuel poverty among heating oil users in each of the last 10 years; and how much it plans to spend in the next 12 months. [217598]

Mr. Woolas: I have been asked to reply.

The following tables set out the number of heating jobs and associated spends for oil heating jobs in each scheme year carried out through the Warm Front scheme since this measure was incorporated into the scheme in June 2005.

It should be borne in mind that around 15 per cent. of allocated oil jobs do not progress to completion through unfulfilled client contribution requests.

Measure category	*Households*	*Total cost (£)*	*Average (£)*
Scheme year 2005-06			
Boiler replacement oil	57	192,926.80	3,384.68
Oil central heating	98	363,772.56	3,711.96
Heating repair oil	9	5,489.55	609.95

Danny Alexander: To ask the Secretary of State for Work and Pensions what discussions he has had with the Secretary of State for Business, Enterprise and Regulatory Reform on fuel poverty amongst heating oil users. [217600]

Mr. Mike O'Brien: The Department for Work and Pensions works closely with a number of Government Departments, including the Department for Business, Enterprise and Regulatory Reform, on a broad range of measures aimed at tackling fuel poverty. Regular meetings are held at both official and ministerial level.

Fuel Poverty: Part-time Employment

John Battle: To ask the Secretary of State for Work and Pensions what assistance his Department is giving to people in part-time work to meet their fuel bill payments; and if he will make a statement. [215406]

Mr. Mike O'Brien: A person in part-time work may be eligible to receive winter fuel payments if they satisfy the qualifying conditions. Payments are made to most persons aged 60 or over and ordinarily resident in Great Britain to help with their fuel bills during the winter months. Payments are worth up to £200 for persons aged 60-79 and up to £300 for persons aged 80 or over. In winter 2008-09, we will make an additional payment alongside the winter fuel payment. Persons aged 60-79 will receive up to £50 and persons aged 80 or over up to £100.

Additionally, a person in part-time work may be eligible to receive cold weather payments if they satisfy the qualifying conditions when the temperature criteria are met for their postcode.

Housing: Low Incomes

Mr. Amess: To ask the Secretary of State for Work and Pensions what estimate he has made of how much and what proportion of private rented accommodation in *(a)* Southend-on-Sea local authority area, *(b)* Essex county council area and *(c)* Southend West constituency is available at or below the median rent established by the Rent Service for the relevant rental market area; and if he will make a statement. [217922]

Mr. Plaskitt: The requested information is not available.

The Rent Service publishes information about broad rental market areas and local housing allowance rates online at

www.therentservice.gov.uk/.

Mr. Amess: To ask the Secretary of State for Work and Pensions (1) if he will make it his policy to publish information on the level of benefit reductions experienced by those local housing allowance claimants resident in *(a)* Southend-on-Sea and *(b)* Essex who move address; who he consulted before introducing this policy; and if he will make a statement; [217923]

(2) what estimate he has made of the number and proportion of persons residing in *(a)* Southend and *(b)* Essex who will receive (i) an increase, (ii) a decrease and (iii) no change in benefit paid following the introduction of local housing allowance; what steps he has (A) taken and (B) plans to take to assist those who receive a decrease; what recent representations he has received on this issue; what reply he gave in each case; and if he will make a statement. [218374]

Mr. Plaskitt: From 7 April 2008, the local housing allowance is being rolled out to customers making new claims for benefit and customers who change address. The local housing allowance provides a clear and transparent set of allowance rates that helps tenants know how much financial help is available. A claimant can obtain details of the relevant rate of local housing allowance in advance, allowing them to make informed choice about the affordability of specific accommodation.

A claimant who is receiving the local housing allowance and who moves address within their existing broad rental market area, and who has no other changes to their family composition, will normally see no change in the amount of local housing allowance that they receive.

Information on all local housing allowance rates and details of broad rental market areas are available from The Rent Service website at

www.therentservice.gov.uk/.

The Department carried out a full public consultation before introducing the local housing allowance. We have received a wide range of representations about all aspects of local housing allowance. Details of individual representations, and our response to them, could be provided only at disproportionate cost.

We will be carrying out a two year review of local housing allowance.

Incapacity Benefit

Mr. Harper: To ask the Secretary of State for Work and Pensions how much he estimates will be spent on each type of incapacity benefit in each of the next five years. [209317]

Mrs. McGuire *[holding answer 6 June 2008]:* Latest estimates of expenditure on incapacity and incapacity-related benefits are presented in the following table. The figures assume the introduction of employment and support allowance in October 2008 and announced policies at the time the forecasts were produced—they do not include future proposals yet to be agreed. The figures cover the period of the Government's spending plans 2010-11.

Incapacity related benefits: estimated benefit expenditure, £ millions nominal terms

	2007-08 estimated outturn	2008-09	2009-10	2010-11
Incapacity benefit	6,580	6,210	5,570	4,920
Of which:				
Short-term lower rate	280	170	0	0
Short-term higher rate	340	270	20	0
Long-term rate	5,710	5,570	5,370	4,760

Incapacity related benefits: estimated benefit expenditure, £ millions nominal terms

	2007-08 estimated outturn	2008-09	2009-10	2010-11
Earnings related	240	210	180	160
Other incapacity-related benefits				
Severe disablement allowance	750	730	710	680
Income support for sick and disabled	5,230	4,920	4,240	3,670
Return to work credit	0	70	120	120
Statutory sick pay	50	50	50	50

Notes:
1. Figures presented are also available on the DWP website through the following link:
http://www.dwp.gov.uk/asd/asd4/expenditure.asp
2. Incapacity benefit is payable at short-term lower, short-term higher, long-term rates plus an earnings related rate for ex-invalidity benefit claimants.
3. Incapacity benefit is replaced for new claimants by employment and support allowance in October 2008.
4. Severe disablement allowance closed in April 2001 to new claimants.
5. Income support for the sick and disabled covers incapacity-related income support payments to those who experience short-term sickness, for a period up to one year, and for those who qualify as long-term sick or disabled.
6. Return to work credit is financial support to those experiencing incapacity (subject to qualifying benefits), for the first year in which the individual returns to work.
7. Figures for statutory sick pay relate to estimated employer recoveries from the Government, based on information held by HM Revenue and Customs.
8. Figures are rounded to the nearest £10 million. Components may not sum to totals due to rounding.
9. All figures relate to individuals of working age.

Incapacity Benefit: Armed Forces

Nick Harvey: To ask the Secretary of State for Work and Pensions how much was paid in incapacity benefit to *(a)* current and *(b)* former armed services personnel in 2007-08. [218431]

Mrs. McGuire: The information is not available.

Income Support: Lone Parents

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) how many and what proportion of lone parents that will be affected by the changes to the eligibility criteria for income support taking effect in October 2008 have a child for whom they are receiving disability living allowance; and if he will make a statement; [214949]

(2) how many and what proportion of lone parents who will be affected by the changes to the eligibility criteria for income support taking effect in October 2008 are in *(a)* part-time employment, *(b)* unemployed and *(c)* in education or training; and if he will make a statement. [214950]

Mr. Plaskitt: The information requested is not available.

Information is available on the number of lone parents receiving income support at August 2007 who at that date had a youngest child aged 12 or over and who had a child for whom they were receiving disability living allowance.

Information is available on the number of lone parents receiving income support at November 2007 who at that date had a youngest child aged 12 or over and who were either receiving earnings from part time employment or no part time earnings from employment.

That information is in the tables.

No information is available on the numbers of lone parents with a youngest child aged 12 or over who were in education or training.

Some lone parents are exempt from these changes and will still be able to receive IS. These include lone parents who:

Are in receipt of carer's allowance

Have a child who they are receiving the middle or higher rate care component of disability living allowance for;

Are fostering

Lone parents receiving income support at August 2007 who had a youngest child aged 12 or over at that date and who had a child for whom they were receiving disability living allowance

	Number
All	113,100
Not in receipt of DLA for a child	103,600
In receipt of DLA for a child	9,500
Proportion in receipt of DLA for a child (Percentage)	8.4

Note:
1. 5 per cent. sample figures are uprated to 100 per cent. WPLS totals and rounded to the nearest 100. Totals may not sum due to rounding.
Source:
DWP Information Directorate 5 per cent. sample

Lone parents receiving income support at November 2007 who had a youngest child aged 12 or over at that date and who were receiving earnings from part-time employment

	Number
All	102,340
No part-time earnings	94,430
Part-time earnings	7,910
Proportion with part-time earnings (Percentage)	7.7

Note:
1. Figures are rounded to the nearest 10. Totals may not sum due to rounding.
Source:
DWP Information Directorate 100 per cent. WPLS

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of Jobcentre Plus staff *(a)* have received specific training and *(b)* will receive specific training before October 2008 on the changes to eligibility criteria for income support affecting lone parents coming into effect in that month; and if he will make a statement. [215840]

Mr. Timms: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 16 July 2008:

The Secretary of State has asked me to reply to your question asking how many and what proportion of Jobcentre Plus staff have received specific training to date, and will receive specific training before October 2008, on the changes to eligibility criteria for Income Support affecting lone parents coming into effect in that month. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The introduction of the changes to eligibility criteria for receipt of Income Support, affecting lone parents, is to be phased over a three year period, commencing in November 2008. The changes will affect all jobs in Jobcentre Plus in different ways, and the proposed training and awareness approach will meet the specific needs of all job roles.

Our current planning assumption is that all Jobcentre Plus staff will require awareness products in the lead up to November 2008. Since February, five such products relating to this change have been issued to all Jobcentre Plus adviser managers. We also estimate that approximately 8,950 customer-facing staff will need

additional training during the implementation period, to equip them with the skills to support lone parents as they make their transition to Jobseeker's Allowance.

Further detailed work is currently being undertaken to convert these assumptions into more detailed plans. This approach will ensure adequate numbers of customer-facing staff are trained and available to deal with the increase in volumes of lone parents moving from Income Support to Jobseeker's Allowance at each stage of the implementation process.

Local Housing Allowance: Essex

Mr. Amess: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the number of people in *(a)* Southend and *(b)* Essex in the deregulated private rented sector who will be in receipt of local housing allowance in (i) 2008 and (ii) 2009; [218375]

(2) what estimate he has made of the number of people in *(a)* Southend and *(b)* Essex who will be in receipt of the local housing allowance where the rent is paid directly to the claimant in (i) 2008 and (ii) 2009. [218376]

Mr. Plaskitt: The information is not available.

Personal Injury

Mr. Hayes: To ask the Secretary of State for Work and Pensions what the highest 10 payments made by his Department in settlement of personal injury claims brought against it were over the last 12 months for which figures are available; which of those cases were *(a)* contested and *(b)* uncontested by the Department; and what the nature of the incident was in each case. [216679]

Mrs. McGuire: The information is provided in the following table.

Nature of incident	*Contested/ Uncontested*	*Date Concluded*	*Damages (£*
Asbestos Related Disease	Settled	Costs being negotiated	167,097.50
Physical and psychological injuries	Settled	9 July 2007	150,000.00
Repetitive strain injury	Settled	23 February 2008	92,368.45
Asbestos Related Disease	Settled	17 September 2007	50,000.00
Back injury	Settled	15 January 2008	36,500.00
Slip and trip injury (leg/back)	Settled	27 November 2007	17,000.00
Slip and trip injury (back)	Settled	1 April 2008	15,000.00
Exacerbation of existing back condition by failure to provide adequate equipment	Settled	2 January 2008	15,000.00
Neck/shoulder injury (struck by falling object)	Settled	28 May 2008	8,500.00
Slip and trip injury (back, hip, leg and ribs)	Settled	17 July 2007	8,500.00

Poverty

Ms Buck: To ask the Secretary of State for Work and Pensions what proportion of *(a)* children, *(b)* pensioners and *(c)* working-age adults were in poverty in each English region in (i) 1990, (ii) 2000 and (iii) 2007. [217100]

Mr. Timms: Specific information regarding low income for the UK is available in "Households Below Average Income 1994/95 to 2006/07". This annual report, which is a National Statistics publication, includes the number and proportion of individuals, children, working-age adults and pensioners with incomes below 50 per cent., 60 per cent. and 70 per cent. of median income, and the proportions in persistent poverty.

Regional data are presented as three-year averages, due to variability in single-year estimates. Regional data are only available on a consistent basis from 1994-95. A time series showing the proportion of children and pensioners in households with household incomes less than 60 per cent. of median including the periods requested are shown in table 4.14ts for children and table 6.8ts for pensioners of the "Households Below Average Income 1994/95 to 2006/07", a copy of which has been placed in the Library.

Information for working age adults for years where data are available is shown in the following table.

Proportion of working age adults in poverty in each English region in 1997-98 to 1999-2000 and 2004-05 to 2006-07, three-year average

Region	*Period*	*Percentage of working age adults below 60 per cent. of contemporary median income*	
		Before housing costs	*After housing costs*
North East	1997-98 to 1999-2000	21	26
	2004-05 to 2006-07	18	22
North West	1997-98 to 1999-2000	17	22
	2004-05 to 2006-07	17	21
Yorkshire and the Humber	1997-98 to 1999-2000	18	22
	2004-05 to 2006-07	16	20
East Midlands	1997-98 to 1999-2000	15	18
	2004-05 to 2006-07	16	20
West Midlands	1997-98 to 1999-2000	14	18
	2004-05 to 2006-07	18	22
East of England	1997-98 to 1999-2000	11	15
	2004-05 to 2006-07	12	17
London	1997-98 to 1999-2000	15	24
	2004-05 to 2006-07	15	24
South East	1997-98 to 1999-2000	10	15

Proportion of working age adults in poverty in each English region in 1997-98 to 1999-2000 and 2004-05 to 2006-07, three-year average

Region	Period	Percentage of working age adults below 60 per cent. of contemporary median income: Before housing costs	After housing costs
	2004-05 to 2006-07	11	16
South West	1997-98 to 1999-2000	14	19
	2004-05 to 2006-07	12	18

Notes:
1. These statistics are based on Households Below Average Income data.
2. Small changes should be treated with caution as these will be affected by sampling error and variability in non-response.
3. The reference period for Households Below Average Income figures is single financial years. Three sample years have been combined as regional single year estimates are subject to volatility.
4. Regional data is only available on a consistent basis from 1994-95, so no results are available for 1990.
5. The income measures used to derive the estimates shown employ the same methodology as the Department for Work and Pensions publication "Households Below Average Income" series, which uses disposable household income, adjusted (or 'equivalised') for household size and composition, as an income measure as a proxy for standard of living.
6. The figures are based on OECD equivalisation factors.
7. Figures have been presented on both a before housing cost and after housing cost basis. For before housing cost, housing costs (such as rent, water rates, mortgage interest payments, structural insurance payments and ground rent and service charges) are not deducted from income, while for after housing cost they are.
8. Proportions of working age adults in low-income households have been rounded to the nearest percentage point.

Households Below Average Income, DWP.

Social Security Benefits: Newcastle upon Tyne

Jim Cousins: To ask the Secretary of State for Work and Pensions how many children were living in households in receipt of benefits in each local authority ward in the City of Newcastle upon Tyne in 2008. [219096]

Mr. Timms: The information is not available for households in the format requested. The available information, which is for those claiming income support, jobseeker's allowance, incapacity benefit, severe disablement allowance or pension credit, is in the table.

Number of children aged 0-15 dependent on a parent or guardian claiming one or more of income support, jobseeker's allowance, incapacity benefit, severe disablement allowance or pension credit, city of Newcastle upon Tyne wards, April 2007

	Number
Benwell	630
Blakelaw	770
Byker	815
Castle	205
Dene	290
Denton	530
Elswick	860
Fawdon	715
Fenham	645
Grange	220
Heaton	170
Jesmond	35
Kenton	720
Lemington	495
Monkchester	1,070
Moorside	590
Newburn	395
Sandyford	270
Scotswood	465
South Gosforth	40
Walker	930
Walkergate	470
West City	610
Westerhope	205
Wingrove	480
Woolsington	725

Notes:
1. Figures are rounded to the nearest 5.
2. Data represents a snapshot in time of claimants on the computer system, and therefore excludes a very small number of cases that are held clerically.
3. The Department does not have complete information on child dependents on the benefit computer systems, therefore children have been merged on to income support, jobseeker's allowance, incapacity benefit, severe disablement allowance and pension credit claims from child benefit records with permission from HMRC.

DWP Information Directorate.

COMMUNITIES AND LOCAL GOVERNMENT

Capacity Building Programme

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how much her Department has provided to each local authority under the Capacity Building programme to date. [217837]

John Healey: Since April 2004, over 270 local authorities have received Capacity Building support from Communities and Local Government. The following tables show:

(a) the amount of direct support provided to each local authority, and

(b) resources made available to lead councils between April 2004 to March 2009 to support improvement partnerships and regional centres of excellence.

Table A: Capacity Building Grant

Community Relations: Finance

Dan Rogerson: To ask the Secretary of State for Communities and Local Government what the *(a)* administrative, *(b)* staffing and *(c)* other costs of the Preventing Violent Extremism programme have been since its inception. [218538]

Mr. Dhanda *[holding answer 14 July 2008]:* Although work on the Preventing Violent Extremism programme began in late 2006, the preventing extremism division in CLG did not become a separate financially accountable unit until April 2007. Therefore, between 1 April 2007 and June 2008, £466,352.48 has been spent on administration costs and £1,324,811.14 has been spent on staffing. In total, £20,372,055.43 has been spent on programme costs. This includes national project delivery and research as well as grant funding to local authorities and other organisations to run projects to tackle violent extremism.

Council Tax: Floods

John Mann: To ask the Secretary of State for Communities and Local Government what the maximum period is that a house made inhabitable by flooding may be exempt from council tax. [218399]

John Healey: Properties which are vacant and undergoing major repair work to make them habitable may be exempt from council tax, for a maximum of 12 months, under Class A of the Council Tax (Exempt Dwellings) Order 1992 (SI 1992/558).

The Government have recently announced that they will provide financial support to those local authorities who exercise their right under Section 13A of the Local Government Finance Act 1992 to grant discounts to owners of properties on which the 12 month exemption period has lapsed but which are still uninhabitable due to the June and July 2007 floods.

Departmental Disciplinary Proceedings

Mr. Redwood: To ask the Secretary of State for Communities and Local Government how many staff in her Department and its agencies have been *(a)* dismissed and *(b)* disciplined for their conduct in the last two years. [217411]

Mr. Dhanda: During the last two years our records show that the Department for Communities and Local Government has *(a)* dismissed one and *(b)* disciplined two members of the Department.

Departmental Retirement

Mr. Marsden: To ask the Secretary of State for Communities and Local Government how many employees in her Department and its predecessor have been asked to retire on reaching 65 years of age in each year since 2000. [218403]

Mr. Dhanda: The Department has a flexible retirement age, which allows employees below the senior civil service, to work until 70 if they wish. Prior to its introduction, there is no record of staff being asked to leave once they reached 65.

Departmental Sick Leave

Jenny Willott: To ask the Secretary of State for Communities and Local Government (1) how many sick days were taken by employees in *(a)* her Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility due to (i) stress and (ii) mental health and behavioural disorders in each of the last 10 years; what proportion of sick days taken this represented in each case; and if she will make a statement; [216087]

(2) how many staff in *(a)* her Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility have taken sick days due to

(i) stress and (ii) mental health and behavioural disorders in each of the last 10 years; what proportion of staff of each body this represented in each year; and if she will make a statement; [216095]

(3) what the average duration of single periods of sick leave taken by staff in *(a)* her Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility who gave (i) stress and (ii) mental health and behavioural disorders as the reason for their absence was in each of the last 10 years; and if she will make a statement; [216096]

(4) how many staff in *(a)* her Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility have received sick pay for sick leave due to (i) stress and (ii) mental health and behavioural disorders in each of the last 10 years; what the average length of time was for which sick pay was paid in these cases; and if she will make a statement. [216098]

Mr. Dhanda: Information for 2004, 2005, 2006-07 for the Department for Communities and Local Government and its agencies can be found on the civil service website:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

All three illnesses are grouped together as 'Mental and Behavioural Disorders'.

Data for 2007-08 are not yet available but will be published later in the year. For years prior to 2004 data are not held electronically and could be provided only at disproportionate cost.

Jenny Willott: To ask the Secretary of State for Communities and Local Government what the average duration of single periods of sick leave taken by staff in *(a)* her Department, *(b)* its agencies and *(c)* the non-departmental bodies for which it has responsibility was in each of the last five years; and if she will make a statement. [216097]

Mr. Dhanda: Data for 2004, 2005, 2006-07 for the Department for Communities and Local Government and its agencies can be found on the civil service website:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

Information relating to the Department for Communities and Local Government, the Planning Inspectorate, Fire Service College and QEII Conference Centre for 2008-09 is not yet available but will be published later in the year. For years prior to 2004 data are not held electronically and could be provided only at disproportionate cost.

David Simpson: To ask the Secretary of State for Communities and Local Government (1) how many staff in her Department have had five or more periods of sickness absence of less than five days in two or more of the last five years; [218963]

(2) how many and what percentage of staff in her Department have had more than two periods of sickness absence of less than five days in each of the last three years. [218725]

Mr. Dhanda: Information on sickness absence for 2004, 2005, 2006-07 for the Department for Communities and Local Government can be found on the civil service website:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

Data for 2007-08 are not yet available but will be published later in the year. For years prior to 2004 data are not held electronically and could be provided only at disproportionate cost.

Eco-towns: Curborough

Michael Fabricant: To ask the Secretary of State for Communities and Local Government whether Curborough remains on her Department's list of potential locations for eco-towns following the Curborough Consortium's decision to withdraw its application to build an eco-town. [217516]

Caroline Flint: I can confirm that the Curborough Consortium has withdrawn its eco-town proposal and the site is no longer on the long list of potential locations. We had to expect that some developers would and will decide to remove themselves from the long list, while others will not meet the high standards needed to make it through to our final shortlist.

However, where eco-towns proposals are withdrawn, the local authorities will have to face up to the challenge of increasing housing supply and find another way to address the need for housing, and in particular affordable housing.

Eco-towns: Staffordshire

Michael Fabricant: To ask the Secretary of State for Communities and Local Government what location for the proposed eco-town at Curborough, Staffordshire is indicated in the promotional materials published by her Department; what the location of the proposed site is; and what steps she plans to take to correct the promotional materials. [210209]

Caroline Flint *[holding answer 12 June 2008]:* As part of the first stage of consultation the proposed location for the eco-town at Curborough was set out in the consultation document "Eco-towns—Living a greener future". Through promotional material we have said that more information is available on our website, and this includes links to the initial expressions of interest by the promoter for the shortlisted locations, including Curborough. These provide further details about the location. The proposal for an eco-town at Curborough has since been withdrawn by the promoter.

Essex Police Authority: Council Tax

Mr. Amess: To ask the Secretary of State for Communities and Local Government what the police precept was on Band *(a)* A, *(b)* B, *(c)* C, *(d)* D, *(e)* E and *(f)* F bills for Essex Police Authority in each year since 2000. [217737]

John Healey: Details of the council tax precept for the Essex police authority in each year since 2000-01 are shown in the following table.

Valuation band ranges	Band A Under £40,000	Band B £40,001 to £52,000	Band C £52,001 to £68,000	Band D £68,001 to £88,000	Band E £88,001 to £120,000	Band F £120,001 to £160,000	Band G £160,001 to £320,000	£ Band H Over £320,000
Ratio to band D[1]	6/9	7/9	8/9	1	11/9	13/9	15/9	2
2000-01	45	53	60	68	83	98	113	136
2001-02	47	55	63	71	87	103	118	142
2002-03	52	60	69	78	95	112	129	155
2003-04	62	72	83	93	114	134	155	186
2004-05	66	77	88	99	121	143	165	199
2005-06	70	81	93	105	128	151	175	210
2006-07	74	86	99	111	136	160	185	222
2007-08	78	91	104	116	142	168	194	233
2008-09	81	95	109	122	149	177	204	244

[1] Within an authority, the council tax for each valuation band is a fixed ratio to that for band D. For example, a band A dwelling will pay 6/9 the band D amount, and a band H dwelling will pay twice the band D amount.

Ethnic Groups: Finance

Margaret Moran: To ask the Secretary of State for Communities and Local Government how many black and minority ethnic organisations are receiving funding from local authorities in 2008-09; and what assessment she has made of recent trends in the number of black and minority ethnic organisations receiving such funding. [218914]

Mr. Dhanda: This information is not held centrally and could be provided only at disproportionate cost.

Fire Services

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the research produced for her Department by the Centre for Economics and Business Research on the strategic review of fire and rescue services. [212726]

Mr. Dhanda: A summary of the research will be placed in the Library of the House.

Flood Control

Robert Neill: To ask the Secretary of State for Communities and Local Government what plans she has to require local authorities to produce local surface water management plans. [215063]

Mr. Woolas: I have been asked to reply.

I refer the hon. Member to the statement made on 25 June 2008, *Official Report*, column 301, by the Secretary of State for Environment, Food and Rural Affairs (Hilary Benn).

Food

Mr. Paice: To ask the Secretary of State for Communities and Local Government (1) how much was spent by her Department on *(a)* food and *(b)* food of British origin in each of the last five years; [214885]

(2) from which five countries of origin the greatest amount of food was procured by her Department in the last year for which figures are available; and what the *(a)* cost and *(b)* quantity procured was in each case. [214886]

Mr. Dhanda: The information requested could be provided only at disproportionate cost.

Housing: Low Incomes

Martin Horwood: To ask the Secretary of State for Communities and Local Government how many house sales have taken place under the HomeBuy scheme in each month since April 2006; and what the Government's targets for sales in each month were. [218860]

Caroline Flint: The following table shows the number of homes sold under the HomeBuy scheme in each month since April 2006:

	Open Market HomeBuy	NewBuild HomeBuy/Shared Ownership	Social HomeBuy
April 2006	38	0	0
May 2006	1	0	0
June 2006	44	0	0
July 2006	185	100	0
August 2006	377	151	0
September 2006	397	130	0
October 2006	372	87	0
November 2006	183	166	0
December 2006	166	374	0
January 2007	124	241	0
February 2007	211	282	17
March 2007	297	1492	30
April 2007	4	42	0
May 2007	230	55	0
June 2007	175	354	2
July 2007	171	296	11
August 2007	226	266	16
September 2007	161	676	10
October 2007	214	372	26
November 2007	213	418	8
December 2007	316	1367	18
January 2008	240	574	12
February 2008	341	1394	23
March 2008	585	4317	31
April 2008	31	126	2
May 2008	170	267	4
June 2008	439	705	20

We do not set individual monthly targets for Open Market HomeBuy or NewBuild HomeBuy to ensure flexibility within the programme. Social HomeBuy is a demand led product and as such no targets are associated with this programme.

Interreg Programme

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 14 May 2008, *Official Report*, column 1636W, on the Interreg Programme, if she will place in the Library a copy of the updated edition of the INTERACT Handbook that was produced for the Interinstitutional Conference on the European Grouping of Territorial Co-operation, held in Brussels in June 2008. [217823]

John Healey: I have placed a copy of the updated INTERACT Handbook on the European Grouping of Territorial Co-operation in the Library of the House.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 14 May 2008, *Official Report*, column 1636W, on the Interreg Programme, whether bodies set up under the provisions of European Grouping of Territorial Co-operation Regulations 2007, with a registered office in the United Kingdom, will be a public authority for the purposes of the Freedom of Information Act 2000. [217824]

John Healey: For the purposes of the Freedom of Information Act, bodies with a registered office in the United Kingdom set up under the provisions of the European Grouping of Territorial Co-operation Regulations 2007 are not designated as public authorities.

Landfill Tax

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the Answer of 21 May 2008, *Official Report*, column 318W, on landfill tax, what the notional amount of funding given to local authorities in each year since 2003 to compensate for rising landfill tax was, according to calculations held by her Department when drawing up the local government finance settlement. [217820]

John Healey: Formula Grant is not hypothecated. It is not therefore possible to identify an amount provided for a particular item of expenditure.

Local Government Finance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the effects of oil price changes on local authority costs. [217838]

John Healey: The Government have given local government the stability and certainty it asked for, in providing a three-year financial settlement for the period from 2008-09 to 2010-11. We have continued to provide real terms increases in funding for local government, with overall Government grant increasing by an annual average of 1.5 per cent. up to 2010-11. It is for local authorities, as for other organisations, to assess and manage in-year pressures on their budgets such as increases in fuel prices.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what assessment she has made of the capacity of local authorities to increase their revenue through greater use of charging powers; and if she will make a statement. [217851]

John Healey: The need for consistent and creative approaches to charging was highlighted in the recent Audit Commission report "Positively Charged". It showed that the approaches local authorities take to charging vary widely across the country and that the best authorities are using charges, with public backing, to improve services. The Government have made no separate assessment of local authorities' capacity to increase revenue through their use of charging powers.

Local Government: Elections

Mrs. Riordan: To ask the Secretary of State for Communities and Local Government what the average turnout for local council elections in Halifax has been since 1988. [219061]

Mr. Dhanda: Since 1988, the average voter turnout for the Calderdale council wards falling wholly or mostly within the Halifax parliamentary constituency has been 36.62 per cent. Averages by year are:-

	Average voter turnout
1988	35.81
1990	45.46
1991	41.37
1992	36.26
1994	40.72
1995	36.05
1996	32.55
1998	30.00
1999	29.06
2000	26.85
2002	30.65
2003	38.27
2004	49.96
2006	37.81
2007	37.53
2008	37.57

The Wards concerned are:-

1998 to 2003 election

Illingworth
Mixenden
Northowram and Shelf
Ovenden
St. John's
Skircoat
Sowerby Bridge
Town
Warley

2004 elections to present

Illingworth and Mixenden
Northowram and Shelf
Ovenden
Park
Skircoat

Sowerby Bridge

Town

Warley

Ward boundary changes took effect on 1 December 2003.

Local Government: Standards

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what targets she plans to set for local authorities for national indicator 154 under local area agreements. [217840]

John Healey: Targets in local area agreements (LAAs) are set by agreement between each local area, led by its local authority, and the Government. LAAs are now in place in all 150 local areas in England. Details on each LAA, including the agreed targets, are available at:

www.localprioritiescommunities.gov.uk

and

http://www.idea.gov.uk/idk/core/page.do?pageId=8399555.

Maps: Databases

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what geo-spatial and geo-demographic data from her Department's Maps on Tap database are used by the Valuation Office Agency. [217850]

John Healey: None. I refer the hon. Member to the answer I gave to the hon. Member for Welwyn Hatfield (Grant Shapps) on 1 July 2008, *Official Report*, column 789W.

Michael Clark

Mr. Spellar: To ask the Secretary of State for Communities and Local Government pursuant to the Answer of 20 May 2008, *Official Report*, columns 267-8W, on Michael Clark, when she expects the review by West Yorkshire MAPPA to be published. [219791]

Mr. Dhanda: The West Yorkshire MAPPA strategic management board is meeting on 18 July to consider the report prepared by its review panel into the murder committed by Michael Clark. The strategic management board will consider whether it is satisfied with the report or whether further work needs to be undertaken. The strategic management board will consider any recommendations and what actions, if any, need to be taken. It is for the strategic management board to determine whether or not to publish the report.

Non-domestic Rates: Valuation

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the cost to her Department was of providing business rate revaluation transitional relief in each year from 2000 to 2005. [217661]

John Healey: There was no cost to the Department. The 2000 to 2005 transitional relief scheme was, and continues to be, designed so that it is financed from other business rate payers, so that the gross income remained the same overall.

Parish Councils

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what criteria parish councils must meet to achieve Quality Parish status. [217805]

John Healey: The criteria are set out in the revised Guide to becoming a Quality Council, which was published by the National Association of Local Councils in June 2008.

Planning

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Beckenham of 14 May 2008, *Official Report*, column 1636W, on planning, whether the national policy statement on waste will cover planning policy relating to *(a)* landfill sites, *(b)* incinerators and *(c)* civic amenity sites. [217955]

John Healey: National policy statements will only deal with the types of infrastructure set out in clause 14(1) of the Planning Bill. We are still considering the particular detail of each national policy statement, and will make further announcements in due course.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Beckenham of 14 May 2008, *Official Report*, column 1636W, on planning, whether the national policy statement on waste will be technology-specific. [217956]

John Healey: We are still considering the particular detail of each national policy statement, and will make further announcements in due course.

Property: Photographs

Mr. Pickles: To ask the Secretary of State for Communities and Local Government with reference to the answer of 25 June 2007, *Official Report*, columns 177-78W, on property: photographs, if she will provide the information given in the answer as at June 2008. [217821]

John Healey: For England, I refer the hon. Member to the answer I gave to the hon. Member for Welwyn Hatfield (Grant Shapps) on 7 July 2008, *Official Report*, column 1363W. Council tax in Wales is a devolved matter.

A breakdown by local authority could be provided only at disproportionate cost.

Regional Planning and Development: Eco-towns

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the Answer of 19 May 2008, *Official Report*, column 47W,

on regional planning and development: eco towns, whether the Regional Spatial Strategy partial reviews will be *(a)* commenced or *(b)* finished by 2011. [217822]

Caroline Flint: In the Housing Green Paper we said we would initiate partial reviews of Regional Spatial Strategies where necessary to ensure provision for 240,000 net additions per annum by 2016. Given changes in the housing market over the last year the Government have decided that we will work with regional partners on a flexible basis to agree the work programme and timetable with each Regional Assembly. This will take account of regional priorities and demands, including longer term housing needs, proposals for eco towns and new growth points, and the need to manage the transition to the proposed Single Regional Strategy.

Travelling People: Council Tax

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what criteria are applied by the Valuation Office Agency to determine whether a Traveller caravan should be rated for council tax purposes. [217803]

John Healey: Criteria applied are, that a pitch must be occupied (i) by a caravan that is a sole or main residence of an individual and (ii) in such a way, and with sufficient permanence, as to qualify as a hereditament, or part of a hereditament.

Valuation Office: Maps

Mr. Pickles: To ask the Secretary of State for Communities and Local Government with reference to the Answer of 19 June 2006, *Official Report*, columns 1600-01W, whether the Valuation Office Agency holds hard copy or electronic maps of each locality. [217963]

John Healey: The current delineation of each locality in England is held in electronic format.

CHILDREN, SCHOOLS AND FAMILIES

Children: Disabled

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what recent steps the Government has taken to assist schools with disabled pupils. [207424]

Kevin Brennan: In June 2006, we published the training resource "Implementing the Disability Discrimination Act in schools and early years settings" and made it available to all schools and local authorities. This was prepared with the Disability Rights Commission, and provides schools and LAs with practical tools to improve their effectiveness. It helps them to make reasonable adjustments for disabled pupils, and to review and revise their accessibility plans. These show how schools will increase access for disabled pupils to school premises and facilities, to the curriculum, and to information in alternative formats. A series of regional conferences was organised to publicise and disseminate the resource.

In 2007, we published additional guidance to support schools in implementing the disability equality duty and developing their disability equality scheme. This guidance is published as part of the same resource. It was also disseminated through a series of regional conferences.

We have also assisted schools to address bullying against disabled children and those with special educational needs by publishing "Bullying Involving Children with Special Educational Needs and Disability", on 15 May 2008.

Children: Disadvantaged

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) what estimate he has made of the number of children entitled to but not taking up free school meals; [219226]

(2) what estimate he has made of the number of children living in poverty who are not claiming free school meals. [219227]

Kevin Brennan: The requested information is not available.

We do not collect information on the number of pupils who may be eligible for free school meals but do not register as eligible.

Children: Poverty

John Battle: To ask the Secretary of State for Children, Schools and Families how many children were in poverty in *(a)* Leeds West, *(b)* Leeds Metropolitan District and *(c)* the UK in (i) 1997 and (ii) 2007; and if he will make a statement. [215403]

Mr. Timms: I have been asked to reply.

The available information, published in the Households Below Average Income series, is that there were 3.4 million children living in households in Great Britain with below 60 per cent. of median contemporary income before housing costs in 1997/98; and there were 2.9 million such children in the United Kingdom in 2006/07. The Households Below Average Income series cannot provide information below the level of Government office region.

Work is currently under way to develop an indicator of child poverty at the local level that will measure the proportion of children in families living in poverty in both out of work and in work families. It is intended that this indicator will be used as the local area agreement child poverty indicator from April 2009 onwards.

Departmental Co-ordination: Dept for Innovation Universities and Skills

Michael Gove: To ask the Secretary of State for Children, Schools and Families when he last met the Secretary of State for Innovation, Universities and Skills to discuss co-ordination of policy between the two Departments. [217052]

Kevin Brennan: My right hon. Friend the Secretary of State for Children, Schools and Families has regular meetings and discussions with ministerial colleagues on issues of mutual interest.

Departmental Co-ordination: Ministry of Justice

Michael Gove: To ask the Secretary of State for Children, Schools and Families when he last met the Secretary of State for Justice to discuss co-ordination of policy between their two Departments. [217051]

Kevin Brennan: My right hon. Friend the Secretary of State for Children, Schools and Families has regular meetings and discussions with ministerial colleagues on issues of mutual interest.

Departmental Pay

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how much the directors in his Department have been paid in bonuses in the last 12 months; [219286]

(2) how much has been paid in bonuses to senior civil servants in his Department since its establishment. [219565]

Kevin Brennan: The Department was created on 28 June 2007. The breakdown of bonuses for the senior civil service for the 2007-08 financial year is set out in the following table:

£

	Number of bonus awards made to senior civil servants in DCSF	*Total cost of the bonuses awarded*
2007-08	91	577,972.38

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Children, Schools and Families how many staff in his Department have had five or more periods of sickness absence of less than five days in two or more of the last five years. [218962]

Kevin Brennan: Since the Department was formed in the 28 June 2007 Machinery of Government changes, 67 staff have had five or more periods of sickness absence of less than five days. This applies from the date of establishment of the Department to 31 March 2008 (the latest information available).

Fish

Mr. Peter Ainsworth: To ask the Secretary of State for Children, Schools and Families how much fish was procured by his Department and at what cost in each of the last five years, broken down by species; and what amount and value of such fish met the Marine Stewardship Council standard in each such year, broken down by species. [217897]

Kevin Brennan: The Department for Children, Schools and Families catering service is contracted out and the information requested could only be provided at disproportionate cost.

Home Information Packs

Robert Neill: To ask the Secretary of State for Children, Schools and Families how many home information packs have been commissioned by *(a)* his Department and *(b)* its agencies to market a residential property; for which properties; at what cost; and whether a voluntary home condition report was purchased as part of the packs. [219015]

Kevin Brennan: The requirement to prepare Home Information Packs applies to the marketing for sale of residential properties. This Department has not been involved in any such transactions since 1 August 2007.

Parents: Alcoholism

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of children living with an alcoholic parent in each of the last 10 years. [218433]

Beverley Hughes: The Government do not annually record the number of young people affected by parental alcohol misuse. However the Interim Analytical report produced for the 2004 report 'Alcohol Harm Reduction Strategy for England' by the Prime Ministers Strategy Unit estimates that between 780,000 and 1.3 million children are affected by parental alcohol problems.

The Government recognise that parental alcohol misuse is a serious problem in the family and has negative effects on a child's life chances. This is why my Department is investing in targeted services for those families at risk that will help to reduce the risk of dependency on alcohol and break the cycle of problems being transferred between generations. The drugs strategy 'Drugs: Protecting Families and Communities', published in February 2008, introduced families as a key priority and highlighted the need for support to prevent future problems for children. This proposed a programme of intensive support services to reach the most chaotic families through the Family Interventions project; and Family Pathfinders to develop local systems and services that improve outcomes for families at risk. We are committed to further evaluating a number of programmes to better gauge their impact on reducing alcohol problems.

Personal Injury

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families what the highest 10 payments made by his Department in settlement of personal injury claims brought against it were over the last 12 months for which figures are available; which of those cases were *(a)* contested and *(b)* uncontested by the Department; and what the nature of the incident was in each case. [216676]

Kevin Brennan: The Department has made two settlements in respect of personal injury claims brought against it over the last 12 months for which figures are available, which covers the period 1 December 2006 to 30 November 2007. Both claims were contested. No payments have been made in settlement of personal injury claims since November 2007.

Because of the low numbers involved, disclosure of any details of the claims would allow the individuals to be identified.

Positive Activities for Young People Programme

Sarah Teather: To ask the Secretary of State for Children, Schools and Families what steps he took in choosing local authorities to take part in the COO-L positive activities bursary pilot. [219582]

Beverley Hughes: The two COO-L (Choice and Opportunities On-Line) pilots are part of a programme involving nine local authorities to test different approaches to addressing the particular barriers to participation in positive activities that exist for disadvantaged young people in their area. Local authorities were invited to take part because the development work they had already undertaken, as pilot areas for the youth opportunity card, showed evidence of the benefits to be gained both for disadvantaged young people in their area and in informing national strategy on youth activities. Each local authority was required to submit a detailed plan, demonstrating value for money, against clearly defined criteria.

Pre-school Education: Finance

Susan Kramer: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 19 June 2008, *Official Report*, columns 1149-51W, on pre-school education: finance, if he will break down the budget lines for *(a)* 2005-06, *(b)* 2006-07 and *(c)* 2007-08 by category of expenditure; and if he will make a statement. [219085]

Beverley Hughes: Expenditure on under fives is provided to local authorities in a single amount as part of the wider Dedicated Schools Grant (DSG) which provides funding to schools across the 3 to 16 age range. It is a matter for each local authority to distribute the grant between all schools and early years settings in response to local needs.

Pupil Referral Units: Special Educational Needs

Michael Gove: To ask the Secretary of State for Children, Schools and Families what percentage of pupils with statements of special educational needs in pupil referral units obtained one or more GCSEs at grades A* to C in the school year 2006-07. [219264]

Kevin Brennan: The information required to answer this question is not held centrally.

Pupil Referral Units: Truancy

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many pupils received *(a)* temporary and *(b)* permanent exclusions from pupil referral units in school year 2006-07; [219261]

(2) how many unauthorised absences there were of pupils in pupil referral units in *(a)* 2004-05, *(b)* 2005-06 and *(c)* 2006-07 . [219265]

(3) what percentage of pupils in pupil referral units were classed as persistent truants in school year 2006-07. [219266]

Kevin Brennan: The requested information on exclusions from Pupil Referral Units in 2006-07 is not collected centrally. Information is available for the years 2004-03 and 2004-05 and this is shown in the following table.

Information on absence from Pupil Referral Units for complete school years is not yet collected centrally, therefore no information is available on unauthorised absence or persistent absentees (pupils who are absent for more than 20 per cent. of possible sessions of attendance). Information for the 2007-08 school year will be collected in spring 2009; however, this does not include information on persistent absentees. The Department does not maintain records of 'truancy', as authorised absence rates include lateness and unauthorised holidays during term time.

Pupil referral units: Number and percentage of exclusions 2003-04: England

	Permanent exclusions				*Fixed period exclusions*			
	2003-04		*2004-05*		*2003-04*		*2004-05*	
	Number	*Percentage*[1]	*Number*	*Percentage*[1]	*Number*	*Percentage*[1]	*Number*	*Percentage*[1]
England[2]	30	0.26	40	0.28	5,780	44.34	7,630	52.75

[1] The number of exclusions expressed as a percentage of the number of pupils in Pupil Referral Units.
[2] National figures have been rounded to the nearest 10.
Source:
Termly exclusions survey.

Pupils: Diabetes

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to ensure that children and young people with diabetes receive the support they need to manage their condition in school. [219504]

Kevin Brennan: The Department issued guidance entitled 'Managing Medicines in Schools and Early Years Settings', in 2005. This guidance was published jointly with the Department of Health, and specifically addresses what schools can do to help children with diabetes and other medical conditions. We also produced sister guidance in the same year, entitled 'Including Me: managing complex health needs in schools and early years settings'.

In April 2007, the Department of Health published a report entitled 'Making Every Young Person with Diabetes Matter', and has convened a group to support the implementation of best practice as set out in the report. The Department for Children, Schools and Families is represented on that group.

Schools: Bureaucracy

Mr. Malins: To ask the Secretary of State for Children, Schools and Families what proposals he has to reduce levels of bureaucracy in schools following the introduction of the New Relationship with schools; and if he will make a statement. [219036]

Jim Knight: The New Relationship with Schools was launched in early 2004 with two aims: to lift burdens from schools and also to sharpen school accountability. It was prompted by a review in 2003 which reported that schools felt burdened and confused by the demands placed on them by Government and other external agencies. Changes since 2004 have yielded significant reductions in burdens:

- the establishment of new, simplified, processes for schools to supply data to Government and non-departmental public bodies;
- simplification of school funding arrangements so that there are now far fewer distinct funding elements for schools to account for separately;
- replacement of large paper mailings to schools with electronic provision of information;
- replacement of each school's Governors' annual report to parents and annual meeting for parents with a School Profile containing some nationally provided data and narrative written by each school to a nationally set format;
- use of inspection reports to determine renewal of specialist schools' status instead of the specific application forms that schools had to fill in formerly.

With these gains now achieved, our approach now is to tackle the issue of burdens as an integral part of the development of any policy affecting schools. Our Children's Plan sets out an important enhanced role for schools, alongside other children's services, in helping all children live happy and fulfilling lives. So we keep the issue of burdens on schools under constant review as we develop all our policies. To take two examples,

- a standing group of school leaders will this week be scrutinising the burdens resulting from the measures schools have to take to prevent the employment of unsuitable adults to work with children;
- we are working with a group of representatives from schools and the school work force to design indicators of schools' performance in supporting children's general well-being.

This approach recognises and tackles important imperatives which can pull in different directions and where the balance is not always easy to strike.

Schools: Disabled

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) how many *(a)* secondary schools, *(b)* special schools and *(c)* primary schools have put a disability equality scheme in place; [218132]

(2) what steps his Department is taking to assist schools to develop a disability equality scheme where such schemes do not already exist; and if he will make a statement; [218133]

(3) what steps his Department is taking to monitor the implementation of schools' disability equality schemes; and if he will make a statement; [218134]

(4) what arrangements his Department has put in place to monitor the extent to which schools achieve compliance with the provisions of the Disability Discrimination Act 2005. [218135]

Kevin Brennan: Local authorities and schools are required by the Disability Discrimination Act 1995 (as amended) to develop accessibility strategies and plans to improve access to school education for disabled pupils, and to have disability equality schemes. We would expect all schools and local authorities to meet their statutory duties under the Act, including schools informing parents of the accessibility plan and disability equality scheme and providing annual progress reports. To aid schools and local authorities in developing their accessibility and equality plans, the Government have issued a training resource entitled 'Implementing the Disability Discrimination Act (DDA) in schools and early years settings'. This provides schools and local authorities with practical tools to improve their effectiveness in (a) making reasonable adjustments to include disabled pupils and (b) in reviewing and revising their accessibility plans. In 2006, the Government facilitated a number of national roadshows to aid schools and local authorities in developing reasonable adjustments and accessibility plans. In 2007, the Government facilitated a further series of roadshows to support schools and local authorities in developing their disability equality schemes.

Schools are also expected to complete Ofsted's self-evaluation form to outline the extent to which they have complied with the general requirements of the Act and other equalities legislation, as part of the inspection arrangements. The National Strategies SEN regional advisers' visits to local authorities also consider whether systems are in place for assessing whether schools have disability equality schemes.

The Secretary of State has the power to direct a school or local authority not fulfilling their duties in relation to accessibility strategies and plans. The Equalities and Human Rights Commission is responsible for taking action against a school that has not met its duties under the disability equality duty (part 5 of the DDA). We would expect all schools and local authorities to have disability equality schemes and do not collect data centrally on those which have them in place.

Schools: Transport

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many local authorities did not produce a transport policy statement under Schedule 19 of the Education Act 2002 in each of the last three years. [216078]

Jim Knight: We of course expect all local authorities to satisfy their duties under the Education Act 1996 (as amended by the Education Act 2002). Local authorities in England are required to prepare and publish a transport policy statement specifying what arrangements for the provision of transport or otherwise, and for the provision of financial assistance in respect of travelling expenses, it considers necessary to facilitate attendance at schools and institutions of further education of students who are over compulsory school age but under 19 and students who are over 19 but who began their course before they reached 19.

The Learning and Skills Council (LSC) has responsibility for delivering the administrative functions in relation to local authority duties for transport for people of sixth form age (as set out in the Education and Inspections Act 2006 and related statutory instrument).

Therefore, I will make arrangements for Mark Haysom, the LSC's Chief Executive, to write to the hon. Member for Yeovil with the information requested and a copy of his reply will be placed in the House Library.

Letter from Mark Haysom dated 14 July 2008:

I am writing in response to your Parliamentary Questions that asked; "How many local authorities did not produce a transport policy statement under Schedule 19 of the Education Act 2002 in each of the last three years". (216078)

"What assessment the Learning and Skills Council has made of transport policy statements produced under Schedule 19 of the Education Act 2002; and if he will make a statement" (216079)

Under s509AB(5) of the Education Act 1996 (as amended by the Education and Inspections Act 2006) the Learning and Skills Council (LSC) has power to issue guidance to local authorities in respect of the preparation of their transport statements and the local authority must have regard to that guidance in preparing the statement. The LSC can also specify persons with whom the local authority must consult in preparing its statement.

The LSC issues annual guidance to Local Authorities pursuant to this power. It also administers the transport partnership funding on behalf of the Department for Children, Schools and Families.

The LSC also has certain powers and duties in relation to the Secretary of States' powers under the Education Act 1996 to ensure that local authorities carry out their statutory duties in relation to transport for post-16 learners. In summary the LSC has the responsibility of trying to resolve complaints and challenges in relation to the exercise by local authorities of their duties in relation to transport for learners of sixth form age. However the power to give directions to local authorities in the event they are failing to comply with their duties in relation to transport statements rests with the Secretary of State.

It should be noted that the LSC does not have any power or duty to formally approve the local authority's transport statement and giving formal approval would potentially conflict with the LSC's duties to consider complaints and challenges to local authority's exercise of their responsibilities. Furthermore although there is a requirement for local authorities to consult the LSC in preparing their statements there is no statutory requirement that the statements must be approved by the LSC. This consultation is carried out through the local transport partnership of which LSC Area Teams are a member. The partnership considers whether statement is comprehensive and responds to local transport issues but the LSC does not assess the local authority transport policy statement to determine compliance with its legal obligations.

Figures below indicate the number of local authorities who provided the LSC with a copy of their annual transport policy statement (out of a total of 150 local authorities)

05/06 – 130

06/07 – 146

07/08 – 148

Specialised Diplomas: Young Offender Institutions

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many young offender institutions he expects will offer teaching for the new diplomas in *(a)* September 2008, *(b)* September 2009 and *(c)* September 2010; and if he will make a statement. [219237]

Beverley Hughes: Teaching for the new Diplomas is not scheduled to be offered in Young Offender Institutions (YOIs) in September 2008 or 2009, although HMYOI Lancaster Farms is currently participating in a functional skills pilot. YOIs wishing to deliver Diplomas from 2010 will be able to apply through the Diploma Gateway this autumn and applications from YOIs will be welcomed.

As part of the implementation of the 14-19 reforms and our plans to improve education in custody, we are considering how we best deliver the 14-19 curriculum for young people in juvenile custody.

Wood

Mr. Peter Ainsworth: To ask the Secretary of State for Children, Schools and Families (1) how much timber and timber products were procured by his Department and its predecessor in each of the last five years; and at what cost; [213719]

(2) how much timber and timber products were procured by his Department and its predecessor originating from independently verified legal and sustainable sources or from a licensed FLEGT partner in each of the last five years; and at what cost. [213720]

Kevin Brennan: The Department for Children, Schools and Families (DCSF) can only provide aggregate spend for the purchase of office furniture which includes chairs and other non timber purchases. It does not hold separate information on timber products alone and is therefore unable to provide costs on those timber products which originated from independently verified legal and sustainable sources or from licensed FLEGT partners. The breakdown of aggregate spend for each of the last fours years is:

	Total cost (£)
2004-05	524,490
2005-06	315,124
2006-07	123,703
2007-08	1,269,169

DCSF, like all central Government Departments, actively seek to buy all wood and wood products (including furniture) from legal sustainable sources. From April 2009, all Departments will be required to procure legal and sustainable timber or timber licensed under the EU's Forest Law Enforcement, Government and Trade (FLEGT) initiative.

Young People: Unemployment

Mr. Willetts: To ask the Secretary of State for Children, Schools and Families what datasets his Department publishes which include information on the number of young people who are not in employment, education or training; and what the expected date of next publication of each set of data is. [219344]

Beverley Hughes: The Department's principal estimates of the number of young people of academic age 16 to 18 who are not in education, employment or training (NEET) are based on data from a range of administrative sources and the Labour Force Survey (LFS), and are published annually in a Statistical First Release each June. The most recent publication can be found via the following link: http://www.dfes.gov.uk/rsgateway/DB/SFR/s000792/index.shtml. These data are used to measure the Department's target to reduce the number of young people NEET by 2 percentage points by 2010 (from a baseline of 9.6 per cent. at end 2004).

NEET estimates based solely on the LFS are published by the Department quarterly following the release of each LFS Quarterly dataset. They are published in the NEET Quarterly Brief, available on the Department's Research and Statistics Gateway. As a sample survey, LFS estimates of NEET are subject to sampling error, and these estimates are not as accurate as the official measure outlined above. However, they allow monitoring of in-year trends in the numbers of young people NEET.

The Department publishes figures on young people NEET from the Youth Cohort Study (YCS). For the first time, in 2008, these published statistics also used data from the Longitudinal Study of Young People in England (LSYPE). Both of these sources are sample surveys, and provide information on young people from a single cohort rather than across the 16 to 18 age range. While the estimates of NEET produced from these sources are not accurate as the SFR measure, they are useful in providing breakdowns of NEET by characteristics and background. The next publication date for these combined data will be announced in the schedule of publications to be issued in March 2009.

Connexions services also collect information on young people known to them to be NEET. Connexions data on the number and proportion of 16 to 18-year-olds NEET in each local authority are made publicly available on the DCSF website. Figures for the end of each year are made available by April of the following year.

INNOVATION, UNIVERSITIES AND SKILLS

Departmental Information Officers

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills what the average cost to his Department was of employing a press and media officer in 2007-08. [215190]

Mr. Lammy: The Department's average cost to employ a press and media officer is;

Information officer	£
Monthly salary	2,748.50
Monthly ERNIC	207.54
Monthly Superannuation	535.74
Total monthly pay costs	3,491.78

Departmental Manpower

Mr. Maude: To ask the Secretary of State for Innovation, Universities and Skills how many permanent staff in *(a)* his Department and *(b)* its agencies are classed as (i) staff without posts and (ii) part of a people action team. [215570]

Mr. Lammy: There are currently 11 staff in the Department who are classed as priority movers and are actively seeking posts within the Department or elsewhere in the civil service. The Department actively manages and supports employees in this position by ensuring access to vacancy information and engaging them in project work and other posts until a permanent position is secured.

The Department's agencies have delegated responsibility for their human resource functions and the information requested is not held centrally.

Departmental Responsibilities

Mr. Maude: To ask the Secretary of State for Innovation, Universities and Skills how many reviews of regulation *(a)* his Department and *(b)* its agencies have conducted or commenced since its establishment; and in which areas. [215621]

Mr. Lammy: The Department for Innovation, Universities and Skills was created one year ago. Since then, DIUS, the National Weights and Measures Laboratory and the Intellectual Property Office have reviewed six policy areas, which resulted in 18 amended or consolidated pieces of regulation.

The number of statutory instruments fully or partially revoked as a result of these reviews could be provided only at disproportionate cost.

Education: Transport

Mr. Laws: To ask the Secretary of State for Innovation, Universities and Skills what assessment the Learning and Skills Council has made of transport policy statements produced under Schedule 19 of the Education Act 2002; and if he will make a statement. [216079]

Jim Knight: I have been asked to reply.

The Learning and Skills Council (LSC) has responsibility for delivering the administrative functions in relation to local authority duties for transport for young people of 6th form age (as set out in the Education and Inspections Act 2006 and related statutory instrument).

Therefore, I will make arrangements for Mark Haysom, the LSC's chief executive, to write to the hon. Member for Yeovil with the information requested and a copy of his reply will be placed in the House Library.

Letter from Mark Haysom, dated 14 July 2008:

I am writing in response to your Parliamentary Questions that asked; "How many local authorities did not produce a transport policy statement under Schedule 19 of the Education Act 2002 in each of the last three years". (216078)

"What assessment the Learning and Skills Council has made of transport policy statements produced under Schedule 19 of the Education Act 2002; and if he will make a statement". (216079)

Under s509AB(5) of the Education Act 1996 (as amended by the Education and Inspections Act 2006) the Learning and Skills Council (LSC) has power to issue guidance to local authorities in respect of the preparation of their transport statements and the local authority must have regard to that guidance in preparing the statement. The LSC can also specify persons with whom the local authority must consult in preparing its statement.

The LSC issues annual guidance to Local Authorities pursuant to this power. It also administers the transport partnership funding on behalf of the Department for Children, Schools and Families.

The LSC also has certain powers and duties in relation to the Secretary of States' powers under the Education Act 1996 to ensure that local authorities carry out their statutory duties in relation to transport for post-16 learners. In summary the LSC has the responsibility of trying to resolve complaints and challenges in relation to the exercise by local authorities of their duties in relation to transport for learners of sixth form age. However the power to give directions to local authorities in the event they are failing to comply with their duties in relation to transport statements rests with the Secretary of State.

It should be noted that the LSC does not have any power or duty to formally approve the local authority's transport statement and giving formal approval would potentially conflict with the LSC's duties to consider complaints and challenges to local authority's exercise of their responsibilities. Furthermore although there is a requirement for local authorities to consult the LSC in preparing their statements there is no statutory requirement that the statements must be approved by the LSC. This consultation is carried out through the local transport partnership of which LSC Area Teams are a member. The partnership considers whether statement is comprehensive and responds to local transport issues but the LSC does not assess the local authority transport policy statement to determine compliance with its legal obligations.

The following figures indicate the number of local authorities who provided the LSC with a copy of their annual transport policy statement (out of a total of 150 local authorities).

	Number of authorities
2005/06	130
2006/07	146
2007/08	148

European Institute of Technology and Innovation

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what his policy is on the establishment of a European Institute of Technology and Innovation. [218000]

Mr. Lammy: The Government welcome the recent adoption by the Council and European Parliament of a regulation establishing the European Institute for Innovation and Technology (EIT). The regulation provides a solid basis for the EIT to support European innovation through the creation of partnerships (to be known as "Knowledge and Innovation Communities") between existing excellent universities, research organisations and businesses in strategically important fields. The Government consider that a high calibre independent Governing Board, which is due to be appointed shortly, will play a key role in building the EIT's reputation. The board is expected to develop detailed operational criteria in the coming months, which will enable the first KICs to be launched around spring 2010. The decision, agreed unanimously in June 2008, that the administrative headquarters will be located in Budapest, should also help ensure that the EIT becomes operational with minimum delay.

Higher Education: Further Education

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills how many and what proportion of students studying for a higher education qualification in a further education college are *(a)* directly funded by the Higher Education Funding Council for England, *(b)* funded via a university and *(c)* funded by the Learning and Skills Council; and what proportion each of these groups form of the total number of higher education students in England. [216888]

Bill Rammell: The latest available information is given in the table.

Higher education enrolments by source of funding, English further education colleges[1], 2005/06[2] and 2006/07[3] academic years

	Number	*Proportion (Percentage)*	*Proportion of all higher education enrolments[4] (Percentage)*
Total higher education enrolments at further education colleges[5]	181,055	100.0	9.2
Of Which:			
Directly funded by HEFCE[6]	54,250	30.0	2.8
Funded via a university[7]	50,015	27.6	2.5
Funded by LSC	55,675	30.7	2.8

[1] The figures have not been adjusted for colleges that transferred during this period from the FE to the HE sector, or for those which merged with HE institutions.
[2] Funded via a university figures come from the 2005/06 HESA record. 2006/07 HESA data are available but the equivalent analysis has not been performed.
[3] 2006/07 data is provisional. The final sweep of 2006/07 data will be available in January 2009.
[4] All higher education enrolments cover higher education enrolments at further education colleges plus higher education enrolments at higher education institutions. The underlying higher education institution data comes from the Higher Education Statistics Agency (HESA) student record and is on a DIUS whole year count basis. Includes students registered by an English HE institution that are taught at any UK FE college (not just English FE colleges).
[5] Includes students with other sources of funding, therefore the sum of HEFCE funded, funded via a university and LSC funded will not sum to the number of all enrolments; likewise the proportions will not sum to 100 per cent.
[6] Includes students funded via a HEFCE-recognised funding consortium led by an HE institution.
[7] Include students registered at any English HE institution, this includes HE colleges as well as universities.
Notes:
1. Figures are on a DIUS whole year count basis, which counts students enrolled at any point in the academic year.
2. Figures have been rounded to the nearest five and proportions have been rounded to one decimal place.
Source:
Learning and Skills Council (LSC) individualised learner record (ILR) apart from funded via a university figures which are from the 2005/06 Higher Education Statistics Agency (HESA) student record.

Higher Education: Student Numbers

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills how many undergraduates in universities in England from households with incomes of *(a)* up to £25,000, *(b)* £25,000 to £27,120, *(c)* £27,120 to £30,000, *(d)* £30,000 to £35,000, *(e)* £35,000 to £38,330 and *(f)* greater than £38,331 attended university in each year since 2006-07 for which figures are available. [205866]

Bill Rammell *[holding answer 15 May 2008]:* Complete information on household incomes of students is not available centrally.

The recently announced reforms for 2008/09 mean we estimate that around one third of eligible full-time students will be entitled to a full grant. These students will have a residual household income of £25,000 or less. We also estimate around a third will be entitled to a partial grant, equivalent to a residual household income between £25,000 and £60,005.

Due to these reforms by 2011, we estimate that the number of full-time students receiving some level of grant will increase by around 100,000. As part of this change, we estimate an extra 50,000 students will receive a full grant.

Mathematics: Graduates

Mr. Evans: To ask the Secretary of State for Innovation, Universities and Skills what recent representations he has received on the adequacy of supply of graduates in mathematics and sciences. [218733]

Ian Pearson: There have been representations from a range of organisations who have raised issues concerning the supply of graduates in mathematics and sciences. DIUS Ministers have met senior representatives from professional, educational and business organisations, including the Wellcome Trust, the National Academies, the Royal Society of Chemistry, the Institute of Physics, GlaxoSmithKline, the Business Council for Britain, CBI, Shell UK, Universities UK, National Science Learning Centre, the Science, Technology, Engineering and Mathematics Network (STEMNET) and many others. DIUS Ministers and officials have also corresponded with numerous organisations and individuals on this issue, and my Department maintains an active dialogue with many of these.

The Government are committed to increasing the number of young people studying science, technology, engineering and mathematics (STEM) at higher education level. DIUS supports a range of measures, and works closely with the Department for Children, Schools and Families (DCSF), to raise awareness of these subjects and to increase the engagement of young people in STEM activities to encourage them to pursue these subjects beyond school.

The Higher Education Funding Council for England (HEFCE) is providing £160 million over five years to increase the demand for and supply of students doing strategically important and vulnerable subjects, of which the majority will be spent on STEM subjects. Additional funding of £75 million has also been made available from 2007-08 for three years, for high-cost strategic science subjects at undergraduate level, including chemistry, physics and chemical engineering.

Medicine: Education

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills what discussions he and his Department's officials have had with their counterparts in the Department of Health on the adequacy of student financial support available through the Student Loans Company and the NHS Grants Unit for medical students. [216929]

Bill Rammell: Maintenance and tuition fee support for medical students is shared between the Department for Innovation, Universities and Skills and the Department of Health; the Department's officials meet regularly to consider issues of mutual interest.

Students on the standard undergraduate medical and dental courses are eligible for tuition fee and maintenance support on the same terms as other undergraduate students for the first four years. For the fifth and subsequent years of their courses the tuition fees are paid by the Department of Health and students are eligible for a means-tested NHS bursary and a reduced (broadly 50 per cent.) non means-tested student loan.

Graduates can apply to do an accelerated four-year medical or dental course. Graduates will have to fund the first year's fees but are still eligible for a loan for maintenance. Tuition fees are then paid in full and means-tested bursary support is available from the NHS from the second year onwards of these courses on the same basis as students in year 5 and onwards of the standard undergraduate course.

Officials in the Department will be working with those at the Department of Health as they take forward recommendations in their report "A High Quality Workforce: NHS Next Stage Review".

Pupil Referral Units: Speech Therapy

Mr. Hurd: To ask the Secretary of State for Innovation, Universities and Skills how many speech and language therapists are employed in pupil referral units. [219229]

Kevin Brennan: I have been asked to reply.

Teachers and other staff with a variety of skills and experience working in pupil referral units cater for the diverse needs of children and young people educated in these settings. However, data on the number of staff employed specifically as speech and language therapists are not collected centrally.

Students: Ethnic Groups

Mr. Drew: To ask the Secretary of State for Innovation, Universities and Skills if he will promote opportunities for students from ethnic minorities living in urban areas to undertake studies in the land-based economy based in rural colleges. [218167]

Mr. Lammy: The profile and attractiveness of careers in the land-based economy are being drawn to young people's attention in different ways. Those currently interested in learning about land-based industries can already study for a GCSE in environmental and land-based science. From September 2009 there will be a new diploma in environmental and land-based studies. There is also a network of specialist schools and academies located across urban and rural areas. Discretionary learner support funding is available to individual students through colleges, and included within this is support for residential courses. Lantra, the Sector Skills Council for the land-based industries, helps to raise awareness of opportunities in the sector to young people, and has a dedicated website aimed at young people

www.ajobin.com.

Students: Loans

Mr. Malins: To ask the Secretary of State for Innovation, Universities and Skills what the average time taken by graduates to pay off student loans following receipt of a salary of £15,000 per annum was in the latest period for which figures are available. [218997]

Bill Rammell *[holding answer 15 July 2008]:* Income contingent loans were introduced in 1998. Students only begin to repay their loan in the April after leaving university or college and their repayments begin when their income reaches the threshold of £15,000. Repayments are made through the UK tax system and for borrowers on PAYE employers make deductions at 9 per cent. of income above £15,000 threshold.

Borrowers in receipt of a salary of £15,000 per annum do not make any repayments; and loan balances are written off after 25 years.

Actual data on average time to repay income contingent loans are unavailable for most income contingent loan borrowers, because most have yet to complete repayment.

We estimate that a student who entered higher education in 2006/07 will take an average of around 13 years to repay their student loan. The repayment period is counted from the April following the year of graduation. The calculation is based on assumptions about lifetime graduate earnings, derived from the British Household Panel Survey and the Labour Force Survey. The calculation takes account of gender, age and periods spent unemployed or inactive for other reasons.

Video Games: Education

Mr. Evans: To ask the Secretary of State for Innovation, Universities and Skills (1) how many computer games development courses, and other related degree courses, have been accredited by Skillset, the Sector Skills Council for Creative Media; [218729]

(2) what recent assessment he has made of the content and standard of computer games development courses offered at UK universities; [218732]

(3) what recent assessment he has made of the utility to industry employers of degree courses in computer games development. [218730]

Mr. Lammy [*holding answer 14 July 2008*]: Our high level skills strategy sets out a clear aim of more, and more employable, graduates, and recognises an important role for Sector Skills Councils in working with both industry and higher education.

With support from the sector, Skillset has accredited four computer games degrees. 11 higher education institutions (HEIs) in England are currently interested in seeking such accreditation.

Quality Assurance Agency reviews of HEIs' own quality and standards arrangements have consistently shown standards in UK HE are robust and that their procedures, and those of the institutions themselves, repeatedly demonstrate the strength of academic quality and standards throughout a very diverse system. However, it is important that the computer games industry works with Skillset to articulate specific skill and knowledge demands so that HEIs can take these into account in course design.

I am aware of calls from the games industry to increase the number of graduates in specialist games degrees, mathematics, physics and computer sciences able to enter it. I will carefully consider any views on this subject submitted in response to the Department's consultation document 'Higher Education at Work—High Skills: High Value'.

Vocational Training: Trade Unions

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how much funding is being provided for trades union educational programmes in 2008-09. [217992]

Mr. Lammy: Trade unions have a key role to play in promoting the development of learning and skills in the workplace. To help them do this the Government introduced the Union Learning Fund in 1998 to enable trade unions use their influence with employers, employees and training providers to encourage greater take up of learning at work and boost their own capacity as learning organisations. The Government will invest £21.5 million through the Union Learning Fund in 2008-09.

With the help of the Union Learning Fund, trade unions and their Union Learning Representatives have been really successful in working with employees and employers to raise skill levels in the workplace. There are now over 20,500 trained Union Learning Representatives who have helped over 600,000 workers into learning since the fund was introduced in 1998, and over 200,000 last year alone - including over 34,000 workers with poor basic literacy and numeracy skills.

Union Learning Representatives and other trade union representatives and officers can also access LSC-funded training, delivered through a network of approved colleges, to help them carry out their duties more effectively.

INTERNATIONAL DEVELOPMENT

Zimbabwe

7. **Mr. Hollobone:** To ask the Secretary of State for International Development what recent humanitarian assistance has been provided by the Government to Zimbabwean refugees in neighbouring countries. [218950]

Gillian Merron: The UK is providing some £1.2 million of humanitarian assistance to Zimbabwean migrants at the border with Zambia and unaccompanied child migrants along the South African border. Additionally, we have provided £400,000 to NGOs caring for victims of South Africa's recent xenophobic violence, many of whom were Zimbabwean.

10. **Mr. Mackay:** To ask the Secretary of State for International Development what recent assessment he has made of the humanitarian situation in Zimbabwe; and if he will make a statement. [218953]

Gillian Merron: Mugabe's destructive policies continue to devastate the lives of millions. Half the population will need food aid by the end of the year. An estimated 36,000 people have been displaced internally, over a hundred killed and thousands injured. The decision by the government of Zimbabwe to ban the work of many humanitarian agencies has added to people's suffering.

West Bank

8 **Mrs. Ellman:** To ask the Secretary of State for International Development What assessment he has made of the likely effect on the Palestinian economy of the measures recently agreed on movement and access in the West Bank. [218951]

Mr. Malik: The agreement reached by Israel and the Quartet Representative to improve north-south movement in the west bank and access to the Jordan valley should build confidence and increase economic activity. Progress on this is critical to reviving the Palestinian economy. The agreement on movement and access must be implemented in full.

As statements by the Foreign Secretary and Secretary of State make clear, improved access to Gaza is crucial to ease the suffering of ordinary Gazans.

Leprosy

9. **Michael Fabricant:** To ask the Secretary of State for International Development what aid his Department has given to developing countries to eradicate leprosy in the last 12 months; and if he will make a statement. [218952]

Mr. Thomas: The Department for International Development (DFID) provided £12.5 million to the World Health Organisation (WHO) core budget over 2007-08, including an element for leprosy control programmes.

In Nepal, one of the two remaining leprosy-endemic countries, we support the leprosy control programme through sector budget support to the Nepal Health Sector Programme (NHSP). In 2007-08, we provided £8.95 million to the NHSP, which included support to the International Health Partnership. Over the same period DFID also provided £44,287 to a Leprosy Mission England and Wales community project in India.

G8 Summit

11. **Mr. Gray:** To ask the Secretary of State for International Development what the outcome for development policy of the G8 summit was. [218954]

Mr. Thomas: Last week's summit reiterated G8 commitment to delivering: $50 billion in extra aid by 2010, ($25 billion to Africa); $4 billion in 'Aid for Trade' and universal access to HIV/AIDs treatment by 2010. The G8 has also pledged over $10 billion for food security; $60 billion over five years for health; 1.5 million more health workers; 100 million bednets by 2010; and $1 billion for the education Fast Track Initiative.

Tuberculosis

12. **Dr. Naysmith:** To ask the Secretary of State for International Development what provision has been made in his Department's five-year research strategy for more effective drugs, diagnostics and vaccines for tuberculosis. [218955]

Gillian Merron: In 2005 there were 14.1 million cases of tuberculosis and 1.6 million deaths. The UK Government's 2007 International Development White Paper commits us to increasing funding for new drugs and vaccines. This commitment is reinforced in the Department's new five year research strategy which calls for continued and increased support for product development partnerships to develop vaccines, diagnostics and drugs for HIV and AIDS, malaria and tuberculosis. The strategy is available on-line:

http://www.dfid.gov.uk/research/newresearch.asp

Microfinance

13. **Annette Brooke:** To ask the Secretary of State for International Development what assistance his Department is giving to microfinance initiatives in developing countries. [218956]

Gillian Merron: Since April 2003, the Department for International Development (DFID) has spent over £186 million on microfinance and financial sector projects.

DFID supports broader financial sector development programmes to improve access to finance for poor people, where microfinance is just one component. These programmes aim to encourage the entry of financial institutions into the microfinance sector and assist governments to improve the regulatory environment for financial institutions to serve the poor.

DFID continues to invest in new programmes to support microfinance and improve access to finance. This includes a £9.3 million, five year financial sector development programme in Nigeria and a £32.8 million, seven year programme in Bangladesh.

Democratic Republic of the Congo

14. **Paul Flynn:** To ask the Secretary of State for International Development what plans he has to improve the provision of aid to the Democratic Republic of the Congo. [218957]

Gillian Merron: The Department for International Development (DFID) recently launched the 2008 to 2010 Country Plan for the Democratic Republic of Congo (DRC) which sets out how we will ensure that UK assistance to DRC has the greatest possible impact in reducing poverty and ending conflict. We continually review the effectiveness of our aid, including through internal audit visits and a country programme evaluation planned for later this month. Building on the leading role DFID played in the development of a joint donor strategy for DRC, we continue to be actively involved in discussions with other donors to improve the quality of aid.

Disabled Children in Africa

15. **Mrs. Riordan:** To ask the Secretary of State for International Development what steps his Department is taking to increase the proportion of disabled children in Africa completing schooling. [218958]

Gillian Merron: The UK Government are spending £8.5 billion over the period 2006-07 to 2015-16 in support of education in developing countries. This will help support partner countries' plans, policies and programmes to ensure that children, including those with disabilities, benefit from quality education. We expect to spend £500 million annually in support of education in Africa by 2010.

The Department for International Development (DFID) policy in support of people who are disadvantaged is laid out in the paper "Reducing poverty by tackling social exclusion". The paper was placed in the House Library and is available on line:

http://www.dfif.gov.uk/pubs/files/sovcail-exclusion.pdf).

Afghanistan: Food

Mr. Keith Simpson: To ask the Secretary of State for International Development what recent assessment has been made of the effects of drought on the major food-producing areas in Afghanistan. [217514]

Mr. Douglas Alexander: In April 2008, the Afghan Ministry of Agriculture, Irrigation and Livestock (MAIL) visited all 34 provinces to survey 2008 crop yield prospects.

The findings indicate that this year Afghanistan will produce only two-thirds of its food needs and will have to import 2 million metric tonnes of grain.

The worst affected regions are the West, North and North East which are reliant on rain-fed agriculture.

Afghanistan: Overseas Aid

Mr. Keith Simpson: To ask the Secretary of State for International Development whether the UK has put forward proposals for a new humanitarian action plan for Afghanistan addressing rising food prices and deterioration in the security situation. [217513]

Mr. Douglas Alexander: In August 2008, a Department for International Development (DFID) humanitarian mission will visit Afghanistan to evaluate the situation. The mission will include an assessment of the situation in relation to food insecurity, conflict-affected populations and internally displaced people, as well as an assessment of institutional capacities to coordinate and provide assistance. The team will contribute to the development of a UN Humanitarian Action Plan for Afghanistan.

On Wednesday 9 July, the Government of Afghanistan and the United Nations launched a joint humanitarian appeal to respond to the recent drought in Afghanistan and high world food prices. DFID contributed to the design of the agricultural recovery component of the appeal and will support a number of the elements in collaboration with other donors.

DFID support will include: (i) £3 million to the World Food Programme to provide food and cash support to those most affected by high food prices; and (ii) a £3.5 million contribution to a £30 million voucher programme to provide seeds and fertilizer to the most vulnerable farmers in drought affected areas to increase food production.

Mr. Keith Simpson: To ask the Secretary of State for International Development (1) whether the Government supports the deployment of additional UN staff to assist with the co-ordination of the humanitarian relief effort in Afghanistan; and if he will make a statement; [217515]

(2) what recent discussions he has had with the UN Under-Secretary-General for Humanitarian Affairs and Emergency Relief Co-ordinator on a new humanitarian action plan for Afghanistan. [217611]

Mr. Douglas Alexander: The UK recognises the important role of the United Nations in coordinating donor assistance in Afghanistan. A Department for International Development (DFID) official met with John Holmes, UN Under Secretary General and Emergency Relief Coordinator, on 29 June in Kabul to discuss the humanitarian situation.

DFID welcomes efforts to increase the capacity of the United Nations Assistance Mission to Afghanistan (UMAMA) to better co-ordinate the UN and donors' humanitarian efforts. Plans to increase the UNAMA humanitarian team from two to 15 full time staff will greatly assist in this endeavour.

In August 2008, a DFID humanitarian mission will visit Afghanistan to evaluate the situation. One of the team's tasks will be to assess and make recommendations on the role and capacity of the UN in providing and co-ordinating humanitarian assistance in Afghanistan.

Africa: Food Aid

Mr. Drew: To ask the Secretary of State for International Development which countries in Africa are receiving World Food Programme support. [217797]

Gillian Merron: According to the World Food Programme (WFP) the agency currently has operations in the following countries in Africa:

Algeria
Angola
Benin
Burkina Faso
Burundi
Cameroon
Cape Verde
Central African Republic
Chad
Congo (Brazzaville)
Democratic Rep of Congo
Cote D'Ivoire
Djibouti
Egypt
Eritrea
Ethiopia
Gambia
Ghana
Guinea
Guinea-Bissau
Kenya
Lesotho
Liberia
Madagascar
Malawi
Mali
Mauritania
Mozambique
Namibia
Niger
Rwanda
Sao Tome and Principe
Senegal
Sierra Leone
Somalia
Sudan
Swaziland
Tanzania
Uganda
Zambia
Zimbabwe

Further information on the work of WFP and the countries in which it operates is available on their website:

http://www.wfp.org/country_brief/index_region.asp

John Battle: To ask the Secretary of State for International Development what estimates his Department has made of changes in food aid costs to *(a)* Ethiopia, *(b)* Gambia, *(c)* Afghanistan and *(d)* Zambia in the next five years; and if he will make a statement. [218021]

Mr. Douglas Alexander: Over the next five years, changes in food aid costs will be driven by rises in prices of food and fuel, and by increases in the number of people receiving food aid. The World Food programme (WFP) and other agencies estimate that about 100 million additional people may have been rendered food insecure globally as a result of recent price rises. This year, WFP's revised estimate of its total global requirement is approximately £2.4 billion. This represents a 54 per cent. increase compared to the original 2008 requirement. WFP notes that its 2008 requirement may increase further still.

At country level, changing food aid costs have raised requirements for 2008 from the start of the year as follows:

In Ethiopia: an increase from approximately £119 million to £177 million;

In Gambia: an increase from approximately £1.2 million to £1.7 million;

In Afghanistan: an increase from approximately £66 million to £131 million;

In Zambia: an increase from approximately £7 million to £9.7 million;

Realistic predictions of food aid costs beyond one year are not considered to be possible, as a combination of international, regional and national influences can result in high price volatility.

On 22 April the Secretary of State announced a £455 million aid package to address rising global food prices. The package is designed to address both short term needs and long term solutions. It includes some $60 million (over £30 million) in support of recent appeals by the UN World Food programme for countries most at risk.

Africa: Sanitation

John Battle: To ask the Secretary of State for International Development what assessment his Department has made of the effect of recent energy and fuel price rises on levels of spending required between 2008 and 2015 to reach the water and sanitation Millennium Development Goals in *(a)* Ethiopia, *(b)* Somalia, *(c)* Eritrea and *(d)* Gambia; and if he will make a statement. [218019]

Mr. Douglas Alexander: The link between energy and fuel price rises on the one hand, and the levels of spending required between 2008 and 2015 to reach the water and sanitation millennium development goals on the other, is complex.

Nevertheless, it is clear that fuel prices will increase the costs of MDG delivery and may reduce the availability of Government resources to meet these costs.

DFID monitors the progress of countries towards achievement of the MDGs. However we do not have data on Gambia and Somalia. Ethiopia and Eritrea are both "off track" to achieving the MDGs on sanitation. Eritrea is considered to be "on track" for the Water MDG, but, Ethiopia is "off track".

DFID is providing support for the achievement of water and sanitation MDGs, including some programmes in the countries listed. In Ethiopia, first transfer of our £75 million investment to support the Government's Universal Access program has been made. This will support investments in rural and urban water supply and sanitation. In Eritrea, we have recently agreed a £6 million rural water and sanitation project with UNICEF. In 2006-07 DFID spent £8 million on humanitarian activities in Somalia, a proportion of which went towards projects with water components.

Africa: Social Conditions

John Battle: To ask the Secretary of State for International Development what estimate his Department has made of *(a)* the percentage of infants with low birth weight, *(b)* the proportion of the population with access to clean drinking water, *(c)* primary school attendance levels and *(d)* adult literacy rates in (i) Ethiopia, (ii) Malawi, (iii) Afghanistan and (iv) Congo in each of the last 10 years. [218015]

Gillian Merron: Indicators on low birth weight, access to improved water, net enrolment and adult literacy are used to track progress towards the millennium development goals. The data are published by the UN and World Bank. Data are not available for all years and every country. Available data for the selected indicators are shown in the following table and are shown on the UN Statistics Division website:

http://unstats.un.org/unsd/demographic/

	1998	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*

UN Statistics Division and World Bank.

Burma: Overseas Aid

John Battle: To ask the Secretary of State for International Development what assessment his Department has made of the impact of rising fuel prices on maintaining levels of relief assistance to Burma; and if he will make a statement. [218016]

Mr. Douglas Alexander: Prices of food, construction materials, boats and other commodities have risen significantly in Burma since the Cyclone struck in May. This is in line with increased demand and limited supply locally. The added factor, however, is the substantial increase in global fuel prices. The costs of the relief operation are directly affected by both these factors.

It is expected that the revised appeal for funds, due to be issued by the United Nations on 10 July, will reflect this increase in prices. DFID has pledged £17.5 million to this appeal, bringing the total of UK funding to Burma since the cyclone to £40 million.

Developing Countries: Agriculture

Mr. Walter: To ask the Secretary of State for International Development what steps the Government plan to take to implement the findings of the International Assessment of Agriculture Technology for Development. [219250]

Mr. Douglas Alexander: The International Assessment of Agricultural Science and Technology for Development (IAASTD) presents findings and a range of options for different stakeholders (governments, private sector, academics and civil society) to consider. These findings are neither prescriptive nor legally binding on any party. We are assessing these in taking forward the Government's support to developing countries on agricultural knowledge science and technology (AKST).

The Department for International Development is already taking action in line with IAASTD's findings. In April I announced that DFID will increase its investment in agricultural research to £400 million over five years. This investment will include research on environmentally sustainable solutions, focus on the needs of farmers, address gender issues, look to build public-private partnerships, look at the impact of markets on poor farmers, and support traditional and modern technologies.

Economic Growth

John Battle: To ask the Secretary of State for International Development what estimate his Department has made of likely economic growth in *(a)* India, *(b)* China, *(c)* Brazil and *(d)* Venezuela in (i) 2008-09, (ii) 2009-10 and (iii) 2010-11. [218022]

Mr. Malik: The Department for International Development (DFID) does not perform its own growth forecasting. To inform its policies, DFID relies upon the economic analysis of the international financial institutions, especially the International Monetary Fund (IMF). The 2008 IMF World Economic Outlook report has the following projections:

	Percentage
(a) India	
2008	7.9
2009	8.0
2010	8.0
2011	8.0
(b) China	
2008	9.3
2009	9.5
2010	10.5
2011	10.0
(c) Brazil	
2008	4.8
2009	3.7
2010	4.5
2011	4.0
(d) Venezuela	
2008	5.8
2009	3.5
2010	2.2
2011	2.2

These figures represent the estimated annual per cent. change of each country's gross domestic product. I have provided projections from 2008 to 2011 because the IMF reports by calendar year rather than UK financial year.

Horn of Africa: Food

Mr. Drew: To ask the Secretary of State for International Development if he will make a statement on food shortages in the Horn of Africa; and what assistance his Department is offering to those countries affected. [217798]

Gillian Merron: High and rising food prices, drought and conflict are affecting the Horn of Africa, where several million people are now facing acute food shortages.

In Ethiopia, the Government and UN agencies estimate that at least 4.6 million people will require food aid from June to November. DFID has committed £25 million to addressing the crisis. These funds will be allocated as follows:

Up to £10 million through the UN World Food Programme (WFP) for emergency food aid operations.

£9 million through the UN's Humanitarian Response Fund to support supplementary and emergency feeding programmes.

£5 million for the Productive Safety Net Programme. This is additional to £22 million DFID provided in January as our regular annual payment. This government-led programme delivers predictable food and cash transfers to seven million food insecure people and has been successful in reducing the potential scale of the humanitarian crisis.

At least £1 million to Medecins sans Frontieres for emergency feeding programmes.

In Somalia, the humanitarian situation is deteriorating alarmingly due to increasing conflict, soaring food prices, deepening drought and a poor start to the April to June season rains. Cereal prices have increased by between 110 per cent. and 375 per cent. in the last year. The UN estimates that the number of people in need of assistance in Somalia has increased to 2.6 million people. This figure could rise to 3.5 million (50 per cent. of the entire population) by the end of the year. DFID has provided £12 million to the UN World Food Programme's operations, which aim to stabilise the worsening nutrition situation for 2.4 million people.

Overseas Aid

John Battle: To ask the Secretary of State for International Development what proportion of financial aid from his Department to developing countries is for *(a)* education, *(b)* health, *(c)* earthquake reconstruction, *(d)* agriculture development and *(e)* encouraging job creation in 2008-09. [218025]

Mr. Malik: Information on Department for International Development (DFID) aid allocations for 2008-09 are available in annex 2, table 4, page 245 of the DFID publication "Development: Making it Happen", DFID's 2008 annual report. This publication is available online at www.dfid.gov.uk and in the Library of the House.

It is not yet possible to provide aggregate estimates of total spending in particular sectors across the DFID programme for 2008-09. By 2010-11 we plan to increase our education spend from to £1 billion a year to enable us to meet our commitment to spend £8.5 billion on education in the 10 years leading up to 2015. We have also recently announced plans to spend £6 billion on strengthening health systems and services over the seven years to 2015.

Mr. Drew: To ask the Secretary of State for International Development what work his Department has commissioned on social protection systems; in which countries his Department has engaged in work on social protection issues; and if he will make a statement. [218507]

Gillian Merron: The Department for International Development (DFID) has commissioned a range of work to inform the international debate on the role of social protection in the fight against poverty in developing countries, and to provide guidance for the implementation of social assistance tools. Analytical and evidence building work includes studies on the cost, affordability and financing of social assistance, its impact on poverty and the links to growth. This work will contribute to policy analysis and advice, to help inform country partners and the international community. DFID is also in the process of commissioning longer term research on a range of technical and political economy aspects of the design and implementation of social transfer programmes.

DFID is working in different ways in over 20 countries. In Pakistan, Tanzania, Malawi, Mozambique and Zambia this means supporting the development of national social protection strategies. In Ethiopia, Bangladesh, Zimbabwe, Mozambique and Kenya we are funding major social transfer programmes while in other countries such as Ghana we have helped support smaller pilot projects. We are also helping Brazil and South Africa to share their experience of using social protection to reduce poverty with other developing countries.

Progressio

Mr. Amess: To ask the Secretary of State for International Development what payments his Department has made to Progressio in each year since 1997-98; how much is planned for 2008-09; what restrictions his Department places on the use of such funds; and if he will make a statement. [217909]

Mr. Malik: Levels of DFID funding to Progressio in each year since 1997-98 are laid out in the following table. Current plans for 2008-09 amount to £3.28 million. Current funding is provided within the usual terms of the International Development Act 2002. No further specific restrictions have been placed on the use of these funds.

Levels of DFID funding to Progressio

Financial year	*DFID funding (£ million)*
1997-98	1.952
1998-99	2.226
1999-2000	2.344
2000-01	2.317
2001-02	2.910
2002-03	2.646
2003-04	2.569
2004-05	2.689
2005-06	2.955
2006-07	2.800
2007-08	[1]2.800

[1] Estimate

Ukraine: Agriculture

John Battle: To ask the Secretary of State for International Development what *(a)* type and *(b)* level of assistance his Department is providing to increase agricultural outputs in Ukraine in 2008-09; and if he will make a statement. [218020]

Mr. Malik: The Department for International Development (DFID) closed its bilateral programme in March 2008 in recognition of Ukraine's Middle Income Country status and progress in reducing poverty. As a result we are not contributing directly to increasing agricultural outputs in the Ukraine. However, we continue to support the country's development through our membership of multilaterals, particularly the European Union and World Bank.

Zimbabwe: Asylum

Mr. Keith Simpson: To ask the Secretary of State for International Development what estimate he has made of the number of refugees who have left Zimbabwe since the March 2008 elections. [218324]

Gillian Merron: It is very difficult to estimate the number of Zimbabweans who have left the country by regular and irregular means since the March 2008 elections. Many of those who have fled Zimbabwe will not have refugee status in their host countries and, therefore, will not be recorded as Zimbabwean refugees. In terms of officially recorded refugee figures, reports from humanitarian agencies would suggest the following break down:

Botswana: 538 granted refugee status, a further 214 being processed;

Zambia: 18 granted refugee status, a further 25 being processed;

Mozambique: 68 applications for refugee status are being processed.

While exact figures for those fleeing since March 2008 are hard to determine, it is not unreasonable to suppose that the worsening crisis in Zimbabwe will act as a spur for further migration.

HEALTH

Abortion

Mr. Amess: To ask the Secretary of State for Health if he will place in the Library copies of representations received by his Department from interested parties used in the preparation of the partial regulatory impact assessment of the Prohibition of Abortion (England and Wales) Bill of Session 2005-06; and if he will make a statement. [216401]

Dawn Primarolo: Copies of written representations received from interested parties used in the preparation of the partial regulatory impact assessment of the Prohibition of Abortion (England and Wales) Bill of Session 2005-06 have been placed in the Library. Discussions were also held with a number of organisations, including some of those who made written representations, but a written record of these is not available.

Alcoholic Drinks: Misuse

Tim Loughton: To ask the Secretary of State for Health what estimate he has made of the number of people under the age of 18-years-old who were alcoholics in each of the last 10 years. [218380]

Dawn Primarolo: The information requested is not collected centrally.

Back Pain: Medical Treatments

Tim Loughton: To ask the Secretary of State for Health (1) which primary care trust areas offer botulinum toxin injections for patients with back pain; [218609]

(2) how many patients in West Sussex were refused funding for botulinum toxin injections for back pain by West Sussex Primary Care Trust in each of the last three years; [218610]

(3) what the average cost of using botulinum toxin injections for the treatment of back pain was per dose in the latest period for which figures are available. [218612]

Ann Keen *[holding answer 14 July 2008]:* The information requested is not collected centrally.

Primary care trusts (PCTs) commission services on behalf of their population and make decisions locally on which treatments to fund, taking into account all available evidence.

The hon. Member may wish to raise the decisions of the PCT with its chief executive.

Tim Loughton: To ask the Secretary of State for Health what assessment he has made of the efficacy of the use of botulinum toxin injections for back pain. [218611]

Ann Keen *[holding answer 14 July 2008]:* No such assessment has been made.

Breast Cancer: Medical Treatments

Dr. Gibson: To ask the Secretary of State for Health what plans he has to implement the recommendations arising from the National Mastectomy and Breast Reconstruction Audit. [217807]

Ann Keen: There are no plans to implement centrally the recommendations arising from the national mastectomy and breast reconstruction audit.

However, the information from this audit will be useful for the national health service locally in considering how mastectomy and breast reconstruction surgery services are provided and what action may be needed at a local level.

The National Institute of Health and Clinical Excellence is currently developing a clinical guideline on the diagnosis and treatment of early breast cancer. The guideline will cover surgical management and breast reconstruction. Publication of the guidance is expected in February 2009.

Car Allowances

Sir Nicholas Winterton: To ask the Secretary of State for Health what mileage allowance is provided to each category of entitled worker by *(a)* his Department and *(b)* the NHS; and if he will make a statement. [218481]

Ann Keen: The Department's staff who use their own motor vehicle and have insured it for business use are entitled to claim 40p per mile for the first 4,000 miles in the tax year (starting 6 April 2008) and 25p per mile for every subsequent mile claimed. If staff use their vehicles to carry official passengers they can claim an additional 4p per mile for the first passenger carried and 2p per mile for each subsequent passenger. The passengers are not entitled to claim any mileage allowance.

Where staff use a motorcycle (again having insured it for business use) they are entitled to claim 24p per mile. Staff who use a bicycle to undertake official travel are entitled to claim 20p per mile.

These rates apply to all departmental staff irrespective of grade.

For national health service staff there are recently agreed new rates for regular and standard user rates. These are available on the NHS Employers website at:

www.nhsemployers.org/pay-conditions/pay-conditions-3179.cfm

Chiropody

Ben Chapman: To ask the Secretary of State for Health what recent assessment he has made of the adequacy of NHS chiropody provision. [217669]

Ann Keen: No assessment has been carried out centrally. It is for primary care trusts in partnership with local stakeholders, including practice based commissioners, local government and the public to determine how best to use their funds to meet national and local priorities for improving health and to commission services accordingly.

Chlamydia

Anne Milton: To ask the Secretary of State for Health what recent steps he has taken to raise awareness of *(a)* levels of chlamydia in young people and *(b)* chlamydia screening programmes. [218502]

Dawn Primarolo: The Department launched the "Condom Essential Wear" campaign in November 2006, to tackle sexually transmitted infections and the behaviours that contribute to their spread. This campaign particularly features chlamydia and gonorrhoea in its creative executions.

The Department is also investigating how promotional activity at a national level can support the delivery of the National Chlamydia Screening programme.

Cycling

Rob Marris: To ask the Secretary of State for Health whether *(a)* his Department and *(b)* his Department's non-departmental public bodies provide (i) tax-free benefits and (ii) other allowances for their staff to purchase bicycles under the Cycle to Work scheme; and if he will make a statement. [197604]

Mr. Bradshaw: The Department is currently putting in place a cycle to work scheme for its employees. The scheme will support employees in taking greener journeys, by enabling the Department to loan a cycle to an employee, for between 12 to 18 months. The same tax rules apply to benefits in kind provided to employees of Government Departments as to any other employee. The Minister will be writing, in the near future, to the non-departmental public bodies which are not in the scheme, to remind them of the scheme and positively encourage their participation.

The following table shows the current situation in each of the Department's agencies and non-departmental public bodies.

Executive agency	*Tax-free benefits*	*Other allowances*
Medicines and Healthcare Products Regulatory Agency	No	No
NHS Purchasing and Supply Agency	No	No
Executive non-departmental public bodies (ENDPBs)		
Appointments Commission	No	No
Commission for Social Care Inspection	No	No
Council for Healthcare Regulatory Excellence	No	No
General Social Care Council	No	No
Health Protection Agency	No	No
Healthcare Commission	Yes	No
Human Fertilisation and Embryology Authority	Yes	No
Human Tissue Authority	No	No
Independent Regulator of NHS Foundation Trusts	Yes	No
National Institute for Biological Standards and Control	No	No
Postgraduate Medical Education and Training Board	No	No
Special Health Authorities		
Information Centre for health and social care	Currently covers part of the organisation. Shortly to cover fully.	No
National Institute for Health and Clinical Excellence	Yes	No
National Patient Safety Agency	Yes (in planning stage)	No
National Treatment Agency for Substance Misuse	No	No
NHS Blood and Transplant	No	No
NHS Business Services Authority	No	No
NHS Institute for Innovation and Improvement	No	No
NHS Litigation Authority	No	No
NHS Professionals	No	No
Mental Health Act Commission	No	No

Dementia: Bexley

Mr. Evennett: To ask the Secretary of State for Health what estimate he has made of the number of people with dementia in Bexley who are paying for care. [218519]

Mr. Ivan Lewis: The information requested is not collected centrally.

Dental Services

Dan Rogerson: To ask the Secretary of State for Health how many dentists have *(a)* started to provide NHS services and *(b)* ceased to provide NHS services since the inception of the new contract. [218082]

Ann Keen: This information could be made available only at disproportionate cost.

Dental Services: Greater London

Mr. Evennett: To ask the Secretary of State for Health what estimate his Department has made of the number of dentists required in *(a)* the London borough of Bexley and *(b)* Greater London to meet demand for NHS dental care. [218395]

Ann Keen: Primary care trusts (PCTs) are responsible for providing or commissioning primary dental care services to reflect local needs. This is a local rather than centrally managed process. The Department has issued guidance to the local national health service on developing local dental commissioning plans. Additional support is available through the national primary care contracting team. The hon. Member may therefore wish to raise this issue locally.

Dental Services: Hampshire

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of the number of NHS dentists required to meet demand in *(a)* the non-metropolitan county of Hampshire and *(b)* Southampton. [218079]

Ann Keen: Primary care trusts are responsible for providing or commissioning primary dental care services to reflect local needs. This is a local rather than centrally managed process, and the Department has issued guidance to the local national health service on developing local dental commissioning plans. Additional support is available through the national primary care contracting team.

The hon. Member may therefore wish to raise this matter locally.

Sandra Gidley: To ask the Secretary of State for Health how many Hampshire residents in each local authority area have accessed NHS dental treatment in each of the last five years. [218080]

Ann Keen: Information is not available in the format requested.

Under the old dental contractual arrangements, in place up to and including 31 March 2006, the number of patients registered with a national health service dentist was the measure used to monitor access to primary care dental services. However, registration information is not equivalent to the number of patients who accessed an NHS dentist, which is the measure used under the new dental contractual arrangements introduced in April 2006.

The numbers of patients registered with an NHS dentist as at 31 March for the years 1997 to 2006 are available in Annex A of the "NHS Dental Activity and Workforce Report, England: 31 March 2006". Information is provided by strategic health authority (SHA) and by primary care trust (PCT).

This information is based on the old contractual arrangements, which were in place up to and including 31 March 2006. This report, published in August 2006, has already been placed in the Library and is available on-line at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-march-2006

Under the new dental contractual arrangements, introduced in April 2006, patients do not have to be registered with an NHS dentist to receive NHS care. The closest equivalent measure to 'registration' is the number of patients receiving NHS dental services ('patients seen') over a 24-month period. However, this is not directly comparable to the registration data for earlier years.

Information on the numbers of patients seen by an NHS dentist in England, over the previous 24-month period, is available in Table C1 of Annex 3 of the "NHS Dental Statistics for England: Quarter 3: 31 December 2007" report. Information is available for the 24 month periods ending 31 March 2006, 31 March 2007, 30 June 2007, 30 September 2007 and 31 December 2007. Information is provided at SHA and PCT level. This report, published in June 2008, has already been placed in the Library and on-line at:

www.ic.nhs.uk/pubs/dentalstats0708q3.

Information on registrations and patients seen is recorded according to the location of the dental surgery. Most patients will live within the PCT/SHA area in which they receive primary care dental services but some will attend a dentist further afield. Both the above reports have been published by the NHS Information Centre for health and social care.

Sandra Gidley: To ask the Secretary of State for Health how many dental practices in *(a)* the non-metropolitan county of Hampshire and *(b)* Southampton have stopped accepting new NHS patients in the last 12 months. [218081]

Ann Keen: This information is not held centrally.

Increasing the number of patients seen within national health service dental services as a whole is now a formal priority in "The NHS in England: The Operating Framework for 2008-09", copies of this publication have already been deposited in the Library. The Department has supported this with a substantial 11 per cent. uplift in overall allocations to primary care trusts from 1 April 2008.

Diabetes: Health Services

Mr. Leech: To ask the Secretary of State for Health how many ambulance trusts in England have a specific support plan for people with diabetes; and what guidance his Department has issued to ambulance trusts on the preliminary treatment of people with diabetes by ambulance and paramedic staff. [218758]

Ann Keen: Responsibility for developing support plans to treat people with diabetes rests with the national health service, and it is for primary care trusts to

commission diabetes services that meet the needs of their local population. The Department has not issued any guidance to ambulance trusts on the treatment of people with diabetes.

Diseases: Prisons

Dr. Whitehead: To ask the Secretary of State for Health what estimate he has made of the number of prisoners infected with *(a)* HIV and *(b)* hepatitis C; and what proportion of that number have been diagnosed in each case as infected. [217947]

Mr. Ivan Lewis: The last major study of HIV, hepatitis B and hepatitis C prevalence in prisoners in England and Wales found that of 3,942 prisoners surveyed in 1997 and 1998, 0.4 per cent. were infected with HIV, and 7 per cent.[1] with hepatitis C.

[1] *Source:*
Prevalence of HIV, hepatitis B and hepatitis C antibodies in prisoners in England and Wales: a national survey. Weild A. R., Gill O. N., Bennett D., Livingstone S. J. M., Parry J. V., Curran L. (2000). Communicable Disease and Public Health 2000;3:121-6.

Dr. Whitehead: To ask the Secretary of State for Health whether he plans to ensure that prisoners who are at risk of contracting HIV and hepatitis C in prisons receive harm reduction measures equivalent to those offered outside prisons. [217948]

Mr. Ivan Lewis: The Department has introduced a wide range of harm reduction measures to prisons to help this at risk group.

The Integrated Drug Treatment System (IDTS) has introduced National Treatment Agency models of care to prisons, through the amalgamation of existing clinical drug treatment services and psychosocial programmes. IDTS aims to get prisoners off illegal drugs and away from risky behaviours through clinical interventions such as maintenance and managed withdrawal.

Since October 2007, prisons across England and Wales have introduced disinfecting tablets and dispensers. These can be used to sterilise illicitly held needles which may be used for drug-injecting. Their use can prevent and control the transmission of blood borne viruses (BBVs) including HIV and hepatitis C.

Prison health staff have the authority to supply condoms if, in their clinical judgment, there is a risk of HIV infection or transmission of any other sexually transmitted illness.

The "Hepatitis C Action Plan for England" (July 2004) applies to prisoners, copies have already been placed in the Library. It envisages that prisoners should have access to the testing, diagnostic, assessment and treatment services that it specifies. Prisons and their national health service partners draw up, and regularly review, prison health delivery plans within which prisoners' health care needs are assessed, prioritised, resources allocated and delivery monitored.

A DVD advising prisoners about hepatitis C 'Hep C: Inside and Out' has been distributed to all prisons.

A health promotion leaflet on blood-borne viruses in prisons: "Get Out of Jail BBV Free" has been developed by the Department, the British Liver Trust and the Health Protection Agency.

Dr. Whitehead: To ask the Secretary of State for Health what collections of specific data on HIV and hepatitis C diagnosis in prisons are made by the Health Protection Agency. [217949]

Mr. Ivan Lewis: For HIV and hepatitis C, the disease surveillance systems organised by the Health Protection Agency (HPA), (the Survey of Prevalent HIV Infections Diagnosed (SOPHID), which collects data on prevalent HIV infections, and KC60 statutory returns, which identify diagnoses made in genito-urinary clinics and collect data on new diagnoses of sexually transmitted infections) do include diagnoses of prisoners.

However, neither identify individual prisons as locations, or whether a person is a prisoner when treated or diagnosed.

Epilepsy: Drugs

Mr. Hancock: To ask the Secretary of State for Health what estimate his Department has made of the number of people taking anti-epileptic drugs unnecessarily as a result of misdiagnosis; and what estimate he has made of the annual cost to the NHS of such drug-taking. [218846]

Ann Keen: We have made no estimate of the number of people taking anti-epileptic drugs unnecessarily as a result of misdiagnosis, or of the cost of such drugs to the national health service.

Epilepsy: Health Services

Mr. Hancock: To ask the Secretary of State for Health (1) what estimate his Department has made of the effects of full implementation of the National Institute for Health and Clinical Excellence's guidelines on the treatment of epilepsy on mortality rates among those with the disease; [218651]

(2) what estimate his Department has made of the number of people with epilepsy and prone to seizures who will become seizure-free when the National Institute for Health and Clinical Excellence's guidelines on epilepsy care are fully implemented. [218656]

Ann Keen: We have made no estimate of the effect of full implementation of the National Institute for Health and Clinical Excellence (NICE) guidelines on the number of people who would be seizure-free, or on the mortality rate for those with epilepsy.

NICE guidelines have the status of clinical guidelines for health professionals. It is the responsibility of health professionals to use their clinical judgment, in consultation with the individual patient, to decide on the most appropriate treatment options taking into account all relevant guidelines.

Female Genital Mutilation

Mrs. May: To ask the Secretary of State for Health what funding his Department provided for *(a)* the prevention of female genital mutilation and *(b)* the treatment of cases arising from female genital mutilation in each of the last 10 years. [217710]

Ann Keen: The Department has provided £20,000 for a female genital mutilation (FGM) prevalence study and £31,000 for the development of FGM DVD for health professionals. We have also core funded the specialist organisation Foundation for Women's Health, Research and Development (FORWARD), which includes core funding of £30,000 in 2007-08.

Information is not collected centrally on national health service expenditure on FGM.

Fluoride

Sir Nicholas Winterton: To ask the Secretary of State for Health (1) what research he has *(a)* commissioned and *(b)* evaluated on the health effects of fluoridation of public water supplies in the last three years; [217687]

(2) what research he has *(a)* commissioned and *(b)* evaluated on the effects on children's health of the fluoridation of public water supplies in the last three years; [217690]

(3) what research he has *(a)* commissioned and *(b)* evaluated on the relationship between fluoride and the incidence of (i) bone cancer, (ii) thyroid gland complaints and (iii) brain disorders in the last three years. [217691]

Ann Keen: We continue to refer to key research reports commissioned since 1999. A "Systematic Review of Public Water Fluoridation" published by the University of York in 2000 found no significant association between water fluoridation and goitre, bone disease or any other systemic illness, but called for further research to strengthen the evidence base. "Water Fluoridation and Health", published by the Medical Research Council in 2002, endorsed the University of York's recommendations and suggested priorities for further research. Copies of both reports are available in the Library. Accordingly, the Department commissioned the University of Newcastle upon Tyne to investigate bio-availability (absorption of fluoride. The report, the "Bioavailability of Fluoride in Drinking Water", a Human Experimental Study published in 2004, showed no statistically significant differences between absorption of fluoride from naturally fluoridated and artificially fluoridated water. Copies of this publication have already been placed in the Library.

Evidence to date shows that dental fluorosis in a minority of children remains the only proven effect of the fluoridation of water, besides protection against tooth decay. Dental fluorosis is characterised by a flecking, or more rarely a mottling, of teeth, often only visible when teeth are dried. We are supporting research into the assessment of fluorosis using intra-oral cameras. If, as we expect, it shows that the measurement of dental fluorosis can be standardised, we will undertake a further study of its prevalence and aesthetic impact.

Sir Nicholas Winterton: To ask the Secretary of State for Health what research he has *(a)* commissioned and *(b)* evaluated on alternative sources of fluoride available for ingestion by the public to promote dental health in the last three years. [217688]

Ann Keen: An appraisal of our 'Brushing for Life' scheme, published in 2005, showed that providing young families with free packs containing fluoridate toothpaste, a toothbrush, and guidance on dental hygiene, is capable of increasing the frequency with which parents and carers brush their children's teeth. However, experience shows that oral health promotion campaigns aimed at changing behaviour in respect of diet and tooth-brushing do not achieve the reductions in dental decay offered by the fluoridation of water. Copies of the publication have been placed in the Library.

Sir Nicholas Winterton: To ask the Secretary of State for Health whether he has evaluated research carried out in other European Union member states on the fluoridation of public water supplies in the last three years. [217689]

Ann Keen: The Department has evaluated the report 'Assessing The Impact Of Exposure To Fluoride In Water On The Oral Health Of 16 Year Olds In A Border Region Of Ireland', published by Queen's University Belfast in March 2007. It showed that 31 per cent. of 16-year-old residents of fluoridated areas in the Republic of Ireland had no obvious tooth decay experience compared with 22 per cent. in Northern Ireland, where there are no fluoridation schemes.

Sir Nicholas Winterton: To ask the Secretary of State for Health what assessment he has made of the levels of tooth decay in countries *(a)* that fluoridate and *(b)* do not fluoridate public water supplies for the purposes of benchmarking in the last three years. [217692]

Ann Keen: Some 170 million people in the United States of America drink fluoridated water. Studies reported by the American Dental Association show that fluoridation of water reduces dental decay by over 50 per cent. Experience elsewhere shows that it is possible to achieve similarly low levels of dental disease in affluent areas with as many as 60 per cent. of 12-year-old children with no tooth decay, but the attraction of fluoridation is its potential for reducing inequalities in oral health.

General Practitioners: Finance

Miss McIntosh: To ask the Secretary of State for Health what plans he has to review the allocation formula; and for what reason work on the formula has been suspended. [219782]

Mr. Bradshaw: The Advisory Committee on Resource Allocation (ACRA) continually oversees the development of the funding formula used to inform primary care trusts (PCTs) revenue allocations.

ACRA has recently completed an extensive review of the key elements of the funding formula. The 2009-10 and 2010-11 PCT revenue allocations will be announced in the autumn alongside the NHS Operating Framework for 2009-10 and ACRA's report will be published at that time.

Health Visitors: Gloucestershire

Mr. Drew: To ask the Secretary of State for Health how many health visitors there were in Gloucestershire in each of the last five years. [218357]

Ann Keen: The requested information is provided in the following table. Latest available data are for September 2007.

NHS hospital and community health services: Health visitors and district nurses in the Gloucestershire Primary Care Trust[1] (PCT) area as at 30 September in each specified year

Headcount

	2003	2004	2005	2006[2]	2007
Total Specified staff	269	271	264	238	230
Health visitors	154	161	152	80	129
District nurses	115	110	112	158	101

[1] In October 2006 Cheltenham and Tewkesbury PCT, Cotswold and Vale PCT and West Gloucestershire PCT merged to form Gloucestershire PCT. Figures prior to 2006 are an aggregate of these predecessor organisations.
[2] The numbers of district nurses are shown, as evidence suggests that there have been some coding issues around health visitors and district nurses during the merger of the three PCTs.
Source:
The Information Centre for health and social care Non-Medical Workforce Census

Human Papilloma Virus

Dr. Gibson: To ask the Secretary of State for Health what selection criteria were applied to the tender process for a human papilloma virus vaccine; what role the criteria played in the decision-making process on the tender; and what weight was given to each criterion. [217487]

Dawn Primarolo: The award criteria for the evaluation of the contract to supply human papilloma virus (HPV) vaccine were as follows:

Criteria	*Points*
Quality of protection against cervical cancers caused by HPV strains 16/18	Maximum (Max) of 5,000
Duration of protection against cervical cancers caused by HPV strains 16/18 for more than 10 years duration	Max of 3,000
Quality of protection against anogenital warts caused by HPV Strains 6/11	Max of 1,300
Duration of protection against anogenital warts caused by HPV Strains 6/11 for more than 10 years duration	Max of 500
Quality of protection against HPV strains not included in the vaccine formulation	Max of 1,000
Other evidence of additional clinical benefits	Max of 500
Effective price per dose excluding VAT	Commercially confidential
Supply of the vaccine as single pre-filled syringe pack presentation	Max of 10
Quality of labelling, leaflets and presentation	Max of 5
Shelf life	Max of 120
Flexibility in the vaccine dosage schedule	Max of 70
Offers that reduce the risk of wastage if the vaccine is subject to temperatures above 8°C (this include the provision of temperature indicators and evidence based guidance on the stability of the vaccines at higher storage temperatures and subsequent safe administration.)	Max of 200
Closeness of proposed delivery schedule to authority requirements	Max of 200
Pallet configuration including a preference for the use of Euro pallets	Max of 5
Impact of proposed amendments to the terms and conditions	(-500). Offerors may lose up to 500 points
Quality/robustness of manufacturing contingency arrangements	Max of 10
Quality/robustness of the risk management of storage and distribution	Max of 10
Information provided relating to pack sizes, cold chain delivery, batch numbering systems and production capacity	Max of 5

Mike Penning: To ask the Secretary of State for Health what recent research his Department has *(a)* commissioned and *(b)* evaluated on the effectiveness of the human papilloma virus vaccine Gardasil. [217534]

Dawn Primarolo: The Department commissioned the Health Protection Agency to carry out studies to examine the impact and cost effectiveness of introducing a human papilloma virus (HPV) vaccination programme. This work has been accepted for publication in the *British Medical Journal*.

The Joint Committee on Vaccination and Immunisation (JCVI) provided advice to the Department on the effectiveness of HPV vaccines, including Gardasil (Sanofi Pasteur MSD). JCVI considered data on vaccine efficacy from both published papers and unpublished clinical trial data.

Mike Penning: To ask the Secretary of State for Health what his most recent estimate is of the cost of delivering a course of treatment of the human papilloma virus vaccine Cervarix as part of the national immunisation programme. [217535]

Dawn Primarolo: The cost of delivering a course of treatment of the human papilloma virus (HPV) vaccine will vary from primary care trust (PCT) to PCT depending on how they choose to implement the immunisation programme.

In total £8.9 million has been given to PCTs to deliver the HPV programme in the first year and the Department will provide the vaccine to the PCTs free of charge.

Mike Penning: To ask the Secretary of State for Health what factors underlay the decision not to issue catch-up Cervarix vaccinations against the human papilloma infection to female patients older than 18 years as part of the national immunisation programme. [217536]

Dawn Primarolo: The human papilloma virus (HPV) vaccination programme will offer the HPV vaccine to girls and young women aged 12 to 18 years of age. We are currently considering the issues around offering the vaccine to those over 18 years of age, including the cost-effectiveness of such an intervention.

Mr. Lansley: To ask the Secretary of State for Health if he will publish the respective assessments of the cost and benefits of providing *(a)* Cervarix and *(b)* Gardasil as the human papilloma virus vaccine for the national immunisation programme. [218674]

Dawn Primarolo: The cost-effectiveness analysis of introducing a Human Papilloma Virus (HPV) Vaccination programme in the United Kingdom carried out by the Health Protection Agency has been accepted for publication in the British Medical Journal and will be available shortly.

Incontinence: Medical Equipment

Mr. Drew: To ask the Secretary of State for Health with reference to his Department's June 2008 consultation on the proposed new arrangements for the provision of stoma and urology services and related services in primary care, whether his Department has

undertaken an impact assessment in respect of urology patients who use intermittent catheters to ensure that they will maintain the same level and quality of care provision; and if he will make a statement. [218492]

Dawn Primarolo: In line with the Better Regulation Executive (BERR) guidelines on consultation, an impact assessment has been published alongside the consultation document entitled "Proposed new arrangements under Part IX of the Drug Tariff for the provision of stoma and urology appliances—and related services—in Primary Care June 2008", copies of this publication have already been placed in the Library. The proposals set out in the consultation reflect discussions with patients and healthcare professionals—as well as dispensing contractors, manufacturers and wholesalers. It is intended that any new arrangements for the provision of stoma and incontinence items in primary care will maintain patient care.

Inflammatory Bowel Disease: Bexley

Mr. Evennett: To ask the Secretary of State for Health what estimate he has made of the number of people diagnosed with *(a)* colitis and *(b)* Crohn's disease in the London Borough of Bexley. [218520]

Ann Keen: The Department has made no estimate of the number of people diagnosed with colitis and with Crohn's disease in Bexley, and information about the number of people diagnosed with these conditions is not collected centrally. The hon. Member may therefore wish to raise this issue with the Chief Executive of Bexley Care Trust.

Liver Diseases: Health Services

Sandra Gidley: To ask the Secretary of State for Health (1) what work is being undertaken to *(a)* raise awareness of the benefits of specialist care and *(b)* support patient choice in referral to specialist centres in relation to liver disease; [218624]

(2) whether he plans to appoint a national clinical director for liver disease; [218625]

(3) what progress has been made on consideration of a national strategy to tackle liver disease. [218626]

Ann Keen: We recognise that there is strong support for developing a national strategy for liver disease and are currently considering how best to take this forward in light of the changes committed to in "High Quality Care for All", published on 30 June, copies of which are available in the Library.

We have no plans at present to appoint a national clinical director for liver disease.

Medicine: Graduates

Stephen Williams: To ask the Secretary of State for Health how much his Department spent on paying graduate medical students' university tuition fees in each of the last five years. [216896]

Ann Keen: Information on the number of eligible medical graduates on the four year graduate entry course for whom a tuition fee was paid and the total cost of tuition fees paid for those students in the last two academic years is shown in the table.

Information for years prior to 2005-06 is not available.

Analysis of tuition fees paid to NHS funded medical students by academic year

	Four year graduate entry course	
Academic year	*Number of students*	*Amount paid for tuition fees (£)*
Medical students		
2005-06	1,414	1,661,850
2006-07	1,823	2,189,600

Notes:
1. NHS student bursaries' database only holds details of the course that the student was actually funded for in that academic year, accordingly all medical and dental students who intercalated (undertook a one year BSc course part way through their medical/dental course) in any academic year have to be included with the figures for the medical students (because the vast majority of intercalating students are medical students) as they cannot interrogate the data to clarify whether an intercalated student was a medical or dental student in previous or future academic years.
2. Some graduate students may undertake the under-graduate medical course. However, these students cannot be included in the figures in the table as the information recorded by NHS student bursaries only captures the course the students are attending and not the status of the student.

Source:
NHS Business Services Authority Student Bursaries Unit

Stephen Williams: To ask the Secretary of State for Health how much his Department expects to spend on paying graduate medical students' university tuition fees in each of the next five years. [216897]

Ann Keen: Information on the estimated number of medical graduate on the four year graduate entry course and the estimated amount of tuition fees, which may be paid for those students in the next five academic years is shown in the following table.

Estimated amount of tuition fees which may be paid to national health service funded medical students on the four year graduate entry course by academic year

Academic year	*Estimated number of graduates on the four-year graduate entry medical course*[1,2]	*Estimated amount of tuition fees to be paid*[3,4] *(£)*
Medical students		
2008-09	2,035	5,080,855
2009-10	2,003	6,459,675
2010-11	1,981	6,388,725
2011-12	1,998	6,443,550
2012-13	1,998	6,443,550

[1] Actual intake medical graduate numbers in 2005-06, 2006-07 and 2007-08 were used to estimate the number of medical graduates in 2008-09.
[2] The planned intake medical graduate figure from 2007-06 was used to calculate estimated total number of medical graduates from 2008-09 onwards.
[3] Actual tuition fee rates have been used to estimate total amount of tuition fees paid in 2008-09 and 2009-10. From 2010-11 onwards, the 2009-10 tuition fee rate has been used to calculate estimated total amount of tuition fees paid and does not include any annual uplifts.
[4] The amount of tuition fee paid is calculated from the estimated number of medical graduates, however in reality not all medical graduates will be eligible to have their tuition fees paid.

Notes:
1. The figures do not account for medical students who might intercalate (undertake a one year BSc course part way through their medical course) in any academic year and so this would increase the number of years they would need their tuition fees paid for them.
2. Some graduate students choose to undertake the under-graduate medical course because their degree is not acceptable for entry onto the shortened medical course. However, these students cannot be included in the figures in the table as the information recorded by Higher Education Funding Council only captures the course the students are attending and not the status of the student.

1. Higher Education Funding Council for England: Medical School Return 2004-05—2007-08
2. Department of Innovation Universities and Skills tuition fee rates 2006-07—2009-10

Mental Health Services

Sandra Gidley: To ask the Secretary of State for Health (1) what guidance is provided by his Department to mental health trusts on the provision of emergency psychiatric teams; [218076]

(2) which mental health trusts have emergency psychiatric teams. [218077]

Mr. Ivan Lewis: The term 'emergency psychiatric teams' could refer to either or both 'crisis resolution and home treatment' teams, or 'emergency care' teams.

The Department published The Mental Health Policy Implementation Guidance in 2001 (copies of which have been deposited in the Library) to support the delivery of adult mental health policy locally and the joint publication with the Care Services Improvement Partnership Guidance Statement on Fidelity and Best Practice for Crisis Resolution Teams in January 2007. The Guidance Statement identifies aspects of how crisis teams deliver care which need attention so that best practice is followed across the country and emphasises a whole systems approach to care.

We also published Emergency care 10 years on: reforming emergency care on 29 April 2007, along with an updated version of the mental health emergency care checklist.

The information as to which mental health trusts have 'crisis resolution' and 'home treatment' teams is provided in the following table. The Department does not hold information on the numbers of 'emergency care' teams.

Mental health services: total number of crisis teams per mental health provider at 31 March 2008

Notes:
Total 'crisis resolution' teams include teams with Department's sign off to provide services to a population larger than a standard team as specified by the policy implementation guidance.
Source:
Service mapping exercise

Mr. Denis Murphy: To ask the Secretary of State for Health how many mental health nurses were employed in NHS hospitals in each of the last five years; and how many experienced a violent assault in connection with their duties in each such year. [218525]

Ann Keen: Information on the number of mental health nurses from 2003 to 2007 has been placed in the Library.

Information on the number of violent assaults against mental health nurses is not available and could be obtained only at disproportionate cost.

For information on the numbers of reported physical assaults against NHS staff, I refer my hon. Friend to the answer I gave the hon. Member for East Devon (Mr. Swire) on 4 March 2008, *Official Report*, columns 2390-1W.

NHS

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 21 February 2008, *Official Report*, column 962W, on the NHS, on what specific elements of the constitution his Department is considering whether it is appropriate to legislate; and what elements of the constitution his Department is not proposing to enshrine in legislation. [216938]

Mr. Ivan Lewis: The NHS Constitution is a 'declaratory document' and will not be enshrined in legislation. However, we intend to legislate to place a legal duty on all national health service organisations to take account of the Constitution when performing their functions, and on the Secretary of State to renew the Constitution every 10 years.

The draft NHS Constitution and the Government's proposals are open for public consultation until 17 October 2008. The details, including how to feed in views, are available on the Department's website at:

www.dh.gov.uk/consultations

NHS Cord Blood Bank

Ian Stewart: To ask the Secretary of State for Health (1) how much of the NHS blood and transplant budget for 2008-09 is allocated to the NHS Cord Blood Bank for *(a)* donation, *(b)* collection, *(c)* storage and *(d)* provision of cord blood units for clinical use; [218140]

(2) what physical capacity the NHS Cord Blood Bank has to *(a)* store and *(b)* process collected units of cord blood. [218141]

Dawn Primarolo: NHS Blood and Transplant has allocated the following budget for 2008-09 to the NHS Cord Blood Bank:

	£
Donation and collection	1,255,000
Storage of cord blood units	510,000
Provision of cord blood units for clinical use	300,000

Currently, the NHS Cord Blood Bank has more than 11,000 cord blood units banked over three sites in Edgware, Bishops Stortford and Cambridge. New, single site facilities at Filton, near Bristol, will allow 2,000 units per year to be processed and stored with the aim of having 20,000 clinical grade cord blood units banked by 2013.

NHS: Anniversaries

Mr. Drew: To ask the Secretary of State for Health how many NHS trusts put on special events to mark the 60th anniversary of the NHS; and at what cost in each case. [217951]

Ann Keen: Local events and activities to mark the 60th anniversary of the national health service were organised by NHS trusts locally. These costs are not held centrally.

NHS: Finance

Andrew George: To ask the Secretary of State for Health when he expects to publish the findings of the Advisory Committee for Resource Allocation review of the geographical apportionment of health funding. [217260]

Mr. Bradshaw: The 2009-10 and 2010-11 PCT revenue allocations will be announced in the autumn alongside the national health service operating framework for 2009-10. The report of the Advisory Committee on Resource Allocation's review of the funding formula used to inform PCT revenue allocations will be published at that time.

NHS: Reorganisation

Sandra Gidley: To ask the Secretary of State for Health (1) if his Department will publish the transcripts of the consultations undertaken as part of the Next Stage Review; [218622]

(2) who was consulted as part of the Next Stage Review, broken down by *(a)* region and *(b)* area of work. [218623]

Ann Keen: The NHS Next Stage Review has been first and foremost a local process. Clinical working groups were established in each strategic health authority (SHA) region to identify improvements to local services. In total 74 groups, led by 2,000 frontline clinicians examined services across eight 'pathways of care' engaging with patients, national health service staff, stakeholders and the public.

Each SHA has now published its long-term vision for improving health and healthcare in its region based on the work of these groups. The local visions and the final report are based on unprecedented engagement with around 60,000 public, patients and staff through a combination of local engagement led by the SHAs, and nationally through a series of events, meetings and working groups.

More information on local engagement can be found within the SHA vision documents, which are available on the review website—www.ournhs.nhs.uk. Nationally, full findings from the first set of deliberative events on 18 September 2007 and a summary of the international clinical summit on 21-22 November 2007 are available on the website. An analysis of the views and opinions gathered in the engagement process has also been published on the website.

A full breakdown of those engaged in the review process by region and area of work could be obtained only at disproportionate cost.

Nurses: Redundancy

Anne Milton: To ask the Secretary of State for Health how many specialist nurses have been made redundant as a result of reconfiguration of services in each of the last three years. [218432]

Ann Keen: The number of specialist nurses made redundant as a result of reconfiguration of services is not held centrally.

Occupational Therapy

Sandra Gidley: To ask the Secretary of State for Health how many occupational therapists qualified in 2007. [218078]

Ann Keen: This information is not collected centrally.

Pain

Patrick Hall: To ask the Secretary of State for Health what guidance is to be included in the forthcoming NHS Next Stage Review report on the management of chronic pain in *(a)* primary care, *(b)* secondary care and *(c)* tertiary care settings. [214304]

Ann Keen: The NHS Next Stage Review final report, 'High Quality Care for All' was published on 30 June; copies of this publication have already been placed in the Library. The review, led by two thousand frontline clinicians and staff across each strategic health authority in England, examined services across eight 'pathways of care', including long-term conditions. The report responds to the challenges identified locally to deliver the improvements to the wider system that will enable these local priorities to be met most effectively.

The report sets out a series of proposals to improve patients' experience of the care they receive. These include:

giving patients even greater influence over the services they use by guaranteeing choice and access to the most clinically and cost-effective drugs and treatments;

making health care more personal by ensuring that everyone with a long-term condition has their own personalised care plan and by piloting personal health budgets;

a new right to the latest drugs approved by the National Institute for Health and Clinical Excellence, and the speeding up of the process to look at new drugs and treatments; and

measuring quality right across the service and publishing that information for the first time, so that both staff and patients can work together to make the best decisions about treatment.

Physiotherapy: Sports

Hugh Robertson: To ask the Secretary of State for Health what progress the Health Professions Council has made on the statutory regulation of sports therapists; and if he will make a statement. [218742]

Mr. Bradshaw: The White Paper, "Trust, Assurance, Safety - The Regulation of Health Professionals in the 21st Century" sets out Government proposals for extending statutory regulation to more health care professions/ occupational groups. Copies of this publication are available in the Library.

The Extending Professional Regulation Working Group, on which the Health Professions Council is represented, have been tasked with taking forward this work.

At this stage, the focus of the working group is not around the statutory regulation of individual professional groups and it is doubtful there will be scope to regulate new professions before 2010.

Prescriptions

David Simpson: To ask the Secretary of State for Health (1) how many prescription forms were submitted in each of the last three years, broken down by region; [218897]

(2) what the average number of prescription items issued per prescription form was in each of the last three years, broken down by region; [218898]

(3) what the average cost to the NHS of items issued on prescription was in each of the last three years, broken down by region. [218902]

Dawn Primarolo: The information requested is in the following table[1].

[1] Based on prescriptions dispensed in the community in England. Also included are prescriptions written in Wales, Scotland, Northern Ireland and the Isle of Man but dispensed in England. The data do not cover drugs dispensed in hospitals, including mental health trusts, or private prescriptions.

Strategic health authority	*Number of prescription forms (Thousand)*	*Average number of prescription items per form*	*Average net ingredient cost[1] per item (£)*
2005

Prescription Pricing Division of the NHS Business Services Authority.

Primary Care Trusts: Equality

Dr. Gibson: To ask the Secretary of State for Health (1) which primary care trusts have completed a local equality impact assessment; and whether those assessments are centrally collated; [218542]

(2) what requirements there are on primary care trusts to conduct local equality impact assessments; and whether those assessments are required to cover cancer services. [218599]

Mr. Ivan Lewis: All primary care trusts (PCTs) have a duty to undertake and publish equality impact assessments (EqIAs). These are not centrally collected by the Department. However, the Healthcare Commission has conducted audits of national health service trusts to look at whether trusts have published the required information. Each PCT is required under the equality legislation to equality-impact assess their functions, policies, strategies and procedures. The Healthcare Commission when inspecting PCTs will assess the quality of the EqIA which will go towards their annual rating.

The "Cancer Reform Strategy" was published in December 2007 and has an equality impact assessment which highlights the strategic equality issues regarding cancer which are there to inform PCTs of the issues they should take in due regard when commissioning their own cancer services. Copies of the strategy have already been placed in the Library.

Primary Care Trusts: Managers

Mark Simmonds: To ask the Secretary of State for Health (1) which primary care trusts employ a medical director; [218903]

(2) whether each primary care trust employs a medical director. [219193]

Ann Keen: This information is not collected centrally.

Senior Salaries Review Body

Mike Penning: To ask the Secretary of State for Health what factors underlay his decision to accept the Senior Salaries Review Body recommendation for an increase to basic pay of 2.2 per cent. for executive staff covered by the Very Senior Managers' Pay framework from 1 April 2008. [217486]

Ann Keen: In considering their response to each pay review body the Government take into consideration the recruitment and retention position of the work force, affordability, the consumer price index inflation target and value for money for taxpayers.

Sight Impaired: Children

Sandra Gidley: To ask the Secretary of State for Health how many children aged *(a)* less than six, *(b)* six to 10 and *(c)* 11 to 16 years old have been prescribed glasses in each of the last five years. [218074]

Ann Keen: The Department does not collect statistics broken down by the age groups requested. The following table shows the numbers of national health service optical vouchers paid for by the NHS in England for persons aged under 16 and 16-18 in full-time education.

Numbers of spectacles for which vouchers were reimbursed

	0-15 (Children)	16-18 (Students)
2002-03	992,220	252,720
2003-04	1,022,960	233,530
2004-05	997,768	236,065
2005-06	996,535	244,534
2006-07	1,011,619	257,918

The data are published by The Information Centre for health and social care in the General "Ophthalmic Services: Activity Statistics for England and Wales", copies of these publication have already been placed in the Library.

All figures are the total number of NHS optical vouchers and do not take into account individuals who may have received more than one NHS optical voucher.

Wheelchairs

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of the adequacy of provision of wheelchair transportation to and from NHS hospitals. [214344]

Mr. Ivan Lewis: There have been no assessments made of the adequacy of provision of wheelchair transportation to and from national health service hospitals. It is for local NHS organisations and Social Services to decide how resources should to allocated and to commission appropriate services, taking account of local circumstances and priorities.

Sandra Gidley: To ask the Secretary of State for Health whether the implementation of the new model for the delivery of wheelchair services is intended to reduce waiting times for *(a)* assessment for and *(b)* delivery of powered wheelchairs. [216571]

Mr. Ivan Lewis: The Transforming Community Equipment and Wheelchair Services Programme (TCEWS) was set up in 2006 to design a radical new model for delivery of both community equipment and wheelchairs in England. The remit of the programme was to place service users and carers at the heart of any new service model and build on the strengths of the third and private sector. The overall aim was to develop a new high quality system for delivering equipment which would give those supported by the state the sort of choice and control they have not previously enjoyed. Responsibility for assessment of need remains with local health and social care commissioners.

The programme has developed a business case for a new model of delivery of wheelchair services which is currently being considered by senior officials in the Department.

Written Answers to Questions

Thursday 17 July 2008

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Fruit and Vegetable Grading

14. **Kerry McCarthy:** To ask the Secretary of State for Environment, Food and Rural Affairs what progress is being made in discussions on revising the EU grading rules for fruit and vegetables. [219300]

Jonathan Shaw: The June 2007 Agriculture Council agreed to a package of reforms to the CAP fruit and vegetables sector, since when the European Commission have been taking forward the implementation of the new regime. This includes revised rules on marketing standards which are currently under discussion in the Fruit and Vegetables Management Committee.

Upper River Ray

15. **Tony Baldry:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will make funding available for environmental projects for the Upper River Ray catchment area in Oxfordshire. [219301]

Mr. Woolas: Funding has been available for environmental projects within the Upper River Ray catchment area for over 10 years through various agri-environment schemes.

Agricultural Theft

16. **Mr. Hollobone:** To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the Home Secretary on the likely effects on trends in the theft of agricultural equipment and red diesel of rising world oil and metal prices. [219303]

Jonathan Shaw: The Secretary of State has not had any discussion with the Home Secretary on the theft of agricultural equipment and red diesel. Farm security is a matter for individual farms to address, with advice from the police if necessary.

I sympathise with farmers who have been victims of crimes, but crime is the remit of the Home Office, and not this Department.

Chewing Gum

17. **Mr. Allen:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will bring forward proposals for incentives to encourage manufacturers of chewing gum to create a biodegradable product. [219304]

Jonathan Shaw: Manufacturers assure us that they continue to put significant resources into developing less adhesive products, while retaining their marketability and safety. Additional tax relief is already available to companies incurring expenditure on qualifying research and development activities.

Food Prices

18. **Hugh Bayley:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to seek reductions in food prices. [219305]

Hilary Benn: High food prices are a global issue requiring coordinated action. The G8 recently agreed to invest $10 billion to address short-term humanitarian needs and to improve food security over the longer term. Rising food prices have an impact at home and abroad—particularly for the poorest—and today my Department has published a discussion paper which sets out what we consider necessary to ensure UK food security in a globalised world.

Energy Efficiency

19. **Mrs. Hodgson:** To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with ministerial colleagues on making consumer products more energy efficient. [219308]

Joan Ruddock: The publication of the Progress Report on Sustainable Products and Materials was agreed by the Cabinet Sub-Committee on Energy and Environment. Regular meetings have also been held with industry stakeholders such as retailers and manufacturers.

Consumer Council for Water

20. **Mrs. Dorries:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with representatives of the Consumer Council for Water; and what matters were discussed. [219310]

Mr. Woolas: Ministers and DEFRA officials are in regular contact with the Consumer Council for Water on a range of issues.

Fishing Industry

21. **Mr. Carmichael:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment he has made of the performance of the UK fishing industry. [219311]

Jonathan Shaw: Information of the performance of the UK fishing industry is published annually by the Marine and Fisheries Agency in: 'United Kingdom Sea Fisheries Statistics'. The document includes information on the size of the UK fishing fleet, the number of fishermen, key economic indicators, and the quantity and value of sea fish landings, imports and exports. Comparisons are made with the fishing industries in Europe and the rest of the world.

Single Payment Scheme

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment he has made of the Rural Payments Agency's performance against its targets in delivering the single payment scheme. [219296]

Hilary Benn: The Rural Payments Agency met all of their payment targets for the 2007 Single Payment Scheme. This demonstrates a continued improvement in RPA performance and is another important step towards the agency again providing an acceptable level of service to its customers.

Marine Habitats

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps he has taken to safeguard marine habitats; and if he will make a statement. [219297]

Jonathan Shaw: The Government are committed to establishing (by 2012) a network of well managed marine protected areas that will conserve the richness of our marine environment.

Carbon Emissions

Dr. Palmer: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the likely effect of the global economic situation on individual consumers' carbon footprints. [219302]

Hilary Benn: In the short-term, high fossil fuel prices and the global downturn could lead to slightly reduced demand for fuel and energy, and thus slightly lower carbon emissions in the economy as a whole, as people reduce their demand for fuel and energy.

If fossil fuel prices remain high in the long run, we expect producers and consumers to adapt and consume less fossil-fuel based energy, leading to reduced carbon emissions.

Environment Protection: Housing

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer to the hon. Member for Brentwood and Ongar of 7 May 2008, *Official Report*, column 905W, on environment protection: housing, whether the carbon footprint regarding the 60 per cent. reduction target relates to housing only. [219021]

Mr. Woolas: The Green Neighbourhoods project aims to retrofit up to one hundred selected neighbourhoods across England, with concentrations of hard-to-treat homes, with energy saving, microgeneration and water efficiency measures that would aim to reduce the carbon footprints of their homes by at least 60 per cent.

Pesticides: EC Action

Mr. Harper: To ask the Secretary of State for Environment, Food and Rural Affairs for what reason the Government abstained from the vote on the proposed Pesticides Directive in the Council of Ministers in respect of changing approval of pesticides from risk-based to hazard-based examination. [219447]

Mr. Woolas: The UK abstained on this issue as we remained concerned that no proper assessment of the potential impact of the proposals on agriculture in the Community, or of their benefits for consumers, had been presented to member states. We could not support measures which would have significant adverse impacts on crop protection and secure no significant health benefits for consumers.

Rural Areas

Mr. Holloway: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment he has made of progress against his Department's objective of achieving fair access to public services for rural communities. [219307]

Jonathan Shaw: DEFRA's new departmental strategic objective, which is based on outcomes rather than inputs, is "Strong Rural Communities". Progress against this DSO, published on the DEFRA website, is assessed quarterly against a range of indicators which show, in the main, a very positive picture.

In addition, the Commission for Rural Communities published its "State of the Countryside" report yesterday, in which the accessibility of services for rural communities is discussed in detail.

WALES

Departmental Official Cars

Stephen Hammond: To ask the Secretary of State for Wales which make and model of car he has chosen as his Ministerial car to be provided by the Government Car and Despatch Agency. [217750]

Mr. Paul Murphy: I refer the hon. Member to the answer given by my hon. Friend the Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick) on 16 July 2008, *Official Report*, column 414W.

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Wales how many staff in his Department have had five or more periods of sickness absence of less than five days in two or more of the last five years. [218972]

Mr. Paul Murphy: None.

NORTHERN IRELAND

Departmental Sick Leave

Mr. Hayes: To ask the Secretary of State for Northern Ireland how many working days have been lost due to sickness amongst employees for which his Department is responsible in each year since 1997. [218041]

Paul Goggins: The following table details the number of working days lost due to sickness among employees in the Northern Ireland Office in each year from 2000. Details are unavailable prior to 2000. The figures prior to 2004-05 do not include Home Civil Servants (HCS staff); however, they are included in figures from 2004-05 onwards.

	Staff included	*Total days absence*
2000-01	NIO NICS	12,147.5
2001-02	NIO NICS	13,396.4
2002-03	NIO NICS	14,894.5
2003-04	NIO NICS	16,592.5
2004-05	NIO NICS and NIO HCS	18,364.5
2005-06	NIONICS and NIO HCS	17,313.3
2006-07	NIONICS and NIO HCS	18,631.8

Young Offenders

Mark Durkan: To ask the Secretary of State for Northern Ireland (1) what procedures are in place to identify *(a)* mental health problems, *(b)* learning difficulties and *(c)* addictions among those entering young offender centres in Northern Ireland; [218760]

(2) what percentage of residents in young offenders centres in Northern Ireland in each of the last five years have been diagnosed as having *(a)* mental health problems and *(b)* learning difficulties; [218775]

(3) what percentage of those detained in young offender centres have experienced *(a)* learning difficulties, *(b)* literacy and numeracy difficulties, *(c)* time spent as a looked-after child, *(d)* mental health problems or personality disorder, *(e)* family break-down and *(f)* exclusion from school; [218803]

(4) what procedures there are for assessment of those entering young offender centres for *(a)* mental health problems or personality disorders, *(b)* educational under-achievement, *(c)* learning difficulties, *(d)* addictions and *(e)* family difficulties or breakdown. [218810]

Paul Goggins: All young offenders coming into prison undergo a health care committal screen on the first night. They are asked questions about mental health problems, drug and/or alcohol use or misuse and if they have any particular literacy problems. All inmates are also seen, on initial committal, by Opportunity Youth to identify any alcohol or substance misuse problems. If specific mental health problems are identified then they would receive onward referral to mental health support within health care.

The first assessment will be carried out by a mental health nurse who will provide basic support but, if required, a further referral will be made to another specialist, such as cognitive behavioural therapists, Opportunity Youth or psychiatrists.

A health care induction programme, aimed at providing inmates with information regarding the health services available to them whilst in custody, has been produced and is being delivered twice a week to all new committals. Inmates are informed of the clinics and support services available to them and how to access them. All staff, including the dental team, deliver the induction programme on a rotational basis.

Wider research in the UK suggests that approximately 60-70 per cent. of prisoners have some mental health problem but detailed analysis has not yet been undertaken specifically in relation to the young offender centre population.

Inmates are also given an education assessment within 20 days of committal which assesses literacy and numeracy ability and also tests for dyslexia. They are also asked to make the assessor aware of any other known learning difficulties, in particular ADHD.

In the last three years 31 per cent. of male young offenders have shown some indicators for dyslexia, (this compares with a figure of approximately 10 per cent. in the general population). A pilot is under way to assess better learning difficulties among the young offenders and in particular ADHD, which will also develop and pilot appropriate interventions.

At present, education staff are able to assess but not formally diagnose specific learning difficulties, although they can and do identify indications for certain conditions and plan and deliver lessons accordingly. Prison Service will also consider a diagnosis of dyslexia, which is a more formal process than assessment and must be carried out by a suitable qualified individual, as part of the pilot.

The Prison Service does not routinely have access to the academic, social care and other records of individuals before they come into custody. However, our own assessments on committal show that around 70 per cent. have literacy and numeracy skills below level 1, which is comparable to that of an 11-year-old.

Finally, the hon. Gentleman will be aware that lead responsibility for the provision of prison health care was transferred to the Department of Health, Social Services and Public Safety on 1 April 2008 and therefore I have copied these questions and my response to the Health Minister, Michael McGimpsey MLA.

Young Offenders: Children in Care

Mark Durkan: To ask the Secretary of State for Northern Ireland what percentage of those detained in young offender centres have been at any time a looked-after child or otherwise in the care of the state. [218802]

Paul Goggins: The Prison Service does not record the information requested in Northern Ireland. However, research in England and Wales suggests about one in three have been in care as a child.

Mark Durkan: To ask the Secretary of State for Northern Ireland what percentage of children who have *(a)* been arrested, *(b)* appeared in court, *(c)* gone through youth conferences and *(d)* been imprisoned in young offender centres or prison in each of the last 10 years spent time in state administered care. [218834]

Paul Goggins: Information in the format requested for *(a)*, *(b)* and *(d)* is not readily available and could be provided only at disproportionate cost.

Information available on *(c)* covers the proportion of initial admissions to the Juvenile Justice Centre, Northern Ireland, received from care homes:

	Proportion (percentage)
1998	15
1999	15
2000	28
2001	25
2002	15
2003	21
2004	35
2005	35
2006	35
2007	26

Notes:
1. Figures exclude cases where looked after status is unknown at time of admission.
2. Figures are based only to children whose residential address is a care home at time of admission.
3. Figures are based on the first 10 months of 2007 only.

CULTURE, MEDIA AND SPORT

British Grand Prix

Mr. Lancaster: To ask the Secretary of State for Culture, Media and Sport what discussions his Department had with *(a)* the organisers of Formula 1, *(b)* Milton Keynes Council and *(c)* other interested parties on the proposed move of the British Grand Prix from Silverstone to Donington Park; and on what dates each such discussion took place. [219455]

Mr. Sutcliffe: The decision to move the British Grand Prix from Silverstone to Donington is a commercial matter for Formula One Management (FOM) and the Federation Internationale de l'Automobile (FIA).

I have not had any direct discussions with any party about this decision.

However, my officials and I have met regularly with representatives of Motor sport Development UK (MDUK), The British Racing Drivers' Club (BRDC) and colleagues from Department for Business, Enterprise and Regulatory Reform (BERR) to discuss the current redevelopment plans of the Silverstone circuit.

I also met with Bernie Ecclestone on the 18 March 2008 to discuss the British Grand Prix.

Departmental Sick Leave

Mr. Hayes: To ask the Secretary of State for Culture, Media and Sport how many working days have been lost due to sickness amongst employees for which his Department is responsible in each year since 1997. [218043]

Mr. Sutcliffe: Sickness absence figures are contained in the annual report 'Analysis of Sickness Absence in the Civil Service', published by the Cabinet Office. Website at

http://www.civilservice.gov.uk/about/statistics/sickness.asp

The sickness absence reports on the Cabinet Office website date back to 2004. DCMS only holds sickness absence data dating back to 2003.

The Department's sickness absence policy provides guidance to employees on the procedures to following in dealing with sick absence. It also details responsibilities of individuals, line managers and human and business resources in monitoring and dealing with sickness absence and encouraging return to work—which includes guidance on making reasonable adjustments for employees.

As part of the Department's attendance, health and well-being programme for employees, there are also policies covering a range of flexible work patterns such as part-time/job share, flexible working hours and working from home to support work-life balance. There is support for employees who may wish to take a career break and/or special leave.

The Department also has an employee assistance programme, which is free to employees (their families and friends) and offers advice and counselling on both personal and work related issues.

Gambling

Mr. McCartney: To ask the Secretary of State for Culture, Media and Sport what meetings the Gambling Commission has held with *(a)* Gala Coral, *(b)* William Hill and *(c)* Ladbrokes or their representatives on betting shops in the last 12 months; what matters were discussed; what the outcomes were of the discussions; and if he will make a statement. [219544]

Mr. Sutcliffe: As part of its work in regulating the gambling industry the Gambling Commission has various meetings with representatives of the gambling industry, including Gala Coral, William Hill and Ladbrokes.

These meetings can form part of a formal consultation process, formal liaison with the industry and compliance work. A wide range of regulatory matters have been discussed at the meetings which form part of the Commission's work to ensure effective regulation of the betting industry is maintained. Apart from the normal licensing processes and compliance visits to the operators' premises, the only specific meetings on betting shops with any of the companies have been induction visits for Commissioners and staff.

Reaching Communities Scheme

Mr. Clifton-Brown: To ask the Secretary of State for Culture, Media and Sport what percentage of funding from the Reaching Communities Scheme has gone to projects in *(a)* rural areas and *(b)* urban areas. [213450]

Mr. Sutcliffe: The fund does not distinguish between urban and rural areas in awarding and recording these grants.

Mr. Clifton-Brown: To ask the Secretary of State for Culture, Media and Sport what guidance is provided on funding of programmes in rural areas when deciding on grants from the Reaching Communities Scheme. [213451]

Mr. Sutcliffe: Reaching Communities is managed by the Big Lottery Fund, which does not provide any specific guidance to applicants in rural areas but does work with partner or helper organisations to ensure that those groups who experience barriers to participation will be able to develop projects for funding from the

programme. Regional information is also provided to committee members who are involved in considering applications.

Sports: Bexley

Mr. Evennett: To ask the Secretary of State for Culture, Media and Sport what funding his Department has provided to *(a)* amateur sports clubs and *(b)* sport in schools in Bexleyheath and Crayford constituency since 1997. [218397]

Mr. Sutcliffe: Departmental and Lottery funding to promote and invest in grassroots and community sport is allocated via Sport England. They hold information according to local authority rather than parliamentary constituency, and have itemised the following investment since 1997 in clubs and schools projects within the London borough of Bexley:

Funding	*Recipient*	*Project*	*Award date*	*Financial year*	*Award amount (£)*
Sports Club	Phoenix Sports Club	New Sports Pavilion	27 April 1998	1998-1999	22,007
Sports Club	Danson Park Bowls Consortium Ltd.	Extension to Clubhouse	19 October 1998	1998-1999	41,950
Sports Club	Long Lane Junior Football Club	Upgrade changing facilities and construct STP	21 February 2000	1999-2000	462,330
Sports Club	Bexley Cricket Club	Community Club Development Programme			41,730

Funding	*Recipient*	*Project*	*Award date*	*Financial year*	*Award amount (£)*
Sports in Schools	Bexley Council	School Sport Coordinator Partnership	1 September 2002	2002-03	368,344
Sports in Schools	Bexley Council	Sidcup swimming centre -	30 August 2006	2006-07	693,000

INNOVATION, UNIVERSITIES AND SKILLS

Apprentices

Mr. Andrew Smith: To ask the Secretary of State for Innovation, Universities and Skills what recent assessment he has made of the opportunities for people completing apprenticeships to achieve higher education qualifications; and if he will make a statement. [219127]

Mr. Lammy: In World-class Apprenticeships we highlighted the need for clear progression routes for apprenticeships to maximise the apprenticeship experience, including higher education. Sector Skills Councils are developing a strategy for Level 4 Apprenticeships, enabling progression to higher education, including Foundation Degrees. They are mapping all apprenticeship frameworks to see where Level 4 apprenticeships may be required. Arrangements are already in place for apprentices who complete an engineering or e-skills apprenticeship to have their learning recognised through UCAS points to progress to higher education. A further eight frameworks are expected to be recognised by 2010.

We expect the number of opportunities to progress to higher education to rise once the planned mapping has been completed and the responsibility for maintaining progress will lie with the new National Apprenticeship Service (NAS) when it is operational in April 2009.

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Innovation, Universities and Skills how many and what percentage of staff in his Department and its predecessor have had more than two periods of sickness absence of less than five days in each of the last three years. [218716]

Mr. Lammy: Since the Department was formed in the 28 June 2007 machinery of government changes, 56 staff have had more than two periods of sickness of less than five days. This applies from the date of establishment of the Department to 31 March 2008 (the latest information available). This equates to 6.8 per cent. of current staffing.

David Simpson: To ask the Secretary of State for Innovation, Universities and Skills how many staff in his Department have had five or more periods of sickness absence of less than five days since establishment. [218982]

Mr. Lammy: Since the Department was established in the 28 June 2007 machinery of government changes, 10 staff have had five or more periods of sickness absence of less than five days. This applies from the date of establishment of the Department to 31 March 2008 (the latest information available). This represents of 1.2 per cent. of DIUS staff.

Home Information Packs

Robert Neill: To ask the Secretary of State for Innovation, Universities and Skills how many home information packs have been commissioned by *(a)* his Department and *(b)* its agencies to market a residential property; for which properties; at what cost; and whether a voluntary home condition report was purchased as part of the packs. [219013]

Mr. Lammy: This Department has not commissioned any home information packs. An answer in respect of all our agencies could be given only at disproportionate cost.

LEADER OF THE HOUSE

Departmental Sick Leave

David Simpson: To ask the Leader of the House (1) how many and what percentage of staff in her office have had more than two periods of sickness absence of less than five days in each of the last three years; [218713]

(2) how many staff in her Office have had five or more periods of sickness absence of less than five days in two or more of the last five years. [218980]

Helen Goodman: Data held by the Cabinet Office indicated that in 2007 there were no staff in the Leader's Office who had more than two periods of sickness absence of less than five days.

The number of staff with periods of sick absence lasting less than five days for the calendar year 2006 is already a matter of public record.

Sickness absence information for the previous years is not available in the form requested and could be provided only at disproportionate cost.

ELECTORAL COMMISSION COMMITTEE

Electoral Register: Marketing

Chris Ruane: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission how much the Electoral Commission has spent on *(a)* its own voter registration campaigns and *(b)* voter registration campaigns run by non-governmental organisations in each of the last 10 years. [218986]

Sir Peter Viggers: The Electoral Commission informs me that its public awareness campaigns both encourage voter registration and provide information about how to take part in elections, including different methods of voting and voting systems. The Commission is therefore not able to separate out its expenditure on voter registration specifically, from its expenditure on wider campaign activity.

The following table shows the total expenditure on the Commission's campaign activity in each of the past four years for which the relevant financial records are readily available. Equivalent information for earlier years could be provided only at disproportionate cost. The costs include advertising costs, and expenditure on other campaign activity such as research, call centres, websites and publications.

	£
2004-05	5,781,527
2005-06	6,334,064
2006-07	5,260,138
2007-08	4,963,172

Section 13 of the Political Parties, Elections and Referendums Act 2000 gives the Commission power to make grants to other bodies to promote public awareness. I am informed that since 2002 the Commission has awarded grants to organisations for projects that raise awareness of the democratic process, including but not limited to promoting voter registration. The following table shows the total grant funding awarded to non-governmental organisations in each year:

	£
2002-03	317,808
2003-04	188,339
2004-05	218,335
2005-06	393,734
2006-07	2,308,406
2007-08	1,177,477

The grants scheme is now closed to new applications and all funded projects will end by 31 March 2010.

Chris Ruane: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission how much the Electoral Commission spent on voter registration advertising in each of the last five years; and what assessment the Commission has made of the effectiveness of that advertising in increasing voter registration. [218989]

Sir Peter Viggers: The Electoral Commission informs me that its advertising campaigns both encourage voter registration and provide information about how to take part in elections, including different methods of voting and voting systems. The Commission is therefore not able to separate out its expenditure on voter registration advertising from its wider voter information advertising.

The following table shows the total expenditure on all such advertising in each of the past four years for which the relevant financial records are readily available. Equivalent information for earlier years could be provided only at disproportionate cost.

	£
2004-05	4,937,021
2005-06	5,438,551
2006-07	4,412,197
2007-08	4,115,661

A report to the Speaker's Committee on the Electoral Commission by the Comptroller and Auditor General, published in 2006 and entitled "Is the Public Aware of Democracy?" concluded that the Commission had used its resources in raising public awareness in general effectively, when judged by measures such as recall rates and other industry measures for its advertising, and that there appeared to have been an overall positive effect on voter registration.

SOLICITOR-GENERAL

Departmental Pay

Mr. O'Hara: To ask the Solicitor-General what the hourly charging rates of staff of the Treasury Solicitor's Department were in *(a)* 2005-06, *(b)* 2006-07 and *(c)* 2007-08. [217289]

The Solicitor-General: For those staff of the Treasury Solicitor's Department who are charged for on an hourly rate, the figures were:

	£
2005-06	
Litigation Division and Employment and Commercial Contracts Group	
Senior Civil Servant	134
Senior Solicitor (Grade 6)	112
Solicitor (Grade 7)	103
Junior Solicitor (Legal Officer)	64

EO—Executive Officer
AO—Administrative Officer

Serious Fraud Office

Mr. Djanogly: To ask the Solicitor-General what steps she plans to take following the publication in June 2008 of the final report on the review of the Serious Fraud Office; which organisations will be consulted on the report; and if she will make a statement. [215311]

The Solicitor-General: I refer the hon. Member to my written ministerial statement on 10 June 2008, *Official Report*, column 12WS. The review by Jessica de Grazia provided helpful insights into the work of the Serious Fraud Office (SFO) based on comparisons with US prosecutors.

The new Director of the SFO has found her recommendations on the internal workings of the SFO valuable background for his change programme. We are considering her recommendations on the wider environment in the context of a range of proposals we are already taking forward to strengthen the response to fraud, which is a cross-Government programme of work.

Mr. Djanogly: To ask the Solicitor-General what discussions the Attorney-General has had with the *(a)* Secretary of State for Justice and *(b)* the Home Secretary on the Final Report on the review of the Serious Fraud Office published in June 2008. [215312]

The Solicitor-General: The Attorney-General shared Jessica de Grazia's report with the Secretary of State for Justice and the Home Secretary as it was published, and our officials were then and have since been in contact with officials in both Departments and in the prosecuting Departments to consider the recommendations.

Mr. Djanogly: To ask the Solicitor-General what plans there are to enhance co-operation between the Serious Fraud Office, the Crown Prosecution Service and the Revenue and Customs Prosecution Office. [216029]

The Solicitor-General: The Serious Fraud Office works closely in collaboration with the other Law Officer Departments and the Attorney-General's Office on a variety of issues. To ensure her Departments work closely together at a strategic level, my noble Friend the Attorney-General chairs a strategic board on which the directors are represented, which meets quarterly.

Serious Fraud Office: Contracts

Mr. Djanogly: To ask the Solicitor-General with how many external contractors the Serious Fraud Office (SFO) has contracts; what estimate she has made of the average annual cost to the public purse of such contracts; and how many such contractors have held contracts with the SFO in each of the last 10 years. [215314]

The Solicitor-General: The Serious Fraud Office (SFO) does not keep records of the number of external contractors it employs. The cost of all non-permanent staff employed at the SFO (including external barristers) for each of the last 10 years is as follows:

Financial year	*Expenditure (£)*
2007-08	11,521,000
2006-07	10,312,000
2005-06	11,845,000
2004-05	9,492,000
2003-04	8,566,000
2002-03	6,759,000
2001-02	6,596,000
2000-01	5,316,000
1999-2000	4,004,000
1998-99	4,750,000

Serious Fraud Office: Operating Costs

Mr. Djanogly: To ask the Solicitor-General what the cost of running the Serious Fraud Office was in each of the last 10 years. [215316]

The Solicitor-General: The cost of running the Serious Fraud Office for each of the last 10 years was as follows:

Financial year	Annual running costs (£)
2007-08	42,071,000
2006-07	40,415,000
2005-06	39,869,000
2004-05	32,808,000
2003-04	27,791,000
2002-03	26,176,000
2001-02	23,002,000
2000-01	19,608,000
1999-2000	15,860,000
1998-1999	16,027,000

Serious Fraud Office: Powers

Mr. Djanogly: To ask the Solicitor-General what plans there are to increase the Serious Fraud Office's investigatory powers; and whether these plans have been amended to take account of the findings in the Final Report on the review of the Serious Fraud Office published in June 2008. [215307]

The Solicitor-General: At present, there are no plans to extend the investigative powers of the Serious Fraud Office beyond those which were recently provided through the Serious Crime Act 2007.

Serious Fraud Office: Prosecutions

Mr. Djanogly: To ask the Solicitor-General how many prosecutions were initiated by the Serious Fraud Office in each of the last 10 years; and what the conviction rate from such prosecutions was in each year. [215322]

The Solicitor-General: The Serious Fraud Office has brought prosecutions against the following number of defendants in each of the last 10 years; and the conviction rates arising from these prosecutions are as follows:

Financial year	Defendants tried	Conviction rate (percentage)
2007-08	25	68
2006-07	21	71
2005-06	23	57
2004-05	58	64
2003-04	39	51
2002-03	25	68
2001-02	13	77
2000-01	58	88
1999-2000	12	92
1998-99	42	81

Mr. Djanogly: To ask the Solicitor-General in what proportion of Serious Fraud Office prosecutions was pre-trial abuse claimed by the defence in each of the last 10 calendar years. [216028]

The Solicitor-General: The Serious Fraud Office does not centrally maintain statistics about applications made to a judge to stop a trail from proceedings on the basis of allegations of abuse of process.

The SFO holds post-case reviews on conclusion of each case, which provides an opportunity for the case team to discuss and record the successes of the investigation, as well as any lessons learned from issues encountered (and resolved) for the future. This information is shared across the office to ensure that best practice is adopted throughout the organisation.

Serious Fraud Office: Recruitment

Mr. Djanogly: To ask the Solicitor-General whether the Attorney-General plans to issue guidance to the Serious Fraud Office on its recruitment practices, with particular regard to recruitment of former police officers. [216032]

The Solicitor-General: No.

Serious Fraud Office: Resignations

Mr. Djanogly: To ask the Solicitor-General what reasons were given to the Attorney General for the resignation of the former Chief Executive of the Serious Fraud Office. [216030]

The Solicitor-General: The head of the Serious Fraud Office is the Director. The previous Director, Robert Wardle, was appointed on the basis of a fixed term contract which ended on 20th April 2008.

Serious Fraud Office: Standards

Mr. Djanogly: To ask the Solicitor-General whether the *(a)* targets and *(b)* priorities of the Serious Fraud Office (SFO) are to be reviewed following the review of the SFO Final Report published by the Attorney General in June. [214971]

The Solicitor-General: The SFO is currently involved in a fundamental review as a result of the arrival of a new Director on 21 April 2008 and the publication of Jessica de Grazia's Report on the Serious Fraud Office published in June 2008.

As part of this review the Director has already made a number of changes designed to strengthen the leadership team, improve staff training and to shorten the time it takes to get SFO cases into Court. The recommendations made in Jessica de Grazia's report which relate to the operation and management of the SFO are currently being considered very carefully as part of this, and further developments to build on the performance of the SFO will be introduced over the coming year.

Mr. Djanogly: To ask the Solicitor-General whether there are proposals to *(a)* improve the Serious Fraud Office's case management procedures and *(b)* seek efficiency savings in Serious Fraud Office investigations and prosecutions. [215315]

The Solicitor-General: The recently appointed director of the Serious Fraud Office (SFO) has already stated on several occasions that one of his priorities is to enable cases to be brought to court more quickly.

In addition, in March 2007 the SFO established the Case Management Reform Programme (CMRP), which is a business change programme designed to contribute to the strategic aims and objectives of the SFO. In

particular, the CMRP aims to improve the effectiveness and efficiency of SFO casework processes, thus increasing the probability that cases will withstand procedural challenge and be concluded within much shorter time frames.

Serious Fraud Office: Working Conditions

Mr. Djanogly: To ask the Solicitor-General what assessment she has made of the findings in the recent final report on the Serious Fraud Office on its working culture; and if she will make a statement. [216033]

The Solicitor-General: The Attorney-General and I are aware that the new Director of the Serious Fraud Office has taken account of Jessica de Grazia's findings and his own assessment since arrival and that he is taking forward a programme of change within the SFO, including of communication and ways of working. This is a welcome approach. In this he will be building on the good work of very many staff in the SFO, which was also acknowledged by Jessica de Grazia.

CHILDREN, SCHOOLS AND FAMILIES

Children in Care: Clinical Trials

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what regulations and guidelines govern the participation of children in care in drug trials. [218463]

Dawn Primarolo: I have been asked to reply.

Clinical Trials in the European Union are undertaken in accordance with the requirements of Directive 2001/20/EC of the European Parliament and of the European Council on the approximation of the laws, regulations and administrative provisions of the member states relating to implementation of good clinical practice in the conduct of clinical trials on medicinal products for human use. The Directive provides for the protection of clinical trial subjects, including minors, and sets out requirements for the ethical review of clinical trials. The Directive provides for a general rule that minors may only be included in a clinical trial if the informed consent of the parents or legal representative has been obtained.

The Directive was transposed into United Kingdom legislation as the Medicines for Human Use (Clinical Trials) Regulations on 1 May 2004. Two further Commission Directives setting out the detailed principles and guidelines of good clinical practice have been agreed and implemented into UK law. On 1 May 2008 the Government amended UK legislation, following a public consultation, to allow minors to be entered into a trial prior to consent having been obtained from a person with parental responsibility or legal representative in trials of emergency medicines where and while certain conditions are met.

Departmental Buildings

Mr. Peter Ainsworth: To ask the Secretary of State for Children, Schools and Families how many *(a)* new builds and *(b)* major refurbishments were completed by his Department for a cost in excess of £0.5 million in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08 to which the Building Research Establishment Environmental Assessment Method or equivalent was applied; how many such buildings were assessed as (A) pass, (B) good, (C) very good and (D) excellent; and if he will make a statement. [213692]

Kevin Brennan: The Department for Children, Schools and Families was created on 28 June 2007 and has not completed any new builds since that time. Since 2007, the Department has undertaken one major refurbishment with a value in excess of £0.5 million where BREEAM is applicable. The work is ongoing and a BREEAM assessment will be undertaken once the refurbishment has been completed.

Departmental Internet

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much his Department spent on developing the 'Build your PlaySpace' on the departmental website; and if he will make a statement. [217673]

Kevin Brennan: The Department developed the 'Build your PlaySpace' interactive tool to engage children and young people in the fair play consultation in a fun and interactive way. The tool is one strand of a wider consultation strategy that includes an activity poster/competition for children and young people, live events to encourage local dialogue with children, young people, their families and practitioners and written consultation.

The cost of developing the 'Build your PlaySpace' tool was £50,000 plus VAT.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many people have used the 'Build your PlaySpace' on his Department's website; and if he will make a statement. [217674]

Kevin Brennan: The Department developed the 'Build your PlaySpace' interactive tool to engage children and young people in the fair play consultation in a fun and interactive way. The tool is one strand of a wider consultation strategy that includes an activity poster/competition for children and young people, live events to encourage local dialogue with children, young people, their families and practitioners and written consultation.

The number of people who have used the 'Build your PlaySpace' tool as at 16 July 2008 is 9,286. The interactive tool will be available until 18 August 2008.

Departmental Official Hospitality

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much his Department has spent on hospitality in the last 12 months. [219696]

Kevin Brennan: The purchase of hospitality is recorded under the general heading of Meeting Refreshments. Details of expenditure on hospitality incurred by the Department over the last 12 months and recorded in the Department's Integrated Financial Information System, are set out:

Financial Year 2007-08: £ 357,260.54

DCSF was established under Machinery of Government Changes on 28 June 2007. The response also covers those areas of responsibility held by its predecessor, the Department for Education and Skills (DFES).

Departmental Pay

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much has been paid in bonuses to staff of each non-departmental body for which his Department has responsibility in the last 12 months. [219282]

Kevin Brennan: The Department does not hold information on the bonuses paid to NDPB staff.

Education: Young Offender Institutions

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) how many young offenders were assessed on reception into custody as having literacy and numeracy skills below level one at each young offender institution in the last 12 months; and if he will make a statement; [219242]

(2) what proportion of young people entering secure facilities were tested for literacy and numeracy skills in each year since 2001; and if he will make a statement; [219245]

(3) what proportion of people in young offender institutions had a reading age of *(a)* entry level 1 and 2 and *(b)* entry level 3 in each year since 2001; and if he will make a statement. [219248]

Beverley Hughes: The following table gives the number of young offenders who were assessed on reception into custody as having literacy and numeracy skills below level one (those assessed at Pre-entry Level, Entry Level 1, Entry Level 2 and Entry Level 3) at each Young Offender Institution in the last 12 months:

Establishment	*Lit*	*Total*
Ashfield	467	584
Brinsford	277	368
Castington	169	213
Cookham Wood	8	22
Downview	10	35
Eastwood Park	25	41
Eastwood Park	676	891
Foston	0	0
Hindley	164	226
Huntercombe	167	253
Lancaster Farms	185	263
New Hall	25	44
Parc	56	73
Parc	361	458
Thorn Cross	55	60
Warren Hill	365	391
Werrington	214	318
Wetherby	416	527
Total	4,309	5,992

The following table gives the number of juvenile young offenders assessed for literacy and numeracy skills on entry to custody in YOIs (data prior to 2003/04 are not available):

	Percentage assessed
2003/04	100.0
2004/05	97.7
2005/06	95.1
2006/07	98.0

Data from the Learning and Skills Council's (2006-07) initial literacy assessments on for juveniles in YOIs is as follows (data prior to 2006/07 are not available):

	Entry level 1 and 2	*Entry level 3*	*Below entry level 1*
2006/07	1,367	2,219	54
2007/08[1]	864	1,687	58

[1] These figures are for August 2007 to May 2008.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) how many hours per week of education young people in young offender institutions received on average in each year since 2001; and if he will make a statement; [219246]

(2) what the attendance rate for timetabled education and training sessions in young offender institutions was in each of the last five years; and if he will make a statement; [219244]

(3) what proportion of young offenders supervised by young offender institutions are in full-time education, training or employment; and if he will make a statement. [219243]

Beverley Hughes: The following table shows the average number of hours of education, training and personal development activity received by juvenile offenders in young offender institutions (YOIs) for all the years that YJB data are available:

	Average hours per week
2004/05	24.5
2005/06	28.2
2006/07	26.2

The following table gives the attendance rates per establishment in 2006/07:

Establishment	*Class efficiency*
Ashfield	88.62
Brinsford	84.91
Castington	86.98
Cookham Wood	61.59
Downview	85.31
Eastwood Park	82.71
Feltham	84.15
Hindley	70.19
Huntercombe	72.26
Lancaster Farms	72.13
New Hall	73.70
Parc	92.27
Stoke Heath	81.80
Thorn Cross	76.04
Warren Hill	85.62
Werrington	84.69
Wetherby	82.65

Data on the proportion of juvenile offenders supervised by YOIs who are in full-time education, training or employment are not collected in the format requested. Under the Offenders Learning and Skills Service (OLASS), each young offender has an entitlement to 25 hours of education, training and personal development activity per week. The Youth Justice Board collect data on the average number of hours delivered across YOIs and the latest figures are shown above.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what targets his Department has set to improve the educational provision and performance of young offender institutions; what progress has been made towards meeting these targets; when each such target is to be met; and if he will make a statement. [219247]

Beverley Hughes: The Department for Children, Schools and Families does not set central targets to improve the educational provision and performance of young offender institutions. The Youth Justice Board (YJB) sets and monitors the following performance indicators for education in Young Offender Institutions (YOIs):

Assessment: All young people entering a secure facility are assessed for literacy and numeracy.

Progression: 80 per cent. of young people must improve by one skill level or more in literacy and/or numeracy from the level of need set out in the individual learning plan. In YOIs this indicator relates to young people on DTOs of 12 months or more.

Training plans: All young people entering a secure facility must have a training plan developed and subsequently reviewed in accordance with the "YJB's National Standards for Youth Justice Services".

Hours of education and training: to ensure that young people in YOIs receive an average of 25 hours training and personal development activity per week.

The following table shows the performance against these YJB targets for the years for which data are available:

	Assessment (percentage)	*Progression (percentage)*	*Training plans (percentage)*	*Hours of education and training*
200304	100.0	52.0	n/a	n/a
200405	97.7	41.87	93.0	24.50
200506	95.1	42.5	80.5	28.24
200607	98.0	36.1	94.4	26.20

We have published proposals to improve the education and training young offenders receive in the Youth Crime Action Plan on 15 July.

Foster Care: Truancy

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many foster carers received fixed penalty notices for non-attendance of children in their care at school in each of the last five years. [219482]

Kevin Brennan: Information on the number of foster carers who received fixed penalty notices for non-attendance of children in their care at school in each of the last five years is not collected centrally.

National Healthy Schools Programme

Gregory Barker: To ask the Secretary of State for Children, Schools and Families how much his Department has spent on implementation of *(a)* the Healthy Schools initiative and *(b)* the Sustainable Schools framework in each year since 2004; and what forecast expenditure on such activities is for (i) 2008-09 and (ii) 2009-10. [219401]

Kevin Brennan: The National Healthy Schools Programme is jointly funded by the Department for Children, Schools and Families and the Department for Health. The following amounts have been allocated for each financial year since 2004:

	£ million
2004-05	5.7
2005-06	9.3
2006-07	12.2
2007-08	13.2

£13.2 million provisional funding has been allocated through the area based grant for each year over the next three financial years 2008-09, 2009-10, and 2010-11, with the option of adding more funds in each financial year. We have added £3 million to this financial year bringing the total to £16.2 million for 2008-09.

The Sustainable Schools programme began in May 2006 and the Department has

spent to date:

	£
2006-07	600,000
2007-08	1,015,000

We have forecast to spend in 2008-09 and 2009-10:

	£
2008-08	1,015,000
2009-10	1,000,000

Pupil Referral Units: Young Offenders

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils attending pupil referral units were *(a)* convicted of a criminal offence and *(b)* received an official police caution in the school year 2006-07. [219263]

Kevin Brennan: The requested information is not collected centrally.

Schools: Sports

Hugh Robertson: To ask the Secretary of State for Children, Schools and Families what recent discussions the Youth Sport Trust has had with the Association for Physical Education on the delivery of the National Schools Sports Strategy. [217525]

Kevin Brennan: Through their joint membership of the consortium contracted to deliver the PE and Sport Professional Development Programme, a workstrand of the PE and Sport Strategy for Young People, the YST routinely meet with AFPE. The last such meeting was held on 12 May.

JUSTICE

Departmental Disciplinary Proceedings

Mr. Redwood: To ask the Secretary of State for Justice how many *(a)* officials in his Department and *(b)* employees of (i) agencies and (ii) other bodies reporting to his Department were (A) dismissed and (B) disciplined for matters related to their conduct in the last two years. [217604]

Mr. Wills: According to centrally held records in the Ministry of Justice (former DCA), including HMCS, OPG, Tribunals Service, Wales Office, Scottish Office and MOJ HQ, 40 members of staff were dismissed for matters relating to conduct in the period April 2006 to the end of March 2007, and 53 members of staff were dismissed for the period April 2007 to the end of March 2008.

The former DCA does not hold the information on the number of staff disciplined for matters related to their conduct centrally in the format requested. This could be obtained only at disproportionate cost. The only information of this type held is on the Prison Service.

According to centrally held records in the public sector Prison Service, 130 members of staff have been dismissed, and a further 587 members of staff have been formally disciplined, for matters relating to their conduct in the period 1 July 2006 through 30 June 2008.

Departmental Pay

Mr. Redwood: To ask the Secretary of State for Justice what proportion of staff of his Department and its agencies did not receive the maximum bonus possible under a bonus scheme applying to them in the last two years. [217416]

Mr. Wills: The core Ministry of Justice employs staff previously employed on several sets different terms and conditions, each with their own legacy arrangements for bonus payments.

The information provided as follows relates to former DCA senior civil service (SCS) and grades below SCS. The data exclude payments to magistrates courts staff (who became civil servants within this Department in April 2005 and whose terms and conditions did not normally allow for payment of performance or special bonuses) and staff in the Tribunals Service who joined the former DCA on 1 April 2006 about whom information is not available to us prior to 2007.

Proportion of members of the senior civil service not paid the maximum bonus amount during the past two years

	Percentage
2006	82
2007	75

Proportion of staff below the SCS who did not receive the maximum performance bonus amount during the past two years (not awarded maximum performance bonus in respect of the 2006 and 2007 performance years)

	Percentage
2006	86.80
2007	83.70

Notes:

1. Performance bonuses are paid to staff who are assessed to have performed over and above the standard expected from them over the course of the whole performance year.
2. During the above years there was one single amount paid to staff receiving an exceeded marking. This was £400.
3. Data referring to proportion refers only to those staff on relevant terms and conditions (i.e. only include former DCA and Court Service staff but not staff on magistrates courts terms and those who joined from the other Government Departments during machinery of government changes in 2005 and 2006 and who were not subject to the former DCA performance management or reward systems during the relevant period).
4. Information on performance bonus payments for the 2007-08 performance year is not yet available. These payments are implemented as part of the annual pay award which will be paid in August.
5. The information contained above excludes payments to staff on Home Office terms and conditions who transferred to the Ministry of Justice with the establishment of the Ministry in May 2007. Information for these staff for 2007-08 is included in the answer to this question provided by the Home Office. Information for 2007-08 as information is not yet available.

Proportion of staff below the SCS who did not receive the maximum special bonus amount during the past two years.

Special bonuses are paid to staff 'in year' for exceptional contribution over and above that normally expected during the performance year. Awards are benchmarked locally and there is 'no maximum' amount payable.

HM Prison Service. HM Prison Service became an Executive agency of the Ministry of Justice on 9 May 2007.

In 2006-07, no member of staff employed by HMPS was awarded the maximum bonus available.

In 2007-08, two members of staff received this bonus. The total number of staff in post at this time was 51,239, therefore as a proportion more than 99.99 per cent. of staff did not receive the maximum possible bonus.

Domestic Violence: Convictions

Margaret Moran: To ask the Secretary of State for Justice how many convictions there were for offences connected to domestic violence in each of the last three years, broken down by criminal justice area. [218749]

Maria Eagle: Convictions for offences involving domestic violence cannot be identified from the information held on the court proceedings database as the circumstances behind each offence are not collected centrally by my Department.

Driving Offences: Insurance

Mr. Ruffley: To ask the Secretary of State for Justice how many prosecutions for offences related to driving without insurance there were in each police force area in each of the last 10 years; and what the average penalty imposed in each year was. [219058]

Maria Eagle: The available information relates to the offence of 'use of a motor vehicle uninsured against third party risks'. Tables A and B provide data on prosecutions, convictions (findings of guilt) and court imposed fines from 1997 to 2006 (latest available). Table C covers fixed penalty notices issued from 1 June 2003 to 2006. Data for 2007 will be available later this year.

Table A: Proceedings and findings of guilt at magistrates courts for the offence of using a motor vehicle uninsured against third party risks[1] by police force area, England and Wales, 1997 to 2006

Number of offences

	1997		*1998*		*1999*		*2000*

[1] An offence under the Road Traffic Act 1988 s. 143 (2)
[2] As from 1 June 2003, 'driving a motor vehicle while uninsured against third party risks' became a fixed penalty offence.

Notes:
1. It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences may be less than complete.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their limitations are taken into account when those data are used.

[1] An offence under the Road Traffic Act 1988 s. 143 (2).
[2] As from 1 June 2003, 'driving a motor vehicle while uninsured against third party risks' became a fixed penalty offence.
[3] Force unable to supply data due to technical reasons.
Notes:
1. Offenders are subject to a £200 fixed penalty. However this can be increased to a maximum of £5,000 if the matter goes to court.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their limitations are taken into account when those data are used.

Electoral Register

Mrs. Moon: To ask the Secretary of State for Justice (1) what the percentage of voter registration is estimated to be in each *(a)* constituency and *(b)* local authority area in England; [218824]

(2) what the target level for voter registration is; [218827]

(3) what plans he has to enable local authorities to maximise voter registration. [218828]

Bridget Prentice: The Government have not made any estimate of the percentage of voter registration in each constituency and local authority area in England. The Electoral Commission estimated that 3.5 million eligible electors were not registered to vote in their report, Understanding Electoral Registration, which was published in September 2005. However the number of electors registered in England continues to grow and between 2 December 2006 and 1 December 2007 the number of parliamentary electors grew from 37,588,775 to 37,817,466 and the number of local government electors grew from 38,223,259 to 38,599,775.

The Government have not set any target level for voter registration, as we believe that all eligible electors should be registered to vote. To support this aim we have taken a number of steps to increase voter registration rates. Section 9 of the Electoral Administration Act 2006 placed a new duty on electoral registration officers to take all necessary steps to maintain the electoral register, including sending the annual canvass form more than once, making house to house inquiries and inspecting records that they are permitted to inspect. It is for the ERO to decide on the best steps to use in conjunction with their local knowledge to ensure that requirements for making contact with persons and maintaining the register are complied with. To support such activities we have made £2.5 million available each financial year under our Participation Fund, which allows EROs to apply for additional funding to assist them in promoting electoral awareness within their areas.

The Act also includes a provision for the Electoral Commission to introduce new performance standards for EROs. The Electoral Commission is currently developing these standards and the final set of standards will be published during July 2008. A copy of these standards will be laid before the House and the information obtained from local authorities as a consequence will give us a better understanding of the actions taken to increase registration.

Incapacity Benefit: Fraud

Mr. Bone: To ask the Secretary of State for Justice how many people previously in receipt of incapacity benefit who have had their entitlement to benefit withdrawn following a medical assessment appealed against the decision in the last year for which figures are available; and how many of those appeals were successful. [219451]

Bridget Prentice: The Tribunals Service holds data on the number of appeals made against decisions regarding incapacity benefit. This includes information on anyone who may have been refused incapacity benefit on their initial claim. It is not possible to specify the number of appeals made by people who have previously been in receipt of incapacity benefit and who have subsequently had their entitlement to the benefit withdrawn following a medical assessment.

Between April 2007 to March 2008, the number of incapacity benefit appeals listed for hearing was: 65,723; the number of cases heard at hearing was: 57,806. Of these, 29,636 (45.1 per cent.) cases were successful.

Land Registry Act 2002

Mark Williams: To ask the Secretary of State for Justice if the Government will bring forward proposals to amend section 73(7) of the Land Registry Act 2002. [218586]

Bridget Prentice: It is possible that an amendment will be required to some of the provisions in the Land Registration Act 2002 to reflect the transfer of the Adjudicator's present jurisdiction into the proposed Lands and Housing Chamber of the First Tier Tribunal to be created under the provisions of the Tribunals, Courts and Enforcement Act 2007 and announced following the Ministry of Justice's recent consultation.

However, the changes will only reflect the transfer and will not affect the rights of the parties in these disputes. At this stage, no timetable has been fixed for making the transfer.

Sentencing

Mr. Kidney: To ask the Secretary of State for Justice what assessment he has made of the effects of regional variation in sentencing practices, including custodial sentences, affecting young offenders. [218801]

Mr. Hanson: The Youth Justice Board have commissioned a research study of sentencing decisions made by courts, to identify why some young people are sentenced to custody and others to community sentences. They will be considering its recommendations to inform any future work in respect of sentencing practice.

In the Criminal Justice and Immigration Act 2008 we introduced the Youth Rehabilitation Order, the new generic community sentence for young people aged under 18, and made a number of other youth justice provisions. To reflect this change we will also be asking the Sentencing Guidelines Council to produce sentencing guidelines for young people. The guidelines and training will be delivered to sentencers to help ensure consistent and appropriate application of the new sentencing framework.

Young Offenders

Mr. Kidney: To ask the Secretary of State for Justice what guidance his Department has issued to secure establishments on screening of young offenders for *(a)* mental illness, *(b)* learning difficulties and *(c)* physical disabilities. [218805]

Mr. Hanson: All young offenders receive health screening on reception into prison. This is via an evidence based initial health screen used throughout all prisons in England and originally developed by Professor Grubin of the University of Newcastle. Young offenders are also screened for their educational needs. A new reception screen for young people has been developed by the Youth Justice Board and is being piloted. It contains a section looking at disability and impairment and covers physical and mental health problems.

A general learning needs assessment is used to identify all learning difficulties and disabilities. Where problems are identified, either as a result of the health screen or the education screen, a referral to an appropriate professional would be expected to be made.

Transfer of the responsibility for commissioning health services in Young Offender Institutions, and adult prisons in England, commenced in 2003 and was fully devolved to the NHS by April 2006. Primary Care Trusts work with their partner establishments to develop a comprehensive health needs assessment of the population and commission on the basis of that need.

Young Offenders: Custodial Treatment

Mr. Kidney: To ask the Secretary of State for Justice if he will take steps to prohibit imprisonment of offenders under the age of 14 years. [218806]

Mr. Hanson: We have greatly strengthened and expanded the range of pre-court diversions and community sentences available for the police and courts to use when dealing with young people who have offended. The Government's Youth Crime Action Plan, which was published on 15 July, builds on this by setting out cross-Government arrangements for tackling offending and re-offending by young people.

However, for a small minority of young people who commit serious offences, custody is the only appropriate response to what has occurred and the only means of protecting the public.

Any offender aged 14 or under who is sentenced to custody is accommodated in a secure training centre or secure children's home. These have high staffing ratios, a child-centred approach and a particular emphasis on education.

Young Offenders: Rehabilitation

Chris Huhne: To ask the Secretary of State for Justice what facilities there are for the detoxification of children in each *(a)* secure training centre, *(b)* secure children's home and *(c)* young offender institution. [219123]

Mr. Hanson: There is a 24-hour clinical presence in each of the young offender institutions, and in Oakhill secure training centre, which experiences and manages the greatest number of cases of drug and alcohol dependence among young people. All other secure training centres and secure children's homes have arrangements in place to identify and manage, often with the assistance of local NHS substance misuse services, cases of substance dependence.

The Youth Justice Board, Department of Health and the National Treatment Agency for Substance Misuse are about to issue jointly developed clinical guidance for the treatment of substance dependence among young people in secure settings. This will be the first document of its kind in the world.

The guidance has been piloted in five young offender institutions (Ashfield, Downview, Hindley, New Hall and Wetherby), one secure training centre (Oakhill), and two secure children's homes (Vinney Green and Aycliffe).

Young Offenders: Remand in Custody

Mr. Kidney: To ask the Secretary of State for Justice what assessment he has made of trends in the number of children remanded in custody while awaiting trial. [218836]

Mr. Hanson: The proportion of young people held on remand in custody has remained relatively stable over the past five years. The decision to remand a young person in custody remains a matter for the courts.

The following table (based on data supplied by the Youth Justice Board) shows the number of young people remanded to custody at the end of June in the years 2003-08 and the percentage of the overall under-18 custodial population this represented.

	Number of young people remanded to custody[1]	*Percentage of under-18 custodial population*
2003	559	19.9
2004	587	21.6
2005	565	20.3
2006	648	22.2
2007	607	20.9
2008	636	20.6

[1] Young people remanded to custody on the last Friday of June 2003-08.

Young Offenders: Reparation by Offenders

Mr. Kidney: To ask the Secretary of State for Justice what guidance his Department has issued to *(a)* local authorities and *(b)* police services on the use of restorative justice techniques as a way of preventing young people entering the criminal justice system. [218833]

Mr. Hanson: The Ministry of Justice has not issued any guidance to local authorities and/or police services on the use of restorative justice techniques as a way of preventing young people entering the criminal justice system.

However Restorative Justice has been embedded in the youth justice system since the 1998 Crime and Disorder Act which recommends its use as part of existing disposals, if appropriate for the individual/s involved. Restorative justice approaches can be found in both out-of-court and in-court disposals-for example, in reprimands, warnings, referral orders-and will also play a part in the delivery of youth conditional cautions and the youth rehabilitation order which form part of the Criminal Justice and Immigration Act 2008.

We announced in the children's plan that we will be piloting a new out of court disposal that will sit below reprimands and final warnings. This will be the youth restorative disposal which uses restorative techniques to allow a young person to apologise for committing an offence thus making them take responsibility for their actions at the scene of the offence.

Our commitment to the use of restorative justice when dealing with young offenders is further evidenced by its inclusion in the youth crime action plan as part of our vision for the future of youth justice.

COMMUNITIES AND LOCAL GOVERNMENT

Council Tax: Flood Control

John Mann: To ask the Secretary of State for Communities and Local Government what estimate she has made of the number of local authorities exercising their discretionary powers to discount council tax for flood victims. [219731]

John Healey: No estimate has been made of the number of local authorities exercising their discretionary powers to reduce the council tax payable in respect of properties damaged by floods.

The Government are, however, currently seeking information from local authorities to determine which of them intend to use their discretionary powers under Section 13A of the Local Government Finance Act 1992 to grant discounts in respect of the council tax payable on properties which are still vacant and require major repairs due to the floods of June and July 2007. The Government recently announced their intention to provide financial support to those authorities who exercise their discretion under section 13 A in these circumstances.

Departmental Alcoholic Drinks

David Simpson: To ask the Secretary of State for Communities and Local Government what measures are in place in her Department to monitor expenditure on alcohol for hospitality purposes. [219604]

Mr. Dhanda: All official hospitality is recorded in a hospitality register, held at directorate level. Human resources require register holders to supply aggregate figures from time to time, and conducts spot-checks on the registers themselves.

Departmental Press

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what the communications and press budget for her Department has been in each year since its establishment. [215742]

Mr. Dhanda *[holding answer 2 July 2008]:* The Department was established in 2006. The pay budget for the Department's Communications Directorate is as follows:

Financial year	£
2006-07	3,328,565
2007/08	3,601,646

This includes press office costs of £1,465,772 in financial year 2007-08.

For the press office element of the overall budget in previous years, I refer the hon. Member to the answer given to the hon. Member for Yeovil (Mr. Laws) on 31 March 2008, *Official Report*, column 717W.

Departmental Research

Bob Spink: To ask the Secretary of State for Communities and Local Government what proportion of her Department's budget and that of its predecessor was used for research within its areas of responsibility in each of the last 10 years. [218061]

Mr. Dhanda: The proportion of my Department and its predecessor's spend on research since1998-99 against the total Departmental spend for that particular year is set out in the following table.

Financial year	Proportion of research expenditure against total departmental spend (percentage)
Department for Environment, Transport and the Regions	
1998-99	0.3
1999-2000	0.3
2000-01	0.4
Department for Transport, Local Government and the Regions	
2001-02	0.1
Office of the Deputy Prime Minister	
2002-03	0.1
2003-04	0.1
2004-05	0.1
2005-06	0.1
Communities and Local Government	
2006-07	0.1
2007-08	0.1

Digital Switchover Help Scheme

Mr. Don Foster: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the presentation on the inclusion of a return path within help scheme equipment referred to in the minutes of the Emerging Technologies Group meeting of 27 February 2008. [215266]

Mr. Iain Wright: A copy of the presentation made at the Emerging Technologies Group meeting of 27 February 2008 will be deposited in the Library of the House. One slide has been omitted from the slideshow since at this stage the disclosure of that slide would be likely to be prejudicial to ongoing discussions between Government Departments about the development of the policy.

Eco-towns

Peter Luff: To ask the Secretary of State for Communities and Local Government for what reason the advertisement from her Department on eco-towns published in the Stratford Herald indicated that the site of the proposed eco-town at Long Marston fell entirely within Warwickshire; and if she will arrange for corrected versions of the advertisement to be placed in local newspapers in *(a)* Worcestershire and *(b)* Gloucestershire. [212747]

Caroline Flint: As part of the first stage of consultation the details of all the shortlisted locations, including Middle Quinton/Long Marston, are set out in the expressions of interest submitted by bidders, and these informed the summaries of the proposed locations set out in the consultation document "Eco-towns—Living a greener future". These details are available from our website together with further information about the schemes. Warwickshire was given as the location for the Middle Quinton proposal as the bulk of the scheme lies in that county. In any future material we will make clear that parts of the scheme extend across the boundary into Worcestershire and also have an impact on Gloucestershire.

We have just completed the first stage of consultation and through this and ongoing work we are assembling more details about sites, including Middle Quinton/Long Marston. In the second stage we will publish—for further consultation—a draft planning policy statement and a draft sustainability appraisal which will set out more detail for each location. Also as part of this there will be further consultation events around the shortlisted locations to provide further information and listen to the public's views, and details will be provided to media in all three counties.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what plans she has to speed up planning procedures in respect of applications for developments of eco-towns. [217804]

Caroline Flint: I refer the hon. Member to the answer that I gave to the hon. Member for Welwyn Hatfield (Grant Shapps) today (PQ 213886).

Mr. Clifton-Brown: To ask the Secretary of State for Communities and Local Government in which of the sites proposed for an eco-town and not included on the shortlist her Department or its predecessor has *(a)* sold or *(b)* otherwise disposed of land under arrangements whereby her Department would benefit from a future sale of the land in the last 10 years. [210092]

Caroline Flint: One of the Department's agencies, English Partnerships, holds surplus public sector land which is included in the bid for the Pennbury eco-town proposals outside Leicester, which is one of the shortlisted sites.

As regards other former ownerships, information about land sold or disposed of by my Department and its predecessors in the last 10 years in relation to the other shortlisted eco-town sites, and those not shortlisted for further consultation and assessment, could be obtained only at disproportionate cost.

Grant Shapps: To ask the Secretary of State for Communities and Local Government by what means she plans to accelerate the planning process for eco-towns. [213886]

Caroline Flint: The draft eco-towns planning policy statement, which we will publish in draft for consultation, will become a useful addition to the policy framework and will set out how local planning authorities will consider eco-towns through the planning system, which we already have in place. The eco-towns planning policy statement will be an important material consideration in the determination of any planning application for an eco-town, particularly where the development plan is silent or out of date.

Eco-towns: Greenbelt

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Brentwood and Ongar of 7 May 2008, *Official Report*, column 1037W, on eco-towns: planning permission, and the answer to the

hon. Member for the Cotswolds of 25 April 2008, *Official Report*, column 2303W, on eco-towns: green belt, which eco-town bids involve greenfield development; and what estimated number of hectares of greenfield land would be developed in each case. [213580]

Caroline Flint: Most of the eco-town proposals include a mix of brownfield and greenfield land. Initial summaries of greenfield/brownfield were included in the consultation paper "Eco-towns—living a greener future" published on 3 April. Several of the schemes have since been adjusted in the light of consultation with local partners and we will set out an updated summary of this information when the Eco-towns update document is published.

Empty Property

Lynne Jones: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 7 July 2008, *Official Report*, column 1355W, on empty property, what estimate she has made of the number of homes that will be made available using the £200 million fund; and what assessment she has made of the effect this initiative and the Settled Homes Initiative will have on *(a)* the numbers of households on housing waiting lists and *(b)* the number of empty properties on the housing market. [219792]

Mr. Iain Wright: We have given Housing Corporation flexibility in 2008-09 to acquire up to £200 million worth of completed stock that can be put to use as affordable housing. We estimate that this will enable the purchase of between 3,000 to 5,000 properties. So far the Housing Corporation has allocated some £19 million, since the scheme was announced in May, bringing over 600 homes into the affordable housing programme.

If properties at the right price, in the right locations and offering good standards are available, the Housing Corporation will consider investing further resources to support delivery of our demanding affordable housing targets.

In 2007, £30 million was provided for the Settled Homes Initiative which will enable six schemes in London to purchase around 900 empty homes and convert them over time into quality settled social housing.

Energy: Conservation

Lembit Öpik: To ask the Secretary of State for Communities and Local Government what estimate her Department has made of the number of A-rated energy labelled circulator pumps installed in *(a)* domestic and *(b)* non-domestic properties. [219267]

Mr. Iain Wright: The labelling scheme on circulators is voluntary and therefore the Government do not hold information on the number of A rated circulator pumps installed in the UK.

Lembit Öpik: To ask the Secretary of State for Communities and Local Government when her Department plans to include energy efficient circulator pumps within Part L of the Buildings Regulations for domestic and non-domestic properties; and if she will make a statement. [219268]

Mr. Iain Wright: The Department has started a review of the energy efficiency provisions within Part L of the Building Regulations. As part of this we are considering the potential for introduction of energy efficiency standards for pumps in domestic and non-domestic properties. Any such proposals would be the subject of formal consultation in 2009 with the aim of making amendments that would come into effect in 2010.

Housing Renewal Areas

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what timetable she has set for establishing new *(a)* output targets and *(b)* funding agreements for Housing Market Renewal Pathfinders. [217849]

Mr. Iain Wright: Discussions with housing market renewal partnerships to agree output targets and funding agreements for 2008-09 are in hand. We expect to have completed new funding agreements, containing output targets, by September. As before, copies of these funding agreements will be placed in the Library of the House.

Housing: Construction

Mr. Heald: To ask the Secretary of State for Communities and Local Government what assessment she has made of the likely effect of conditions in the economy on plans to build 83,200 houses in Hertfordshire by 2021. [219341]

Mr. Iain Wright: I refer the hon. Member to the answer given on 12 June 2008, *Official Report*, column 497W, to the hon. Member for Falmouth and Camborne (Julia Goldsworthy).

Housing: Sales

Mr. Betts: To ask the Secretary of State for Communities and Local Government what assessment she has made of current trends in the housing market; what steps she plans to take to implement the lifetime homes standard in current market conditions; and if she will make a statement. [219795]

Mr. Iain Wright: The Government do not publish forecasts for house prices or house-building. The National Strategy for Housing in an Ageing Society, launched in February this year, stated that we would be undertaking a review of the take-up of Lifetimes Homes Standards across all sectors in 2010 in order to decide what further measures may be necessary to drive change in this area. This review will look at all relevant considerations including market conditions.

In the meantime, the up-take of Lifetime Homes Standards continues to be encouraged through our policy of making them a required element in the Code for Sustainable Homes at Level 6 from 2008, Level 4 from 2010 and Level 3 from 2013. This will have the effect of ensuring that all publicly funded housing is built to Lifetime Homes Standards from 2011.

Housing: Standards

Mr. Betts: To ask the Secretary of State for Communities and Local Government what estimate she has made of the savings which will accrue to local authorities from implementing the lifetime homes standard. [219793]

Mr. Iain Wright: In the consultation document 'The Future of the Code for Sustainable Homes (Making a rating mandatory)' (July 2007) we published a Partial Regulatory Impact Assessment which estimated that the total quantified benefits arising from implementation of Lifetime Homes Standards would be £95.2 million per year. A breakdown of the costs and benefits are provided in that document. The proportion of this benefit accruing to local authorities is not specifically identified.

Local Authorities: Housing

Mr. Drew: To ask the Secretary of State for Communities and Local Government what recent assessment she has made of the role of parish and town councils as *(a)* residential landlords and *(b)* housing enablers. [219186]

Mr. Iain Wright: The Department supports the development of a wide range of capable, viable and well managed housing providers. The Department has not made any assessment of the role of parish and town councils as residential landlords or housing enablers.

Lembit Öpik: To ask the Secretary of State for Communities and Local Government what *(a)* guidance and *(b)* financial assistance her Department has provided to local authorities to invoke (i) mandatory and selective houses in multiple occupation licensing powers and (ii) the Housing Health and Safety Rating System since the implementation of the Housing Act 2004. [219522]

Mr. Iain Wright: The Department has published guidance for local authorities on the criteria for making applications for additional houses in multiple occupation (HMO) licensing and selective licensing schemes. The Department has also published Housing Health and Safety Rating System: Operating Guidance for local authorities and Housing Health and Safety Rating System: Enforcement Guidance and Housing Health and Safety Rating System: Guidance for landlords and property related professionals.

The Department has funded the Local Authorities Co-ordinators of Regulatory Services (LACORS) to support local housing authorities in England and Wales in implementing mandatory HMO licensing and on the Housing Health and Safety Rating System. LACORS issues guidance, advice, and coordinates and disseminates best practice in relation to regulation of private sector housing.

Planning: Public Participation

Mr. Heald: To ask the Secretary of State for Communities and Local Government what assessment she has made of the use of charrettes to involve local people in the planning process *(a)* in Hertfordshire and *(b)* elsewhere. [219697]

Mr. Iain Wright: The Department has made no assessment of this particular technique either in Hertfordshire or elsewhere. The choice of methods for consultation is a local matter.

Poverty

Mr. Frank Field: To ask the Secretary of State for Communities and Local Government what the 100 most deprived wards in the UK were in *(a)* 2004 and *(b)* the most recent period for which figures are available. [219631]

John Healey: Data on deprivation are no longer collected at ward level. However, the following tables provide details of the 100 most deprived lower super output areas (LSOA) in England for 2004 and 2007. LSOAs have between 1,000 and 3,000 people living in them and, in most cases, are smaller than wards. The tables provide the name of the ward in which the LSOA is situated, as well as the local authority district.

Most deprived lower super output areas in England: 2004

Rank of IMD[1]	*LSOA code*	*Ward name*	*LA name*
1	E01006559	Breckfield	Liverpool
2	E01005204	Harpurhey	Manchester

Regional Spatial Strategies: Eco-towns

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Bromley and Chislehurst of 4 June 2008, *Official Report*, column 983W, on eco-towns, whether regional spatial strategies will include plans for eco-town developments where the development is not supported by the local planning authority. [213932]

Caroline Flint: Regional spatial strategies (RSS) set out a vision for how a region can tackle housing shortages and affordability. New eco-towns could be part of how regions meet their housing shortfall.

The 15 shortlisted eco-town locations have only reached the first stage. Bids that have cleared the first hurdle will face considerably tougher tests ahead if they progress and will need to improve proposals still further. All the shortlisted locations will face further examination including public consultation and a detailed sustainability appraisal which will test the merits and challenges for each one. Importantly no new eco-town housing will be on the green belt.

All proposals for eco-towns will be subject to the planning process and subject to local planning decisions. However it is too early to speculate on what may happen in each local area and on local planning authority support.

Rented Housing

Lembit Öpik: To ask the Secretary of State for Communities and Local Government what *(a)* primary and *(b)* secondary legislation governs regulation of the private rented sector; and what plans she has to bring forward legislative proposals affecting regulation of the sector. [219521]

Mr. Iain Wright: Primary and secondary legislation flowing from the Housing Acts of 1985, 1988, 1996 and 2004 govern the regulation of the private rented sector. In January of this year we announced an independent review of the private rented sector to be carried out by Julie Rugg and David Rhodes at the university of York. The review has a wide ranging terms of reference including regulation of the sector and will report in October 2008. We will consider any proposals for legislation that emerge as part of work on the Housing Green Paper due later this year.

Lembit Öpik: To ask the Secretary of State for Communities and Local Government which organisations have *(a)* met the team leading the independent review of the private rented sector announced by her Department on 23 January 2008 and *(b)* been invited to contribute to the review of houses in multiple occupation announced by the Housing Minister on 9 April 2008. [219532]

Mr. Iain Wright: The independent review of the private rented sector is not due to report until October this year and, therefore, it is not possible to give a full list of organisations that the review team have met. So far the team have met over 200 stakeholders, ranging from Government interests and consumer groups to landlords and institutional investors, through one to one and round table meetings. A list of all organisations which have had an input to the team's evidence gathering will be included in the report on the review when it is issued in October.

ECOTEC Research and Consulting, the organisation undertaking research into high concentrations of houses in multiple occupation (HMOs) on behalf of the Department, has spoken to a range of stakeholders including representatives of local authorities, universities, housing providers and their representative bodies, members of the national HMO lobby and colleagues in the Northern Ireland Executive. A full list of organisations that took part in interviews and focus groups will be published as part of the research.

HOME DEPARTMENT

Alcoholic Drinks: Antisocial Behaviour

Mr. Ruffley: To ask the Secretary of State for the Home Department how many *(a)* arrests and *(b)* prosecutions for (i) being drunk and disorderly, (ii) being found drunk on a highway, public place or on licensed premises and (iii) being drunk in or when entering a designated sports event there have been in each police force area in England and Wales in each year since 1997. [219162]

Mr. Coaker: The number of defendants proceeded against at magistrates court for the offences of (i) being drunk and disorderly (ii) being drunk on a highway, public place or on licensed premises and (iii) being drunk in or when entering a designated sports event can be found in the following tables. Data have been broken down by police force area in England and Wales from 1997 to 2006.

The arrests collection held by the Ministry of Justice covers persons arrested for recorded crime (notifiable offences) only. Details of the circumstances of an arrest are not collected centrally. Summary offences of 'being drunk and disorderly' are non-notifiable and as a result are not covered by the collection.

Number of defendants proceeded against at magistrates' courts for selected alcohol related offences, broken down by police force area, England and Wales, 1997 to 2006[1,2]

	Any person who in any public place is guilty, while drunk, of disorderly behaviour[3]

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] Includes Criminal Justice Act 1967 Sec.91.
[4] Staffordshire police force were only able to submit sample data for persons proceeded against and convicted. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level.

Being found drunk in a highway or other public place whether a building or not, or a licensed premise[1]

1 Sporting Events (Control of Alcohol etc) Act 1985 S 2(2)
2 Staffordshire police force were only able to submit sample data for persons proceeded against and convicted. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level.

Alcoholic Drinks: Crime

David Simpson: To ask the Secretary of State for the Home Department how many people were convicted of crimes in which alcohol was a contributory factor in England and Wales in each of the last three years. [215021]

Mr. Coaker: The Ministry of Justice does not hold statistics on convictions in which alcohol has been a contributory factor.

Alcoholic Drinks: Young People

Mr. Kidney: To ask the Secretary of State for the Home Department how many *(a)* fixed penalty notices were issued and *(b)* prosecutions were brought for the offences of (i) selling alcohol to a person under age, (ii) buying alcohol under age and (iii) buying alcohol on behalf of someone under age in the last year for which figures are available. [206386]

Mr. Coaker: The number of penalty notices for disorder (PNDs) issued, and the number of defendants proceeded against at the magistrates court for the offences of selling alcohol to a person under the age of 18, purchasing alcohol while under the age of 18, and purchasing alcohol on behalf of someone under 18 can be found in the following table.

Number of defendants[1] *proceeded against at magistrates courts and the number of penalty notices for disorder (PNDs) issued for selected alcohol related offences*[2,3,4] *England and Wales, 2006*[5,6]

Offence code	*Offence*	*Proceeded against*	*PNDs issued*
142/03,143/52,143/79 and 143/80	Selling alcohol to a person under 18[2]	1,199	3,195

Number of defendants[1] proceeded against at magistrates courts and the number of penalty notices for disorder (PNDs) issued for selected alcohol related offences[2,3,4] England and Wales, 2006[5,6]

Offence code	*Offence*	*Proceeded against*	*PNDs issued*
143/16 and 143/82	Buying alcohol when under 18[3]	15	73
143/17 and 143/83	Buying alcohol on behalf of person under 18[4]	32	467
	Total	1,246	3,735

[1] Includes other defendants, for example companies and public bodies.
[2] Includes the following offences and statutes:
Holder of occasional permission or his agent knowingly selling to, knowingly allow consumption by or allowing any person to sell intoxicating liquor to a person under 18. Selling etc intoxicating liquor to person under 18 for consumption on the premises.
(Licensing (Occasional Permissions) Act 1983 Schedule (Sec 3) para 4(1). Licensing Act 1964 Sec 169(1))
Sale of alcohol to a person under 18
(Licensing Act 2003 S.146(1))
Wholesaler selling intoxicating liquor to a person under 18
(Licensing Act 1984 Sec 181A(1) as added by Licensing Act 1988 Sec 17)
Allow sale of alcohol to an individual under 18
(Licensing Act 2003 Sec 147(1) & (5))
[3] Includes the following offences and statutes:
Person under 18 buying or attempting to buy or consuming intoxicating liquor.
Person under 18 buying or consuming intoxicating liquor in licensed premises
(Licensing (Occasional Permissions) Act 1983 Schedule (Sec 3) para 4(2)
Licensing Act 1964 Sec 169(2))
Purchase of alcohol by an individual under 18
(Licensing Act 2003 S. 149(1X7a))
[4] Includes the following offences and statutes:
Buying or attempting to buy intoxicating liquor for consumption by a person under 18
Purchasing intoxicating liquor for consumption by person under 18 in bar
(Licensing (Occasional Permissions) Act 1983 Schedule (Sec 3) para 4(3)
Licensing Act 1964 Sec 169(3))
Person who buys or attempts to buy alcohol on behalf of an individual under 18
(Licensing Act 2003 S149(3,4,7b))
[5] These data are on the principal offence basis
[6] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Mr. Evennett: To ask the Secretary of State for the Home Department how many people were *(a)* cautioned, *(b)* prosecuted and *(c)* given a penalty notice for disorder for selling alcohol to people under the age of 18 years in each borough in London in each of the last five years. [209842]

Mr. Coaker: The number of *(a)* cautions, *(b)* prosecutions at magistrates courts for the years 2002 to 2006 and *(c)* penalty notices for disorder (PNDs) for the years 2004 to 2006 for the offence of selling alcohol to people under the age of 18 years in the City of London and Metropolitan Police force areas can be viewed in the following table.

We are unable to provide figures on individual London boroughs as data are not collected at this level of detail by the Ministry of Justice.

Number of cautions issued, defendants proceeded against at magistrates courts, and issued with a penalty notice for disorder for offences relating to the sale of alcohol to a person under the age of 18 years, in the Metropolitan and City of London police force areas, 2002-06[1, 2, 3, 4]

	Cautions[5]	*Proceeded against*	*Penalty notices for disorder*
2002	0	12	[6]—
2003	0	113	[6]—
2004	0	167	21
2005	0	253	161
2006	0	236	252

[1] Cautions and proceeded against data are on the principal offence basis. Data on PNDs are a straight count of the number issued during each year.
[2] Data include the following offence descriptions and corresponding statutes:
Holder of occasional permission or his agent knowingly selling to, knowingly allow consumption by or allowing any person to sell, intoxicating liquor to a person under 18. Selling etc intoxicating liquor to person under 18 for consumption on the premises.
Licensing (Occasional Permissions) Act 1983 schedule (s. 3) para 4(1). Licensing Act 1964 s. 169(1).
Sale of alcohol to person under 18.
Licensing Act 2003 s.146(1)
Wholesaler selling intoxicating liquor to a person under 18.
Licensing Act 1964 s. 181A (1) as added by Licensing Act 1988 s. 17.
Allow sale of alcohol to an individual under 18.
Licensing Act 2003 s. 147(1) and (5)
Sell alcohol to under 18
s.169A, Licensing Act 1964
Sale of alcohol anywhere to a person under 18.
s. 146(1) of the Licensing Act 2003
[3] The Licensing Act 2003 came into force on 24 November 2005.
[4] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[5] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and final warnings. Reprimands and final warnings are included in the data.
[6] There are no data for 2002 and 2003 as the PND scheme was rolled out in 2004

Corporate Alliance on Domestic Violence

Mrs. Moon: To ask the Secretary of State for the Home Department who the members are of the Corporate Alliance on Domestic Violence; what the outcomes of *(a)* meetings and *(b)* initiatives of the alliance have been over the last five years; and when it last met. [218818]

Mr. Coaker: In September 2005 the Corporate Alliance Against Domestic Violence (CAADV) was launched by the Home Secretary and taken forward by Baroness Scotland.

Since its launch over 160 new companies have joined the Alliance, which has an executive board including, The Body Shop International, KPMG, the NHS Employers organisation and AOL.

Key outcomes and initiatives have been the development of online resources such as a workplace policy template, strategic communications toolkit, case studies and information on employee training:

www.corporatealliance.co.uk

We are working with CAADV to review its terms of reference and work programme for this year.

Crime

Alun Michael: To ask the Secretary of State for the Home Department what assessment she has made of the performance of local authority areas in England and Wales in implementation of local crime and disorder reduction audits against objectives; and which local authorities were found to have the best audits in terms of *(a)* clarity, *(b)* mapping and *(c)* methodology in the last year for which details are available. [218536]

Mr. Coaker: Following a review of the partnerships provisions of the Crime and Disorder 1998 Act, the duties to produce three yearly audits and to report annually to the Secretary of State on a partnership's work and progress were repealed in 2007. They were replaced by new statutory requirements in 2007 to introduce minimum standards for partnership working based on six hallmarks of effective partnerships, providing clear statements of the core functions of crime and disorder reduction partnership or community safety partnership in Wales. These include producing a strategic assessment identifying local community safety priorities and a partnership plan which sets out the approach for addressing these priorities. Partnerships have a duty to publish a summary of the partnership plan in a format of their choice but in a way that makes it available to diverse groups in their communities.

We do not intend to introduce a compliance regime to oversee the implementation of the standards or the hallmarks. However, we will want to carry out a programme to review whether or not the statutory requirements of national minimum standards are in place and produce a preliminary report later in 2008.

We are also developing a self-evaluation toolkit so that partnerships can identify their own areas for improvement. Regional Government offices are also available to offer advice and assistance to partnerships and we are taking forward work with the Association of Chief Police Officers on how best to make available local crime information including mapping.

Crimes of Violence: Young People

Tim Loughton: To ask the Secretary of State for the Home Department what estimate she has made of the number of people under the age of 18-years-old in criminal gangs in each of the last 10 years. [218381]

Mr. Coaker: There are no reliable estimates of the number of young people involved in "gangs".

The 2004 OCJS survey estimated that 6 per cent. of young people aged 10 to 19 were classified as belonging to a "delinquent youth group" (involving a group of more than three members who had been involved in delinquent or criminal behaviour in the previous 12 months, the group also having other structural features). However, these groups are not necessarily involved in violence and would not all be considered to be "street gangs".

Domestic Violence

Mrs. Moon: To ask the Secretary of State for the Home Department if she will publish the minutes of meetings of the Inter-ministerial Group on Domestic Violence; what the outcomes of *(a)* meetings and *(b)* initiatives of the group have been over the last five years; and if she will make a statement. [218817]

Mr. Coaker: We do not publish the minutes of the Inter-ministerial Group on domestic violence (set up in 2003). This is because the minutes often record the considerations made when formulating and developing Government policy. Any premature disclosure may result in closing off alternative decisions or courses of action.

A report on the progress made against the National Domestic Violence Delivery Plan, which the IMG oversees, is published annually. The annual reports for 2005-06; 2006-07 are on the website and the report for 2007-08 will be published shortly.

Key initiatives have been: the development of the Specialist Domestic Violence Programme; developing the co-ordinated Community Response to domestic violence; supporting the roll-out of Independent Domestic Violence Advisers and Multi-Agency Risk Assessment Conferences; and the establishment of the Forced Marriage Unit.

Mrs. Moon: To ask the Secretary of State for the Home Department what plans she has to establish a register of domestic violence offenders; and if she will make a statement. [218819]

Mr. Coaker: The Government do not have any current plans to establish a register of domestic violence offenders. The Tackling Violence Action Plan however does ask crime and disorder reduction partnerships (CDRPs) to develop mechanisms for sharing personal information between agencies to monitor the behaviour of potentially violent offenders and move to protect those victims most at risk.

Domestic Violence: Curriculum

Mrs. Moon: To ask the Secretary of State for the Home Department what discussions she has had with the Secretary of State for Children, Schools and Families on the treatment of domestic violence issues within the curriculum. [218820]

Mr. Coaker: The Home Affairs Committee Report into Domestic Violence, Forced Marriage and "Honour"-Based Violence published in June this year made recommendations on the treatment of domestic violence

issues within the curriculum. The Home Office and DCSF have been working together on the Government's response to the report.

The curriculum already provides scope for the exploration of issues relating to domestic violence principally, although not exclusively, within personal, social and health education (PSHE), which includes sex and relationship education (SRE). It is important that we focus efforts on raising the overall standard of teaching in PSHE and SRE, where issues to do with healthy relationships, managing conflict and aggression would be addressed, and alerting schools to ways in which domestic violence can be used as context for exploring key concepts within the PSHE curriculum. To raise the standard of teaching we are already training teachers on PSHE, rolling out the Healthy Schools Programme and providing advice and guidance through bodies such as the QCA and PSHE Association.

We are also currently conducting two parallel reviews on how to improve the teaching of sex and relationships education and drug education within the context of PSHE. We will give careful consideration to all of the recommendations from the reviews when they report later this summer.

Domestic Violence: Re-offenders

Mrs. Moon: To ask the Secretary of State for the Home Department what assessment she has made of the levels of reoffending rates by perpetrators of domestic violence. [218832]

Mr. Coaker: We do not collect information on re-offending by perpetrators of domestic violence centrally.

However we do have measures in place to reduce re-offending of domestic violence offenders. Firstly by focusing on the protection of victims through Multi-Agency Risk Assessment Conferences (MARACs) which identify those victims most at risk of serious harm and develop interventions to reduce the risk of repeat victimisation and by managing the offender.

Secondly, three accredited domestic abuse perpetrator programmes have been developed for convicted domestic abuse perpetrators. The Integrated Domestic Abuse Programme (IDAP) and the Community Domestic Violence Programme (CDVP) have been fully implemented in all probation areas in England and Wales. The Healthy Relationships Programme (HRP) is run in custody. To ensure the effectiveness of the programmes, a range of evaluation projects has been commissioned.

Thirdly, we are funding RESPECT to develop national standards for perpetrator programmes outside of the criminal justice system.

Domestic Violence: Victim Support Schemes

Lynne Featherstone: To ask the Secretary of State for the Home Department (1) when she plans to begin the new scheme targeted at domestic violence victims with no recourse to public funds, which will pay their housing and living costs if they are granted indefinite leave to remain; [217327]

(2) if her Department will establish a working group with members drawn from non-governmental organisations and women's groups to advise it on policy on women with no recourse to public funds who have experienced domestic violence. [217376]

Mr. Coaker: The development of the new scheme which will provide support to victims of domestic violence who are successful in applying for indefinite leave to remain is currently being negotiated and will be implemented later in the year. The proposals under the new scheme will strengthen the way in which domestic violence cases are considered, enabling those victims who are vulnerable to access additional support. Details of the scheme will be made available shortly.

We have established a national stakeholder advisory group on domestic violence which includes representation from organisations supporting women with no recourse to public funds. We will soon also set up a national Black and Minority Ethnic (BME) working group of Government, statutory agencies and third sector organisations that will promote a partnership approach to issues on domestic and sexual violence, forced marriage, so called honour crimes and female genital mutilation. The aim of the group will be to identify and develop actions and practical tools to assist victims and potential victims of these crimes.

Drugs: Misuse

Kerry McCarthy: To ask the Secretary of State for the Home Department for what reasons the recommendation of the Advisory Council on the Misuse of Drugs that benzodiazepines should be included in Schedule II of the 1985 Drugs Misuse Regulations was not accepted. [208545]

Mr. Coaker: Benzodiazepines have been controlled as Class C drugs under the Misuse of Drugs Act 1971 since 1986. The availability of benzodiazepines for legitimate medicinal use is regulated by the Misuse of Drugs Regulations 2001. Most benzodiazepines are regulated under schedule 4, part 1 of the regulations, with the exception of temazepam, flunitrazepam and midazolam which are regulated under schedule 3. Diazepam is also subject to instalment dispensing arrangements.

In 1998, the Advisory Council on the Misuse of Drugs advised the Government that all benzodiazepines should be placed into schedule 3 subject to due consideration of the accompanying prescription and safe custody requirements under the regulations. In response to these concerns, the Government decided that rescheduling of benzodiazepines should be made on a case by case basis, with additional controls on the import, export and possession of all benzodiazepines. These controls were introduced in February 2002.

In 2004, the Advisory Council concluded that the controls for the schedule 4, part 1 benzodiazepines were sufficient, endorsing the Government's response to its earlier recommendation.

Tim Loughton: To ask the Secretary of State for the Home Department what research her Department has conducted or evaluated on possible links between skunk cannabis use and employment rates. [218420]

Mr. Coaker: The Home Office has not conducted any research or evaluation of possible links between skunk cannabis use and employment rates.

Firearms: Theft

Mr. Ruffley: To ask the Secretary of State for the Home Department how many *(a)* shotguns, *(b)* rifles and *(c)* handguns were stolen in (i) England and Wales and (ii) each police force area in each year since 1997; and how many were subsequently (1) recovered and (2) returned to the owner. [219103]

Mr. Coaker: Data on 'misappropriated' firearms (i.e. stolen, obtained by fraud or forgery etc., or handled dishonestly) for England and Wales are given from 1997 to 2006-07. Breakdowns of these weapons by police force area are not available centrally for years up to and including 2002-03; therefore force data levels are given only from 2003-04 to 2006-07.

Information on whether or not stolen firearms are subsequently recovered and returned to the owner is not collected centrally.

Table A: Firearms misappropriated[1] in crimes recorded by the police in England and Wales, 1997 to 2002-03

Weapon type	*1997*	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*

[1] Misappropriated is defined as stolen, obtained by fraud or forgery etc., or handled dishonestly.

Human Trafficking

Mr. Ruffley: To ask the Secretary of State for the Home Department how many instances of human trafficking for sexual purposes were discovered in each of the last three years; from which countries the persons arrived; and how many successful prosecutions resulted. [219056]

Mr. Coaker: Under Operation Pentameter 1 (which concluded in 2006) there was a total of 88 victims recovered who originated from a number of countries primarily in Eastern Europe, the far east and South East Asia, Africa and South America. Under Operation Pentameter 2 (which concluded in 2008) there was a total 167 victims recovered from similar regions.

Since the inception of the Sexual Offences Act 2003 there have been 84 successful prosecutions of people for human trafficking offences, many of whom also received sentences for related offences. Under Pentameter 2 there were 528 arrests. We therefore expect the number of successful prosecutions to rise in the forthcoming months as such cases progress though the criminal justice system.

Human Trafficking: Repatriation

Mr. Bone: To ask the Secretary of State for the Home Department how many of the 167 women and children recovered under Operation Pentameter 2 have been removed from the UK; and what arrangements have been made for those who have not been removed. [218211]

Mr. Coaker: Under Pentameter 2, 31 victims of trafficking have already returned to their country of origin voluntarily. We are aware that a number of non-EEA nationals initially believed by the police to be victims have been returned to their country of origin using immigration powers. Removal of individuals confirmed to be victims of trafficking would only be sanctioned if it was considered safe and reasonable to do so in accordance with the UK's domestic and international obligations.

Adult victims who chose to accept support in the United Kingdom will have been offered a reflection and recovery period of a minimum of 30 days, support and accommodation.

Of the 13 children recovered in the operation, nine remain in the care of local authorities and four returned home voluntarily following an assessment concluding that it was safe to do so.

Money Laundering

Mr. Pickles: To ask the Secretary of State for the Home Department what assessment *(a)* her Department and *(b)* the Serious Organised Crime Agency has made of the extent of money laundering from social housing sales. [218278]

Mr. Coaker: The Home Office looks to the Serious Organised Crime Agency (SOCA) to make such assessments. On 6 June 2008, SOCA published its unrestricted version of the UK Threat Assessment of Serious Organised Crime which noted the attraction property has for money launderers. SOCA continues to monitor new and emerging threats to the UK from money laundering, including the abuse of 'right to buy' property.

Police Deaths on Duty

Mr. Dai Davies: To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* social workers were unlawfully killed while carrying out their duties in each year since 1997. [219007]

Mr. Coaker: Available data are from the Homicide Index and relate to offences currently recorded as homicides in England and Wales as at 12 November 2007. This is in the following table.

Offences currently recorded[1] as homicide where victim was killed in the course of their employment, by selected occupations, England and Wales, 1997-98 to 2006-07[2, 3]

Number

	Victim occupation	
Year recorded[2]	*Police officer*	*Social worker*
1997-98	1	0
1998-99	0	1
1999-2000	2	0
2000-01	3	0
2001-02	0	0
2002-03	4	0
2003-04	2	0
2004-05	1	0
2005-06	1	0
2006-07	1	1

[1] As at 12 November 2007; figures are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available.

[2] Offences are shown according to the year in which police initially recorded the offence as homicide. This is not necessarily the year in which the incident took place or the year in which any court decision was made.

[3] Data for 2007-08 are not yet published.

Police: Bureaucracy

Mr. Ruffley: To ask the Secretary of State for the Home Department how many stop and account forms have been issued since their introduction, broken down by police force area. [219146]

Maria Eagle: I have been asked to reply.

Data on stops and account are collected by police force area and are published in the 'Statistics on Race and the Criminal Justice System—2006-07' report for the first time this month

http://www.justice.gov.uk/publications/raceandcjs.htm

This information is contained in the following table, but can also be found in Table 4.9 of the report.

Total stops, by police force 2005-06 to 2006-07

Police force area	*2005-06*	*2006-07*	*Total*
Avon and Somerset	7,501	8,043	15,544
Bedfordshire	11,114	7,745	18,859
Cambridgeshire	4,506	17,708	22,214
Cheshire	48,113	75,167	123,280
Cleveland	61,618	70,279	131,897
Cumbria	7,091	18,698	25,789
Derbyshire	14,960	20,159	35,119
Devon and Cornwall	2,924	3,266	6,190
Dorset	1,694	2,144	3,838
Durham	7,675	16,017	23,692

Road Traffic Offences: Fixed Penalties

Mr. Amess: To ask the Secretary of State for the Home Department if she will increase the fixed penalty for offences under section 14(3) of the Road Traffic Act 1998 to £80; what recent representations she has received about this issue; and if she will make a statement. [219571]

Mr. Coaker: The penalty levels associated with all fixed penalty offences are kept under review. We are currently considering a proposal from the Association of Chief Police Officers that for the offence of failure to comply with seat belt legislation the level of fixed penalty should rise from £30 to £60. Before any change is made section 88(2) of the Road Traffic Offenders Act 1988 requires consultation with such representative organisations as the Secretary of State thinks fit.

Sexual Offences

Mrs. Maria Miller: To ask the Secretary of State for the Home Department pursuant to the answer of 12 June 2008, *Official Report*, column 335W, on sexual offences, how many and what proportion of visas issued were accompanied by notification orders in each of the last three years. [217636]

Mr. Coaker: Notification orders are issued by courts. This is a separate process from the issuing of visas. While figures for the number of notification orders issued are collected by local MAPPA responsible authorities, these authorities do not collate information on the proportion of orders issued for persons who had been granted a visa to enter the UK. It is not therefore possible to say how many visas were followed by notification orders.

Violent and Sex Offender Register: Wales

Mrs. Gillan: To ask the Secretary of State for the Home Department how many individuals of each *(a)* sex and *(b)* age group in Wales were placed on (i) List 99 and (ii) the sex offenders register in each year since 1997. [218771]

Mr. Coaker: (i) The details held by the Department of Children, Schools and Families of individuals on List 99 were recorded at the time these people were placed on the list. Identifying the age, sex and number of individuals who had home addresses in Wales at the time of listing would require individual case records to be checked and this would incur disproportionate cost.

Once an individual is on List 99, a standard or enhanced Criminal Records Bureau (CRB) disclosure will reveal the barred status of that individual to an employer together with details of any criminal convictions. Information on an individual's address at the time of listing is not necessary in order to check whether that person is barred.

(ii) Information on the number of registered sexual offenders (RSOs) has been reported annually by multi-agency public protection arrangements (MAPPA) responsible authorities since 2002 and is as follows:

RSOs in Wales

	Number
2002	1,131
2003	1,370
2004	1,465
2005	1,794
2006	1,774
2007	1,805

Data on RSOs was not collected centrally before 2002 and is not broken down routinely by gender and age group. Work is currently under way to amend ViSOR (the national database of sexual and violent offenders and other dangerous persons) to support more detailed standardised reporting in relation to RSOs, including their age and gender. The intention is to have this facility available by early 2009.

TRANSPORT

A36

Dr. Julian Lewis: To ask the Secretary of State for Transport for what reasons the Highways Agency spent £449,000 on work associated with the construction of the roundabout on the A36 at Ower in New Forest East constituency; for what reasons the roundabout has not been built; and if she will break down by category the expenditure incurred on the project in each year since 2002. [218456]

Mr. Tom Harris *[holding answer 14 July 2008]:* The Highways Agency has spent approximately £449,000 on preparatory work for a proposed roundabout scheme with an estimated cost of £2.5 million to improve safety for road users at the junction of Whinwhistle Road and the A36 Salisbury Road. This work was carried out due to the very poor accident history at this T junction on the trunk road prior to 2003.

The roundabout has not been built at this highly sensitive rural location because since it was proposed, several other measures have been implemented. Subsequent monitoring shows that these measures have been effective and reduced the number of accidents by 50 per cent. and their severity to more satisfactory, national norms.

The breakdown of expenditure by category type for this scheme between financial year 2002-03 and financial year 2007-08 is as follows:

HA activity description	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*£Total*
Surveys-Topographical/Ecological/Drainage/ Archaeological	—	—	—	7,330	26,510	13,030	46,870
Outline Design/Lighting	—	—	—	20,676	50,771	4,144	75,591
Value Engineering Design/CDM	—	—	—	562	22,348	46,002	68,912
Scheme Management	—	—	—	1,429	34,915	62,644	98,988
Studies/Surveys Traffic	790	26,276	28,553	15,870	78,347	1,057	150,893
Safety Audits/Specialist	—	—	—	857	1,043	755	2,655
Supervision	2,908	—	—	—	—	1,061	3,969
Total	3,698	26,276	28,553	46,724	213,934	128,693	447,878

Aviation: Luggage

Mrs. Villiers: To ask the Secretary of State for Transport what assessment she has made of the effectiveness of the changes to aviation carry-on luggage rules since January 2008. [218659]

Jim Fitzpatrick: From 7 January 2008, airports were permitted to lift the one-bag restriction, provided they were able to demonstrate that in doing so it would not have an adverse impact on security. The benefit of allowing more than one bag per passenger has been passed on to the majority of passengers departing airports in the UK. As with all security measures, their effectiveness is subject to regular monitoring to ensure that standards are maintained.

Mrs. Villiers: To ask the Secretary of State for Transport how long on average applications have taken for an airport wishing to end the one-bag rule between the application being made and permission being granted or denied. [218660]

Jim Fitzpatrick: The length of time taken to process applications has varied considerably depending on the quality and accuracy of applications received.

Aviation: Pollution

Mrs. Villiers: To ask the Secretary of State for Transport whether her Department has had discussions with the European Commission on a possible derogation from the NOx provisions of the EU Air Quality directive. [218585]

Jim Fitzpatrick: The Department has not had discussions with the European Commission on this matter.

Aviation: Royal Family

Mr. Hoban: To ask the Secretary of State for Transport pursuant to the written ministerial statement of 26 March 2008, *Official Report*, column 1W, on Royal and Ministerial air travel, if she will place in the Library copies of the cost-benefit analyses undertaken on the procurement of *(a)* a short haul plane and *(b)* a long haul plane for Ministerial and Royal travel in the last nine months. [214747]

Jim Fitzpatrick: As the consideration of security for royal and ministerial air travel was integral to our analysis of costs and benefits, it would not be appropriate to publish this material. Similarly, as much of our cost data were derived from readily identifiable commercial

sources, and were shared with us on the understanding that they would be protected, publication of this information would prejudice commercial interests.

Bus Services: Private Sector

Mrs. Riordan: To ask the Secretary of State for Transport how many private bus companies are in operation. [220045]

Ms Rosie Winterton: The Government do not hold this information centrally. However, there are currently some 1,500 local bus service operators claiming bus service operators grant (BSOG) from the Department.

Departmental Early Retirement

Mr. Redwood: To ask the Secretary of State for Transport how many staff in *(a)* her Department and *(b)* her Department's agencies have taken early retirement in the last two years. [217385]

Jim Fitzpatrick: The central Department and its agencies recorded the following number of early retirements in the last two financial years:

Early retirements

	Number
2006-07	274
2007-08	239

Departmental Internet

Mrs. Villiers: To ask the Secretary of State for Transport how many pages have been added to her Department's website in the last 12 months. [218787]

Jim Fitzpatrick: For the period 11 July 2007 to 10 July 2008, the Department published 1,655 specific web pages. In addition, we published 2,174 files on the website, which comprised a mix of PDF documents of various sizes, Word, Excel, PowerPoint, audio and video files.

Departmental Marketing

Pete Wishart: To ask the Secretary of State for Transport what the cost was of *(a)* internet and website design and hosting, *(b)* print media design and *(c)* broadcast media for each of her Department's public information campaigns since 1997. [214703]

Jim Fitzpatrick: The extent of information requested could be provided only at disproportionate cost.

Departmental Retirement

Mr. Marsden: To ask the Secretary of State for Transport whether her Department has a standard retirement age. [218404]

Jim Fitzpatrick: The Department for Transport has a standard retirement age of 65. Employees may however request to continue working beyond age 65, subject to the normal requirements of attendance, efficiency and conduct procedures.

Departmental Travel

Stephen Hammond: To ask the Secretary of State for Transport pursuant to the answer of 12 June 2008 to the hon. Member for Chipping Barnet, (Mr Villiers) *Official Report*, column 400W, on departmental travel, on what date DFT(C) data will be available. [217520]

Mrs. Villiers: To ask the Secretary of State for Transport when she expects the figures for staff travel costs for her central Department to be available. [218792]

Jim Fitzpatrick: Temporary difficulties were experienced in extracting some detailed information from a legacy accounting system which was replaced at the beginning of the current financial year. It is anticipated that these difficulties will be overcome by the end of July.

Driver and Vehicle Licensing Agency: Telephone Services

Mr. Prisk: To ask the Secretary of State for Transport what income her Department received from the Driver and Vehicle Licensing Agency's 0870 number in *(a)* 2007-08, *(b)* 2006-07 and *(c)* 2005-06. [217543]

Jim Fitzpatrick: The Driver and Vehicle Licensing Agency income received from 0870 number rebates in each of the last three financial years is as follows:

Financial year	*Revenue received (£)*
2007-08	3,387,603
2006-07	2,894,284
2005-06	2,423,517

Driving Tests

Dr. Murrison: To ask the Secretary of State for Transport what increase in the driving test fee would be required to raise the amount of money expected to be saved through closures of driving test centres. [218769]

Jim Fitzpatrick *[holding answer 14 July 2008]:* The Driving Standards Agency does not have this information. To collate it would incur disproportionate costs.

Eurostar

Mr. Hoyle: To ask the Secretary of State for Transport if she will bring forward proposals to develop a regional Eurostar link. [218992]

Mr. Tom Harris: Any changes to Eurostar service patterns are a matter for Eurostar. The Department for Transport does not have any proposals to develop a regional Eurostar link.

Fish

Mr. Peter Ainsworth: To ask the Secretary of State for Transport how much fish was procured by her Department and at what cost in each of the last five years, broken down by species; and what amount and

value of such fish met the Marine Stewardship Council standard in each such year, broken down by species. [217887]

Jim Fitzpatrick: The information requested can be provided only at disproportionate cost.

Fraud

Jenny Willott: To ask the Secretary of State for Transport on how many occasions staff employed by her Department defrauded her Department in each of the last 10 years; and if she will make a statement. [214630]

Jim Fitzpatrick: The answer covers the period since the Department was formed on 29 May 2002. Since that date, the number of occasions staff have defrauded the Department is as follows:

	Number of occasions
2002-03	5
2003-04	31
2004-05	25
2005-06	22
2006-07	20
2007-08	20

The number of occasions for years 2003-04 and 2004-05 also includes fraud committed by staff at South Eastern Trains when the rail franchise was under the direct control of the Strategic Rail Authority.

Jenny Willott: To ask the Secretary of State for Transport what estimate she has made of the losses to her Department from fraud committed by staff of her Department in each of the last 10 years; and if she will make a statement. [214637]

Jim Fitzpatrick: The answer covers the period since the Department was formed on 29 May 2002. Since that date, the estimated cost of fraud committed by staff (including theft) in the Department is as follows:

	Estimated amount (£)
2002-03	15,600
2003-04	51,663
2004-05	27,035
2005-06	11,990
2006-07	3,866
2007-08	9,124

Assets have been valued at cost, net book value or replacement cost depending on the circumstance of the individual case.

The estimated amount for years 2003-04 and 2004-05 also includes fraud committed by staff at South Eastern Trains when the rail franchise was under the direct control of the Strategic Rail Authority.

Jenny Willott: To ask the Secretary of State for Transport how many staff were prosecuted for *(a)* attempting to defraud and *(b)* defrauding her Department in each of the last 10 years; and if she will make a statement. [214640]

Jim Fitzpatrick: The answer covers the period since the Department was formed on the 29 May 2002. Since that date, the number of staff prosecuted for defrauding and attempting to defraud the Department is as follows:

	Number of staff prosecuted
2002-03	3
2003-04	11
2004-05	3
2005-06	5
2006-07	0
2007-08	2

It has not been possible to differentiate between staff prosecuted for *(a)* attempting to defraud and *(b)* defrauding my Department as to do so would involve a disproportionate cost.

The numbers provided for years 2003-04 and 2004-05 also includes the prosecution of staff at South Eastern Trains when the rail franchise was under the direct control of the Strategic Rail Authority.

Jenny Willott: To ask the Secretary of State for Transport how many staff of her Department were responsible for each instance of fraud or attempted fraud in her Department in each of the last 10 years; and if she will make a statement. [214644]

Jim Fitzpatrick: The answer covers the period since the Department was formed on 29 May 2002. Since that date, the number of staff responsible for each instance of fraud in the Department is as follows:

	Number of staff
2002-03	5
2003-04	31
2004-05	25
2005-06	23
2006-07	20
2007-08	22

The number of staff involved for years 2003-04 and 2004-05 also includes fraud committed by staff at South Eastern Trains when the rail franchise was under the direct control of the Strategic Rail Authority.

Heathrow Airport

Mrs. Villiers: To ask the Secretary of State for Transport pursuant to the answer of 18 June 2008, *Official Report*, columns 939-40W, on Heathrow Airport, which of her Department's staff worked with BAA on the work specified in the answer. [218786]

Jim Fitzpatrick: The technical work which underpinned the "Adding Capacity at Heathrow Airport" consultation was managed by the Department's Aviation Directorate. The relevant directors and heads of division leading this were:

Jonathan Moor—Director, Airports Strategy

John Parkinson—Head of Airports Policy Division (from July 2007)

Jonathan Sharrock—Head of Airports Policy Division (up to June 2007)

Martin Capstick—Head of Aviation Environment Division

David Hart—Head of International Networks Analysis and Support Division.

High Speed Trains: EC Law

Mr. Hayes: To ask the Secretary of State for Transport what estimate has been made of the costs of implementing Commission Decision 2008/164/EC on the high speed rail network; and if she will make a statement. [217981]

Mr. Tom Harris: As a result of Commission Decision 2008/164/EC, the Technical Specification for Interoperability—Persons with Reduced Mobility ('PRM TSI') came into force in the UK on 1 July 2008. The PRM TSI sets out accessibility standards for passenger trains and stations on both the conventional and high speed Trans-European Network.

The PRM TSI replaces very similar domestic access standards for stations and trains which had been in place for several years. We do not, therefore, expect that its implementation will have a significant impact on costs.

Highways Agency: Complaints

Mrs. Villiers: To ask the Secretary of State for Transport pursuant to the Answer of 18 June 2008, *Official Report*, Question 209057, whether the Putting Things Right procedure is made available to the public in hard copy. [218793]

Mr. Tom Harris: Yes. Members of the public may request a hard copy of the "Putting Things Right" leaflet from any Highways Agency office or their information line on 08457 50 40 30.

Leicester to London Railway Line

Keith Vaz: To ask the Secretary of State for Transport (1) who the main service provider of the Leicester to London high speed train will be; [218182]

(2) what effect the construction of the high speed train link will have on travel times between Leicester and London until the link has been completed; and what plans she has to reduce adverse effects on travel times during this period. [218184]

Mr. Tom Harris: The Secretary of State invited Network Rail to begin work to develop longer-term options for the railway network. As part of this, on 23 June 2008 Network Rail announced a strategic review of the case for new rail lines. It will consider five of Network Rail's strategic routes, north and west of London: Chiltern, East Coast, West Coast, Great Western and Midland Main Lines. It is too early to say what the results of this study will be or where any potential new lines might go. The study is expected to be complete in July 2009.

Keith Vaz: To ask the Secretary of State for Transport when the railway track improvements between Leicester and London will be completed. [218183]

Mr. Tom Harris: This is an operational matter for Network Rail as the owner and operator of the national rail network. My hon. Friend should contact Network Rail's Chief Executive at the following address for a response to his question:

Iain Coucher
Chief Executive
Network Rail
40 Melton Street
London NW1 2EE.

London to Cardiff Railway Line

Adam Price: To ask the Secretary of State for Transport pursuant to the answer of 1 July 2008, *Official Report*, column 745W, on the London to Cardiff railway line, where the potential new rail line along the Great Western main line being examined by Network Rail would end. [219083]

Mr. Tom Harris: The Secretary of State invited Network Rail to begin work to develop longer-term options for the railway network. In response to this, on 23 June 2008 Network Rail announced a strategic review of the case for new rail lines. It will consider five of Network Rail's strategic routes, north and west of London: Chiltern, East coast, West Coast, Great Western and Midland main Lines. It is too early to say what the results of this study will be or where any potential new lines might go. The study is expected to be complete in July 2009.

Lorries: Accidents

Sir John Stanley: To ask the Secretary of State for Transport in how many serious injury accidents left-hand drive heavy goods vehicles were involved in each of the last three years. [218466]

Jim Fitzpatrick: The numbers of reported serious road accidents involving at least one foreign registered left hand drive heavy goods vehicle in Great Britain in 2005-07 are shown in the following table.

	Number of serious injury accidents
2005	93
2006	77
2007	93

Motor Vehicles: Carbon Emissions

Norman Baker: To ask the Secretary of State for Transport pursuant to the written ministerial statement of 10 July 2008, *Official Report*, columns 88-90WS, on new cars: emissions targets, what position she has taken in discussions with the EU in respect of a possible derogation for Jaguar and Land Rover. [219801]

Jim Fitzpatrick: The UK is not seeking a derogation for any one specific automotive manufacturer. The UK position is that manufacturers that only produce a narrow range of products, while still being subject to challenging mandatory targets, should not be unfairly disadvantaged as compared to their competitors who produce a wider range of vehicle types. Our position on this is set out in more detail in the new car CO_2 consultation document on the DfT website.

Motor Vehicles: Testing

Mrs. Villiers: To ask the Secretary of State for Transport how much the Vehicle and Operator Services Agency spent on its vehicle testing centres in 2007-08. [218788]

Jim Fitzpatrick: The cost of running Vehicle and Operator Services Agency's testing centres in 2007-08 was £6.9 million, this includes rent, rates and maintenance and other locally incurred costs such as telecommunications. This figure excludes staff related costs and major improvement programmes.

Mrs. Villiers: To ask the Secretary of State for Transport how many vehicle test centres are managed by the Vehicle and Operator Services Agency. [218789]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) manages 89 goods vehicle testing stations, with a further five single vehicle approval/vehicle identity check sites.

Motorways: Accidents

Mr. Amess: To ask the Secretary of State for Transport how many road accidents involving stationary vehicles on motorway hard shoulders were reported in each year since 2004, broken down by motorway; and how many people were *(a)* injured and *(b)* killed in each case. [219554]

Jim Fitzpatrick: The total number of road traffic accidents on motorway hard shoulders that have resulted in personal injury (PIAs) in each year since 2004, are listed in the following table. The statistics include all motorways that are the responsibility of the Highways Agency, with at least one accident.

	Accidents				*Killed casualties*				*All casualties*			
Road	*2004*	*2005*	*2006*	*2007*	*2004*	*2005*	*2006*	*2007*	*2004*	*2005*	*2006*	*2007*

Park and Ride Schemes

Mrs. Riordan: To ask the Secretary of State for Transport what steps her Department is taking to encourage the operation of park and ride schemes. [220047]

Ms Rosie Winterton: Park and ride schemes play an important part in helping to tackle congestion in many local areas. They are one of a range of policy tools suggested by the full guidance on the second Local Transport Plans (2006-11), published in December 2004.

Most schemes are funded through the integrated transport block, which the Department allocates to support local transport plans (LTPs). This totals £576 million for 2008-09.

During the first LTP period (2001-06), local transport authorities in England (outside of London) spent a total of £72.5 million of LTP funding on improving 92 existing park and ride facilities and delivering 76 new park and ride schemes.

Railways

Lembit Öpik: To ask the Secretary of State for Transport how many passenger delay minutes for Virgin Trains there were in each quarter since January 2006; and what proportion of these delays were caused by *(a)* Virgin Trains and *(b)* Network Rail in each quarter. [218676]

Mr. Tom Harris: The information requested is in the following table.

	Delay minutes caused by Virgin Trains services	Proportion of delay caused by Network Rail (percentage)	Proportion of delay cause by Virgin Trains (percentage)
Q4, 2005-06	131,712	71	16
Q1, 2006-07	125,949	67	19
Q2, 2006-07	151,340	67	20
Q3, 2006-07	205,026	68	16
Q4, 2006-07	158,011	74	14
Q1, 2007-08	144,987	74	14
Q2, 2007-08	160,235	73	16
Q3, 2007-08	269,973	70	14
Q4, 2007-08	183,881	75	12
Q1, 2008-09	166,608	79	9

Note:
Remaining percentage is accounted for by delays to Virgin Trains caused by other train operators

'Quarterly' data are reported in four weekly periods. Quarter 3 of each year comprises four four-weekly periods and the other quarters comprise three four-weekly periods.

A proportion of delays are caused by other train operators rather than Network Rail or the operator of the train affected.

Lembit Öpik: To ask the Secretary of State for Transport how many passenger delay minutes for Arriva Trains Wales there were in each quarter since January 2006; and what proportion of these delays were caused by *(a)* Arriva Trains Wales and *(b)* Network Rail in each quarter. [218677]

Mr. Tom Harris: The information requested is in the following table:

	Q4 2005-06	Q1 2006-07	Q2 2006-07	Q3 2006-07	Q4 2006-07	Q1 2007-08	Q2 2007-08	Q3 2007-08	Q4 2007-08	Q1 2008-09
Delay minutes caused to Arriva Trains Wales' services	208,447	244,250	277,951	331,242	182,356	143,412	160,811	210,637	139,037	142,437
Proportion of delay minutes caused by Network Rail (%)	36	35	42	42	47	45	48	43	46	48
Proportion of delay minutes caused by Arriva Trains Wales (%)	55	57	51	50	45	47	44	45	44	41

Note: Remaining percentage is accounted for by delays to ATW trains caused by other train operators.

'Quarterly' data are reported in four weekly periods. Quarter 3 of each year comprises four four-weekly periods and the other quarters comprise three four-weekly periods. A proportion of delays are caused by other train operators rather than Network Rail or the operator of the train affected.

Mr. Drew: To ask the Secretary of State for Transport what account her Department takes of the provision of unadvertised rail services to compensate for network repairs or other unforeseen events when evaluating the performance of train operating companies. [219133]

Mr. Tom Harris: The public performance measure for rail takes account of service alterations made in advance, in order to reflect properly how trains have run compared with the train service plan for any particular day.

Services are measured against the plan in place for that day, and the evaluation of a train operating company's performance will therefore reflect events where services may be disrupted.

Railways: Electrification

Mrs. James: To ask the Secretary of State for Transport what assessment she has made of the potential for electrification of those main line railway lines served exclusively by diesel locomotives at present. [217718]

Mr. Tom Harris: The Department for Transport is working closely with the rail industry to re-examine the business case for electrification, explore how costs can be reduced and to agree priority schemes. This assessment will include those main line railway lines served exclusively by diesel locomotives at present. The aim is to produce an indicative implementation plan by the end of 2008.

Railways: Rolling Stock

Stephen Hammond: To ask the Secretary of State for Transport pursuant to the answer of 19 June 2008, *Official Report*, column 1068W, on railways: rolling stock, whether her Department previously held or collated this information. [217641]

Mr. Tom Harris: This information was previously collated on an ad hoc basis for specific requirements. This information can be accessed via the Railway Press, from individual train operating companies or from ATOC which can be contacted at the following address:

ATOC
3rd Floor
40 Bernard Street
London
WC1N 1BY

Roads

Mrs. Riordan: To ask the Secretary of State for Transport what steps the Government is taking with local authorities to ease traffic congestion in local communities. [220009]

Ms Rosie Winterton: I refer the hon. Member to the written ministerial statement, 'Roads—Delivering Choice

and Reliability', made by my right hon. Friend the Secretary of State for Transport on 16 July 2008, *Official Report*, columns 32-34WS.

Roads: Accidents

Chris Huhne: To ask the Secretary of State for Transport how many fatalities there have been in road traffic accidents per hundred thousand passenger miles in each year since 1995. [219878]

Jim Fitzpatrick: The fatality rates per billion passenger kilometres by road user type in Great Britain from 1995 to 2006 are given in the table.

Number of fatalities per billion passenger kilometres[1]

	Car	*Van*	*Bus or coach*	*Motorcycle*	*Pedestrian*	*Pedal cycle*
1995	2.9	1.2	0.8	109.9	56.7	51.4
1996	3.0	1.0	0.2	108.4	55.9	49.8
1997	2.9	1.0	0.3	119.0	57.5	44.8
1998	2.8	1.0	0.4	112.2	50.1	40.0
1999	2.7	0.9	0.2	112.7	50.0	42.2
2000	2.7	0.9	0.3	122.5	49.0	30.5
2001	2.8	0.9	0.2	112.1	47.5	32.6
2002	2.7	1.0	0.4	111.0	42.0	29.4
2003	2.7	0.9	0.2	114.4	41.3	25.3
2004	2.6	0.8	0.4	105.1	35.3	31.8
2005	2.6	0.6	0.2	97.0	36.2	33.4
2006	2.5	0.6	0.3	107.0	35.5	32.0

[1] Car, van, bus or coach, motorcycle and pedal cycle passenger kilometres are derived from Traffic data. Pedestrian kilometres are derived from National Travel Survey data.

The information is published on the Department's website in table 7.1a and 7.1b in Transport Trends 2007 edition, at:

http://www.dft.gov.uk/pgr/statistics/datatablespublications/trends/current/section7safety.xls

Roads: Gloucestershire

Mrs. Villiers: To ask the Secretary of State for Transport (1) how much extra funding has been requested by Gloucestershire County Council under the emergency capital highways maintenance scheme in the last two years; [218661]

(2) on what date Gloucestershire County Council last applied for extra funding under the emergency capital highways maintenance scheme; [218662]

(3) when she expects to make a decision on the *(a)* eligibility for and *(b)* level of any extra support available to Gloucestershire County Council under the emergency capital highways maintenance scheme. [218663]

Ms Rosie Winterton: I have today announced £6.5 million of capital highways maintenance funding for Gloucestershire county council to assist with their recovery from last summer's floods. This is in addition to £10.048 million that I announced in March this year, and brings the total funding from my Department to £16.548 million. This sum represents the total amount of funding requested by the county council in their claims of 20 December 2007 and 13 June 2008.

Roads: Safety Measures

Stephen Hesford: To ask the Secretary of State for Transport what improvements her Department has made to road safety since 2005. [219920]

Jim Fitzpatrick: The Road Safety Strategy includes three targets.

By 2010 we want to achieve, compared to the average for 1994-98:

a 40 per cent. reduction in the number of people killed or seriously injured in road accidents (KSIs);

a 50 per cent. reduction in the number of children killed or seriously injured; and

a 10 per cent. reduction in the slight casualty rate, expressed as the number of people slightly injured per 100 million vehicle kilometres.

The second review of the Government's Road Safety Strategy details the actions taken towards achieving the casualty reduction targets for 2010 and is published on the DFT website at:

http://www.dft.gov.uk/pgr/roadsafety/strategytargetsperformance/

The latest results on road safety statistics for 2007 have been published on the DFT website. Overall, deaths have fallen by 7 per cent. compared to 2006, to 2,943. Serious injuries were down 3 per cent. KSIs are now 36 per cent. below the 1994-98 average baseline, and child KSIs fell by 6 per cent. and are now 55 per cent. below the baseline.

Roads: Surveying

Norman Baker: To ask the Secretary of State for Transport (1) for what reason the CHART visual survey data collected by local highway authorities on principal and classified roads across England for the 2007 national road conditions survey were not collated and published; [213386]

(2) for what reason the CHART visual surveys on all roads were discontinued; what account was taken of the advice of highways officers on the UK Roads Board road performance management group in making the decision; and if she will make a statement; [213387]

(3) what consultations her Department conducted with professional groups and local highway authorities before the decision to discontinue CHART visual surveys on all roads was taken; [213388]

(4) what assessment she has made of the effects of the lack of 2007 visual survey data for principal and classified roads on long-term trend studies into road condition; and if she will make a statement; [213389]

(5) what methodology will be used to survey the condition of unclassified roads in 2008; [213390]

(6) what information is available for members of the public to determine whether road conditions, other than for roads under the control of the Highways Agency, are improving or deteriorating. [213516]

Ms Rosie Winterton: The Government recognise the need for national data which may be used to monitor whether the condition of roads is improving or deteriorating. But there has been mounting dissatisfaction over a number of years with the quality of CHART visual surveys, which are based on judgments of conditions by engineers, and a programme of work is taking place supported by the Department and the UK Roads Board to develop more sophisticated machine-based surveys.

The 2006 statistical report on road conditions stated that CHART data would not be collected in 2007 for classified roads. More extensive and detailed data would instead become available from machine scans of the road surface (SCANNER surveys), the same source used by local authorities for reporting best value performance indicators (BVPIs) on classified road condition. This same source will be used for authorities reporting against their local area agreements. The Department has commissioned research to develop appropriate methods for producing national estimates from these complex data, which should be available in 2009. At that point, it will be possible to produce several years' results at once to allow analysis of trends in the condition of classified roads.

Indicators from the BVPI reporting regime were also included in the statistical report "Road Conditions in England 2007". These can be compared with the BVPI results which were reported in previous statistical reports.

CHART visual surveys for the unclassified network continued until 2007-08, but, following consultation with the LGA and with the UK Roads Board, have not been requested in 2008-09. Most local authorities rely on their own programme of inspection and asset management to determine the condition and maintenance needs of unclassified roads, and there has been a declining response rate to the request for CHART data to support the national survey, with only two-thirds of local authorities responding in 2007-08.

The Road Conditions in England statistical report published in June 2008 provided members of the public and highway officers with the latest information on road conditions. The next statistical report, intended for publication in 2009, will include several years' data on classified roads. For unclassified roads, DFT will continue to work with the UK Roads Board to determine how best to measure and survey road conditions with an intention of national surveys every three to five years.

Members of the public interested in the condition of their own authority's roads will have available annual indicators published as part of local area agreements. Many authorities also publish their own local data. We have encouraged authorities to prepare asset management plans for local authority, and have announced that at least £15 million will be available to help them do so in 2009-10.

Roads: Tolls

Mrs. Villiers: To ask the Secretary of State for Transport (1) whether her plans for a national road pricing scheme will be limited to roads under the jurisdiction of the Highways Agency; [209464]

(2) how much her Department has spent on identification and development of the technologies required to implement a national road pricing scheme in the last five years; [209465]

(3) what her most recent estimate is of the cost of implementing a national road pricing scheme; [209466]

(4) which consultants and contractors her Department is working with on matters relating to a national road pricing scheme; and which were so engaged by her Department in each of the last five years; [209468]

(5) whether her Department has identified preferred bidders for implementation of national road pricing trials; [209469]

(6) how much her Department has allocated for trials of a national road pricing scheme; and how much of this has been spent to date; [209470]

(7) when she expects work to commence on the installation of equipment required for national road pricing trials. [209472]

Ms Rosie Winterton: In the four years since work began on following up the Feasibility Study of Road Pricing in the UK, the Department has spent £9.3 million on technical and professional advice to inform the way that pricing could be used to tackle road congestion; for example in the local charging schemes that are being developed by local authorities.

Our priority, now and over the next decade, is to tackle congestion, focusing on where it is a problem—in towns and cities and on motorways. The Command Paper 'Roads—Delivering Choice and Reliability', published on 16 July, sets out how we intend to do this.

Our plans for testing technology are set out in the same document. We expect that the Demonstrations Project we are about to commission will lead the way to developing better systems that could support urban schemes, possibly over a wider area than have been developed to date, as well as informing our thinking on managing motorway capacity.

Mrs. Villiers: To ask the Secretary of State for Transport in which areas road pricing trials will take place. [209471]

Ms Rosie Winterton: I refer the hon. Member to the written ministerial statement, 'Roads—Delivering Choice and Reliability', made by the Secretary of State for Transport, on 16 July 2008, *Official Report,* columns 32-34WS. It will be for the contractors to propose how and where best to demonstrate their capabilities.

Rolling Stock

Mrs. Villiers: To ask the Secretary of State for Transport pursuant to the answer of 7 July 2008, *Official Report,* column 1194W, on rolling stock, if she will publish the quantitative analysis her Department

carried out to determine how many new rail carriages should be provided to tackle capacity problems on the rail network under the High Level Output Specification statement of July 2007. [218839]

Mr. Tom Harris *[holding answer 14 July 2008]:* Illustrative train service enhancement options were developed by the Department for Transport to demonstrate that the HLOS capacity requirements can be delivered. This analysis was published on the Department's website in July 2007 to accompany the Rail White Paper. It can be accessed at:

http://www.dft.gov.uk/about/strategy/whitepapers/whitepapercm7176/railwphlsospecimen

Exact detail of estimated deployment of rolling stock numbers is not given for commercial reasons.

Mrs. Villiers: To ask the Secretary of State for Transport what estimate she has made of the percentage of forecast passenger growth to 2014 which will be carried by the 1,300 new carriages planned to be provided by that date. [218840]

Mr. Tom Harris *[holding answer 14 July 2008]:* The 1,300 extra carriages are estimated to be sufficient to carry the forecast growth of an extra 80,700 morning peak passengers in London and English urban areas between 2009 and 2014. They will also meet the majority of the peak growth on the long distance routes.

Mrs. Villiers: To ask the Secretary of State for Transport pursuant to the answer of 7 July 2008, *Official Report,* column 1194W, on rolling stock, what estimates her Department made in preparation of the 2007 Rail White Paper, of the proportion of the 1,300 extra carriages announced in the White Paper that would be *(a)* Pendolinos for the West Coast Main Line and *(b)* Thameslink Programme carriages. [218841]

Mr. Tom Harris *[holding answer 14 July 2008]:* Of the 1,300 carriages, 106 are estimated to be Pendolinos for the West Coast Main Line. The extent to which the Thameslink carriages overlap with the 1,300 cannot yet be accurately estimated since it depends on a number of factors including the outcome of the High Level Output Specification agreed with the Train Operating Companies.

Schools: Speed Limits

Mrs. Riordan: To ask the Secretary of State for Transport whether her Department has conducted research into the likely effect on the number of children and parents choosing to walk or cycle to school of the speed limit around their schools and homes being reduced to 20 miles per hour. [220008]

Jim Fitzpatrick: The Department has not carried out specific research on the impact that 20 mph zones would have on increasing walking and cycling. However, the hon. Member may be interested in our Links to Schools programme, which provides walking and cycling routes from residential areas to schools via the National Cycle Network. Our monitoring of these links shows twice as much cycling to school and 8 per cent. more walking to school. We have already spent over £18 million on this programme since 2005 linking up over 600 schools and plan to extend it to a further 500 schools by 2011.

The Department has commissioned a new research project on local road safety policy and practice, and information about the implementation of 20 mph zones will be collected from local authorities as part of this study.

This new project, titled "Local road safety evaluation and action learning" was commissioned in February 2008 and will take three years, with an interim report due in March 2009. The research is likely to include a survey of local authorities, which will cover 20 mph zones and other local road safety issues.

Mrs. Riordan: To ask the Secretary of State for Transport what assessment her Department has made of the effectiveness of implementing 20 mph zones in the vicinity of *(a)* nurseries and *(b)* schools. [220137]

Jim Fitzpatrick: There has been no assessment of the effectiveness of 20 mph zones specifically in the vicinity of nurseries and schools. However, the Transport Research Laboratory conducted two reviews of 20 mph zones in 1996 and again in 1998.

The 1996 review found that 20 mph zones which incorporated traffic calming measures achieved an average 9 mph reduction in vehicle speeds, annual accident frequency fell by 60 per cent. and overall reduction in child accidents of 67 per cent.

The 1998 review looked at wider issues in terms of vehicle speeds and included 20 mph zones and 20 mph limits where there was lesser or no traffic calming. This found reductions in vehicle speeds were minimal without traffic calming.

The Department has however recently commissioned a new research project on local road safety policy and practice, and information about the implementation of 20 mph zones will be collected from local authorities as part of this study.

Stansted Airport

Mr. Heald: To ask the Secretary of State for Transport what assessment she has made of the likely effect of conditions in the economy on proposals to build a second runway at Stansted Airport. [219340]

Jim Fitzpatrick: The most recent assessment of the economic case for the additional capacity at Stansted airport supported in the "Future of Air Transport" White Paper was reported in "UK Air Passenger Demand and CO_2 Forecasts", available at:

http://www.dft.gov.uk/pgr/aviation/environmentalissues/ukairdemandandco2forecasts/

We expect to provide an update to this report, taking account of revised economic projections, when we announce policy decisions on the future development of Heathrow airport later this year.

Tolls

Mrs. Villiers: To ask the Secretary of State for Transport when she expects to make a decision on whether to introduce national road pricing. [210602]

Ms Rosie Winterton: I refer the hon. Member to the answer given to her today (UIN 209464).

Transport: Greater London

Stephen Hammond: To ask the Secretary of State for Transport when she next expects to meet the Mayor of London to discuss transport in London. [217773]

Ms Rosie Winterton: The Secretary of State met with the Mayor of London recently and expects to continue the programme of regular meetings established with his predecessor.

DUCHY OF LANCASTER

10 Downing Street: Cost Effectiveness

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what requirements there are on 10 Downing Street to make Gershon efficiency savings. [217399]

Mr. Watson: The Prime Minister's Office forms an integral part of the Cabinet Office. The original requirements for Departments were set out in Sir Peter Gershon's "Releasing resources for the frontline: Independent Review of Public Sector Efficiency", published by HM Treasury as part of SR2004. The review, including the original Cabinet Office requirement, can be found on the HM Treasury website:

http://www.hm-treasury.gov.uk/spending_review/spend_sr04/associated_documents/spending_sr04_efficiency.cfm

Copies are available in the Library of the House.

Ministerial Policy Advisers: Codes of Practice

Mr. David Jones: To ask the Chancellor of the Duchy of Lancaster what guidance he issues to special advisers on compliance with the provisions of the Civil Service Code in respect of online participation. [219608]

Mr. Watson: I refer the hon. Member to the answer I gave to my hon. Friend the Member for Blaydon (Mr. Anderson) on 18 June 2008, *Official Report*, column 929.

INTERNATIONAL DEVELOPMENT

Africa: Food Aid

Mr. Drew: To ask the Secretary of State for International Development how much the World Food Programme's programme of food aid to Africa has cost in each of the last 10 years; and what his Department's contribution to the programme was in each year. [219130]

Gillian Merron: The following table shows how much the UN World Food Programme's (WFP) food aid programmes in sub-Saharan Africa cost over the last 10 years and the Department for International Development's (DFID) direct bilateral contributions in each year.

	Expenditure	*Million USD DFID contributions*
1997	501.7	n/a
1998	646.9	n/a
1999	633.0	n/a
2000	637.5	3.8
2001	885.6	6.6
2002	899.4	71.4
2003	1,514.0	64.6
2004	1,381.7	76.7
2005	2,042.9	67.1
2006	1,761.9	92.7
2007	1,831.6	48.8
Total	12,736.3	—

n/a = Not available.

The DFID contributions shown do not take account of significant UK funding to WFP through the following multilateral channels:

The European Commission

The EC is a very significant donor to WFP, contributing USD 250 million to WFP's global operations in 2007 alone. Approximately. 18 per cent. of EC funds come from the UK.

The UN Central Emergency Response Fund

The UK is the largest donor to the CERF, which allows the UN to allocate resources to under-funded and rapid onset emergencies. DFID has provided over £100 million to the CERF since its establishment in 2006. WFP have received some USD 328 million of funding from the CERF for their global operations over this time.

Pooled funds

All of DFID's humanitarian funding to WFP in Sudan and DRC is now channelled through pooled funds, which are managed by the UN. DFID has provided £129 million in Sudan and £90 million in DRC through the pooled funds since their creation in 2006. WFP has received USD 54 million and USD 16 million respectively from these funds. This change in funding channels in the two largest humanitarian operations partly accounts for the apparent downturn in DFID's bilateral support to WFP operations in Africa from 2006 to 2007 in the aforementioned table.

Departmental Research

Bob Spink: To ask the Secretary of State for International Development what proportion of his Department's budget was spent on research in each of the last 10 years. [218067]

Mr. Malik: The proportion of Department for International Development (DFID) Programme expenditure used for research in each of the last 10 years is shown in the following table:

Table 1: Proportion of DFID programme expenditure used for research since 2002-03

	Programme expenditure (Percentage)
1998-99	2.39
1999-2000	2.77
2000-01	2.58
2001-02	3.17
2002-03	3.08
2003-04	2.58
2004-05	2.46
2005-06	2.37
2006-07	2.40
2007-08	2.61

Developing Countries: Land

John Battle: To ask the Secretary of State for International Development what assessment his Department has made of those regions which will be worst affected by land degradation between 2008 and 2015; and if he will make a statement. [218027]

Mr. Thomas: The Department for International Development (DFID) does not undertake its own assessment of regions that will be worst affected by land degradation. However, we work closely with organisations, funded by DFID, that have expert capacity in this area (such as the International Institute for Environment and Development). We also draw on recent international assessments; for example, the Food and Agricultural Organisation's Global Assessment of Land Degradation and Improvement (GLADA) that was released on 2 July. Based on quantitative analysis, and use of satellite imagery, this identifies southern Africa, Burma, Malaysia, Indonesia and south China as areas particularly affected by degradation. 1.5 billion people depend on degrading areas for their livelihoods. The 2007 United Nations Environment Programme's Global Environmental Outlook 4 (GEO-4) included an assessment of land degradation and concluded that demands on land resources and risks to sustainability are likely to intensify.

Better land management can prevent and reverse degradation leading to improved agricultural production and availability of other resources such as forest products. The recent GLADA provides positive examples of land improvement such as land reclamation in north China. DFID has worked with the World Bank in its projects to better manage land and reduce poverty in the degraded and remote Loess Plateau region of north China. The World Bank funded improved land use and erosion control, boosting incomes for farmers, with DFID assistance focused on improved benefits for the poorest.

Overseas Aid

Mr. Drew: To ask the Secretary of State for International Development what models his Department uses to project the effects of *(a)* food shortages, *(b)* fuel price increases, *(c)* climate change and *(d)* water distribution issues in developing countries; and what contribution such modelling makes to the process of policy formulation in his Department. [218506]

Mr. Douglas Alexander: The Department for International Development (DFID) relies on estimates made by credible and expert international development organisations and research institutions. In particular:

(a) On food shortages, the World Food Programme, International Food Policy Research Institute and the Food and Agriculture Organisation's Integrated Phase Classification (a predictive food security tool).

(b) On fuel prices the Energy Information Administration (EIA) and the International Monetary Fund (IMF). Their models consider supply and demand expectations as well as other relevant factors such as geopolitics, policies of national governments and technical and geological factors. We also make use of robust models employed by the World Bank and the IMF to understand the impact of the fuel price increases on developing countries.

(c) On climate change, the Hadley Centre's Providing Regional Climates for Impacts Studies (PRECIS), the Global Carbon Finance Model (GLOCAF), an economic model developed by the UK Office of Climate Change (OCC), and the impact assessments of the Intergovernmental Panel on Climate Change (IPCC).

(d) On water we use the UN's data for monitoring progress towards the MDGs, including financial models which estimate the cost of achieving the MDGs. For water resources we use the United Nations World Water Development Report, which uses a number of hydrological and water resources models to assess supply and demand.

DFID development policies and assistance are formulated mainly at country level. Information from models feeds directly into our development policies, for example we use climate models to propose actions to reduce climate related risks to partner countries and DFID programmes, to estimate the costs to developing countries of moving to a low carbon global economy and inform the UK position at the climate negotiations.

Somalia: Overseas Aid

Mr. Keith Simpson: To ask the Secretary of State for International Development what recent reports he has received on the situation of British aid workers in Somalia; and whether all British aid workers known to be working in Somalia are accounted for. [218323]

Gillian Merron: The UK Government work in close liaison with the Somalia non-governmental organisation (NGO) consortium who maintain a register of all international aid workers present in Somalia. They also circulate frequent security reports which highlight any incidents involving international aid workers.

One UN-contracted British aid worker was kidnapped on 1 April 2008. The UK Government are working with United Nations (UN) authorities to secure his release. Otherwise all British aid workers are accounted for under the auspices of the Somalia NGO consortium and UN agencies. The UK Government have no resident presence on the ground and any staff visits are subject to rigorous security clearance.

Zimbabwe: Sanitary Protection

John Mann: To ask the Secretary of State for International Development what steps his Department is taking to help women in Zimbabwe access sanitary protection. [219413]

Gillian Merron: The problem of sanitary provision in Zimbabwe is part of the wider political and economic crisis which has led to an acute shortage of basic and essential goods.

The Department for International Development's (DFID) current programme of assistance aims to protect the livelihoods of more than 1.5 million poor people in Zimbabwe, tackle HIV/AIDS, and help meet humanitarian needs. Although there is no specific allocation, some of our NGO partners are providing sanitary products to girls and young women as part of a £22 million programme of support to orphans and vulnerable children. Our £5 million programme with the International Organisation for Migration (IOM) to support internally displaced people and deportees is also providing sanitary wear in non-food emergency packs. To date 2,092 female victims of the recent wave of political violence have received sanitary wear from IOM.

TREASURY

Double Taxation

Jim Cousins: To ask the Chancellor of the Exchequer how many reports he received under the terms of each double taxation agreement with a non-EU tax jurisdiction in each of the last five years. [219800]

Jane Kennedy: HM Revenue and Customs does not release statistics on the number of exchanges of information with individual countries and territories, as release of this information may be detrimental to tax enforcement and the operation of the relevant arrangements under which the information is exchanged.

Excise Duties: Fuels

Dr. Kumar: To ask the Chancellor of the Exchequer if he will reduce levels of fuel tax. [219844]

Mr. Darling: I am postponing the 2p per litre increase in fuel duty that was planned to take place on 1 October 2008 to support motorists and businesses in the face of sharp rises in world oil prices.

This means that main road fuel duty rates will remain at 50.35p per litre after 1 October this year. The duty is 17 per cent. lower in real terms than in 1999.

Consequential increases in road fuel gases, biofuel duty rates and rebated oils rates will also be postponed.

Postponing the planned increase in fuel duty is consistent with the Government's commitment to support the Bank of England in maintaining low inflation.

Investment Income Surcharge

Jim Cousins: To ask the Chancellor of the Exchequer if he will estimate the income to the Exchequer in 2007-08 had an investment income surcharge of the form in existence until 1983 been in place. [219777]

Jane Kennedy: Applying a surcharge of 15 per cent. to individuals' investment income above an exemption limit of £19,000 would yield around £4.9 billion in respect of the 2007-08 tax year, although most of this income would not be received until the following year.

Minimum Wage

Mr. Laws: To ask the Chancellor of the Exchequer what assessment he has made of the effect of the minimum wage on *(a)* child poverty, *(b)* pensioner poverty and *(c)* poverty in working age households without children in each year from 1997 to 2008; and if he will make a statement. [218286]

Jane Kennedy: Since its introduction in 1999 the national minimum wage has increased by 59 per cent. It has helped to narrow the regional pay gap and had a positive effect on the earnings gap of disadvantaged groups such as workers with disabilities, women (around two thirds of the workers who stand to benefit from the October 2008 rise are women) and certain ethnic minorities. Through the introduction of tax credits and the NMW, this Government provided a minimum income guarantee for the first time. In October 2008 this will guarantee that every family with one child and one person working 35 hours a week will receive a minimum income of £295 per week. For the similar families without children, this figure is £225.

National Insurance Contributions: Females

Steve Webb: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the flyer that employers were asked to pass to married women with their pay slips in the 1970s with an election to pay the reduced rate of national insurance, to inform them about the phasing out of the reduced rate contribution. [219778]

Jane Kennedy: Copies of all the extant documentation relating to this matter were placed in the House of Commons Library in 2003—20 January 2003, *Official Report*, column 86W.

PAYE

Nick Ainger: To ask the Chancellor of the Exchequer how many PAYE records have not been clerically reviewed for *(a)* 2003-04, *(b)* 2004-05 and *(c)* 2005-06. [216620]

Jane Kennedy: At 27 June 2008 the number of PAYE records that have not yet had any clerical review was.

	Number
2003-04	361,548
2004-05	1,889,148
2005-06	2,514,023

Revenue and Customs: Wales

Mr. Roger Williams: To ask the Chancellor of the Exchequer what estimate he has made of the effect on costs of increased travel allowances for staff relocated from HM Revenue and Customs' Brecon office to an alternative tax office. [217250]

Jane Kennedy *[holding answer 8 July 2008]:* Financial considerations are examined in detail in the feasibility phase of reviews, and maximum costs of extra travel for staff are published in the impact assessments produced by HMRC once closure decisions have been announced for particular buildings. These can be found on the HMRC website:

http://www.hmrc.gov.uk/local/change-programme.htm.

Mrs. Gillan: To ask the Chancellor of the Exchequer what assessment he has made of the environmental impact of closures of HM Revenue and Customs (HMRC) offices in Wales, including the impact of additional travel by HMRC staff. [219639]

Jane Kennedy: HM Revenue and Customs (HMRC) is committed to reducing its environmental footprint. Although closure of offices may mean additional travelling time for some people, by reducing the number of offices HMRC occupies and using the remaining office space more efficiently, it will reduce its heating, lighting and IT equipment emissions, and so reduce its carbon footprint.

Mrs. Gillan: To ask the Chancellor of the Exchequer what visits have been made by the workforce change team to each HM Revenue and Customs office in Wales which is proposed for closure; and what the date of each visit was. [219640]
